DON SIEGELMAN  
Governor

HENRY C. MABRY, III  
Director of Finance

ROBERT L. CHILDREE  
State Comptroller

March 31, 2002

To the Honorable Governor,  
Members of the State Legislature, and  
the Citizens of Alabama:

I am pleased to submit to you the Comprehensive Annual Financial Report (CAFR) for the State of Alabama for the year ended September 30, 2001. I believe the information as presented is accurate in all material respects and complies with Article IV, Section 72 of the *Constitution of Alabama of 1901* and Section 41-4-3(4) of the *Code of Alabama 1975*, as amended. The completeness and fairness of the presentation, including all disclosures, rests with the State's management. This report complies with Article V, Section 137 of the *Constitution of Alabama of 1901* and Section 36-16-1(6) of the *Code of Alabama 1975*, as amended, as the financial report for the State Auditor, State Treasurer, and State Comptroller.

**Description of CAFR**

The Comprehensive Annual Financial Report is divided into three sections:

- **The Introductory Section** contains this letter of transmittal, which includes financial highlights for 2001, the Certificate of Achievement for Excellence in Financial Reporting for the September 30, 2000 CAFR, a list of principal officials at September 30, 2001, and the State organization chart.
- **The Financial Section** includes the general purpose financial statements (combined statements and notes), combining financial statements, individual fund and account group statements, supplemental statements and schedules, and the Independent Auditor's Report.
- **The Statistical Section** includes selected financial and demographic information about the State, with an emphasis on multi-year trends.

This report presents financial information on all of State government as a single reporting entity. While State law allows many State organizations to operate largely independent of the daily central control and scrutiny of the State Finance Department, State Auditor, and State Treasurer, this report combines the financial data of all State organizations in order to present a comprehensive picture of State finances. The numerous departments, agencies, elected officials, boards, commissions, authorities, colleges, universities, and other organizational units of the State are included in this report in accordance with standards established by the Governmental Accounting Standards Board. These standards make a distinction between organizations which are considered to be part of the primary government of the State and those which are component units. A component unit is defined as a legally separate corporate entity for which the State is considered to be financially accountable. The criteria used to determine financial accountability includes the appointment of a majority of the governing board, the ability of the State to impose its will on the organization, and the potential for the organization to be a financial benefit or financial burden to the State. The State is also considered financially accountable for any organization having an independently appointed board if that organization is fiscally dependent on the State. An organization is fiscally dependent if it is unable to adopt a budget, set rates or charges, or issue bonded debt without the approval of the State. Component units can be reported as if they are a part of the primary government ("blended presentation") if they provide services solely to the government, but most of the State's component units do not and are therefore presented separately ("discrete presentation") in these financial statements. The largest of the blended component units includes the Corrections Institution Finance Authority, Industrial Access Road and Bridge Authority, and the Building Renovation Finance Authority. The most significant discretely presented component units are the Retirement Systems of Alabama, the Alabama Water Pollution Control Authority, the Department of Mental Health and Mental Retardation, the Alabama Housing Finance Authority, the four-year colleges and universities, the Alabama Public School and College Authority, and the Twenty-first Century Authority. Note 1 to the financial statements provides a more complete description of the State's reporting entity.

### Economic Condition and Outlook

The slowdown in the state economy that began with the manufacturing sector is now affecting the remaining sectors. Construction, retail and wholesale trade, and services-related businesses, which have been strong sectors in recent years, had significant payroll job losses in 2001. For 2001 overall economic growth should be flat, much less than the 3.1 percent growth rate experienced in 2000. The current slowdown in the economy cannot be attributed to one single event, but a sequence of events that include gradual erosion of the state's manufacturing jobs, excess capacity built during the late 1990s that is now being scaled back, slackening worldwide demand, and the terrorist attacks.

Personal income growth in 2001 grew approximately 3.85 percent compared to 3.86 percent in 2000. Manufacturing job losses play a major role in why total personal income growth in Alabama has been among the slowest in the nation.

In the 12 months to October 2001, the state lost 30,400 jobs. The manufacturing sector, which accounts for about 18 percent of the state's total nonagricultural employment, lost 17,300 jobs. Durable goods manufacturers lost 10,200 jobs and nondurable goods producing industries lost 7,100 jobs. The nationwide manufacturing downturn, declining demand in both domestic and foreign markets, and worldwide recessionary conditions are among the major factors affecting manufacturing employment in the state and nationwide.

Manufactured products make up most of the state's exports. Alabama exports have declined with the deterioration of economic conditions worldwide. When 2001 export data are released, they should reflect a significant drop in exports from the 2000 level of a 15.6 percent increase.

Trade, one of the fastest growing sectors in the state in recent years, lost 1,300 wholesale and 6,100 retail jobs for a total of 7,400 jobs. This is down significantly from the 2,900 jobs added over the October 1999 to October 2000 period. The decline can be attributed not only to slowing consumer spending, but also to excess retail capacity in an overbuilt retailing sector.

Services lost 1,400 jobs between October 2000 and October 2001, whereas the sector gained 8,100 jobs in the previous 12 months. Most of the job losses were due to sharp declines in high-tech service industries such as Internet service providers and web page designers.

Construction suffered in the general economic slowdown as well. Private housing construction has remained fairly stable, especially in the major metropolitan areas. However, industrial and commercial construction has had the brunt of the slowdown. From October 2000 to October 2001, the state lost 1,900 construction jobs compared to 4,200 jobs added the previous year.

The forecast for 2002 calls for a slight improvement in the state economy. The recovery is expected to be modest and slow. Economic conditions will gradually start improving but remain weak at least through the first half of the year. Alabama's gross state product is expected to increase by 1.1 percent in 2002. The manufacturing sector is expected to remain weak through 2002. Improvements in the sector's output and employment are not likely to begin until late 2002 or early 2003. Services output and employment will grow in 2002 with health care and related services growing the fastest. The retail trade sector is expected to remain weak through the first half of the year.

### Major Initiatives

On June 11, 2001, Toyota Motor Company officials broke ground at Toyota's new \$220 million V-8 plant that will be located in Huntsville, Alabama. This makes Alabama the home to three of the world's top five automotive manufacturers. The plant will employ 350 workers and produce 120,000 V-8 engines for the North American-made Toyota Tundra pickup trucks each year. An independent report from Auburn University at Montgomery predicts that the Toyota plant will indirectly create 967 new jobs on top of the 350 the plant will employ directly. The new plant should begin production by the summer of 2003.

CRH North America announced a \$21 million expansion to the Clanton, Alabama manufacturing plant that will create 345 new jobs. The 125,000 square foot expansion is expected to increase the company's annual sales to \$80 million. CRH supplies a number of major auto manufacturers including Mercedes, Volkswagen, Audi and BMW.

Service Zone, Inc. announced that two new technology support and customer care facilities would be located in Marion County, Alabama. The facilities will create 1,200 new jobs.

Honda completed its manufacturing facility in Lincoln, Alabama, where the worldwide automotive maker is now producing the Odyssey minivan. The plant, which is Honda's third in the United States, will manufacture the Odyssey minivans as well as engines in the 1.7 million square foot plant. The plant may ultimately employ as many as 3,000 workers.

Construction began on a \$200 million electricity generating station in Autauga County by Tenaska, Inc. The facility will create 500 jobs during construction and employ another 20 full-time workers once the plant is completed. The station will generate 885 megawatts of electricity, enough for 885,000 residences.

The Boeing Company and Pemco Aviation Group, Inc. will partner to provide maintenance for U.S. Air Force KC-135 aircraft. The new partnership will secure 1,400 jobs at Pemco's Birmingham facility.

Construction began on Corridor X, Birmingham to Memphis Highway, an important transportation route that will facilitate economic development in North Alabama. All but 1.5 miles of Corridor X were under construction by the end of 2001.

Phase one of the revitalization of the Port of Alabama with the demolition of a warehouse to make room for new port facilities began in April 2001. Phase one of the port revitalization includes a new metals cargo terminal at Pier North A, upgrades of track and equipment for rail interchange, a new forest products terminal on Pier North, a metals cargo terminal on Pier D and new container equipment at Pier 2.

Legislation was passed to issue bonds for a \$90 million dollar biomedical research center. The center is expected to create 1,400 new, high-paying jobs and bring more than \$100 million in new research grants to Alabama. Legislation was also passed which allows HealthSouth to build a \$240 million, 219-bed, all-digital hospital that will have an Internet connection at each bed allowing physicians to check patient records online.

The State of Alabama is increasing outreach for uninsured children with the goal of insuring every child by the year 2005. Alabama has been cited as one of the top three most aggressive states in recruiting children for its health insurance initiative. Since Alabama's plan was approved in 1998, Alabama has been able to provide insurance to almost 90,000 children.

## Financial Information

### **Internal Controls**

The internal controls in the State's accounting system have been designed to comply with Alabama statutes requiring the audit of receipts and receivables; the determination of legality and correctness of each claim and expenditure; and, that funds are appropriated, allotted, and on deposit in the State Treasury before any warrant is issued. The internal controls include manual pre-audit and automated system edits. As an additional control, the State Auditor's Office is responsible for a post-audit of the accounts and records of the Department of Finance and the State Treasurer's Office. These internal accounting controls provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss or unauthorized disposition and the reliability of the financial records from which the financial reports are prepared. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefits.

### **Budgetary Controls**

Budgetary control is exercised through the Executive Budget Office of the State Finance Department based on the Appropriation Acts of the State Legislature. Alabama's annual Appropriation Acts include legally adopted budgets for the General Fund, the Education Trust Fund, and other budgeted funds. The Appropriation Acts identify the source of funding and the programmatic (functional) areas for which expenditures are authorized. Both the Alabama Constitution and the statutes require a balanced budget for annual financial operations. In the event that revenue collections do not meet budget projections, the Governor is required to prorate appropriations and restrict allotments to prevent an overdraft in any fiscal year for which appropriations are made. Allotments of appropriations are made quarterly based on plans of operations submitted by the departments and agencies. These appropriations and allotments are enforced by automated edits that prevent allotments in excess of appropriations and expenditures in excess of allotments. Encumbrance accounting is utilized as purchase orders are issued to insure that purchase orders plus expenditures do not exceed allotment balances. Controls are further tightened at fiscal year end by checking that the total of purchase orders plus expenditures plus any obligations (accounts payable) incurred against fiscal year appropriations do not exceed allotments, and remaining allotments do not exceed cash in the Treasury.

### **Cash Controls**

The State's controls on cash are fiscally very conservative. Constitutional Amendment 26 prohibits the State Comptroller from drawing warrants on the State Treasury unless there is money on hand to cover those warrants. This is more restrictive at the end of the fiscal year when obligations (encumbrances and accounts payable) cannot exceed the available cash balance (cash less warrants payable). This control is enforced by automated edits and tends to result in positive fund balances, even when GAAP basis accruals are made in the financial statements. Compliance with Amendment 26 is demonstrated in the following exhibits for the General Fund and the Education Trust Fund.

Summary of Receipts, Disbursements, and Cash Balances  
General Fund  
Last Five Fiscal Years - Cash Basis (Treasury Cash Only)

<b>Unobligated Cash Balance, September 30</b>	<b>\$ 5,801</b>	<b>\$ 13,677</b>	<b>\$ 24,033</b>	<b>\$ 14,154</b>	<b>\$ 10,824</b>

**General Fund and Special Revenue Fund Balances**

The fund balances for the General Fund and the Education Trust Fund (ETF) for the last five fiscal years are presented in the following table. The fiscally conservative nature of Amendment 26 tends to produce positive fund balances every year. However, during the 1996 fiscal year, an error was made in the distribution of certain taxes which caused the ETF to have a deficit GAAP balance because it owed the General Fund \$29 million to correct the error. The debt between the two funds was cleared in fiscal year 2000. The ETF fund balance increased substantially in 2001 because GASB 33 required the accrual of taxes receivable.

FUND BALANCES - GAAP Basis  
(Amounts in Millions)

	<u>2001</u>	<u>2000</u>	<u>1999</u>	<u>1998</u>	<u>1997</u>
General Fund	\$ 112.0	\$ 87.9	\$ 90.9	\$ 77.1	\$ 86.7
Education Trust Fund	326.9	26.4	(13.6)	(13.6)	(25.2)

## STATE OF ALABAMA

### General Government Functions - GAAP Basis

General government functions are accounted for in the General, Special Revenue, Debt Service, and Capital Projects funds of both the primary government and the component units. The GAAP basis revenues for governmental funds and the changes from the previous year are shown in the table below (the amounts in the table do not include expendable trust funds).

<b>Source</b>	<b>2001 Amount (in 000's)</b>	<b>% of Total</b>	<b>2000 Amount (in 000's)</b>	<b>% of Total</b>	<b>Increase (Decrease) from 2000</b>
Taxes	\$ 5,881,843	47.1	\$ 6,029,326	49.5	\$ (147,483)
Licenses, Permits and Fees	461,181	3.7	469,307	3.8	(8,126)
Fines, Forfeits, and Court Settlements	138,380	1.1	164,834	1.4	(26,454)
Investment Income	120,439	1.0	119,252	1.0	1,187
Federal Grants and Reimbursements	4,692,132	37.6	4,257,589	34.8	434,543
Other Revenues	1,191,272	9.5	1,152,315	9.5	38,957
<b>Total Revenues</b>	<b>\$ 12,485,247</b>	<b>100.0</b>	<b>\$ 12,192,623</b>	<b>100.0</b>	<b>\$ 292,624</b>

Governmental fund expenditures on a GAAP basis by functional areas and the changes from the previous fiscal year are presented in the table below (the amounts in the table do not include expendable trust funds). The largest dollar increase in expenditures from 2000 to 2001 was in Health-Physical and Mental.

<b>Function</b>	<b>2001 Amount (in 000's)</b>	<b>% of Total</b>	<b>2000 Amount (in 000's)</b>	<b>% of Total</b>	<b>Increase (Decrease) from 2000</b>
Economic Development and Regulation	\$ 62,842	0.5	\$ 59,157	0.5	\$ 3,685
Education and Cultural Resources	3,447,664	29.2	3,484,666	30.7	(37,002)
Natural Resources and Recreation	55,617	0.5	49,404	0.4	6,213
Health - Physical and Mental	4,023,733	34.1	3,698,846	32.6	324,887
Social Services	1,226,268	10.4	1,145,938	10.1	80,330
Protection of Persons and Property	595,728	5.0	558,140	4.9	37,588
Transportation	1,082,933	9.2	962,505	8.6	120,428
General Government	481,502	4.1	440,908	3.9	40,594
Capital Outlay	277,095	2.3	319,549	2.8	(42,454)
Debt Service	235,335	2.0	303,437	2.7	(68,102)
Distributions to Local Governments	320,556	2.7	322,978	2.8	(2,422)
<b>Total Expenditures</b>	<b>\$ 11,809,273</b>	<b>100.0</b>	<b>\$ 11,345,528</b>	<b>100.0</b>	<b>\$ 463,745</b>

**General Fund Revenues and Expenditures - Cash Basis**

The General Fund accounts for many different governmental functions. Certain revenue sources are earmarked for use only in the General Fund. Total revenues on a cash basis in 2001 for the General Fund were \$1.163 billion, an increase of \$31 million over 2000. The largest decrease occurred in Corporation Taxes, which decreased \$51.6 million because of changes in the tax laws. The largest revenue source for the General Fund for 2001 is Excise, Sales, and Use Taxes, accounting for 19.5 percent of total revenues.

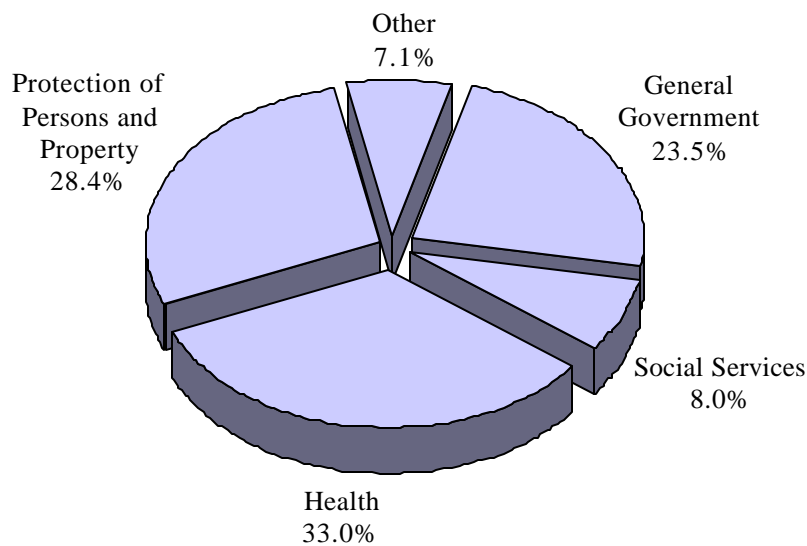

Source	2001 Amount (in 000's)	% of Total	2000 Amount (in 000's)	% of Total	Increase (Decrease) from 2000
Investment Income	\$ 205,777	17.7	\$ 201,315	17.8	\$ 4,462
Insurance Premium Tax	160,249	13.8	153,993	13.6	6,256
Excise, Sales & Use Taxes	227,384	19.5	162,359	14.4	65,025
Corporation Taxes	33,471	2.9	85,053	7.5	(51,582)

## STATE OF ALABAMA

General Fund expenditures totaled \$1.189 billion in 2001, an increase of \$98.9 million over 2000. General Fund expenditures are used primarily to support three functional areas of state government: Protection of Persons and Property (28.4 percent), Physical and Mental Health (33.0 percent), and General Government (23.5 percent).

**General Fund Expenditures By Function  
Cash Basis**

Function	2001 Amount (in 000's)	% of Total	2000 Amount (in 000's)	% of Total	Increase (Decrease) from 2000
Economic Development	\$ 21,629	1.8	\$ 22,163	2.0	\$ (534)
Educational & Cultural	10,774	0.9	10,135	0.9	639
Natural Resources & Recreation	10,469	0.9	7,430	0.7	3,039
Health - Physical & Mental	392,490	33.0	389,523	35.8	2,967
Social Services	95,579	8.0	79,758	7.3	15,821
Protection of Persons & Property	337,162	28.4	314,285	28.8	22,877
Transportation	16	0.0	215	0.0	(199)
General Government	279,095	23.5	244,344	22.4	34,751
Debt Service	24,777	2.1	7,095	0.7	17,682
Distributions to Local Governments	17,142	1.4	15,320	1.4	1,822
<b>Total Expenditures &amp; Other Uses</b>	<b>\$ 1,189,133</b>	<b>100.0</b>	<b>\$ 1,090,268</b>	<b>100.0</b>	<b>\$ 98,865</b>

**Education Trust Fund Revenues and Expenditures - Cash Basis**

The Education Trust Fund (ETF) accounts for educational functions. Total revenues and other financing sources for the ETF were \$4.0 billion, decreasing \$99.7 million over 2000. The chief sources of revenues for the ETF remain the Income Tax and the General Sales Tax, contributing 85.8 percent of the total revenues.

<b>Revenue Source</b>	<b>2001 Amount (in 000's)</b>	<b>% of Total</b>	<b>2000 Amount (in 000's)</b>	<b>% of Total</b>	<b>Increase (Decrease) from 2000</b>
Income Tax	\$ 2,161,324	53.8	\$ 2,230,141	54.2	\$ (68,817)
General Sales Tax	1,282,356	32.0	1,328,332	32.3	(45,976)
Utilities Tax	301,376	7.5	274,263	6.7	27,113
General Use Tax	193,989	4.8	181,845	4.4	12,144
Other Taxes	63,214	1.6	98,634	2.4	(35,420)
Other Revenues	12,451	0.3	1,159	0.0	11,292
<b>Total Revenues</b>	<b>\$ 4,014,710</b>	<b>100.0</b>	<b>\$ 4,114,374</b>	<b>100.0</b>	<b>\$ (99,664)</b>

Expenditures and other uses of the ETF were approximately \$4.0 billion in 2001. Ninety-seven percent of expenditures from the ETF were used for educational and cultural purposes. The remaining expenditures were used for education related programs.

## Proprietary Funds

Internal Service Funds are maintained to account for the operations of State agencies which provide goods and services to other State agencies on a cost-reimbursement basis. These funds provide computer services, information technology, telecommunications, rental of office buildings, janitorial services, building maintenance, printing services, agricultural and manufacturing activities, sale of surplus property, operating and maintaining National Guard training sites, health insurance coverage for state employees, liability protection, and highway-related goods and services. The Building Renovation Finance Authority had a deficit retained earnings of \$11.5 million largely because the fund's major assets are buildings, which have depreciated values that are less than the long-term debt associated with them.

