INTRODUCTORY SECTION

DON SIEGELMAN Governor

HENRY C. MABRY, III Director of Finance STATE OF ALABAMA DEPARTMENT OF FINANCE OFFICE OF THE STATE COMPTROLLER

> RSA UNION 100 North Union Street, Suite 220 Montgomery, Alabama 36130-2602 Telephone (334) 242-7050 FAX (334) 242-2440

> > ROBERT L. CHILDREE State Comptroller

March 31, 2001

To the Honorable Governor, Members of the State Legislature, and the Citizens of Alabama:

I am pleased to submit to you the Comprehensive Annual Financial Report (CAFR) for the State of Alabama for the year ended September 30, 2000. I believe the information as presented is accurate in all material respects and complies with Article IV, Section 72 of the *Constitution of Alabama of 1901* and Section 41-4-3(4) of the *Code of Alabama 1975*, as amended. The completeness and fairness of the presentation, including all disclosures, rests with the State's management. This report complies with Article V, Section 137 of the *Constitution of Alabama of 1901* and Section 36-16-1(6) of the *Code of Alabama 1975*, as amended, as the financial report for the State Auditor, State Treasurer, and State Comptroller.

Description of CAFR

The Comprehensive Annual Financial Report is divided into three sections:

- The Introductory Section contains this letter of transmittal, which includes financial highlights for 2000, the Certificate of Achievement for Excellence in Financial Reporting for the September 30, 1999 CAFR, a list of principal officials at September 30, 2000, and the State organization chart.
- The Financial Section includes the general purpose financial statements (combined statements and notes), combining financial statements, individual fund and account group statements, supplemental statements and schedules, and the Independent Auditor's Report.
- The Statistical Section includes selected financial and demographic information about the State, with an emphasis on multi-year trends.

This report presents financial information on all of State government as a single reporting entity. While State law allows many State organizations to operate largely independent of the daily central control and scrutiny of the State Finance Department, State Auditor, and State Treasurer, this report combines the financial data of all State organizations in order to present a comprehensive picture of State finances. The numerous departments, agencies, elected officials, boards, commissions, authorities, colleges, universities, and other organizational units of the State are included in this report in accordance with standards established by the Governmental Accounting Standards Board. These standards make a distinction between organizations which are considered to be part of the primary government of the State and those which are component units. A component unit is defined as a legally separate corporate entity for which the State is considered to be financially accountable. The criteria used to determine financial accountability includes the appointment of a majority of the governing board, the ability of the State to impose its will on the organization, and the potential for the organization to be a financial benefit or financial burden to the State. The State is also considered financially accountable for any organization having an independently appointed board if that organization is fiscally dependent on the State. An organization is fiscally dependent if it is unable to adopt a budget, set rates or charges, or issue bonded debt without the approval of the State. Component units can be reported as if they are a part of the primary government ("blended presentation") if they provide services solely to the government, but most of the State's component units do not and are therefore presented separately ("discrete presentation") in these financial statements. The largest of the blended component units includes the Corrections Institution Finance Authority, Industrial Access Road and Bridge Authority, and the Building Renovation Finance Authority. The most significant discretely presented component units are the Retirement Systems of Alabama, the Alabama Water Pollution Control Authority, the Department of Mental Health and Mental Retardation, the Alabama Housing Finance Authority, the four-year colleges and universities, and the Alabama Public School and College Authority. Note 1 to the financial statements provides a more complete description of the State's reporting entity.

Economic Condition and Outlook

In the past three years, Alabama's economy has been driven by growth in consumer spending, services, residential, and commercial construction, and state and local governments. Alabama's economy grew 3.4 percent in 2000 compared to 3.5 percent in 1999. Four factors contributed to the slowdown of the state economy in 2000: higher energy prices, high consumer debt, more job losses in manufacturing, and slower income growth. Increased energy prices act as a tax on disposable income, reducing consumer expenditures on other items.

Personal income growth in 2000 grew approximately 4.3 percent compared to 4.4 percent in 1999. Lost manufacturing jobs and increased retail trade jobs result in slower income growth. Failure to add high-wage jobs is the primary reason why state income growth has not kept up with the national rate.

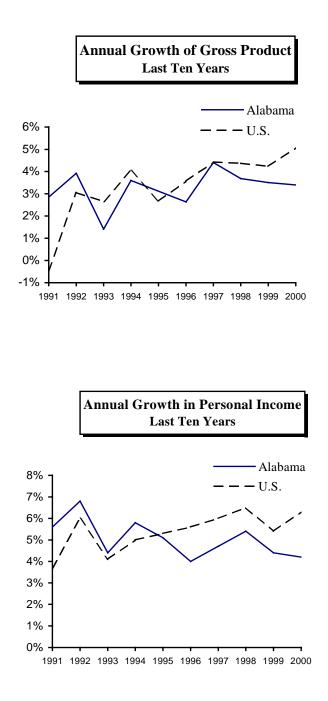

The manufacturing sector, which accounts for about 20 percent of the state's total nonagricultural employment, lost almost 12,000 jobs in the last two years. Durable goods manufacturers lost about 3,000 jobs and nondurable goods producing industries lost 9,000 jobs. Most of the job losses were in the textile and apparel industries. With the exception of transportation equipment manufacturing, all manufacturing industries lost jobs.

During the first half of 2000, Alabama exports rose by nearly 10.9 percent over the same period in 1999. Most exports were to Canada, Mexico, or Japan. Transportation equipment exports, the state's largest category, declined by 16.2 percent. Chemical products, paper products, industrial and electrical machinery, and electronics exports increased by 23.7, 32.4, 18.5, and 24.8 percent, respectively. These top five products accounted for almost 60 percent of all exports from Alabama during 2000.

Since 1998, when Mercedes-Benz decided to assemble the Mclass vehicle at their plant in Vance, Alabama, there has been a phenomenal increase in exports to Austria. Austria is now Alabama's fourth largest export market. Exports to Austria during the first half of 2000 increased by almost 298 percent over the same period last year. Transportation equipment has become the state's largest export and Mercedes-Benz has become the state's largest exporter, sending over \$700 million in vehicles and parts to approximately 135 countries around the world.

There were approximately 3,600 new jobs in the construction sector in 2000, an increase of 3.6 percent over the previous year. From August 1999 to August 2000, the average selling price of a home increased by 8.5 percent statewide and home sales dropped by 5.8 percent. However, housing sales still remain fairly strong. Strong employment growth and consumer confidence in the economy continue to drive home sales, despite higher interest rates and higher prices in 2000.

The forecast for 2001 is for slower growth than in 2000. Alabama's gross state product is expected to increase by 3.1 percent in 2001. Services, such as technology-related businesses, are expected to remain strong. Slower consumer spending will affect both retail and housing markets. Consumers will reduce their spending because of higher energy prices, inflationary pressures, high consumer debt levels, and a decline in so-called "wealth effects" due to a drop in stock market valuations.

Major Initiatives

The State of Alabama has become the second largest banking state in the United States. SouthTrust Bank, a Birmingham, Alabamabased bank with \$43.9 billion in assets, converted from a national to a state charter and joins AmSouth Bank, Compass Bank, Regions Bank, Colonial Bank, and 126 other state charter banks regulated by the Alabama Department of Banking. The 131 banks now regulated by the department have operations in 16 states representing more than \$173 billion in assets. Alabama becomes second only to New York in assets under regulation.

The State of Alabama has agreed to a \$64.9 million improvement package for a major expansion of the Mercedes-Benz U.S. International plant in Tuscaloosa, Alabama. The expansion is a result of an increase in production for the next generation Mercedes-Benz M-class sport utility vehicle. The expansion is expected to create approximately 5,900 direct and indirect new jobs and could bring total production volume at the Tuscaloosa facility to approximately 160,000 vehicles annually. Predicted direct earnings will amount to approximately \$140 million and indirect earnings will amount to approximately \$135 million. The M-class vehicles built in Alabama are sold in more than 135 countries, with the U.S. representing more than half of total sales.

The Governor of Alabama signed an agreement with NASA creating the National Space Science and Technology Center. The center will allow top scientists and engineers in the field to work more closely on common goals of technology advancements, focusing on research in space science, materials science, biotechnology, earth sciences, propulsion, optics and other areas that support NASA's mission. The core facility will house approximately 450 people to include NASA, other government agencies, academia and private industry. In addition, virtual capabilities are located throughout the state and nation at partner facilities. The center will be operated through a partnership between the Marshall Center and the Alabama Space Science and Technology Alliance-a group of six Alabama universities including the University of Alabama in Huntsville, Alabama A&M University, Auburn University, the University of Alabama at Birmingham, and the University of South Alabama.

The Alabama Reading Initiative is a statewide movement to improving reading instruction and ultimately achieving 100% literacy among public school students. The Governor of Alabama has invested over \$16 million for the expansion of the program to more than 400 schools across the State. The Alabama Reading Initiative provides two weeks of intensive training to teachers transforming the way they teach reading within Alabama public schools. The success of the Reading Initiative can be seen all across the State.

The State of Alabama has invested more than \$10 million in a statewide strategic plan for expanding technology in government and public schools. Technology initiatives include: Virtual Library which gives every public school student access to the 2,000 periodicals, 150 newspapers, newswires and government documents to which some Alabama schoolchildren would not have access; Virtual High School which is Alabama's On-line High School (AOHS) that offers courses through the Internet that will allow every public school child to access the courses needed to graduate from High School; Teacher training for teacher technology training programs so that Alabama students will have the skills they need to compete in the 21st century; and E-BAMA which establishes the Office of Information Technology as a department of the executive branch of government and is responsible for administering such programs as related to state government and public schools.

The Governor's academic improvement program has provided \$14.6 million to help Caution and Alert schools develop and implement school improvement programs. The number of Caution and Alert schools is at an all-time low and the number of Clear schools are at an all-time high. Also, the program offers grants to reward schools that meet academic goals. Grants go directly to the school and are used by the school to invest in instructional improvement programs and/or materials to be voted on by the teachers.

Financial Information

Internal Controls

The internal controls in the State's accounting system have been designed to comply with Alabama statutes requiring the audit of receipts and receivables; the determination of legality and correctness of each claim and expenditure; and, that funds are appropriated, allotted, and on deposit in the State Treasury before any warrant is issued. The internal controls include manual pre-audit and automated system edits. As an additional control, the State Auditor's Office is responsible for a post-audit of the accounts and records of the Department of Finance and the State Treasurer's Office. These internal accounting controls provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss or unauthorized disposition and the reliability of the financial records from which the financial reports are prepared. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefits.

Budgetary Controls

Budgetary control is exercised through the Executive Budget Office of the State Finance Department based on the Appropriation Acts of the State Legislature. Alabama's annual Appropriation Acts include legally adopted budgets for the General Fund, the Education Trust Fund, and other budgeted funds. The Appropriation Acts identify the source of funding and the programmatic (functional) areas for which expenditures are authorized. Both the Alabama Constitution and the statutes require a balanced budget for annual financial operations. In the event that revenue collections do not meet budget projections, the Governor is required to prorate appropriations are made quarterly based on plans of operations submitted by the departments and agencies. These appropriations and allotments are enforced by automated edits which prevent allotments in excess of appropriations and expenditures in excess of allotments. Encumbrance accounting is utilized as purchase orders are issued to insure that purchase orders plus expenditures do not exceed allotment balances. Controls are further tightened at fiscal year end by checking that the total of purchase orders plus expenditures plus any obligations (accounts payable) incurred against fiscal year appropriations do not exceed allotments, and remaining allotments do not exceed cash in the Treasury.

Cash Controls

The State's controls on cash are fiscally very conservative. Constitutional Amendment 26 prohibits the State Comptroller from drawing warrants on the State Treasury unless there is money on hand to cover those warrants. This is more restrictive at the end of the fiscal year when obligations (encumbrances and accounts payable) cannot exceed the available cash balance (cash less warrants payable). This control is enforced by automated edits and tends to result in positive fund balances, even when GAAP basis accruals are made in the financial statements. Compliance with Amendment 26 is demonstrated in the following exhibits for the General Fund and the Education Trust Fund.

Summary of Receipts, Disbursements, and Cash Balances General Fund Last Five Fiscal Years - Cash Basis (Treasury Cash Only) (Amounts in Thousands)

	2000	1999	1998	1997	1996

General Fund and Special Revenue Fund Balances

The fund balances for the General Fund and the Education Trust Fund (ETF) for the last five fiscal years are presented in the following table. The fiscally conservative nature of Amendment 26 tends to produce positive fund balances every year. However, during the 1996 fiscal year, an error was made in the distribution of certain taxes which caused the ETF to have a deficit GAAP balance because it owed the General Fund \$29 million to correct the error. The debt between the two funds was cleared in fiscal year 2000.

FUND BALANCES - GAAP Basis

(Amo	ounts in	NI11110	1S)

		<u>2000</u>	<u>1999</u>	<u>1998</u>	<u>1997</u>	<u>1997</u>	
General Fund Education Trust Fund	\$	87.9 26.4	\$ 90.9 (13.6)	\$ 77.1 (13.6)	\$ 86.7 (25.2)	\$	87.6 (1.3)

General Government Functions - GAAP Basis

General government functions are accounted for in the General, Special Revenue, Debt Service, and Capital Projects funds of both the primary government and the component units. The GAAP basis revenues for governmental funds and the changes from the previous year are shown in the table below (the amounts in the table do not include expendable trust funds).

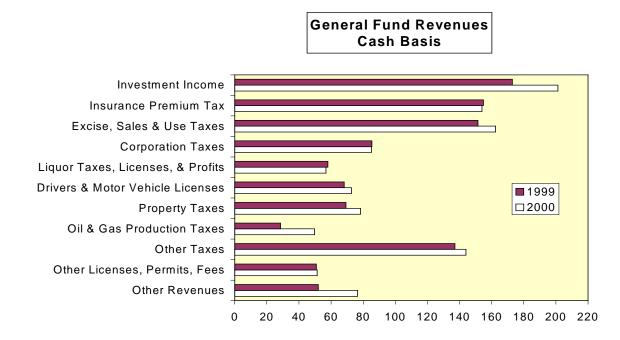

Source	2000 Amount (in 000's)	% of Total	1999 Amount (in 000's)	% of Total	Increase (Decrease) from 1999
Taxes	\$ 6,029,326	49.5	\$ 5,725,275	51.1	\$ 304,051
Licenses, Permits and Fees	469,307	3.8	424,822	3.8	44,485
Fines, Forfeits, and Court Settlements	164,834	1.4	31,053	0.3	133,781
Investment Income	119,252	1.0	73,179	0.7	46,073
Federal Grants and Reimbursements	4,257,589	34.8	3,861,144	34.5	396,445
Other Revenues	1,152,315	9.5	1,067,193	9.6	85,122
Total Revenues	<u>\$ 12,192,623</u>	100.0	<u>\$ 11,182,666</u>	100.0	\$ 1,009,957

Governmental fund expenditures on a GAAP basis by functional areas and the changes from the previous fiscal year are presented in the table below (the amounts in the table do not include expendable trust funds). The largest dollar increase in expenditures from 1999 to 2000 was in Health-Physical and Mental.

Function	2000 Amount (in 000's)	Amount % of Amo		% of Total	Increase (Decrease) from 1999
Economic Development and Regulation	\$ 59,157	0.5	\$ 55,385	0.5	\$ 3,772

Total Expenditures	\$ 11,345,528	100.0	\$ 10,309,444	100.0	\$ 1,036,084

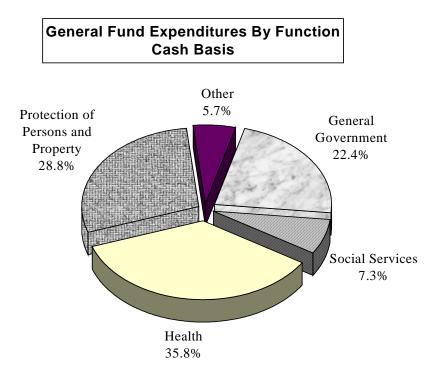

General Fund Revenues and Expenditures - Cash Basis

The General Fund accounts for many different governmental functions. Certain revenue sources are earmarked for use only in the General Fund. Total revenues on a cash basis in 2000 for the General Fund were \$1.132 billion, an increase of \$103 million over 1999. The largest increase occurred in Investment Income, which increased \$28.3 million. The largest revenue source for the General Fund continues to be Investment Income, accounting for 17.8 percent of total revenues.

Source	2000 Amount (in 000's)		Amount % of		1999 Amount in 000's)	% of Total	Increase (Decrease) from 1999	
Investment Income	\$	201,315	17.8	\$	172,987	16.8	\$	28,328
Insurance Premium Tax		153,993	13.6		154,909	15.1		(916)

Total Revenues	\$	1,132,078	100.0	\$	1,028,897	100.0	\$	103,181

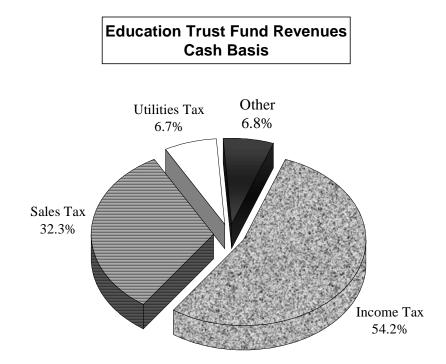

General Fund expenditures totaled \$1.090 billion in 2000, an increase of \$74.9 million over 1999. General Fund expenditures are used primarily to support three functional areas of state government: Protection of Persons and Property (28.8 percent), Physical and Mental Health (35.8 percent), and General Government (22.4 percent).

		2000		1999				Increase		
Function	_	Amount (in 000's)		Amount (in 000's)		% of Total	(Decrease) from 1999			
Economic Development	\$	22,163	2.0	\$	20,194	2.0	\$	1,969

Total Expenditures & Other Uses	\$	1,090,268	100.0	\$	1,015,311	100.0	\$	74,957		

Education Trust Fund Revenues and Expenditures - Cash Basis

The Education Trust Fund (ETF) accounts for educational functions. Total revenues and other financing sources for the ETF were \$4.1 billion, increasing \$202.9 million over 1999. The chief sources of revenues for the ETF remain the Income Tax and the General Sales Tax, contributing 86.5 percent of the total revenues.

Revenue Source	2000 Amount (in 000's)	% of Total	1999 Amount (in 000's)	% of Total	Increase (Decrease) from 1999
Income Tax	\$ 2,230,141	54.2	\$ 2,068,679	52.9	\$ 161,462

Expenditures and other uses of the ETF were approximately \$4.1 billion in 2000. Ninety-five percent of expenditures from the ETF were used for educational and cultural purposes. The remaining expenditures were used for education related programs.

Proprietary Funds

Internal Service Funds are maintained to account for the operations of State agencies which provide goods and services to other State agencies on a cost-reimbursement basis. These funds provide computer services, information technology, telecommunications, rental of office buildings, janitorial services, building maintenance, printing services, agricultural and manufacturing activities, sale of surplus property, operating and maintaining National Guard training sites, health insurance coverage for state employees, liability protection, and highway-related goods and services. The Building Renovation Finance Authority had a deficit retained earnings of \$15.2 million largely because the fund's major assets are buildings, which have depreciated values that are less than the long-term debt associated with them.

Enterprise Funds are used to account for the operations of State agencies that provide goods and services to the public in a manner similar to private business enterprises. The major funds operate facilities for the distribution and sale of alcoholic beverages, operate state park and recreational facilities, operate a public entity risk pool, provide for the operation of the Prepaid Affordable College Tuition program, and provide services for shippers including warehousing, loading, and bulk cargo handling. The Alcoholic Beverage Control Board had a deficit in retained earnings of \$5.4 million, largely due to the accrual of liabilities for compensated absences and salaries payable. The Board, by law, operates on a cash basis and is required to distribute 100 percent of its earnings. The Alabama Health Insurance Plan had a deficit in retained earnings of \$1.1 million because the fund does not have sufficient reserves to cover the currently estimated amounts of claims payable and Insurance Claims Incurred but Not Reported.

Pension Trust Funds

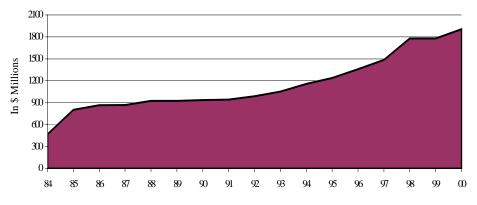

The State operates three major pension funds, the Teachers' Retirement System (TRS), Employees' Retirement System (ERS), and Judicial Retirement Fund (JRF). Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of the respective retirement systems' funding status on a going-concern basis. Analysis of this percentage over time indicates whether the respective system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the retirement system. Percentages funded as of the latest actuarial valuation date, September 30, 1999, for ERS (State employees and State policemen) and JRF were 108.2 and 84.2 percent, respectively. The percentage funded for TRS as of June 30, 2000, was 102.5 percent.

The Alabama Heritage and Alabama Trust Funds

Alabama maintains two important nonexpendable trust funds, the Alabama Heritage Trust Fund and the Alabama Trust Fund. Most of the interest income from both funds is transferred to the General Fund. The transfers to the General Fund are generally timed to coincide with debt service payments for general obligation bonds. An additional 10 percent of the earnings of the Alabama Trust Fund are used to fund the Forever Wild Trust Fund.

