All children attending schools where this program is operating may receive nutrition benefits, which are determined based on the household income and size. Breakfast is served free to children who are determined by the local education agency to have household income levels at or below 130 percent, and at a reduced price to children from households with incomes higher than 130 but at or below 185 percent of the Federal poverty line. Paid breakfast is served to children who are not eligible for free and reduced-price meals. The Secretary prescribes the income eligibility guidelines for free and reduced-price meals by July 1. These guidelines are revised annually according to the Federal Income Poverty Guidelines. Children from households certified to receive benefits through the Supplemental Nutrition Assistance Program (SNAP), Food Distribution Program on Indian Reservations, or Temporary Assistance for Needy Families, and children in Head Start programs are automatically eligible for free meals. Homeless children, children in certain runaway and homeless youth grant programs, migrant children, and foster children are automatically eligible for free meals. All reimbursable meals served under the SBP at the free, reduced-price, and paid categories get cash assistance.

Credentials/Documentation:

Applicant organizations must furnish evidence of nonprofit status. Costs will be determined in accordance with USDA Uniform Federal Assistance Regulations. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Public schools in all States apply to the State education agency, unless the State is approved for a waiver to designate an alternate agency. Appropriate forms may be obtained from the administering agency. Nonprofit private schools and institutions should also apply to the State education agency in most States. In some States, however, the State education agency is prohibited by statute from disbursing Federal funds to nonprofit private schools. In such instances, the application

will be referred to the alternate State agency or the appropriate Food and Nutrition Service (FNS) regional office.

Award Procedure:

The State agency reviews the written application submitted by a school food authority/school or a residential child care institution and, upon determination of eligibility, makes a written agreement with the school or institution for participation in the program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Effective upon approval by the State Agency or FNS regional office as applicable.

Appeals:

The State agency or FNS regional office, as applicable, is responsible for determining a school's eligibility for participation in the SBP.

Renewals:

Permanent, amended as necessary.

Formula and Matching Requirements:

Statutory Formula: The funding formula for cash assistance is set forth in section 4 of the Child Nutrition Act, 42 U.S.C. 1773, on a performance basis by: (1) multiplying the number of paid breakfasts served to eligible children during the fiscal year by a National Average Payment (NAP) prescribed by the Secretary of Agriculture; (2) multiplying the number of breakfasts served free to eligible children by a NAP prescribed by the Secretary for free breakfasts; and, (3) multiplying the number of reduced price breakfasts served to eligible children by a NAP prescribed by the Secretary for reduced priced breakfasts. The amount of Federal funds given the grantee is the sum of the products obtained from these three computations.

Schools with a high percentage of needy children may receive additional payments. The statistical factors used in this formula are: (1) The NAPs; (2) the number of paid breakfasts served; and (3) the number of breakfasts served free or at reduced price to eligible children. The NAPs are prescribed by the Secretary and adjusted each July 1, in accordance with the Food Away From Home series of the Consumer Price Index for All Urban Consumers. The source of this adjustment factor is the Bureau of Labor Statistics. The source of the numbers of breakfasts served, including the number served free or at reduced price, is the monthly programmatic reports submitted to FNS.

Matching requirements are not applicable to this program.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

For the period covered by the agreement on a fiscal year basis. Method of awarding/releasing assistance: by letter of credit.

Reports:

State Agencies, schools, and institutions file monthly reports on the number of meals served, by eligibility type, to claim program funds. Schools and institutions must submit final meal claims to the State no later than 60 days after claiming month. States must submit final program reports to FNS no later than 90 days after the claiming month. No cash reports are required. No progress reports are required. States must submit a final fiscal year grant closeout report to FNS no later than 120 days after the end of the fiscal year to which they pertain. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Schools must maintain full and accurate records of their breakfast programs. Such records must be retained for a period of 3 years after the end of the fiscal year to which they pertain, except that if audit findings have not been resolved, records must be retained beyond the 3-year period until audit findings have

been resolved.

10.555 NATIONAL SCHOOL LUNCH PROGRAM

School Lunch

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Richard B. Russell National School Lunch Act, as amended, 42 U.S.C. 1751, 1760, 1779.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Federally appropriated National School Lunch Program funds are available to each State agency to reimburse participating public and nonprofit private schools, of high school grades or under, including residential child care institutions, for providing nutritious lunches to children. Funds are also available to reimburse schools for snacks served to children enrolled in eligible after school care programs. The meals offered must meet specific nutrition standards in order to be reimbursable. The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for All Urban Consumers. All participating schools must

agree to serve free and reduced price meals to eligible children. Please refer to regulations: 7 CFR Part 210 -- National School Lunch Program, 7 CFR Part 235 -- State Administrative Expense, and 7 CFR Part 245 Free and Reduced Price Eligibility.

Applicant Eligibility:

States, including the District of Columbia and U.S. Territories, as applicable, may apply to administer the National School Lunch Program and work in collaboration with public and nonprofit private schools and other institutions, such as residential child care institutions, to provide nutritious lunches for children. All participating schools and institutions must agree to operate a nonprofit food service that is available to all children regardless of race, sex, color, national origin, age, or disability.

Beneficiary Eligibility:

All children enrolled in schools where this program is operating may receive a lunch daily. Eligibility for free, reduced-price, or paid lunches is determined based on the household income and size. Lunch is available free to children who are determined by the local education agency to have household income levels at or below 130 percent, and at a reduced price rate to children from households with incomes higher than 130 but at or below 185 percent of the Federal poverty line. Lunch is available at the paid rate to children who are not eligible for free and reduced-price meals. The Secretary prescribes the income eligibility guidelines for free and reduced-price meals by July 1. These guidelines are revised annually according to the Federal Income Poverty Guidelines. Children from households certified to receive benefits through the Supplemental Nutrition Assistance Program (SNAP), Food Distribution Program on Indian Reservations, or Temporary Assistance for Needy Families, and children in Head Start programs are automatically eligible for free meals. Homeless children, children in certain runaway and homeless youth grant programs, migrant children, and foster children are automatically eligible for free meals. All reimbursable meals served at the free, reduced-price, and paid categories get cash assistance.

Credentials/Documentation:

Applicant organizations must furnish evidence of nonprofit status. Costs will be determined in accordance with USDA Uniform Federal Assistance Regulations. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

School food authorities must submit a written application to the State agency for any school in which it desires to operate the lunch program. At the local level, households may apply for free or reduced price meals under the lunch program by submitting an application furnished by the Food and Nutrition Service (FNS), the State agency, or the School Food Authority, as applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Public schools/school food authorities in all States apply to the State educational agency, unless the State is approved for a waiver to designate an alternate agency. Appropriate application forms may be obtained from the administering agency. Nonprofit, private schools and institutions should also apply to the State educational agency in most States. In some States, however, the State education agency is prohibited by statute from disbursing Federal funds to nonprofit, private schools. In such instances, the application will be referred to the alternate State agency or the appropriate FNS Regional Office.

Award Procedure:

The State agency reviews the written application submitted by a school food authority/school or a residential child care institution and, upon determination of eligibility, makes a written agreement with the school or institution for participation in the lunch program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application

deadlines.

Range of Approval/Disapproval Time:

Effective upon approval by the State agency or FNS regional office as applicable.

Appeals:

The State agency or FNS regional office, as applicable is responsible for determining a school's eligibility.

Renewals:

Permanent, amended as necessary.

Formula and Matching Requirements:

Statutory Formula: The funding formula for the general cash for food assistance phase of this program is set forth in section 4 of the Richard B. Russell National School Lunch Act, 42 U.S.C. 1753; the formula for special cash assistance is described in section 11 of the Act, 42 U.S.C.1759a. This program is funded on a performance basis. For every lunch served during the applicable fiscal year, the State receives a payment from funds made available under section 4. In addition, the State receives a payment from section 11 funds for each lunch served to a child eligible for free or reduced price lunches. The amounts of such per lunch payments are determined by "National Average Payment" (NAP) factors. The amount due the State under this program is obtained by: (1) multiplying the total number of eligible paid lunches and free and reduced price lunches served during the fiscal year by the applicable section 4 NAP factor for lunches; (2) multiplying the number of free lunches served by the section 11 NAP factor for free lunches; (3) multiplying the number of lunches served at reduced price by the Section 11 NAP factor for reduced price lunches; (4) multiplying the total number of lunches served during the fiscal year in school food authorities which served 60 percent or more free or reduced price lunches in the second preceding school year by \$.02; and (5) adding together the four products obtained thereby. The NAP factors are prescribed by the Secretary of Agriculture in accordance with sections 4 and 11, respectively, of the Act; the numbers of lunches are obtained from programmatic reports submitted to FNS. In addition to the NAP factors, lunches certified as meeting updated meal patterns and nutrition standards receive performance-based cash assistance of an additional 6 cents starting school year 2012-2013, adjusted annually thereafter as specified in 7 CFR 210.4(b)(1)(iii). The funding formula for snacks in after school care programs is described in section 17A of the Act, 42 U.S.C. 1766a. Section 11(a)(3) of the Act requires that the NAP factors be adjusted annually, according to changes in the Food Away From Home series of the Consumer Price Index for All Urban Consumers; the source is the Bureau of Labor Statistics. Also, schools receiving USDA Foods are eligible to receive donated commodities equal in value to the sum of section 6 and section 4 assistance rates, except that up to 5 cents of this amount may be received in cash for processing and handling commodities. In addition, schools receiving USDA Foods are eligible for section 11 free and reduced price meal reimbursements.

Matching Requirements: Percent: 30%. As specified in Section 7 of the National School Lunch Act, State revenue matching must be not be less than 30 percent of the funds received by the State agency under section 4 of the National School Lunch Act beginning in the 1980-81 school year. This program has MOE requirements, see funding agency for further details. See funding agency for further details.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds are made available to State agencies to encourage the consumption of fluid milk by children in public and private, nonprofit schools of high school grade and under, public and private, nonprofit nursery schools, child care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children, except Job Corps centers, provided that these schools and institutions do not participate in a meal service program authorized under the National School Lunch Act or the Child Nutrition Act of 1966. The Child Nutrition Amendments of 1986 expanded eligibility to include children in split session kindergarten and pre-kindergarten programs in nonprofit schools and institutions that do not have access to the Federal meal service program operating in schools the children attend. Disbursement to States is made on the basis of the number of half-pints of milk served to non-needy children, using a reimbursement rate specified by law. Milk served free to eligible needy children is reimbursed at the average cost of a half-pint of milk. Please refer to regulations: 7 CFR Part 215 -- Special Milk Program; 7 CFR Part 235 -- State Administrative Expense; 7 CFR Part 245 -- Free and Reduced Price Eligibility.

Russell National School Lunch Act or the Child Nutrition Act of 1966. This generally includes nonprofit nursery schools, child care centers, settlement houses and summer camps. Schools with split session kindergarten and pre-kindergarten programs can receive subsidies for milk served to children in the split session kindergartens and pre-kindergartens that do not have access to another meal service program operating in the school. All schools and child care institutions that participate must agree to operate this program on a nonprofit basis for all children without regard to race, sex, color, national origin, age or disability.

The reimbursement rate for each paid half-pint of milk served to children is adjusted each school year to correspond to the change in the Producer Price Index for Fluid Milk Products published by the Bureau of Labor Statistics. The statistical factor used for beneficiary eligibility for free milk is 130 percent of the poverty line and the source is the Federal income poverty guidelines. The cost of milk in excess of the Federal reimbursement must be borne by sources within the States (7 CFR Part 215). Disbursement to States is based on the number of half-pints served to children.

10.557 WIC SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN

(WIC Program)

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Child Nutrition Act of 1966, as amended, Section 17, 42 U.S.C. 1786. Healthy, Hunger-Free Kids Act of 2010, Public Law 111-296, 7 U.S.C. 1746.

OBJECTIVES:

To provide low-income pregnant, breastfeeding and postpartum women, infants, and children to age five who have been determined to be at nutritional risk, supplemental nutritious foods, nutrition education, and referrals to health and social services at no cost. WIC also promotes breastfeeding as the feeding method of choice for infants, provides substance abuse education and promotes immunization and other aspects of healthy living.

For Formula Grants, the Food and Nutrition Service (FNS) makes funds available to participating State health agencies and Indian Tribal Organizations (ITOs) that, in turn, distribute the funds to participating local agencies. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified nutrition services and administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion, and health care referrals.

For Project Grants, funding for the competitive Loving Support grant is available for formative research and educational material development in the campaign for breastfeeding promotion and support. This project will effectively build on the successes of the existing Loving Support campaign to inform, motivate and persuade the audience in an effective manner that continues to increase breastfeeding rates among WIC participants and increase support for breastfeeding among those who most influence breastfeeding mothers (their family and friends, health care providers, WIC staff, and relevant community partners).

TYPES OF ASSISTANCE:

FORMULA GRANTS; Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

WIC Program Formula grants are made to State health departments or comparable agencies, Indian tribes, bands, or intertribal councils, or groups recognized by the Bureau of Indian Affairs, Department of the Interior, or the Indian Health Service of the Department of Health and Human Services. These

agencies distribute funds to participating local public or nonprofit private health or welfare agencies. Funds are expended to pay for supplemental foods, nutrition education, breastfeeding promotion and support, health care referrals for participants, and other client services including certification, as well as administrative costs. State agencies are provided Federal funds according to legislative and regulatory formulas. Only local agencies qualifying under State agency applications with formal agreements may operate WIC programs.

The Loving Support Project grant is available to small businesses, nonprofits having a 501(c)(3) status with the IRS, WIC State agencies, institutions of higher education and for profit organizations other than small businesses, public and State controlled institutions of higher education and private institutions of higher education. Qualified applicants are expected to update the existing USDA breastfeeding promotion campaign or update and develop breastfeeding training for WIC staff. The campaign update will be based on a comprehensive social marketing plan with an emphasis on formative research, appropriately framed educational messages, innovative campaign strategies, and updated promotional materials. WIC breastfeeding training curricula for staff fall under the umbrella of the Loving Support campaign. Grant awards are contingent upon availability of funding.

Applicant Eligibility:

A local agency is eligible to apply to deliver locally the services of the WIC Program, provided that: (1) it serves a population of low-income women, infants, and children at nutritional risk; and (2) it is a public or private nonprofit health or human service agency. All local agencies must apply through the responsible State, Indian Tribal Organization or U.S. Territory agency.

The Loving Support grant is available to small businesses, Nonprofits having a 501(c)(3) status with the IRS, institutions of higher education and for profit organizations other than small businesses, public and State controlled institutions of higher education and private institutions of higher education. All applications must be submitted via the Grants.gov portal.

Beneficiary Eligibility:

Pregnant, breastfeeding and postpartum women, infants, and children up to 5 years of age are eligible if: (1) they are individually determined by a competent professional to be in need of the special supplemental foods supplied by the program because of nutritional risk; and (2) meet an income standard, or receive or have certain family members that receive benefits under the Supplemental Nutrition Assistance, Medicaid or Temporary Assistance for Needy Families Programs. They must also reside in the State in which benefits are received.

Credentials/Documentation:

Individuals are certified as meeting an income standard, or as participating in certain other means-tested Federal programs. Certification regarding nutritional need for supplemental foods is determined by local level professionals. As of April 1999, all State agencies were using uniform criteria to determine nutrition risk. Costs are determined in accordance with OMB Circular No. A-87 for State and local governments. The State designated official responsible for ensuring that the program is operated in accordance with program requirements must sign the State Plan and Federal-State Agreement pursuant to program regulations. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Project Grants are posted to grants.gov and applicants must follow the procedures noted in the Request For Application. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Local agencies and retailers must apply to the State agency in writing. Individual participants apply for WIC benefits at an approved local agency. State agencies must submit required documentation to FNS.

Project Grants are posted to grants.gov and applicants must follow the procedures noted in the Request For Application.

10.558 CHILD AND ADULT CARE FOOD PROGRAM (CACFP)

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Richard B. Russell National School Lunch Act, Sections 9, 11, 14, 16 and 17, as amended, 89 Stat. 522-525, 42 U.S.C. 1758, 1759a, 1762a, 1765 and 1766.

OBJECTIVES:

To assist States, through grants-in-aid and other means, to initiate and maintain nonprofit food service programs for children and elderly or impaired adults enrolled in nonresidential day care facilities, children attending afterschool care programs in low-income areas, and children residing in emergency shelters. The United States Department of Agriculture (USDA) operates CACFP in partnership with State administering agencies to provide aid to child and adult care sponsoring organizations, centers, and day care homes for the provision of nutritious foods that contribute to the wellness, healthy growth, and development of young children, and the health and wellness of older adults and chronically impaired disabled persons. Funds are also made available to the States for expenses associated with CACFP administration.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

USDA's Food and Nutrition Service (FNS) makes funds available to States for disbursement to eligible institutions to reimburse their costs in providing meals and snacks to children and adult participants enrolled in nonresidential day care, children attending afterschool care programs, and children residing in emergency shelters. Disbursement is made on the basis of the number of breakfasts, lunches, suppers, and snacks served, using annually adjusted reimbursement rates specified by law. CACFP allows reimbursement for up to two meals and one snack served each day to children through the age of 12, children of migrant workers through the age of 15, and persons with disabilities, in child care centers and day care homes. Adult day care centers receive reimbursement for up to two meals and one snack served each day to enrolled adults who are functionally impaired or age 60 and older. CACFP also provides reimbursement to emergency shelters for up to three meals served each day to residents age 18 and younger. In at-risk afterschool care programs, reimbursement is available for one snack and an additional meal served each day, during the regular school year, to children through the age of 18. All meals must meet USDA standards to be eligible for reimbursement. Funds are also paid to States for administrative expenses related to Program staffing and oversight, as well as for audit expenses associated with CACFP administration.

Applicant Eligibility:

The State or U.S. Territory agency applies for and signs an agreement to receive Federal funds for disbursement. The State agency enters into an agreement with each institution that has been approved for participation. The agreement is permanent and may be amended as necessary to ensure compliance with all Federal requirements. Institutions must agree to operate a nonprofit food service that is available to all eligible children and adult participants regardless of race, sex, color, national origin, age, or disability.

Beneficiary Eligibility:

Approved institutions providing nonresidential day care services may participate in CACFP. Eligible public and nonprofit private organizations may include day care centers, outside-school-hours care centers, family day care homes, and Head Start programs. Private for-profit centers may also participate if at least 25 percent of the children in care (enrolled or licensed capacity, whichever is less) are eligible for free or reduced price school meals or receive benefits under Title XX of the Social Security Act. Also eligible for participation are nonprofit centers which provide nonresidential adult day care, and private for-profit centers if the center receives compensation under Title

XIX of the Social Security Act or Title XX, and at least 25 percent of the adults enrolled in the center receive benefits under Title XIX, Title XX, or a combination of both. Emergency shelters which provide shelter and meals to children experiencing homelessness and at-risk after school care programs in low-income areas are also eligible. Any eligible institution may participate in CACFP upon request with State agency approval.

Credentials/Documentation:

Applicants that are not public or proprietary institutions must furnish evidence of tax-exempt status under the Internal Revenue Code of 1986. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A child or adult care institution submits a written application to the State agency for participation in CACFP.

Award Procedure:

Each State agency enters into a written agreement with FNS for the administration of the Program. An approved child or adult care institution signs a permanent written agreement with the State agency.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

The State agency must make a decision within 30 calendar days of receiving a complete application from the institution.

Appeals:

The administering agency must provide a hearing procedure for local institution grievances.

Renewals:

The agreement is permanent and may be amended as necessary to ensure compliance with all Federal requirements.

Formula and Matching Requirements:

Statutory Formula: Section 17(b) of the Richard B. Russell National School Lunch Act, 42 U.S.C. 1766, describes the funding formula for cash assistance. Program funds are provided to the States through letters of credit. The States, in turn, use the funds to reimburse institutions for costs of food service operations and to support State administrative expenses. Appropriate rates of reimbursement, multiplied by the number of meals served to eligible children or adult participants, represent the basic Program payment that an institution receives for each meal served. The assigned rates of reimbursement are adjusted annually on July 1. For child care centers, adult day care centers, emergency shelters, and at-risk afterschool care programs, the annual adjustment reflects changes in the Food Away from Home series of the Consumer Price Index for All Urban Consumers. For day care homes, the adjustment reflects changes in the Food at Home series of the Consumer Price Index for All Urban Consumers. Donated foods or cash-in-lieu of donated foods are also made available. Program payments to child care or adult day care centers depend on the number and types of meals served to enrolled participants, multiplied by the appropriate rate of reimbursement. Rates for meals served to enrolled children and adult participants in day care centers are determined by their eligibility for free, reduced-price, or paid meals using USDA Income Eligibility Guidelines. All resident children age 18 and younger in eligible emergency shelters receive free meals without application. At-risk afterschool care programs, which must be located in low-income areas, are reimbursed at the free rate for all meals and snacks served to children through age 18. Sponsoring organizations of day care homes are reimbursed for administrative expenses at a national rate based on the number of homes they operate. The level of reimbursement for meals served to enrolled children in day care homes is determined by economic need based

on either the location of the day care home, the income of the day care provider, or the income of an individual child's household. Meals served in day care homes to the provider's own children are reimbursable only if those children are determined eligible for free and reduced-price meals, and at least one other nonresident child is participating in the meal service. The reimbursement for food service is passed on by the sponsoring organization to the day care facility. Matching requirements are not applicable to this program. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is available for the period covered by the agreement. Method of awarding/releasing assistance: by letter of credit.