Enterprise Funds are used to account for the operations of State agencies that provide goods and services to the public in a manner similar to private business enterprises. The major funds operate facilities for the distribution and sale of alcoholic beverages, operate state park and recreational facilities, provide for the operation of the Prepaid Affordable College Tuition program, provide services for shippers including warehousing, loading, and bulk cargo handling, and provide health insurance to local governments and citizens who have lost their group health insurance. The Alcoholic Beverage Control Board had a deficit in retained earnings of \$4.9 million, largely due to the accrual of liabilities for compensated absences and salaries payable. The Board, by law, operates on a cash basis and is required to distribute 100 percent of its earnings.

## Pension Trust Funds

The State operates three major pension funds, the Teachers' Retirement System (TRS), Employees' Retirement System (ERS), and Judicial Retirement Fund (JRF). Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of the respective retirement systems' funding status on a going-concern basis. Analysis of this percentage over time indicates whether the respective system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the retirement system. Percentages funded as of the latest actuarial valuation date, September 30, 2000, for ERS (State employees and State policemen) and JRF were 104.9 and 89.0 percent, respectively. The percentage funded for TRS as of June 30, 2001, was 101.4 percent.

## The Alabama Heritage and Alabama Trust Funds

Alabama maintains two important nonexpendable trust funds, the Alabama Heritage Trust Fund and the Alabama Trust Fund. Most of the interest income from both funds is transferred to the General Fund. The transfers to the General Fund are generally timed to coincide with debt service payments for general obligation bonds. An additional 10 percent of the earnings of the Alabama Trust Fund are used to fund the Forever Wild Trust Fund.

The Alabama Heritage Trust was created by constitutional amendment in 1982 as an irrevocable, permanent trust fund. As of September 30, 2001, the fund balance was \$460.5 million. The Alabama Trust was created by constitutional amendment in 1985 as an irrevocable, permanent trust fund. The fund balance as of September 30, 2001, was \$1.749 billion. The principal of both funds consists primarily of proceeds of oil and gas royalties. In accordance with the constitutional amendments, the Alabama Heritage Trust Fund merged into the Alabama Trust Fund in the first quarter of fiscal year 2002.

In 2001, the General Fund received \$52.8 million from the Alabama Heritage Trust Fund and \$81.7 million from the Alabama Trust Fund. Of the \$81.7 million received from the Alabama Trust Fund, \$17.1 million was distributed equally to the cities and counties to be used primarily for capital improvements. The Forever Wild Trust Fund received \$9.1 million from the Alabama Trust Fund. Since their inception in 1982, the Heritage and Alabama Trusts have grown from \$470 million to their current balance of \$2.210 billion.

## Debt Administration

Alabama has traditionally received high bond ratings from both Standard and Poor's Corporation and Moody's Investors Service due in large part to the commitment to sound fiscal management. Both the Alabama Constitution and the statutes require a balanced budget for annual financial operations. The State Constitution prohibits the issuance of debt. Therefore, the only way to issue general obligation debt is by amending the Constitution through a statewide vote of the people. The State does issue revenue bonds which are limited obligations of public corporations governed by State officials. Those revenue bonds are backed by a pledge of specific revenue sources for which the annual collections are generally predictable. The total outstanding general obligation bond indebtedness as of September 30, 2001, was \$433.1 million and the total outstanding revenue bond indebtedness for the primary government was \$492.3 million. The total outstanding revenue bond indebtedness for component units was \$4.555 billion. The total outstanding bond indebtedness for the reporting entity at September 30, 2001, was \$5.48 billion. The State's general obligation bond debt per capita increased to \$97 during the year. The ratio of general obligation bond debt to assessed property valuation rose to 1.09 percent and the ratio of general obligation debt to personal income increased to 0.40 percent.

The State of Alabama issued \$185,200,000 in general obligation bonds in fiscal year 2001. The Alabama Public School and College Authority issued \$92,565,000 in new bonds. The Water Pollution Control Authority issued \$61,795,000 in new bonds. The Drinking Water Finance Authority issued \$25,895,000 in new bonds. The State Industrial Development Authority issued \$5,000,000 in new bonds. The Housing Finance Authority issued \$183,255,000 in new bonds and called approximately \$128,582,000 of bonds in advance of their scheduled maturities. Auburn University issued \$19,460,000 in refunding bonds. The refunding bonds were used to refund all outstanding Series 1991 bonds. Troy State University issued \$13,750,000 in new bonds.

## Cash Management

The State Treasurer has the responsibility for the investment of cash balances. Due to statutory requirements, treasury cash is primarily invested in time deposit--open accounts and in repurchase agreements with Alabama banks. Additionally, the State Treasurer continues the Linked Deposit Program, through which the State Treasurer agrees to accept two percentage points below U. S. Treasury rates for comparable securities, with the resulting savings being passed on to small businesses and agricultural loan applicants.

The State Treasurer has placed considerable emphasis on cash management. In cooperation with State agencies, the receiving of funds into the State Treasury is expedited, with all available funds being invested. Interest earnings during the 2000-2001 fiscal year were as follows:

Time Deposit - Open Accounts - Regular	\$ 37.0 million
Time Deposit - Open Accounts - Linked Deposits	\$ 4.1 million
Repurchase Agreements	\$ 31.3 million
Other Investments	\$ 439 thousand

Interest income is deposited in the State's General Fund to be appropriated by the Legislature for government operations. In addition to the management of the investment of these funds, the State Treasurer has statutory authority to invest for several state agencies, with interest earnings being credited to those agencies.

## **Risk Management**

The State manages risk through risk control and risk financing to minimize the adverse effects of certain types of losses. Risk control is managed by such means as encouraging that automatic sprinkler systems in insured properties are adequate and in full functioning order, carefully investigating and defending claims to minimize loss potential, managing care programs, and promoting healthy employee programs. Risk financing includes self-insurance plus excess insurance and reinsurance through several different funds. The State Insurance Fund, which insures property against fire and casualty losses, has excess insurance and reinsurance to cover any additional damage amounts, plus earthquake and flood damage. The General Liability Trust Fund protects state employees against the risk of loss from employment-related liability claims. Automobile liability is fully reinsured. The State Employee Injury Compensation Trust Fund, which provides benefits to eligible state employees for job-incurred injuries, is self-insured. The State Employees' Insurance Fund, which provides health insurance benefits for current and retired state employees and their dependents, is self-insured. The Public Education Employees' Health Insurance Fund, which provides health benefits for current and retired employees and their dependents of state educational institutions, is also self-insured.

## **Audit**

This CAFR has been audited by the Department of Examiners of Public Accounts. The Examiners conducted their audit in accordance with generally accepted auditing standards and *Government Auditing Standards* issued by the Comptroller General of the United States. The Examiners' unqualified opinion appears at the beginning of the financial section of this report. The State will also undergo an audit of federal programs to conform to the requirements of the *Federal Single Audit Act Amendments of 1996* and the *U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Information relating to the single audit, including the schedule of federal awards, and audit findings and recommendations, is issued in a separate report and will be available at a later date from the Examiners of Public Accounts.

## **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Alabama for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 2000. This was the third consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

## **Acknowledgements**

Production of this report would not have been possible without the assistance of all state organizations which supplied financial information vital to the accuracy of this report. As we strive to produce this report in future years and to further enhance its quality, the continued support and cooperation of all agencies remains essential. I also express my appreciation to my entire staff in the Division of Control and Accounts, whose daily efforts to improve the accountability of state government make the quality of this report possible.

Respectfully submitted,

Robert L. Childree  
State Comptroller

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of  
Alabama

For its Comprehensive Annual  
Financial Report  
for the Fiscal Year Ended  
September 30, 2000

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

*Imelda Gruwe*  
President

**INDEPENDENT AUDITOR'S REPORT**

We have audited the accompanying general purpose financial statements of the State of Alabama as of and for the year ended September 30, 2001, as contained in the accompanying Comprehensive Annual Financial Report and listed in its table of contents. These financial statements are the responsibility of the State of Alabama Department of Finance and management of the State of Alabama. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Employees' Retirement System, the Teachers' Retirement System, the Public Employees' Individual Retirement Account Fund, the Public Employees' Individual Retirement Fund/Deferred Compensation Plan (RSA-1), the Public Education Employees' Health Insurance Fund, the Alabama Heritage Trust Fund, the State Employees' Insurance Board, the Alabama Health Insurance Plan, the Alabama Port Authority, the Space Science Exhibit Commission, and the Alabama Higher Education Loan Corporation were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the State of Alabama as of September 30, 2001, and the results of its operations and cash flows of its proprietary fund types, nonexpendable trust funds and certain component units, changes in plan net assets of its pension trust funds, and the changes in fund balances and current fund revenues, expenditures and other changes of the university funds, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1 to the financial statements, the State of Alabama adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, and Statement No. 36, *Recipient Reporting for Certain Shared Nonexchange Revenues*, an amendment of GASB Statement No. 33, for the year ended September 30, 2001. This resulted in changes to the State of Alabama's methods of accounting for certain nonexchange transactions.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 29, 2002, on our consideration of the State's internal control over financial reporting and our tests of the State's compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the State of Alabama. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

The Schedule of Funding Progress on page 126 is not a required part of the general purpose financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and do not express an opinion on it. We also did not audit the data included in the Introductory and Statistical Sections and, accordingly, express no opinion on it.

RONALD L. JONES  
Chief Examiner of Public Accounts

# 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## A. Reporting Entity

As required by generally accepted accounting principles, these financial statements present the State of Alabama (the primary government) and its component units. Component units are legally separate organizations ("public corporations") for which the primary government is financially accountable. Generally, the primary government is financially accountable if it appoints a voting majority of the organization's board and it can either 1) impose its will on the organization or 2) there is a financial benefit/burden relationship. If the primary government does not control the board, it may be financially accountable if the organization is fiscally dependent on the State. Organizations making up the primary government and its component units are summarized in the following paragraphs.

### 1. Primary Government

All State departments, agencies, elected officials, boards, commissions, authorities, committees, halls of fame, educational institutions, and other State organizations (hereafter referred to as "agencies") which are not legally separate are, for financial reporting purposes, part of the primary government. All agencies and funds that operate from within the State Treasury, except those listed later as component units, are part of the primary government. The following non-Treasury agencies operate largely independent of the control of the State Comptroller, Auditor, and Treasurer, but lack the corporate powers to make them legally separate and are therefore part of the primary government:

- Alabama College System (two-year schools)
- Alabama State Fire College
- Athens State College
- Aviation Hall of Fame
- Commercial Mobile Radio Service Board
- Dental Examiners Board
- Dental Scholarships Awards Board
- Gorgas Memorial Board
- Alabama Industrial Development and Training Institute
- Medical Examiners and Licensure Commission
- Medical Scholarships Awards Board
- Motor Sports Hall of Fame
- Optometric Scholarships Awards Board
- Optometry Board
- Pharmacy Board

- Pilotage Commission
- Podiatry Board
- School of Fine Arts
- Skills Centers
- State Port Authority
- State Safety Coordinating Committee
- Women's Hall of Fame

### 2. Blended Component Units

Blended component units are legally separate but they exist solely to provide services (usually financing) exclusively to the State. Because of this close relationship, they are blended with and reported as though they are a part of the primary government. All references in the financial statements or elsewhere in these notes to the term "primary government" will encompass both the primary government and the blended component units.

The following blended component units were created for the purpose of financing capital expenditures for the State. Each issues revenue bonds that are limited obligations of the component unit. Their boards consist of State officials and specific State revenues that are pledged for bond repayment. Those marked with a † are currently inactive and have no financial balances or activity in the past fiscal year.

- Agriculture Markets and Coliseum Authority †
- Corrections Institution Finance Authority
- Federal Aid Highway Finance Authority †
- Highway Authority †
- Industrial Access Road and Bridge Authority
- Judicial Building Authority
- Alabama Trade School and Junior College Authority †
- Public Health Care Authority
- Gulf State Park Authority †

The Building Renovation Finance Authority has the same characteristics as those in the previous paragraph, but has the added responsibility of operating, maintaining, and renting buildings in the capitol complex that are occupied by State departments.

The State Parks System Improvement Corporation renovates, improves, maintains, and constructs assets belonging to the State Parks System. The six members of the Corporation are State officials.

The Forensic Science Bond Authority has the power to acquire, construct, and equip laboratories and other facilities for the State Department of Forensic Sciences. The four members of the authority are State officials. The Authority had no financial activity in the past fiscal year.

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

---

The Alabama State Parking Deck Authority has the authority to sell bonds, operate, maintain, and rent out space in a parking deck on a block in the capitol complex. The Authority has remained inactive since the enabling legislation was passed.

The Educational Television Foundation Authority exists to receive, invest, and expend donated moneys for the purpose of promoting the growth and development of educational television. The Authority consists of thirteen members who are appointed by the Educational Television Authority. As a non-profit public corporation, the Authority provides financing flexibility that the Authority, as part of the primary government, would not otherwise have.

**3. Discretely Presented Component Units**

Discretely presented component units are organizations, which are legally separate and do not exist to provide services exclusively to the primary government. Providing services to the citizens of the State is not considered the same as providing services to the primary government institution. Financial information for discretely presented component units is segregated on the financial statements and the notes in the "Component Unit" columns in order to emphasize that they are legally separate.

Most of the discretely presented component units have boards that are controlled by the primary government through the appointment of a majority of the board members. The State has been determined to be financially accountable for each organization because it can impose its will on each organization. Unless otherwise noted, financial accountability for each organization described below exists at least in the ability of the State to modify the component unit's budget. Other manifestations of financial accountability may also exist.

For discretely presented component units whose boards are not controlled by the State, the organization has been determined to be fiscally dependent on the State. Unless otherwise noted, fiscal dependency exists at a minimum in the State's ability to modify the component unit's budget. Other manifestations of fiscal dependency may also exist.

When audited financial statements for a discretely presented component unit exist, the address at which such financial statements can be obtained is included in the following paragraphs describing each component unit. For all other discretely presented component units, complete financial statements may be obtained from the State of Alabama, Office of State Comptroller, RSA Union Building, Suite 206, Montgomery, AL 36130-2602.

The Employees' Retirement System (ERS) operates three pension plans and several expendable trusts for the benefit of State and local governmental employees. The ERS is governed by a thirteen-member board of control, seven of whom are either primary government officials or appointees of the Governor. Separate audited financial statements are available for the ERS, the Judicial Retirement Fund, and the expendable trusts. Each may be obtained from the Retirement Systems of Alabama, 135 South Union Street, P.O. Box 302150, Montgomery, AL 36130-2150.

The Water Pollution Control Authority operates a revolving loan fund to aid municipalities in financing the construction of wastewater treatment facilities. A five-member board of directors made up of ex officio members governs the Authority. Audited financial statements of the Authority may be obtained from the Alabama Department of Environmental Management at 1400 Coliseum Boulevard, Montgomery, AL 36130.

The Alabama Drinking Water Finance Authority operates a revolving loan fund to aid local governments in financing the construction of sanitary drinking water facilities. A five member board of directors made up of ex officio members governs the Authority. Audited financial statements of the Authority may be obtained from the Alabama Department of Environmental Management at 1400 Coliseum Boulevard, Montgomery, AL 36130.

The Department of Mental Health and Mental Retardation provides mental health and mental retardation services for the people of Alabama. The Governor of the State and the commissioner of the Department constitute a public corporation and are advised by a sixteen-member board of trustees. The commissioner and ten of the board members are appointed at the discretion of the Governor. The Mental Health Finance Authority exists to provide financing services to the Department and is therefore a blended component unit of the Department and is included in all amounts reported for Mental Health.

The Crime Victims Compensation Commission awards compensation for economic losses arising from criminal conduct and works to change laws to benefit crime victims. The Commission consists of three members who are appointed by the Governor.

The Tennessee Valley Exhibit Commission operates a public exhibit based primarily on the history of and ongoing activities of the Tennessee Valley Authority and various other public entities involved in energy research and development. The sixteen-member Commission is appointed by the Governor.

---

The State Industrial Development Authority issues bonds and uses the proceeds to make grants to local industrial development boards. All members of the Authority are elected or appointed state officials.

The Alabama Education Foundation encourages donations of money for local school systems and invests the money for the benefit of each local system. The Foundation is governed by a twelve-member board that is made up of state officials and other individuals appointed by state authorities.

The Supercomputer Authority operates a supercomputer for the use of educational and governmental research institutions, private businesses, and individuals. The eleven directors of the Authority are appointed by state officials.

The boards of the four-year colleges of the State, except for the University of Alabama, are appointed by the State. Those colleges are: Alabama A&M University, Alabama State University, Auburn University, Jacksonville State University, University of Montevallo, University of West Alabama, University of North Alabama, University of South Alabama, and Troy State University. The University of Alabama board of trustees is not controlled by the State but the university is subject to budgetary control by the State.

Complete financial statements for those universities which are audited may be obtained at the following addresses: Associate Controller, University of South Alabama, AD 380, Mobile, AL 36688-0002; Office of the Vice President for Business and Finance, Alabama A&M University, P.O. Box 369, Normal, AL 35762; Vice-President for Financial Affairs, University of Alabama at Tuscaloosa, P.O. Box 870136, Tuscaloosa, AL 35487-0136; Director of Accounting and Financial Reporting, University of Alabama in Huntsville, Huntsville, AL 35899; Vice President for Financial Affairs and Administration, University of Alabama at Birmingham, Birmingham, AL 35294; Director, Financial Reporting, Auburn University, Auburn University, AL 36849-5161; Comptroller, Station 6060, University of Montevallo, Montevallo, AL 35115-6000.

The Alabama Institute for the Deaf & Blind is an educational institution governed by a fourteen-member board, twelve of whom are appointed by the Governor.

The Marine Environmental Sciences Consortium provides educational programs in marine sciences for the graduate and undergraduate level and conducts research in marine sciences. The board of directors is composed of the chief executive officers of the member institutions.

The Alabama Public School & College Authority (APSCA) issues bonds and uses the proceeds to fund capital construction projects in the local school systems. The Governor, the finance director, and the state superintendent of education constitute the Authority.

The Tombigbee Valley Development Authority consists of six state officials who oversee the development of improvements along the Tombigbee River.

The Higher Education Loan Corporation provides Alabama lending institutions with a secondary market for student loans made under the federal guaranteed student loan program. Audited financial statements may be obtained from the Alabama Commission on Higher Education at P.O. Box 302000, Montgomery, AL 36130-2000.

U.S.S. Alabama Battleship Commission consists of eighteen members appointed by the Governor. The Commission operates a memorial park centered near the historic battleship.

The fourteen-member board of directors of the Housing Finance Authority are appointed by various state officials. The Authority sells bonds and uses the proceeds to make it possible for lenders to make low interest rate mortgages available to low income home buyers. The primary government does not affect the Authority's budget, but the legislature has historically limited the Authority's ability to issue bonds. Audited financial statements may be obtained from the Authority at P.O. Box 230909, 2000 Interstate Park Drive, Suite 408, Montgomery, AL 36123-0909.

Alabama Historic Ironworks Commission operates an historic park based on one of the State's early ironworks. Fourteen of the eighteen members on the commission are appointed by the Governor. Part of the Commission's budget is subject to State control. Audited financial statements may be obtained from the Commission at 12632 Confederate Parkway, McCalla, AL 35111.

The Space Science Exhibit Commission operates the Alabama Space and Rocket Center along with the Space Camp. All eighteen members of the Commission are appointed by the Governor and part of the Commission's budget is subject to State approval. Audited financial statements may be obtained from the Commission at the Alabama Space and Rocket Center, P. O. Box 070015, Huntsville, AL 35807-7015.

The Coosa Valley Development Authority oversees

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

---

developments and improvements along the Coosa River. Six of the seven members of the Authority are State officials.

The Teachers' Retirement System (TRS) operates a pension plan for the benefit of all employees of public education institutions throughout the State. It is governed by a fourteen-member board, ten of whom are elected from among the member employees. The administrative budget of TRS is subject to approval by the State. Audited financial statements for TRS may be obtained from the Retirement Systems of Alabama, 135 South Union Street, P.O. Box 302150, Montgomery, AL 36130-2150.

The Alabama International Airport Authority was created to develop an international airport in the State. The State controls the appointment of only five of the ten members. All funding for the Authority is through the General Fund, so the Authority is subject to full budgetary control.