The Alabama Heritage Trust was created by constitutional amendment in 1982 as an irrevocable, permanent trust fund. As of September 30, 2000, the fund balance was \$483.4 million. The Alabama Trust was created by constitutional amendment in 1985 as an irrevocable, permanent trust fund. The fund balance as of September 30, 2000, was \$1.421 billion. The principal of both funds consists primarily of proceeds of oil and gas royalties. Within 90 days after September 1, 2001, the trust capital of the Alabama Heritage Trust Fund will be transferred to the Alabama Trust Fund and all aspects of the Alabama Heritage Trust will terminate.

In 2000, the General Fund received \$50.7 million from the Alabama Heritage Trust Fund and \$77.1 million from the Alabama Trust Fund. Of the \$77.1 million received from the Alabama Trust Fund, \$15.3 million was distributed equally to the cities and counties to be used primarily for capital improvements. The Forever Wild Trust Fund received \$8.6 million from the Alabama Trust Fund. Since their inception in 1982, the Heritage and Alabama Trusts have grown from \$470 million to their current balance of \$1.905 billion.

Debt Administration

Alabama has traditionally received high bond ratings from both Standard and Poor's Corporation and Moody's Investors Service due in large part to the commitment to sound fiscal management. Both the Alabama Constitution and the statutes require a balanced budget for annual financial operations. The State Constitution prohibits the issuance of debt. Therefore, the only way to issue general obligation debt is by amending the Constitution through a statewide vote of the people. The State does issue revenue bonds which are limited obligations of public corporations governed by State officials. Those revenue bonds are backed by a pledge of specific revenue sources for which the annual collections are generally predictable. The total outstanding general obligation bond indebtedness as of September 30, 2000, was \$292.5 million and the total outstanding revenue bond indebtedness for the primary government was \$514.1 million. The total outstanding revenue bond indebtedness for the reporting entity at September 30, 2000, was \$5.277 billion. The State's general obligation bond debt per capita decreased to \$66 during the year. The ratio of general obligation bond debt to assessed property valuation dropped to .77 percent and the ratio of general obligation debt to personal income dropped to 0.28 percent.

The Incentives Finance Authority issued \$135,220,000 in new bonds. The Alabama Public School and College Authority issued \$493,190,000 in new bonds. The Water Pollution Control Authority issued \$60,430,000 in new bonds. The Drinking Water Finance Authority issued \$14,130,000 in new bonds. The Alabama 21st Century Authority issued \$50,000,000 in new bonds. The Alabama Revolving Loan Fund Authority issued \$12,000,000 in new bonds. The Alabama Housing Finance Authority issued \$175,705,000 in new bonds and called approximately \$140,915,000 of bonds in advance of their scheduled maturities. The University of Alabama in Huntsville issued \$8,900,000 in new bonds. The University of Alabama at Birmingham issued \$451,045,000 in new bonds in which the Series 2000D were used to currently refund \$75,000,000 of outstanding Series 1997A and 1997B Hospital Revenue bonds.

Cash Management

The State Treasurer has the responsibility for the investment of cash balances. Due to statutory requirements, treasury cash is primarily invested in time deposit--open accounts and in repurchase agreements with Alabama banks. Additionally, the State Treasurer continues the Linked Deposit Program, through which the State Treasurer agrees to accept two percentage points below U. S. Treasury rates for comparable securities, with the resulting savings being passed on to small businesses and agricultural loan applicants.

The State Treasurer has placed considerable emphasis on cash management. In cooperation with State agencies, the receiving of funds into the State Treasury is expedited, with all available funds being invested. Interest earnings during the 1999-2000 fiscal year were as follows:

Time Deposit - Open Accounts- Regular	\$ 37.6 million
Time Deposit - Open Accounts- Linked Deposits	\$ 4.1 million
Repurchase Agreements	\$ 27.6 million
Special Investments	\$140 thousand

Interest income is deposited in the State's General Fund to be appropriated by the Legislature for government operations. In addition to the management of the investment of these funds, the State Treasurer has statutory authority to invest for several state agencies, with interest earnings being credited to those agencies.

Risk Management

The State manages risk through risk control and risk financing to minimize the adverse effects of certain types of losses. Risk control is managed by such means as encouraging that automatic sprinkler systems in insured properties are adequate and in full functioning order, carefully investigating and defending claims to minimize loss potential, managing care programs, and promoting healthy employee programs. Risk financing includes self-insurance plus excess insurance and reinsurance through several different funds. The State Insurance Fund, which insures property against fire and casualty losses, has excess insurance and reinsurance to cover any additional damage amounts, plus earthquake and flood damage. The General Liability Trust Fund protects state employees against the risk of loss from employment-related liability claims. Automobile liability is fully reinsured. The State Employee Injury Compensation Trust Fund, which provides benefits to eligible state employees for job-incurred injuries, is self-insured. The State Employees' Insurance Fund, which provides health insurance benefits for current and retired state employees and their dependents, is self-insured. The Public Education **Employees' Health** Insurance Fund, which provides health benefits for current and retired employees and their dependents, is also self-insured.

<u>Audit</u>

This CAFR has been audited by the Department of Examiners of Public Accounts. The Examiners conducted their audit in accordance with generally accepted auditing standards and Government *Auditing Standards* issued by the Comptroller General of the United States. The Examiners'unqualified opinion appears at the beginning of the financial section of this report. The State will also undergo an audit of federal programs to conform to the requirements of the *Federal Single Audit Act Amendments of* 1996 and the U.S. *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.* Information relating to the single audit, including the schedule of federal awards, and audit findings and recommendations, is issued in a separate report and will be available at a later date from the Examiners of Public Accounts.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Alabama for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 1999. This was the second consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

Production of this report would not have been possible without the assistance of all state organizations which supplied financial information vital to the accuracy of this report. As we strive to produce this report in future years and to further enhance its quality, the continued support and cooperation of all agencies remains essential. I also express my appreciation to my entire staff in the Division of Control and Accounts, whose daily efforts to improve the accountability of state government make the quality of this report possible.

Respectfully submitted,

Colent & Childree

Robert L. Childree State Comptroller

Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of Alabama

For its Comprehensive Annual **Financial Report** for the Fiscal Year Ended September 30, 1999

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying general purpose financial statements of the State of Alabama as of and for the year ended September 30, 2000, as contained in the accompanying Comprehensive Annual Financial Report and listed in its table of contents. These financial statements are the responsibility of the State of Alabama Department of Finance. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained *in Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are **free** of material misstatement. The financial statements of the Employees' Retirement System, the Teachers' Retirement System, the Public Employees' Individual Retirement Account Fund, the Public Employees' Individual Retirement Fund/Deferred Compensation Plan (**RSA-1**), the Public Education Employees' Health Insurance Fund, the Alabama Heritage Trust Fund, the State Employees' Insurance Board, the Alabama Port Authority, the Space Science Exhibit Commission, and the Alabama Higher Education Loan Corporation were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the State of Alabama as of September 30, 2000, and the results of operations and cash flows of its proprietary fund types, nonexpendable trust funds and certain component units, changes in plan net assets of its pension trust funds, and the changes in fund balances and current fund revenues, expenditures and other changes of the university funds, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the State of Alabama. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole. The Schedule of Funding Progress on page 123 is not a required part of the general purpose financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and do not express an opinion on it. We did not audit the data included in the Introductory and Statistical Sections and, accordingly, express no opinion on it.

In accordance with *Government Auditing Standards*, we are also issuing our report dated March 30, 2001, on our consideration of the State's internal control over financial reporting and on our tests of the State's compliance with certain provisions of laws, regulations, contracts, and grants.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

As required by generally accepted accounting principles, these financial statements present the State of Alabama (the primary government) and its component units. Component units are legally separate organizations ("public corporations") for which the primary government is financially accountable. Generally, the primary government is financially accountable if it appoints a voting majority of the organization's board and it can either 1) impose its will on the organization or 2) there is a financial benefit/burden relationship. If the primary government does not control the board, it may be financially accountable if the organization is fiscally dependent on the State. Organizations making up the primary government and its component units are summarized in the following paragraphs.

1. Primary Government

All State departments, agencies, elected officials, boards, commissions, authorities, committees, halls of fame, educational institutions, and other State organizations (hereafter referred to as "agencies") which are not legally separate are, for financial reporting purposes, part of the primary government. All agencies and funds that operate from within the State Treasury, except those listed later as component units, are part of the primary government. The following non-Treasury agencies operate largely independent of the control of the State Comptroller, Auditor, and Treasurer, but lack the corporate powers to make them legally separate and are therefore part of the primary government:

- Alabama College System (two-year schools)
- Alabama State Fire College
- Athens State College
- Aviation Hall of Fame
- Dental Examiners Board
- Dental Scholarships Awards Board
- Gorgas Memorial Board
- Alabama Industrial Development and Training Institute
- Medical Examiners and Licensure Commission
- Medical Scholarships Awards Board
- Motor Sports Hall of Fame
- Optometric Scholarships Awards Board
- Optometry Board
- Pharmacy Board
- Pilotage Commission

- Podiatry Board
- School of Fine Arts
- Skills Centers
- State Port Authority
- State Safety Coordinating Committee
- Women's Hall of Fame

2. Blended Component Units

Blended component units are legally separate but they exist solely to provide services (usually financing) exclusively to the State. Because of this close relationship, they are blended with and reported as though they are a part of the primary government. All references in the financial statements or elsewhere in these notes to the term "primary government" will encompass both the primary government and the blended component units.

The following blended component units were created for the purpose of financing capital expenditures for the State. Each issues revenue bonds which are limited obligations of the component unit. Their boards consist of State officials and specific State revenues that are pledged for bond repayment. Those marked with a † are currently inactive and have no financial balances or activity in the past fiscal year.

- Agriculture Markets and Coliseum Authority †
- Corrections Institution Finance Authority
- Federal Aid Highway Finance Authority †
- Highway Authority †
- Industrial Access Road and Bridge Authority
- Judicial Building Authority
- Alabama Trade School and Junior College Authority †
- Public Health Care Authority
- State Parks System Improvement Corporation †
- Forensic Science Bond Authority †

The Building Renovation Finance Authority has the same characteristics as those in the previous paragraph, but has the added responsibility of operating, maintaining, and renting buildings in the capitol complex which are occupied by State departments.

The Alabama State Parking Deck Authority has the authority to sell bonds, operate, maintain, and rent out space in a parking deck on a block in the capitol complex. The Authority has remained inactive since the enabling legislation was passed.

The Educational Television Foundation Authority exists to receive, invest, and expend donated moneys for the purpose of promoting the growth and development of educational television. The Authority consists of thirteen members who

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2000

are appointed by the Educational Television Commission. As a non-profit public corporation, the Commission provides financing flexibility that the Commission, as part of the primary government, would not otherwise have.

3. Discretely Presented Component Units

Discretely presented component units are organizations, which are legally separate and do not exist to provide services exclusively to the primary government. Providing services to the citizens of the State is not considered the same as providing services to the primary government institution. Financial information for discretely presented component units is segregated on the financial statements and the notes in the "Component Unit" columns in order to emphasize that they are legally separate.

Most of the discretely presented component units have boards which are controlled by the primary government through the appointment of a majority of the board members. The State has been determined to be financially accountable for each organization because it can impose its will on each organization. Unless otherwise noted, financial accountability for each organization described below exists at least in the ability of the State to modify the component unit's budget. Other manifestations of financial accountability may also exist.

For discretely presented component units whose boards are not controlled by the State, the organization has been determined to be fiscally dependent on the State. Unless otherwise noted, fiscal dependency exists at a minimum in the State's ability to modify the component unit's budget. Other manifestations of fiscal dependency may also exist.

When audited financial statements for a discretely presented component unit exist, the address at which such financial statements can be obtained is included in the following paragraphs describing each component unit. For all other discretely presented component units, complete financial statements may be obtained from the State of Alabama, Office of State Comptroller, RSA Union Building, Suite 206, Montgomery, AL 36130-2602.

The Employees' Retirement System (ERS) operates three pension plans and several expendable trusts for the benefit of State and local governmental employees. The ERS is governed by a thirteen-member board of control, seven of whom are either primary government officials or appointees of the Governor. Separate audited financial statements are available for the ERS, the Judicial Retirement Fund, the deferred compensation plan, and the IRA fund. Each may be obtained from the Retirement Systems of Alabama, 135 South Union Street, P.O. Box 302150, Montgomery, AL 36130-2150.

The Water Pollution Control Authority operates a revolving loan fund to aid municipalities in financing the construction of wastewater treatment facilities. A five-member board of directors made up of ex officio members governs the Authority. Audited financial statements of the Authority may be obtained from the Alabama Department of Environmental Management at 1400 Coliseum Boulevard, Montgomery, AL 36130.

The Alabama Drinking Water Finance Authority operates a revolving loan fund to aid local governments in financing the construction of sanitary drinking water facilities. A five member board of directors made up of ex officio members governs the Authority. Audited financial statements of the Authority may be obtained from the Alabama Department of Environmental Management at 1400 Coliseum Boulevard, Montgomery, AL 36130.

The Department of Mental Health and Mental Retardation provides mental health and mental retardation services for the people of Alabama. The Governor of the State and the commissioner of the Department constitute a public corporation and are advised by a sixteen-member board of trustees. The commissioner and ten of the board members are appointed at the discretion of the Governor. The Mental Health Finance Authority exists to provide financing services to the Department and is therefore a blended component unit of the Department and is included in all amounts reported for Mental Health.

The Crime Victims Compensation Commission awards compensation for economic losses arising from criminal conduct and works to change laws to benefit crime victims. The Commission consists of three members who are appointed by the Governor.

The Tennessee Valley Exhibit Commission operates a public exhibit based primarily on the history of and ongoing activities of the Tennessee Valley Authority and various other public entities involved in energy research and development. The sixteen-member Commission is appointed by the Governor.

The State Industrial Development Authority issues bonds and uses the proceeds to make grants to local industrial development boards. All members of the Authority are elected or appointed state officials.

The Alabama Education Foundation encourages donations of money for local school systems and invests the money for the benefit of each local system. The Foundation is governed by a twelve-member board that is made up of state officials and other individuals appointed by state authorities.

The Supercomputer Authority operates a supercomputer for the use of educational and governmental research institutions, private businesses, and individuals. The eleven directors of the Authority are appointed by state officials.

The boards of the four-year colleges of the State, except for the University of Alabama, are appointed by the State. Those colleges are: Alabama A&M University, Alabama State University, Auburn University, Jacksonville State University, University of Montevallo, University of West Alabama, University of North Alabama, University of South Alabama, and Troy State University. The University of Alabama board of trustees is not controlled by the State but the university is subject to budgetary control by the State.

Complete financial statements for those universities which are audited may be obtained at the following addresses: Associate Controller, University of South Alabama, AD 380, Mobile, AL 36688-0002; Office of the Comptroller, Alabama A&M University, P.O. Box 1388, Normal, AL 35762; Vice-President for Financial Affairs, University of Alabama at Tuscaloosa, P.O. Box 870136, Tuscaloosa, AL 35487-0136; Director of Accounting and Financial Reporting, University of Alabama in Huntsville, Huntsville, AL 35899; Vice Chancellor for Financial Affairs, University of Alabama at Birmingham, 1030 Administration Building, 701 20th Street, Birmingham, AL 35294-0110; Director, Financial Reporting, Auburn University, Auburn University, AL 36849-5161; Comptroller, Station 6060, University of Montevallo, Montevallo, AL 35115-6000.

The Alabama Institute for the Deaf & Blind is an educational institution governed by a fourteen-member board, twelve of whom are appointed by the Governor.

The Marine Environmental Sciences Consortium provides educational programs in marine sciences for the graduate and undergraduate level and conducts research in marine sciences. The board of directors is composed of the chief executive officers of the member institutions.

The Alabama Public School & College Authority (APSCA) issues bonds and uses the proceeds to fund capital construction projects in the local school systems. The Governor, the finance director, and the state superintendent of education constitute the Authority.

The Tombigbee Valley Development Authority consists of six state officials who oversee the development of improvements along the Tombigbee river.

The Higher Education Loan Corporation provides Alabama lending institutions with a secondary market for student loans made under the federal guaranteed student loan program. Audited financial statements may be obtained from the Alabama Commission on Higher Education at P.O. Box 302000, Montgomery, AL 36130-2000.

U.S.S. Alabama Battleship Commission consists of eighteen members appointed by the Governor. The Commission operates a memorial park centered near the historic battleship.

The fourteen-member board of directors of the Housing Finance Authority are appointed by various state officials. The Authority sells bonds and uses the proceeds to make it possible for lenders to make low interest rate mortgages available to low income home buyers. The primary government does not affect the Authority's budget, but the legislature has historically limited the Authority's ability to issue bonds. Audited financial statements may be obtained from the Authority at P.O. Box 230909, 2000 Interstate Park Drive, Suite 408, Montgomery, AL 36123-0909.

Alabama Historic Ironworks Commission operates an historic park based on one of the State's early ironworks. Fourteen of the eighteen members on the commission are appointed by the Governor. Part of the Commission's budget is subject to State control. Audited financial statements may be obtained from the Commission at 12632 Confederate Parkway, McCalla, AL 35111.

The Space Science Exhibit Commission operates the Alabama Space and Rocket Center along with the Space Camp. All eighteen members of the Commission are appointed by the Governor and part of the Commission's budget is subject to State approval. Audited financial statements may be obtained from the Commission at the Alabama Space and Rocket Center, P. O. Box 070015, Huntsville, AL 35807-7015.

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2000

The Coosa Valley Development Authority oversees developments and improvements along the Coosa River. Six of the seven members of the Authority are State officials.

The Teachers' Retirement System (TRS) operates a pension plan for the benefit of all employees of public education institutions throughout the State. It is governed by a fourteen-member board, ten of whom are elected from among the member employees. The administrative budget of TRS is subject to approval by the State. Audited financial statements for TRS may be obtained from the Retirement Systems of Alabama, 135 South Union Street, P.O. Box 302150, Montgomery, AL 36130-2150.

The Alabama International Airport Authority was created to develop an international airport in the State. The State controls the appointment of only five of the ten members. All funding for the Authority is through the General Fund, so the Authority is subject to full budgetary control.

The Historical Commission is responsible for the preservation of historic sites, buildings, and objects. The twenty-member Commission is not controlled by the State, but the Commission's budget is subject to State control.

The Choctawhatchee Pea and Yellow Rivers Watershed Management Authority develops and executes plans for water conservation and usage, flood control and prevention, water pollution control, wildlife habitat protection, and erosion control within the boundaries of the Authority. The directors of the Authority are elected by local residents but the Authority is subject to State budgetary control.

The Agricultural Museum Board exists to preserve and exhibit agricultural artifacts. The Board is not controlled by the State, but it is subject to state budgetary control.

The Music Hall of Fame operates a public exhibit displaying music memorabilia in honor of Alabamians who have made a lasting contribution to music. The Hall has both an independent board and is fiscally independent of the State. However, it is included in these financial statements because it would be misleading to exclude the Hall. The State has some limited budgetary influence and the State funded the construction of the Hall's facilities with a general obligation bond issue. The Blakeley Historic Authority preserves the historic site of the town of Blakeley and operates a park on the site. The Authority has both an independent board and is fiscally independent of the State. However, it is included in the reporting entity because the State has some limited budgetary influence and the State provides the majority of the Authority's funding.

The Alabama Incentives Financing Authority was created to fulfill the State's financial commitments made to industries locating and expanding in the State under the terms of legislation granting certain financial incentives. The board is made up of three state officials, and is authorized to issue bonds to fulfill the State's financial commitments.

The Revolving Loan Fund Authority was created to make grants to twelve regional planning commissions for the purpose of financing local economic development projects. Four of the six members of the Authority are State officials.

The Alabama Twenty-first Century Authority was created to promote economic development and industrial recruitment. The Authority can issue revenue bonds and pledge part of the proceeds of the settlement of the tobacco industry litigation to finance the bonds. The board is made up of three state officials.

The Agricultural Development Authority promotes development of agriculture in the State by making low interest loans available to persons engaged in agricultural operations. The seven member board is made up of three state officials and four other persons appointed by the State.

4. Excluded Organizations

Other entities have been examined but failed to meet the criteria for inclusion in the State's reporting entity. The city and county boards of education are legally separate organizations whose boards are not controlled by the State. They are fiscally dependent on both the State and local governments. It is more appropriate that they be included as part of a local government's reporting entity.

The Elk River Development Agency, Bear Creek Development Authority, and Cahaba Trace Commission are legally separate organizations whose boards are neither controlled by the State nor are they fiscally dependent on the State. All three of these organizations are excluded.

The many local soil and water conservation districts are legally separate organizations which have independent boards and are fiscally independent. In keeping with their independence, they are excluded from this report.

5. Sources of Information

The majority of State organizations, whether primary government or component unit, conduct their financial operations from the State Treasury through the State's central accounting system under the supervision and review of the State Comptroller, State Treasurer, and State Auditor. The source of information on these agencies is the State's central accounting system. For these agencies, the recording of cash, warrants payable, encumbrances, salaries payable, compensated absences, most investments, most short-term payables, most revenues and most expenditures/expenses are controlled by the Comptroller and/or the Treasurer and are therefore subject to extensive scrutiny. Accruals of revenues, a few accruals of expenditures/expenses, and all other accounts, such as depreciation, fixed assets, inventories, and capital leases, generally are based on data provided by the individual agencies. The data provided by the agencies are reviewed and recorded once a year and are believed to be materially correct even though they are not generally subject to extensive scrutiny by the Comptroller, Treasurer, or Auditor.