Reports:

Institutions file monthly reports on Program operations to claim reimbursement for meals served. They must submit final meal claims no later than 60 days after the claiming month. States must then submit final Program reports to FNS no later than 90 days after the claiming month. No cash reports are required. No progress reports are required. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audits may be conducted less frequently under conditions specified in OMB Circular No. A-133. For-profit institutions are subject to audit by their administering State agencies.

Records:

Institutions must maintain full and accurate records of Program operations for a period of 3 years after the end of the fiscal year to which they pertain. However, where there are unresolved audit findings, records must be retained until there is satisfactory resolution of all audit issues.

Account Identification:

Range and Average of Financial Assistance:

No Data Available.

TAFS Codes:

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: A total of 2.08 billion meals were served to approximately 4.3 million children and 500,000 adult participants. A child care center cared for and fed approximately 54 children on an average day and received \$37,086 a year in meal reimbursement through CACFP. A family day care home cared for and fed approximately 7 children on an average day and received slightly more than \$7,046 a year in meal reimbursement. The number of at-risk afterschool care centers in CACFP rose 15 percent from FY 2015, with an average of 70 children daily. Fiscal Year 2017: FNS anticipates approximately 2.20 billion meals to be served to children and adult participants in child care centers, family day care homes, and adult care centers. New standards will be fully implemented in FY 2017, which will further improve the nutritional quality of the meals served. Fiscal Year 2018: The current estimate projects 2.25 billion meals to be served in child care centers, family day care homes, and adult care centers, which would represent a 2.4 percent increase above the FY 2017 estimate. The change is mainly the result of an anticipated 3.4 percent increase in free meals provided in centers, while meals served in day care homes is projected to decline.

10.559 SUMMER FOOD SERVICE PROGRAM FOR CHILDREN (SFSP)

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Richard B. Russell National School Lunch Act, Sections 9, 13, 14, and 26, as amended, 42 U.S.C. 1758, 1761, 1762a, and 1769g; Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act of 2010, P.L. 111-80, Section 749(g)(1).

OBJECTIVES:

To assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for children. The United States Department of Agriculture (USDA) operates SFSP in partnership with State agencies and local organizations to provide free meals to eligible children during the summer months and at other approved times, when school is not in session. In addition, since 2010, FNS has implemented several types of demonstration projects to test alternative methods for feeding children during the summer months, such as the Summer Electronic Benefits Transfer (EBT) for Children grants. FNS supports this demonstration through two EBT models: a debit card model that allows participants to redeem benefits at SNAP-authorized retailers and a food package model that allows participants to redeem benefits for a prescribed set of foods at WIC-authorized retailers.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

USDA's Food and Nutrition Service (FNS) makes funds available to States for disbursement to eligible service institutions (sponsors) which provide free meals to children in areas where at least 50 percent of the children meet the income eligibility criteria for free and reduced price meals. Meals may be served to children 18 and younger, and to individuals over 18 who participate in State-approved school programs for persons with disabilities. SFSP generally operates during the months of May through September at site locations where regularly scheduled food services are provided for children. Sites may also participate in SFSP from September through May if an area school is closed because of an emergency situation. Sponsors operating food programs for children on school vacation under a continuous year-round calendar may apply for participation in other months. Reimbursement may be paid for one meal and one snack or two meals to each child each day. Camps and sites primarily serving children of migrant workers may be approved to serve up to three reimbursable meals to each child each day. Meals must meet USDA standards to be eligible for reimbursement. Funds are also paid to participating State agencies for administrative expenses related to program staffing, operation, and oversight.

Summer demonstration projects either address funding limitations that restrict participation or provide an alternate approach to summer meals needed by children unable to access traditional congregate meal service sites. Assistance must be used for specific activities authorized by Child Nutrition legislation.

There may be restrictions as required by the legislation. Only States that formally apply and are selected by FNS are eligible to implement this demonstration to provide benefits to free and reduced-price eligible children whose families consent to participate.

Applicant Eligibility:

The State or U.S. Territory agency applies for and signs an agreement to receive Federal funds for disbursement. The State agency enters into an agreement with each sponsor that has been approved for participation. The agreement is permanent and may be amended as necessary to ensure compliance with all Federal requirements. Sponsors must agree to operate a nonprofit food service that is available to all eligible children regardless of race, sex, color, national origin, age, or disability.

Beneficiary Eligibility:

A service institution that conducts a regularly scheduled program for children from areas in which poor economic conditions exist is eligible to participate as a sponsor in this program. Sponsors include public or private nonprofit school food authorities; public or private nonprofit colleges or universities operating the National Youth Sports Program during the months of May to September; units of local, municipal, county, or State governments; and other faith or community-based private nonprofit organizations. Public or private nonprofit residential or nonresidential summer camps may also participate. However, at camps, reimbursement will only be paid for meals served to enrolled children who are individually determined to be eligible for free and reduced price school meals under USDA Income Eligibility Guidelines.

Credentials/Documentation:

Applicants that are not public institutions must furnish evidence of tax-exempt status under section 501(a) of the Internal Revenue Code of 1986. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. An applicant submits a written application to the State agency for participation in SFSP as a sponsor. FNS selects States for the Summer EBT demonstration through a formal grants process.

Award Procedure:

Each State agency enters into a written agreement with FNS for the administration of the Program. An approved sponsor enters into a permanent written operating agreement with the State agency. Awards for the Summer EBT demonstration are governed by amendments to State agency plans of operation or Federal/State agreements.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

The State agency must make a decision within 30 calendar days of receiving a complete and correct sponsor application. If an incorrect application is received, the State agency must notify the applicant within 15 days and provide technical assistance to complete the application.

Appeals:

The State agency must have a hearing procedure for local institution grievances.

Renewals:

The agreement is permanent and may be amended as necessary to ensure compliance with all Federal requirements.

Formula and Matching Requirements:

Statutory Formula: Sections 13(b) and (k) of the Richard B. Russell National School Lunch Act, 42 U.S.C. 1761, describe the funding formulas for cash

assistance. Cash reimbursement to States under this program is the product obtained by multiplying the number of meals served by maximum rates of reimbursement established by USDA. State agencies use the cash assistance to reimburse sponsors for eligible meals served to eligible children. Since all meals are served free, all meals of the same type are funded at the same rate. Rates are adjusted annually on January 1, to reflect changes in the "Food Away from Home" series of the Consumer Price Index for All Urban Consumers. Matching requirements are not applicable to this program. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is available for the period covered by the agreement. Summer EBT funds may be awarded to continue projects in summer 2017. Administrative funds may be awarded as two-year grants to support the demonstrations through the 2018 project year. Method of awarding/releasing assistance: by letter of credit.

Reports:

Sponsors file monthly reports on program operations to claim reimbursement for meals served. States must then submit final program reports to FNS no later than 90 days after the claiming month. No cash reports are required. No progress reports are required. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Audits may be conducted less frequently under conditions specified in OMB Circular No. A-133.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: FNS focused on decreasing childhood hunger in the summer months through targeted assistance at the State and local level and efforts to improve access in rural and tribal communities. During FY 2016, 48,618 meal service sites provided 154.5 million meals to children. The number of meals served declined 5.5 percent from FY 2015. Compared to FY 1990, meals have increased 70.2 percent from 91.2 million. Approximately 57.2 percent of the meals served were lunches, 28.2 percent were breakfasts, and the remaining 14.7 percent were suppers or snacks. FNS awarded Summer EBT funding to 2015 grantees to continue and expand their efforts to reach more children in rural, tribal, and other areas of significant need. Grantees were approved to target benefits to over 250,000 children, nearly 90 percent more than were served in 2015. Fiscal Year 2017: Funding needed for SFSP will increase to support 188.1 million meals. In an effort to institutionalize successful strategies, FNS has begun to shift from targeting assistance in focus States to promoting sustainable growth nationwide. In summer 2017, Summer EBT grantees have been approved to spend up to \$30.3 million to continue providing summertime

nutrition assistance to high-need children. Seven of the nine grantees are expanding their projects to serve more low-income children in rural communities in 2017 by adding communities within their State or Tribal Nation and boosting outreach to eligible children. Fiscal Year 2018: The current estimate projects a 2 percent increase in SFSP cost that would support 199.4 million meals, an increase of approximately 11.3 million meals (or 6.0 percent) above the estimate for FY 2017. Grants to two new applicants to operate demonstrations in 2018 will allow FNS and the States to test strategies for building Summer EBT infrastructure and engaging local communities. FNS intends to again conduct a competitive process that would award \$31.5 million in Summer EBT grants.

To improve the health of low-income elderly persons at least 60 years of age by supplementing their diets with nutritious USDA Foods, which are distributed through public and non-profit private local agencies such as food banks and community action organizations. Children who were certified and receiving CSFP benefits as of February 6, 2014, can continue to receive assistance until they are no longer eligible under the program rules in effect on February 6, 2014.

TYPES OF ASSISTANCE:

FORMULA GRANTS; SALE, EXCHANGE, OR DONATION OF PROPERTY OR GOODS

USES AND USE RESTRICTIONS:

USDA Foods and administrative grants are made to State agencies and Indian Tribal Organizations (ITOs) recognized by the Department of the Interior or the appropriate area office of the Indian Health Service of the Department of Health and Human Services. These agencies distribute USDA Foods and funds to participating local public or private nonprofit agencies. Federal funding for administrative costs may only be used in making USDA Foods and nutrition education available to eligible beneficiaries. USDA Foods can only be made available to eligible beneficiaries and cannot be sold, exchanged, or otherwise disposed of without prior specific approval by the Department.

Applicant Eligibility:

Agreements are made between USDA and the State agency or an ITO recognized by the Department of the Interior or the appropriate area office of the Indian Health Service of the Department of Health and Human Services.

As required by the Agricultural Act of 2014 (P.L. 113-79), women, infants, and children who apply to participate in CSFP on February 7, 2014, or later cannot be certified to participate in the program. Such individuals may be eligible for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), the Supplemental Nutrition Assistance Program (SNAP), and other nutrition assistance programs.

States also establish income guidelines to determine program eligibility for all participants. For elderly persons, income guidelines must be set at or below 130 percent of Federal poverty income guidelines. For women, infants, and children who were certified and receiving benefits as of February 6, 2014, and whose enrollment has continued without interruption, separate income and adjunctive income eligibility standards continue to apply, based on program regulations.

States may require that participants be at nutritional risk, as determined by a physician or local agency staff. This section requires local agencies to have tax-exempt status, or to have applied for such status. Individual participants may apply for program benefits at an approved local agency.

10.572 WIC FARMERS' MARKET NUTRITION PROGRAM (FMNP)

WIC Farmers' Market Nutrition Program (FMNP)

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Healthy, Hunger-Free Kids Act of 2010, Pub. L. No. 111-296, 424,124 Stat. 3260; Child Nutrition Act of 1966, as amended, 17(m)(1), 42 U.S.C. 1786.

OBJECTIVES:

The dual purposes of the WIC Farmers Market Nutrition Program (FMNP) are: (1) To provide resources in the form of fresh, nutritious, unprepared foods (fruits and vegetables) from farmers markets to women, infants, and children who are nutritionally at risk and who are participating in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) or are on the waiting list for the WIC Program; and (2) To expand the awareness, use of and sales at farmers markets.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

The FMNP is administered through a federal/State partnership in which the Food and Nutrition Service (FNS) awards cash grants to States, U.S. Territories and federally recognized Indian Tribal Organizations (ITOs) to provide low-income women, infants and children with coupons that can be exchanged for eligible foods at farmers markets, and roadside stands. As a prerequisite to receiving federal funds for the FMNP, each applying or participating State agency must submit a State Plan of Operations describing the manner in which the State agency intends to implement, operate and administer all aspects of the FMNP within its jurisdiction. Congress provides funds for the FMNP. Federal funds support 100 percent of the food costs of the program. Federal funds also support 70 percent of the administrative cost of the program. States operating the FMNP must match the federal administrative funds allocated to them for administrative costs by contributing at least 30 percent of the administrative cost of the program. A State agency's administrative costs under the FMNP may not exceed 17 percent of its total FMNP costs. ITOs may provide a lower match, but not less than 10 percent of the administrative cost of the program. The matching funds can come from a variety of sources, such as State or local funds, private funds, similar programs, or program income. Federal FMNP benefits (coupons) may be issued only to participants in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) or to persons who are on a waiting list to receive WIC benefits. These coupons can be used to buy eligible foods from farmers, farmers' markets or roadside stands that have been approved by the State agency to accept FMNP coupons. The federal FMNP benefit level, whether a household or individual, may not be less than \$10 and no more than \$30 per year, per recipient. However, State agencies may supplement the federal benefit level with State, local or private funds. Congress provides funds for the FMNP. Federal funds support 100 percent of the food costs of the program. Federal funds also support 70 percent of the administrative cost of the program. States operating the FMNP must match the

federal administrative funds allocated to them for administrative costs by contributing at least 30 percent of the administrative cost of the program. A State agency's administrative costs under the FMNP may not exceed 17 percent of its total FMNP costs. ITOs may provide a lower match, but not less than 10 percent of the administrative cost of the program. The matching funds can come from a variety of sources, such as State or local funds, private funds, similar programs, or program income. Federal FMNP benefits (coupons) may be issued only to participants in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) or to persons who are on a waiting list to receive WIC benefits. These coupons can be used to buy eligible foods from farmers, farmers' markets or roadside stands that have been approved by the State agency to accept FMNP coupons. The federal FMNP benefit level, whether a household or individual, may not be less than \$10 and no more than \$30 per year, per recipient. However, State agencies may supplement the federal benefit level with State, local or private funds.

Applicant Eligibility:

Each State agency desiring to administer the FMNP shall annually submit a State Plan of Operations and enter into a written agreement with FNS for administration of the Program in the jurisdiction of the State agency. New State agencies are selected based on the availability of funds, after base grants, for currently participating State agencies. Local FMNP agencies are selected by participating State agencies based on concentration of eligible WIC participants and access to farmers' markets.

Beneficiary Eligibility:

Women, infants (over 4 months old) and children that have been certified to receive WIC program benefits, or who are on a waiting list for WIC certification, are eligible to participate in the FMNP. State agencies may serve some or all of these categories.

Credentials/Documentation:

A signed Federal/State Agreement (FNS-339) is necessary before funds can be allocated to a participating FMNP State agency. Costs will be determined in accordance with FNS guidelines and instructions. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Application is made through submission of a State Plan of Operations as required by law. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The State agency is responsible for the fiscal management of, and accountability for, FMNP-related activities for farmers, farmers markets and roadside stands. Each State agency may decide whether to authorize farmers individually, farmers markets, roadside stands, or all of the above. All contracts or agreements entered into by the State agency for the management or operation of farmers, farmers markets and roadside stands shall conform with the requirements of 7 CFR part 3016, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments. Only farmers, farmers markets and roadside stands authorized by the State agency may redeem FMNP coupons. Only farmers authorized by the State agency or that have a valid agreement with an authorized farmers market may redeem coupons. The State agency contacts the farmer/farmers' market to inform them of qualification. Individual participants apply for FMNP benefits at approved local WIC agencies.

Award Procedure:

Funds are awarded by the Department on the basis of funding formulas to State agencies. If the available funds are insufficient to meet the base grant levels for current FMNP grantees, a pro-rata reduction will be applied to the grant levels awarded to all participating FMNP State agencies. If additional funds become available for the FMNP, such funds would first be distributed evenly among the current grantees to make whole their base grants for that fiscal year. Grant payments are made by a letter of credit.

Deadlines:

Nov 15, 2017 By November 15 of each year, each applying or participating State agency shall submit to FNS for approval a State Plan of Operations for the following year as a prerequisite to receiving federal funds.

Range of Approval/Disapproval Time:

FNS will provide written approval or denial of a completed State Plan of Operations or amendment within 30 days. As required by law (at Section 1786(m)(6)(A) of the Child Nutrition Act of 1966, as amended), the Secretary must inform each FMNP State agency of the award of funds by February 15 of each year.

Appeals:

All decisions by the FNS are final.

Renewals:

This Program is authorized beginning October 1 of any calendar year and ending September 30 of the following calendar year.

Formula and Matching Requirements:

Statutory Formula: Statutory Formula: Statutory formula can be found at Section 17(m)(3) of the Child Nutrition Act. As a prerequisite to the receipt of Federal funds, a State agency must agree to contribute program income or State, local or private funds equal to at least 30 percent of its administrative program cost. Provided that sufficient funds are available, each current State agency will be funded at its most recent year's level. Remaining funds are divided between current States for expansion and new States, based on a 75 to 25 percent ratio, respectively.

Matching Requirements: Percent: 30%. As a prerequisite to the receipt of Federal funds, a State agency must agree to contribute program income or State, local or private funds equal to at least 30 percent of its administrative program cost. Indian Tribal Organizations may provide a negotiated match contribution that is less than 30 percent but not less than 10 percent. State contributions for similar programs may satisfy the State matching requirement.

MOE requirements are not applicable to this program.

10.574 TEAM NUTRITION GRANTS

Team Nutrition Training Grants

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Team Nutrition Training Grants are authorized under Public Law 111-296, which amended Section 19 of the Child Nutrition Act of 1966.

OBJECTIVES:

Team Nutrition is an initiative of the U.S. Department of Agriculture (USDA) Food and Nutrition Service (FNS) to support their Child Nutrition Programs through training and technical assistance for foodservice, nutrition education for children and their caregivers, and school and community support for healthy eating and physical activity.

Team Nutrition Training Grants for Healthy School Meals have been identified in USDA's national Strategic Plan for Training and Technical Assistance as one of the anchor delivery systems for supporting the implementation of USDA's nutrition requirements and the Dietary Guidelines for Americans in Child Nutrition programs. Team Nutrition's goal is to improve children's lifelong eating and physical activity habits by using the principles of the Dietary Guidelines for Americans and the USDA Food Guidance System.

FY 2015 (Competitive) Team Nutrition Training Grant Objectives

In FY 2015, State agencies were able to apply for a competitive Team Nutrition Training Grant. The objectives of the FY 2015 competitive grant included:

1. Use behavioral economics in the NSLP and/or CACFP to develop environmental cues to increase children's choice of whole grains, fat-free or low-fat dairy products, fruits, vegetables, and legumes.
2. Provide training for child nutrition foodservice staff on implementing the most recent Dietary Guidelines for Americans, applying for the HealthierUS School Challenge, maximizing the use of USDA Foods, and meeting meal pattern requirements.

3. Provide schools or child care providers participating in the USDA Child Nutrition programs with technical assistance to create and maintain a healthier school or child care environment, including strategies supporting implementation and evaluation of wellness policies as specified in the Healthy Hunger Free Kids Act of 2010.

In FY 2015, State agencies could apply for up to \$350,000 in funding through the competitive grants program, and these grants had a two year period of performance.

FY 2016 (Competitive) Team Nutrition Training Grant Objectives

In FY 2016, State agencies will be able to apply for a competitive Team Nutrition Training Grant. The objectives of the FY 2016 competitive grant include:

1. Assist students participating in the National School Lunch and School Breakfast Programs with meeting the recommendations set forth in the 2015-2020 Dietary Guidelines for Americans by providing appealing and nutritious meals, nutrition education, and school environments that are conducive to healthy eating.
2. Improve the nutritional content of meals and snacks offered in child care centers and family day care homes participating in the Child and Adult Care Food Program (CACFP) to be consistent with healthy eating patterns and to assist young children with meeting the 2015-2020 Dietary Guidelines for Americans.

In FY 2016, State agencies can apply for up to \$500,000 in funding through the competitive grants program, and these grants will have a three year period of performance.