The Historical Commission is responsible for the preservation of historic sites, buildings, and objects. The twenty-member Commission is not controlled by the State, but the Commission's budget is subject to State control.

The Choctawhatchee Pea and Yellow Rivers Watershed Management Authority develops and executes plans for water conservation and usage, flood control and prevention, water pollution control, wildlife habitat protection, and erosion control within the boundaries of the Authority. The directors of the Authority are elected by local residents but the Authority is subject to State budgetary control.

The Agricultural Museum Board exists to preserve and exhibit agricultural artifacts. The Board is not controlled by the State, but it is subject to state budgetary control.

The Music Hall of Fame operates a public exhibit displaying music memorabilia in honor of Alabamians who have made a lasting contribution to music. The Hall has both an independent board and is fiscally independent of the State. The Hall is included in these financial statements because it would be misleading to exclude. The State has some limited budgetary influence and the State funded the construction of the Hall's facilities with a general obligation bond issue.

The Blakeley Historic Authority preserves the historic site of the town of Blakeley and operates a park on the site. The Authority has both an independent board and is fiscally independent of the State. The Authority is included in the reporting entity because the State has some limited budgetary influence and the State provides the majority of the Authority's funding.

The Alabama Incentives Financing Authority was created to fulfill the State's financial commitments made to industries locating and expanding in the State under the terms of legislation granting certain financial incentives. The board is made up of three state officials, and is authorized to issue bonds to fulfill the State's financial commitments.

The Revolving Loan Fund Authority was created to make grants to twelve regional planning commissions for the purpose of financing local economic development projects. Four of the six members of the Authority are State officials.

The Alabama Twenty-first Century Authority was created to promote economic development and industrial recruitment. The Authority can issue revenue bonds and pledge part of the proceeds of the settlement of the tobacco industry litigation to finance the bonds. The board is made up of three state officials.

The Agricultural Development Authority promotes development of agriculture in the State by making low interest loans available to persons engaged in agricultural operations. The seven-member board is made up of three state officials and four other persons appointed by the State.

The Public Historical Sites and Parks Improvement Corporation renovates, improves, maintains, and constructs State owned public historical sites and parks not under the jurisdiction of the Department of Conservation and Natural Resources as well as non-State owned public historical sites and parks. The six members of the Corporation are state officials.

#### 4. Excluded Organizations

Other entities have been examined but failed to meet the criteria for inclusion in the State's reporting entity. The city and county boards of education are legally separate organizations whose boards are not controlled by the State. They are fiscally dependent on both the State and local governments. It is more appropriate that they be included as part of a local government's reporting entity.

The Elk River Development Agency, Bear Creek Development Authority, and Cahaba Trace Commission are legally separate organizations whose boards are neither controlled by the State nor are they fiscally dependent on the State. All three of these organizations are excluded. The many local soil and water conservation districts are legally separate organizations which have independent boards and are fiscally independent. In keeping with their independence, they are excluded from this report.

---

## 5. Sources of Information

The majority of State organizations, whether primary government or component unit, conduct their financial operations from the State Treasury through the State's central accounting system under the supervision and review of the State Comptroller, State Treasurer, and State Auditor. The source of information on these agencies is the State's central accounting system. For these agencies, the recording of cash, warrants payable, encumbrances, salaries payable, compensated absences, most investments, most short-term payables, most revenues and most expenditures/expenses are controlled by the Comptroller and/or the Treasurer and are therefore subject to extensive scrutiny. Accruals of revenues, a few accruals of expenditures/expenses, and all other accounts, such as depreciation, fixed assets, inventories, and capital leases, generally are based on data provided by the individual agencies. The data provided by the agencies are reviewed and recorded once a year and are believed to be materially correct even though they are not generally subject to extensive scrutiny by the Comptroller, Treasurer, or Auditor.

There are some organizations and funds which meet the criteria for inclusion as part of the reporting entity even though they have the authority to conduct their financial operations through bank accounts and accounting systems outside the State Treasury, independent of the direct daily control of the Comptroller, Treasurer, and Auditor. These non-Treasury agencies are included in the financial statements based on information provided to the Comptroller once a year by the agency or the agency's auditors. Whenever possible, the non-Treasury agencies are reported as they appeared in the information submitted to the Comptroller. However, corrections or modifications have been made whenever required to comply with generally accepted accounting principles or wherever necessary to ensure consistent statewide report presentation.

The following non-Treasury agencies and funds are included in this report:

### Primary Government

- Alabama College System
- Alabama Health Insurance Plan
- Alabama Industrial Development Training Institute
- Alabama School of Fine Arts
- Alabama Skills Center
- Alabama State Port Authority
- Alabama State Fire College
- Athens State College
- Attorney General Outside Accounts

- Aviation Hall of Fame
- Blind Vendors Fund
- C.C. Smith Trust Fund
- Charlotte Thorn Endowment Fund
- Commercial Mobile Radio Service Board
- Corrections Bank Accounts and Agency Funds
- Corrections Canteen Funds
- Corrections Institute Finance Authority Bank Account
- Court System Local Accounts
- Dental Examiners Board
- Dental Scholarships Awards Board
- Department of Human Resources Local Funds and Child Support Funds
- Educational Television Foundation Authority
- Geological Survey Library Revolving Fund
- Gorgas Memorial Board
- Hicks Memorial Endowment Fund
- High School of Math and Science
- Insurance Department Statutory Deposits
- Mary May Eliot Memorial Fund
- Medicaid Agency Lien Account and Qualifying Individual 2 Funds
- Medical Scholarships Awards Board
- Medical Examiners and Licensure Commission
- Men's Hall of Fame Outside Account
- Military Department Unit Funds
- Montgomery Downtown Redevelopment Authority
- Motor Sports Hall of Fame
- National Guard Canteen Funds
- Non-Emergency Transportation
- Optometry Board
- Optometric Scholarships Awards Board
- Peace Officers' Annuity & Benefit Investment Account
- Pharmacy Board
- Pilotage Commission
- Podiatry Board
- Public Health Care Authority
- Public Health Local Funds
- Public Safety Narcotics Funds
- Sports Hall of Fame Checking Account
- State Bar Checking Account
- State Bar Client Security
- State Bar Foundation
- State Port Authority Hourly Pension Plan
- State Port Authority Railway Pension Plan
- State Safety Coordinating Committee
- Student Assistance Initiated Loan Servicing Account
- Supreme Court Checking Account
- Transportation Surety Bonds
- Unemployment Compensation Funds
- Victims Services Fund
- W.V. Chambliss Trust Fund
- Women's Hall of Fame

- Youth Service Student Accounts & Local Funds

**Discretely Presented Component Units**

- Alabama A & M University
- Alabama Drinking Water Finance Authority
- Alabama Higher Education Loan Corporation
- Alabama Historic Ironworks Commission
- Alabama Housing Finance Authority
- Alabama Incentives Financing Authority
- Alabama Institute for Deaf and Blind
- Alabama State University
- Auburn University
- Blakeley Historic Authority
- Crime Victims' Compensation Fund
- Jacksonville State University
- Marine Environmental Sciences Consortium
- Mental Health Client/Patient Funds
- Mental Health Capital Projects - Bank Account
- Music Hall of Fame
- Space Science Exhibit Commission and  
Space Science Exhibit Finance Authority
- Troy State University
- U.S.S. Alabama Battleship Commission
- University of Alabama in Birmingham
- University of Alabama in Huntsville
- University of Alabama in Tuscaloosa
- University of Montevallo
- University of North Alabama
- University of South Alabama
- University of West Alabama
- Water Pollution Control Authority

**B. Fund Accounting**

The State uses funds and account groups to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not affect net expendable available financial resources.

The accompanying financial statements are presented in four classifications of funds, two account groups, and component units as described below. The fund classifications include governmental funds, proprietary funds, fiduciary funds, and

the higher education funds. Account groups are presented for general fixed assets and general long-term obligations.

Governmental funds are used to account for most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the general government not accounted for in some other fund. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they are to be paid. The difference between fund assets and liabilities, the fund equity, is referred to as "fund balance."

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds).

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. When these assets are held under the terms of a formal trust agreement, a pension trust fund, a nonexpendable trust fund, or an expendable trust fund is used. Expendable trusts account for the activities of trusts whose principal and income may be used for the purposes of the trust. Nonexpendable trusts account for activities of trusts whose income may be used to fund trust activities, but whose principal must be maintained intact. Agency funds generally are used to account for assets that the government holds on behalf of others as their agent.

Account groups are used to account for the State's general fixed assets and its general long-term debt. General fixed assets do not represent financial resources available for appropriation and expenditure and are therefore segregated from governmental funds in the General Fixed Asset Account Group. The unmatured principle of general long-term debt does not require the expenditure of current appropriations of governmental fund financial resources and is therefore accounted for separately in the General Long-Term Debt Account Group.

Higher education funds account for the operations of the State's colleges, universities, trade schools, and other educational entities. The higher education institutions

---

account for their activities in the following funds:

Current Funds - includes unrestricted funds over which the institutions' governing boards retain full control in achieving the institutions' purposes, and restricted funds, which may be used only in accordance with externally restricted purposes.

Loan, Endowment, and Agency Funds account for assets in which the institutions act in a fiduciary capacity.

Plant Funds account for institutional property acquisition, renewal, replacement, and debt service.

Annuity and Life Income Funds account for funds received by an institution under deferred-giving agreement contracts.

The component units include organizations that are legally separate from the State but are considered part of the reporting entity as defined in section A of this note. The State has component units that fall into all four of the fund classifications mentioned above.

### **C. Basis of Accounting**

These financial statements are reported in conformity with generally accepted accounting principles (GAAP) unless otherwise noted on the face of the statement or in the Notes to the Financial Statements. GAAP is promulgated for all fund types by the Governmental Accounting Standards Board (GASB) except for the Higher Education Funds, for which GAAP is promulgated by the National Association of College and University Business Officers (NACUBO). GAAP basis reporting differs considerably in some ways from the budgetary and cash basis accounting under which the State budgets and operates.

Under GAAP, the accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using the flow of current financial resources measurement focus. Under this focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases in expendable financial resources as revenues and other financing sources, and decreases as expenditures and other financing uses.

All proprietary funds, nonexpendable trust funds, and pension trust funds are accounted for on a flow of economic resources measurement focus. Under this focus, all assets and all liabilities associated with these funds are included on the balance sheet. Fund equity of proprietary funds is segregated into contributed capital and retained earnings components. Proprietary fund operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

The State has elected to exercise paragraph 6 of Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting." Statement 20, paragraph 6, requires that all proprietary activities should apply all applicable GASB pronouncements as well as any Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARBs) of the Committee on Accounting Procedure (CAP) issued on or before November 30, 1989, unless such FASB, APB, and CAP pronouncements conflict with or contradict GASB pronouncements. FASB pronouncements issued after November 30, 1989, even if they modify an applicable FASB, APB, or CAP pronouncement, are not applicable unless adopted by a GASB pronouncement.

All governmental funds and expendable trust funds are reported using the modified accrual basis of accounting. Agency funds are also accounted for on a modified accrual basis, but agency funds do not recognize revenues and expenditures. Under the modified accrual basis of accounting, recognition criteria is different for exchange and nonexchange transactions. For exchange and exchange-like transactions, revenues and related current assets are recognized when measurable and available to finance operations during the year or if available to liquidate liabilities existing at the end of the year. Therefore, in governmental funds, revenues and the resulting assets are accrued at year end only if the revenues are earned and the receivables are expected to be collected in time to pay for liabilities in existence at the end of the period. Expenditures are recognized when the related fund liability is incurred, except for items that are not expected to be liquidated with expendable available resources, such as the long-term portion of compensated absences payable and capital lease obligations. Therefore, expenditures and the related liabilities are accrued at year end only when they are normally payable from current expendable funds. In order to determine which revenues should be accrued, an arbitrary time limit is established. Revenues are recognized when measurable and available. The State uses sixty days after fiscal year end as the time limit for the accrual of revenues. For nonexchange transactions, revenues and expenditures and related assets and liabilities are recognized as required by GASB Statement 33. For income taxes, general sales taxes, utility taxes, insurance premium taxes, general use taxes, and other derived nonexchange transactions, receivables and revenues are recognized when the underlying exchange has occurred and the resources are available. For unemployment compensation taxes, property taxes, and other imposed nonexchange transactions, receivables are recognized when an enforceable legal claim

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

---

has arisen. Revenues are recognized when resources are required to be used or the first period that use is permitted and the resources are available. For property taxes, revenues are recognized if received within sixty days; otherwise a deferred revenue is recognized. For federal grants and other government mandated nonexchange revenues, assets, revenues, liabilities, and expenditures are recognized when all eligibility requirements have been met and (for revenues) resources are available.

Material accruals are for income taxes, general sales taxes, utility taxes, insurance premium taxes, general use taxes, unemployment compensation taxes, property taxes, federal grants, and interest.

Under GAAP, all proprietary funds, nonexpendable trust funds, and pension trust funds are accounted for on the accrual basis of accounting, which approximates the accounting used in private enterprises. Under the accrual basis, revenues are recognized when earned, and expenses are recognized when the liability is incurred for exchange and exchange-like transactions. For nonexchange transactions, revenues and expenditures and related assets and liabilities are recognized as required by GASB Statement 33. For derived nonexchange transactions, receivables and revenues are recognized when the underlying exchange has occurred. For imposed nonexchange transactions, receivables are recognized when an enforceable legal claim has arisen. Revenues are recognized when resources are required to be used or the first period that use is permitted. For government mandated nonexchange revenues, assets, revenues, liabilities, and expenditures are recognized when all eligibility requirements have been met and (for revenues) resources are available.

Higher Education Funds are generally reported using the accrual basis of accounting. However, revenues and expenditures of an academic term encompassing more than one fiscal year are reported solely in the fiscal year in which the program is predominantly conducted. Also, unconditional pledges of gifts are recorded as receivables and revenues when the higher education institution has met all eligibility requirements and the resources are measurable.

**D. Fiscal Year**

The State fiscal year ends on September 30. One component unit, the Alabama Space Science Exhibit Commission, has the power to set its own fiscal year (Code of Alabama 1975, Section 41-10-307 as amended). The Commission has set its fiscal year to end on the last Sunday in September in order to coordinate its accounting period with the weekly cycle of

campers. The Commission's fiscal year for 2001 ended on September 30.

**E. Cash and Cash Equivalents**

Cash and Cash Equivalents, as reported on the financial statements, are under the control of the State Treasurer or other administrative bodies as determined by law. The cash in all funds operating from the State Treasury is pooled as treasury cash and invested by the State Treasurer. The Treasurer has statutory authority to invest treasury cash in demand accounts or time deposits-open account with any qualified public depository. The Treasurer can also invest up to twenty percent of treasury cash in securities and obligations of the U.S. Treasury or federal agencies for a period of time that may exceed one year. Cash equivalents in the State Treasury consist of short-term repurchase agreements and other allowable time deposits with an original maturity date of three months or less at the date of purchase. Commercial paper is reported as an investment regardless of the original maturity date. For funds operating outside the State Treasury, cash and cash equivalents generally include demand deposit accounts, petty cash accounts, and short-term, highly liquid investments with a maturity date of three months or less when purchased.

**F. Interfund Transactions**

The State accounts for each of the following types of interfund transactions: reimbursements, quasi-external transactions, residual equity transfers, operating transfers, advances, and distributions of revenues from agency funds. Any one of these transactions may result in the reporting of amounts Due To or From Other Funds, Primary Government, or Component Units as of the balance sheet date. Due To or From Other Funds is used only for transactions between two funds of the primary government.

Reimbursements occur when one fund makes an expenditure on behalf of another fund. Reimbursement transactions reduce expenditures in the reimbursed fund and increase them in the reimbursing fund. Quasi-external transactions involve charges for goods or services that one fund sells to another fund. Residual equity transfers are non-routine nonrecurring transfers of equity between funds. Operating transfers include all other interfund transactions such as legislatively appropriated transfers between funds and operating subsidies. Operating Transfers In/Out is used for transactions between two funds of the primary government. Operating Transfers from Primary Government is used as transfers into a component unit that came from the primary government. Operating Transfers from Component Units is used as transfers received in any fund or component unit that came from a component unit. Operating Transfers to

---

Primary Government is used for transfers out of a component unit to the primary government. Operating Transfers to Component Units is used as a transfer from any fund or component unit to a component unit. Advances are loans between funds and are generally long-term in nature. Distributions from agency funds reduce liabilities in the agency fund and increase revenues in the receiving fund.

## **G. Receivables**

In governmental funds, the largest receivables are receivables for income taxes, general sales taxes, utility taxes, insurance premium taxes, general use taxes, unemployment compensation taxes and property taxes as required by GASB Statement 33.

The property tax calendar for the State is simple. The levy date, the assessment date, and the lien date are all the same date – October 1. On October 1, the assessed value of all property is multiplied by the applicable rates to levy the property tax. On that date, the state has a lien (a legal claim) against the property. The property tax is not due until October 1 the following year. The property tax is paid in arrears between October 1 and December 31. After December 31, it is delinquent.

The second largest receivables are amounts due from other governments, consisting almost entirely of grants and reimbursements due from the federal government where collectibility is reasonably assured. Accordingly, no allowance for uncollectible accounts has been established. Amounts due from local governments are not a significant portion of amounts due from other governments.

In governmental funds of the primary government, the State records no significant amount of Accounts Receivable because those types of revenues are generally not susceptible to accrual under the provisions of Amendment 26 to the State's constitution. Amendment 26 affects only those funds operating from the State Treasury under the control of the Comptroller, which includes most of the governmental funds of the primary government. Most of the Accounts Receivable on the balance sheet are recorded in the higher education discretely presented component units, which do not operate from the State Treasury and therefore are not restricted by Amendment 26. The amounts of higher education Accounts Receivable are reported net of any allowance for doubtful accounts. The primary government has minimal amounts of notes and leases receivable, as such agreements would constitute an illegal extension of credit by the State for any fund operating from the State Treasury. Interest and Dividends Receivable includes amounts earned

on investments, notes, mortgages and loans receivable. The largest of these amounts are due to the pension funds operated by the Retirement Systems of Alabama.

Mortgages, Notes, and Loans Receivable consists primarily of loans made by the Alabama Housing Finance Authority. The mortgage loans of the Authority are carried at their unpaid principal balances less an allowance for loan losses. Also included in this category are student loans owed to the Alabama Higher Education Loan Corporation. The loans are reported net of an allowance for uncollectible loans.

Due From Other Governments as reported in the component units consist almost entirely of amounts owed by local governments. Most of the amount consists of loans made by the Alabama Water Pollution Control Authority.

## **H. Inventories**

Inventories of supplies in governmental funds are reported at cost using the purchases method. An inventory asset account is reported on the balance sheet with an offset to Reserved for Inventory. Inventories of materials and supplies of proprietary funds are determined by both physical counts and through perpetual inventory systems and are valued at the lower of cost or market. Valuation methods used by the proprietary and governmental funds include first-in first-out, average cost, weighted average, and retail inventory method.

Surplus supplies, materials, and property from state agencies and the federal government are recorded as inventory at historical cost in two internal service funds. The market value of the inventory in the surplus property funds is significantly lower than the historical cost because of the age and condition of the items.

## **I. Investments**

Investments as reported on the combined balance sheet include long-term investments. As required by GASB 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", most investments are recorded at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Short-term investments are reported at cost, which approximates fair value. Mortgage-backed securities are reported based on future principal and interest payments discounted at the current interest rate for similar instruments. The fair value of real estate investments is based on independent appraisals. No investments are recorded at amortized cost.

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

**J. Restricted Assets**

Enterprise fund assets required to be held and/or used as specified in bond covenants have been recorded as "Restricted Assets". These assets consist primarily of U.S. Treasury obligations and certificates of deposit. Alabama State Port Authority, as required by bond covenants, maintains a balance in its debt service reserve fund equal to the debt service in any current or subsequent year. Alabama State Port Authority, as required, also maintains a replacement fund for annual or extraordinary repairs, construction, or acquisition of coal handling facilities. State Port Authority's restricted assets for 2001 includes \$12,154,664 in cash and cash equivalents. The Space Science Exhibit Commission, a component unit, has restricted assets that represent the unspent portion of contributions that were restricted for specific purposes. The Commission's restricted assets for 2001 include \$812,799 in cash and cash equivalents.