There are some organizations and funds which meet the criteria for inclusion as part of the reporting entity even though they have the authority to conduct their financial operations through bank accounts and accounting systems outside the State Treasury, independent of the direct daily control of the Comptroller, Treasurer, and Auditor. These non-Treasury agencies are included in the financial statements based on information provided to the Comptroller once a year by the agency or the agency's auditors. Whenever possible, the non-Treasury agencies are reported as they appeared in the information submitted to the Comptroller. However, corrections or modifications have been made whenever required to comply with generally accepted accounting principles or wherever necessary to ensure consistent statewide report presentation.

The following non-Treasury agencies and funds are included in this report:

Primary Government

- ABC Outside Accounts
- Alabama College System
- Alabama Health Insurance Plan
- Alabama Industrial Development Training Institute
- Alabama School of Fine Arts
- Alabama Skills Center
- Alabama State Port Authority
- Alabama State Fire College
- Athens State College
- Attorney General Outside Accounts
- Aviation Hall of Fame
- Blind Vendors Fund
- C.C. Smith Trust Fund
- Charlotte Thorn Endowment Fund
- Commercial Mobile Radio Service Board
- Corrections Bank Accounts and Agency Funds
- Corrections Canteen Funds
- Corrections Institute Finance Authority Bank Account
- Court System Local Accounts
- Dental Examiners Board
- Dental Scholarships Awards Board
- Department of Human Resources Local Funds and Child Support Funds
- Educational Television Foundation Authority
- Geological Survey Library Revolving Fund
- Gorgas Memorial Board
- Hicks Memorial Endowment Fund
- High School of Math and Science
- Insurance Department Statutory Deposits
- Mary May Eliot Memorial Fund
- Medicaid Agency Lien Account and Qualifying Individual 2 Funds
- Medical Scholarships Awards Board
- Medical Examiners and Licensure Commission
- Men's Hall of Fame Outside Account
- Military Department Unit Funds
- Montgomery Downtown Redevelopment Authority
- Motor Sports Hall of Fame
- National Guard Canteen Funds
- Non-Emergency Transportation
- Optometry Board

For the Fiscal Year Ended September 30, 2000

- Optometric Scholarships Awards Board
- Peace Officers' Annuity & Benefit Investment Account
- Pharmacy Board
- Pilotage Commission
- Podiatry Board
- Public Health Care Authority
- Public Health Local Funds
- Sports Hall of Fame Checking Account
- State Bar Checking Account
- State Bar Client Security
- State Bar Foundation
- State Port Authority Hourly Pension Plan
- State Port Authority Railway Pension Plan
- State Safety Coordinating Committee
- Student Assistance Initiated Loan Servicing Account
- Supreme Court Checking Account
- Transportation Surety Bonds
- Unemployment Compensation Funds
- Victims Services Fund
- W.V. Chambliss Trust Fund
- Women's Hall of Fame
- Youth Service Student Accounts & Local Funds

Discretely Presented Component Units

- Alabama A & M University
- Alabama Drinking Water Finance Authority
- Alabama Higher Education Loan Corporation
- Alabama Historic Ironworks Commission
- Alabama Housing Finance Authority
- Alabama Incentives Financing Authority
- Alabama Institute for Deaf and Blind
- Alabama State University
- Auburn University
- Blakeley Historic Authority
- Crime Victims' Compensation Fund
- Jacksonville State University
- Marine Environmental Sciences Consortium
- Mental Health Client/Patient Funds
- Mental Health Capital Projects Bank Account
- Music Hall of Fame
- Space Science Exhibit Commission and Space Science Exhibit Finance Authority
- Troy State University
- U.S.S. Alabama Battleship Commission
- University of Alabama in Birmingham
- University of Alabama in Huntsville
- University of Alabama in Tuscaloosa
- University of Montevallo
- University of North Alabama
- University of South Alabama
- University of West Alabama
- Water Pollution Control Authority

B. Fund Accounting

The State uses funds and account groups to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not affect net expendable available financial resources.

The accompanying financial statements are presented in four classifications of funds, two account groups, and component units as described below. The fund classifications include governmental funds, proprietary funds, fiduciary funds, and the higher education funds. Account groups are presented for general fixed assets and general long-term obligations.

Governmental funds are used to account for most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general longterm debt (debt service funds). The general fund is used to account for all activities of the general government not accounted for in some other fund. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they are to be paid. The difference between fund assets and liabilities, the fund equity, is referred to as "fund balance."

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds).

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. When these assets are held under the terms of a formal trust agreement, a pension trust fund, a nonexpendable trust fund, or an expendable trust fund is used. Expendable trusts account for the activities of trusts whose principal and income may be used for the purposes of the trust. Nonexpendable trusts account for activities of trusts whose income may be used to fund

trust activities, but whose principal must be maintained intact. Agency funds generally are used to account for assets that the government holds on behalf of others as their agent.

Account groups are used to account for the State's general fixed assets and its general long-term debt. General fixed assets do not represent financial resources available for appropriation and expenditure and are therefore segregated from governmental funds in the General Fixed Asset Account Group. The unmatured principle of general long-term debt does not require the expenditure of current appropriations of governmental fund financial resources and is therefore accounted for separately in the General Long-Term Debt Account Group.

Higher education funds account for the operations of the State's colleges, universities, trade schools, and other educational entities. The higher education institutions account for their activities in the following funds:

<u>Current Funds</u> - includes unrestricted funds over which the institutions' governing boards retain full control in achieving the institutions' purposes, and restricted funds, which may be used only in accordance with externally restricted purposes. <u>Loan, Endowment, and Agency Funds</u> account for assets in which the institutions act in a fiduciary capacity.

<u>Plant Funds</u> account for institutional property acquisition, renewal, replacement, and debt service.

<u>Annuity and Life Income Funds</u> account for funds received by an institution under deferred-giving agreement contracts.

The component units include organizations which are legally separate from the State but are considered part of the reporting entity as defined in section A of this note. The State has component units which fall into all four of the fund classifications mentioned above.

C. Basis of Accounting

These financial statements are reported in conformity with generally accepted accounting principles (GAAP) unless otherwise noted on the face of the statement or in the Notes to the Financial Statements. GAAP is promulgated for all fund types by the Governmental Accounting Standards Board (GASB) except for the Higher Education Funds, for which GAAP is promulgated by the National Association of College and University Business Officers (NACUBO). GAAP basis reporting differs considerably in some ways from the budgetary and cash basis accounting under which the State budgets and operates.

Under GAAP, the accounting and financial reporting treatment applied to a fund is determined by its measurement

focus. All governmental funds and expendable trust funds are accounted for using the flow of current financial resources measurement focus. Under this focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases in expendable financial resources as revenues and other financing sources, and decreases as expenditures and other financing uses.

All proprietary funds, nonexpendable trust funds, and pension trust funds are accounted for on a flow of economic resources measurement focus. Under this focus, all assets and all liabilities associated with these funds are included on the balance sheet. Fund equity of proprietary funds is segregated into contributed capital and retained earnings components. Proprietary fund operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

The State has elected to exercise paragraph 6 of Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting." Statement 20, paragraph 6, requires that all proprietary activities should apply all applicable GASB pronouncements as well as any Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARBs) of the Committee on Accounting Procedure (CAP) issued on or before November 30, 1989, unless such FASB, APB, and CAP pronouncements conflict with or contradict GASB FASB pronouncements issued after pronouncements. November 30, 1989, even if they modify an applicable FASB, APB, or CAP pronouncement, are not applicable unless adopted by a GASB pronouncement.

All governmental funds and expendable trust funds are reported using the modified accrual basis of accounting. Agency funds are also accounted for on a modified accrual basis, but agency funds do not recognize revenues and Under the modified accrual basis of expenditures. accounting, revenues and related current assets are recognized when measurable and available to finance operations during the year or if available to liquidate liabilities existing at the end of the year. Therefore, in governmental funds, revenues and the resulting assets are accrued at year end only if the revenues are earned and the receivables are expected to be collected in time to pay for liabilities in existence at the end of the period. Material revenues that are subject to accrual are federal grants and interest receivable. No receivables are accrued for property taxes, as the assessment date for property tax corresponds to the beginning of the State fiscal year, and the taxes are not

For the Fiscal Year Ended September 30, 2000

due until ninety days later. Furthermore, all taxes, including taxpayer assessed revenues such as income tax and sales tax, are not susceptible to accrual because they are not legally available to liquidate current liabilities under the provisions of Amendment 26 to the State's constitution. Expenditures are recognized when the related fund liability is incurred, except for items that are not expected to be liquidated with expendable available resources, such as the long-term portion of compensated absences payable and capital lease Therefore, expenditures and the related obligations. liabilities are accrued at year end only when they are normally payable from current expendable funds. In order to determine which revenues should be accrued, an arbitrary time limit is established. Revenues are recognized when measurable and available. The State uses sixty days after fiscal year end as the time limit for the accrual of revenues.

Under GAAP, all proprietary funds, nonexpendable trust funds, and pension trust funds are accounted for on the accrual basis of accounting, which approximates the accounting used in private enterprises. Under the accrual basis, revenues are recognized when earned, and expenses are recognized when the liability is incurred.

Higher Education Funds are reported using the accrual basis of accounting, with the following exception: revenues and expenditures of an academic term encompassing more than one fiscal year are reported solely in the fiscal year in which the program is predominantly conducted.

D. Fiscal Year

The State fiscal year ends on September 30. One component unit, the Alabama Space Science Exhibit Commission, has the power to set its own fiscal year (*Code of Alabama* 1975, Section 41-10-307 as amended). The Authority has set its fiscal year to end on the last Sunday in September in order to coordinate its accounting period with the weekly cycle of campers. The Authority's fiscal year for 2000 ended on September 24. No inconsistencies were caused by the differences in fiscal years.

E. Cash and Cash Equivalents

Cash and Cash Equivalents, as reported on the financial statements, are under the control of the State Treasurer or other administrative bodies as determined by law. The cash in all funds operating from the State Treasury is pooled as treasury cash and invested by the State Treasurer. The Treasurer has statutory authority to invest treasury cash in demand accounts or time deposits-open account with any state depository. The Treasurer can also invest up to twenty percent of treasury cash in securities and obligations of the U.S. Treasury or federal agencies for a period of time that may exceed one year. Cash equivalents in the State Treasury consists of short-term repurchase agreements and other allowable time deposits with an original maturity date of three months or less at the date of purchase. Commercial paper is reported as an investment regardless of the original maturity date. For funds operating outside the State Treasury, cash and cash equivalents generally includes demand deposit accounts, petty cash accounts, and shortterm, highly liquid investments with a maturity date of three months or less when purchased.

F. Interfund Transactions

The State accounts for each of the following types of interfund transactions: reimbursements, quasi-external transactions, residual equity transfers, operating transfers, advances, and distributions of revenues from agency funds. Any one of these transactions may result in the reporting of amounts Due To or From Other Funds, Primary Government, or Component Units as of the balance sheet date. Due To or From Other Funds is used only for transactions between two funds of the primary government.

Reimbursements occur when one fund makes an expenditure on behalf of another fund. Reimbursement transactions reduce expenditures in the reimbursed fund and increase them in the reimbursing fund. Quasi-external transactions involve charges for goods or services that one fund sells to another fund. Residual equity transfers are nonroutine nonrecurring transfers of equity between funds. Operating transfers include all other interfund transactions such as legislatively appropriated transfers between funds and operating subsidies. Operating Transfers In/Out is used as transactions between two funds of the primary government. Operating Transfers from Primary Government is used as transfers into a component unit that came from the primary government. Operating Transfers from Component Units is used as transfers received in any fund or component unit that came from a component unit. Operating Transfers to Primary Government is used as transfers out of a component unit to the primary government. Operating Transfers to Component Units is used as a transfer from any fund or component unit to a component unit. Advances are loans between funds and are generally long-term in nature. Distributions from agency funds reduce liabilities in the agency fund and increase revenues in the receiving fund.

G. Receivables

In governmental funds, the largest receivables are amounts due from other governments, consisting almost entirely of grants and reimbursements due from the federal government where collectibility is reasonably assured. Accordingly, no allowance for uncollectible accounts has been established. Amounts due from local governments are not a significant portion of amounts due from other governments.

In governmental funds of the primary government, the State records no significant amount of Accounts Receivable and no receivables for taxes are recorded because both types of revenues are generally not susceptible to accrual under the provisions of Amendment 26 to the State's constitution. Amendment 26 affects only those funds operating from the State Treasury under the control of the Comptroller, which includes most of the governmental funds of the primary government. Most of the Accounts Receivable on the balance sheet are recorded in the discretely presented component units, many of which do not operate from the State Treasury and therefore are not restricted by Amendment 26. The primary government does not have any notes or leases receivable, as such agreements would constitute an illegal extension of credit by the State. Interest and Dividends Receivable includes amounts earned on investments, notes, mortgages and loans receivable. The largest of these amounts are due to the pension funds operated by the Retirement Systems of Alabama.

Accounts Receivable are reported primarily by the higher education institutions. The amounts are reported net of any allowance for doubtful accounts.

Mortgages, Notes, and Loans Receivable consists primarily of loans made by the Alabama Housing Finance Authority. The mortgage loans of the Authority are carried at their unpaid principal balances less an allowance for loan losses. Also included in this category are student loans owed to the Alabama Higher Education Loan Corporation. The loans are reported net of an allowance for uncollectible loans.

Due From Other Governments as reported in the component units consist almost entirely of amounts owed by local governments. Most of the amount is loans made by the Alabama Water Pollution Control Authority.

H. Inventories

Inventories of supplies in governmental funds are reported at cost using the purchases method. An inventory asset account is reported on the balance sheet with an offset to Reserved for Inventory.

Inventories of materials and supplies of proprietary funds are determined by both physical counts and through perpetual inventory systems and are valued at the lower of cost or market. Valuation methods used by the proprietary and governmental funds include first-in first-out, average cost, weighted average, and retail inventory method.

Surplus supplies, materials, and property from state agencies and the federal government are recorded as inventory at historical cost in two internal service funds. The market value of the inventory in the surplus property funds is significantly lower than the historical cost because of the age and condition of the items.

I. Investments

Investments as reported on the combined balance sheet include long-term investments. As required by GASB 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", most investments are recorded at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Short-term investments are reported at cost, which approximates fair value. Mortgage-backed securities are reported based on future principal and interest payments discounted at the current interest rate for similar instruments. The fair value of real estate investments is based on independent appraisals. No investments are recorded at amortized cost.

J. Restricted Assets

Enterprise fund assets required to be held and/or used as specified in bond covenants have been recorded as "Restricted Assets". These assets consist primarily of U.S. Treasury obligations and certificates of deposit. Alabama State Port Authority, as required by bond covenants, maintains a balance in its debt service reserve fund equal to the debt service in any current or subsequent year. Alabama State Port Authority, as required, also maintains a replacement fund for annual or extraordinary repairs, construction, or acquisition of coal handling facilities. State Port Authority's restricted assets for 2000 includes \$11,451,077 in cash and cash equivalents. The Space Science Exhibit Commission, a component unit, has restricted assets which represent the unspent portion of contributions which were restricted for specific purposes. The Commission's restricted assets for 2000 include \$2,640,269 in cash and cash equivalents.

Most investments, cash, and accrued interest receivable of the Water Pollution Control Authority (WPCA) are restricted by bond indentures for debt service requirements. However, these assets are not presented on the balance sheet as restricted assets since the normal operations of WPCA is to issue bonds, loan the proceeds to municipalities and collect repayments to service the debt.

For the Fiscal Year Ended September 30, 2000

K. Fixed Assets

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the General Fixed Assets Account Group. All purchased fixed assets are valued at cost whenever the historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are valued at the estimated fair market value on the date received. Interest expense incurred during the construction of capital assets is not capitalized in governmental and proprietary funds. However, Higher Education institutions are required to capitalize material amounts of interest expense during the construction of capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Public domain ("infrastructure") general fixed assets consisting primarily of roads and bridges are not capitalized because these assets are immovable and of value only to the State.

Assets in the General Fixed Assets Account Group are not depreciated. Fixed assets for component units reported under governmental fund types are also not depreciated. In those proprietary funds where depreciation expense has been recorded, the depreciation of buildings, equipment, and vehicles is computed using the straight-line method and other generally accepted methods over the estimated useful lives of the assets. The useful life varies greatly according to the needs of each fund, but most buildings use 20 to 30 years, and most equipment falls in the range of 3 to 10 years. Depreciation is not required of the institutions of higher education. However, Auburn University and the three campuses of the University of Alabama system (component units) have elected to record depreciation.

L. Compensated Absences

Employees in permanent positions accrue annual leave at a rate of four to nine hours bi-weekly, depending upon their length of service. Upon separation from service, an eligible employee is paid for the actual number of annual leave days he has earned, up to a maximum of 60 days, with the amount being computed on the basis of his daily pay rate at time of separation multiplied by the number of days leave due.

Sick leave is accrued at a rate of four hours bi-weekly. Employees may accumulate up to a maximum of 150 days sick leave. Employees may be compensated for one-half of the maximum accrued sick leave only upon retirement from state service. The employee must have 25 years of service or have attained the age of 60 and have 10 years of service to be eligible to retire. State Troopers must have 25 years of service or have attained the age of 52 and have 10 years of service to be eligible to retire. When a state employee in the classified service dies while in active service to the state, the estate of the deceased employee shall receive a monetary payment of fifty percent of the accrued and unused sick leave, not to exceed 600 hours, which the employee was credited with at the time of his or her death.

The monetary value of accumulated annual and sick leave payable upon termination or retirement is included on a statewide basis in the accompanying financial statements. In the governmental fund types, amounts to be paid from expendable available resources are recognized as current fund liabilities. Current liabilities were determined from actual termination or retirement payments made during the two months following the end of the fiscal year. Amounts not payable from expendable available resources (long-term liabilities) are reported in the General Long-Term Debt Account Group. All amounts related to the proprietary funds, pension trust funds, and higher education funds are recognized in those funds. The current portion of the liabilities was determined the same way as governmental fund types.

The liability at September 30, 2000, was computed using salary rates effective at that date including the employer's share of social security and Medicare taxes payable and represents annual and sick leave earned up to the allowable ceilings. The sick leave is calculated separately for vested and nonvested employees. Sick leave is subjected to an actuarially determined probability multiplier that the employee will remain to retire and collect sick leave. The probability multipliers are as follows:

	Vested	Nonvested
Public Education Employees	.81	.49
State Employees	.71	.39

For the primary government, the total adjusted liability for annual and sick leave at September 30, 2000, was \$214,927,000 of which \$2,192,000 is reported in governmental funds, \$183,138,000 is reported in the General Long-Term Debt Account Group, \$8,432,000 is reported in Higher Education Funds, and \$21,165,000 is reported in proprietary and pension funds. The component units had a liability of \$77,693,000 making the total liability for the entire reporting entity \$292,620,000. The liability for the colleges and universities (included in the component units), \$57,217,000, is recognized in the higher education funds and has been computed using methodologies applied by each institution.

M. Long-Term Obligations

Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

N. Fund Equity

Contributed capital is recorded in proprietary funds that have received capital grants and/or contributions. The capital grants and contributions are received primarily from the federal government or other state funds.

Reservations of fund equity indicate that a portion of the fund equity is not available for appropriation and expenditure or is legally segregated for a specific future use. Fund balance designations are established to indicate tentative plans for financial resource utilization in a future period. Such designations reflect managerial plans or intent as distinguished from legally required reserves.

O. Totals (Memorandum Only) Columns

Totals columns on the general purpose financial statements are captioned "Memorandum Only" to indicate that they are presented only for financial analysis. Data in these columns do not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither are such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

2 BUDGETARY ACCOUNTING AND REPORTING

A. Budgetary Process

Formulation of the budget begins with the preparation of estimates of expenditure requirements for the next fiscal year by the administrative head of each budgeted agency and institution. These estimates are submitted annually to the Executive Budget Office of the Finance Department on or before the first day of the third month preceding each regular session of the Legislature. The budget is prepared by program elements for each agency. Requested changes in programmatic expenditures over the prior fiscal year must be explained, and proposed capital expenditures must be justified as required by the Executive Budget Office.

The budget document, as finally developed by the Governor, is published and transmitted to the Legislature on or before the second legislative day of each regular session. For each agency, comparative summaries of appropriations and revenues are presented for the prior year, current year, the agency's request for the next year, and the Governor's recommendation for the next year. The recommended appropriation bills indicate the programmatic appropriation to each agency and the source of funds from which each appropriation is to be paid. The Legislature then legally enacts the State budget into law through the passage of a number of bills as appropriation acts. The Legislature made supplemental appropriations to several departments during 2000, but none were material.

The appropriation acts budget by agency and program rather than by GAAP basis funds. The State funds its budgetary activities under three budgetary fund groups. The first is the General Fund, which includes many of the general operations of the three branches of government. The second is the Education Trust Fund (ETF), which is restricted to funding all levels of educational activity in the State. The third budgetary group is referred to in the budget documents as Earmarked Funds. The Earmarked Funds group includes the operations of most governmental funds of both the primary government and the component units, as well as portions of some proprietary and fiduciary operations.