Healthier US School Challenge has its own separate CFDA number 10.543

FY 2017 Team Nutrition Training Grant Objectives

In FY 2017, State agencies will be able to apply for a competitive Team Nutrition Training Grant. The objectives of the FY 2017 competitive grant include:

1. Assist schools/districts administering NSLP and SBP programs in providing: 1) appealing and nutritious school meals, 2) nutrition education, and 3) school environments that promote healthy eating; ultimately encouraging students to follow healthy eating patterns which align with the recommendations set forth in the 2015-2020 Dietary Guidelines for Americans.
2. Improve the nutritional content of meals and snacks offered in child care centers and family day care homes participating in the CACFP to be consistent with the updated CACFP meal patterns and to assist participating children with following healthy eating patterns that align with the recommendations set forth in the 2015-2020 Dietary Guidelines for Americans.

In FY 2017, State agencies can apply for up to \$500,000 in funding through the competitive grants program, and these grants will have a three year period of performance.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Team Nutrition Training Grants provide discretionary funding to assist State agencies administering the National School Lunch and School Breakfast Programs (NSLP and SBP) and the Child and Adult Care Food Program (CACFP) in achieving the Team Nutrition goal of improving children's lifelong eating and physical activity habits using the most current Dietary Guidelines for Americans. States may award sub-grants to schools and institutions in NSLP, SBP, and CACFP, following the established oversight procedure as well as the Guidance for Interpreting Cost Principles of Sub-Grants. Activities funded through FY 2015, 2016, and 2017 Team Nutrition Training Grants programs employ or will employ the three behavior-focused strategies of Team Nutrition: Provide training and technical assistance to child nutrition professionals to enable them to prepare and serve nutritious meals that appeal to children. Increase nutrition education through multiple communication channels to help children have the knowledge, skills, and motivation to make healthy food and

physical activity choices as part of a healthy lifestyle.

Build support for healthy school and child care environments that encourage nutritious food choices and physically active lifestyles.

Applicant Eligibility:

State agencies that administer the Child Nutrition Programs (e.g., NSLP, SBP, CACFP) may apply for a Team Nutrition Training Grant. States agencies must apply individually, and only one agency per State may apply each year.

10.576 SENIOR FARMERS MARKET NUTRITION PROGRAM

Senior Farmers Market Nutrition Program (SFMNP)

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Farm Security and Rural Investment Act of 2002, Pub. L. No. 107-171, 4402, 116 Stat. 334
7 U.S.C. 3007.

OBJECTIVES:

The purposes of the Senior Farmers Market Nutrition Program (SFMNP) are:
(1) Provide resources in the form of fresh, nutritious, unprepared, locally grown fruits, vegetables, honey, and herbs from farmers markets, roadside stands, and community supported agriculture (CSA) programs to low-income seniors;
(2) Increase the domestic consumption of agricultural commodities by expanding or aiding in the expansion of domestic farmers markets, roadside stands, and CSAs; and (3) Develop or aid in the development of new and additional farmers markets, roadside stands, and CSAs.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

The SFMNP is administered through a federal/State partnership in which the Food and Nutrition Service (FNS) awards cash grants to States, U.S. Territories and federally recognized Indian Tribal Organizations (ITOs) to provide low-income seniors with coupons that can be exchanged for eligible foods at farmers markets, roadside stands, and community supported agriculture (CSA) programs. The majority of grant funds must be used for benefits. State agencies may use up to 10 percent of their grants for program administrative costs. Coupons are issued to eligible SFMNP participants to buy eligible foods from farmers, farmers markets, roadside stands, or CSAs that have been authorized by the State agency to accept SFMNP coupons. The federal SFMNP benefit level, whether a household or individual, may not be less than \$20 or no more than \$50 per year, per recipient. However, State agencies may also supplement the federal benefit level with State, local or private funds.

Applicant Eligibility:

Each State agency desiring to administer the SFMNP shall annually submit a State Plan of Operations and enter into a written agreement with FNS for administration of the Program in the jurisdiction of the State agency. New State agencies are selected based on the availability of funds, after base grants, for currently participating State agencies. Local SFMNP agencies are selected by participating State agencies based on concentration of eligible senior participants and access to farmers' markets.

Beneficiary Eligibility:

Persons eligible for the program are low-income seniors, generally defined as individuals who are at least 60 years old and who have household incomes of not more than 185 percent of the federal poverty income guidelines (published each year by the Department of Health and Human Services). Some State agencies accept proof of participation or enrollment in another means-tested program, such as the Commodity Supplemental Food Program (CSFP) or Supplemental Nutrition Assistance Program (SNAP), for SFMNP eligibility. Individual participants apply for SFMNP benefits at authorized SFMNP local agencies.

Credentials/Documentation:

A signed Federal/State Agreement (FNS-339) is necessary before funds can be allocated to a participating SFMNP State agency. Costs will be determined in accordance with FNS guidelines and instructions. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Application is made through submission of a State Plan of Operations as required by law. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The State agency is responsible for the fiscal management of and accountability for SFMNP-related activities for farmers, farmers markets, roadside stands, and CSA programs. Each State agency may decide whether to authorize individual farmers and farmers markets separately, or to authorize only farmers markets. In addition, each State agency may decide whether to authorize roadside stands and/or CSA programs. The State agency may authorize a farmer for participation in a farmers market, a roadside stand, and/or CSA program simultaneously. All

contracts or agreements entered into by the State agency for the management or operation of farmers, farmers markets, roadside stands, and/or CSA programs shall conform to the requirements of 7 CFR 3016. Only farmers, farmers markets, and/or roadside stands authorized by the State agency may redeem SFMNP coupons.

Award Procedure:

Funds are awarded by the Department on the basis of funding formulas to State agencies. If the available funds are insufficient to meet the base grant levels for current SFMNP grantees, a pro-rata reduction will be applied to the grant levels awarded to all participating SFMNP State agencies. To the extent permitted by available funds, each State agency shall receive at least \$75,000 or the amount that the State agency received for the most recent prior fiscal year in which the State participated, if that amount is less than \$75,000. If additional funds become available for the SFMNP, such funds would first be distributed evenly among the current grantees to make whole their base grants for that fiscal year. Grant payments are made by a letter of credit.

Deadlines:

Nov 15, 2017: Set forth in the announcement. By November 15 of each year, each applying or participating State agency shall submit to FNS for approval a State Plan of Operations for the following year as a prerequisite to receiving federal funds.

Special Instructions

Letters of Commitment or Endorsement

FNS recognizes that the grant proposals responding to this RFA will directly affect State agency operations. Therefore, if the grant proposal is from an entity other than a State agency, it must show that a State agency strongly endorses or is involved in the proposed project in order to be considered.

Please refer to the two types of letters described below to determine which is appropriate to submit with your proposal. Please note that State agencies are able to submit an application on their own in which case a letter of endorsement is needed. If the State agency is partnering with another entity on the project a letter of commitment from that entity is required.

State agencies may choose to submit an application on their own as well as additional application(s) with other organizations. Please refer to the section above on Limitations on the Number of Applications. Applications that require a letter of commitment or a letter of endorsement which fail to provide one will be considered non-responsive and eliminated from consideration. FNS will NOT consider additions or revisions to applications once they are received. Therefore, unless the applicant is a State agency submitting an application on its own, a letter of commitment or letter of endorsement must be included in the application package to be considered for funding. Such letters may be addressed to the FNS Grant Officer.

A Letter of Commitment is required if the grant proposal is from a State agency working in partnership with another organization(s). The letter(s) of commitment must describe:

- the organizations role in the project,
- the amount of time it intends to commit to the project and an attestation that it will cooperate with the grant applicant in implementing the project, and
- must be provided on the respective organizations letterhead and be signed by an authorizing individual.

A Letter of Endorsement is required if an applicant is not partnering with a State agency. The State agency's letter of endorsement must:

- explain that the State agency is aware of the projected impact on its system and is supportive of the proposed project, and
- be on the respective State agency's letterhead and be signed by an authorizing official. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application packages should be prepared in accordance with instructions in a specific Request for Application (RFA) and sent to the grant officer identified in the

RFA.

Award Procedure:

Following the initial screening process, FNS will assemble a peer panel group to review and determine the technical merits of each application. The peer panel will evaluate the proposals based on how well they address the required application components. The peer panel members will recommend applications for consideration for a grant award based on the evaluation scoring. The selecting official reserves the right to award a grant to meet agency priorities, program balance, geographical representation, or project diversity.

The selecting official will consider the panel recommendations. In general, awards will be based on rank funding order. However, FNS reserves the right to fund out of rank order to achieve agency priorities (such as to grant an award to an entity that includes a joint effort between a State agency and a community-based or faith-based organization, demographic, or socioeconomic diversity, etc.). If the panel review indicates that FNS has received few or no technically acceptable proposals, the selecting official may determine that FNS will make no awards, or commit less than the \$5 million set aside for this purpose.

10.586 SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS AND CHILDREN; NUTRITION EDUCATION INNOVATIONS

WIC Nutrition Education Innovations Grant, WIC Periconceptional Grant

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

National Agriculture Research, Extension, and Teaching Policy Act of 1977, Section 1403(8), 7 U.S.C. 3102, Section 1403(8), 7 U.S.C 3102.

OBJECTIVES:

These awards enable Food and Nutrition Service (FNS) to enter into grants and cooperative agreements with States and local governments, universities, hospitals and non-profit organizations to identify, develop, and undertake projects to meet FNS program needs and the food, nutrition, and health of program eligible participants. The grantees and recipients are expected to work cooperatively with FNS to:

- Support researcher-initiated projects that use a common approach to reporting findings to ensure transparency and facilitate a meta-analysis of all projects;
- Coordinate activities among researchers;
- Effectively use technology and digital media to achieve desired outcomes; and
- Advance communication and coordination to improve target behaviors.

The grants and cooperative agreements plan to enable FNS to be more responsive to program needs and the food, nutrition, and health needs of FNS program participants.

The objective of the WIC Periconceptional Grant is to establish a university-based grant series for researcher-initiated projects to demonstrate creative approaches to evaluate the impacts of WIC on periconceptional nutrition. FNS focus for this project is the direct and indirect effects of WIC participation by one or more family members during the periconceptional period and the implications for service delivery. During the periconceptional period, the time period immediately prior to conception and in the first few days and weeks following conception, nutrition can impact placental and embryonic development with critical lifelong implications. This project supports a university-based grant series for researcher-initiated projects to demonstrate creative approaches to evaluate WIC impacts on periconceptional nutrition, coordinate activities among researchers, and widely disseminate findings from current research.

The WIC Nutrition Education Innovations' Grant's objective is to enhance the effort to identify, develop, evaluate, and disseminate innovative and effective WIC nutrition education interventions. This is to be accomplished by providing grant funding for a university-based center with this charge, including a program of sub-grants to support development and evaluation of WIC-focused researcher-initiated innovations from researchers across the nation.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

For both the WIC Periconceptional Grant and the WIC Nutrition Education Innovations Grant, the following uses and use restrictions apply:

Cooperative Agreement Grants will be made to State and local governments, universities, hospitals, and non-profit organizations for awarding cooperative agreements, and grants to design, develop and evaluate innovative approaches for Food and Nutrition Service (FNS) programs, such as WIC, to meet FNS

program needs and to strengthen their impact on the food, nutrition and health of program eligible participants. The grant and cooperative agreement recipient is task with:

- making sub-grants,
- coordinating efforts among sub-grantees,
- evaluating impact of FNS programs, such as WIC, on food, nutrition and health,
- providing a summary and syntheses of these and related efforts, such as meta-analysis on the results,
- composing and coordinating a conference on observations and findings, and
- providing FNS with cost neutral approaches to improving FNS programs.

FNS' primary objective for these grants and cooperative agreements is to support interest in exploring better ways to improve and assess Food and Nutrition Service program needs and their impact on the food, nutrition and health of program eligible participants. The grants should enhance knowledge and further research activities by the academic community, FNS and others. See the RFP. The grant and cooperative agreement funds are provided to recipients (grantees) responsible to spend the funds in accordance with what is set forth in the grant or cooperative agreement, and applicable Federal circulars such as A-110. The source and use of the funds for the grants and cooperative agreements will be tied to a project of interest to one or more of FNS' program areas. FNS has the discretion to select (through competition) what institution will receive the funds and to what research endeavors they will be applied, assuming that research is not specified in the law or other directive.

Applicant Eligibility:

The grant is to be used to establish grants and cooperative agreements to identify, develop and undertake projects to meet Food and Nutrition Service (FNS) program needs and the food, nutrition, and health needs of program eligible participants.

Beneficiary Eligibility:

Cooperative agreements are awarded to State and local governments, hospitals, non-profit organizations and accredited colleges/universities offering advanced degrees at the PhD level in biological and social sciences such as sociology, psychology, education, nutrition, public health and economics. This is a requirement for the selected recipient of the grants and cooperative agreements, not the sub-grantees. Cooperative agreement recipients are to award sub-grants to researchers to identify, develop, and evaluate interventions and innovative approaches to strengthen the impact of Food and Nutrition Service programs, such as WIC, on the food, nutrition, and health of program eligible participants.

Credentials/Documentation:

EMP

FEDERAL AGENCY:

Foreign Agricultural Service, Department of Agriculture

AUTHORIZATION:

The Emerging Markets Program is authorized by the Food, Agriculture, Conservation, and Trade Act of 1990 (FACT Act), as amended by the Federal Agriculture Improvement and Reform Act of 1996 (FAIR Act) Section 1542 (d).

OBJECTIVES:

The primary objective of the Emerging Markets Program is to promote, enhance, or expand the exports of U.S. agricultural commodities to overseas emerging markets through cost-share assistance to eligible organizations that implement an Emerging Markets Program. The program supports the activities of U.S. agricultural organizations aimed at enhancing the food and rural business systems of eligible emerging markets.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

Emerging Markets Program funds are authorized through project agreements that serve as binding instruments and create a legal obligation on the part of the Commodity Credit Corporation (CCC) to make appropriated funds available to the participant. The agreement creates a cooperative relationship between CCC and the implementor with each side contributing resources to support achievement of mutual goals. Program funds help finance activities such as feasibility studies, market research, sectorial assessments, orientation visits, specialized training, and business workshops. The Program is not intended for projects targeted at end-user consumers. Ineligible activities include in-store promotions, restaurant promotions, branded product promotions, administrative and operational expenses for trade shows and advertising, except in connection

with specific technical assistance activities such as training seminars. The specific restrictions upon the use of the assistance are detailed in the program regulations at 7 CFR 1486.

Applicant Eligibility:

Applicants must be a: (1) U. S. agricultural or agribusiness organization -- nonprofit, trade association, university, consultant group (under certain conditions), (2) State Department of Agriculture, or (3) USDA agency (or other Federal agency involved in agricultural issues) or commercial entities.

(1) Assistance to U.S. individual experts in assessing the food and rural business systems of other countries. This type of EMP project must include all three of the following:

- Conduct an assessment of the food and rural business system needs of an emerging market;
- Make recommendations on measures necessary to enhance the effectiveness of these systems; and
- Identify opportunities and projects to enhance the effectiveness of the emerging market's food and rural business systems.

(2) Travel assistance to enable individuals from emerging markets to travel to the United States so that these individuals can, for the purpose of enhancing the food and rural business systems in their countries, become familiar with U.S. technology and agribusiness and rural enterprise operations by consulting with food and rural business system experts in the United States.

(3) Travel assistance to enable U.S. agricultural producers and other individuals knowledgeable in agricultural and agribusiness matters to travel to emerging markets to assist in transferring their knowledge and expertise to entities in emerging markets. Such travel must be to emerging markets. Travel to developed markets is not eligible under the program even if the traveler's targeted market is an emerging market.

(4) Technical assistance to implement the recommendations, projects, and/or opportunities identified by assistance under (1) above. Technical assistance that does not implement the recommendations, projects, and/or opportunities identified by assistance under (1) above is not eligible under the EMP.

(Proposals that do not fall into one or more of the four categories above, regardless of previous guidance provided regarding the EMP, are not eligible for consideration under the program.)

10.610 EXPORT GUARANTEE PROGRAM

The GSM-102 Program

FEDERAL AGENCY:

Foreign Agricultural Service, Department of Agriculture

AUTHORIZATION:

OMB 7 CFR 1493; Agricultural Trade Act of 1978, Executive Order 7 U.S.C. 5602, 5622, 5661, 5662, 5663, 5664, 5676; 15 U.S.C. 714b(d), 714c(f). Executive Order 13175, Title 7, Part 1493, Section A, 15 U.S.C 714.

OBJECTIVES:

The U.S. Department of Agriculture's (USDA) Export Credit guarantee Program (GSM-102) provides credit guarantees to encourage financing of commercial exports of U.S. agricultural products, while providing competitive credit terms to buyers. By reducing financial risk to lenders, credit guarantees encourage exports to buyers in countries, mainly developing countries that have sufficient financial strength to have foreign exchange available for scheduled payments. The program guarantees credit extended by the private banking

sector in the U.S. (or, less commonly, by the U.S. exporter) to approved foreign banks using dollar-denominated, irrevocable letters of credit for purchases of U.S. food and agricultural products by foreign buyers. USDA's Foreign Agricultural Service (FAS) administers the program on behalf of the Commodity Credit Corporation (CCC), which issues the credit guarantees. GSM 102 covers credit terms of up to three years; maximum terms may vary by country.

TYPES OF ASSISTANCE:

Guaranteed/Insured Loans

USES AND USE RESTRICTIONS:

CCC guarantees payments due from approved foreign banks to exporters or financial institutions in the U.S. However, the financing must be obtained through normal commercial sources. Typically, 98 percent of principals and a portion of interest are covered by a guarantee. Because payment is guaranteed, financial institutions in the U.S. can offer competitive credit terms to the foreign banks, usually with interest rates based on the London Inter Bank Offered Rate (LIBOR). Any follow-up on credit arrangements between the foreign bank and the importer are negotiated separately and are not covered by the CCC guarantee.

Applicant Eligibility:

Export Credit guarantee Program (GSM-102) provides credit guarantees to encourage financing of commercial exports of U.S. agricultural products, while providing competitive credit terms to buyers. By reducing financial risk to lenders, credit guarantees encourage exports to buyers in countries, mainly developing countries, that have sufficient financial strength to have foreign exchange available for scheduled payments. This Program provides guarantees to lenders.

Beneficiary Eligibility:

Exporters or the exporters assignee are the direct beneficiaries and must meet the applicant eligibility requirements. Interested parties, including U.S. exporters, foreign buyers, banks, may request that the CCC establish a GSM-102 program for a country or region. Prior to announcing the availability of guarantees, the CCC evaluates the ability of each country and foreign bank to service CCC guaranteed debt.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. CCC must qualify exporters for participation before accepting guarantee applications. An exporter must have a business office in the U.S. and must not be debarred or suspended from any U.S. government program. Financial institutions must meet established criteria and be approved by CCC. CCC sets limits and advises each approved foreign bank on the maximum amount CCC will guarantee for that bank. The

Award Procedure:

The CCC-approved foreign bank issues a dollar-denominated, irrevocable letter of credit in favor of the U.S. exporter, ordinarily advised or confirmed by the financial institution in the U.S. agreeing to extend credit to the foreign bank. The U.S. exporter may negotiate an arrangement to be paid as exports occur by assigning to the U.S. financial institution to the right to process that may become payable under the CCC's guarantee. Under this arrangement, the exporter would also provide transaction-related documents required by the financial institution, including a copy of the export report, which must also be submitted to CCC.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Please contact the headquarters or regional office for additional approval information.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 7, Chapter 14, Part 1493. CCC will review documents submitted under a claim. If all information and documents are in good order and meet the requirements of the regulations, CCC will pay to the exporter (or the exporter's assignee) the lesser of 1) the guarantee value stated in the payment guarantee, plus eligible interest; 2) the guaranteed percentage, indicated in the payment guarantee, of the exported value as indicated in the Evidence of Export, plus eligible interest.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The payment guarantee applies to a credit period established in the application, and coverage begins either on the date(s) of export or the date when interest begins to accrue, whichever is earlier. Coverage will continue during the credit term specified in the payment guarantee. However, the payment guarantee does not become effective until the date of export. Method of awarding/releasing assistance: by letter of credit.

Reports:

No reports are required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Recipients under this program are subject to audit by the Office of the Regional Inspector General, U.S. Department of Agriculture.

Records:

For CCC audit purposes, the U.S. exporter must obtain documentation to show that the commodity arrived in the eligible country, and the exporter or the exporter's assignee must maintain all transaction documents for five years from the date of completion of all payments.