Most investments, cash, and accrued interest receivable of the Water Pollution Control Authority (WPCA) are restricted by bond indentures for debt service requirements. However, these assets are not presented on the balance sheet as restricted assets since the normal operations of WPCA is to issue bonds, loan the proceeds to municipalities and collect repayments to service the debt.

**K. Fixed Assets**

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the General Fixed Assets Account Group. All purchased fixed assets are valued at cost whenever the historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are valued at the estimated fair market value on the date received. Interest expense incurred during the construction of capital assets is not capitalized in governmental and proprietary funds. However, Higher Education institutions are required to capitalize material amounts of interest expense during the construction of capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Public domain ("infrastructure") general fixed assets consisting primarily of roads and bridges are not capitalized because these assets are immovable and of value only to the State.

Assets in the General Fixed Assets Account Group are not depreciated. Fixed assets for component units reported under governmental fund types are also not depreciated. In those proprietary funds where depreciation expense has been recorded, the depreciation of buildings, equipment, and vehicles is computed using the straight-line method and other generally accepted methods over the estimated useful lives of the assets. The useful life varies greatly according to the needs of each fund, but most buildings use 20 to 30 years, and most equipment falls in the range of 3 to 10 years. Depreciation is not required of the institutions of higher education. However, Auburn University and the three campuses of the University of Alabama system (component units) have elected to record depreciation.

**L. Compensated Absences**

Employees in permanent positions accrue annual leave at a rate of four to nine hours bi-weekly, depending upon their length of service. Upon separation from service, an eligible employee is paid for the actual number of annual leave days he has earned, up to a maximum of 60 days, with the amount being computed on the basis of his daily pay rate at time of separation multiplied by the number of days leave due.

Sick leave is accrued at a rate of four hours bi-weekly. Employees may accumulate up to a maximum of 150 days sick leave. Employees may be compensated for one-half of the maximum accrued sick leave only upon retirement from state service. The employee must have 25 years of service or have attained the age of 60 and have 10 years of service to be eligible to retire. State Troopers must have 25 years of service or have attained the age of 52 and have 10 years of service to be eligible to retire. When a state employee in the classified service dies while in active service to the state, the estate of the deceased employee shall receive a monetary payment of fifty percent of the accrued and unused sick leave, not to exceed 600 hours, which the employee was credited with at the time of his or her death.

The monetary value of accumulated annual and sick leave payable upon termination or retirement is included on a statewide basis in the accompanying financial statements. In the governmental fund types, amounts to be paid from expendable available resources are recognized as current fund liabilities. Current liabilities were determined from actual termination or retirement payments made during the two months following the end of the fiscal year. Amounts not payable from expendable available resources (long-term liabilities) are reported in the General Long-Term Debt Account Group. All amounts related to the proprietary funds, pension trust funds, and higher education funds are recognized in those funds. The current portion of the

---

liabilities was determined using the same methodology used for governmental fund types.

The liability at September 30, 2001, was computed using salary rates effective at that date including the employer's share of social security and Medicare taxes payable and represents annual and sick leave earned up to the allowable ceilings. The sick leave is calculated separately for vested and nonvested employees. Sick leave is subjected to an actuarially determined probability multiplier that the employee will remain to retire and collect sick leave. The probability multipliers are as follows:

	<u>Vested</u>	<u>Nonvested</u>
Public Education Employees	.81	.49
State Employees	.71	.39

For the primary government, the total adjusted liability for annual and sick leave at September 30, 2001, was \$231,084,000 of which \$1,433,000 is reported in governmental funds, \$196,768,000 is reported in the General Long-Term Debt Account Group, \$9,577,000 is reported in Higher Education Funds, and \$23,306,000 is reported in proprietary and pension funds. The component units had a liability of \$83,215,000 making the total liability for the entire reporting entity \$314,299,000. The liability for the colleges and universities (included in the component units), \$61,714,000, is recognized in the higher education funds and has been computed using methodologies applied by each institution.

#### **M. Long-Term Obligations**

Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

#### **N. Fund Equity**

Contributed capital is recorded in proprietary funds that have received capital grants and/or contributions. The capital grants and contributions are received primarily from the federal government or other state funds.

Reservations of fund equity indicate that a portion of the fund equity is not available for appropriation and

expenditure or is legally segregated for a specific future use. Fund balance designations are established to indicate tentative plans for financial resource utilization in a future period. Such designations reflect managerial plans or intent as distinguished from legally required reserves.

#### **O. Totals (Memorandum Only) Columns**

Totals columns on the general purpose financial statements are captioned "Memorandum Only" to indicate that they are presented only for financial analysis. Data in these columns do not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither are such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

#### **P. New Accounting Pronouncements**

During the current fiscal year, the State implemented GASB Statement 33, "Accounting and Financial Reporting for Nonexchange Transactions". In addition, the State implemented GASB Statement 36, "Recipient Reporting for Certain Shared Nonexchange Revenues". The State also implemented GASB Interpretation 5, "Property Tax Revenue Recognition in Governmental Funds".

## **2 BUDGETARY ACCOUNTING AND REPORTING**

#### **A. Budgetary Process**

Formulation of the budget begins with the preparation of estimates of expenditure requirements for the next fiscal year by the administrative head of each budgeted agency and institution. These estimates are submitted annually to the Executive Budget Office of the Finance Department on or before the first day of the third month preceding each regular session of the Legislature. The budget is prepared by program elements for each agency. Requested changes in programmatic expenditures over the prior fiscal year must be explained, and proposed capital expenditures must be justified as required by the Executive Budget Office.

The budget document, as finally developed by the Governor, is published and transmitted to the Legislature on or before the second legislative day of each regular session. For each agency, comparative summaries of appropriations and revenues are presented for the prior year, current year, the agency's request for the next year, and the Governor's recommendation for the next year. The recommended

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

---

appropriation bills indicate the programmatic appropriation to each agency and the source of funds from which each appropriation is to be paid. The Legislature then legally enacts the State budget into law through the passage of a number of bills as Appropriation Acts. The Legislature made supplemental appropriations to several departments during 2001, but none were material.

The Appropriation Acts budget by agency and program rather than by GAAP basis funds. The State funds its budgetary activities under three budgetary fund groups. The first is the General Fund, which includes many of the general operations of the three branches of government. The second is the Education Trust Fund (ETF), which is restricted to funding all levels of educational activity in the State. The third budgetary group is referred to in the budget documents as Earmarked Funds. The Earmarked Funds group includes the operations of most governmental funds of both the primary government and the component units, as well as portions of some proprietary and fiduciary operations.

The Appropriation Acts do not include a revenue budget. At the time of their passage, estimates prepared by legislative and executive branch professional staff assures the legislature that adequate revenues will be available to meet the level of appropriations approved. The Appropriation Acts specify that in addition to the appropriations made, all gifts, grants, or contributions in excess of the amount appropriated are automatically appropriated to be used for the purposes specified in the grant.

Numerous statutes exist which restrict the use of most state revenue sources to specific uses. The General Fund is funded by a wide variety of taxes, licenses, and interest income. The ETF is funded primarily by income taxes and sales taxes. The Earmarked Funds are generally funded by a combination of federal funds, local funds, and specific taxes and licenses. State law also requires that if revenues actually received are inadequate to fund the appropriations, then the appropriations must be prorated to the level that the revenues will support. For the Combined Statement of Revenues, Expenditures, and Other Changes in Fund Balances - Budget and Actual, the budgeted revenues consist of the amount of budgeted expenditures allocated among the revenue categories in proportion to the actual amounts received.

## **B. Budgetary Control**

The legal level of control is the agency and program specified in the Appropriation Acts. For example, "Lab Analysis and Disease Control" and "Agricultural Inspection Services" are two programs within the agency Agriculture

and Industries. Below this legal level of control, the professional management of the Finance Department, under the authority of the Governor's policy, exercises budgetary control at the fund and object level. Each agency must submit an operations plan detailing planned expenditures down to the object level, and then must follow that plan or explain why a change must be made. Allotments of appropriations are made quarterly based on the plans of operations submitted by the agencies. Beyond these additional policy constraints, agencies have full authority for administering their appropriations.

The Department of Finance enforces both the legal level and the professional management level of budgetary control through automated edits which must be complied with before making expenditures against an appropriation. A change between objects within appropriations for programs (financial management level) must have the approval of the Budget Officer and the Finance Director.

The Budget Management Act legally authorizes the transfer of appropriations between programs within an agency with the approval of the Governor. Any transfers approved by the governor must be reported to the Legislature. Transfers between agencies, but within the same program, may be made pursuant to interagency agreements executed for the purposes of accomplishing the objectives for which the Legislature made the appropriation. These interagency agreements must also be approved by the Governor. Under the Budget Management Act, the Governor cannot create new budget authority, he can only transfer existing authority.

Both the *Alabama Constitution* and the statutes require a balanced budget for annual financial operations. The Finance Department monitors revenue projections during the year to ensure that adequate funds will be available to meet budgeted expenditures. If cash collections do not meet budget projections, the Governor is required to prorate appropriations and restrict allotments to prevent an overdraft or budget deficit in any fiscal year. The General Fund was not prorated in 2001, but the Education Trust Fund was prorated by 6.2% in 2001.

## **C. Encumbrance Accounting**

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting is used as purchase orders are issued to insure that purchase orders plus expenditures do not exceed allotment balances. At fiscal year end this control becomes stricter, as purchase orders plus any other obligations or accounts payable incurred against fiscal year appropriations may not exceed allotment balances.

---

Encumbrances outstanding at year end in governmental funds are reported on the GAAP basis statements as a reservation of fund balance. Encumbrance balances are reported on the budgetary basis statements as expenditures.

#### **D. Lapsing of Appropriations**

All balances of non-capital outlay appropriations not reserved by encumbrances or accounts payable lapse at September 30 of each fiscal year. Furthermore, any appropriation balance not reserved by encumbrances lapses at November 30 following each fiscal year. Encumbrances remain valid for a period of one year following the end of the fiscal year. Balances of encumbrances are reported on the Combined Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual as expenditures. Capital outlay appropriations for the purchase of land, the construction of buildings, or for the maintenance of roads and bridges of the state highway system continue until the completion of the project.

#### **E. Budgetary Basis of Accounting**

The State budgets and operates primarily on the budgetary basis which approximates the cash basis with certain material exceptions. During the fiscal year, encumbrances, which represent obligations against current fiscal year appropriations, are accrued. At year end, fund balances are reserved to accrue expenditures for those outstanding encumbrances and estimated accounts payable. In compliance with Amendment 26 to the *Constitution*, the total reservation may not exceed the cash on hand in the State Treasury. Therefore, at year end, cash always exceeds obligations (encumbrances and estimated accounts payable). The Combined Statement of Revenues, Expenditures, and Other Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) presents comparisons of the adopted budget with actual data on a budgetary basis. The budget excludes funds for all entities operating outside the State Treasury, certain distributive accounts such as those for making distributions to local governments, and most debt service accounts. Since the accounting principles used in the State's budgetary basis of accounting differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of the differences is presented on the statement. A Detail Schedule of Budget and Actual Expenditures appears in the Supplemental Schedules Section of the CAFR. This schedule provides detail information at the legal level of control for each individual appropriation item contained in the budget.

## **3 DEPOSITS AND INVESTMENTS**

### **A. Deposits**

The Treasurer has statutory authority to deposit treasury cash in demand accounts or time deposits - open account with any qualified public depository. The Treasurer may also invest up to twenty percent of treasury cash in securities and obligations of the U.S. Treasury or federal agencies for a period of time that may exceed one year. Funds may also be invested in obligations of the United States or its agencies under a repurchase agreement for a shorter period of time than the maturity date of the security.

Deposits of both the primary government and its component units are entirely insured by Federal depository insurance or insured under the Security for Alabama Funds Enhancement (SAFE) program. The *Code of Alabama 1975* requires all State organizations, including component units, to participate in the SAFE program. The SAFE program is a multiple financial institution collateral pool. The SAFE program requires all public funds to be deposited in a financial institution designated by the State Treasurer as a qualified public depository. Each qualified public depository is required to pledge collateral in accordance with the rules established by the SAFE Board of Directors. In the event that a qualified public depository defaults or becomes insolvent and the pledged collateral is insufficient to satisfy the claims of public depositors, the *Code of Alabama 1975*, Section 41-14A-9(3) authorizes the State Treasurer to make assessments against the other qualified public depositories in the pool so that there will be no loss of public funds.

### **B. Allowable Investments**

Investments are made in accordance with the statutes creating the various agencies of the State of Alabama. The following describes the investments made by the major investing agencies of the State:

#### **1. Primary Government**

State Treasurer - The State Treasurer may legally invest state funds in repurchase agreements, obligations of the U.S. Treasury, federal land bank bonds, federal home loan bank notes and bonds, Federal National Mortgage Association

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

---

notes, and debentures or obligations guaranteed by the U.S. government.

Alabama Heritage Trust Fund (AHTF) and Alabama Trust Fund (ATF) – Investments are limited to those authorized by law for the Retirement Systems of Alabama. The investments authorized for the Retirement Systems are described later in the section entitled "Component Units".

Prepaid Affordable College Tuition Program (PACT) - Assets of PACT constitute public funds of the State and may be invested in any instrument, obligation, security or property that constitutes legal investments for investment of public funds in the State, including legal investments of the State Treasurer, the Alabama Trust Fund and Heritage Trust Fund that are deemed most appropriate by the PACT board and may be pooled for investment purposes with any other investment of the State which is eligible for asset pooling.

## 2. Component Units

Retirement Systems of Alabama (RSA) - The Retirement Systems of Alabama administers the Teachers' Retirement System, Employees' Retirement System, and Judicial Retirement Fund. RSA may invest in any types of investments that the Board of Control of each individual system approves. Each Board is limited only by the "Prudent Man Rule" which requires it to use due care, skill, prudence, and diligence under the prevailing circumstances that a prudent man acting in a like capacity and familiar with such matters would use in investing.

Alabama Water Pollution Control Authority (AWPCA) The AWPCA is authorized to invest in (a) any debt securities that are direct or general obligations of the U.S.; (b) any debt security unconditionally guaranteed (principal and interest) by the U. S.; and (c) repurchase agreements collateralized by securities of the type described in (a) and (b) above or with any registered broker/dealer subject to the Securities Investors' Protection Corporation jurisdiction or any commercial bank, if such broker/dealer or bank has an uninsured, unsecured, and unguaranteed obligation rated "Prime-1" or "A3" or better by Moody's Investor Service, Inc., and "A-1" or "A-" or better by Standard & Poor's Corporation.

Alabama Housing Finance Authority (AHFA) - The Authority is authorized to invest in bonds or other obligations issued or guaranteed by the U.S. Government, or any agency thereof, or the State of Alabama. In addition, the Authority may invest in interest-bearing bank and savings and loan association deposits, any obligations in which a State-chartered savings and loan association may invest its

funds, any agreement to repurchase any of the foregoing, or any combination thereof. Each of the trust indentures established under the Authority's mortgage revenue bond programs contain further restrictions on the investment of non-expended bond proceeds; however, each trust indenture must be consistent with the Authority's authorizing legislation with respect to the definition of eligible investments. The Authority's program investments consist of Government National Mortgage Association (GNMA) or Federal National Mortgage Association (FNMA) pass-through certificates, all of which are pledged as security for the mortgage revenue bonds.

Other investments include unexpended bond proceeds, temporary and reserve funds established under the provisions of various trust indentures, and investments of the Authority's operating fund.

Deferred Compensation Plan RSA-1 - A deferred compensation plan is administered by the Retirement Systems of Alabama (RSA). The plan is named the Public Employees' Individual Retirement Account/Deferred Compensation Plan, and is commonly referred to as RSA-1. By law, RSA-1 investments are made under the same rules, regulations, conditions, and guidelines governing the RSA.

Higher Education Loan Corporation - The bond trust indentures authorize the Corporation to invest bond proceeds only in certain types of investments including, but not limited to: (1) direct obligations of, or obligations unconditionally guaranteed by, the United States government; (2) bank demand deposits and certificates of deposit insured by the Federal Deposit Insurance Corporation or fully secured by obligations with the same characteristics as those described in items (1) above or (3) below; (3) obligations of or guaranteed by any agency or instrumentality of the U. S. government; (4) obligations with the same characteristics as those described in items (1) and (3) above held by the Trustee under written agreement whereby a bank or trust company agrees to repurchase the obligations, providing that the market value of such obligations, as determined monthly, is always at least equal to the repurchase prices specified in the agreement; (5) money market funds consisting solely of securities similar to those described in items (1), (3), and (4) above; (6) guaranteed investment contracts and, (7) any other investments or obligations consented to by the bond insurance provider.

Investments Made by Colleges and Universities - The colleges and universities invest funds in accordance with the applicable limits set forth in the gift instruments, Board of Trustees guidelines, or other applicable laws. Certain bond

---

indentures require that the bond funds invest all amounts in federal securities or eligible certificates. In accordance with GASB 31, most investments are stated at fair value.

### **C. Securities Lending Program**

The Teachers' Retirement System (TRS), the Employees' Retirement System (ERS), and the Judicial Retirement Fund (JRF) are authorized by the Boards of Control to participate in a securities lending program. The Systems' custodian, J P Morgan Chase and Company, administers the program. Certain securities from the TRS, ERS, and JRF are loaned to borrowers approved by the Systems. Approved borrowers of securities provide acceptable collateral in the form of cash, U.S. Treasury securities, or U.S. Government Agency securities. All security loans are open loans and can be terminated on demand by the TRS, ERS, JRF, or borrower. At the inception of each loan, collateral must be provided in the amount of 105% and 102% of the fair value of the loaned securities for international and U.S. equity securities, respectively. Subsequently, collateral for each loan is allowed to fluctuate between the initial required percentage and 100% of the fair value of the loaned securities. If the fair value of the collateral falls below 100% of the fair value of the loaned securities, additional collateral is required to restore the collateralized amount to the initial required collateralization. All collateral remains in the exclusive possession of the Systems' custodial agent who is responsible for marking the collateral to market each day and ensuring that the loaned securities are properly collateralized at all times. The TRS, ERS, and JRF cannot pledge or sell collateral securities received unless the borrower defaults. Therefore, securities lent that are collateralized by other securities are categorized in the investment credit risk table based on how the collateral received is held. The securities received as collateral are not categorized since these securities cannot be sold or pledged without borrower default.

Cash collateral is invested in a dedicated short-term investment fund in the respective Systems' name using investment guidelines provided by the TRS, ERS, and JRF. As a result, the securities purchased with cash collateral are categorized in the investment credit risk tables based on how they are held. The securities lent are included in the investment credit risk tables in the "Investments Not Categorized" section of the table. As of September 30, 2001, the cash collateral investments had a weighted-

average maturity of eleven days for the TRS, nine days for the ERS, and three days for the JRF. Also, the average term of the loans was three days for the TRS, ERS, and JRF. There is no direct matching of the maturities of the loans with the investments made with cash collateral.

At September 30, 2001, the fair value of the securities on loan was \$553,969 for the TRS, \$224,693 for the ERS, and \$5,566 for the JRF. The fair value of the collateral pledged by the borrowers was \$562,638 for the TRS, \$228,450 for the ERS, and \$5,597 for the JRF. Since the amounts owed by the TRS, ERS and JRF to borrowers exceeded the amounts the borrowers owed to the TRS, ERS, and JRF, there was no credit risk exposure as of September 30, 2001. There were no significant violations of legal or contractual provisions, no borrower or lending agent default losses, and no recoveries of prior period losses during the year.

### **D. Mortgage-backed Securities**

The Retirement Systems of Alabama periodically invests in mortgage-backed securities to improve yield and adjust the duration of the Systems' fixed income portfolio. These securities are subject to change in value due to changes in interest rates. Credit risk (the risk that counterparty might be unable to meet its obligations) results from the same considerations as other counterparty risk assumed by the Systems.

### **E. Investment Credit Risk**

The tables on the following page summarize the carrying and fair value of the State's investments by type and categorizes the investments by level of credit risk as follows:

Category 1 - Insured or registered, or securities held by the State or its agent in the State's name.

Category 2 - Uninsured or unregistered, with securities held by the counterparty's trust department or agent in the State's name.

Category 3 - Uninsured or unregistered, with securities held by the counterparty, or its trust department or agent, but not in the State's name.

Investments not required to be categorized are presented "below the line," followed by reconciling items between this note and the total investments as shown on the balance sheet.