The appropriation acts do not include a revenue budget. At the time of their passage, estimates prepared by legislative and executive branch professional staff assures the legislature that adequate revenues will be available to meet the level of appropriations approved. The Appropriation Acts specify that in addition to the appropriations made, all gifts, grants, or contributions in excess of the amount appropriated are automatically appropriated to be used for the purposes specified in the grant.

Numerous statutes exist which restrict the use of most state revenue sources to specific uses. The General Fund is funded by a wide variety of taxes, licenses, and interest income. The ETF is funded primarily by income taxes and sales taxes. The Earmarked Funds are generally funded by a combination of federal funds, local funds, and specific taxes and licenses. State law also requires that if revenues actually

For the Fiscal Year Ended September 30, 2000

received are inadequate to fund the appropriations, then the appropriations must be prorated to the level that the revenues will support. For the Combined Statement of Revenues, Expenditures, and Other Changes in Fund Balances - Budget and Actual, the budgeted revenues consist of the amount of budgeted expenditures allocated among the revenue categories in proportion to the actual amounts received.

B. Budgetary Control

The legal level of control is the agency and program specified in the Appropriation Acts. For example, "Lab Analysis and Disease Control" and "Agricultural Inspection Services" are two programs within the agency Agriculture and Industries. Below this legal level of control, the professional management of the Finance Department, under the authority of the Governor's policy, exercises budgetary control at the fund and object level. Each agency must submit an operations plan detailing planned expenditures down to the object level, and then must follow that plan or explain why a change must be made. Allotments of appropriations are made quarterly based on the plans of operations submitted by the agencies. Beyond these additional policy constraints, agencies have full authority for administering their appropriations.

The Department of Finance enforces both the legal level and the professional management level of budgetary control through automated edits which must be complied with before making expenditures against an appropriation. A change between objects within appropriations for programs (financial management level) must have the approval of the Budget Officer and the Finance Director.

The Budget Management Act legally authorizes the transfer of appropriations between programs within an agency with the approval of the Governor. Any transfers approved by the Governor must be reported to the legislature. Transfers between agencies, but within the same program, may be made pursuant to interagency agreements executed for the purposes of accomplishing the objectives for which the legislature made the appropriation. These interagency agreements must also be approved by the Governor. Under the Budget Management Act, the Governor cannot create new budget authority, he can only transfer existing authority.

Both the Alabama Constitution and the statutes require a balanced budget for annual financial operations. The Finance Department monitors revenue projections during the year to ensure that adequate funds will be available to meet budgeted expenditures. If cash collections do not meet budget projections, the Governor is required to prorate appropriations and restrict allotments to prevent an overdraft or budget deficit in any fiscal year. Neither the General Fund nor the Education Trust Fund was prorated in 2000.

C. Encumbrance Accounting

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting is used as purchase orders are issued to insure that purchase orders plus expenditures do not exceed allotment balances. At fiscal year end this control becomes more strict, as purchase orders plus any other obligations or accounts payable incurred against fiscal year appropriations may not exceed allotment balances. Encumbrances outstanding at year end are reported on the GAAP basis statements as a reservation of fund equity. Encumbrance balances are reported on the budgetary basis statements as expenditures.

D. Lapsing of Appropriations

All balances of non-capital outlay appropriations not reserved by encumbrances or accounts payable lapse at September 30 of each fiscal year. Furthermore, any appropriation balance not reserved by encumbrances lapses at November 30 following each fiscal year. Encumbrances remain valid for a period of one year following the end of the fiscal year. Balances of encumbrances are reported on the Combined Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual as expenditures. Capital outlay appropriations for the purchase of land, the construction of buildings, or for the maintenance of roads and bridges of the state highway system continue until the completion of the project.

E. Budgetary Basis of Accounting

The State budgets and operates primarily on the budgetary basis which approximates the cash basis with certain material exceptions. During the fiscal year, encumbrances, which represent obligations against current fiscal year appropriations, are accrued. At year end, fund balances are reserved to accrue expenditures for those outstanding encumbrances and estimated accounts payable. In compliance with Amendment 26 to the Constitution, the total reservation may not exceed the cash on hand in the State Treasury. Therefore, at year end, cash always exceeds obligations (encumbrances and estimated accounts payable). The Combined Statement of Revenues, Expenditures, and Other Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) presents comparisons of the adopted budget with actual data on a budgetary basis. The budget excludes funds for all entities operating outside the State Treasury, certain distributive accounts such as those for making

distributions to local governments, and most debt service accounts. Since the accounting principles used in the State's budgetary basis of accounting differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of the differences is presented on the statement. A Detail Schedule of Budget and Actual Expenditures appears in the Supplemental Schedules Section of the CAFR. This schedule provides detail information at the legal level of control for each individual appropriation item contained in the budget.

3 deposits and investments

A. Deposits

The Treasurer has statutory authority to deposit treasury cash in demand accounts or time deposits - open account with any state depository. The Treasurer may also invest up to twenty percent of treasury cash in securities and obligations of the U.S. Treasury or federal agencies for a period of time that may exceed one year. Funds may also be invested in obligations of the United States or its agencies under a repurchase agreement for a shorter period of time than the maturity date of the security.

The Treasurer maintains non-interest bearing balances as a means of compensating banks for the cost of banking services for which the State is not charged. These services are related to general treasury functions. All deposits of the State Treasury are categorized as Category 1 and are insured by Federal depository insurance or secured with collateral held by the State Treasurer's agent in the name of the agency at September 30, 2000. Deposits of non-Treasury agencies, including component units, were not always insured by Federal depository insurance or secured by collateral held in the name of the agency. The exact amounts not collateralized were not readily determinable and therefore it is not known if they are significant.

At September 30, 2000, the State Port Authority carried \$13,900,197 of restricted and unrestricted cash and certificates of deposit on the books. Of this amount, \$750 was cash on hand, \$8,009,988 was deposited with and administered by the trust departments of federally chartered depository institutions, and the \$5,889,459 remainder was on deposit at various banks in checking accounts and certificates of deposit. The bank balance as of September 30, 2000 was \$16,250,000. Of the bank balance, \$598,000 was insured by FDIC, \$7,627,000 was covered by collateral held by pledging financial institution's trust department in the authority's name, and \$8,025,000 was uncollateralized.

For the Alabama Space Science Exhibit Commission, Alabama Space Science Exhibit Finance Authority, and the Alabama Space Leasing Corporation, Inc., at September 24, 2000, the carrying amount of deposits was (\$230,590) and the bank balance was \$39,212. The entire bank balance was insured by FDIC or by collateral held by the authority's agent in the authority's name.

At September 30, 2000, the carrying amount of the Alabama Higher Education Loan Corporation's total cash deposits was \$90,136, which approximated bank balances for the year. The amount covered by federal depository insurance was \$100,000. Cash balances in excess of \$100,000 are collateralized by investment securities held by the corporation's agent in the corporation's name.

At September 30, 2000, the carrying amount of Jacksonville State University's cash on deposit was \$1,427,861, which equaled the bank balance. The University's deposits at yearend were entirely covered by federal depository insurance or by collateral held by the University or by its agent in the University's name.

The University of North Alabama had cash totaling \$14,619,943 which includes cash on hand and demand deposits, excluding agency funds. It is the University's policy and practice for deposits not covered by federal depository insurance to be covered by collateral held by the University agent in the name of the University. The University's bank balance was \$17,865,787. The bank balance of \$336,312 was covered by federal depository insurance while the remaining bank balance of \$17,529,475 was covered by secured collateral at September 30, 2000.

B. Allowable Investments

Investments are made in accordance with the statutes creating the various agencies of the State of Alabama. The following describes the investments made by the major investing agencies of the State:

1. Primary Government

<u>State Treasurer</u> - The State Treasurer may legally invest state funds in repurchase agreements, obligations of the U.S. Treasury, federal land bank bonds, federal home loan bank notes and bonds, Federal National Mortgage Association notes, and debentures or obligations guaranteed by the U.S. government.

<u>Alabama Heritage Trust Fund (AHTF) and Alabama Trust</u> <u>Fund (ATF)</u> – Investments are limited to those authorized by law for the Retirement Systems of Alabama. The

For the Fiscal Year Ended September 30, 2000

investments authorized for the Retirement Systems are described later in the section entitled "Component Units".

<u>Prepaid Affordable College Tuition Program (PACT)</u> -Assets of PACT constitute public funds of the State and may be invested in any instrument, obligation, security or property that constitutes legal investments for investment of public funds in the State, including legal investments of the State Treasurer, the Alabama Trust Fund and Heritage Trust Fund that are deemed most appropriate by the PACT board and may be pooled for investment purposes with any other investment of the State which is eligible for asset pooling.

2. Component Units

Retirement Systems of Alabama (RSA) - The Retirement Systems of Alabama administers the Teachers' Retirement System, Employees' Retirement System, and Judicial Retirement Fund. RSA may invest in any types of investments that the Board of Control of each individual system approves. Each Board is limited only by the "Prudent Man Rule" which requires it to use due care, skill, prudence, and diligence under the prevailing circumstances that a prudent man acting in a like capacity and familiar with such matters would use in investing.

Alabama Water Pollution Control Authority (AWPCA) The AWPCA is authorized to invest in (a) any debt securities that are direct or general obligations of the U. S.; (b) any debt security unconditionally guaranteed (principal and interest) by the U. S.; and (c) repurchase agreements collateralized by securities of the type described in (a) and (b) above or with any registered broker/dealer subject to the Securities Investors' Protection Corporation jurisdiction or any commercial bank, if such broker/dealer or bank has an uninsured, unsecured, and unguaranteed obligation rated "Prime-1" or "A3" or better by Moody's Investor Service, Inc., and "A-1" or "A-" or better by Standard & Poor's Corporation.

<u>Alabama Housing Finance Authority (AHFA)</u> - The Authority is authorized to invest in bonds or other obligations issued or guaranteed by the U.S. Government, or any agency thereof, or the State of Alabama. In addition, the Authority may invest in interest-bearing bank and savings and loan association deposits, any obligations in which a State-chartered savings and loan association may invest its funds, any agreement to repurchase any of the foregoing, or any combination thereof. Each of the trust indentures established under the Authority's mortgage revenue bond programs contains further restrictions on the investment of non-expended bond proceeds; however, each trust indenture must be consistent with the Authority's authorizing legislation with respect to the definition of eligible investments. The Authority's program investments consist of Government National Mortgage Association (GNMA) or Federal National Mortgage Association (FNMA) passthrough certificates, all of which are pledged as security for the mortgage revenue bonds.

Other investments include unexpended bond proceeds, temporary and reserve funds established under the provisions of various trust indentures, and investments of the Authority's operating fund.

<u>Deferred Compensation Plan RSA-1</u> – A deferred compensation plan is administered by the Retirement Systems of Alabama (RSA). The plan is named the Public Employees' Individual Retirement Account/Deferred Compensation Plan, and is commonly referred to as RSA-1. By law, RSA-1 investments are made under the same rules, regulations, conditions, and guidelines governing the RSA.

Higher Education Loan Corporation (Corporation) - The bond trust indentures authorize the Corporation to invest bond proceeds only in certain types of investments including, but not limited to: (1) direct obligations of, or obligations unconditionally guaranteed by, the United States government; (2) bank demand deposits and certificates of deposit insured by the Federal Deposit Insurance Corporation or fully secured by obligations with the same characteristics as those described in items (1) above or (3) below; (3) obligations of or guaranteed by any agency or instrumentality of the U.S. government; (4) obligations with the same characteristics as those described in items (1) and (3) above held by the Trustee under written agreement whereby a bank or trust company agrees to repurchase the obligations, providing that the market value of such obligations, as determined monthly, is always at least equal to the repurchase prices specified in the agreement; (5) money market funds consisting solely of securities similar to those described in items (1), (3), and (4) above; (6)guaranteed investment contracts and, (7) any other investments or obligations consented to by the bond insurance provider. At September 30, 2000, the carrying amount of the Corporation's total cash deposits was \$90,136 which approximated the bank balance. The amount covered by federal depository insurance was \$100,000. Cash balances in excess of \$100,000 are collateralized by investment securities held by the Trustee's agent in the Trustee's name.

<u>Investments Made by Colleges and Universities</u> - The colleges and universities invest funds in accordance with the applicable limits set forth in the gift instruments, Board of Trustees guidelines, or other applicable laws. Certain bond

indentures require that the bond funds invest all amounts in federal securities or eligible certificates. In accordance with GASB 31, most investments are stated at fair value.

C. Securities Lending Program

The Teachers' Retirement System (TRS), the Employees' Retirement System (ERS), and the Judicial Retirement Fund (JRF) are authorized by the Boards of Control to participate in a securities lending program. The Systems' custodian, Chase Manhattan Bank, administers the program. Certain equity securities from the TRS, ERS, and JRF are loaned to borrowers approved by the systems. Approved borrowers of securities provide acceptable collateral in the form of cash, U.S. Treasury securities, or U.S. Government Agency securities. All security loans are open loans and can be terminated on demand by the TRS, ERS, JRF, or borrower. Collateral must be provided in the amount of 105% and 102% of the fair value of the loaned securities for international and U.S. equity securities, respectively. All collateral remains in the exclusive possession of the Systems' custodial agent who is responsible for marking the collateral to market each day and ensuring that the loaned securities are properly collateralized at all times. The TRS, ERS, and JRF cannot pledge or sell collateral securities received unless the borrower defaults. Cash collateral is invested in a dedicated short-term investment fund in the respective Systems' name using investment guidelines provided by the TRS, ERS, and JRF. There is no direct matching of the maturities of the loans with the investments made with cash collateral.

At September 30, 2000, the fair value of the securities on loan was \$971,969 for the TRS, \$503,805 for the ERS, and \$7,517 for the JRF. The fair value of the collateral pledged by the borrowers was \$1,026,560 for the TRS, \$523,009 for the ERS, and \$7,751 for the JRF. Since the amounts owed by the TRS, ERS and JRF to borrowers exceeded the

amounts the borrowers owed to the TRS, ERS, and JRF, there was no credit risk exposure as of September 30, 2000. There were no significant violations of legal or contractual provisions, no borrower or lending agent default losses, and no recoveries of prior period losses during the year.

D. Derivatives

The Retirement Systems of Alabama periodically invest in mortgage-backed securities to improve yield and adjust the duration of the Systems' fixed income portfolio. These securities are subject to change in value due to changes in interest rates. Credit risk (the risk that counterparty might be unable to meet its obligations) results from the same considerations as other counterparty risk assumed by the Systems.

E. Investment Credit Risk

The tables on the following page summarize the carrying and fair value of the State's investments by type and categorizes the investments by level of credit risk as follows:

Category 1 - Insured or registered, or securities held by the State or its agent in the State's name.

Category 2 - Uninsured or unregistered, with securities held by the counterparty's trust department or agent in the State's name.

Category 3 - Uninsured or unregistered, with securities held by the counterparty, or its trust department or agent, but not in the State's name.

Investments not required to be categorized are presented "below the line," followed by reconciling items between this note and the total investments as shown on the balance sheet.

For the Fiscal Year Ended September 30, 2000

For the Fiscal Year Ended September 30, 2000

5 long-term debt

A. Debt Limitations and Methods of Bond Issuance

Under Section 213 of the Constitution of Alabama, as modified by Amendment 26, the State is constitutionally prohibited from incurring debt except to repel invasion or suppress insurrection. Therefore, the only method under which general obligation debt can be incurred is by amendment to the Constitution. Although conventions proposed by the legislature and approved by the electorate may be called for the purpose of amending the Constitution, historically all amendments have been adopted by a procedure which requires them to be proposed by a threefifths majority of each house of the legislature and thereafter ratified by a majority of the electorate.

The Supreme Court of Alabama has ruled that the debt prohibition does not apply to debts incurred by separate public corporations functioning as State instrumentalities. The State has followed the practice of financing certain capital improvements by issuing debt through such public corporations. The Legislature (through enabling legislation) and the Governor (by executive order) have created public corporations and authorities of the State for the purpose of financing projects and programs such as public highways, public educational facilities, judicial buildings, student loans, affordable housing, and other projects. In most instances, State officials such as the Governor, Lieutenant Governor, Attorney General, State Treasurer, and the Director of Finance serve as board members of these The revenue bonds issued by these corporations. corporations are limited obligations of the corporation, not general obligations of the State, and the full faith and credit of the State is not pledged for their repayment. Certain revenues, usually earmarked taxes or revenues generated from the project financed, are pledged for the payment of the debt. Depending on the GASB criteria discussed in Note 1, some of these corporations are reported by blending them with the primary government and some are reported discretely.

The State and its component units issue serial and term bonds and capital appreciation bonds. Capital appreciation bonds are sold at a deep discount and do not pay any interest until the bonds mature. Based on the original offering price, the bonds increase in value as semi-annual interest is earned and is compounded from the original issuance date to the date of maturity. The issuance of this type bond postpones the cash flow until the bonds mature or are called. The increase in the value of the bonds is referred to as accretion.

B. General Obligation Bonds

The State has general obligation bond issues outstanding for the purpose of financing improvements to waterways, improvement of State Port Authority's facilities, construction and improvements of prisons, roads and bridges, mental hospitals, Mobile harbor, State parks, youth services facilities, renovation of state buildings, renovation of the State Coliseum, buildings and equipment for public schools and colleges, conservation projects, and equipment for educational television. The full faith and credit of the State is pledged for the payment of the bonds. The following schedule shows the general obligation annual debt service requirements and is followed by a detailed table describing each individual general obligation bond issue outstanding:

Debt Service Requirements to Maturity

Maturity	Principal	_	Interest	Total
2001	\$ 47,395,000		\$ 11,048,730	\$ 58,443,730
2002	37,720,000		8,727,438	46,447,438
2003	39,855,000		6,607,600	46,462,600
2004	38,595,000		4,464,540	43,059,540
2005	40,460,000		2,453,256	42,913,256
2006-2010	86,659,791		 24,191,222	 110,851,013
Total	\$290,684,791	t	\$ 57,492,786	\$ 348,177,577

† The liability reported on the balance sheet includes \$1,796,715 for the accretion of interest on capital appreciation bonds. The above table shows interest in the year it is paid, not the year it is accrued.

GENERAL OBLIGATION BONDS PAYABLE

General Obligation Issue	Date Issued	Final Maturity Date	Interest Rates	Bonds Payable Sept. 30, 2000
1992 Waterway Refunding				
Series A, Coosa Waterway	02/01/92	12/01/02	5.3% to 5.7%	880,000

Series B Refunding Bonds Maturing on October	07/15/99	10/01/09	3.8% to 5.0%	14,395,000
Total General Obligation Bonds				\$ 292,481,506

[†] The amount outstanding includes \$1,796,715 accretion of interest.

C. Revenue Bonds

1. Primary Government - General Long-term Debt Account Group

ALABAMA INDUSTRIAL ACCESS ROAD AND BRIDGE AUTHORITY

The Alabama Industrial Access Road and Bridge Authority is authorized to issue bonds to finance the construction of industrial access roads and bridges in the state. Revenues from gasoline, motor fuel, and lubricating oil taxes are pledged for the payment of these bonds. The following schedule details the annual debt service funding requirements:

Debt Service Requirements to Maturity

Maturity	Principal	Interest		Total
2001	\$ 3,675,000	\$	735,390	\$ 4,410,390
2002	3,860,000		566,105	4,426,105
2003	4,065,000		384,433	4,449,433
2004	2,420,000		187,835	2,607,835
2005	1,305,000		63,945	1,368,945
Total	\$15,325,000	\$	1,937,708	\$17,262,708

ALABAMA CORRECTIONS INSTITUTE FINANCE AUTHORITY

The Alabama Corrections Institution Finance Authority issues bonds for the purposes of acquiring land and constructing correctional institutions. The bonds are payable from revenues derived from payments under a lease agreement between the Authority and the Department of Corrections. The following schedule details the annual debt service funding requirements:

Maturity	Principal	Principal Interest	
2001	\$ 4,540,000	\$ 2,183,095	\$ 6,723,095
2002	4,755,000	1,971,985	6,726,985
2003	4,995,000	1,743,745	6,738,745
2004	5,250,000	1,498,990	6,748,990
2005	5,520,000	1,236,490	6,756,490
2006-2013	17,680,000	3,709,645	21,389,645
Total	\$42,740,000	<u>\$12,343,950</u>	<u>\$ 55,083,950</u>

For the Fiscal Year Ended September 30, 2000

ALABAMA JUDICIAL BUILDING AUTHORITY

The Alabama Judicial Building Authority issues bonds for the purpose of funding the acquisition and construction of judicial facilities. The bonds are payable from revenues and receipts paid by the Judicial System pursuant to the lease, proceeds of insurance in the event of damage or destruction of the facilities, amounts, if any, received in the event of condemnation of the facilities, amounts payable by AMBAC under the Municipal Bond Insurance Policy, and earnings, if any, on funds held by the State Treasurer. The following schedule details the annual debt service funding requirements:

ALABAMA PUBLIC HEALTH CARE AUTHORITY

The Alabama Public Health Care Authority issues bonds for the purpose of funding the acquisition and construction of public health care facilities. Revenues received from leases with the county health departments, income from investments, real property, equipment, cash, securities, and a policy of municipal bond insurance are pledged for the payment of principal and interest on the bonds. The following schedule details the annual debt service funding requirements:

Debt Service Requirements to Maturity

Maturity	Principal	Interest	Total
2001	\$ 1,775,100	\$ 2,198,127	\$ 3,973,227
2002	1,657,461	2,316,959	3,974,420
2003	1,533,663	2,436,707	3,970,370
2004	1,439,400	2,531,715	3,971,115
2005	3,700,000	276,055	3,976,055
2006-2014	19,074,439	16,369,651	35,444,090
Total	\$29,180,063 †	\$ 26,129,214	\$55,309,277

[†] The liability reported on the balance sheet includes \$9,378,521 for the accretion of interest on capital appreciation bonds. The above table shows interest in the year it will be paid, not the year it is accrued.