Account Identification:

10.665 SCHOOLS AND ROADS - GRANTS TO STATES

Payments to States

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Secure Rural Schools and Community Self Determination Act of 2000, Division C, Section 601(a), 16. U.S.C. 7101-7153; 16 U.S.C. 500.

OBJECTIVES:

To share receipts from the National Forests and supplemental mandatory appropriations with States in which the National Forests are situated.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

For Federal fiscal years 2008 through 2011, reauthorized one year for FY 2012, reauthorized one year for FY 2013, and reauthorized for two years in 2015 to provide for payments in FY 2015 and FY 2016. The Secure Rural Schools Act allows counties in which national forests are situated to elect to share in the State payment (based on a formula in the Act) or to share in the state's 25-percent payment (based on the 7-year rolling average of receipts from national forests in the State). The fiscal year 2014 payment was made to states in May 2015. The 25-percent payments to states are to be used for the benefit of public schools and public roads in the counties in which national forests are situated. An eligible county that elects to receive a share of the State payment (based on the formula in the Act) must under some circumstances allocate a portion of that payment for title II special projects on national forests or title III county projects, or both. The portion of the Secure Rural Schools Act State payments not allocated for these purposes are to be used to benefit public schools and public roads in counties in which national forests are situated. The payments to benefit schools and roads are commonly called title I funds. Funds allocated by counties for title II special projects are reserved in a special account in the General Treasury and may be used by the Secretary of Agriculture for projects that improve the maintenance of existing infrastructure, enhance forest ecosystems, and restore and improve land health and water quality on national forests. Funds allocated by counties for title III county projects may be used only to: (1) carry out activities under the Firewise Communities program to provide homeowners in fire sensitive ecosystems education on, and assistance with implementing, techniques in home siting, home construction, and home landscaping that can increase the protection of people and property from wildfires; (2) reimburse the participating county for search and rescue and other emergency services, including firefighting, that are performed on a national forest after the date on which the use was approved, and paid for by the participating county; and (3) develop community wildfire protection plans in coordination with the Forest Service acting on behalf of the Secretary of Agriculture.

Applicant Eligibility:

Title I payments are made to States or territories of the United States to be allocated to counties in which national forests are situated. Title II project funds are reserved in special account in the U.S. Treasury and may be used by the Secretary of Agriculture for the purpose of entering into and implementing cooperative agreements with willing Federal agencies, State and local governments, private and nonprofit entities, and landowners. (16 U.S.C 7122). Title III funds are paid to respective states to be passed-through to participating counties.

Beneficiary Eligibility:

A beneficiary of title II special project funds is a person or entity that receives a grant or enters into a cooperative agreement with the Secretary of Agriculture to carry out a project for protection, restoration, and enhancement of fish and wildlife habitat, and other resource objectives consistent with the purposes of the Secure Rural Schools Act on national forests and on non-national forest land where projects would benefit the resources on national forests. (16 U.S.C. 7122)

A beneficiary of title III funds is a participating county in which a national forest is situated that has elected to allocate a portion of its State payments for title III county projects.

Credentials/Documentation:

OMB circulars apply to title II special projects implemented using Financial Assistance instrument for public benefit projects. OMB circulars are not applicable to projects when implemented using partnership transaction on or adjacent to National Forest System (NFS) Lands. No Credentials or documentation are required for title I or title III payments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For Title II projects implemented using partnership instrument on or adjacent to NFS lands, 2CFR200 is not applicable for mutual interest-mutual benefit programs.

Award Procedure:

Contact a near-by national forest resource advisory committee coordinator for information about awards or other implementation of title II projects recommended by a resource advisory committee prior to the deadline.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For title II, within 30 days of a rejection decision the Forest Supervisor shall notify the resource advisory committee in writing of the rejection and the reasons for the rejection.

Appeals:

A decision to reject a title II project is not subject to administrative appeal or judicial review. (16 U.S.C 7124).

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Statutory Formula: Under title I - Secure Payments for States and Counties Containing Federal Land, each county in an eligible state elected to receive one of the following payments: a share of the states 25- percent rolling average payment, or a share of the State payment calculated using the formula in the Secure Rural Schools Act. The payment to the state under the Secure Rural Schools Act is the sum of the county elections in that state. The 25-percent payments to states, is an amount equal to the annual average of 25-percent of amounts received for the applicable fiscal year and each of the preceding 6 fiscal years from each national forest. This amount is used to calculate a county's share of the states 25-percent payment. The sum of shares for counties that elect to receive this payment is paid to the state under the Secure Rural Schools Act. State payments for fiscal years 2008 through 2014 were calculated using a complex formula with multiple factors, including acres of proclaimed national forest within an eligible county, the average 3 highest 25-percent payments made to each eligible State for each eligible county for the eligibility period 1986 through 1999, and the annual per capita personal income for each county. The sum of shares for counties that elect to receive this payment is paid to the state under the Secure Rural Schools Act.

Matching Requirements: There are no matching requirements for the 25-percent payment to states or for the State payment. Acquisition management regulations and procedures applicable to the Forest Service for purchases, contracts, grants, and agreements may impose matching requirements on title II projects.

MOE requirements are not applicable to this program. Length and Time Phasing of Assistance (102):

The 25-percent payments and State payments for amounts allocated to title I and title III are generally made by December 31st or as soon thereafter as practicable each year after the close of the applicable fiscal year. Title II funds are not paid to the state but are reserved in a special account in the General Treasury available for projects recommended by a resource advisory committee and approved by the Forest Supervisor acting on behalf of the Secretary of Agriculture. The authority for each resource advisory committee to recommend title II projects was extended by P.L. 114-10 until September 30, 2017. Funds

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Funding for the Cooperative Forest health Protection program is provided to states to help support a base level of professional forest health expertise for non-federal forest managers. Grants for this program are allocated to states using a formula that is based on the number of acres of non-federal forest land within the states, other factors, and amount of funding available through annual appropriations.

Applicant matching for cooperative Forest Health Protection programs and projects that treat specific forest health problems on non-federal lands is required and is 50%. In cases where it is mutually agreed upon that an applicant will treat federal lands as part of a cooperative project or program, the Forest Service reimbursement is 100% for the federal portion. However, applicant matching rates may be adjusted in emergency or extraordinary situations. Forest

Service cost-share rates for activities involving development of new and improved forest health protection methods and technologies, and the conduct of special projects and evaluations are negotiated on a project-by-project basis with the grantee. Exceptions from the 50% cost-share requirement must be approved by the Deputy Chief for State and Private Forestry. The applicant share of cooperative programs may be in the form of cash, services, or in-kind contributions. If a state elects to consolidate the annual Forest Service financial assistance, in lieu of functional cost sharing mechanisms, the total consolidated payment to any state during any fiscal year may not exceed the total amount of non-federal funds expended to implement its state forest resources program during that year. Treatment funds and activities cannot be a part of the consolidated payment and must stand alone to meet the 50% match requirement (See FSM 3431.22).

MOE requirements are not applicable to this program.

**10.681 WOOD EDUCATION AND RESOURCE CENTER (WERC)
(WERC)**

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Public Law 105-277, Div. A, Section 101(e) Title III, Section 343, 112 Stat. 2681-231, 2681-297; Cooperative Forestry Assistance Act of 1978, as amended, 16 USC 2101 et. seq.; Forest and Rangeland Renewable Resources Act of 1978, as amended, 6 USC 1600-1614.

OBJECTIVES:

To provide technical assistance and funds, on a cost-share basis, for projects that enhance opportunities for sustained forest products production for primary and secondary wood industries located in the eastern hardwood forest region of the United States. In order to maintain and improve the health and stewardship of our Nation's forests, local wood-using industries need to be vibrant and able to utilize a wide variety of resources from the forest. Priorities include:

- Maintain the economic competitiveness of primary and secondary wood industries. Examples include:
 - 1) Encouraging the adoption of new technology to improve competitiveness and profitability.
 - 2) Bringing information and technology about processing, marketing, and business-related skills as well as urban wood utilization to existing and emerging businesses, and
 - 3) Developing utilization options that improve forest stewardship and health.
 - 4) Support activities that maintain or enhance harvesting industry capacity to serve the wood industry.

Increase the knowledge and information about how the wood industry can contribute to the green building movement. Examples include chain of custody certification for sustainable wood products as well as life cycle analysis for a range of wood products.

Increase the knowledge, information, and promotion of how carbon sequestration by wood products can provide a competitive edge to a sustainable forest products industry. An example includes developing specific carbon storage factors for a range of wood products.

Develop technology and markets to address urgent issues on a global or domestic scale, including:

- 1) Sanitizing wood packaging materials, firewood, and similar products to eliminate these pathways for the transport of insect and disease pests, and
- 2) Developing markets for and using unexpected increases in the volume of urban and rural wood due to new pest introductions (for example, emerald ash borer) and weather events such as tornadoes and ice storms.

Increase the sustainable use of woody biomass to meet our Nations needs for energy, raw materials, and reductions of hazardous fuels. Examples include public/private partnerships for using woody biomass in heating and cooling, process energy, cogeneration, district energy systems, and solid and liquid fuel production. Projects may also develop or maintain local markets and forest industry infrastructure by using woody biomass for both energy and value-added products. Provide key information to address the economic, social and ecological aspects of woody biomass production and use: including sustainable supplies, harvesting techniques, forest management, plantation development, and environmental implications.

10.690 LAKE TAHOE EROSION CONTROL GRANT PROGRAM**FEDERAL AGENCY:**

Forest Service, Department of Agriculture

AUTHORIZATION:

Lake Tahoe Restoration Act, Public Law 106-506, as amended by Department of the Interior and Related Agencies Appropriations Act for Fiscal Year 2004, Public Law 108-108.

OBJECTIVES:

To make annual payments to the governing bodies of each of the political subdivisions (including public utilities) located in the Lake Tahoe Basin to be used primarily for erosion control and water quality projects. The goal of the program is to provide federal assistance to address urban stormwater runoff pollution, the primary source of pollutants (fine sediment and nutrients) affecting the clarity of Lake Tahoe. This program addresses urban runoff from public roads and right of ways.

To fund a competitive grant award program for research projects high in technical merit and relevant to land management and regulatory agencies working in the Tahoe Basin. The goal of the program is to promote applied, timely, relevant research that addresses natural resource management needs in the basin. Research funded through this program addresses key management questions, includes input from agencies, produces decision-support tools that are useful and accessible, fosters collaboration and communication, builds on previous research, and ultimately addresses the science needs identified in the Lake Tahoe Environmental Improvement Program. The environmental goals of the Lake Tahoe Environmental Improvement Program are defined using thresholds that were established to protect the natural environment and maintain public health and safety within the basin. The threshold categories are: 1) water quality, 2) wildlife, 3) soil conservation, 4) scenic resources, 5) air quality, 6)

recreation, 7) vegetation, 8) noise, and 9) fisheries.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

Only after water quality and soil conservation thresholds have been achieved, funds may be used to address other environmental threshold categories. Payments shall be used only to carry out a project or proposed project that is part of the environmental improvement program adopted by the Tahoe Regional Planning Agency in 1998.

Applicant Eligibility:

Eligible applicants for National Forest System awards includes State Forestry or equivalent agencies, tribes, non-profits, and municipalities in the local governing bodies of political subdivisions in the Lake Tahoe basin.

Eligible applicants for competitive research awards includes State Agricultural Experiment Stations, universities and colleges, State and local governments, U.S. Territories, nonprofit research institutions or organizations, international organizations, individuals, and for-profit organizations.

Beneficiary Eligibility:

Beneficiary eligibility for National Forest System awards include governing bodies of each of the political subdivisions (including public utilities) located in the Lake Tahoe Basin.

Beneficiary eligibility for competitive research awards include organizations and scientists involved in basic and applied research activities related to forest and rangeland renewable resources.

Credentials/Documentation:

No credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Submission of an annual list of priority projects, along with written proposals for each of the identified priority projects. The USFS has chosen to adopt the State guidelines for the format of these proposals, since they meet all the needs for project narratives for federal grant considerations, with one additional requirement. That additional requirement is clear identification of sources and amounts of proposed match funding.

Implementation of construction projects under awarded grants are not allowed until a signed project decision under NEPA has been made, allowing the use of federal grant funds for implementation. Local Office monitors grant awards to assure compliance of this restriction. Planning, design, and monitoring grants do not require an environmental impact assessment. An environmental impact assessment is required for this program.

For competitive research awards, applicants must adhere to the requirements of the current Request for Proposals as stipulated by the Pacific Southwest Research Station. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Project narratives submitted through the pre-application process are reviewed by an interagency technical advisory committee convened by the Federal grants program managers. Projects are then identified for award, along with instructions for any needed revisions to the project narratives. At that time, eligible applicants submit revised narratives along with standard application forms and assurances to the Local Office, as furnished by the Federal agency.

For competitive research awards, a complete proposal must be submitted following guidelines provided by the Pacific Southwest Research Station. The proposal must explain in detail the work to be undertaken, the qualifications of key personnel involved in the work, other resources such as equipment, facilities, and services available or needed, and a proposed budget for each fiscal year during the life of the proposed grant. A short biographical sketch of the principal investigator and a list of his or her principal publications should be

included.

Award Procedure:

National Forest System will send an award letter to grantee, with identification of grant requirements, in letter from Local Office.

Research award proposals must compete for priority, showing technical competence and demonstrating the ability to meet regional needs. Research grants cooperative agreements are made only in support of forestry research and monitoring of the Lake Tahoe Basin. Unsolicited proposals can be awarded for innovative or unique approaches to the proposed project.

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. For competitive research grants or cooperative agreements contact Pacific Southwest Research Station's Tahoe Science Coordinator.

Appeals:

Contact Research Station for guidance regarding competitive research grants or cooperative agreements.

Renewals:

From 60 to 90 days. Extensions can be made for individual grants as long as end dates do not exceed five years post award date.

For competitive research awards requests for continued support will be considered as equal in importance and in competition with pending proposals. Applications submitted for continued support should be identical to a new proposal, except that a resume of progress to date must be added.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: Percent: 50%. For National Forest System awards, notwithstanding section 9(b) of Public Law 106 506, funds hereinafter appropriated under Public Law 106506 shall require matching funds from non-Federal sources on the basis of aggregate contribution to the Environmental Improvement Program, as defined in Public Law 106506, rather than on a project-by-project basis, except for those activities provided under section 9(c) of that Act, to which this amendment shall not apply.

For competitive research awards, as authorized by Public Law 106506 section 6(b) and 6(d), the applicant's contribution is negotiated for grants. The proposed budget by fiscal year shows the estimated cost of the complete project from grant funds and value of resources to be contributed by the applicant. Salaries of academic personnel for periods when they receive salary for teaching should not be included for payment from grant funds. The minimum matching contribution for Cooperative Agreements must constitute at least 20-percent of the estimated total cost of the project. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants are awarded for a period not to exceed 5 years. Invoices may be submitted no more frequently than monthly. See the following for information on how assistance is awarded/released: Payments made based on authorization and negotiation of provisions with cooperators.

Reports:

Accomplishment reports are required at least annually, but not more than quarterly as detailed in the applicable OMB Circulars and the grant award. A final accomplishment report, financial expenditures report, and final as-built project design drawings are required within 90 days of project completion.

For competitive research awards, in addition to project-specific reports and products, all funded projects are required to submit quarterly project updates in January, April, July, and October and annual accomplishments reports to comply with the requirements of the Tahoe Science Program. Proposals must account for these reports in the project budgets and timelines. A final progress report showing all tasks complete and a final accomplishments report must be submitted along with the final project report and/or products. The final invoice

and the final federal financial report (SF-425) must be submitted within 90 days of the Pacific Southwest Research Station agreement end date. No cash reports are required. No progress reports are required. Financial expenditures reporting is required. SF-425. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Financial and programmatic records must be retained for three years from the date of submission and approval of final financial reports. All grantees need to maintain adequate systems for collecting and recording statistical data.

CRITERIA FOR SELECTING PROPOSALS:

Grants must address planning, construction, or monitoring of projects identified in the Tahoe Regional Planning Agency environmental improvement program (EIP). Projects submitted from this list are selected based on the annual priority list provided by the eligible local governments, and direction provided in the LTRA: 1) The total amounts appropriated for payments under this subsection shall be allocated by the Secretary of Agriculture based on the relative need for and merits of projects proposed for payment under this section. 2) To the maximum extent practicable, for each fiscal year, the Secretary of Agriculture shall ensure that each political subdivision in the Lake Tahoe basin receives amounts appropriated for payments under this subsection.

The Pacific Southwest Research Station (PSW) will complete an administrative review of all submitted proposals to ensure that proposal specifications as outlined in the Request for Proposals are met. Proposals passing the administrative review will be forwarded to the Tahoe Science Consortium (TSC). The TSC will coordinate technical reviews of the proposals. Proposals passing technical review will be forwarded to Tahoe Basin agency personnel for relevancy reviews. The TSC will coordinate a synthesis of the results from the technical reviews and agency relevancy reviews to create a list of proposals recommended for funding. PSW will review the suite of recommended proposals to finalize funding allocations; proposals recommended for funding are not guaranteed funding due to constraints on funding allocations. Final funding allocations for recommended proposals will be determined by the number of projects recommended for funding and individual project budgets. Some projects may be identified as alternates to receive support should funds become available during the negotiation of awards. PSW reserves the right to negotiate scopes of work, budget amounts, and deliverables with Principal Investigators based upon feedback from the review process and to comply with Forest Service policies. Projects may be required to modify their proposed indirect cost rates and/or demonstrate cost share contributions. Once the recommendations and funding allocations have been finalized, PSW will forward the package of recommended projects to the Tahoe Regional Executive Committee (TREX) and to the Bureau of Land Management (BLM) for final approval.

10.699 PARTNERSHIP AGREEMENTS

Partnership Agreements

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

National Agricultural Research, Extension, and Teaching Policy Act of 1977, Public Law 95-113, 7 U.S.C 3318 - 3319a; Federal Technology Transfer Act of 1986, Public Law 96-480, 15 U.S.C 3710a; Cooperative Funds and Deposits Act of December 12, 1975, Public Law 94-148, 16 U.S.C 565a1 - a3; Wyden Amendment , Public Law 105-277, Sec 323, 16 U.S.C 565a-1; Interior and Related Appropriations Act of 1992 (Challenge Cost-Share Authority) , Public Law 102-154; Public Land Corps Healthy Forests Restoration Act of 2005, Public Law 109-154, 16 U.S.C 1701; 2014 Farm Bill, Agriculture Conservation Experienced Service (ACES) Program, Public Law 113-79, Section 8302, Public Law 113-79.

OBJECTIVES:

To increase participation by partners in all authorized Forest Service programs and activities.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Partnership agreements and cooperative agreements are entered into in support of the U.S. Forest Service's mission. The U.S. Forest Services mission is to sustain the health, diversity, and productivity of the nations forests and grasslands to meet the needs of present and future generations. The agency manages 193 million acres of public land, provides assistance to state and private landowners, and maintains the largest forestry research organization in the world.

The U.S. Forest Service may approach or be approached by a potential partner to enter into a partnership agreement that results in a joint accomplishment of work benefiting both organizations. The principal purpose of partner

agreements is the creation of partnerships in support of projects of mutual interest and mutual benefit to each party. Partnership agreements are considered non-assistance agreements and are not considered grants or cooperative agreements as those terms are used in the Federal Grants and Cooperative Agreements Act, 31 U.S.C. 6301 et seq.

The principal purpose of partner agreements is the creation of partnerships in support of projects of mutual interest and mutual benefit to each party. Mutual interest exists when both parties benefit in the same qualitative way from the objectives of the agreement. If one party independently has an interest in a project that is shared by the other party, and both parties pool resources to obtain the end result of the project, mutual interest exists. Most of authorities requires a mutual interest agreement.

Applicant Eligibility:

The Forest Service partners with non-profits; for-profit; institutions of higher education; federal, state, local, and Native American tribe governments; individuals; foreign governments and organizations.

Beneficiary Eligibility:

The Forest Service has partnership authorities to enter into agreements and cooperative arrangements with willing members of the public, which include but are not limited to, for profit; non-profits; institutions of higher education; federal, state, local, and Native American tribe governments; foreign governments and organizations.

Credentials/Documentation:

The partner must maintain current information in the System for Award Management (SAM) until receipt of final payment. This requires review and update to the information at least annually after the initial registration, and more frequently if required by changes in information. System for Award Management (SAM) means the Federal repository into which an entity must provide information required for the conduct of business as a Cooperative. Additional information about registration procedures may be found at the SAM Internet site (currently at <https://www.sam.gov>).