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

**5 LONG-TERM DEBT****A. Debt Limitations and Methods of Bond Issuance**

Under Section 213 of the Constitution of Alabama, as modified by Amendment 26, the State is constitutionally prohibited from incurring debt except to repel invasion or suppress insurrection. Therefore, the only method under which general obligation debt can be incurred is by amendment to the Constitution. Although conventions proposed by the legislature and approved by the electorate may be called for the purpose of amending the Constitution, historically all amendments have been adopted by a procedure which requires them to be proposed by a three-fifths majority of each house of the legislature and thereafter ratified by a majority of the electorate.

The Supreme Court of Alabama has ruled that the debt prohibition does not apply to debts incurred by separate public corporations functioning as State instrumentalities. The State has followed the practice of financing certain capital improvements by issuing debt through such public corporations. The Legislature (through enabling legislation) and the Governor (by executive order) have created public corporations and authorities of the State for the purpose of financing projects and programs such as public highways, public educational facilities, judicial buildings, student loans, affordable housing, and other projects. In most instances, State officials such as the Governor, Lieutenant Governor, Attorney General, State Treasurer, and the Director of Finance serve as board members of these corporations. The revenue bonds issued by these corporations are limited obligations of the corporation, not general obligations of the State, and the full faith and credit of the State is not pledged for their repayment. Certain revenues, usually earmarked taxes or revenues generated from the project financed, are pledged for the payment of the debt. Depending on the GASB criteria discussed in Note 1, some of these corporations are reported by blending them with the primary government and some are reported discretely.

The State and its component units issue serial and term bonds and capital appreciation bonds. Capital appreciation bonds are sold at a deep discount and do not pay any interest until the bonds mature. Based on the original offering price, the bonds increase in value as semi-annual interest is earned and is compounded from the original issuance date to the date of maturity. The issuance of this type bond postpones the cash flow until the bonds mature or are called. The increase in the value of the bonds is referred to as accretion.

**B. General Obligation Bonds**

The State has general obligation bond issues outstanding for the purpose of financing capital projects for: state waterways, State Port Authority's facilities, prisons, roads, bridges, mental hospitals, Mobile harbor, State parks, youth services facilities, state buildings, the State Coliseum, public schools and colleges, conservation projects, educational television, and diagnostic and research laboratories. The full faith and credit of the State is pledged for the payment of the bonds. The following schedule shows the general obligation annual debt service requirements and is followed by a detailed table describing each individual general obligation bond issue outstanding:

**GENERAL OBLIGATION BONDS**  
**Debt Service Requirements to Maturity**

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 42,815,000	\$ 19,063,685	\$ 61,878,685
2003	46,035,000	15,587,209	61,622,209
2004	45,005,000	13,185,687	58,190,687
2005	47,100,000	10,871,128	57,971,128
2006	44,702,111	13,055,203	57,757,314
2007-2011	88,457,680	54,392,148	142,849,828
2012-2016	50,180,000	24,080,925	74,260,925
2017-2021	64,195,000	10,015,769	74,210,769
<b>Total</b>	<b><u>\$ 428,489,791</u></b>	<b><u>\$ 160,251,754</u></b>	<b><u>\$ 588,741,545</u></b>

† The liability reported on the balance sheet includes \$4,568,082 for the accretion of interest on capital appreciation bonds. The above table shows interest in the year it is paid, not the year it is accrued.

## GENERAL OBLIGATION BONDS PAYABLE

<u>General Obligation Issue</u>	<u>Date Issued</u>	<u>Final Maturity Date</u>	<u>Interest Rates</u>	<u>Bonds Payable Sept. 30, 2001</u>

<b>Total General Obligation Bonds</b>				<b><u>\$ 433,057,873</u></b>

† The amount outstanding includes \$4,568,082 accretion of interest.

### C. Revenue Bonds

#### 1. Primary Government - General Long-term Debt Account Group

##### ALABAMA INDUSTRIAL ACCESS ROAD AND BRIDGE AUTHORITY

The Alabama Industrial Access Road and Bridge Authority is authorized to issue bonds to finance the construction of industrial access roads and bridges in the state. Revenues from gasoline, motor fuel, and lubricating oil taxes are pledged for the payment of these bonds. The following schedule details the annual debt service funding requirements:

##### Debt Service Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 3,860,000	\$ 566,105	\$ 4,426,105
2003	4,065,000	384,433	4,449,433
2004	2,420,000	187,835	2,607,835
2005	<u>1,305,000</u>	<u>63,945</u>	<u>1,368,945</u>
<b>Total</b>	<b><u>\$ 11,650,000</u></b>	<b><u>\$ 1,202,318</u></b>	<b><u>\$ 12,852,318</u></b>

#### ALABAMA CORRECTIONS INSTITUTE FINANCE AUTHORITY

The Alabama Corrections Institution Finance Authority issues bonds for the purposes of acquiring land and constructing correctional institutions. The bonds are payable from revenues derived from payments under a lease agreement between the Authority and the Department of Corrections. The following schedule details the annual debt service funding requirements:

##### Debt Service Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 4,755,000	\$ 1,971,985	\$ 6,726,985
2003	4,995,000	1,743,745	6,738,745
2004	5,250,000	1,498,990	6,748,990
2005	5,520,000	1,236,490	6,756,490
2006	5,810,000	954,970	6,764,970
2007-2011	8,000,000	2,432,375	10,432,375
2012-2013	<u>3,870,000</u>	<u>322,300</u>	<u>4,192,300</u>
<b>Total</b>	<b><u>\$ 38,200,000</u></b>	<b><u>\$ 10,160,855</u></b>	<b><u>\$ 48,360,855</u></b>

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

**ALABAMA JUDICIAL BUILDING AUTHORITY**

The Alabama Judicial Building Authority issues bonds for the purpose of funding the acquisition and construction of judicial facilities. The bonds are payable from revenues and receipts paid by the Judicial System pursuant to the lease, proceeds of insurance in the event of damage or destruction of the facilities, amounts, if any, received in the event of condemnation of the facilities, amounts payable by AMBAC under the Municipal Bond Insurance Policy, and earnings, if any, on funds held by the State Treasurer. The following schedule details the annual debt service funding requirements:

**Debt Service Requirements to Maturity**

<b>Maturity</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>
2002	\$ 1,657,461	\$ 2,316,959	\$ 3,974,420
2003	1,533,663	2,436,707	3,970,370
2004	1,439,400	2,531,715	3,971,115
2005	3,700,000	276,055	3,976,055
2006	3,880,000	94,090	3,974,090
2007-2011	10,502,904	9,372,096	19,875,000
2012-2014	4,691,535	6,903,465	11,595,000
<b>Total</b>	<b>\$27,404,963</b> †	<b>\$23,931,087</b>	<b>\$51,336,050</b>

† The liability reported on the balance sheet includes \$9,350,933 for the accretion of interest on capital appreciation bonds. The above table shows interest in the year it will be paid, not the year it is accrued.

**ALABAMA PUBLIC HEALTH CARE AUTHORITY**

The Alabama Public Health Care Authority issues bonds for the purpose of funding the acquisition and construction of public health care facilities. Revenues received from leases with the county health departments, income from investments, real property, equipment, cash, securities, and a policy of municipal bond insurance are pledged for the payment of principal and interest on the bonds. The following schedule details the annual debt service funding requirements:

**Debt Service Requirements to Maturity**

<b>Maturity</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>
2002	\$ 530,000	\$ 1,762,075	\$ 2,292,075

2007-2011	20,795,000	9,034,326	29,829,326
2012-2014	21,785,000	2,167,138	23,952,138
<b>Total</b>	<b><u>\$58,350,000</u></b>	<b><u>\$25,178,784</u></b>	<b><u>\$ 83,528,784</u></b>

# STATE OF ALABAMA

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

### ALABAMA BUILDING RENOVATION FINANCE AUTHORITY

The Alabama Building Renovation Finance Authority issues bonds to provide funding for the renovation, reconstruction, operation, and maintenance of public office buildings in the state capitol complex. The Authority also receives income from the rental of the office buildings to state agencies. The bonds issued by the Authority are payable from the rents received by the authority under lease agreements. The following schedule details the annual debt service funding requirements:

#### Debt Service Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 860,000	\$ 1,955,979	\$ 2,815,979

#### ALABAMA PUBLIC SCHOOL AND COLLEGE AUTHORITY

The Alabama Public School and College Authority (APSCA) is authorized to issue bonds to construct and improve educational buildings. Revenue from the sales and use taxes, the leasing tax, and the utilities gross receipts and use taxes are pledged for the payment of these bonds. The following schedule details the annual debt service funding requirements:

### 4. Component Units- Governmental Funds

#### ALABAMA INCENTIVES FINANCE AUTHORITY

The Alabama Incentives Finance Authority issues bonds to fund financial commitments to industries relocating to Alabama under the terms of the State's Industrial Incentives legislation. Revenues from the Tennessee Valley Authority to the State "in lieu of taxes" are pledged for the payment of these bonds. At September 30, 2001, the outstanding principal balance of the 1995B bonds was \$32,865,000 which included \$2,865,000 in accreted interest, and the outstanding principal balance of the 1999C bonds was \$41,475,000. The interest rates for the Series 1995B bonds and the Series 1999C bonds are variable and conditional depending on a variety of factors, therefore no schedule of debt service requirements to maturity is possible.

#### Debt Service Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 57,480,000	\$ 70,860,049	\$ 128,340,049

2026-2030	8,540,000	1,205,875	9,745,875
<b>Total</b>	<b><u>\$ 1,339,655,000</u></b>	<b><u>\$ 715,108,586</u></b>	<b><u>\$ 2,054,763,586</u></b>

# STATE OF ALABAMA

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

### STATE INDUSTRIAL DEVELOPMENT AUTHORITY

State Industrial Development Authority issues bonds for the purpose of financing projects that promote the industrial development of the State. Revenues from cigarette and tobacco taxes are pledged for the payment of these bonds. The following schedule details the annual debt service funding requirements:

#### Debt Service Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 2,470,000	\$ 1,056,595	\$ 3,526,595
2003	2,700,000	869,490	3,569,490
2004	2,800,000	730,540	3,530,540
2005	2,950,000	585,265	3,535,265
2006	3,050,000	459,265	3,509,265
2007-2010	7,830,000	549,590	8,379,590
<b>Total</b>	<b>\$ 21,800,000</b>	<b>\$ 4,250,745</b>	<b>\$ 26,050,745</b>

### ALABAMA MENTAL HEALTH FINANCE AUTHORITY

The Alabama Mental Health Finance Authority issues bonds for the acquisition, construction, improvement, and equipping of mental health facilities. Revenues from certain tobacco and liquor taxes are pledged for the payment of principal and interest on these bonds. The following schedule details the annual debt service funding requirements:

#### Debt Service Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 4,895,000	\$ 2,789,200	\$ 7,684,200
2003	5,090,000	2,550,569	7,640,569
2004	5,400,000	2,302,431	7,702,431
2005	5,590,000	2,032,431	7,622,431
2006	5,975,000	1,752,931	7,727,931
2007-2011	21,915,000	4,231,788	26,146,788
2012-2015	5,755,000	812,350	6,567,350
<b>Total</b>	<b>\$ 54,620,000</b>	<b>\$ 16,471,700</b>	<b>\$ 71,091,700</b>

### ALABAMA 21<sup>st</sup> CENTURY AUTHORITY

The Alabama 21<sup>st</sup> Century Authority issues bonds for the purpose of promoting economic development and industrial recruitment for the State of Alabama. The bonds are special obligations of the Authority payable solely from the Trust Estate created under the Indenture. The following schedule details the annual debt service funding requirements:

#### Debt Service Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 1,460,000	\$ 2,750,720	\$ 4,210,720
2003	1,535,000	2,672,101	4,207,101
2004	1,615,000	2,589,414	4,204,414
2005	1,700,000	2,502,395	4,202,395
2006	1,790,000	2,411,903	4,201,903
2007-2011	10,415,000	10,553,646	20,968,646
2012-2016	13,490,000	7,348,328	20,838,328
2017-2021	17,995,000	2,710,363	20,705,363
<b>Total</b>	<b>\$ 50,000,000</b>	<b>\$ 33,538,870</b>	<b>\$ 83,538,870</b>

### TENNESSEE VALLEY EXHIBIT COMMISSION

The Tennessee Valley Exhibit Commission issued bonds for the purpose of funding the Tennessee Valley Exhibit Center. The full faith and credit of the State do not back these revenue bonds. The principal and interest requirements on these bonds are payable from the revenues of the Commission. If these revenues are insufficient, then the "in lieu of taxes" payments made to the State by the Tennessee Valley Authority are used to pay the debt. The following schedule details the annual debt service funding requirements:

#### Debt Service Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 310,000	\$ 189,250	\$ 499,250
2003	330,000	170,340	500,340
2004	355,000	149,880	504,880
2005	375,000	127,515	502,515
2006	400,000	103,515	503,515
2007-2010	1,145,000	151,755	1,296,755
<b>Total</b>	<b>\$ 2,915,000</b>	<b>\$ 892,255</b>	<b>\$ 3,807,255</b>

**Debt Service Requirements to Maturity**

**ALABAMA REVOLVING LOAN FUND AUTHORITY**

The Alabama Revolving Loan Fund Authority issues bonds for the purpose of making grants to the Regional Planning and Development Commissions which are utilized by the grantees as revolving loan funds. Revenues from privilege and license tax on providers of cellular radio telecommunication services are used to pay the debt. The following schedule details the annual debt service funding requirements:

<b>Maturity</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>
2002	\$ 270,000	\$ 950,516	\$ 1,220,516

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

### 5. Component Units - Proprietary Funds

#### ALABAMA HOUSING FINANCE AUTHORITY

The Alabama Housing Finance Authority issues bonds that are limited obligations of the Authority and are not a debt or liability of the State. Each bond issue is secured, as described in the applicable trust indenture, by all revenues, monies, investments, mortgage loans, and other assets in the funds and accounts of the program. Substantially all of the Authority's assets are pledged as security for the bonds. Principal payments on bonds after 2002 are scheduled as follows:

#### Debt Principal Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>
2002	\$ 19,926,000
2003	22,191,000
2004	42,371,000
2005	25,818,000
2006	23,648,000
2006-2038	978,753,000
Total	1,112,707,000
Unamort Disc	(1,000)
<b>Net</b>	<b><u>\$ 1,112,706,000</u></b>

#### WATER POLLUTION CONTROL AUTHORITY

The Alabama Water Pollution Control Authority issues bonds to provide funds for the purpose of making loans to certain local government units to construct sewage treatment plants and related facilities. Proceeds from loan agreements are used for payment of debt service related to the bonds. The following schedule details the annual debt service funding requirements:

#### Debt Service Requirements to Maturity

<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2002	\$ 22,420,000	\$ 31,340,011	\$ 53,760,011
2003	25,120,000	30,204,536	55,324,536
2004	25,680,000	28,905,270	54,585,270
2005	26,970,000	27,575,815	54,545,815
2006	28,480,000	26,154,076	54,634,076

**ALABAMA SPACE SCIENCE  
EXHIBIT FINANCE AUTHORITY**

The Alabama Space Science Exhibit Finance Authority issued bonds to finance the construction of the Space Camp and related housing facilities for the campers. The bonds are secured by a lease of the facilities to the Space Science Exhibit Commission as well as a pledge of all revenues of the Commission. The following schedule details the annual debt service funding requirements:

**Debt Service Requirements to Maturity**

<b>Maturity</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>

**ALABAMA HISTORIC IRONWORKS  
COMMISSION**

The Governmental Utility Services Corporation of Jefferson County - Tannehill Historical State Park was created for the purpose of issuing bonds to acquire and construct a sanitary sewer system and related facilities for the Tannehill State Park, which is operated by the Alabama Historic Ironworks Commission (formerly Tannehill Furnace and Foundry Commission). Three members of the Alabama Historic Ironworks Commission serve as directors of the corporation. The Commission also issued a bond to cover the cost of improvements to the state park and other historic sites operated by the Commission. Revenues of Tannehill State Park are pledged for payment of all bond principal and interest. The following schedule details the annual debt service funding requirements:

**Debt Principal Requirements to Maturity**

<b>Maturity</b>	<b>Principal †</b>
2002	\$ 25,000
2003	25,000
2004	<u>15,246</u>
<b>Total</b>	<b>\$ 65,246</b>

† The Commission has issued both fixed and variable rate bonds, therefore the annual requirements for the payment of interest in future years is not available.

**ALABAMA HIGHER EDUCATION  
LOAN CORPORATION**

The Alabama Higher Education Loan Corporation issues bonds to provide Alabama lending institutions with a secondary market for student loans made under the Higher Education Act, which established the federal Guaranteed Student Loan Program. The corporation issues tax-exempt revenue bonds in order to fund its operations. The proceeds are used to purchase student loans and fund operating costs of the corporation. The bonds are repaid from principal repayments on student loans, interest, and special allowance payments from the U. S. Department of Education, interest income from investments, guarantee payments on defaulted loans, proceeds from any sale of loans, issuance of refunding bonds, and if necessary, by drawing on the corporation's irrevocable letters of credit. The following schedule details the annual debt service funding requirements:

**Debt Principal Requirements to Maturity**

<b>Maturity</b>	<b>Principal †</b>

## 6. Component Units - Higher Education

The boards of the various institutions of higher education have numerous bond issues outstanding for a variety of purposes. Most were issued for the construction, renovation, and acquisition of buildings for various purposes, including classrooms, research facilities, dormitories, student centers, dining facilities, hospitals, and athletic facilities. The following table shows the total principal outstanding by institution:

### INSTITUTIONS OF HIGHER EDUCATION

<u>Institution</u>	<u>Principal</u>
University of Alabama - Tuscaloosa	\$ 80,665,000
University of Alabama - Birmingham	555,831,507

**Total Reporting Entity** **\$ 5,480,120,428**

## E. Refunded and Redeemed Bonds

Advance refunding bonds are issued to retire existing bonds. A portion of the proceeds from the sale of the refunding bonds is deposited with an escrow agent according to an escrow trust agreement. The proceeds are invested by the escrow agent in certain U.S. Treasury obligations in such amounts with certain maturities to provide sufficient funds to pay the remaining maturing principal and interest on the refunded bonds as they become due. The refunded bond debt is considered to be retired for financial reporting purposes even though the debt is still legally outstanding and the issuer of the bonds has not been released from the debt obligations. The U.S. Treasury obligations constitute a trust fund to be held by the escrow agent for the benefit of the holders of the refunded bonds. Advance refundings and early redemptions are discussed in the remainder of this section.

In May 2001, Auburn University issued \$19,460,000 Series 2001 General Fee Revenue Bonds which bear interest at 3.25% to 4.45%. The Series 2001 net proceeds were used to currently refund \$18,350,000 of outstanding 1991 General Fee Revenue bonds. This current refunding resulted in an accounting loss of \$967,958. The University has economic gain of \$1,811,403.

The Alabama Space Science Exhibit Commission/Alabama Space Science Exhibit Finance Authority issued \$9,955,000 Series 2001 variable rate term bonds. The net proceeds plus additional funds were used to retire the \$11,900,000 1999 Certificates of Participation. The refunding resulted in a difference between the amount of refunding bonds and the

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

net carrying amount of the Certificates of \$727,391. The difference is charged to operations through the year of final maturity date of the refunding bonds using the straight-line method. The refunding reduces total related budgeted debt service payment over 22 years by approximately \$10,712,000 and obtains an economic gain of approximately \$8,321,000.

During the year ended September 30, 2001, the Alabama Housing Finance Authority called approximately \$128,582,000 of bonds in advance of their scheduled maturities. The extraordinary loss on early retirement of these bonds is \$705,000 and is primarily comprised of unamortized deferred debt financing costs and unamortized discount.

**DEFEASED BONDS**

<b><u>Primary Government</u></b>	<b><u>Principal</u></b>
State Port Authority	
Seaport Facility Revenue Bonds	1,665,000
<b><u>Component Units</u></b>	
Housing Finance Authority	35,995,000
Auburn University	2,030,000
University of Alabama in Tuscaloosa	10,540,000
University of Alabama in Birmingham	145,000
University of South Alabama	13,170,000
University of North Alabama	2,395,000

**F. Arbitrage**

The Tax Reform Act of 1986 requires that governmental entities issuing tax-exempt debt subsequent to August, 1986, to calculate and rebate arbitrage earnings to the federal

government. The U.S. Treasury has issued regulations on calculating the rebate amount and complying with the provisions of the Tax Reform Act of 1986. Governmental issuers must comply with the rebate regulations in order for their bonds to maintain tax-exempt status.