Debt Service Requirements to Maturity

Maturity	Principal	Interest	Total
2001	\$-	\$ 895,313	\$ 895,313
2002	530,000	1,762,075	2,292,075

† Balance includes the accretion of interest on capital appreciation bonds in the amount of \$6,176,151 for the Judicial Building Authority 1990 Capital Appreciation Bonds, and \$3,202,370 for the 1996 Judicial Building Authority Capital Appreciation Bonds.

2. Primary Government - Proprietary Funds

MONTGOMERY DOWNTOWN REDEVELOPMENT AUTHORITY

The Montgomery Downtown Redevelopment Authority issued bonds to fund the construction of the Gordon Persons Building. Debt service is payable solely from the revenues and receipts paid pursuant to leases, proceeds of insurance in the event of damage or destruction of the building, amounts received in the event of condemnation of the building, amounts payable by MBIA under the Insurance Policy, amounts on deposit in the Reserve Fund held by the Trustee, earnings, if any on funds held by the Trustee, and funds received by the Trustee in the event of any foreclosure sale of the building. The following schedule details the annual debt service requirements:

Maturity	Principal	Interest	Total	
2001	\$ 2,690,000	\$ 3,248,433	\$ 5,938,433	
2002	2,830,000	3,111,778	5,941,778	
2003	2,980,000	2,965,038	5,945,038	
2004	3,140,000	2,807,408	5,947,408	
2005	3,320,000	2,637,788	5,957,788	
2006-2014	46,080,000	13,656,771	59,736,771	
Total	<u>\$61,040,000</u>	\$28,427,216	\$ 89,467,216	

For the Fiscal Year Ended September 30, 2000

ALABAMA BUILDING RENOVATION FINANCE AUTHORITY

The Alabama Building Renovation Finance Authority issues bonds to provide funding for the renovation, reconstruction, operation, and maintenance of public office buildings in the state capitol complex. The Authority also receives income from the rental of the office buildings to state agencies. The bonds issued by the Authority are payable from the rents received by the authority under lease agreements. The following schedule details the annual debt service funding requirements:

ALABAMA STATE PORT AUTHORITY

The Alabama State Port Authority (ASPA) issued bonds for the construction and maintenance of a wharf, warehouse, open storage area and other port facilities at Mobile Bay. The bonds are secured by the gross revenues of ASPA derived from charges made by ASPA for all services provided. The following schedule details the annual debt service funding requirements:

Debt Service Requirements to Maturity

Total	<u>\$111,157,563</u>

4. Component Units – Governmental Funds

ALABAMA INCENTIVES FINANCE AUTHORITY

The Alabama Incentives Finance Authority issues bonds to fund financial commitments to industries relocating to Alabama under the terms of the State's Industrial Incentives legislation. At September 30, 2000, the outstanding principal balance of the 1995B bonds was \$32,372,000 which included \$2,372,000 in accreted interest, and the outstanding principal balance of the 1999C bonds was \$42,425,000. The interest rates for the Series 1995B bonds and the Series 1999C bonds are variable and conditional depending on a variety of factors, therefore no schedule of debt service requirements to maturity is possible.

Debt Service Requirements to Maturity

5. Component Units - Proprietary Funds

ALABAMA HOUSING FINANCE AUTHORITY

The Alabama Housing Finance Authority issues bonds that are limited obligations of the Authority and are not a debt or liability of the State. Each bond issue is secured, as described in the applicable trust indenture, by all revenues, monies, investments, mortgage loans, and other assets in the funds and accounts of the program. Substantially all of the Authority's assets are pledged as security for the bonds. Principal payments on bonds after 2001 are scheduled as follows:

Debt Principal Requirements to Maturity

Maturity	Principal
2001	\$ 13,973,000
2002	16,745,000
2003	33,136,000

2002		25,000		
2003		25,000		
2004		16,451		
Total	\$	91,451		

† The Commission paid \$12,431 of the principal due in FY 2001 prior to October 1, 2000. The Commission has issued both fixed and variable rate bonds, therefore the annual requirements for the payment of interest in future years is not available.

ALABAMA HIGHER EDUCATION LOAN CORPORATION

The Alabama Higher Education Loan Corporation issues bonds to provide Alabama lending institutions with a secondary market for student loans made under the Higher Education Act, which established the federal Guaranteed Student Loan Program. The corporation issues tax-exempt revenue bonds in order to fund its operations. The proceeds are used to purchase student loans and fund operating costs of the corporation. The bonds are repaid from principal repayments on student loans, interest, and special allowance payments from the U.S. Department of Education, interest income from investments, guarantee payments on defaulted loans, proceeds from any sale of loans, issuance of refunding bonds, and if necessary, by drawing on the corporation's irrevocable letters of credit. The following schedule details the annual debt service funding requirements:

Debt Principal Requirements to Maturity

[†] Unamortized discounts were \$16,355 for the Higher Education Loan Corporation, \$4,576,000 for the Housing Finance Authority, \$8,092,298 for the Water Pollution Control Authority, \$210,582 for the Drinking Water Authority, and \$234,040 for the Space Science Exhibit Commission.

‡ Unamortized loss on defeasance was \$296,851 for the Alabama Space and Science Commission and \$5,209,215 for the Water Pollution Control Authority.

6. Component Units - Higher Education

The boards of the various institutions of higher education have numerous bond issues outstanding for a variety of purposes. Most were issued for the construction, renovation, and acquisition of buildings for various purposes, including classrooms, research facilities, dormitories, student centers, dining facilities, hospitals, and athletic facilities. The following table shows the total principal outstanding by institution:

INSTITUTIONS OF HIGHER EDUCATION

Institution	Principal
University of Alabama - Tuscaloosa	\$ 87,355,000
University of Alabama - Birmingham	564,514,752
University of Alabama - Huntsville	41,986,000
Alabama A&M University	66,055,000

E. Refunded and Redeemed Bonds

Advance refunding bonds are issued to retire existing bonds. A portion of the proceeds from the sale of the refunding bonds is deposited with an escrow agent according to an escrow trust agreement. The proceeds are invested by the escrow agent in certain U.S. Treasury obligations in such amounts with certain maturities to provide sufficient funds to pay the remaining maturing principal and interest on the refunded bonds as they become due. The refunded bond debt is considered to be retired for financial reporting purposes even though the debt is still legally outstanding and the issuer of the bonds has not been released from the debt obligations. The U.S. Treasury obligations constitute a trust fund to be held by the escrow agent for the benefit of the holders of the refunded bonds. Advance refundings and early redemptions are discussed in the remainder of this section.

In August 2000, the University of Alabama in Birmingham issued Hospital Revenue Bonds Series D which bears interest at a variable rate. The Series D net proceeds of \$76,397,830 were used to currently refund \$75,000,000 of outstanding Series 1997A and 1997B Hospital Revenue Bonds. This current refunding resulted in an accounting loss of approximately \$200,000, which includes the write-off of unamortized bond issue expenditures and discounts of approximately \$335,000 for the year ended September 30, 2000. UAB increased its aggregate debt service payments by approximately \$54,800,000 over the next 30 years and incurred an economic loss of approximately \$3,300,000.

For the Fiscal Year Ended September 30, 2000

During the year ended September 30, 2000, the Alabama Housing Authority called approximately \$140,915,000 of bonds in advance of their scheduled maturities. The extraordinary loss on early retirement of these bonds is \$967,000 and is primarily comprised of unamortized deferred debt financing costs and unamortized discount.

DEFEASED BONDS

Primary Government	Principal
State Port Authority	
Seaport Facility Revenue Bonds	3,230,000
Component Units	
Housing Finance Authority	30,750,000
Alabama State University	4,209,227
Auburn University	4,140,000
University of Alabama in Huntsville	19,330,000
University of Alabama in Tuscaloosa	2,140,000
University of Alabama in Birmingham	205,000
University of South Alabama	15,890,000
University of North Alabama	2,395,000
Water Pollution Control Authority	
Series 1990A	15,270,000
Series 1990B	10,825,000

F. Arbitrage

The Tax Reform Act of 1986 requires that governmental entities issuing tax-exempt debt subsequent to August, 1986, to calculate and rebate arbitrage earnings to the federal government. The U.S. Treasury has issued regulations on calculating the rebate amount and complying with the provisions of the Tax Reform Act of 1986. Governmental issuers must comply with the rebate regulations in order for their bonds to maintain tax-exempt status. The regulations require the excess of the aggregate amount earned on investments purchased with bond proceeds over the amount that would have been earned if the proceeds were invested at a rate equal to the bond yield to be rebated to the federal government. Income earned on excess earnings is also subject to rebate. Rebate payments, if required, are due at least once every five years over the life of the bonds. Bond issues with arbitrage liabilities outstanding at September 30, 2000, were as follows:

Primary Government	Amount
Industrial Access Road and Bridge	
Series 1994	152,871
Series 1995	290,217
Montgomery Downtown Redevelopment	
Authority, Series 1992	14,197
Public Health Care Authority	
Series 1996	66,919
Component Units	
Alabama Public School and College Authority	
Series 1996	1,036,987
Series 1999-D	1,346,964
Mental Health Finance Authority	
Series 1995	46,913
Water Pollution Control Authority	437,624
Alabama Higher Education Loan Corp.	5,591,206

These lists are based upon incomplete data since some bond issues have not yet been included in arbitrage calculations. Any refunded bond issue is subject to the rebate requirement until the last bond is redeemed. Bond issues that have already been redeemed may be subject to additional payments if an arbitrage rebate or spending payment is owed and has not been paid.

Bonds Authorized But Not Issued (Amounts in Thousands)

[†] The State Industrial Development Authority is authorized to issue a total of \$100,000,000 in bonds in addition to any bonds authorized prior to 1991. No more than \$40,000,000 in aggregate principal amount of such bonds may be outstanding at any one time. At 9/30/00, \$19,325,000 was outstanding.

H. Forward Delivery Agreements

In September 1994, the Alabama Public School and College Authority (APSCA) and the Alabama Industrial Access Road and Bridge Authority (AIARBA) each entered into debt service forward delivery agreements with Merrill Lynch Capital Services, Inc. (MLCS). Under the agreements, the APSCA received \$9,800,000 and the AIARBA received \$1,084,841. In exchange for the above amounts, each Authority agreed to deposit one-sixth of the semi-annual interest and one-twelfth of the annual principal payable on certain bonds to MLCS each month. MLCS agreed in turn to deliver qualified securities that will mature on or before the bond payment dates. Because the interest that normally would be earned on these deposits belongs to the General Fund, the \$10,884,841 paid by MLCS was deposited in the General Fund. The Forward Delivery Agreements are recorded in the General Long-Term Debt Account Group. The Agreements are being amortized on a straight-line basis over twelve years. This amortization is reflected in the General Fund as debt service expenditure and interest revenue.

I. Claims and Judgments

A judgment was entered against the State in favor of Alabama State University and Alabama A&M University. The State must pay each University \$1,000,000 for the next ten years. The amount outstanding of \$20,000,000 is reported in the General Long-Term Debt Account Group as Other Liabilities.

$6 \begin{array}{c} {\rm FUND\ EQUITY\ RESTATEMENTS,}\\ {\rm RESERVATIONS\ AND\ DEFICITS} \end{array}$

A. Beginning Fund Equity Restatements

Fund balances as of October 1, 1999, have been restated for certain accounting changes necessary to conform to Generally Accepted Accounting Principles. The largest restatement resulted from the implementation of a new capitalization threshold at the University of South Alabama. The University raised the threshold from \$1,000 to 5,000, resulting in a change of \$29,239,000 to the beginning fund balance for October 1, 1999.

For the Fiscal Year Ended September 30, 2000

D. Fund Balance/Retained Earnings Deficits

The Alcoholic Beverage Control Board, an Enterprise Fund, had a deficit in retained earnings of \$5,377,000 at September 30, 2000, largely due to the accrual of liabilities for compensated absences and salaries payable. The Board, by law, operates on a cash basis and is required to distribute 100% of its earnings.

The Building Renovation Finance Authority, an Internal Service Fund, had a deficit in retained earnings of \$15,191,000 at September 30, 2000, causing a deficit in total fund equity of \$15,169,000. The fund's major assets are buildings, which have depreciated values that are less than the long-term debt associated with them.

The Alabama Health Insurance Plan, an Enterprise Fund, had a deficit in retained earnings of \$1,116,000 at September 30, 2000. The fund does not have sufficient reserves to cover the currently estimated amounts of claims payable and Insurance Claims Incurred but Not Reported. The Revenue Administrative Special Revenue Fund had a deficit in unreserved, undesignated fund balance of \$1,287,000, although the overall total fund balance is a positive \$707,000. The accrual of salaries payable, which will be paid for with next year's revenues, is the major cause of this deficit.

7 interfund balances

Interfund Receivables/Payables

Interfund receivables/payables between funds of the primary government are reported as Due To/From Other Funds. Interfund receivables/payables between funds of component units are reported as Due To/From Component Units. Interfund receivables/payables which cross between the primary government and component units are reported as Due To/From Component Units or Due To/From Primary Government. A summary of interfund receivables and payables is presented in the following table:

8 RISK MANAGEMENT

The State manages risk through risk control and risk financing to minimize the adverse effects of certain types of Risk financing includes self-insurance through losses. several different funds. The State Insurance Fund provides coverage for state buildings and contents against fire and casualty losses. The General Liability Trust Fund insures state employees against the risk of loss from employmentrelated liability claims. The State Employee Injury Compensation Trust Fund was created by the 1994 legislature to provide benefits to eligible state employees for jobincurred injury. The State Insurance Fund, the General Liability Trust Fund and the State Employee Injury Compensation Trust Fund are administered by the Division of Risk Management of the Department of Finance.

There was no significant reduction in insurance coverage by the three Division of Risk Management funds from the prior year. These funds do not have acquisition costs; therefore, no cost is amortized for the period. The funds use the accrual basis of accounting for reporting purposes. During fiscal year 1998, the Finance Department implemented GASB 31 "Accounting and Financial Reporting for Certain Investments and External Investment Pools." As required by GASB 31, most investments are now recorded at fair value. Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. Estimated claims liabilities are calculated by the plans' actuary based on prior claims data for the General Liability Trust Fund and State Employee Injury Compensation Trust Fund. For the State Insurance Fund,

estimated claims liabilities are based on management's judgement.

The separately issued financial report of the Division of Risk Management contains additional note disclosures and supplementary information regarding claims development and liabilities.

A. The State Insurance Fund

The State Insurance Fund (SIF) was established in 1923 under Code of Alabama 1975, Section 41-15-1 for the purpose of insuring direct physical loss on buildings and contents in which title in whole or in part is vested in the State of Alabama or any of its agencies or institutions or in which funds provided by the State have been used for the purchase of the land, construction of the building, purchase or maintenance of any equipment, machinery, furniture, fixtures or supplies in such buildings and public school buildings together with the contents of all such buildings. All covered property shall be insured for no more than its replacement cost and shall be insured for no less than 80 percent of its actual cash value. City or county boards of education or district boards of education of independent school districts may insure school buildings and property either in the state insurance fund or with an insurance company, whichever in the opinion of such board provides the best coverage for such school buildings and property. The principles of private industry insurance companies are utilized to establish rates, premium discounts, and experience credits to result in equitable premiums charged to policyholders. Excess insurance and reinsurance is acquired to assure the solvency of the fund while providing additional coverage such as earthquake and flood insurance.

The SIF has a \$7,500,000 annual deductible and a \$2,500,000 deductible per occurrence on claims. Excess insurance covers claims exceeding \$7,500,000 with a \$750,000,000 limit. Claims for 1998 exceeded the SIF's deductible (\$6,000,000 in 1998) by \$943,713. The SIF has a claim pending with the excess insurance. Claims did not exceed the deductible amount in fiscal years 1999 and 2000.

For the Fiscal Year Ended September 30, 2000

The following table presents the changes in claims liabilities for the past two years:

	2000	1999
Reported claims payable & estimated claims incurred but not reported at the beginning of year	\$ 6,169,691	\$ 9,096,512
Incurred Claims:		
Provision for insured events of the current year	2,698,871	8,364,856
Increase (decrease) in provision for insured events of prior years	3,458,609	(1,102,914)
Total incurred claims and claim adjustment expenses	6,157,480	7,261,942
Payments:		
Claims and claim adjustment expenses attributable to insured events of the current year	2,325,861	6,352,944
Claims and claim adjustment expenses attributable to insured events of the prior year	2,994,121	3,835,819
Total Payments	5,319,982	10,188,763
Reported claims payable and estimated claims payable incurred but not reported at end of year	\$ 7,007,189	\$ 6,169,691

B. General Liability Trust Fund

The General Liability Trust Fund (GLTF) was established in 1984 to protect state employees from personal financial liability resulting from lawsuits that are based on alleged negligence while acting within the line and scope of state employment. Claims are investigated and defended through the Office of Attorney General. Auto liability is fully reinsured and the reinsurer, American Southern Insurance Company, handles all claims. The GLTF is managed much like a commercial insurance company, with exposure evaluated and commensurate premiums assigned to state agencies. Investment activities are an essential part of the General Liability Trust Fund financial stability to maintain lower costs employee liability coverage. Funds in excess of those needed for immediate operations will be invested to maximize return and keep premiums down.

The GLTF has a \$3,300,000 deductible on claims. Claims exceeded the deductible in fiscal year 1998 by \$1,311,433. Claims did not exceed this deductible in fiscal year 1999 nor fiscal year 2000.

The following table presents the changes in claims liabilities for the past two years:

	2000	1999
Reported claims payable and estimated claims incurred but not reported at the beginning of year	<u>\$ 14,161,985</u>	<u>\$ 15,134,243</u>
Incurred Claims:		
Provision for insured events of the current year	448,661	2,313,342
Increase (decrease) in provision for insured events of prior years	2,147,109	942,070
Total claims and claims adjustment expenses	2,595,770	3,255,412
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	447,824	2,196,683
Claims and claims adjustment expenses attributable to insured events of the prior year	2,479,860	2,030,987
Total Payments	2,927,684	4,227,670
Reported claims payable and estimated claims payable incurred but not reported at end of year	\$ 13,830,071	\$ 14,161,985

C. State Employee Injury Compensation Trust Fund

The State Employee Injury Compensation Trust Fund (SEICTF) was created by the 1994 legislature effective October 1, 1994. Its purpose is to provide benefits to eligible state employees for job-incurred injury. Benefits under SEICTF include all reasonable medical expenses arising from a job-incurred injury, lost wages (including benefits for time lost from the job), and benefits to dependents of employees who are fatally injured on the job. Specifically excluded from coverage are employees of the State Port Authority, educational institutions, and boards of education. A key element in assuring effective and efficient operation of SEICTF was the creation of a statewide medical provider

network with a focus on professionals who are experts in treating occupational injury. Excess insurance and reinsurance is acquired to assure the solvency of the fund. Initial operation of the Fund was funded by a transitional authorization of budgeted General Liability Trust Fund and State Employees' Insurance Board.

The SEICTF has a deductible per occurrence. Claims did not exceed the deductible amounts in fiscal years 1998, 1999 and 2000.

The following table presents the changes in claims liabilities for the past two years:

	2000	1999
Reported claims payable and estimated claims incurred but not reported at the beginning of year	\$ 8,275,726	<u>\$ 9,368,429</u>
Incurred Claims:		
Provision for insured events of the current year	187,042	172,274
Increase (decrease) in provision for insured events of prior years	237,567	488,576
Total claims and claims adjustment expenses	424,609	660,850
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	262,641	208,497
Claims and claims adjustment expenses attributable to insured events of the prior year	1,336,877	1,545,056
Total Payments	1,599,518	1,753,553
Reported claims payable and estimated claims payable incurred but not reported at end of year	\$ 7,100,817	<u>\$ 8,275,726</u>

For the Fiscal Year Ended September 30, 2000

D. State Employees' Insurance Plan

The State Employees' Insurance Plan (SEIP) was established in 1965 Alabama Acts 833 to provide health insurance benefits for state employees. The SEIP is administered by the State Employees' Insurance Board (SEIB). The monthly premiums for employee and dependent coverage are determined annually and are set at a rate necessary to provide sufficient funds to pay all claims and reasonable expenses of administering the plans. The State pays a monthly premium for each employee and the employee pays any dependent premium.