Also, the partner must immediately inform the U.S. Forest Service if they or any of their principals are presently excluded, debarred, or suspended from entering into covered transactions with the Federal Government according to the terms of 2 CFR Part 180. Additionally, should the partner or any of their principals receive a transmittal letter or other official Federal notice of debarment or suspension, they shall notify the U.S. Forest Service without undue delay. This applies whether the exclusion, debarment, or suspension is voluntary or involuntary. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

The U.S. Forest Service may approach or be approached by a potential partner to enter into a partnership or cooperative agreement. Any party may initiate discussions to enter into an agreement. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. A partnership agreement is not considered a procurement contract under the Federal Acquisition Regulations (FAR) or a grant as that term is used in the Federal Grants and Cooperative Agreements Act, 31 U.S.C. 6301 et seq. Partnership agreements do not incorporate 2 CFR Part 200 into the terms of the agreement. A partnership agreement is a mutually binding legal relationship between two or more parties creating obligations that are enforceable or otherwise recognizable at law.

Partnership agreements do not require competition as the partner is required to provide a contribution or match to the agreement. Contributions are necessary to meet the intent and requirements of mutual interest mutual benefit partnership as stated in the authorizing authority provided to the U.S. Forest Service by Congress. Contributions from either party may include cash, services, in-kind contributions, donation of equipment, volunteer labor, and so forth.

Award Procedure:

Partnership agreements and their supporting documentation are both negotiated and drafted in collaboration with prospective partners prior to entering into an agreement. Discussions cover at a minimum, the appropriate statutory authority; a description of the project, including methodology and technical specifications; contributions and the responsibilities of the parties; financial plan; the period of performance; monitoring and accomplishments reporting. Regardless of who initiates discussions, all elements of a project are subject to negotiation. Any party may terminate the agreement at any time.

Except for provisions necessary for legal compliance, all elements of a partnership agreement are subject to negotiation and modification. Both parties are expected to negotiate, resolve, and document differences in cost and/or proposed work in writing. Any party may terminate the agreement at any time. None of the parties should perform work outside the scope of the existing instrument or in excess of the funding prior to the execution of a modification.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Modification and extensions of agreements are subject to project requirements and available resources.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: For partnership agreements, the partners contribution should not be less than 20 percent. The partner may satisfy the matching requirement by providing cash, real or personal property, services, and/or in-kind contributions, such as volunteer labor. The only exception to the matching requirement is for agreements that take place primarily outside of National Forest System lands that cite the Wyden Authority. Contributions on these agreements are negotiable and may require competition.

There is no matching requirement for Forest Service Research & Development's Cost-Reimbursable Agreements.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Partnership Agreements may last up to a maximum of 5 years. See the following for information on how assistance is awarded/released: Payment is generally made on a reimbursement basis. Cash advances are limited to agreements citing P.L. 94-148. 10.701 STEWARDSHIP AGREEMENTS

Stewardship End Result Contracting

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

The Agricultural Act of 2014., Public Law 113-79, 16 U.S.C 8205.

OBJECTIVES:

Stewardship End Result Contracting authorizes use of contracts and agreements to help achieve land management goals while meeting local and rural community needs, including contributing to the sustainability of rural communities and providing a continuing source of local income and employment. It focuses on the end result ecosystem benefits and outcomes, rather than on what's removed from the land.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The general purpose of stewardship contracting is to achieve land management goals for National Forest System lands while meeting local and rural community needs. A stewardship contract or agreement should be used when it is the most effective tool for accomplishing land management objectives.

Stewardship agreements are awarded on a best approach determination that takes into account a technical and cost evaluation. Stewardship agreements typically include the exchange of goods (such as forest products) for services, use of retained receipts, or a combination of both. Use of stewardship agreements requires that mutual interest and mutual benefit between the Forest Service and the partner exist in the same qualitative way. All stewardship projects must comply with the National Environmental Policy Act (NEPA). Stewardship projects must be consistent with plans relevant to the project, including: land and resource management plans; range allotment plans; fire management plans; and facilities master plans. All projects must comply with applicable laws, regulations, and agency direction affecting the project areas, including those addressing wilderness areas, endangered species, clean air and clean water, inventoried roadless areas, minimum road system (36 CFR 212.5(b)/FSM 7710.3), designations for motor vehicle use (36 CFR 212.56), and any other requirements for designated special areas. All contracts and agreements must comply with applicable laws, regulations, and agency direction. All stewardship projects must comply with the National Environmental Policy Act (NEPA). Stewardship projects must be consistent with plans relevant to the project, including: land and resource management plans; range allotment plans; fire management plans; and facilities master plans.

All projects must comply with applicable laws, regulations, and agency direction affecting the project areas, including those addressing wilderness areas, endangered species, clean air and clean water, inventoried roadless areas, minimum road system (36 CFR 212.5(b)/FSM 7710.3), designations for motor vehicle use (36 CFR 212.56), and any other requirements for designated special areas. All contracts and agreements must comply with applicable laws, regulations, and agency direction.

Applicant Eligibility:

The Forest Service may enter into stewardship agreements with any entity that has the ability to either perform the work or contract it out. This can include, state and local governments, Federally recognized tribes and non-profit organizations.

Appropriate Stewardship Activities include (but are not limited to):

Road and trail maintenance or obliteration to restore or maintain water quality;
Soil productivity, habitat for wildlife and fisheries or other resource values;
Setting of prescribed fires to reduce wildfire hazards, improve the composition, structure, condition, and health of forest stands, or to improve wildlife habitat;
Removing vegetation or other activities to promote healthy forest stands, reduce wildfire hazards, or achieve other land management objectives;
Watershed restoration and maintenance;
Restoration and maintenance of wildlife and fish habitat;
Control of noxious and exotic weeds and reestablishment of native plant species.

Beneficiary Eligibility:

Stewardship Agreements should not be used for:
Forest Service overhead costs;
Forest Service salaries for contract/agreement development, preparation, or administration;
Project planning or environmental analysis;
Construction of administrative facilities or major developed facilities;
Utilization of forage within an allotment that could be authorized through a grazing permit;
Protection, operation, or maintenance of improvements resulting from stewardship projects;
Research;
Preparation and planning of administrative studies;
Land Acquisition.

Credentials/Documentation:

When negotiating Stewardship Agreements, the discussions must cover at a minimum, a description of the project, including methodology and technical specifications; both parties contributions; the responsibilities of the parties; deliverables, reporting requirements; the period of performance; and monitoring. Regardless of who initiates discussions, all elements of a project are subject to negotiation at any time.

The Forest Service will provide the partner, at a minimum, a map of the stewardship project area, a description of work to be accomplished; the desired outcome (end results) and the environmental analysis documents. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. When negotiating Stewardship Agreements, there are a number of resource activities to consider. The Forest Service will provide to the partner the necessary resource information in order to complete the technical proposal and any potential bid packages. The technical proposal will be submitted to the Forest Service for joint review and approval.

If timber will be removed, the Forest Service will provide the timber sale appraisal, end result work statements, and specifications similar to the A section of a timber sale contract, identified as Appendix E in the Stewardship Agreement.

If there is a technical component to the project the Forest Service will describe the desired end results and/or provide specifications to accomplish the work.

Throughout this process, the Forest Service and partner are communicating to work out the details to accomplish the project.

Award Procedure:

Stewardship projects are typically developed in a collaborative process between the Forest Service and stakeholders and approved by a regional forester or forest supervisor prior to execution of a Stewardship Agreement. A stewardship project may include one or many land management activities affecting areas from a few acres in size up to one or more watersheds. Many stewardship projects may be completed by a partner throughout the life of the (master) agreement.

In order to use a stewardship agreement, a few elements must exist: the regional forester must approve the stewardship proposal submitted by the national forest unit; mutual interest and mutual benefit between the Forest Service and the partner exist in the same qualitative way; and both parties are contributing to the project to achieve mutually beneficial results.

Retained receipts generated from stewardship projects can only be used on the same or other stewardship projects. We can use appropriated funds and retained receipts to accomplish stewardship activities with an emphasis on restoration,

product removal is not required. Monitoring and support should be an integral part of the collaborative process when deciding which projects to pursue using retained receipts.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Other - Not Specified.

Appeals:

Not Applicable.

Renewals:

Stewardship agreements may be in place for up to 10 years; and may use retained receipts from other stewardship projects to accomplish work.

Formula and Matching Requirements:

This program has no statutory formula.
Matching Requirements: Percent: 20%. Stewardship agreements are expected to have a 20 percent partner match. However, the Partner is only required to match at least 20 percent of the Total Federal Share column in the Stewardship FP tab of the stewardship agreement financial plan. The partner is not required to match the value of the Forest Product (Goods) for services tab in the financial plan. In the event of a low value of match and a high value of goods for services the Line Officer should carefully consider whether the project is better suited to a competitively awarded stewardship contract instead of a stewardship agreement.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Stewardship agreements may be in place for a period of up to 10 years. See the following for information on how assistance is awarded/released:
Reimbursable payments are the standard, but advance payments are permitted on a case-by-case basis and the Partner must justify the need. Advances are limited to the minimum amount needed or no more than is anticipated for the next 30 days.

Reports:

No program reports are required. No cash reports are required. No progress reports are required. If the partner is requesting reimbursement, the partner should include on the invoice the actual costs incurred, not to exceed the maximum allowed by the pre-determined unit rate based on units completed. If costs come in above the maximum allowable rate, the partner must make up the difference in the amount. The total costs listed on the financial plan crosswalk per service item is the cap for that item and payments are made on a per invoice basis. Reimbursement is not made at an average or annual rate and frequency of billing should be outlined in the terms of the agreement. Program reporting (monitoring) should be submitted by the partner no less than annually and no more than quarterly based on the negotiated terms of the agreement.

Audits:

No audits are required for this program.

Records:

The partner should retain all records for a period of no less than three years from the expiration or termination date of the agreement. Records include books, documents, accounting procedures and practice, and other data, regardless of the type or format.

If any litigation, claim, negotiation, audit, or other action involving the records has been started before the end of the 3-year period, the records must be kept until all issues are resolved, or until the end of the regular 3-year period, whichever is later.

Records for nonexpendable property acquired in whole or in part, with Federal funds shall be retained for 3 years after its final disposition.

, Title XII, Part Subtitle D, Public Law 99-198, 16 U.S.C 3830.

OBJECTIVES:

To provide funding to eligible entities to purchase conservation easements to limit conversion to non-agricultural uses of farm and ranch lands that contain prime, unique, or important soils; that contain historical and archaeological resources; or that support the policy of a state or local farmland protection program.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

Funds are provided to purchase conservation easements in partnership with States, Tribes, or local government entities, or eligible nongovernmental organizations (eligible entities). The Federal share for any easement acquisition is limited to a maximum of 50 percent of the appraised fair market value of the conservation easement. A conservation plan is required for highly erodible lands enrolled under an FRPP easement. Conservation easements are perpetual easements. A right of enforcement is incorporated in the conservation easement deed for the protection of the Federal investment. A failure of title would require the eligible entity to reimburse the United States for the Federal share of the easement value.

Applicant Eligibility:

An eligible entity was any local or State agency, county or groups of counties, municipality, town or township, soil and water conservation district, or Indian tribe or tribal organization, that has a farmland protection program that purchases conservation easements for the purpose of protecting agricultural use and related conservation values by limiting conversion to non- agricultural uses of land, and that has pending offers. This program was available in all 50 States, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Mariana Islands, and the Trust Territories of the Pacific Islands. The program was repealed by the Agricultural Act of 2014 effective February 7, 2014. No new enrollments are authorized after that date.

Beneficiary Eligibility:

Landowners must be in compliance with the Wetland Compliance (WC) and Highly Erodible Land (HEL) provisions of the Farm Bill and met the Adjusted Gross Income (AGI) limitations in the Farm Bill.

Credentials/Documentation:

Entities must prove their eligibility by providing documents indicating their commitment to long-term conservation of agricultural lands through legal devices, such as right-to-farm laws, agricultural districts, zoning, or land use planning; uses of voluntary approaches to protect farmland from conversion to non-agricultural uses; and their capability to acquire, manage, and enforce conservation easements. Programs must have a systematic plan for acquiring conservation easements, have a proven commitment to agricultural land protection, and sufficient funds and staff to monitor and enforce conservation easements. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Entities must submit an application form and supporting data for each parcel to the appropriate State Office of the Natural Resources Conservation Service (NRCS). Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. For GRP acquisitions made through a Cooperative Agreement, each eligible entity is required to provide, in cash, at least 50 percent of the purchase price of the conservation easement. Purchase price is defined as the appraised fair market value minus any landowner donation. The landowner donation is not a cash donation, but is merely the reduction in value the landowner will accept as payment for the sale of the conservation easement. Each eligible entity is required to fund its own administrative costs in acquiring easements, such as surveys, appraisals, deed preparation, title searches, and costs incurred in restoring, managing and enforcing the easements.

MOE requirements are not applicable to this program.

State law. Financial assistance for easement acquisition is provided at closing. For rental contracts, payments are made annually on the agreement anniversary date of USDA approval. For both easements and rental contracts, if restoration activities are required, financial assistance for such activities is provided when required practices are established. Method of awarding/releasing assistance: lump sum.

Reports:

Annual reports on the status of the easements acquired will be prepared by the eligible entity and submitted to the NRCS State Office. No cash reports are required. Fund disbursement reports are prepared by NRCS. Expenditure reports are not applicable. No performance monitoring is required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.

10.922 HEALTHY FORESTS RESERVE PROGRAM (HFRP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Healthy Forest Restoration Act of 2003, Title V, Section 501, Public Law 108-148, 117 Stat. 1911, 16 U.S.C 6571-6578.

OBJECTIVES:

To assist landowners in restoring and enhancing forest ecosystems to: promote the recovery of threatened and endangered species; improve biodiversity; and enhance carbon sequestration.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

HFRP restoration agreements and easements are designed for working Agricultural lands. HFRP is a voluntary program to assist landowners in restoring, enhancing and maintaining forest ecosystems on private lands through easements, contracts and restoration agreements. Easements, contracts, and restoration agreements shall be maintained in accordance with HFRP goals and objectives for the duration of the restoration agreement and easement including the restoration, protection, enhancement, maintenance, and management of habitat for listed species within a forest ecosystem's functions and values. For the duration of its term, the easement shall require, at a minimum, that the landowner, and the landowner's heirs, successors and assigns, shall cooperate in the restoration, protection, enhancement, maintenance, and management of the land in accordance with the easement and with the terms of the HFRP restoration plan. In addition, the easement shall grant to the United States, through the NRCS: a right of access to the easement area; the right to permit compatible uses of the easement area, if such use is consistent with the long-term protection and enhancement of the purposes for which the easement was established; the right to determine compatible uses on the easement area and specify the amount, method, timing, intensity and duration of the compatible use; the rights, title and interest to the easement area

as specified in the conservation easement deed; and the right to perform restoration, protection, enhancement, maintenance, and management activities on the easement area. The landowner shall convey title to the easement which is acceptable to the NRCS. The landowner shall warrant that the easement granted to the United States is superior to the rights of all others, except for exceptions to the title which are deemed acceptable by the NRCS.

Applicant Eligibility:

To be eligible to enroll an easement or restoration agreement in the HFRP, a person must: be the landowner of eligible private land for which enrollment is sought; agree to provide such information to the Natural Resources Conservation Service (NRCS) as the Agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes.

Preapplication Coordination:

Any owner meeting eligibility criteria may submit an application for participation. Applications are accepted in local USDA Service Center Offices during announced enrollment sign-up periods. USDA will establish criteria to evaluate and rank applications for easement and restoration agreement enrollment, criteria will be detailed in the sign-up notice. NRCS will identify through a sign-up notice process the geographic scope and ranking priorities for that particular sign-up. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200 applies only to the program activities implemented through a cooperative agreement.

Award Procedure:

NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment which is offered by NRCS. The easement payment may or may not equal the fair market value of the interests and rights to be conveyed by the landowner under the easement. By voluntarily participating in the program, a landowner waives any claim to additional compensation based on fair market value.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 September 30) based on funding availability.

Appeals:

A person participating in the HFRP may obtain a review of any administrative determination concerning eligibility for participation utilizing the administrative appeal regulations provided in 7 CFR Part 614.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.
Matching Requirements: not specified.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Financial assistance for

easement acquisition is provided at closing. For restoration agreements, payments are made annually on the agreement anniversary date of USDA approval. For easements, contracts, and restoration agreements, if restoration activities are required, financial assistance for such activities is provided when required practices are established. Technical assistance is available for the length of the easement or restoration agreement. See the following for information on how assistance is awarded/released: Easement payments may be made in a single payment or not more than 10 annual payments of equal or unequal size, as agreed to between NRCS and the landowner.

USES AND USE RESTRICTIONS:

All EWP work must reduce threats to life and property and must be economically, environmentally, and socially defensible and sound from a technical standpoint. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the U.S. Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services. EWP funds have restrictions. EWP cannot solve problems that existed before the disaster or to improve the level of protection above that which existed before a disaster. It cannot fund operation and maintenance work or repair private or public transportation facilities or utilities. The work cannot adversely affect downstream water rights and funds cannot be used to install measures not essential to the reduction of hazards. In addition, funds cannot be used to perform work on measures installed by another federal agency. FY 2015 & 2016 - 100% discretionary funding.

None.

Credentials/Documentation:

Sponsors must submit a formal request to the State Conservationist for assistance within 60 days of the natural disaster occurrence, or 60 days from the date when access to the sites becomes available. Requests must include a statement that the sponsors understand their responsibilities and are willing to pay its cost-shared percentage as well as information pertaining to the natural disaster, including the nature, location, and scope of the problems and the assistance needed. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Potential sponsors submit formal requests for assistance to the NRCS state conservationist.

Award Procedure:

Project sponsors seeking EWP assistance must apply to the STC in writing within 60 days of the natural disaster occurrence. Project sponsors may use SF 424 Application for Federal Assistance but must ensure that following information is provided: (1) A description of the problems encountered; (2) Assistance needed, including the following: Nature of the problem; Location; Scope of the problem; Commitment by the sponsor to assume the following responsibilities: local cost-share; Land rights; acquisition; Permits; Operations and Maintenance (O and M). A statement indicating that funds have either been exhausted or are insufficient to provide adequate recovery measures from the applicable hazards; A statement identifying any other State or Federal funding received or application submitted. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. Before the release of financial assistance, NRCS will enter into a Cooperative Agreement with a sponsor that specifies the responsibilities of the sponsor under this part, including any required operation and maintenance responsibilities. NRCS will not provide funding for activities undertaken by a sponsor prior to the signing of the agreement between NRCS and the sponsor.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The EWP program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

CRITERIA FOR SELECTING PROPOSALS:

EWP projects are eligible when it is determined that the current condition of the land or watershed impairment poses a threat to health, life, and property. 10.924 CONSERVATION STEWARDSHIP PROGRAM

Conservation Stewardship Program (CSP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Title XII, subtitle D, chapter 2, subchapter B of the Food Security Act of 1985, as added by Section 2301 of the Food, Conservation, and Energy Act of 2008, Pub. L. 110-246. Section 2101 of the Agricultural Act of 2014 re-authorized the Stewardship Program and made minor adjustments to its administration., 16 U.S.C 3838d-3838g.

OBJECTIVES:

Through CSP, NRCS provides financial and technical assistance to eligible producers to conserve and enhance soil, water, air, and related natural resources on their land. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest lands, agricultural land under the jurisdiction of an Indian tribe, and other private agricultural land

(including cropped woodland, marshes, and agricultural land used for the production of livestock) on which resource concerns related to agricultural production could be addressed. Participation in the program is voluntary. CSP encourages land stewards to improve their conservation performance by installing and adopting additional activities, and improving, maintaining, and managing existing activities on agricultural land and nonindustrial private forest land. The NRCS will make CSP available nationwide on a continuous application basis.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CSP is available on Tribal and private agricultural lands, as well as nonindustrial private forest lands in all 50 States, the District of Columbia, and the Caribbean and Pacific Islands Areas. The entire operation must be enrolled and must include all eligible land that will be under the applicant's control for the term of the proposed contract that is operated substantially separate from other operations. Land enrolled in the Conservation Reserve Program (7 CFR part 1410), a Wetlands Reserve Easement through the Agricultural Conservation Easement Program, and the Conservation Security Program (CFR part 1469) are ineligible for CSP. Eligibility is limited to private agricultural land; as such, land that is owned by a Federal, State, or local unit of government, with the exception of agricultural land under the jurisdiction of an Indian Tribe, is ineligible, regardless of the status of the operator. Additionally, a participant may not receive payment for land used for crop production after February 7, 2014, that had not been planted, considered to be planted, or devoted to crop production for at least four of the six years preceding that date, unless the land was: previously enrolled in the Conservation Reserve Program; maintained using long-term rotations, such as hayland in rotation; or incidental to the operation but needed for the efficient management of the operation. An example of land considered incidental to the operation that may be eligible for payment is land that had once been used for buildings and is now being used for crop production to square up a cropland field.