The regulations require the excess of the aggregate amount earned on investments purchased with bond proceeds over the amount that would have been earned if the proceeds were invested at a rate equal to the bond yield to be rebated to the federal government. Income earned on excess earnings is also subject to rebate. Rebate payments, if required, are due at least once every five years over the life of the bonds. Bond issues with arbitrage liabilities outstanding at September 30, 2001, were as follows:

<b><u>Primary Government</u></b>	<b><u>Amount</u></b>
Public Health Care Authority	
Series 1996	7,056
<b><u>Component Units</u></b>	
Alabama Public School and College Authority	
Series 1999-D	1,501,413
Water Pollution Control Authority	2,428,206
Drinking Water Finance Authority	542,008
Alabama Higher Education Loan Corp.	7,006,511

These lists are based upon incomplete data since some bond issues have not yet been included in arbitrage calculations. Any refunded bond issue is subject to the rebate requirement until the last bond is redeemed. Bond issues that have already been redeemed may be subject to additional payments if an arbitrage rebate or spending payment is owed and has not been paid.

## G. Bonds Authorized But Not Issued

### Bonds Authorized But Not Issued (Amounts in Thousands)

<b>Total Reporting Entity</b>	<b>\$ 1,031,995</b>	<b>\$ 153,235</b>	<b>\$ 878,760</b>

† The State Industrial Development Authority is authorized to issue a total of \$100,000,000 in bonds in addition to any bonds authorized prior to 1991.

No more than \$40,000,000 in aggregate principal amount of such bonds may be outstanding at any one time. At 9/30/01, \$23,395,000 was outstanding.

## H. Forward Delivery Agreements

In September 1994, the Alabama Public School and College Authority (APSCA) and the Alabama Industrial Access Road and Bridge Authority (AIARBA) each entered into debt service forward delivery agreements with Merrill Lynch Capital Services, Inc. (MLCS). Under the agreements, the APSCA received \$9,800,000 and the AIARBA received \$1,084,841. In exchange for the above amounts, each Authority agreed to deposit one-sixth of the semi-annual interest and one-twelfth of the annual principal payable on certain bonds to MLCS each month. MLCS agreed in turn to deliver qualified securities that will mature on or before the bond payment dates. Because the interest that normally would be earned on these deposits belongs to the General Fund, the \$10,884,841 paid by MLCS was deposited in the General Fund. The Forward Delivery Agreements are

reported in the General Long-Term Debt Account Group as Other Liabilities. The Agreements are being amortized on a straight-line basis over twelve years. This amortization is reflected in the General Fund as debt service expenditure and interest revenue.

## I. Claims and Judgments

A judgment was entered against the State in favor of Alabama State University and Alabama A&M University. The State must pay each University \$1,000,000 for the next nine years. The amount outstanding of \$18,000,000 is reported in the General Long-Term Debt Account Group as Other Liabilities.

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

## 6 FUND EQUITY RESTATEMENTS, RESERVATIONS AND DEFICITS

### A. Beginning Fund Equity Restatements

Fund balances as of October 1, 2000, have been restated for certain accounting changes necessary to conform to Generally Accepted Accounting Principles. The largest restatement resulted from the implementation of GASB Statement 33 "Accounting and Financial Reporting for Nonexchange Transactions". The Workers' Compensation Escrow Fund was reclassified from Expendable Trust to Agency, resulting in a decrease of \$127,000 in the Trust and Agency beginning fund balance. A program of the Alcoholic Beverage Control Board was reclassified from Special Revenue to Enterprise, resulting in a change of \$180,000 in those two fund types.

	General Fund	Special Revenue	Debt Service	Enterprise	Internal Service	Trust & Agency Funds	Higher Education	Component Units

### B. Proprietary Funds – Changes in Contributed Capital

The primary government enterprise fund contributed capital increased by \$103,000 for fixed assets donated to the Alcoholic Beverage Control Board. The primary government internal service fund contributed capital increased by \$8,000 for fixed assets donated to the Service Division. The primary government internal service fund contributed capital increased by \$460,000 for real estate donated to Risk Management. The real estate is now being held as an investment in Risk Management.

**Total Unreserved, Designated Fund Balance** **\$ 522,511**

#### **D. Fund Balance/Retained Earnings Deficits**

The Alcoholic Beverage Control Board, an Enterprise Fund, had a deficit in retained earnings of \$4,930,000 at September 30, 2001, causing a deficit in total fund equity of \$4,827,000. The deficits are largely due to the accrual of liabilities for compensated absences and salaries payable. The Board, by law, operates on a cash basis and is required to distribute 100% of its earnings.

The Building Renovation Finance Authority, an Internal Service Fund, had a deficit in retained earnings of \$11,466,000 at September 30, 2001, causing a deficit in total fund equity of \$11,444,000. The fund's major assets are buildings, which have depreciated values that are less than the long-term debt associated with them.

The Alabama Space Science Exhibit Commission, an Enterprise Fund, had a small deficit in unreserved, undesignated fund balance of \$1,195,000, and the overall total fund balance is a positive \$16,094,000 due to a large contributed capital.

The Revenue Administrative Special Revenue Fund had a deficit in unreserved, undesignated fund balance of \$2,359,000, and the overall total fund balance is a negative \$1,557,000. The accrual of salaries payable, which will be paid for with next year's revenues, is the major cause of this deficit.

## **7 INTERFUND ACTIVITY**

### **Interfund Receivables/Payables and Transfers**

Interfund receivables/payables between funds of the primary government are reported as Due To/From Other Funds. Interfund receivables/payables between funds of component units are reported as Due To/From Component Units. Interfund receivables/payables which cross between the primary government and component units are reported as Due To/From Component Units or Due To/From Primary Government.

Interfund transfers between funds of the primary government are reported as Operating Transfers In/Out. Interfund transfers between funds of component units are reported as Operating Transfers To/From Component Units. Interfund transfers which cross between the primary government and component units are reported as Operating Transfers T/From Primary Government or Operating Transfers To/From Component Units. A summary of interfund receivables, payables, and transfers are presented in the following two tables:

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

## 8 RISK MANAGEMENT

The State manages risk through risk control and risk financing to minimize the adverse effects of certain types of losses. Risk financing includes self-insurance through several different funds. The State Insurance Fund provides coverage for state buildings and contents against fire and casualty losses. The General Liability Trust Fund insures state employees against the risk of loss from employment-related liability claims. The State Employee Injury Compensation Trust Fund was created by the 1994 legislature to provide benefits to eligible state employees for job-incurred injury. The State Insurance Fund, the General Liability Trust Fund and the State Employee Injury Compensation Trust Fund are administered by the Division of Risk Management of the Department of Finance.

There was no significant reduction in insurance coverage by the three Division of Risk Management funds from the prior year. These funds do not have acquisition costs; therefore, no cost is amortized for the period. The funds use the accrual basis of accounting for reporting purposes. During fiscal year 1998, the Finance Department implemented GASB 31 "Accounting and Financial Reporting for Certain Investments and External Investment Pools." As required by GASB 31, most investments are now recorded at fair value. Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. Estimated claims liabilities are calculated by the plans' actuary based on prior claims data for the General Liability Trust Fund and State Employee Injury Compensation Trust Fund. For the State Insurance Fund,

estimated claims liabilities are based on management's judgement.

The separately issued financial report of the Division of Risk Management contains additional note disclosures and supplementary information regarding claims development and liabilities.

### A. The State Insurance Fund

The State Insurance Fund (SIF) was established in 1923 under *Code of Alabama 1975*, Section 41-15-1 for the purpose of insuring direct physical loss on buildings and contents in which title in whole or in part is vested in the State of Alabama or any of its agencies or institutions or in which funds provided by the State have been used for the purchase of the land, construction of the building, purchase or maintenance of any equipment, machinery, furniture, fixtures or supplies in such buildings and public school buildings together with the contents of all such buildings. All covered property shall be insured for no more than its replacement cost and shall be insured for no less than 80 percent of its actual cash value. City or county boards of education or district boards of education of independent school districts may insure school buildings and property either in the state insurance fund or with an insurance company, whichever in the opinion of such board provides the best coverage for such school buildings and property. The principles of private industry insurance companies are utilized to establish rates, premium discounts, and experience credits to result in equitable premiums charged to policyholders. Excess insurance and reinsurance is acquired to assure the solvency of the fund while providing additional coverage such as earthquake and flood insurance.

The SIF has a \$7,500,000 annual deductible and a \$2,500,000 deductible per occurrence on claims. Excess insurance covers claims exceeding \$7,500,000 with a \$750,000,000 limit. Settlements for 2001 exceeded the SIF's deductibles by \$66,621. Settlements did not exceed the deductible amounts in fiscal years 1999 and 2000.

The following table presents the changes in claims liabilities for the past two years:

	<u>2001</u>	<u>2000</u>
Reported claims payable & estimated claims incurred but not reported at the beginning of year	\$ 7,007,189	\$ 6,169,691
Incurring Claims:		
Provision for insured events of the current year	6,092,020	2,698,871
Increase (decrease) in provision for insured events of prior years	<u>4,605,726</u>	<u>3,458,609</u>
Total incurred claims and claim adjustment expenses	10,697,746	6,157,480
Payments:		
Claims and claim adjustment expenses attributable to insured events of the current year	4,302,954	2,325,861
Claims and claim adjustment expenses attributable to insured events of the prior year	<u>5,386,873</u>	<u>2,994,121</u>
Total Payments	9,689,827	5,319,982
Reported claims payable and estimated claims payable incurred but not reported at end of year	<u>\$ 8,015,108</u>	<u>\$ 7,007,189</u>

## B. General Liability Trust Fund

The General Liability Trust Fund (GLTF) was established in 1984 to protect state employees from personal financial liability resulting from lawsuits that are based on alleged negligence while acting within the line and scope of state employment. Claims are investigated and defended through the Office of Attorney General. Auto liability is fully reinsured and the reinsurer, American Southern Insurance Company, handles all claims. The GLTF is managed much like a commercial insurance company, with exposure evaluated and commensurate premiums assigned to state agencies. Investment activities are an essential part of the

General Liability Trust Fund financial stability to maintain lower costs employee liability coverage. Funds in excess of those needed for immediate operations will be invested to maximize return and keep premiums down.

The GLTF has a \$3,300,000 deductible on claims. Settlements did not exceed this deductible in fiscal year 1999 nor fiscal year 2000. Settlements for 2001 exceeded the deductible by \$2,040,194.

The following table presents the changes in claims liabilities for the past two years:

	<u>2001</u>	<u>2000</u>
Reported claims payable and estimated claims incurred but not reported at the beginning of year	\$ 13,830,071	\$ 14,161,985
Incurring Claims:		
Provision for insured events of the current year	775,433	448,661
Increase (decrease) in provision for insured events of prior years	<u>6,043,223</u>	<u>2,147,109</u>
Total claims and claims adjustment expenses	6,818,656	2,595,770
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	15,193	447,824
Claims and claims adjustment expenses attributable to insured events of the prior year	<u>3,896,814</u>	<u>2,479,860</u>
Total Payments	3,912,007	2,927,684
Reported claims payable and estimated claims payable incurred but not reported at end of year	<u>\$ 16,736,720</u>	<u>\$ 13,830,071</u>

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

**C. State Employee Injury Compensation Trust Fund**

The State Employee Injury Compensation Trust Fund (SEICTF) was created by the 1994 legislature effective October 1, 1994. Its purpose is to provide benefits to eligible state employees for job-incurred injury. Benefits under SEICTF include all reasonable medical expenses arising from a job-incurred injury, lost wages (including benefits for time lost from the job), and benefits to dependents of employees who are fatally injured on the job. Specifically excluded from coverage are employees of the State Port Authority, educational institutions, and boards of education. A key element in assuring effective and efficient operation of SEICTF was the creation of a statewide medical provider

network with a focus on professionals who are experts in treating occupational injury. Excess insurance and reinsurance is acquired to assure the solvency of the fund. Initial operation of the Fund was funded by a transitional authorization of budgeted General Liability Trust Fund and State Employees' Insurance Board.

The SEICTF has a deductible per occurrence. Settlements did not exceed the deductible amounts in fiscal years 1999 and 2000. Settlements for 2001 exceeded the deductibles by \$550,731.44.

The following table presents the changes in claims liabilities for the past two years:

	<u>2001</u>	<u>2000</u>
Reported claims payable and estimated claims incurred but not reported at the beginning of year	\$ 7,100,817	\$ 8,275,726
Incurred Claims:		
Provision for insured events of the current year	497,471	187,042
Increase (decrease) in provision for insured events of prior years	<u>1,957,869</u>	<u>237,567</u>
Total claims and claims adjustment expenses	2,455,340	424,609
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	541,368	262,641
Claims and claims adjustment expenses attributable to insured events of the prior year	<u>2,307,935</u>	<u>1,336,877</u>
Total Payments	2,849,303	1,599,518
Reported claims payable and estimated claims payable incurred but not reported at end of year	<u>\$ 6,706,854</u>	<u>\$ 7,100,817</u>

#### D. State Employees' Insurance Plan

The State Employees' Insurance Plan (SEIP) was established in 1965 Alabama Acts 833 to provide health insurance benefits for state employees. The SEIP is administered by the State Employees' Insurance Board (SEIB). The monthly premiums for employee and dependent coverage are determined annually and are set at a rate necessary to provide sufficient funds to pay all claims and reasonable expenses of administering the plans. The State pays a monthly premium for each employee and the employee pays any dependent premium.

The SEIB establishes claims liabilities based on estimates of the ultimate cost of claims (including future retroactive claims adjustments) that have been reported but not settled,

and of estimated claims that have been incurred but not reported. Because actual claims liabilities are affected by complex changing factors such as inflation, medical technology, and changes in legal doctrines, the process used in computing claims liabilities does not result in an exact amount. Actual claims costs incurred may vary from estimated claims liabilities depending on the similarities in the nature and frequency of the claims between current and prior years.

The SEIB also administers a local government health insurance plan (LGHIP) in the same manner as the SEIP.

The following table presents the changes in claims liabilities during the past two years (Approximately 90% of claim liabilities are related to SEIP and the remainder to LGHIP):

	<u>2001</u>	<u>2000</u>
Reported claims payable and estimated claims incurred but not reported at the beginning of year	\$ 18,324,306	\$ 22,971,960
Restatement of reported claims and estimated claims incurred but not reported	-	-
Reported claims payable and estimated claims incurred but not reported - Restated	<u>18,324,306</u>	<u>22,971,960</u>
Incurred Claims:		
Provision for insured events of the current year	239,442,133	209,536,865
Increase (decrease) in provision for insured events of prior years	<u>3,142,259</u>	<u>(1,945,496)</u>
Total claims and claims adjustment expenses	242,584,392	207,591,369
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	217,058,806	196,018,097
Claims and claims adjustment expenses attributable to insured events of the prior year	<u>19,077,201</u>	<u>16,220,926</u>
Total Payments	236,136,007	212,239,023
Reported claims payable and estimated claims payable incurred but not reported at end of year	<u>\$ 24,772,691</u>	<u>\$ 18,324,306</u>

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

**E. Public Education Employees' Health Insurance**

The Public Education Employees' Health Insurance Fund (PEEHIF) was established in 1983 by the provisions of *Act 83-455* to provide a uniform plan of health insurance for current and retired employees of state educational institutions and to provide a method of funding the benefits related to the plan. The plan is administered by the Public Education Employees' Health Insurance Board (PEEHIB).

The State contributes a specified amount monthly to each respective participating school system. Each participating school system must then pay the employer rate to the PEEHIF each month. That rate was \$345 per participant for 2001 and \$317 per participant for 2000. In addition to the employer payments each month, certain premium amounts

are paid by the employee. PEEHIB established claims liabilities based on the actual cost of claims reported but not settled, and estimates of claims that have been incurred but not reported. Because actual claims liabilities are affected by complex changing factors such as inflation, medical technology, and changes in legal doctrines, the process used in computing claims liabilities does not result in an exact amount. Actual claims costs ultimately incurred may vary from the estimated claims liabilities depending on the similarities in the nature and frequency of the claims between current and prior years. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

The following table presents the changes in claims liabilities during the past two years:

	<u>2001</u>	<u>2000</u>
Reported claims payable and estimated claims incurred but not reported at the beginning of year	\$ 53,096,036	\$ 54,257,056
Incurred Claims:		
Provision for insured events of the current year	513,357,060	481,793,561
Increase (decrease) in provision for insured events of prior years	<u>(5,300,757)</u>	<u>(5,023,711)</u>
Total claims and claims adjustment expenses	508,056,303	476,769,850
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	457,395,191	428,697,525
Claims and claims adjustment expenses attributable to insured events of the prior year	<u>47,795,279</u>	<u>49,233,345</u>
Total Payments	505,190,470	477,930,870
Reported claims payable and estimated claims payable incurred but not reported at end of year	<u>\$ 55,961,869</u>	<u>\$ 53,096,036</u>

The separately issued financial report contains additional note disclosures and supplementary information regarding claims development.

---

## F. Alabama Health Insurance Plan

The Alabama Health Insurance Plan (AHIP) was established to provide health insurance coverage to eligible individuals as an alternative to federal oversight required in the Health Insurance Portability and Accountability Act of 1996. AHIP was established in 1997 under Regulation 115 pursuant to Act 97-713 and Section 27-1-17 *Code of Alabama 1975* and is governed by a nine member Board of Directors. The plan provides major medical benefits limited to \$1,000,000 for the lifetime of a participant. The plan provides that participants pay monthly premiums for health insurance coverage. Coverage is also available for eligible dependents of participants. Premiums are determined annually and are set at a rate necessary to provide sufficient funds to pay all claims and reasonable expenses of administering the plan.

Regulation No. 115 authorizes the Plan to recoup losses by assessing participating insurers based on their health

insurance premiums written in the state for any year in which the Plan incurs a deficit. Assessments in excess of actual losses are to be held in interest and used by the board to offset future losses or to reduce future assessments. AHIP obtained funding from assessments totaling \$8,344,115 and \$4,371,160 in 2001 and 2000, respectively.

AHIP established claims liabilities based on estimates of the ultimate cost of claims (including future retroactive claims adjustments) that have been reported but not settled and of estimated claims that have been incurred but not reported. The estimation of claims costs depends on many factors including historical loss experience. Adjustments of the estimated claim liabilities based on actual results are charged or credited to expense in the periods in which such adjustments are determined.

The following table presents the changes in claims liabilities during the past two years:

	2001	2000
Reported claims payable and estimated claims incurred but not reported at the beginning of year	\$ 3,568,721	\$ 1,799,244
Incurred Claims:		
Provision for insured events of the current year	19,841,159	13,962,516
Increase (decrease) in provision for insured events of prior years	-	-
Total claims and claims adjustment expenses	19,841,159	13,962,516
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current year	17,134,174	10,983,767
Claims and claims adjustment expenses attributable to insured events of the prior year	2,017,398	1,209,272
Total Payments	19,151,572	12,193,039
Reported claims payable and estimated claims payable incurred but not reported at end of year	<u>\$ 4,258,308</u>	<u>\$ 3,568,721</u>

## G. Alabama State Port Authority

The Alabama State Port Authority is partially self-insured with respect to workmen's compensation claims. Claims are self-insured to the extent of claims less than \$300,000 with

no aggregate limit with respect to the number of such claims. Additionally, any individual claims in excess of \$5,000,000 are self-insured.

For the Fiscal Year Ended September 30, 2001

## 9 RETIREMENT PLANS

### A. The Retirement Systems of Alabama

The Retirement Systems of Alabama (RSA) administers three retirement programs: The Teachers' Retirement Systems, Employees' Retirement Systems, and Judicial Retirement Fund for the benefit of state employees and public education employees.

#### 1. Plan Descriptions

The Teachers' Retirement System of Alabama (TRS) is a cost-sharing multiple-employer defined benefit pension plan, established as of September 15, 1939 under the provisions of the 1939 *Alabama Acts* 419. The system provides retirement allowances and other specified benefits for qualified persons employed by state-supported educational institutions. The Board of Control has responsibility for the general administration and operation of the TRS.

The Employees' Retirement System of Alabama (ERS) is an agent multiple-employer defined benefit pension plan established as of October 1, 1945, under the provisions of the 1945 *Alabama Acts* 515. This system provides retirement allowances and other specified benefits for state employees, state police, and employees of cities, counties, towns, and quasi-public organizations on an elective basis. The Board of Control is responsible for the general administration and operation of the ERS.