The SEIB establishes claims liabilities based on estimates of the ultimate cost of claims (including future retroactive claims adjustments) that have been reported but not settled, and of estimated claims that have been incurred but not reported. Because actual claims liabilities are affected by complex changing factors such as inflation, medical technology, and changes in legal doctrines, the process used in computing claims liabilities does not result in an exact amount. Actual claims costs incurred may vary from estimated claims liabilities depending on the similarities in the nature and frequency of the claims between current and prior years.

The SEIB also administers a local government health insurance plan (LGHIP) in the same manner as the SEIP.

The following table presents the changes in claims liabilities during the past two years (Approximately 90% of claim liabilities are related to SEIP and the remainder to LGHIP):

	2000	1999
Reported claims payable and estimated claims incurred but not reported at the beginning of year	\$ 22,971,960	\$ 26,320,706
Restatement of reported claims and estimated claims incurred but not reported	-	(9,233,867)
Reported claims payable and estimated claims incurred but not reported - Restated	22,971,960	17,086,839
Incurred Claims:		
Provision for insured events of the current year	209,536,865	192,917,662
Increase (decrease) in provision for insured events of prior years	(1,945,496)	3,479,790
Total claims and claims adjustment expenses	207,591,369	196,397,452
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	196,018,097	173,517,091
Claims and claims adjustment expenses attributable to insured events of the prior year	16,220,926	16,995,240
Total Payments	212,239,023	190,512,331
Reported claims payable and estimated claims payable incurred but not reported at end of year	\$ 18,324,306	\$ 22,971,960

E. Public Education Employees' Health Insurance

The Public Education Employees' Health Insurance Fund (PEEHIF) was established in 1983 by the provisions of *Act* 83-455 to provide a uniform plan of health insurance for current and retired employees of state educational institutions and to provide a method of funding the benefits related to the plan. The plan is administered by the Public Education Employees' Health Insurance Board (PEEHIB).

The State contributes a specified amount monthly to each respective participating school system. Each participating school system must then pay the employer rate to the PEEHIF each month. That rate was \$317 per participant for 2000 and \$225 per participant for 1999. In addition to the employer payments each month, certain premium amounts

are paid by the employee. PEEHIB established claims liabilities based on the actual cost of claims reported but not settled, and estimates of claims that have been incurred but not reported. Because actual claims liabilities are affected by complex changing factors such as inflation, medical technology, and changes in legal doctrines, the process used in computing claims liabilities does not result in an exact amount. Actual claims costs ultimately incurred may vary from the estimated claims liabilities depending on the similarities in the nature and frequency of the claims between current and prior years. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

The following table presents the changes in claims liabilities during the past two years:

	2000	1999
Reported claims payable and estimated claims incurred but not reported at the beginning of year	\$ 54,257,056	<u>\$ 37,929,593</u>
Incurred Claims:		
Provision for insured events of the current year	481,793,561	423,521,222
Increase (decrease) in provision for insured events of prior years	(5,023,711)	(574,664)
Total claims and claims adjustment expenses	476,769,850	422,946,558
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	428,697,525	369,264,166
Claims and claims adjustment expenses attributable to insured events of the prior year	49,233,345	37,354,929
Total Payments	477,930,870	406,619,095
Reported claims payable and estimated claims payable incurred but not reported at end of year	\$ 53,096,036	\$ 54,257,056

The separately issued financial report contains additional note disclosures and supplementary information regarding claims development.

For the Fiscal Year Ended September 30, 2000

F. Alabama Health Insurance Plan

The Alabama Health Insurance Plan (AHIP) was established to provide health insurance coverage to eligible individuals as an alternative to federal oversight required in the Health Insurance Portability and Accountability Act of 1996. AHIP was established in 1997 under Regulation 115 pursuant to Act 97-713 and Section 27-1-17 *Code of Alabama 1975* and is governed by a nine member Board of Directors. The plan provides major medical benefits limited to \$1,000,000 for the lifetime of a participant. The plan provides that participants pay monthly premiums for health insurance coverage. Coverage is also available for eligible dependents of participants. Premiums are determined annually and are set at a rate necessary to provide sufficient funds to pay all claims and reasonable expenses of administering the plan.

Regulation No. 115 authorizes the Plan to recoup losses by assessing participating insurers based on their health insurance premiums written in the state for any year in which the Plan incurs a deficit. Assessments in excess of actual losses are to be held in interest and used by the board to offset future losses or to reduce future assessments. AHIP obtained funding from assessments totaling \$4,371,160 and \$3,822,453 in 2000 and 1999, respectively.

AHIP established claims liabilities based on estimates of the ultimate cost of claims (including future retroactive claims adjustments) that have been reported but not settled and of estimated claims that have been incurred but not reported. The estimation of claims costs depends on many factors including historical loss experience. Adjustments of the estimated claim liabilities based on actual results are charged or credited to expense in the periods in which such adjustments are determined.

The following table presents the changes in claims liabilities during the past two years:

	2000	1999
Reported claims payable and estimated claims incurred but not reported at the beginning of year	<u>\$ 1,799,244</u>	<u>\$ 516,803</u>
Incurred Claims:		
Provision for insured events of the current year	13,962,516	6,798,793
Increase (decrease) in provision for insured events of prior years		
Total claims and claims adjustment expenses	13,962,516	6,798,793
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	10,983,767	4,620,185
Claims and claims adjustment expenses attributable to insured events of the prior year	1,209,272	896,167
Total Payments	12,193,039	5,516,352
Reported claims payable and estimated claims payable incurred but not reported at end of year	\$ 3,568,721	<u>\$ 1,799,244</u>

G. Alabama State Port Authority

The Alabama State Port Authority is partially self-insured with respect to workmen's compensation claims. Claims are self-insured to the extent of claims less than \$300,000 with

no aggregate limit with respect to the number of such claims. Additionally, any individual claims in excess of \$5,000,000 are self-insured.

9 RETIREMENT PLANS

A. The Retirement Systems of Alabama

The Retirement Systems of Alabama (RSA) administers three retirement programs: The Teachers' Retirement Systems, Employees' Retirement Systems, and Judicial Retirement Fund for the benefit of state employees and public education employees.

1. Plan Descriptions

The Teachers' Retirement System of Alabama (TRS) is a cost-sharing multiple-employer defined benefit pension plan, established as of September 15, 1939 under the provisions of the 1939 *Alabama Acts* 419. The system provides retirement allowances and other specified benefits for qualified persons employed by state-supported educational institutions. The Board of Control has responsibility for the general administration and operation of the TRS.

The Employees' Retirement System of Alabama (ERS) is an agent multiple-employer defined benefit pension plan established as of October 1, 1945, under the provisions of the 1945 *Alabama Acts* 515. This system provides retirement allowances and other specified benefits for state employees, state police, and employees of cities, counties, towns, and quasi-public organizations on an elective basis. The Board of Control is responsible for the general administration and operation of the ERS.

The Judicial Retirement Fund (JRF) is a cost-sharing multiple-employer defined benefit pension plan, established under the 1973 *Alabama Acts* 1163. This system provides retirement allowances and other specified benefits for any Justice of the Supreme Court of Alabama, Judge of the Court of Civil Appeals, Judge of the Court of Criminal Appeals, Judge of the Circuit Court, or office holder of any newly created judicial office receiving compensation from the State Treasury. Act Number 1205 of the Legislature of 1975 supplemented the provisions of Act Number 1163 and enlarged the scope and coverage of the JRF to include District and Probate Judges. The Board of Control of the ERS administers and operates the JRF.

The TRS, ERS, and JRF provide retirement benefits as well as death and disability benefits as established by state law. The retirement benefit provisions are established by Title 36, Chapter 27 of Alabama State Law and must be amended by statute. Benefits for TRS and ERS members vest after 10 years of credited service. Teachers and state employees who retire after age 60 (52 for state police) with 10 years of credited service or with 25 years of service (regardless of age) are entitled to an annual retirement benefit, payable monthly for life. Service retirement benefits are calculated by two methods with the member receiving payment under the method which yields the highest monthly benefit: (1) minimum guaranteed, or (2) formula. Under the formula method, members of TRS and ERS (except state police) are allowed 2.0125 percent of their final average salary (highest 3 of the last 10 years) for each year of service. State Police are allowed 2.875 percent for each year of state police service in computing the formula method. Disability retirement benefits are calculated in the same manner.

JRF benefits vest from five to eighteen years. Except for justices or judges who were either disabled, elected prior to July 30, 1979, or have at least 25 years of credited service, no justice or judge shall be eligible to receive judicial service retirement pay prior to attaining sixty years of age. Service retirement benefits for justices and judges are dependent upon the particular office held in the judicial branch of government. A retirement benefit is payable upon the request of any member who has: (1) 25 years of credited service (regardless of age), (2) completed 12 years of credited service and has attained age 65, (3) completed 15 years of credited service and whose age plus service equals or exceeds 77, (4) completed at least 18 years of credited service or three full terms as a judge or justice and has attained age 65 (5) completed 10 years of credited service and has attained age 70, (6) been elected prior to July 30, 1979 and has 18 years of service (regardless of age). A member eligible to retire who has not requested his retirement benefit to commence at the end of the term in which his seventieth birthday occurs is entitled only to the refund of his contributions (except for members with at least 25 years of credited service). The service retirement benefit for a member other than a probate judge is equal to 75 percent of the state-paid salary prescribed by law for the position from which the member retires. If a probate judge is paid on a fee basis, the service retirement benefit is equal to 90% of the benefit payable to a circuit judge on the date such judge retires. If a probate judge is paid on a salary basis, the benefit is equal to 75% of the salary upon which such judge contributes immediately prior to retirement.

A preretirement death benefit is offered in which the account is credited with TRS and ERS employer contributions and investment income on such funds. The preretirement death benefit (group term life insurance) is paid in addition to the return of member contributions upon the death of an active

For the Fiscal Year Ended September 30, 2000

TRS or ERS member who has completed at least one year of active membership in the system and whose date of death was within 180 days of such member's last date of actual service. However, a surviving spouse beneficiary may elect a survivor allowance in lieu of this benefit. The preretirement death benefit is equal to the annual earnable compensation of the member as reported to the system for the preceding year ending June 30, for TRS and September 30, for ERS.

When a member withdraws from service prior to becoming vested, the member's accumulated contributions and a portion of accumulated interest credited to the Annuity Savings account are returned to the member. The portion of accumulated interest, which by law, is not payable to the member, is transferred to the Expense fund.

RSA issues a stand-alone financial report that includes financial statements and required supplementary information (including the six-year trend) for the year ended September 30, 2000. Copies may be obtained by writing to:

The Retirement Systems of Alabama P.O. Box 302150 135 South Union Street Montgomery, AL 36130-2150

Title 36, Chapter 27 of the Alabama State Law established the contribution requirements and must be amended by state statute. The law provides that the Boards of Control engage an actuary to prepare an annual valuation of the assets and liabilities of the various reserve funds.

At September 30, 2000, the number of participating employers in each system was as follows:

	TRS	ERS
Cities	-	247
Counties	-	64
Other Public Entities	-	428
Universities	13	-
Post-Secondary Institutions	30	-
City & County Boards of Education	128	-
State Agencies & Other	33	1
Total	204	740

2. Summary of Significant Accounting Policies

Basis of Accounting

The TRS, ERS, and JRF financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. The financial statements are prepared in accordance with requirements of the Governmental Accounting Standards Board and are considered component units of the State of Alabama.

Investments

The Boards of Control of the Systems have the responsibility and authority to invest and reinvest available funds, through the Secretary-Treasurer and Investment Committee, in bonds, mortgage-backed securities, common and preferred stock, or other investment vehicles with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use. All plan assets are carried at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Short-term investments are reported at cost, which approximates fair value. Mortgageback securities are reported based on future principal and interest payments discounted at the prevailing interest rate for similar instruments. The fair value of real estate investments is based on the estimate of independent appraisals.

As of September 30, 2000, the TRS and ERS owned debt and equity securities of Raycom Media Corporation which represent approximately 9 percent and 11.7 percent respectively, of the net assets held in trust for pension benefits. Also, the TRS and ERS owned debt and equity securities of Community News Corporation, which represented approximately 6 percent and 6.9 percent, respectively, of the net assets held in trust for pension benefits.

3. Contributions Required and Contributions Made

The actuary has computed, as of the date of the latest available actuarial valuation (June 30, 2000 for TRS and September 30, 1999 for the ERS and JRF), the estimated present value of benefits payable to retired members, beneficiaries and active members. The actuarial valuations are prepared using the entry age method for TRS and ERS, and projected unit credit method for JRF. The present value of all expected benefits payable from each system to the present group of members and beneficiaries is calculated by adding the present value of the expected benefits payable to the active members to the present value of the expected future payments to retired members and beneficiaries.

As required by statute, the TRS, ERS, and JRF funding policies provide for employer contributions at actuarially

determined rates (expressed as percentages of annual covered payroll) are sufficient to accumulate assets to pay benefits when due. The employer contributions required to support the benefits of each system are determined following a level funding approach and consist of a normal contribution, an accrued liability contribution, and a portion to finance administrative costs.

For the TRS and ERS, the normal contribution is determined using the "entry age normal" method. Under this method, a calculation is made to determine the uniform and constant percentage rate of the employer contributions which, if applied to the compensation of the average new member during the entire period of the member's anticipated covered service, would be required in addition to the contributions of the member to meet the cost of all benefits payable on the member's behalf.

For the JRF, the normal contribution is determined using the "projected accrued benefit" (unit-credit) method. Under this method, the benefits of each individual included in an actuarial valuation are allocated by a consistent formula to valuation years. The actuarial gains (losses), as they occur, generally reduce (increase) the unfunded actuarial accrued liability.

The required contribution rate of active plan members for TRS and ERS (excluding state police) is 5 percent of earnable compensation. State police members of the ERS and JRF members are required to contribute 10 percent and 6 percent, respectively, of earnable compensation.

For fiscal year 2000, the required contribution rate of the employer for ERS (state employees) is 4.08 percent and the rate for TRS is 6.38 percent. The employer contribution rate for ERS state policemen and JRF is 9.45 percent and 21.19 percent, respectively.

a) TRS and JRF

A schedule of Employer Contributions for the TRS and JRF (Cost-sharing plans) is shown below:

	Fiscal Year	Annual Required	Percentage
	Ended	Contribution *	<u>Contributed</u>
TRS	1998	358,088	100%
	1999	166,100	100
	2000	277,180	100
JRF	1998	5,417	100
	1999	2,870	100
	2000	5,696	100

* Amounts in Thousands

b) State Employer Segment of ERS

Contributions in 2000 for agent employer ERS were made in accordance with actuarially determined contribution requirements determined through an actuarial valuation performed at September 30, 1999.

Actuarial Methods and Assumptions for ERS:

Valuation Date: Actuarial Cost Method:	September 30, 1999 Entry Age

B. Other Pension Plans

The State Port Authority administers two single-employer pension plans, the Hourly Plan and the Terminal Railway Plan, for a small number of hourly workers and railway employees. The Peace Officers Annuity and Benefit Fund is a cost-sharing multiple-employer public employee retirement system that provides a small additional pension benefit to State and local peace officers beyond that which is paid by the Employees' Retirement System. The Clerks and Registers Supernumerary Fund is a cost-sharing multipleemployer plan that provides pension benefits to circuit clerks and registers of courts. These pension plans are not material to the State.

10 deferred compensation

The State offers employees the opportunity to participate in an optional deferred compensation plan created in

For the Fiscal Year Ended September 30, 2000

accordance with Internal Revenue Service Code Section 457. The plan is available to all state employees and permits them to defer a portion of their salary until future years. Employees may withdraw the current value of their contributions upon termination, retirement, death, or an unforeseeable emergency.

It is the opinion of the State's legal counsel that the State has no liability for losses under this plan but does have the duty of due care that would be required of an ordinary prudent investor.

The Public Employees' Individual Retirement Account Fund/Deferred Compensation Plan (RSA-1) is administered and operated by the Public Employees' Individual Retirement Account Fund (PEIRAF) Board of Control. All members of the Teachers' Retirement System of Alabama, Employees' Retirement System of Alabama, Judicial Retirement Fund, and employees of employers eligible to participate in the Employees' Retirement System, are eligible to participate in this plan. At September 30, 2000, plan assets, net of warrants payable, totaled \$586,876,397.

State employees may also participate in a plan administered by the Public Employees' Benefit Services Corporation (PEBSCO). This plan is also a deferred compensation plan organized under IRC Section 457. The plan contract has been modified in accordance with new legislation that requires the assets to be held in trust for the benefit of plan participants. The State has no fiduciary responsibility for the assets and therefore does not include the plan in its reporting entity.

11 POSTEMPLOYMENT HEALTH CARE BENEFITS

In addition to the pension benefits described in Note 9, the State provides postretirement health care benefits, in accordance with *Code of Alabama 1975*, Section 36-29-10, to all retired state employees through the State Employees' Health Insurance Plan (SEHIP) and, in accordance with *Code of Alabama 1975*, Section 16-25A-17, to all retired employees of State educational institutions through the Public Education Employees' Health Insurance Plan (PEEHIP). Employees covered under these two plans who retire from active service and begin receiving monthly benefits from the Employees' Retirement System of Alabama or from the Teachers' Retirement System of Alabama may elect to continue coverage under the group insurance plan by consenting to have deducted from their monthly benefit payment the difference in the total cost of

their insurance coverage and the portion authorized to be expended by the SEHIP or the PEEHIP for coverage of such retired employees.

The cost of teachers' retiree health care benefits is recognized as an expenditure to PEEHIP as claims are paid. The cost of the benefits is paid from the regular appropriations made to individual education entities. Total active enrolled members were 98,246 and total retired members were 42,551 in fiscal year 2000. The retired employee allocation is funded through the active employee premium. Of the active employee premium, approximately \$76,918,824 was on behalf of retired members of PEEHIP for fiscal year 2000. Retirees who are eligible for Medicare benefits must pay \$1.14 per month for the Hospital/Medical coverage while those who are not eligible for Medicare must pay \$72.00 per month for the coverage. Optionally, the retirees may use this insurance allocation to purchase two plans of supplemental insurance offered by PEEHIP with no out-of-pocket cost. Total premiums paid to PEEHIP by retirees for Hospital/Medical coverage was \$9,181,728 for the year. The retirees must pay additional premiums to cover their dependents.

The State provides health care benefits for retired state employees through SEHIP. The cost of benefits is recognized as an expense in the month in which it is incurred. The State pays 100 percent (\$110 per month) of the premium for a retiree who is over 65 and eligible for Medicare for a total cost to the State in 2000 of \$11,556,710. The State pays a portion of the premium for a retiree who is under 65 at a total cost to the State in 2000 of \$5,856,510. Under the SEHIP statute, the fixed amount per month per retiree is funded on a pay-as-you-go basis through the active employee premiums each agency pays for its active employees. Average enrollment in 2000 was 8,755 for retirees over 65, and 4,437 for retirees under 65. COBRA insurance is also available to state employees who terminate state service, but the employee is liable for the premiums.

$12 \substack{\text{segment information}\\\text{for enterprise funds}}$

The State's primary government has major enterprise funds which provide the following services: facilities for the distribution and sale of alcoholic beverages, state park and recreational facilities, operation of the Prepaid Affordable College Tuition program, service for shippers, including warehousing, loading, and bulk cargo handling, operation of a guaranteed student loan program, health insurance coverage for local government employees, and a health insurance plan for citizens who have lost COBRA coverage. Component unit proprietary funds provide housing opportunities for those with moderate and low incomes by providing affordable financing; provide Alabama lending institutions with a secondary market for student loans; issue revolving loan bonds and lend the bond proceeds to eligible municipalities for the construction of wastewater treatment, sanitary drinking water facilities, and collection facilities; operation of the supercomputer, a historic furnace and foundry exhibit, space science exhibit, U.S.S. Alabama Battleship Park, and a music hall of fame. Segment information for the year ended September 30, 2000, was as follows:

Primary Government (In Thousands)

For the Fiscal Year Ended September 30, 2000

$13_{\rm GOVERNED}^{\rm JOINT}$ ventures and jointly governed organizations

A. Joint Ventures

The Tennessee-Tombigbee Waterway Development Authority is a joint venture created by a compact executed between the State of Alabama and the States of Mississippi, Tennessee, and Kentucky. Its purpose is to develop and promote a navigable waterway between the Tennessee and Tombigbee rivers and provide a nine foot deep navigable channel. The State of Alabama provided \$114,594 and \$100,681 to the Authority for fiscal year 2000 and fiscal year 1999, respectively. The fiscal year of the Tennessee-Tombigbee Waterway Development Authority ends on December 31. Key financial data for the Authority is shown below.

(Amounts in Thousands)

	2000		1999		
Current Assets	\$	278	\$	271	
Fixed Assets		29		29	
Total Assets		307		300	
Liabilities		-		-	
Fund Balance		307		300	
Revenues		339		322	
Expenditures		332		323	

Complete financial statements for the Authority can be obtained at P. O. Drawer 671, Columbus, MS 39703.

B. Jointly Governed Organizations

The Historic Chattahoochee Commission is a jointly governed organization that was created by a compact executed between the State of Alabama and the State of Georgia. The Commission had \$369,460 in revenues in 2000, \$168,180 of which was received from the State's General Fund. The remainder was from other revenue sources and the State of Georgia.