Applicant Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe. As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold.

Beneficiary Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe. As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold.

Credentials/Documentation:

The participant must have control of the land offered for the length of the contract period. NRCS requires all program payments be made by direct deposit unless the participant requests a waiver as described in 31 CFR Part

208.4, paragraph (a). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13). An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Once applicant and land eligibility are determined, the NRCS field office will assist the producer with completing the resource inventory to determine if the stewardship threshold requirement is met, rank applications, and establish payments. Applicants will be ranked relative to other applicants who face similar resource challenges in State-established ranking pools using ranking scores. For approved applicants, NRCS will conduct on-site field verification to substantiate that conservation activity and production system information represented by the applicant was accurate. After the conservation system information is verified, NRCS and the applicant proceed to develop the conservation stewardship plan and contract. Upon approval, the contract will obligate the participant to achieve a higher level of conservation performance by installing additional activities scheduled in their conservation stewardship plan and to maintain the level of existing conservation performance identified at the time of application.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

A participant may obtain administrative review in accordance with 7 CFR parts 11 and 614 for an adverse decision. Participants cannot appeal payment rates, payment limits, and cost-share percentages, eligible conservation practices, or other matters of general applicability. Before a participant can seek judicial review, the participant must exhaust all administrative appeal procedures.

Renewals:

At the end of an initial conservation stewardship contract, NRCS will allow a participant to renew the contract to receive payments for one additional five year period, subject to the availability of funds. To be considered for contract renewal, the participant must be in compliance with the terms of their initial contract as determined by NRCS; add any newly acquired eligible land that is part of the agricultural operation and meets minimum treatment criteria as established and determined by NRCS; meet stewardship thresholds for additional priority resource concerns as determined by NRCS; and agree to adopt conservation activities as determined by NRCS.

Formula and Matching Requirements:

Statutory Formula: Subject to the availability of funds, NRCS will offer participants two potential types of payment. As outlined in 1470.24 (a), an annual payment will be made for installing and adopting additional conservation activities, and improving, maintaining, and managing existing activities. A supplemental payment can also be made to a participant receiving annual payments, who also agrees to adopt a resource-conserving crop rotation. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

NRCS will make payments as soon as practicable after October 1 of each fiscal year for activities carried out in the previous fiscal year. CSP payments to a person or legal entity may not exceed \$40,000 in any year and \$200,000 during any 5-year period. Each CSP contract will be limited to \$200,000 over the term of the initial contract period. The above limitations exclude funding arrangements with federally recognized Indian tribes or Alaska Native

corporations. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Cash reports are not applicable. The Designated Conservationist will review contract implementation with the participant annually. Annual reviews will be completed early enough in the year to allow for completion of any necessary corrective actions prior to issuance of the annual payment. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Recipients are subject to audit by the Office of Inspector General, USDA.

Records:

As stipulated in 1470.6 (a), the applicant must make available to NRCS upon request appropriate records documenting applied conservation activity and production system information. NRCS will request records when conducting field verification with pre-approved applicants. The designated conservationist does not need to collect, store, or re-calculate the data contained in the applicants records, but instead will examine the field conditions and records to determine whether or not they substantiate the resource inventory information provided by the applicant during the application process.

OBJECTIVES:

The Chesapeake Bay Watershed Program (CBWP) helps agricultural producers improve water quality and quantity, and restore, enhance, and preserve soil, air, and related resources in the Chesapeake Bay Watershed through the implementation of conservation practices. These conservation practices reduce soil erosion and nutrient levels in ground and surface water; improve, restore, and enhance wildlife habitat; and help address air quality and related natural resource concerns. CBWP encompasses all tributaries, backwaters, and side channels, including their watersheds, draining into the Chesapeake Bay.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Natural Resources Conservation Service (NRCS), an agency of the United States Department of Agriculture, uses CBWP funds to enter into contracts with eligible producers to share the costs of the applicable conservation treatment on agricultural lands in the Chesapeake Bay Watershed. NRCS provides payments for approved conservation practices and systems and land use adjustments within a time schedule specified by the conservation plan. The CBWP contracts may be modified to increase funds provided the increased cost is the result of a valid contract modification within the original contract scope and intent. The modification must follow the rules of the conservation program used to apply the conservation treatment.

Applicant Eligibility:

Only agricultural producers owning or operating within the Chesapeake Bay Watershed are eligible to participate in CBWP. In addition, NRCS applies the eligibility requirements of the particular natural resource program used to implement CBWP (e.g., the Environmental Quality Incentives Program (EQIP) (16 U.S.C. 3839aa et seq.), the Wildlife Habitat Incentives Program (WHIP) (16 U.S.C. 3839bb-1)). Limited resource producers, small-scale producers, beginning farmers and ranchers, socially-disadvantaged producers, and federally recognized Indian tribes are encouraged to apply.

Beneficiary Eligibility:

To be eligible, the agricultural producers must be in compliance with highly erodible land and wetland conservation provisions at 7 CFR part 12, and in compliance with the Adjusted Gross Income (AGI) payment limitations at 7 CFR part 1400.

Credentials/Documentation:

Evidence that applicant has control over land to be entered into contract and submits an acceptable conservation plan for the farm or ranch unit of concern that incorporates needed natural resource conservation practices and provide either a social security number or individual tax identification number of all proposed beneficiaries. Applicants claiming either limited resource producer or beginning farmer classification may be asked to provide documents to justify their claim. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.

Program participation is voluntary. The applicant applies to NRCS at the local USDA Service Center on Form NRCS-CPA-1200. Applications may be filed at any time during the year. The participant develops a CBWP plan of operations that identifies what conservation practices they are proposing to implement. Technical assistance and conservation payments may be provided to apply needed conservation practices and land use adjustments within a time schedule specified by the conservation CBWP plan of operations. A contract with a participant may apply one or more land management practices or one or more structural practices.

Award Procedure:

This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.

NRCS applies the ranking and selection requirements of the particular natural resource program used to implement CBWP (e.g., EQIP, WHIP). NRCS will give special consideration to applicants that address priority natural resource concerns designated. 10.927 EMERGENCY WATERSHED PROTECTION PROGRAM - DISASTER RELIEF APPROPRIATIONS ACT

EWP - Disaster Relief (Hurricane Sandy)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Disaster Relief Appropriations Act, Public Law 113-2, 4 Stat. 127.

OBJECTIVES:

The objective of the EWP Program is to assist sponsors, landowners, and operators in implementing emergency recovery measures for runoff retardation and erosion prevention to relieve imminent hazards to life and property created by a natural disaster that causes a sudden impairment of a watershed.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements or Contracts)

USES AND USE RESTRICTIONS:

All EWP work must reduce threats to life and property and must be economically, environmentally, and socially defensible and sound from a technical standpoint. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the U.S. Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services. EWP funds have restrictions. EWP cannot solve problems that existed before the disaster or to improve the level of protection above that which existed before a disaster. It cannot fund operation and maintenance work or repair private or public transportation facilities or utilities. The work cannot adversely affect downstream water rights and funds cannot be used to install measures not essential to the reduction of hazards. In addition, funds cannot be used to perform work on measures installed by another federal agency.

EWP funds from this appropriation can only be spent on damage recovery projects from Hurricane Sandy, with a Stafford Act Designation. (This means that a certain geographical area was declared a major disaster as a result of a Presidential Declaration). 100% discretionary - emergency supplemental funds.

Applicant Eligibility:

For this appropriation, only applicants affected by Hurricane Sandy and only in those areas declared as a major disaster are eligible for assistance through the EWP program. Public and private landowners are eligible for assistance but must be represented by a project sponsor. Project sponsor means a State government or a State agency or a legal subdivision thereof, local unit of government, or any Native American tribe or tribal organization as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), with a legal interest in or responsibility for the values threatened by a watershed emergency; is capable of obtaining necessary land rights, and permits; and is capable of carrying out any operation and maintenance responsibilities that may be required. Sponsors are also responsible for furnishing the local cost share and for accomplishing the installation of work. Work can be done either through Federal or local contracts.

Beneficiary Eligibility:

None.

Credentials/Documentation:

Sponsors must submit a formal request to the State Conservationist for assistance within 60 days of the natural disaster occurrence, or 60 days from the date when access to the sites becomes available. Requests must include a statement that the sponsors understand their responsibilities and are willing to pay its cost-shared percentage as well as information pertaining to the natural disaster, including the nature, location, and scope of the problems and the assistance needed. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Potential sponsors submit formal requests for assistance to the NRCS state conservationist.

Award Procedure:

Project sponsors seeking EWP assistance must apply to the STC in writing within 60 days of the natural disaster occurrence. Project sponsors may use SF 424 Application for Federal Assistance but must ensure that following information is provided: (1) A description of the problems encountered; (2) Assistance needed, including the following: Nature of the problem; Location; Scope of the problem; Commitment by the sponsor to assume the following responsibilities: local cost-share; Land rights; acquisition; Permits; Operations and Maintenance (O and M), A statement indicating that funds have either been exhausted or are insufficient to provide adequate recovery measures from the applicable hazards; A statement identifying any other State or Federal funding

received or application submitted. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. Before the release of financial assistance, NRCS will enter into a Cooperative Agreement with a sponsor that specifies the responsibilities of the sponsor under this part, including any required operation and maintenance responsibilities. NRCS will not provide funding for activities undertaken by a sponsor prior to the signing of the agreement between NRCS and the sponsor.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The EWP program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

10.904 Watershed Protection and Flood Prevention; 10.923 Emergency Watershed Protection Program

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

EWP projects are eligible when it is determined that the current condition of the land or watershed impairment poses a threat to life, health and property. Assistance includes EWP practices that provide runoff retardation and soil erosion prevention, safeguard lives and property, and relieve an imminent threat that is a result of a sudden impairment of a watershed due to a natural disaster.

10.928 EMERGENCY WATERSHED PROTECTION PROGRAM - FLOODPLAIN EASEMENTS DISASTER RELIEF APPROPRIATIONS ACT

EWP-FPE Hurricane Sandy

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 , Public Law 113-2, 127 Stat. 4.

OBJECTIVES:

The Emergency Watershed Protection - Floodplain Easement Program (EWP-FPE) provides an alternative measure to traditional EWP recovery where it is determined that acquiring an easement in lieu of recovery measures is the more economical and prudent approach to reducing a threat to life or property (see 7 CFR Part 624). The easement must be restored to the extent practicable to the natural environment and may include both structural and nonstructural practices to restore the flood storage and flow, erosion control, and improve the practical management of the easement. Structures, including buildings, within the floodplain easement must be demolished and removed, or relocated outside the 100-year floodplain or dam breach inundation area.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

NRCS may bear up to 100 percent of costs related to easement acquisition and related acquisition costs. NRCS will determine easement compensation in accordance with applicable regulation and other law. NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment that is offered by NRCS. NRCS reserves the right not to purchase an easement if the easement compensation for a particular easement would be too expensive, as determined by NRCS. NRCS may provide up to 100 percent of the restoration and enhancement costs of the easement. NRCS may enter into an agreement with the landowner or another third party to ensure that identified practices are implemented. NRCS, the landowner, or other designee may implement identified practices. Restoration and enhancement efforts may include both structural and non-structural practices. An easement acquired

under this EWP-Floodplain Easement regulations shall provide NRCS with the full authority to restore, protect, manage, maintain, and enhance the functions and values of the floodplain. EWP-FPE funds from this appropriation can only be spent on eligible Floodplain Easement projects that have suffered damage from Hurricane Sandy and are located within a Stafford AcT Designation. (This means that a certain geographical area was declared a major disaster as a result of a Presidential Declaration). 100% discretionary funding - emergency supplemental.

Applicant Eligibility:

For this appropriation, only applicants affected by Hurricane Sandy and only in those areas declared as a major disaster are eligible for assistance through the EWP-FPE program.

Pursuant to 7 CFR 624.10(b)(2), NRCS may determine land is eligible under for EWP-FPE if any of the following apply:

- 1) The floodplain lands were damaged by flooding at least once within the previous calendar year or have been subject to flood damage at least twice within the previous 10 years.
- 2) Other lands within the floodplain are eligible, provided the lands would contribute to the restoration of the flood storage and flow, provide for control of erosion, or that would improve the practical management of the floodplain easement.
- 3) Lands would be inundated or adversely impacted as a result of a dam breach.

NRCS may determine that land is ineligible under this section if any of the following apply:

- 1) Implementation of restoration practices would be futile due to onsite or offsite conditions.
- 2) The land is subject to an existing easement or deed restriction that provides sufficient protection or restoration, as determined by the Chief of NRCS, of the floodplains functions and values.
- 3) The purchase of an easement would not meet the purposes of this part.

Beneficiary Eligibility:

Private and non-federal landowners are eligible for EWP-FPE.

To be eligible for FPE, the NRCS will require participating landowners to

- 1) Comply with the terms of the easement.
- 2) Comply with all terms and conditions of any associated agreement.
- 3) Convey title to the easement that is acceptable to NRCS and warrant that the easement is superior to the rights of all others, except for exceptions to the title that are deemed acceptable by NRCS.

For projects that include parcels with residential dwellings or other structures on nonagricultural lands (such as flood mitigation efforts intended to assist families in moving from flood-prone areas as part of EWP recovery efforts), a local sponsor will be identified and serve as the local cooperating entity for these efforts. A sponsor will be a local or State unit of government (city, county, conservation district, watershed conservancy district, or State agency) that has a local presence and staff available to assist in the implementation of the program.

Credentials/Documentation:

The landowner must provide a copy of the vesting deed to the land. If the landowner is an entity, the entity must provide a list of the individuals who comprise the entity, including the percent of ownership for each individual, to the Farm Service Agency (FSA). The entity must provide documents to FSA and NRCS that show the entity to be legal and valid in the State and which members have the authority to sign contractual documents on behalf of the entity. If funds are being requested for the purchase of easements on lands with residences or other nonagricultural structures, the State Conservationist (STC) must provide confirmation that the acquisition is part of a strategy that will facilitate the restoration of an entire reach of the floodplain. The relatively high cost of these transactions requires a greater level of documentation that the benefits to the floodplain outweigh the costs. In addition, the STC must provide confirmation that the project sponsor will acquire fee title to the easement area. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

NRCS state offices in impacted states will submit an assessment of potential level of interest in areas with eligible lands. An environmental impact statement is required for this program. This program is excluded from coverage under

E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Landowners may only enroll land in the Emergency Watershed Protection for Floodplain Easements (EWP-FPE) Program through a permanent easement. Landowners apply for the EWP-FPE using the Application for Long-Term Contracted Assistance.

Award Procedure:

- 1) States receive applications, gather landowner information, rank applications, conduct preliminary investigations, and determine land and landowner eligibility
- 2) The STC will list all applications received during the announced signup period in rank order, beginning with the highest-ranked easement first.
- 3) States will submit an Easement Request Package to NHQ that includes documentation of land eligibility, landowner eligibility, and evidence of damage related to Hurricane Sandy.
- 4) Easement Request Packages will be reviewed and project selection will be conducted by the Deputy Chief for Programs.
- 5) Selected applications will be notified, either through an intent to continue letter for projects that will be individually appraised or through the issuance of Option Agreement to Purchase for projects with easement compensation determined through the Area-wide Market Analysis and Geographic Area Rate Cap process.
- 6) When the OATP has been signed by the applicant and the STC, the acres are considered enrolled in the program. At this time, the funds are obligated to the landowner as the vendor for the easement purchase cost only. The landowner may choose to assign all or a portion of the easement acquisition payment to the closing agent through a properly executed assignment of payment provided to NRCS along with the signed OATP.
- 7) The effective period of the OATP may not exceed 12 months from the date of the STCs signature. The effective period may be extended when necessary using the Option Agreement to Purchase Amendment. The STC may delegate, in writing, the authority to sign the OATP (and amendments) to the State program manager. No further delegation of this authority is allowed.

- 1) In addition to the above described activities, for EWP-FPE applications on land with residences or other structures, NRCS will enter into a cooperative or project agreement with the project sponsors prior to the commencing of easement acquisition activities. The agreement must specify the reimbursable tasks to be carried out by the sponsor to expedite the easement acquisition process.
- 2) In order to reduce the administrative burden and easement management cost to NRCS, sponsors are required to purchase the fee simple title from the landowner and enroll properties in a strategic manner that increases the likelihood that the floodplain can be reconnected.
- 3) The FPE warranty easement deed is closed before the fee simple interest is conveyed to the sponsor, unless a different order of recordation is desired by NRCS and authorized by the Office of the General Counsel.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The FPE program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP-FPE Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Length and Time Phasing of Assistance:

EWP Floodplain easements are a long-term solution and exist for perpetuity. After initial eligibility and project selection, easement acquisition phase requires 12 to 18 months on average. Following easement acquisition phase, restoration implementation phase requires 1 to 3 years until all practices are installed and vegetative practices are considered established. Continues until all EWP-FPE Program measures are installed (relocation or demolition of structures and/or floodplain restoration practices). Maintenance and monitoring of floodplain easements continues in perpetuity. Method of awarding/releasing assistance: lump sum.

10.931 AGRICULTURAL CONSERVATION EASEMENT PROGRAM (ACEP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985, Title XII, Subtitle H, as amended by Section 2301 of the Agricultural Act of 2014, Public Law 113-79; 15 U.S.C. 714b and 714c and 16 U.S.C. 3865-3865d.

OBJECTIVES:

To establish an agricultural conservation easement program for the conservation of eligible land and natural resources through easements or other interests in the land. The Agricultural Conservation Easement Program (ACEP) is comprised of two components Agricultural Land Easements (ALE) and Wetland Reserve Easements (WRE). The ALE component provides funding to eligible entities to purchase conservation easements to protect the agricultural use and future viability, and related conservation values of eligible land by limiting nonagricultural uses of that land; and to protect grazing uses and related conservation values by restoring and conserving eligible land. The WRE component provides funding to eligible landowners to purchase easements to restore, protect, and enhance wetlands on eligible land.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under the ACEP Wetland Reserve Easements (ACEP-WRE) component eligible landowners may offer farmed wetlands, prior converted wetlands, wetlands farmed under natural condition, former or degraded wetlands on lands that have been used or are currently being used for the production of food and fiber, including cropland, rangeland and forest production land, lands substantially altered by flooding, certain riparian areas, along with certain adjacent areas. The goal of ACEP-WRE is to achieve the greatest wetlands functions and values, along with optimum wildlife habitat on every acre enrolled in the program. Enrollment options include permanent easements, 30-year easements, or easements for the maximum duration allowed under State law, and, for acreage owned by Indian Tribes, 30-year contracts. To be eligible for participation, land must be capable of being successfully and cost-effectively restored to wetlands and associated habitats. For easement projects, landowners shall ensure the easement is superior to the rights of all others and shall agree to implement a wetland restoration plan designed to restore and maintain the easement area. Landowners must agree to a permanent retirement of crop acreage bases, allotments, and quotas to the extent that the sum of the crop acreage bases and allotments will not exceed the remaining cropland on the farm.

Participating landowners receive financial assistance for the purchase of the easement and NRCS shall share the cost of carrying out the establishment conservation measures and practices, and the protection of wetland functions and values including necessary maintenance activities to the extent that the Secretary determines that cost-sharing is appropriate and in the public interest. NRCS provides financial and technical assistance to the landowner or a third party as follows:

Permanent easements: Easement duration is in perpetuity; landowners receive up to 100 percent of the cost of the easement. NRCS provides up to 100 percent of the cost for establishment and maintenance of conservation measures and practices.

30-year easements or maximum duration allowed by State law: Easement duration is 30 years or maximum duration allowed by State law; landowners receive the equivalent of 75 percent of the value for a permanent easement and NRCS provides up to 75 percent of the eligible restoration costs.

30-year contracts: Acreage owned by Indian Tribes can be enrolled through the use of a 30-year contract which shall be equivalent in value to a 30-year easement. NRCS provides up to 75 percent of the eligible restoration costs. States with an approved Exhibit E may enroll easements with reserved grazing rights. The applicable compensation provided to the landowner for these easements will be reduced by 25%.