The Judicial Retirement Fund (JRF) is a cost-sharing multiple-employer defined benefit pension plan, established under the 1973 *Alabama Acts* 1163. This system provides retirement allowances and other specified benefits for any Justice of the Supreme Court of Alabama, Judge of the Court of Civil Appeals, Judge of the Court of Criminal Appeals, Judge of the Circuit Court, or office holder of any newly created judicial office receiving compensation from the State Treasury. Act Number 1205 of the Legislature of 1975 supplemented the provisions of Act Number 1163 and enlarged the scope and coverage of the JRF to include District and Probate Judges. The Board of Control of the ERS administers and operates the JRF.

The TRS, ERS, and JRF provide retirement benefits as well as death and disability benefits as established by state law. The retirement benefit provisions are established by Title 36, Chapter 27 of Alabama State Law and must be amended by statute. Benefits for TRS and ERS members vest after 10

years of credited service. Teachers and state employees who retire after age 60 (52 for state police) with 10 years of credited service or with 25 years of service (regardless of age) are entitled to an annual retirement benefit, payable monthly for life. Service retirement benefits are calculated by two methods with the member receiving payment under the method which yields the highest monthly benefit: (1) minimum guaranteed, or (2) formula. Under the formula method, members of TRS and ERS (except state police) are allowed 2.0125 percent of their final average salary (highest 3 of the last 10 years) for each year of service. State Police are allowed 2.875 percent for each year of state police service in computing the formula method. Disability retirement benefits are calculated in the same manner.

JRF benefits vest from five to eighteen years. Except for justices or judges who were either disabled, elected prior to July 30, 1979, or have at least 25 years of credited service, no justice or judge shall be eligible to receive judicial service retirement pay prior to attaining sixty years of age. Service retirement benefits for justices and judges are dependent upon the particular office held in the judicial branch of government. A retirement benefit is payable upon the request of any member who has: (1) 25 years of credited service (regardless of age), (2) completed 12 years of credited service and has attained age 65, (3) completed 15 years of credited service and whose age plus service equals or exceeds 77, (4) completed at least 18 years of credited service or three full terms as a judge or justice and has attained age 65 (5) completed 10 years of credited service and has attained age 70, (6) been elected prior to July 30, 1979 and has 18 years of service (regardless of age). A member eligible to retire who has not requested his retirement benefit to commence at the end of the term in which his seventieth birthday occurs is entitled only to the refund of his contributions (except for members with at least 25 years of credited service). The service retirement benefit for a member other than a probate judge is equal to 75 percent of the state-paid salary prescribed by law for the position from which the member retires. If a probate judge is paid on a fee basis, the service retirement benefit is equal to 90% of the benefit payable to a circuit judge on the date such judge retires. If a probate judge is paid on a salary basis, the benefit is equal to 75% of the salary upon which such judge contributes immediately prior to retirement.

A preretirement death benefit is offered in which the account is credited with TRS and ERS employer contributions and investment income on such funds. The preretirement death benefit (group term life insurance) is paid in addition to the return of member contributions upon the death of an active TRS or ERS member who has completed at least one year of

active membership in the system and whose date of death was within 180 days of such member's last date of actual service. However, a surviving spouse beneficiary may elect a survivor allowance in lieu of this benefit. The preretirement death benefit is equal to the annual earnable compensation of the member as reported to the system for the preceding year ending June 30, for TRS and September 30, for ERS.

When a member withdraws from service prior to becoming vested, the member's accumulated contributions and a portion of accumulated interest credited to the Annuity Savings account are returned to the member. The portion of accumulated interest, which by law, is not payable to the member, is transferred to the Expense fund.

RSA issues a stand-alone financial report that includes financial statements and required supplementary information (including the six-year trend) for the year ended September 30, 2001. Copies may be obtained by writing to:

The Retirement Systems of Alabama  
P.O. Box 302150  
135 South Union Street  
Montgomery, AL 36130-2150

Title 36, Chapter 27 of the Alabama State Law established the contribution requirements and must be amended by state statute. The law provides that the Boards of Control engage an actuary to prepare an annual valuation of the assets and liabilities of the various reserve funds.

At September 30, 2001, the number of participating employers in each system was as follows:

	<u>TRS</u>	<u>ERS</u>
Cities	-	252
Counties	-	64
Other Public Entities	-	434
Universities	13	-
Post-Secondary Institutions	29	-
City & County Boards of Education	128	-
State Agencies & Other	33	1
Total	<u>203</u>	<u>751</u>

## 2. Summary of Significant Accounting Policies

### Basis of Accounting

The TRS, ERS, and JRF financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. The financial statements are prepared in accordance with

requirements of the Governmental Accounting Standards Board and are considered component units of the State of Alabama.

### Investments

The Boards of Control of the Systems have the responsibility and authority to invest and reinvest available funds, through the Secretary-Treasurer and Investment Committee, in bonds, mortgage-backed securities, common and preferred stock, or other investment vehicles with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use. All plan assets are carried at fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Short-term investments are reported at cost, which approximates fair value. Mortgage-back securities are reported based on future principal and interest payments discounted at the prevailing interest rate for similar instruments. The fair value of real estate investments is based on the estimate of independent appraisals.

As of September 30, 2001, the TRS and ERS owned debt and equity securities of Raycom Media Corporation which represent approximately 9.7 percent and 12.5 percent respectively, of the net assets held in trust for pension benefits. Also, the TRS and ERS owned debt and equity securities of Community News Corporation, which represented approximately 6.6 percent and 7.9 percent, respectively, of the net assets held in trust for pension benefits. Also, the JRF owned debt securities of United Air Lines, which represented 5.3 percent of the net assets held in trust for pension benefits.

### 3. Contributions Required and Contributions Made

The actuary has computed, as of the date of the latest available actuarial valuation (June 30, 2001 for TRS and September 30, 2001 for the ERS and JRF), the estimated present value of benefits payable to retired members, beneficiaries and active members. The actuarial valuations are prepared using the entry age method for TRS and ERS, and projected unit credit method for JRF. The present value of all expected benefits payable from each system to the present group of members and beneficiaries is calculated by adding the present value of the expected benefits payable to the active members to the present value of the expected future payments to retired members and beneficiaries.

As required by statute, the TRS, ERS, and JRF funding policies provide for employer contributions at actuarially

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

determined rates (expressed as percentages of annual covered payroll) are sufficient to accumulate assets to pay benefits when due. The employer contributions required to support the benefits of each system are determined following a level funding approach and consist of a normal contribution, an accrued liability contribution, and a portion to finance administrative costs.

For the TRS and ERS, the normal contribution is determined using the "entry age normal" method. Under this method, a calculation is made to determine the uniform and constant percentage rate of the employer contributions which, if applied to the compensation of the average new member during the entire period of the member's anticipated covered service, would be required in addition to the contributions of the member to meet the cost of all benefits payable on the member's behalf.

For the JRF, the normal contribution is determined using the "projected accrued benefit" (unit-credit) method. Under this method, the benefits of each individual included in an actuarial valuation are allocated by a consistent formula to valuation years. The actuarial gains (losses), as they occur, generally reduce (increase) the unfunded actuarial accrued liability.

The required contribution rate of active plan members for TRS and ERS (excluding state police) is 5 percent of earnable compensation. State police members of the ERS are required to contribute 10 percent. JRF members and, effective January 1, 2001, certified policemen and firemen members of the TRS and ERS are required to contribute 6 percent of earnable compensation.

For fiscal year 2001, the required contribution rate of the employer for ERS (state employees) is 5.96 percent and the rate for TRS is 3.95 percent. The employer contribution rate for ERS state policemen and JRF is 9.24 percent and 21.19 percent, respectively.

**a) TRS and JRF**

A schedule of Employer Contributions for the TRS and JRF (Cost-sharing plans) is shown below:

	<b>Fiscal Year Ended</b>	<b>Annual Required Contribution *</b>	<b>Percentage Contributed</b>
<b>TRS</b>	1999	166,100	100%
	2000	277,180	100
	2001	279,880	100
<b>JRF</b>	1999	2,870	100
	2000	5,696	100
	2001	7,598	100

\* Amounts in Thousands

**b) State Employer Segment of ERS**

Contributions in 2001 for agent employer ERS were made in accordance with actuarially determined contribution requirements determined through an actuarial valuation performed at September 30, 2000.

**Actuarial Methods and Assumptions for ERS:**

Valuation Date:	September 30, 2000
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	5 Yr Smoothed Market
Amortization Method:	Level Percent Open
Remaining Amort Period:	Within 40 yrs-varies by employer
Period Closed/Open:	Open
Actuarial Assumptions:	
Investment Rate of Return:	8% *
Projected Salary Increases:	4.61% -7.75% *
Cost of Living Increases:	None

\* Includes inflation at 4.5%

### Three-Year Trend Information:

<u>Year Ended</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>
1999	\$29,454,946	100%	0
2000	43,945,164	100	0
2001	47,538,835	100	0

### B. Other Pension Plans

The State Port Authority administers two single-employer pension plans, the Hourly Plan and the Terminal Railway Plan, for a small number of hourly workers and railway employees. The Peace Officers Annuity and Benefit Fund is a cost-sharing multiple-employer defined benefit pension plan that provides a small additional pension benefit to State and local peace officers beyond that which is paid by the Employees' Retirement System. The Clerks and Registers Supernumerary Fund is a cost-sharing multiple-employer defined benefit pension plan that provides pension benefits to circuit clerks and registers of courts. These pension plans are not material to the State.

## 10 DEFERRED COMPENSATION

The State offers employees the opportunity to participate in an optional deferred compensation plan created in accordance with Internal Revenue Service Code Section 457. The plan is available to all state employees and permits them to defer a portion of their salary until future years. Employees may withdraw the current value of their contributions upon termination, retirement, death, or an unforeseeable emergency.

It is the opinion of the State's legal counsel that the State has no liability for losses under this plan but does have the duty of due care that would be required of an ordinary prudent investor.

The Public Employees' Individual Retirement Account Fund/Deferred Compensation Plan (RSA-1) is administered and operated by the Public Employees' Individual Retirement Account Fund (PEIRAF) Board of Control. All members of the Teachers' Retirement System of Alabama, Employees' Retirement System of Alabama, Judicial Retirement Fund, and employees of employers eligible to participate in the Employees' Retirement System, are eligible to participate in this plan. At September 30, 2001, plan assets, net of warrants payable, totaled \$665,114,827.

State employees may also participate in a plan administered by the Public Employees' Benefit Services Corporation (PEBSO). This plan is also a deferred compensation plan organized under IRC Section 457. The plan contract has been modified in accordance with new legislation that requires the assets to be held in trust for the benefit of plan participants. The State has no fiduciary responsibility for the assets and therefore does not include the plan in its reporting entity.

## 11 POSTEMPLOYMENT HEALTH CARE BENEFITS

In addition to the pension benefits described in Note 9, the State provides postretirement health care benefits, in accordance with *Code of Alabama 1975*, Section 36-29-10, to all retired state employees through the State Employees' Health Insurance Plan (SEHIP) and, in accordance with *Code of Alabama 1975*, Section 16-25A-17, to all retired employees of State educational institutions through the Public Education Employees' Health Insurance Plan (PEEHIP). Employees covered under these two plans who retire from active service and begin receiving monthly benefits from the Employees' Retirement System of Alabama or from the Teachers' Retirement System of Alabama may elect to continue coverage under the group insurance plan by consenting to have deducted from their monthly benefit payment the difference in the total cost of their insurance coverage and the portion authorized to be expended by the SEHIP or the PEEHIP for coverage of such retired employees.

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

The cost of teachers' retiree health care benefits is recognized as an expenditure to PEEHIP as claims are paid. The cost of the benefits is paid from the regular appropriations made to individual education entities. Total active enrolled members were 97,633 and total retired members were 42,551 in fiscal year 2001. The retired employee allocation is funded through the active employee premium. Of the active employee premium, approximately \$81,964,176 was on behalf of retired members of PEEHIP for fiscal year 2001. Retirees who are eligible for Medicare benefits must pay \$1.14 per month for the Hospital/Medical coverage while those who are not eligible for Medicare must pay \$78.00 per month for the coverage. Optionally, the retirees may use this insurance allocation to purchase two plans of supplemental insurance offered by PEEHIP with no out-of-pocket cost. Total premiums paid to PEEHIP by retirees for Hospital/Medical coverage was \$11,157,728 for the year. The retirees must pay additional premiums to cover their dependents.

The State provides health care benefits for retired state employees through SEHIP. The cost of benefits is recognized as an expense in the month in which it is incurred. The State pays 100 percent (\$110 per month) of the premium for a retiree who is over 65 and eligible for Medicare for a total cost to the State in 2001 of \$11,904,310. The State pays a portion of the premium for a retiree who is under 65 at a total cost to the State in 2001 of \$5,891,380. Under the SEHIP statute, the fixed amount per month per retiree is funded on a pay-as-you-go basis through the active employee premiums each agency pays for its active

employees. Average enrollment in 2001 was 9,018 for retirees over 65, and 4,463 for retirees under 65. COBRA insurance is also available to state employees who terminate state service, but the employee is liable for the premiums.

## 12 SEGMENT INFORMATION FOR ENTERPRISE FUNDS

The State's primary government has major enterprise funds which provide the following services: facilities for the distribution and sale of alcoholic beverages, state park and recreational facilities, operation of the Prepaid Affordable College Tuition program, service for shippers, including warehousing, loading, and bulk cargo handling, operation of a guaranteed student loan program, health insurance coverage for local government employees, and a health insurance plan for citizens who have lost COBRA coverage. Component unit proprietary funds provide housing opportunities for those with moderate and low incomes by providing affordable financing; provide Alabama lending institutions with a secondary market for student loans; issue revolving loan bonds and lend the bond proceeds to eligible municipalities for the construction of wastewater treatment, sanitary drinking water facilities, and collection facilities; operation of the supercomputer, a historic furnace and foundry exhibit, space science exhibit, U.S.S. Alabama Battleship Park, and a music hall of fame. Segment information for the year ended September 30, 2001, was as follows:

**Primary Government (In Thousands)**

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

**13 JOINT VENTURES AND JOINTLY GOVERNED ORGANIZATIONS****A. Joint Ventures**

The Tennessee-Tombigbee Waterway Development Authority is a joint venture created by a compact executed between the State of Alabama and the States of Mississippi, Tennessee, and Kentucky. Its purpose is to develop and promote a navigable waterway between the Tennessee and Tombigbee rivers and provide a nine foot deep navigable channel. The State of Alabama provided \$109,037 and \$114,594 to the Authority for fiscal year 2001 and fiscal year 2000, respectively. The fiscal year of the Tennessee-Tombigbee Waterway Development Authority ends on December 31. Key financial data for the Authority is shown below.

(Amounts in Thousands)

	<u>2001</u>	<u>2000</u>
Current Assets	\$ 268	\$ 278
Fixed Assets	<u>34</u>	<u>29</u>
Total Assets	302	307
Liabilities	-	-
Fund Balance	302	307
Revenues	316	339
Expenditures	325	331

Complete financial statements for the Authority can be obtained at P. O. Drawer 671, Columbus, MS 39703.

**B. Jointly Governed Organizations**

The Historic Chattahoochee Commission is a jointly governed organization that was created by a compact executed between the State of Alabama and the State of Georgia. The Commission had \$427,695 in revenues in 2001, \$168,180 of which was received from the State's General Fund. The remainder was from other revenue sources and the State of Georgia.

**14 RELATED ORGANIZATIONS**

The State's officials are responsible for appointing a majority of the members of the boards of other organizations, but the State's accountability for these organizations does not extend beyond making appointments. The State appoints the nine-member board of the Private Colleges and Universities Facilities Authority and a majority of the five-member Alabama Shakespeare Festival Finance Authority.

**15 RELATED PARTY TRANSACTIONS**

The Montgomery Downtown Redevelopment Authority, a public corporation, issued \$65,200,000 of bonds in 1988 to construct the Gordon Persons state office building. These bonds were partially refunded in 1992 with a new bond issue of \$66,150,000. The bonds' final maturity is on October 1, 2013. Members of the board of directors of the Authority are appointed by officials of the City of Montgomery, but the Authority is not a part of the City's reporting entity and is therefore considered a separate "stand-alone government." The bonds issued constitute conduit debt obligations of the Authority, and are therefore reported as revenue bond debt of the State. The Authority has also issued conduit debt on behalf of other governments and third parties, none of which is reported in these financial statements.

The State operates and maintains the building and has entered into an agreement with the Authority whereby the rental payments from state agencies occupying the building are paid to the Authority, which then uses the money to pay the bond principal and interest. The payments to the Authority are reported by the State as debt principal and interest expenditures.

These financial statements exclude certain foundations and other organizations affiliated with state colleges and universities. While the purpose of these foundations and associations is to operate exclusively for the benefit of the colleges and universities, the colleges and universities are not financially accountable for them; therefore, such

---

organizations do not constitute component units under the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "The Reporting Entity." The most significant of these are: the University of Alabama in Huntsville Foundation, the University of Montevallo Foundation, the University of South Alabama Foundation, the National Alumni Association of the University of Alabama, the Capstone Foundation, the University of Alabama Law School Foundation, the Auburn University Foundation, and the Auburn Alumni Association. These organizations had total assets of \$624,855,000 and total revenues of \$83,893,000 for the 2001 fiscal year.

These financial statements also exclude the Alabama A & M Foundation, the Alabama State University Foundation, the Alabama State University Trust for Educational Excellence, the Jacksonville State University Foundation, the Jacksonville State Alumni Association, the University of Alabama Birmingham Educational Foundation (UABEF), the University of Alabama Birmingham Research Foundation (UABRF), the University of Alabama Health Services Foundation, P.C. (HSF), and the Troy State University Foundation, Inc. Financial data for these organizations was not available. However, UABEF made contributions to the University of Alabama at Birmingham of \$3,598,000 during the 2001 fiscal year, and the University generated \$21,844,000 in unrestricted current revenues from transactions with HSF.

The University of Alabama at Birmingham (UAB) and HSF have entered into an agreement dated October 7, 1996 which established a common management group, the UAB Health System. The purpose of this agreement is to provide common management for their existing and future health care delivery operations. UAB contributed \$4,300,000 during 2001 to the UAB Health System Board.

As of September 30, 2001, UAB had invested approximately \$19,700,000 in Triton Health Systems, LLC (Triton), a health maintenance organization wholly owned by UAB and UABEF. The purpose of Triton is to establish a primary care physician network in the southeastern United States and to operate a health maintenance organization. UAB's interest in Triton of approximately \$12,700,000 at September 30, 2001 is recorded on the equity method.

UAB, in a transactional partnership with HSF, holds a 50% ownership in the operating assets and liabilities of the Eye Foundation, Inc. (EFI). UAB's investment in EFI is carried at original cost plus or minus equity in undistributed earnings/losses since the date of acquisition with assets totaling approximately \$1,898,000 at September 30, 2001.

The University of South Alabama Health Services Foundation and the South Alabama Medical Science Foundation reimburses the University for certain administrative and other support services. Total amounts received for such services in 2001 were \$17,157,000 from the Health Services Foundation and \$2,047,000 from the Medical Science Foundation.

The hospitals of the University of South Alabama provide patient care services on a contractual basis to members of Prime Health, Inc., a related health maintenance organization, and its affiliates. Net hospital revenues for such services were \$11,190,000 in 2001.

The Alabama Higher Education Loan Corporation and the Alabama Commission on Higher Education (ACHE) have entered into an agreement in which ACHE receives servicing fees for providing administrative and loan processing assistance to the Corporation. Total servicing fees, loan processing costs and administrative costs paid by the Corporation to ACHE were \$994,700 and \$1,110,800 for the years ended September 30, 2001 and 2000, respectively.

## 16 COMMITMENTS

### A. Construction Projects

#### 1. Primary Government

At September 30, 2001, the Department of Transportation had construction and maintenance contracts of \$1,693,315,074. The amount already performed was \$1,220,846,888, leaving an outstanding balance of \$472,468,186. The funding sources for this amount are 76% Federal funds, 23% State funds, and 1% Industrial Access revenue bond funds.

The State Port Authority had commitments for capital expenditures of approximately \$29,500,000 at September 30, 2001.

#### 2. Component Units

The University of Alabama at Birmingham had construction and acquisition commitments remaining at September 30, 2001, of \$260,081,000. These costs will be financed from bond proceeds and UAB reserves of \$232,254,000, federal funds of \$1,997,000, and state funds of \$20,153,000. During 2001, approximately \$96,972,000 of construction was

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

financed through proceeds of previously issued debt. In addition, certain projects in the planning and design phase that UAB expects to complete have estimated costs totaling \$205,300,000.