4 RELATED ORGANIZATIONS

The State's officials are responsible for appointing a majority of the members of the boards of other organizations, but the State's accountability for these organizations does not extend beyond making appointments. The State appoints the ninemember board of the Private Colleges and Universities Facilities Authority and a majority of the five-member Alabama Shakespeare Festival Finance Authority.

15 RELATED PARTY TRANSACTIONS

The Montgomery Downtown Redevelopment Authority, a public corporation, issued \$65,200,000 of bonds in 1988 to construct the Gordon Persons state office building. These bonds were partially refunded in 1992 with a new bond issue of \$66,150,000. The bonds' final maturity is on October 1, 2013. Members of the board of directors of the Authority are appointed by officials of the City of Montgomery, but the Authority is not a part of the City's reporting entity and is therefore considered a separate "stand-alone government." The bonds issued constitute conduit debt obligations of the Authority, and are therefore reported as revenue bond debt of the State. The Authority has also issued conduit debt on behalf of other governments and third parties, none of which is reported in these financial statements.

The State operates and maintains the building and has entered into an agreement with the Authority whereby the rental payments from state agencies occupying the building are paid to the Authority, which then uses the money to pay the bond principal and interest. The payments to the Authority are reported by the State as debt principal and interest expenditures.

These financial statements exclude certain foundations and other organizations affiliated with state colleges and universities. While the purpose of these foundations and associations is to operate exclusively for the benefit of the colleges and universities, the colleges and universities are not financially accountable for them; therefore, such organizations do not constitute component units under the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "The Reporting Entity." The most significant of these are: the University of Alabama in Huntsville Foundation, the University of Montevallo Foundation, the University of South Alabama Foundation, the National Alumni Association of the University of Alabama, the Capstone Foundation, the University of Alabama Law School Foundation, the Auburn University Foundation, and the Auburn Alumni Association. These organizations had total assets of \$682,700,000 and total revenues of \$179,400,000 for the 2000 fiscal year.

These financial statements also exclude the Alabama A & M Foundation, the Alabama State University Foundation, the Alabama State University Trust for Educational Excellence, Jacksonville State University Foundation. the the Jacksonville State Alumni Association, the University of Alabama Birmingham Educational Foundation (UABEF), the University of Alabama Birmingham Research Foundation (UABRF), the University of Alabama Health Services Foundation, P.C. (HSF), and the Troy State University Foundation, Inc. Financial data for these organizations was not available. However, UABEF made contributions to the University of Alabama at Birmingham of \$2,400,000 during the 2000 fiscal year, and the University generated \$23,500,000 in unrestricted current revenues from transactions with HSF.

The University of Alabama at Birmingham (UAB) and HSF have entered into an agreement dated October 7, 1996 which established a common management group, the UAB Health System. The purpose of this agreement is to provide common management for their existing and future health care delivery operations. UAB contributed \$4,500,000 during 2000 to the UAB Health System Board.

As of September 30, 2000, UAB had invested approximately \$19,700,000 in Triton Health Systems, LLC (Triton), a health maintenance organization wholly owned by UAB and UABEF. The purpose of Triton is to establish a primary care physician network in the southeastern United States and to operate a health maintenance organization. UAB's interest in Triton of approximately \$3,200,000 at September 30, 2000 is recorded on the equity method.

UAB, in a transactional partnership with HSF, holds a 50% ownership in the operating assets and liabilities of the Eye Foundation, Inc. (EFI). UAB's investment in EFI is carried at original cost plus or minus equity in undistributed

earnings/losses since the date of acquisition with assets totaling approximately \$1,206,000 at September 30, 2000.

The University of South Alabama Health Services Foundation and the South Alabama Medical Science Foundation reimburses the University for certain administrative and other support services. Total amounts received for such services in 2000 were \$13,688,000 from the Health Services Foundation and \$1,956,000 from the Medical Science Foundation.

The hospitals of the University of South Alabama provide patient care services on a contractual basis to members of Prime Health, Inc., a related health maintenance organization, and its affiliates. Net hospital revenues for such services were \$12,342,000 in 2000.

The Alabama Higher Education Loan Corporation and the Alabama Commission on Higher Education (ACHE) have entered into an agreement in which ACHE receives servicing fees for providing administrative and loan processing assistance to the Corporation. Total servicing fees, loan processing costs and administrative costs paid by the Corporation to ACHE were \$1,110,800 and \$1,064,500 for the years ended September 30, 2000 and 1999, respectively.

16 commitments

A. Construction Projects

1. Primary Government

At September 30, 2000, the Department of Transportation had construction and maintenance contracts of \$1,395,213,822. The amount already performed was \$1,090,838,197, leaving an outstanding balance of \$304,375,625. The funding sources for this amount are 73% Federal funds, 25% State funds, and 2% Industrial Access revenue bond funds.

The State Port Authority had commitments for capital expenditures of approximately \$4,262,000 at September 30, 2000.

2. Component Units

The University of Alabama at Birmingham had construction and acquisition commitments remaining at September 30, 2000, of \$77,317,000. These costs will be financed from

For the Fiscal Year Ended September 30, 2000

bond proceeds and UAB reserves of \$76,278,000, federal funds of \$1,000,000, and state funds of \$39,000. During 2000, approximately \$61,100,000 of construction was financed through proceeds of previously issued debt. In addition, certain projects in the planning and design phase that UAB expects to complete have estimated costs totaling \$393,030,000.

The University of Alabama at Tuscaloosa had construction and renovation contracts remaining at September 30, 2000, of \$925,051. These costs are expected to be financed from gifts, grants, bond proceeds, and University funds.

Auburn University had construction and renovation contracts for various facilities that are estimated to cost approximately \$31,400,000. At September 30, 2000, the estimated remaining cost to complete the projects was approximately \$8,900,000 payable from University funds.

At September 30, 2000, Jacksonville State University had commitments on construction projects which included \$1,213,953 on the Martin Hall renovation, \$23,100 on the Houston Cole Library renovation, \$1,116,954 on the McGee Hall renovation, and \$993,041 on the Ford Development Center.

B. Operating Leases

The State and its component units have entered into various lease agreements for real property. These leases do not represent material commitments by the State, therefore disclosure of minimum future lease payments is not provided.

Auburn University has entered into various operating leases for equipment. It is expected that in the normal course of business, such leases will continue to be required. Net expenditures for rentals under operating leases for the years ended September 30, 2000 and 1999, amounted to approximately \$1,600,000 and \$1,100,000, respectively.

C. Federal Programs

The State operates several Federal programs that have commitments for claims outstanding at September 30, 2000. These claims involve services provided to beneficiaries prior to September 30, but the claims were neither submitted to nor approved for payment by the State until after September 30. The largest of these is the Medicaid program, which had claims outstanding but not reported of \$222,058,354. The amounts of the other programs are not material.

D. Other Commitments

The Alabama Housing Finance Authority, a component unit, has set aside in its unencumbered operating fund \$335,000 at September 30, 2000, to be used if needed to pay debt service on several single-family mortgage revenue bond issues. The Authority has also designated \$77,968,000 of its fund balance for financing future single-family mortgage revenue bond programs, to support its single-family mortgage loan origination and warehousing operations, and to cover its operating expense budget for the following fiscal year.

$17_{\text{CONTINGENT LIABILITIES}}$

A. Grants

The State receives federal grants for specific purposes that are subject to review and audit by the grantor agencies. Entitlement to these resources is generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes.

Federal grantor agencies from time to time review State records to determine whether the State has complied with the terms and conditions of grant agreements and federal regulations. Any disallowance resulting from a federal audit may become a liability of the State but cannot be reasonably estimated at this time. It is believed that any liability resulting from a determination of noncompliance will not materially affect the State's financial condition.

B. Tobacco Settlement

As a party to a successful multi-state legal settlement with the tobacco industry, the State received \$131,700,000 in fiscal year 2000 and is expected to receive approximately \$96,000,000 in 2001. This settlement money is intended to compensate the State for smoking related health care costs incurred by various State programs. Annual payments will continue and could total \$3.2 billion over 25 years but future settlement payments are subject to adjustment for a number of factors such as inflation, the effect of other lawsuits, decreased sales volume and the financial health of the tobacco companies. Because the exact amount of the future settlement amounts is not measurable, no receivable for these amounts is recorded in these financial statements.

C. Litigation

The State is named as a party in legal proceedings that occur in the normal course of governmental operations, some involving significant amounts. It is not possible at the present time to estimate the ultimate outcome or liability, if any, of the State with respect to the various proceedings. The Attorney General has reviewed the status of pending lawsuits. An adverse decision in any of the following cases may have an effect on the State's financial position.

1. Department of Mental Health Litigation

Verna Bailey, as legal guardian and next friend of Lonnie Dale Wright, Jr. v. Kathy Sawyer, as Commissioner of Department of Mental Health and Mental Retardation, et al., Civil Action No. 99-A-1321-N, United States District Court for the Middle District of Alabama.

The plaintiff has brought this action on behalf of her son, who is deaf, and all other similarly situated deaf and hard of hearing persons in need of state provided mental health services. Plaintiff seeks to assure that public mental health services are equally accessible to and culturally and linguistically appropriate for the deaf and hard of hearing, and to ensure that the deaf and hard of hearing are not excluded from the enjoyment and use of benefits and services, are not discriminated against because of their disabilities, and to ensure that citizens who are deaf and hard of hearing and who are involuntarily committed to state mental health facilities receive adequate evaluation, diagnosis and treatment. Mediation was held February 28, 2001. Magistrate Judge McPherson is acting as the mediator. A proposed settlement agreement was submitted at mediation. The parties are in the process of revising the agreement.

Ricky Wyatt v. Stickney, sub nom., Wyatt v. Rogers, Civil Action No. 3195-N, United States District Court for the Middle District of Alabama. This case encompasses three of the State's mental illness hospitals and four mental retardation developmental centers. In 1972, the United States District Court for the Middle District of Alabama ordered the State to comply with minimum constitutional standards covering virtually every aspect of the services and care at these facilities. In 1986, after sixteen years of litigation, the parties entered into a Consent Decree to resolve all outstanding matters then in dispute. On September 22, 1986, the Court approved the Consent Decree proposed by the parties. On January 18, 1991, the defendants filed a motion asserting compliance with the 1986 Consent Decree and requesting the lawsuit be terminated. The plaintiffs filed pleadings alleging that the defendants have not complied with the 1986 Consent Decree. On December 17, 1997, the Court

issued an opinion finding the facilities in compliance with 50 percent of the standards and non-compliance with the remaining standards. The Department of Mental Health has appealed the findings of non-compliance. Order dated April 21, 1998 released North Alabama Regional Hospital, Greil Memorial Psychiatric Hospital, except for census caps, and the Thomasville Mental Health Rehabilitation Center, except as to standards 1, 2, 34; paragraph 5 and 9 of the 1986 Consent Decree. Order dated December 9, 1998 released the Harper Center, Allen Facility, Kidd Facility and the Box Facility from the 1986 Consent Decree.

A settlement agreement has been executed pending approval of the Court. The settlement agreement was approved by the Court at the fairness hearing on May 1, 2000. Full implementation of the provisions of the settlement agreement began October 1, 2000.

2. Department of Human Resources Litigation

In the case styled R.C. v. Fuller, CV-88-H-1170-N, filed in the United States District Court for the Middle District of Alabama, the plaintiffs alleged that the State failed to comply with minimum constitutional standards for the care and custody of emotionally disturbed children and children with behavioral disorders. A Consent Decree requiring sweeping reform of foster care in Alabama was approved by the Court. A nine-year implementation plan went into effect October 1, 1992. In February, 1999, the Department obtained a threeyear extension of the Consent Decree, referred to as "Consent Decree II", which was approved by the Court. Consent Decree II extends the time for the Department to comply with the original Consent Decree through October 1, 2002. As of this time, all 67 counties are involved in the conversion to the new child welfare system, known as the "System of Care." Twenty-five counties have successfully converted to the System of Care and forty-two counties remain to be converted.

Kids Care, Inc., Rainbow Daycare, Inc. v. State of Alabama Department of Human Resources, Bill Fuller in his official capacity as DHR Commissioner, Margaret Boniiam, in her official capacity as Director, Family Services Partnership, Frances Arnold, in her official capacity as Assistant Director, Office of Childcare, Family Services Partnership, et al., Montgomery County Circuit Court, CV-2001-814. The plaintiffs are operators of daycare centers and filed this class action complaint on behalf of all the various types of centers throughout the State of Alabama and the children and parents they serve. Plaintiffs assert that various State statutes are unconstitutional: Alabama Code Sections 38-7-3; 38-7-4; 38-7-5; 38-7-6; 38-7-8; 38-7-12; 38-7-16; 38-7-17. Plaintiffs allege they have been deprived of their procedural due

For the Fiscal Year Ended September 30, 2000

process, substantive due process and equal protection rights. Plaintiffs further allege that the Department is required by statute to reevaluate and readjust the payment to childcare provider subsidy rates on an annual basis and increase subsidies appropriately, and that the Department is currently paying reimbursement to providers according to the 1997 rates.

Plaintiff alleges they are entitled to the short-fall or deficiency in childcare subsidy monies that they did not receive for the years 1998, 1999, and in the current year which will expire September 30, 2001. Plaintiff alleges that these short-falls in payment are very substantial and seeks a judgment against the Department for all past due monies, both retrospective and prospective, injunctive relief, and an accounting of any and all Federal, State, or other subsidy monies received from any source.

3. Department of Transportation Litigation

In an action styled Johnny Reynolds, et al. v. Alabama Department of Transportation, et al., CV85-T-665-N, filed in 1985, in the United States District Court for the Middle District of Alabama, the plaintiffs have alleged that the State has engaged in illegal discriminatory practices in the hiring and promoting of employees. Besides injunctive relief, the plaintiffs sought unspecified damages in the form of back pay and other compensation from the State and punitive damages from individual defendants. In September 1988, a settlement was submitted to the District Court for a fairness hearing. The Court declined to approve the settlement agreement and the case was set for trial. The trial was cancelled when the parties entered into a settlement, approved by the Court and made effective in April 1994. Numerous issues have been raised before the Court regarding the implementation of the settlement.

Allen v. Roberts and Williams v. Alabama Department of Transportation. These are two cases involving groundwater contamination in and around the department which may affect three residential neighborhoods. The Allen case involves potentially 400 inverse condemnations, while the Williams case involves injunctive relief for enforcement of federal clean-up statutes. The Allen case has the greatest potential for a large adverse verdict, while the Williams case will involve the department expending funds to clean-up the site consistent with any injunction entered.

4. Other Employment Discrimination Litigation

A case regarding employment discrimination litigation against the State of Alabama, <u>Eugene Crum, Jr., et al, v.</u> <u>State of Alabama, et al.</u>, CV 94-T-356-N, is a class action suit pending in the U. S. District Court for the Middle District of Alabama. In this case approximately twenty state departments are charged with racial discrimination in all aspects of their employment practices. This case is in the discovery stage and no estimate can be made at this time concerning any financial liability the State of Alabama may ultimately incur. A motion to disqualify plaintiffs' counsel is pending in the U.S. District Court and a petition for mandamus is pending in the Eleventh Circuit Court of Appeals. Discovery is still pending.

5. School System Litigation

In a case styled <u>Alabama Coalition for Equity, Inc., et al. v.</u> <u>Fob James, Jr., et al.</u>, CV-90-883-M, filed on May 3, 1990, in the Circuit Court of Montgomery County, the plaintiffs have alleged that the State of Alabama's public school funding structure is unconstitutional under the United States Constitution and the Alabama State Constitution. The plaintiffs sought, <u>inter alia</u>, an injunction prohibiting the State of Alabama from implementing or maintaining any public school funding system perpetuating the current funding structure; a ruling requiring the State of Alabama to maintain a constitutional public school funding structure; and the payment of the plaintiffs' attorney fees.

On August 13, 1991, the Court granted partial summary judgment to the plaintiffs on the constitutionality of Amendment 111, Section 256 of the Alabama Constitution. The Court ruled that this provision violated the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution. On December 1, 1993, the court made final its Remedy Order, which found the entire educational system of the State of Alabama to be unconstitutional. The Court held that all school children have a right to attend school in a liberal system of public schools required to be provided by the State. The Alabama Supreme Court affirmed the trial court's ruling that the system was unconstitutional. In a decision issued on January 10, 1997, the Alabama Supreme Court vacated the Remedy Order and remanded the case with directions to stay the action for the year pending action by the State Legislature. The liability order of the trial court has been upheld by the Supreme Court. The remedy phase of the case has been reopened in Montgomery Circuit Court.

Lee v. Macon is a group of cases arising from the desegregation cases filed in the 1960s. The State Board of Education was brought back into this case in 1997 and is assisting local school districts in negotiating Consent Decrees with the Justice Department, NAACP Legal Defense, and plaintiffs' attorneys. The goal is the creation of unitary school districts, in which the vestiges of segregation have

been removed entirely from all aspects of the operation of public schools. Presently, state attorneys are working on statewide issues and with locals for unitary status decrees. The cost in this suit has probably been the most expensive litigation in the history of this State since it has been pending 36 years. The estimate to local school districts and the State is incalculable at this time but is expected to be material. A statewide consent decree has been negotiated for special education and is being negotiated for facilities.

<u>B.M.S., a Minor, v. Ed Richardson, et.al.</u> This case is currently pending in the United States District Court for the Middle District of Alabama, and could have a substantial impact if the Court rules that prisoners are entitled to receive the same services as children in public schools. A motion was filed with Judge DeMent on behalf of the State defendants which seeks to require the application of the Prison Litigation Reform Act in an effort to limit and narrowly tailor the remedies available to the inmates who have been adjudicated as adults and are incarcerated in adult penitentiaries as well as limit the amount of damages and attorney fees to which they may be entitled. The State has agreed to implement remedies; however they will not be fully implemented by the deadline of September 15, 2001. Substantial compliance is anticipated by that date.

6. Higher Education Litigation

In <u>Knight v. State of Alabama</u>, CV 83-M-1675, in the United States District Court for the Northern District of Alabama, which has been pending since 1983, the Knight Plaintiffs (the class of all black citizens of the State of Alabama), the United States Justice Department, and the State's two historically black universities, Alabama State University ("ASU") and Alabama A&M University ("A&M") sought to eradicate all vestiges of the <u>de jure</u> segregation in State-supported higher education institutions in Alabama.

In 1991, a remedial decree was entered against the State. The funding requirements of that decree have been satisfied. A subsequent remedial decree was entered August 1, 1995. The subsequent decree was modified by an Order dated September 26, 1995. All amounts due to be paid, pursuant to any remedial decree, for fiscal years prior to 1998-99 have been paid. Substantial funds from the Education Trust Fund may be paid upon order of the Court for fiscal years 1998-2010, with the actual amounts required to be paid being dependent upon a number of different factors identified in said orders. All such funds shall be paid through annual legislative appropriations.

As of March 2000, the Court has pending before it a motion filed by the plaintiffs challenging the progress of various Universities in recruiting and retaining minority faculty. Success on this motion could result in the State's requirement to provide additional funding for minority faculty recruitment and retention.

7. State Tax Issues Litigation

South Central Bell Telephone Company v. State, Circuit Court of Montgomery County, Alabama, CV-89-2600-G. This case was consolidated with other cases involving BellSouth corporations and CSX corporations. The plaintiffs asked the Court to declare that the Department's application of *Code of Alabama 1975*, Section 40-14-40, which levies a franchise tax on domestic corporations, based on the par value of the shares of capital stock, while the franchise tax on the foreign corporations is levied pursuant to *Code of Alabama 1975*, Section 40-14-41, based on the capital employed in the State of Alabama, violates the Commerce Clause of the U.S. Constitution.

The plaintiffs contend that because "capital employed" includes surplus and undivided profits, long-term debts, related party debts and accelerated depreciation, the franchise tax is unconstitutional because the par value of stock does not include these items. The taxpayers attempted to overturn White v. Reynolds Metals Company, 558 So.2d 373 (Ala. 1989), which upheld the franchise tax on foreign corporations, by challenging the Department's use of par value as the basis for the capital stock of the domestic corporations. The potential refund exceeds \$600,000,000.

The State's Motion for Summary Judgment was argued on June 3, 1994, and was under submission to the Circuit Court at the time of trial, which was held on December 14, 1994. On December 3, 1996, the trial court ruled that the plaintiffs' claims are barred under the doctrine of <u>res judicata</u>. The plaintiffs appealed to the Supreme Court, which affirmed without opinion. The U.S. Supreme Court on March 23, 1999, declared the franchise tax to be unconstitutional, and remanded the case to the Alabama Courts to determine the appropriate remedy. Briefs have been filed regarding the remedy issue.

On November 17, 1999, the Alabama Supreme Court issued an interim order holding that the unconstitutional discrimination that the Supreme Court of the United States has declared in regard to Alabama's franchise tax scheme stems not from the *Alabama Constitution of 1901*, but instead

For the Fiscal Year Ended September 30, 2000

from the domestic corporation franchise tax statute as interpreted by the Alabama Supreme Court and as applied by the Department of Revenue. Any future legislation must be consistent with Sections 229 and 232 of the *Alabama Constitution of 1901* and must use substantially equivalent tax bases for domestic and foreign corporations, and must set a tax rate for foreign corporations that is not higher than that for domestic corporations.