For both permanent and 30-year easements, ACEP-WRE pays for all the related costs associated with acquiring and recording the easement including recording fees, charges for title abstracts, surveys, appraisal fees, records searches, and title insurance associated with acquiring an easement. These related costs are generally not paid to participants but are provided directly to the vendor performing the service. Therefore, payments appearing on USDA.spending.gov will be reflective of payments to participants and payments to vendors for services associated with restoration and management activities and administrative costs associated with acquiring and recording an easement.

The Agricultural Lands Easements (ALE) component provides funds to protect

the agricultural use, including grazing, and related conservation values of eligible land through cost-share assistance to eligible entities for purchasing agricultural land easements.

The Federal share for ACEP-ALE acquisition is limited to a maximum of 50 percent of the appraised fair market value of the agricultural land easement. For ACEP-ALE projects of special significance, as determined by the Chief, NRCS may waive a portion of the eligible entity cash contribution requirement, subject to an increase in the private landowner donation that is equal to the amount of the waiver, if the landowner donation is voluntary and the property is in active agricultural production. The Chief can determine lands as Grasslands of Special Environmental Significance which authorizes a federal share of up to 75 percent of the fair market value of the agricultural land easement. An agricultural land easement plan is required for all ACEP-ALE easements and a Grasslands Management Plan must be included with all lands enrolled as Grasslands of Special Environmental Significance. ACEP Agricultural Land Easements are perpetual easements or maximum duration allowed by State law. A right of enforcement is incorporated in the conservation easement deed for the protection of the Federal investment. A failure of title would require the eligible entity to reimburse the United States for the Federal share of the easement value.

Applicant Eligibility:

For ACEP-ALE an eligible entity that is an Indian Tribe, State government, local government, or a nongovernmental organization which has a farmland or grassland protection program that purchases agricultural land easements for the purpose of protecting agriculture use and related conservation values, including grazing uses and related conservation values, by limiting conversion to nonagricultural uses of the land, and that has pending offers may apply for funds. This program is available in all 50 States, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Mariana Islands, and the Trust Territories of the Pacific Islands. Individual landowners must apply through the local agency or organization that handles the farmland or grassland protection program.

For ACEP-WRE, private landowners, including individual landowners, partnerships, associations, corporations, estates, trusts, and other business or legal entities, and Indian tribes are eligible to apply.

Beneficiary Eligibility:

All landowners applying for ACEP must be in compliance with the Wetland Compliance (WC) and Highly Erodible Land (HEL) provisions of the Farm Bill and, within the exception of FY2014, meet the Adjusted Gross Income (AGI) limitations in the Farm Bill.

For ACEP-ALE, applications are submitted by an eligible entity who will be the participant in the program.

For ACEP-WRE, only private landowners, partnerships, associations, corporations, estates, trusts, other business or legal entities and, Indian tribes may submit applications for easements.

Credentials/Documentation:

ACEP-WRE - Eligible applicants must be in compliance with the highly erodible land and wetland conservation provisions in 7 CFR part 12 and, except for FY 2014, the Adjusted Gross Income provisions in 7 CFR part 1400. They must be the landowner of the eligible land being offered for participation. For easement applications, the applicant must have owned the land for the 24 month period prior to the time the land is determined eligible for enrollment. Under limited circumstances a waiver of the 24 month ownership period may be granted from the Chief of NRCS.

ACEP-ALE - Eligible entities must provide documents indicating: 1) they have the relevant experience and resources to administer an ALE easement; 2) commitment to long-term conservation of agricultural lands, ranchlands or grassland for grazing or related conservation purposes through legal devices, such as right-to-farm laws, agricultural districts, zoning, or land use planning; 3) use of voluntary approaches to protect farmland from conversion to non-agricultural uses; and 4) their capability to acquire, manage, and enforce conservation easements. NRCS evaluates an entities capacity to acquire,

manage and enforce easements; its staffing and the ability of an entity to provide matching funds before entering into a cooperative agreement. If the eligible entity is a nongovernmental organization, they must be: 1) organized for, and at all times since, the formation of the organization and has been operated principally for one or more of the conservation purposes specified in clause (i), (ii), (iii), or (iv) of section 170(h)(4)(A) of the Internal Revenue Code of 1986; 2) an organization described in section 501(c)(3) of that Code that is exempt from taxation under 501(a) of that Code; and 3) described (i) In section 509(a)(1) and (2) of that Code, or (ii) Is described in section 509(a)(3) of that Code and is controlled by an organization described in section 509(a)(2) of that Code. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

All ACEP applicants must submit required documentation as evidence of eligibility. The land itself is evaluated and ranked in accordance with eligibility requirements and ranking criteria developed by NRCS. A programmatic environmental analysis is completed. Individual project selection may be made primarily at the State level by responsible NRCS officials. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. ACEP-ALE - Applications are accepted on a continuous basis by the NRCS State Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of enrollment desired by the applicant (i.e. permanent easement, 30-year easement or maximum allowed by State law). Applications and supporting information requirements for the application can be obtained from the State Offices of the (NRCS) and USDA NRCS home page. See www.nrcs.usda.gov. Select Programs from the menu.

ACEP-WRE - Applications are accepted on a continuous basis by the NRCS State or local Field Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of enrollment desired by the applicant.

Award Procedure:

NRCS will rank parcels individually and award funding to the highest-ranked parcels based on ranking criteria established by NRCS in consultation with the State Technical Committee. The ranking factors are developed based on national and state criteria and priorities. NRCS conducts preliminary due diligence activities on the projects tentatively selected for funding and applicants are provided an offer of enrollment. Projects are enrolled in ACEP through agreements signed by NRCS and the eligible entity under ACEP-ALE or the landowner under ACEP-WRE.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 - September 30), based on funding availability, States establish a single or multiple application batching periods for consideration of current year funding. Eligible entity or landowner applications may remain on sign-up list for subsequent funding consideration.

Appeals:

Applicants or participants may appeal certain determinations regarding this program in accordance with 7 CFR Part 614 and Parts 11 and 780.

Renewals:

The land offered may be re-offered in a future sign-up unless land or landowner is ineligible.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: ACEP-ALE NRCS may provide up to 50 percent of the fair market value of the agricultural land easement. An eligible entity will share in the cost of purchasing an agricultural land easement in an amount that is at least equivalent to the Federal share. An eligible entity may include as part

of its share a charitable donation or qualified conservation contribution (as defined by section 170(h) of the Internal Revenue Code of 1986) from the landowner if the eligible entity contributes its own cash resources in an amount that is at least 50 percent of the amount of the Federal share. NRCS may authorize a waiver to increase the federal share to 75 percent for grasslands of special environmental significance with respective adjustments to the eligible entity contribution. NRCS may also authorize a waiver of the eligible entity cash contribution requirement for projects of special significance. Each eligible entity is required to fund its own administrative costs in acquiring easements, such as appraisals, surveys, title searches, and costs incurred in managing and enforcing the easements.

ACEP-WRE - Matching Requirements: Lump sum payments for easements valued at \$500,000 or less and the Secretary may provide payments in not more than 10 annual payments. Easements valued at more than \$500,000 the Secretary may provide payments in at least 5, but no more than 10 annual payments, except that, if the Secretary determines it would further the purposes of the program, the Secretary may make a lump-sum payment for such an easement. Payments of up to 100 percent of the easement acquisition cost and cost of implementing the Wetland Restoration Plan will be paid for a permanent easement with up to 75 percent of permanent easement amounts being paid for 30-year easements, less-than perpetual easements limited by State law, and 30-year contracts. NRCS pays up to 100 percent of all related acquisition costs for all enrollment types.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

ACEP-ALE - Easements must be closed within 18 months of the end of the fiscal year in which the cooperative agreement is signed. Federal funds must be disbursed within 2 to 5 years after signing the cooperative agreement. Method of awarding/releasing assistance: lump sum. Easement duration is either perpetual, 30-year, or the maximum duration permitted by State law. Financial assistance for easement acquisition is provided at closing.

ACEP-WRE - Cash easement payments will be made in a lump sum amount, or in annual installments beginning at closing. Payments for implementation of restoration practices will be made when a specific practice has been implemented by either the landowner or third party and certified by NRCS. See the following for information on how assistance is awarded/released: Cash easement payments will be made in a lump sum amount, or in annual installments beginning at closing. CRITERIA FOR SELECTING PROPOSALS:

ACEP-ALE - Criteria used for selecting applications include: Percent of prime, unique, and other important farmland in the parcel to be protected; Percent of cropland, rangeland, grassland, historic grassland, pastureland, or nonindustrial private forest land in the parcel to be protected; Ratio of the total acres of land in the parcel to be protected to average farm size in the county; Decrease in the percentage of acreage of farm and ranch land in the county in which the parcel is located; Percent population growth and density in the county; Existence of a farm or ranch succession plan or similar plan established to address farm viability; Proximity of the parcel to other protected land and to other agricultural operations and agricultural infrastructure; Maximizing the protection of contiguous acres devoted to agricultural use; Zoning; Eligible entity's performance; Geographic regions help achieve national, State, and regional conservation goals and objectives; Diversity of natural resources to be protected; Score in the land evaluation and site assessment system or equivalent measure for grassland enrollments; the parcels support of grazing operations; protection of grassland, land that contains forbs, and shrubland at the greatest risk from the threat of conversion to uses other than grazing; and plant and animal biodiversity.

ACEP-WRE - All offers are screened at both the local and State level to determine the acceptability of the application. Offers will be evaluated based on the environmental benefits and government expenditures on restoration and easement purchase and the requirement that wetland and wildlife functions and values benefits be maximized. Criteria for selecting applications include: The conservation benefits of obtaining an easement or other interest in the land; The cost effectiveness of each easement so as to maximize the environmental benefits per dollar expended; Whether the landowner or another person is offering to contribute financially to leverage Federal funds; The extent to which the purposes of this part would be achieved on the land; The productivity of the land; The on-farm and off-farm environmental threats if the land is used for the production of agricultural commodities; Obtaining permanent easements over shorter term easements; and Acquiring easements based on the value of the easement for protecting and enhancing habitat for migratory birds and other wildlife, in consultation with USFWS. NRCS, in consultation with the State Technical Committee, may place higher priority on certain land types or geographic regions of the State where restoration of wetlands may better achieve State and regional goals and objectives. Priority may also be given to land that is currently enrolled in CRP in a contract that is set to expire within one year from the date of application and is farmed wetland and adjoining land that has the highest wetland functions and values and is likely to return to production after the land leaves CRP.

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

The Wetland Mitigation Banking Program is authorized by section 1222(k) of the Food Security Act of 1985, as amended by section 2609 of the Agricultural Act of 2014., 16 U.S.C 3822(k).

OBJECTIVES:

The Wetlands Mitigation Banking Program is used to help establish wetland

mitigation banks to help producers meet their wetland conservation compliance responsibilities needed to maintain eligibility for many USDA programs administered by the FSA and NRCS, and to maintain eligibility for the Federal crop insurance premium subsidy administered by the Risk Management Agency.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

NRCS will seek applications to establish wetlands mitigation banks for agriculture producers. The intent of the program is for qualified third-party wetlands bankers to operate and manage all aspects of a wetlands mitigation bank, with oversight by NRCS. Specific funding uses and restrictions will be identified in an agreement between NRCS and those selected to receive the funding. Mitigation banks established through this program are for the explicit and sole purpose of assisting agricultural producers with wetland conservation compliance requirements found in 7 CFR Part 12 (wetland conservation compliance is also referred to as Swampbuster compliance). Loss of wetland functions and lost wetland acres of agricultural wetlands associated with an active farming operation may be mitigated through the Wetlands Mitigation Banking Program. The targeted wetlands may be seasonal or occasionally cropped during years of low precipitation. Wetlands that fall under jurisdiction of the Clean Water Act are not eligible for mitigation through this program.

Applicant Eligibility:

Eligible entities that may submit applications include Tribal Nations, State, and local units of government, and nongovernmental organizations (NGOs), including for profit NGOs. NRCS will accept proposals for the development and establishment of mitigation banks submitted under this notice by eligible applicants from all 50 States, the District of Columbia, the Caribbean Area (Puerto Rico and the U.S. Virgin Islands), and the Pacific Islands Area (Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands). Applications will also be accepted from existing banks with established credits that meet the described needs of the program.

Beneficiary Eligibility:

Mitigation banks established through this program are for the explicit and sole purpose of assisting agricultural producers with wetland conservation compliance, also known as Swampbuster compliance.

Credentials/Documentation:

Applications must contain the content, format, and information set forth in the Announcement for Program Funding to receive consideration. Selected applications will enter into individual agreements with NRCS. 2 CFR 200, Subpart E - Cost Principles applies to this program.

The following items must be obtained prior to entering into an agreement with the Federal Government but do not need to be provided in the proposal. Applicants are encouraged to apply early for their Data Universal Numbering System (DUNS)/System for Award Management (SAM) number.

Award Procedure:

NRCS will process and evaluate applications using the following process: An interagency technical team, including NRCS staff, will screen applications for completeness and compliance with the announcement for funding. Incomplete and noncompliant applications will be eliminated from competition. NRCS technical staff will evaluate and rank complete applications. The NRCS Chief will make the final award decisions.

Awardees will subsequently work with NRCS to develop a mitigation banking instrument which will provide full details for development, establishment, and operation of a mitigation banking program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: In December 2016, NASS published the results from the Local Foods Survey. This was the first publication of data looking into the marketing channels utilized by producers to market their products locally. Data provided insights into four marketing channels; direct to customer, direct to retailer, direct to institutions, and sales to intermediate markets. In January 2016, NASS began a new survey to collect data to measure the cost of honey bee pollination to crop producers. The January survey collected data for 2015, and a second survey in November collected data for 2016. A publication for both years was released in December 2016. In May 2016, the first Honey Bee Colonies report was released, which included colony loss information along with colony health stressors. In April 2016, NASS released the Floriculture Crops, 2015 Summary. This release contains production, price, and whole value information for the 2015 crop year. Fiscal Year 2017: NASS will conduct the vital Federal Principle Economic Indicators at the core level. NASS will continue to respond to stakeholders to provide critical market sensitive data needs as they arise. Final planning year for the 2017 Census of Agriculture. Fiscal Year 2018: Fiscal Year 2018 marks the fourth year in the five-year funding cycle for conducting the 2017 Census of Agriculture (COA). The COA is conducted every five years to obtain agricultural statistics for each County, State, and the Nation.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2016: Five new awards were funded through the Environmental Literacy Program (ELP). Renewals:

Extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extensions requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests should be received by the federal program office 45 days prior to the end date of the award. The federal program office will not recommend approval for any retroactive extension request (received after the end date of the award). Recipients should make every effort to submit one extension request for all projects needing an extension (when possible, multiple extension requests should be avoided). With sufficient justification, the federal program office will recommend approval of a six-month extension for the first extension request. First time or cumulative extension requests for more than six months but less than 12 months, will need more compelling justification as to why the project was not completed on time or could not be completed within the first six-month extension. Although the federal program office discourages extensions of more than 12 months, the federal program office will recommend approval in cases where the funds are already obligated. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: IOOS released The Ocean Enterprise: A study of U.S. business activity in ocean measurement, observation and forecasting. This study is the first national-level assessment of private sector activity in this critical component of the blue economy, which helps deliver critical safety, economic, and environmental benefits across the board, advancing maritime commerce. Commercial and non-profit activity in this sector has not previously been examined as a stand-alone sector as it is scattered among numerous economic activities. By collecting this information into a single analysis, NOAA and other entities are better able to see opportunities for partnerships and innovation, as well as identifying information gaps. Fiscal Year 2017: IOOS, along with its federal partners, intends to fund cooperative agreements that continue the development and operation of the regional component of U.S. IOOS, a national sensor and evaluation program, a coastal ocean modeling testbed, marine biodiversity and animal telemetry networks, ocean technology transition and total water efforts. Fiscal Year 2018: IOOS intends to competitively fund projects for the Coastal Ocean Modeling Testbed, subject to the availability of funds, which advance new or existing solutions that address long standing and emerging coastal modeling, forecast product development, and data management challenges. IOOS will seek to fund projects sufficiently mature for evaluation and transition to long term operations, focused on models, tools or products for which there are demonstrated operators and end users.

Allowable costs will be determined in accordance with 2 CFR 200. Further guidelines are outlined in Department Administrative Order 203-36, dated May 15, 1985 (Department of Commerce Grants Administration) and also the NOAA Grants and Cooperative Agreement Policy Manual.

11.019 STATE ALTERNATIVE PLAN PROGRAM

State Alternative Plan Program

FEDERAL AGENCY:

National Telecommunications and Information Administration, Department of Commerce

AUTHORIZATION:

The Middle Class Tax Relief and Job Creation Act of 2012, Public Law 112-96, 47 U.S.C 1401.

OBJECTIVES:

To establish a spectrum capacity leasing right and radio access network (RAN) construction grant program for states that opt-out of the First Responder Network Authority's (FirstNets) proposed plan for building a RAN in that state, and assume the responsibility to construct, operate, maintain, and improve its RAN that is interoperable with the nationwide public safety broadband network (NPSBN) subject to the provisions of the Middle Class Tax Relief and

Job Creation Act of 2012 (Act).

As described in the Act, after receiving approval from the Federal Communications Commission (FCC), an opt-out state shall apply to the National Telecommunications and Information Administration (NTIA) for a grant for the right to enter into a spectrum capacity lease agreement with FirstNet and may apply for RAN construction grant funding. First, a state must submit its alternative plan for the construction, maintenance, operation, and improvements of its RAN to the Federal Communications Commission (FCC) and meet specific interoperability criteria established by the FCC. Second, if the FCC approves the state alternative plan, that state must make five separate technical and financial demonstrations to NTIA. The state must demonstrate: 1) that it has the technical capabilities to operate and the funding to support its RAN; 2) that it has the ability to maintain ongoing interoperability with the NPSBN; 3) that it has the ability to complete the project within specified comparable timelines specific to the state; 4) the cost-effectiveness of the state alternative plan submitted to the FCC; and, 5) comparable security, coverage, and quality of service to that of the NPSBN. Third, assuming the state has successfully made such demonstrations to NTIA, the state then must enter into a spectrum capacity lease with FirstNet, which will be required for operation of the state RAN.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

NTIAs grant of the authority to enter into a spectrum capacity lease with FirstNet does not confer access to spectrum for an opt-out state to implement its RAN, nor does it guarantee the execution of a spectrum lease agreement with FirstNet.

Grant funds will be limited to categories of costs, such as equipment, construction, installation, contractual, and other associated costs related to construction of the states RAN as detailed in the state alternative plan approved by the FCC. Grant funds may not be used for ongoing RAN maintenance, operation (inclusive of all recurring costs), and improvement costs. Discretionary funds are available for the costs described above. 100% of the discretionary funds will be used for these purposes.

Applicant Eligibility:

Eligible applicants for Lease Authority or a RAN Construction Grant will be those states, territories and the District of Columbia whose alternative state plan was approved by the FCC pursuant to the Act.

Beneficiary Eligibility:

Beneficiaries of the grants are state, local and tribal governments that employ public safety officials, including police officers, fire fighters, emergency medical professionals and others, as well as the general public, who will receive improved communications capabilities from the deployment of State RANs that connect to the nationwide interoperable public safety broadband network.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The designee must apply for grant funding through the Grants.gov online system when the application window opens.

Award Procedure:

Each application will be reviewed by NTIA for adherence to eligibility criteria and programmatic guidelines. If a submission does not meet the requirements,

the applicant will be notified of the deficiency. Upon approval of the application, grants will be awarded to the respective opt-out states, however, grant funds may not be available for draw down until state has signed a spectrum lease with FirstNet.

Grantees can draw down and expend funds through the Department of Treasury's Automated Standard for Application for Payment (ASAP) system.

PROGRAM ACCOMPLISHMENTS:

The Office of Exporter Services (OEXS) is the Bureau of Industry and Security (BIS) front line unit in providing exporter counseling and plays a major role in guiding exporters through complex licensing transactions. Through a variety of seminar programs offered at locations throughout the United States, OEXS instructs and assists new and established exporters through basic and advanced level courses. OEXS also provides specialized workshops on topics of specific interest (e.g., commercial encryption licensing, technology controls, how to classify your products, export management systems and freight forwarder programs). In fiscal year 2005, BIS conducted 45 domestic seminars in 17 states, which were attended by over 3,318 participants. In fiscal year 2006, we anticipate over 3,200 exporters will be counseled through 45 export licensing seminars. These estimates should also apply in fiscal year 2007 as limited resources will prevent us from expanding the seminar program. Through our headquarters in Washington, DC and our Western Regional Offices in Los Angeles and San Jose, California, BIS will provide one-on-one counseling 11 hours a day through meetings, telephone counseling sessions and responses to e-mail and fax inquiries. In addition, the BIS Web site (www.bis.doc.gov) provides exporters constant access to timely information and services.