The University of Alabama at Tuscaloosa had construction and renovation contracts remaining at September 30, 2001, of \$43,800,000. These costs are expected to be financed from gifts, grants, bond proceeds, and University funds.

Auburn University had construction and renovation contracts for various facilities that are estimated to cost approximately \$51,800,000. At September 30, 2001, the estimated remaining cost to complete the projects was approximately \$17,800,000 payable from University funds.

At September 30, 2001, Jacksonville State University had commitments on construction projects which included \$1,862,329 on the Houston Cole Library renovation.

The University of Alabama at Huntsville had construction and renovation contracts for several facilities remaining at September 30, 2001, of \$15,600,000. These costs are expected to be financed from gifts, grants, bond proceeds, state appropriations and University funds.

## **B. Operating Leases**

The State and its component units have entered into various lease agreements for real property. These leases do not represent material commitments by the State, therefore disclosure of minimum future lease payments is not provided.

## **C. Federal Programs**

The State operates several Federal programs that have commitments for claims outstanding at September 30, 2001. These claims involve services provided to beneficiaries prior to September 30, but the claims were neither submitted to nor approved for payment by the State until after September 30. The largest of these is the Medicaid program, which had claims outstanding but not reported of \$274,453,472. The amounts of the other programs are not material.

## **D. Other Commitments**

The Alabama Housing Finance Authority, a component unit, has set aside in its operating fund \$335,000 at September 30, 2001, to be used if needed to pay debt service on several single-family mortgage revenue bond issues. The Authority has also designated \$76,164,000 of its fund balance for

financing future single-family mortgage revenue bond programs, to support its single-family mortgage loan origination and warehousing operations, and to cover its operating expense budget for the following fiscal year.

# **17 CONTINGENCIES**

## **A. Grants**

The State receives federal grants for specific purposes that are subject to review and audit by the grantor agencies. Entitlement to these resources is generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes.

Federal grantor agencies from time to time review State records to determine whether the State has complied with the terms and conditions of grant agreements and federal regulations. Any disallowance resulting from a federal audit may become a liability of the State but cannot be reasonably estimated at this time. It is believed that any liability resulting from a determination of noncompliance will not materially affect the State's financial condition.

## **B. Tobacco Settlement**

As a party to a successful multi-state legal settlement with the tobacco industry, the State received \$131.7 million in fiscal year 2000 and \$103.1 million in 2001. This settlement money is intended to compensate the State for smoking related health care costs incurred by various State programs. Annual payments will continue and could total \$3.2 billion over 25 years but future settlement payments are subject to adjustment for a number of factors such as inflation, the effect of other lawsuits, decreased sales volume and the financial health of the tobacco companies. Because the exact amount of the future settlement amounts is not measurable, no receivable for these amounts is recorded in these financial statements.

## **C. Litigation**

The State is a party to numerous legal proceedings that occur in the normal course of governmental operations, some of which involve significant amounts. The lawsuits involving significant amounts are described below. Proceedings involving amounts that, when aggregated, will have no material effect on the accompanying financial statements

---

may have an impact on the related individual programs and respective state agencies. The monetary impacts, if any, of all litigation will most likely be addressed in future state laws and budgets. Due to the uncertainty involving the ultimate outcome and amounts of the unresolved litigation described below, no provision for potential liability has been recorded in the accompanying financial statements.

In the case *Alabama Coalition for Equity, Inc., et al. v. Fob James, Jr., et al.*, filed in May 1990, the plaintiffs alleged that the State of Alabama's public school funding structure is unconstitutional under the United States Constitution and the State of Alabama's Constitution. The Alabama Supreme Court affirmed the trial court's ruling that the system was unconstitutional. Various legal proceedings have affected the status of this case and potential remedies and liabilities during the years since it was filed. A hearing on the remedy phase is to be held July 1, 2002.

*Lee v. Macon* is a group of cases arising from the desegregation cases filed in the 1960s. The State Board of Education was brought back into these cases in 1997 and is assisting local school districts in negotiating Consent Decrees with the Justice Department, NAACP Legal Defense, and plaintiffs' attorneys. The goal is the creation of unitary school districts, in which the vestiges of segregation have been removed from all aspects of the operation of public schools. Presently, state attorneys are working on statewide issues and with local districts for unitary status decrees. A statewide consent decree has been negotiated for special education and is being negotiated for facilities.

Two ongoing lawsuits, *Johnny Reynolds, et al. v. Alabama Department of Transportation, et al.*, and *Eugene Crum, Jr., et al. v. State of Alabama, et al.*, involve employment discrimination. These are class-action lawsuits alleging that the State has engaged in illegal discriminatory practices in the hiring and promoting of employees. The parties in the Reynolds case have entered into a court-approved settlement effective in April 1994; however, numerous issues have been raised before the Court regarding the implementation of the settlement. The Crum case is still in the discovery stage.

The State of Alabama has been involved in several lawsuits challenging the constitutionality of the franchise tax in effect before 2000. The U. S. Supreme Court ruled that Alabama's franchise tax scheme unconstitutionally discriminated against interstate commerce. The State is negotiating settlements with corporations for refunds of the unconstitutional tax. The State Legislature enacted laws to remedy the significant loss of revenue; however, the

amounts being collected under the new laws are significantly less than those collected prior to 2000.

The State of Alabama is also involved in ten additional significant tax-related lawsuits or actions that challenge the legality of certain taxes or challenges other provisions of tax laws and procedures. These cases have a combined potential liability of approximately \$50,000,000. State losses in these cases could also reduce future revenues.

In addition to the Reynolds case described above, the Department of Transportation is involved in two cases involving groundwater contamination in and around the Department's Montgomery facilities which may affect three residential neighborhoods. Both involve the Department expending funds to clean up the site and for any potential condemnations of residences.

The Alabama State Port Authority is also involved in clean up of a fourteen acre site it owns which is badly contaminated with creosote. To date, the Authority has expended more than \$7,800,000 toward the clean up of the site, with an estimated \$6,858,000 remaining to be spent on clean up of the site.

The Department of Human Resources is involved in many lawsuits that occur in the normal course of its operations, the most significant of which is the *R. C. v. Fuller* case concerning the care and custody of emotionally disturbed children and children with behavioral disorders. The Department of Human Resources has until October 1, 2002 to comply with a Consent Decree approved by the Court whereby a new child welfare system, known as the "System of Care" will be fully implemented. Forty counties have successfully converted to the System of Care, with the remaining 27 counties involved in conversion to the new system.

The Department of Mental Health and Mental Retardation has ten lawsuits that have occurred in the normal course of its operations related to treatment, injuries, and deaths of patients or recipients of mental health services. These cases have a combined potential liability of approximately \$25,000,000.

The Department of Youth Services and the Department of Corrections are involved in four significant cases that have occurred in the normal course of their operations related to incarceration and treatment of youths and adults. In addition, the State of Alabama is a defendant in a lawsuit whereby the plaintiffs are seeking to require the State to provide the same services to prisoners that are provided to

## NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended September 30, 2001

children in public schools. The State is currently in the process of obtaining guidance from the court concerning potential remedies under a consent decree.

## 18 SUBSEQUENT EVENTS

On December 1, 2001, the Alabama 21<sup>st</sup> Century Authority issued Series 2001 Tobacco Settlement Revenue Bonds totaling \$103,760,000. The interest rates on the bonds range from 5.25 percent to 5.75 percent to be paid semiannually on each June 1 and December 1, beginning June 1, 2002. The maturity date of the bonds is December 1, 2021.

On December 15, 2001, the Alabama Public School and College Authority issued Series 2001-B and Series 2001-C bonds in the amount of \$13,585,000 and \$83,870,000. The interest rates on the Series 2001-B bonds range from 5 percent to 5.625 percent. The interest rates on the Series 2001-C bonds range from 4.125 percent to 5 percent. Interest will be payable semiannually on each May 1 and November 1, beginning November 1, 2002. The maturity dates of the Series 2001-B and Series 2001-C are May 1, 2008 and May 1, 2013.

On December 1, 2001, the Alabama State Port Authority issued Series 2001 bonds in the amount of \$17,855,000. The interest rate on the Series 2001 bonds is 5.25% and will be payable semiannually on each April 1 and October 1, beginning April 1, 2002. The maturity date of the bonds is October 1, 2026.

On January 1, 2002, Alabama State University authorized the issuance of \$29,125,000 Series 2002A General Tuition and Fee Revenue Bonds and \$6,775,000 Series 2002B General Tuition and Fee Revenue Bonds. The proceeds from the Series 2002A bonds will be used to 1) advance refund outstanding 1995 Bonds, outstanding 2001B bonds and a portion of the outstanding 1993 bonds 2) redeem and repay outstanding 2001 bonds 3) pay the entire mortgage payable and 4) fund a portion of costs of capital improvements. The proceeds from the Series 2002B bonds will be used to advance refund a portion of the outstanding 1993 bonds.

From October 1, 2001 through December 1, 2001, the Alabama Housing Finance Authority called approximately \$37,720,000 of bonds prior to their scheduled maturities.

On December 1, 2001, Auburn University issued General Fee Revenue Bonds, Series 2001-A in the amount of \$74,750,000. On December 13, 2001, Auburn University issued Athletic Revenue Bonds, Series 2001-A in the amount of \$24,412,607.

On January 1, 2002, the Alabama Drinking Water Finance Authority issued Series 2002-A bonds in the amount of \$37,575,000. The interest rates on the bonds range from 3 percent to 5.25 percent payable semiannually on each February 15 and August 15, beginning February 15, 2002. The maturity date of the bonds is August 15, 2024.

On January 15, 2002, the Alabama Water Pollution Control Authority issued Series 2002-A bonds in the amount of \$32,555,000. The interest rates on the bonds range from 3 percent to 5 percent payable semiannually on each February 15 and August 15, beginning February 15, 2002. The maturity date of the bonds is August 15, 2024.

On February 1, 2002, the Alabama Water Pollution Control Authority issued Series 2002-B refunding bonds in the amount of \$58,425,000. The bond proceeds will redeem the Series 1991 Bonds. The interest rates on the bonds range from 3 percent to 5.375 percent to be paid semiannually on each February 15 and August 15, beginning August 15, 2002. The maturity date of the bonds is August 15, 2014.

In accordance with State Constitutional Amendments, the Alabama Heritage Trust Fund was merged into the Alabama Trust Fund during the first quarter of fiscal year 2002.

## 19 COVENANT VIOLATIONS

During fiscal year 2001, the Alabama Space Science Exhibit Commission was in violation of the following covenants on debt: The Commission shall maintain a minimum of total combined Tangible Net Worth of not less than \$18,000,000 and shall not guarantee, endorse or assume, either directly or indirectly, any indebtedness of any other corporation, person, or entity.

As related to the Letter of Credit expiring on September 30, 2002, Article IV Covenants of Borrower, the Commission was in violation of the covenant to maintain a Tangible Net Worth as of any fiscal year end of at least \$18,000,000 and, at any other time of at least \$13,000,000.

---

As a result of the above-mentioned Letter of Credit covenant violation, the Commission was also in violation of a covenant related to the 2001 Bond Issuance and the related Mortgage, Assignment of Leases and Security Agreement between the Commission and AmSouth Bank dated January 1, 2001.

Per an amended debt agreement dated January 31, 2002 between the Commission and AmSouth Bank, the Commission obtained a waiver for the above mentioned covenant violations for a period of time sufficient to cover the violations.

All bond indentures require that the Commission deliver to the Trustee audited financial statements within 120 days of year-end. The Commission did not comply with this requirement for the year ended September 30, 2001.

# Special Revenue Funds

*Special revenue funds account for specific revenue sources that are restricted to finance particular functions and activities of the State. The individual Special Revenue Funds of the State are combined on a functional basis according to the type of activity.*

**Education Trust Fund (ETF)** accounts for the revenues and expenditures associated with public education.

**Public Road and Bridge Fund** accounts for the revenues and expenditures associated with highway construction, maintenance, and operations.

**Medicaid Fund** accounts for revenues and expenditures associated with the provision of nursing home care, hospital care, and physician services for those eligible for Medicaid benefits.

**Human Resources Fund** accounts for revenues and expenditures associated with the administration of programs to provide financial assistance, such as the Aid to Dependent Children program, and a broad range of social and protective services.

**Public School Fund** accounts for revenues and expenditures which are allocated to local boards of education for support of educational programs.

**Education Department** accounts for federal monies received by the State to support educational programs for elementary and secondary education and rehabilitation and crippled children services.

**Economic and Community Affairs Fund** accounts for revenues and expenditures related to energy management, skills enhancement and employment opportunities, traffic control and accident prevention, and state and regional planning.

**Corrections Fund** accounts for revenues and expenditures associated with the administration of penal and correctional institutions and related activities in the State.

**Public Health Fund** accounts for resources used in the promotion of general physical health. This includes the enforcement of laws relating to public health as well as programs providing preventive and treatment services to the public.

**Revenues Allocated to Local Governments** accounts for revenues from gasoline taxes, motor vehicle licenses, TVA payments, and other revenue sources which are shared with local governments.

**Children First Trust Fund** accounts for tobacco settlement revenues to be used for a variety of programs that benefit children.

**Other Special Revenue Funds** account for various resources used to provide a wide variety of services, the largest of which are:

**Revenue Administrative** administers the collection of almost all state taxes and licenses.

**Industrial Relations** administers the unemployment compensation and industrial safety and accident prevention programs.

**Conservation and Natural Resources** is responsible for the management of the state's game and wildlife resources as well as the management of the state parks system.

**Environmental Management** protects the state's citizens from pollution of the water, land and air.

**Senior Services** administers federal and state programs that provide services for the elderly.

**Professional and Occupational Boards** provide professional and occupational licensing and regulation.

**Rehabilitation Services** administers federal and state programs that aid disabled citizens.

**Emergency Management** works with local and federal authorities to coordinate State disaster assistance.

**Miscellaneous Special Revenue Funds** are aggregated for reporting purposes and account for various other revenues which must be used for specific purposes.

# Debt Service Funds

*Debt Service Funds account for the accumulation of resources which are used for the payment of general long-term debt principal and interest.*

**Industrial Access Road and Bridge Authority** accounts for the accumulation of resources used to pay the interest and principal on debt issued by the Industrial Access Road and Bridge Authority. All debt issued by the authority is used to finance the construction of roads and bridges.

**Corrections Institution Finance Authority** accounts for the accumulation of resources used to pay the interest and principal on debt issued by the Authority for the purpose of financing the construction and renovation of State prisons.

**Judicial Building Authority** accounts for the accumulation of resources used to pay the interest and principal on debt issued by the Authority for the purpose of financing the construction of facilities used by the unified judicial system.

**Public Health Care Authority** accounts for the accumulation of resources used to pay the interest and principal on debt issued by the Authority for the purpose of financing the construction of public health facilities.

**General Obligation Bonds** account for the accumulation of resources used to pay the interest and principal on general obligation bonds.

# Enterprise Funds

*Enterprise Funds are used to account for the operations of State agencies that provide goods and services to the public in a manner similar to private business enterprises. The cost of providing the goods or services are recovered primarily through user charges.*

**Alcoholic Beverage Control Board** operates facilities for the distribution and sale of alcoholic beverages.

**State Parks** operates state park and recreational facilities.

**Prepaid Affordable College Tuition Fund** provides for the operation of the Prepaid Affordable College Tuition program (PACT).

**State Port Authority** provides service for shippers including warehousing, loading, and bulk cargo handling.

**Local Government Employees' Health Insurance** is a public entity risk pool providing health insurance coverage for the employees of local governments.

**Alabama Health Insurance Plan** provides health insurance coverage for citizens who have lost their group health insurance.

**Other Enterprise Funds** are aggregated for reporting purposes to account for other small enterprise funds operated by the State, including the Guaranteed Student Loan Program, the Motor Sports Hall of Fame and the canteen funds of the National Guard and Department of Corrections.

# Internal Service Funds

*Internal Service Funds are maintained to account for the operation of State agencies which provide goods and services to other State agencies on a cost-reimbursement basis.*

**Information Services Fund** provides equipment, computer services, information technology, and planning and coordination in equipment and system selection.

**Telecommunications** provide for the coordination and promotion of the efficiency in the acquisition, operation and maintenance of telecommunications equipment, systems, and networks used by state agencies.

**Service Division** accounts for mail, supply, and motor pool services provided to state agencies.

**Printing and Publications** provide printing services to State agencies.

**State Employees' Health Insurance** provides health insurance coverage for state employees.

**Public Education Employees' Health Insurance** provides health insurance coverage for employees of school systems and junior colleges.

**Correctional Industries and Farms** account for the agricultural operations and manufacturing activities of the State's correctional facilities.

**State and Federal Surplus Property** account for the transfer and sale of surplus property originating from both the federal and state governments.

**Building Renovation Finance Authority** accounts for the rental and maintenance of the buildings in the State Capitol Complex.

**Public Road and Bridge Internal Service Fund** accounts for activities and resources used to produce goods and services for other highway funds and agencies on a cost-reimbursement basis.

**Risk Management** accounts for the resources used to provide insurance coverage for State buildings, school buildings, and their contents against fire and casualty losses. Risk Management also insures state employees against work related injuries as well as the risk of loss from employment-related liability claims.

**Other Internal Service Funds** account for other small internal service funds operated by the Finance Department and the Military Department.

# Trust and Agency Funds

*Trust and agency funds are used to account for assets held by the State in a trustee capacity or as an agent for others.*

## EXPENDABLE TRUST FUNDS

*Expendable Trust Funds account for resources the State holds as trustee. Both the principal and earnings of Expendable Trust Funds may be used for purposes allowed under the trust agreement.*

**Unemployment Compensation Trust** accounts for the collection of unemployment insurance taxes from employers and the payment of unemployment benefits to eligible claimants.

**Abandoned Property** accounts for the custody and disposition of abandoned or unclaimed property.

**Forever Wild Land Trust** acquires, maintains, and protects unique lands and water areas.

**Flexible Employees' Benefits** accounts for an employee cafeteria plan.

## NONEXPENDABLE TRUST FUNDS

*Nonexpendable Trust Funds account for resources the State holds as trustee. The principal of these funds must be preserved and only the earnings may be used for purposes allowed under the trust agreement.*

**Heritage Trust** was established by constitutional amendment. The Trust Fund was created from the proceeds of all sales or lease payments received by the State from January 1, 1981 through October 31, 1981 for the rights to explore and drill for oil and gas in any offshore area. Within 90 days after September 1, 2001, the trust capital of the Heritage Trust Fund will be transferred to the Alabama Trust Fund, and all aspects of the Heritage Trust Fund will terminate.

**Alabama Trust** is an irrevocable, permanent trust fund established by constitutional amendment. The trust fund is comprised of all payments, including royalty payments, received since August 1, 1984 for the sale or lease of rights for offshore exploration and drilling for oil and gas off the Alabama coast.

**Sixteenth Section and School Lands** are permanent trusts established to account for the funds accumulated from the sale or use of properties set aside for educational purposes. Investment earnings benefit local school systems.

**Other Nonexpendable Trusts** are aggregated for reporting purposes to account for other small nonexpendable trusts which promote scientific research, public health, public education, wildlife development, and programs for the elderly

## **PENSION TRUST FUNDS**

*Pension funds account for the resources of retirement plans administered by the state.*

**Peace Officers' Annuity and Benefit** provides a pension benefit to State and local peace officers.

**State Port Authority Hourly Plan and State Port Authority Railway Plan** are retirement funds for certain employees of the State Port Authority department who are not members of the State Employees' Retirement System.

## **AGENCY FUNDS**

*Agency funds account for assets held by the State for other funds, governments, or individuals. Agency funds are custodial in nature (assets equal liabilities) and, therefore, have no revenues, expenditures, or fund balances.*

**State Taxes** aggregates numerous state tax collection funds for financial reporting purposes. This fund accounts for the collection of income taxes, sales taxes, gasoline and motor fuels taxes, motor vehicle licenses, and severance taxes, among others, pending allocation to other funds.

**Taxes Collected For Local Governments** accounts for local taxes which are collected by the state for local governments. These taxes do not represent revenues of the state.

**Payroll** accounts for undistributed withholdings for employee benefits and payroll taxes.

**Other Agency Funds** are aggregated for financial reporting purposes and represent amounts held for child support payments, cash bonds, and numerous other deposits.