On January 7, 2000, the Alabama Supreme Court issued a second interim order remanding the case to the Circuit Court for the parties to present evidence concerning the extent to which the State relied on <u>Reynolds Metals</u>, and as to the hardship or disruption that might occur if full refunds are allowed, and any other evidence that might support policy justifications sufficient to permit a remedial limitation on retroactive application of the ruling holding the tax invalid.

In July 2000, the State agreed to pay CSX \$2.8 million to settle \$15 to \$20 million in claims. In September 2000, the parties agreed to settle BellSouth's \$142 million claim for \$40 million in tax credits to be taken over 10 years. The appeal was dismissed on motion of the parties on October 10, 2000.

<u>Gladwin Corp. v. Lyons</u>, Circuit Court of Montgomery County, CV-96-1065-TH. This is a class action challenging the constitutionality of the franchise tax on the same grounds as <u>South Central Bell</u>. The Trial Court (Judge Thomas) granted the State's motion to stay the action pending a decision in <u>South Central Bell</u>, and placed it on the administrative docket. The case has since been assigned to Judge Greenhaw, who granted the plaintiff's motion to conditionally certify the case as a class action; allowed discovery to proceed; and ordered that all foreign franchise taxes collected be placed in escrow. The State filed a petition for an extraordinary writ in the Alabama Supreme Court in which it asked that the escrow order be vacated. The Court reversed the escrow order on October 23, 1998.

The Circuit Court on August 28, 1998, placed the case on its administrative (inactive) docket. On March 23, 1999, the plaintiff filed a motion to enjoin the State from collecting the franchise tax on foreign corporations, which was denied on June 8, 1999, in an order in which the Court also (1) conditionally denied the renewed motion for class certification, (2) granted the State's renewed motion to stay, except as to matters relating to the motion to intervene filed by clients of Bradley and Arant, and (3) reserved ruling on the motion to enjoin improper contacts with class members filed by the plaintiff. On July 1, 1999, the Alabama State Bar issued an informal opinion approving Bradley Arant's representation of the proposed intervenors and its contacts with the putative class members. By order dated September 22, 2000, Judge Greenhaw lifted the stay to allow discovery to be completed by January 24, 2001, and set a class certification hearing for January 31, 2001.

<u>Hispan Corp. v. H.E. Monroe, etc.</u>, Circuit Court of Montgomery County, CV-97-5445-PR. This is a class action challenging the constitutionality of the franchise tax on the same grounds as <u>South Central Bell</u>. The complaint was served on March 28, 1997. By order dated May 6, 1997, Judge Price granted the Department's motion to stay the action pending a ruling from the Supreme Court in <u>South</u> <u>Central Bell</u>.

Boyd Brothers Transportation, etc. v. Alabama Department of <u>Revenue</u>, Circuit Court of Montgomery County, CV-99-1048-R. This is a class action challenging the constitutionality of the franchise tax on the same grounds as <u>South Central Bell</u>. The complaint was served on April 6, 1999. The State filed a motion to dismiss or stay the action pending a decision in <u>South Central Bell</u>, and the plaintiff responded with a motion to stay, which was granted on July 19, 1999.

Alabama Department of Revenue v. USX Corp., Circuit Court of Montgomery County, CV-99-282. The Department's Administrative Law Judge ruled that the Department calculates interest improperly on under payments by adding interest to the entire amount of an assessment, which already includes interest calculated to the date of the entry of the assessment. The Administrative Law Judge ruled that this process constitutes an unauthorized compounding of interest. The Department appealed. The financial impact is difficult to calculate, but this ruling will affect every final assessment entered by the Department. Settlement negotiations are in progress.

<u>One Stop v. Alabama Department of Revenue, et al.</u>, Court of Civil Appeals No. 2981192. The plaintiffs argue that the fee on the distribution of motor fuels from underground storage tanks violates Amendments 93 and 354, *Constitution of Alabama 1901*, which require that all taxes or fees on motor fuels be distributed solely for roads and bridges.

The State prevailed in the Trial Court, and the taxpayers appealed to the Court of Civil Appeals. The case was orally argued March 9, 2000, and is now under submission. The State collects \$10,500,000 in fees per annum.

8. Department of Youth Services Litigation

Milton Ash v. Alabama Department of Youth Services, CV97-AR-2179-S, U.S. District Court, Northern District. This case involves application of the Americans With Disabilities Act to state employees. A petition has been filed in the U.S. Supreme Court based on an adverse ruling in the Eleventh Circuit Court of Appeals.

9. State Port Authority

<u>Alabama Wood Treater Site</u>. In December 1976, the State Port Authority purchased a parcel of land from Illinois Central Gulf Railroad (ICG). At the time of the purchase, Alabama Wood Treating Corporation (Alabama Wood) was conducting a creosoting operation on the property. Creosoting operations have been in existence on this property since 1901. Alabama Wood purchased the creosoting operation from Reilly Tar in 1972.

In March 1985, the Environmental Protection Agency (EPA) filed a Complaint and Compliance Order under the Resource Conservation and Recovery Act (RCRA) against the State, the State Port Authority and Alabama Wood alleging that Alabama Wood had failed to comply with certain EPA requirements regarding its operations and requiring the State Port Authority to bring the property into compliance with EPA regulations since the Authority is the owner of the property. The State and the State Port Authority objected to the Complaint and Compliance Order on the grounds that the creosoting operations were installed upon the property by Alabama Wood and/or its predecessors and such installations were not the property of the State or the State Port Authority even though the EPA contended that laws and regulations were specifically to the contrary. The State and the State Port Authority further objected on the grounds that neither the State nor the Authority had ever participated in any manner whatsoever in the operations of such creosoting operations or benefited in any way from such operations.

On April 30, 1985, the State Port Authority terminated the lease agreement with Alabama Wood and demanded that Alabama Wood immediately cease any activities that would result in further contamination of the environment. Even though the Authority did not contribute to the contamination of the property, since it was the owner, it was required to comply with all applicable RCRA regulations. On December 10, 1985, the State Port Authority entered into a Consent Agreement and Final Order with the EPA agreeing to submit to the EPA a closure plan for the property and then implement the closure plan and meet all requirements of the post-closure permit application. The EPA retains jurisdiction to bring an enforcement action against the State Port Authority should the EPA find that handling, storage, treatment, transportation, or disposal of hazardous or solid waste at the facility presents an imminent and substantial endangerment to human health or the environment. The EPA also retained jurisdiction to approve and monitor the clean-up procedures and closure at the site.

In May 1985, the State and the State Port Authority filed a suit in the U.S. District Court under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) against Alabama Wood, Reilly Tar, ICG, and the principals of Alabama Wood seeking recovery of any costs which might be incurred by the Authority and/or the State with regard to the conditions on or about the property leased by Alabama Wood, including clean-up or compliance with the requirements of EPA or other regulatory agencies.

The State Port Authority (jointly with the State), ICG, and Reilly Tar entered into a Joint Technical Committee Agreement for the purpose of bringing the subject property into compliance with EPA and other regulatory requirements. During fiscal year 1990, the Joint Technical Committee conducted a study to estimate the costs to perform certain remedial actions required by regulatory authorities. The costs were to be shared equally among the three members of the Joint Technical Committee. The Joint Technical Committee would not resolve the suit referred to in the preceding paragraph. During 1997, the Authority removed itself from the Joint Technical Committee to initiate a more expedited clean-up plan, under the guidance of the Alabama Department of Environmental Management (ADEM). The Authority then contracted with an independent environmental consulting firm to conduct an updated study to estimate the costs of required remedial actions. By the Authority leaving the Joint Technical Committee, the other parties are not absolved from their liability for clean-up activities. The Authority has accrued liabilities of approximately \$1,132,000 at September 30, 2000, relating to its share of the estimated costs to complete the remedial actions and other related costs. The Authority has funded all expenditures thus far and the actual liability could be much larger if all costs are paid by the Authority. Total payments made by the Authority related to these remedial actions for the years ended September 30, 2000 was approximately \$151,000.

10. Alcoholic Beverage Control Board

<u>Stiff v. ABC Board, et al.</u>, CV-97-1858-SH. The plaintiff filed this case in Montgomery County Circuit Court against the ABC Board, and others. Plaintiff contends that Alabama's Wine tax is unconstitutional because it prohibits wineries outside of Alabama from receiving the same tax break as in-state wineries. The Board's position is that the

For the Fiscal Year Ended September 30, 2000

Wine Tax law is constitutional. Another law known as the Native Farm Wine law sets a different tax for a limited group of wineries (but not by definition all wineries) in Alabama. For the present case, the State's position is that the plaintiff lacks standing to raise these issues. This case is currently under submission to the judge for a decision.

<u>Henri-Duvall Winery, L.L.C. v. ABC Board, et al.</u>, CV-2001-703-GR has just been filed. It is similar to <u>Stiff</u> except that it is brought by an out-of-state winery instead of by a consumer (as in <u>Stiff</u>).

18 subsequent events

On December 1, 2000, the Alabama Water Pollution Control Authority issued Series 2000 Revolving Fund Loan Bonds totaling \$61,795,000. The Series 2000 bonds include \$29,325,000 serial bonds which bear interest rates ranging from 4.30 percent to 5.50 percent to be paid semiannually on each February 15 and August 15, beginning February 15, 2001. Also, the Series 2000 bonds include \$13,020,000 term bonds due August 15, 2018, which bear interest at 5.75 percent; \$7,830,000 term bonds due August 15, 2020, which bear interest at 5.75 percent; and \$11,620,000 term bonds due August 15, 2023, which bear interest at 5.50 percent.

On December 1, 2000, the Alabama Drinking Water Finance Authority issued Series 2000C Revolving Fund Loan Bonds totaling \$25,895,000. The Series 2000 bonds include \$12,075,000 serial bonds which bear interest rates ranging from 4.30 percent to 5.00 percent to be paid semianually on each February 15 and August 15, beginning February 15, 2001. Also, the Series 2000C bonds include \$5,615,000 term bonds due August 15, 2018 which bear interest at 5.75 percent; and \$8,205,000 term bonds due August 15, 2023, which bear interest at 5.375 percent.

On October 1, 2000, the State Industrial Development Authority issued Series 2000 bonds in the amount of \$5,000,000. The interest rates on the bonds range from 4.65 percent to 5.00 percent and will be payable semiannually on each March 1 and September 1, beginning March 1, 2001. The maturity date of the bonds is September 30, 2010.

On February 1, 2001, the State of Alabama issued \$57,700,000 General Obligation Bonds, Series 2001-A. The interest rates on the bonds range from 4.50 percent to 5.25 percent and will be payable semiannually on each December 1 and June 1, beginning December 1, 2001. The maturity date of the bonds is June 1, 2021.

On March 1, 2001, the State of Alabama issued \$17,500,000 General Obligation Bonds, Series 2001-B. The interest rates on the bonds range from 4.0 percent to 5.0 percent and will be payable semiannually on each December 1 and June 1, beginning December 1, 2001. The maturity date of the bonds is June 1, 2021.

From October 1, 2000 through December 1, 2000, the Alabama Housing Finance Authority called approximately \$24,731,000 of bonds prior to their scheduled maturities.

STATE OF ALABAMA

FINANCIAL SECTION Combining and Individual Fund and Account Group Financial Statements

Special Revenue Funds

Special *revenue funds* account for *specific* revenue sources that are restricted to finance particular functions and activities **of** the State. The individual Special Revenue Funds of the State are combined on *a functional* basis according to the type **of** activity.

Education Trust Fund (ETF) accounts for the revenues and expenditures associated with public education.

Public Road and Bridge Fund accounts for the revenues and expenditures associated with highway construction, maintenance, and operations.

Medicaid Fund accounts for revenues and expenditures associated with the provision of nursing home care, hospital care, and physician services for those eligible for Medicaid benefits.

Human Resources Fund accounts for revenues and expenditures associated with the administration of programs to provide financial assistance, such as the Aid to Dependent Children program, and a broad range of social and protective services.

Public School Fund accounts for revenues and expenditures which are allocated to local boards of education for support of educational programs.

Education Department - Federal Programs accounts for federal monies received by the State to support educational programs for elementary and secondary education and rehabilitation and crippled children services.

Economic and Community Affairs Fund accounts for revenues and expenditures related to energy management, skills enhancement and employment opportunities, traffic control and accident prevention, and state and regional planning.

Corrections Fund accounts for revenues and expenditures associated with the administration of penal and correctional institutions and related activities in the State.

Public Health Fund accounts for resources used in the promotion of general physical health. This includes the enforcement of laws relating to public health as well as programs providing preventive and treatment services to the public.

Revenues Allocated to Local Governments accounts for revenues from gasoline taxes, motor vehicle licenses, TVA payments, and other revenue sources which are shared with local governments.

Children First Trust Fund accounts for tobacco revenues to be used for a variety of programs that benefit children.

Other Special Revenue Funds account for various resources used to provide a wide variety of services, the largest of which are:

Revenue Administrative administers the collection of almost all state taxes and licenses,

Industrial Relations administers the unemployment compensation and industrial safety and accident prevention programs.

Conservation and Natural Resources is responsible for the management of the state's game and wildlife resources as well as the management of the state parks system.

Forestry Commission is responsible for the management, protection and development of the state's forest resources.

Environmental Management protects the state's citizens from pollution of the water, land and air.

Agriculture and Industries inspects agricultural products to ensure compliance with state and federal standards.

Department of Senior Services administers federal and state programs which provide services for the elderly.

Professional and Occupational Boards provide professional and occupational licensing and regulation.

Miscellaneous Special Revenue Funds are aggregated for reporting purposes and account for various other revenues which must be used for specific purposes.

Debt Service Funds

Debt Service Funds account for the accumulation of resources which are used for the payment of general long-term debt principal and interest.

Industrial Access Road and Bridge Authority accounts for the accumulation of resources used to pay the interest and principal on debt issued by the Industrial Access Road and Bridge Authority. All debt issued by the authority is used to finance the construction of roads and bridges.

Corrections Institution Finance Authority accounts for the accumulation of resources used to pay the interest and principal on debt issued by the Authority for the purpose of financing the construction and renovation of State prisons.

Judicial Building Authority accounts for the accumulation of resources used to pay the interest and principal or debt issued by the Authority for the purpose of financing the construction of facilities used by the unified judicial system.

Public Health Care Authority accounts for the accumulation of resources used to pay the interest and principal on debt issued by the Authority for the purpose of financing the construction of public health facilities.

General Obligation Bonds account for the accumulation of resources used to pay the interest and principal on general obligation bonds.

Capital Projects Funds

Capital Projects Funds account for the acquisition, construction, and improvement of governmental general fixed assets.

Industrial Access Road and Bridge Authority accounts for the proceeds of debt issued by the Industrial Access Road and Bridge Authority. The proceeds are used to finance the construction of roads and bridges.

Corrections Institution Finance Authority accounts for the proceeds of debt issued by the Authority for the purpose of financing the construction and renovation of State prisons.

Judicial Building Authority accounts for the proceeds of debt issued by the Authority for the purpose of financing the construction of facilities for the unified judicial system.

Public Health Care Authority accounts for the proceeds of debt issued by the Authority for the purpose of financing the construction of public health facilities.

Other Capital Project Funds accounts for the proceeds of all other debt issued by the State, consisting primarily of general obligation bonds.

Enterprise Funds

Enterprise Funds are used to account for the operations of State agencies that provide goods and services to the public in a manner similar to private business enterprises. The cost of providing the goods or services are recovered primarily through user charges.

Alcoholic Beverage Control Board operates facilities for the distribution and sale of alcoholic beverages.

State Parks operates state park and recreational facilities.

Prepaid Affordable College Tuition Fund provides for the operation of the Prepaid Affordable College Tuition program (PACT).

State Port Authority provides service for shippers including warehousing, loading, and bulk cargo handling.

Guaranteed Student Loan Program provides for the administration and coordination of the Alabama Guaranteed Student Loan Program.

Local Government Employees' Health Insurance is a public entity risk pool providing health insurance coverage for the employees of local governments.

Alabama Health Insurance Plan provides health insurance coverage for citizens who have lost their group health insurance.

Other Enterprise Funds are aggregated for reporting purposes to account for other small enterprise funds operated by the State, including the Motor Sports Hall of Fame and the canteen funds of the National Guard and Department of Corrections.

Internal Service Funds

Internal Service Funds are maintained to account for the operation of State agencies which provide goods and services to other State agencies on a cost-reimbursement basis.

Information Services Fund provides equipment, computer services, information technology, and planning and coordination in equipment and system selection.

Telecommunications provide for the coordination and promotion of the efficiency in the acquisition, operation and maintenance of telecommunications equipment, systems, and networks used by state agencies.

Service Division accounts for mail, supply, and motor pool services provided to state agencies.

Printing and Publications provide printing services to State agencies.

State Employees' Health Insurance provides health insurance coverage for state employees.

Public Education Employees' Health Insurance provides health insurance coverage for employees of school systems and junior colleges.

Correctional Industries and Farms account for the agricultural operations and manufacturing activities of the State's correctional facilities.

State and Federal Surplus Property account for the transfer and sale of surplus property originating from both the federal and state governments.

Building Renovation Finance Authority accounts for the rental and maintenance of the buildings in the State Capitol Complex.

Public Road and Bridge Internal Service Fund accounts for activities and resources used to produce goods and services for other highway funds and agencies on a cost-reimbursement basis.

Risk Management accounts for the resources used to provide insurance coverage for State buildings, school buildings, and their contents against fire and casualty losses. Risk Management also insures state employees against work related injuries as well as the risk of loss from employment-related liability claims.

Other Internal Service Funds account for other small internal service funds operated by the Finance Department and the Military Department.

Trust and Agency Funds

Trust and agency funds are used to account for assets held by the State in a trustee capacity or as an agent for others.

EXPENDABLE TRUST FUNDS

Expendable Trust Funds account for resources the State holds as trustee. Both the principal and earnings of Expendable Trust Funds may be used for purposes allowed under the trust agreement.

Unemployment Compensation Trust accounts for the collection of unemployment insurance taxes from employers and the payment of unemployment benefits to eligible claimants.

Abandoned Property accounts for the custody and disposition of abandoned or unclaimed property.

Forever Wild Land Trust acquires, maintains, and protects unique lands and water areas.

Workers' Compensation Escrow accounts for funds held in trust under the Workmen's Compensation program.

Flexible Employees' Benefits accounts for an employee cafeteria plan.

NONEXPENDABLE TRUST FUNDS

Nonexpendable Trust Funds account for resources the State holds as trustee. The principal of thesefunds must be preserved and only the earnings may be used for purposes allowed under the trust agreement.

Heritage Trust was established by constitutional amendment. The Trust Fund was created from the proceeds of all sales or lease payments received by the State from January 1, 1981 through October 31, 1981 for the rights to explore and drill for oil and gas in any offshore area. Within 90 days after September 1, 2001, the trust capital of the Heritage Trust Fund will be transferred to the Alabama Trust Fund, and all aspects of the Heritage Trust Fund will terminate.

Alabama Trust is an irrevocable, permanent trust fund established by constitutional amendment. The trust fund is comprised of all payments, including royalty payments, received since August 1, 1984 for the sale or lease of rights for offshore exploration and drilling for oil and gas off the Alabama coast.

Alabama Research Institute awards research grants to State universities to promote science and technology.

Sixteenth Section and School Lands are permanent trusts established to account for the funds accumulated from the sale or use of properties set aside for educational purposes. Investment earnings benefit local school systems.

Penny Trust is a perpetual trust which manages donated funds for the benefit of public health and public schools.

Game and Fish Endowment invests the proceeds of lifetime hunting and fishing licenses and uses the investment income to preserve, protect, propagate, and develop wildlife within the State.

Stonewall Jackson Memorial Scholarship furthers education through essay contests and scholarship awards.

Education Department Endowments account for the proceeds of several endowments managed by the Department.

Senior Services Trust invests a portion of the proceeds of the tobacco settlement and uses the investment income to fund programs for the elderly.

PENSION TRUST FUNDS

Pension funds accountfor the resources of retirement plans administered by the state.

Peace Officers' Annuity and Benefit provides a pension benefit to State and local peace officers.

State Port Authority Hourly Plan and State Port Authority Railway Plan are retirement funds for certain employees of the Alabama State Docks department who are not members of the State Employees' Retirement System.

AGENCY FUNDS

Agency funds account for assets held by the State for **other funds**, governments, or individuals. Agencyfunds are custodial in nature (assets equal liabilities) and, therefore, have no revenues, expenditures, **or fund** balances.

Other State Taxes aggregates numerous state tax collection funds for financial reporting purposes. This fund accounts for the collection of income taxes, sales taxes, gasoline and motor fuels taxes, motor vehicle licenses, and severance taxes, among others, pending allocation to other funds.

Taxes Collected For Local Governments accounts for local taxes which are collected by the state for local governments. These taxes do not represent revenues of the state.

Payroll accounts for undistributed withholdings for employee benefits and payroll taxes.

Defeased Bonds Escrow are irrevocable bond defeasance escrow funds established to hold sufficient resources to satisfy outstanding bond debt of various State entities. The State Treasurer holds these assets in the capacity of an independent trustee. The related debt is no longer considered to be outstanding.

Other Agency Funds are aggregated for financial reporting purposes and represent amounts held for child support payments, cash bonds, and numerous other deposits.