11.300 INVESTMENTS FOR PUBLIC WORKS AND ECONOMIC DEVELOPMENT FACILITIES**FEDERAL AGENCY:**

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

Public Works grants support the construction or rehabilitation of essential public infrastructure and facilities necessary to generate or retain private sector jobs and investments, attract private sector capital, and promote regional competitiveness, innovation, and entrepreneurship, including investments that expand and upgrade infrastructure to attract new industry, support technology-led development, accelerate new business development, and enhance the ability of regions to capitalize on opportunities presented by free trade.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Characteristic projects include investments in facilities such as water and sewer systems, industrial access roads, business parks, port facilities, rail spurs, skill-training facilities, business incubator facilities, brownfield redevelopment, eco-industrial facilities, and telecommunications and broadband infrastructure improvements necessary for business creation, retention and expansion. To be eligible, a project must be located in or benefit a region that, on the date EDA receives an application for investment assistance, satisfies one or more of the economic distress criteria set forth in 13 C.F.R. 301.3(a). All investments must be consistent with a current EDA- approved Comprehensive Economic Development Strategy (CEDS) or equivalent strategic economic development plan for the region in which the project will be located, and the applicant must have the required local share of funds committed, available, and unencumbered. Applicants must be able to start and complete proposed projects in a timely manner consistent with award terms and conditions. Recipients must award contracts in accordance with proper procurement procedures and ensure that contractors pay Davis-Bacon wage rates. All grants awarded are competitive in nature. EDA does not award formula grants.

Applicant Eligibility:

Pursuant to PWEDA, eligible applicants for and recipients of EDA investment assistance include a State, city, county, or other political subdivision of a State, including a(n): (a) District Organization as defined in 13 CFR 304.2; (b) Indian Tribe or a consortium of Indian Tribes; (c) State, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of such political subdivisions; (d) institution of higher education or

a consortium of institutions of higher education; or (e) public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. 3122) and 13 C.F.R. 300.3. Projects eligible for Public Works investment assistance also include those located in regions meeting "Special Need" criteria as defined in 13 C.F.R. 300.3. For-profit, private-sector entities do not qualify for Public Works assistance under PWEDA. Therefore, EDA will not provide investments directly to individuals or for-profit entities. Such requests may be referred to State or local agencies, or to non-profit economic development organizations. As used in this paragraph, 'State' includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

Beneficiary Eligibility:

Beneficiaries of investments made under Public Works are those communities who satisfy one or more of the economic distress and/or Special Need criteria set forth in 13 C.F.R. 301.3(a) and 13 C.F.R. 300.3 to revitalize, expand, or upgrade their physical infrastructure to attract new industry, encourage business expansion, diversify their local economies, and generate or retain long-term private sector jobs and capital investments.

Credentials/Documentation:

Applicants should refer to the specific requirements of the current Federal Funding Opportunity (FFO) to determine what documents must be submitted at the time of submission. EDA employs a two-phase review process for proposals/applications submitted under this FFO. All submissions under this FFO must proceed through the two-phase review process. Phase I, the Proposal Phase, of EDAs process is designed to provide applicants with an economical and efficient means of determining if their proposed project meets the essential criteria to be considered responsive to this FFO. In Phase I, potential applicants are able to provide EDA with general project information, as detailed in the FFO, to allow EDA to make a Phase I Determination, i.e., whether the proposed project meets the most essential criteria to be considered responsive to this FFO. Proposal packages submitted for Phase I consideration may be presented at any time during the fiscal year. All complete Phase I proposal packages will be reviewed by the respective regional office Proposal Review Committee (PRC), and the applicant will be advised of EDAs Phase I Determination. If the regional office PRC determines that a proposal is responsive to this FFO (Phase I Responsive Determination), EDA will inform the applicant that it may submit a complete application to proceed to Phase II of the process. In Phase II, the Application Phase, an applicant must submit a complete application, as detailed in the FFO, to be considered for funding. If an applicant submits an application in lieu of or concurrent with a proposal package, the regional office PRC must first make a Phase I Determination regarding the applicants submission before moving to Phase II, the Application Phase. In either Phase I or II, EDA may seek information or documentation from the applicant to clarify information presented in the proposal/application. Please refer to the current FFO for more information on EDAs review and selection process. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For information on the application process you may access the applicable federal funding opportunity (FFO) announcement for Public Works investment assistance at www.grants.gov and at www.eda.gov. EDA will review each application for Public Works application in accordance with the evaluation criteria, funding priorities, and selection procedures set forth in the applicable FFO.

Award Procedure:

Staff in the applicable EDA regional office review complete applications for eligibility and compatibility with EDA's mission and funding priorities.

Applications deemed eligible and at least minimally consistent with EDA's mission and funding priorities are referred to an Investment Review Committee, which recommends applications for funding to the Regional Director. The Regional Director makes a funding determination as the Grants Officer for the respective region.

Deadlines:

11.302 ECONOMIC DEVELOPMENT SUPPORT FOR PLANNING ORGANIZATIONS

Planning Investments and Comprehensive Economic Development Strategies

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

Through the Planning program, EDA provides assistance to eligible recipients to create regional economic development plans in order to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which leverage the unique assets of their respective regions to help create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.

To facilitate CEDS, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts (EDDs) throughout the Nation. These planning organizations are typically recognized by the State in which they reside as multi-jurisdictional councils of governments, regional commissions, or planning and development centers. Partnership Planning grants enable planning organizations to manage and coordinate the development and implementation of CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help organize and assist with the implementation of economic development activities within their areas. The majority of funding under the Planning program is for Partnership Planning grants for Indian Tribes and EDA-designated EDDs.

The Planning program also helps support planning organizations and other eligible recipients, including District Organizations and Indian Tribes, with Short-Term and State Planning efforts in order to stimulate and guide the

creation and/or retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nations most economically distressed regions. For example, EDA might provide Short-Term Planning funding to a coalition of Tribal and regional organizations to plan a coordinated response to the sudden loss of a major employer in the affected area(s).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

EDA Planning investments support the preparation of CEDS that guide EDAs Public Works and Economic Adjustment Assistance implementation investments, including Revolving Loan Funds. Sound local planning also attracts other Federal, state, and local funds plus private sector investments to implement long term development strategies. In this way, EDAs Planning program plays a foundational role in helping communities develop important strategies that inform future economic development decisions.

Comprehensive, market-based, local and regional planning is an essential component of successful economic development. Effective planning creates a road map for community growth and development with a focused approach towards creating higher-skill, higher-wage jobs. The Planning Program provides a foundation for EDAs infrastructure investments, which are designed to stimulate economic growth in distressed regions. The planning process supports an assessment of the regions economic conditions and the development of a CEDS to guide resource allocation and project development. The key value of this process is that it is locally determined and involves participation from all the diverse interests in the community. Planning activities supported by these Investments must be part of a continuous process involving the active participation of Private Sector Representatives, public officials and private citizens, and include:

- (a) Analyzing local economies;
- (b) Defining economic development goals;
- (c) Determining Project opportunities; and
- (d) Formulating and implementing an economic development program that includes systematic efforts to reduce unemployment and increase incomes. All EDA grants are discretionary grants. EDA does not award any formula grants.

Applicant Eligibility:

Pursuant to PWEDA, eligible applicants for and recipients of EDA investment assistance include a(n): (a) District Organization (as defined in 13 CFR 304.2); (b) Indian Tribe or a consortium of Indian Tribes; (c) State, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions; (d) institution of higher education or a consortium of institutions of higher education; or (e) public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. 3122) and 13 CFR 300.3. As used in this paragraph, State includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau. See 13 CFR 300.3 and 301.2.

Beneficiary Eligibility:

EDA Planning investments provide support to Planning Organizations for the development, implementation, revision, or replacement of a CEDS. They also may provide support for related short-term planning investments and State plans designed to create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the nation's most economically distressed regions.

Credentials/Documentation:

To be considered for EDA assistance, applicants must first submit a complete EDA application package. The applicant must provide a list of its proposed Strategy Committee members. The Committee must represent the main economic interests of the Region and must include Private Sector Representatives as a majority of its membership. The applicant should ensure that the Strategy Committee includes public officials, community leaders, representatives of workforce development boards, institutions of higher education, minority and labor groups, and private individuals. The Strategy

Committee representing Indian Tribes or States may vary. Applicants must also submit documentation of matching fund availability. Finally, non-profit applicants will be asked to provide additional documentation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not required, but EDA offers applicants assistance in developing applications through its network of field-based Economic Development Representatives (EDRs). Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For information on the application process you may access the applicable federal funding opportunity (FFO) announcement for Planning investment assistance at www.grants.gov and at www.eda.gov. EDA will review each application for Planning investment assistance in accordance with the evaluation criteria, funding priorities, and selection procedures set forth in the applicable FFO.

Award Procedure:

Staff in the applicable EDA regional office review applications for eligibility and compatibility with EDAs mission and funding priorities. Applications deemed eligible and at least minimally consistent with EDAs mission and funding priorities are referred to an Investment Review Committee, which recommends applications for funding to the Regional Director. The Regional Director makes a funding determination and sends a recommendation to EDA Headquarters for concurrence.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Most grants are for 36-month periods. Method of awarding/releasing assistance: quarterly.

CRITERIA FOR SELECTING PROPOSALS:

In addition to evaluating applications based on EDA's mission, funding priorities, and the evaluation criteria laid out in the applicable FFO, EDA also considers:

- (1) The proposed scope of work for the development, implementation, revision or replacement of the CEDS, or the relation of the CEDS to the proposed short-term planning activities or the State plan;
- (2) The qualifications of the applicant to implement the goals and objectives resulting from the CEDS, short-term planning activities or the State plan;

In addition, for continuation awards, funded recipients are evaluated on the basis of the extent of continuing economic distress within the Region, their past performance, and the overall effectiveness of their CEDS.

For Planning Investment awards to a State, EDA will also consider the extent to which the State will integrate and coordinate its CEDS with local and Economic Development District plans.

11.303 ECONOMIC DEVELOPMENT TECHNICAL ASSISTANCE

National Technical Assistance; Local Technical Assistance; University Centers

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

EDA oversees three technical assistance programs (National, Local and University Center) that promote economic development and alleviate unemployment, underemployment, and out-migration in distressed regions. These programs provide grants or cooperative agreements to: (1) invest in institutions of higher education to establish and operate University Centers to support initiatives that are focused on advancing: regional commercialization efforts; entrepreneurship; and a high-skilled regional workforce. provide technical assistance to public and private sector organizations with the goal of enhancing local economic development; (2) support innovative approaches to stimulate economic development in distressed regions; (3) disseminate information and studies of economic development issues of national significance; and (4) finance feasibility studies and other projects leading to local economic development. These programs aid the long-range economic development of regions with severe unemployment and low per capita income.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Technical assistance is used to provide information, data, resources and toolkits which practitioners and policymakers can utilize when evaluating, shaping and implementing specific projects and programs to promote economic development efforts in their respective economically distressed regions. EDA announces opportunities to compete for funding to support University Centers through its annual Federal Funding Opportunity (FFO) on University Centers, and the intent to support local technical assistance through its annual FFO on planning and local technical assistance. EDA may identify specific training, research or technical assistance projects it will fund under National Technical Assistance, which will be subject to competition. Ordinarily, these projects are specified in a FFO, which will provide the specific requirements, timelines and the appropriate points of contact and addresses. The EDA-supported University Center (UC) sub-program is specifically designed to marshal the resources located within colleges and universities to support job creation and economic growth in regions experiencing economic distress. UCs, which EDA considers long-term partners in economic development, are required to devote the majority of their funding to respond to technical assistance requests originating from organizations located in the economically distressed portions of their service regions. EDA-sponsored University Centers provide strategic technical assistance to regional partners; including, tribal entities, local governments, and public and private sector organizations; conduct economic impact assessments; support cluster development and conduct cluster studies; facilitate regional collaboration; support commercialization and technology transfer efforts; and undertake other activities with the goal of enhancing regional economic development by promoting a favorable business environment to attract private capital investment and higher-skill, higher-wage jobs.. EDA University Center competitions are held once every five years in each EDA Region. The project must be consistent with the CEDS of the region in which it is located, if applicable. At least eighty (80) percent of EDA funding under a University Center Economic Development award must be allocated to direct costs of program delivery; unrecovered indirect costs are not chargeable to the award without EDAs express approval. All EDA grants are competitive: EDA does not award formula grants. The Local Technical Assistance (Local TA) sub-program, one of EDAs smallest programs in terms of funding, is an extremely flexible and useful economic development tool. The most common purpose of a Local TA project has been to analyze the feasibility of a potential economic development project, such as an industrial park or a high-technology business incubator, or to support other critical studies necessary for economic development professionals to make informed business decisions, including economic impact assessments. The National Technical Assistance sub-program is designed to provide economic development professionals with access to tools and resources on cutting edge economic development concepts that can inform their decision-making and help support good decision making which will lead to strong, vibrant economic development and regional prosperity. Through this

program, EDA provides a wide array of resources, including a cluster mapping tool (<http://clustermapping.us>), a website to identify innovation index of self-selected communities and compare against other geographies (www.statsamerica.org/innovation/), and a resource to help support best practices among venture development organizations (VDOs) (<http://regionalinnovation.org/>). The project must be consistent with the CEDS of the region in which it is located, if applicable. All EDA grants are discretionary. EDA does not award formula grants.

Applicant Eligibility:

Most technical assistance recipients are private or public nonprofit organizations and educational institutions. As defined in 13 C.F.R. 300.3, 'eligible recipients' include a State, city, county, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of such political subdivision, an institution of higher education or a consortium of institutions of higher education, an Economic Development District organization, a private or public nonprofit organization or association, including a faith-based nonprofit organization, acting in cooperation with officials of a political subdivision of a State, or an Indian Tribe, or a consortium of Indian Tribes. Individuals, companies, corporations, and associations organized for profit are not eligible. As used in this paragraph, 'State' includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau. Program funds cannot be awarded to individuals and for profit organizations.

Beneficiary Eligibility:

Investments are intended to finance projects that would be useful in alleviating or preventing conditions of excessive unemployment or underemployment.

Credentials/Documentation:

To be considered for EDA investment assistance, applicants must first submit a complete EDA application package, as specified by the applicable Federal Funding Opportunity, which generally includes requirements for project narratives, budget narratives, and the resumes of key personnel. Non-profit applicants applying for technical assistance may be asked to provide additional documentation, including documentation of Good Standing in the State in which they operate. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Except for applications that have a national or multi-regional focus, applications are subject to the requirements of E.O. 12372, Intergovernmental Review of Federal Programs and implementing regulations at 13 CFR 302.9.

Award Procedure:

EDA will award investment assistance in accord with the procedures set forth in the applicable announcement of federal funding opportunity (FFO).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For National Technical Assistance and University Center competitions, the deadlines are set forth in the applicable FFO. For Local Technical Assistance, regional offices accept applications on a rolling basis. Approval or disapproval of an application is generally made within 4 months; in many cases, the timeline for award announcement is set forth in the applicable FFO.

Appeals:

Not Applicable.

Renewals:

Each fiscal year, two EDA regional offices will provide a five-year project period for each University Center selected for funding under the requisite competition, with the initial award being made for the first year of the project period. Funding beyond the initial year is dependent upon the availability of funds and satisfactory performance, as determined by EDA and expressed in written notice. The servicing EDA regional office will contact current University Center operators regarding the procedures for applying for continuation funding. National and Local Technical Assistance projects are typically funded for a single project period without any pre-set expectation of renewal. Renewal of an award to increase funding or extend the period of performance is at EDA's sole discretion.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Generally, the amount of the EDA award may not exceed 50 percent of the total cost of the project. Projects may receive an additional amount that shall not exceed 30 percent, based on the relative needs of the region in which the project will be located, as determined by EDA. See section 204(a) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(1). The Assistant Secretary of Commerce for Economic Development has the discretion to establish a maximum EDA investment rate of up to one-hundred (100) percent where the project (i) merits and is not otherwise feasible without an increase to the EDA investment rate; or (ii) will be of no or only incidental benefit to the recipient. See section 204(c)(3) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(4). In-kind contributions, fairly evaluated by EDA, may provide the non-federal share of the total project cost.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally, the University Center Program funds applications on a five-year basis with continuation awards made for each of the three years within a project period. The length of the project period for National and Local Technical Assistance projects varies, but is usually for a period of one to two years. Funds are disbursed as required. See the following for information on how assistance is awarded/released: In accordance with the grant terms and conditions.

Reports:

No program reports are required. No cash reports are required. Project progress and financial reports are required, generally on a quarterly basis, as required by the Special Terms and Conditions governing the award. EDA requires the submission of the SF-425 Federal Financial Report. EDA reviews progress and financial reports for compliance with all award terms and conditions, as well as EDA regulations. EDA reserves the right to conduct site visits on an as-needed basis.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The applicant is reminded that EDA or the Department of Commerce's Office of Inspector General also may conduct an audit of an award at any time.

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Section 209 of the Public Works and Economic development Act of 1965, as amended (PWEDA), (42 U.S.C. 3149).

OBJECTIVES:

To address the needs of distressed communities experiencing adverse economic changes that may occur suddenly or over time, and generally result from industrial or corporate restructuring, new Federal laws or requirements, reduction in defense expenditures, depletion of natural resources, or natural disaster. Economic Adjustment Assistance grants are intended to enhance a distressed community's ability to compete economically by stimulating private investment in targeted areas. Current investment priorities include proposals that focus on (a) Collaborative Regional Innovation, (b) Public/Private Partnerships, (c) National Strategic Priorities, (d) Global Competitiveness, (e) Environmentally-Sustainable Development, (f) Economically Distressed and Underserved Communities. For more information on these investment priorities and current funding opportunities, go to <http://www.eda.gov>.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The Economic Adjustment Assistance Program provides a wide range of technical, planning and public works and infrastructure assistance in regions experiencing adverse economic changes that may occur suddenly or over time. This program is designed to respond flexibly to pressing economic recovery issues and is well suited to help address challenges faced by U.S. communities and regions. To be eligible, a project must be located in or benefit a region that, on the date EDA receives an application for investment assistance, satisfies one or more of the economic distress criteria set forth in 13 C.F.R. 301.3(a). All investments must be consistent with a current EDA- approved Comprehensive Economic Development Strategy (CEDS) or equivalent strategic economic development plan for the region in which the project will be located, and the applicant must have the required local share of funds committed, available, and unencumbered. Applicants must be able to start and complete proposed projects in a timely manner consistent with award terms and conditions. Recipients must award contracts in accordance with proper procurement procedures and ensure that contractors pay Davis-Bacon wage rates. Indirect costs are not allowed on construction projects. All grants awarded are competitive in nature. EDA does not award formula grants.

Applicant Eligibility:

Pursuant to PWEDA, eligible applicants for and recipients of EDA investment assistance include a State, city, county, or other political subdivision of a State, including a(n): (a) District Organization as defined in 13 CFR 304.2; (b) Indian Tribe or a consortium of Indian Tribes; (c) State, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of such political subdivisions; (d) institution of higher education or a consortium of institutions of higher education; or (e) public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. 3122) and 13 CFR 300.3. Projects eligible for Economic Adjustment investment assistance also include those located in regions meeting Special Need criteria as defined in 13 CFR 300.3. For-profit, private sector entities do not qualify for Economic Adjustment assistance under PWEDA. Therefore, EDA will not provide investments directly to individuals or for-profit entities. Such requests may be referred to State or local agencies, or to non-profit economic development organizations. As used in this paragraph, 'State' includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

Beneficiary Eligibility:

Beneficiaries of investments made under Economic Adjustment are those communities who satisfy one or more of the economic distress and/or Special Need criteria set forth in 13 C.F.R. 301.3(a) and 13 C.F.R. 300.3 to revitalize, expand, or upgrade their economic development assets to attract new industry, encourage business expansion, diversify their local economies, and generate or retain long-term private sector jobs and capital investments. Investments are intended to alleviate long-term deterioration and sudden and severe economic dislocation in distressed communities and regions.

Credentials/Documentation:

Applicants should refer to the specific requirements of the current Federal Funding Opportunity (FFO) to determine what documents must be submitted at the time of submission. EDA employs a two-phase review process for proposals/applications submitted under this FFO. All submissions under this FFO must proceed through the two-phase review process. Phase I, the Proposal Phase, of EDAs process is designed to provide applicants with an economical and efficient means of determining if their proposed project meets the essential criteria to be considered responsive to this FFO. In Phase I, potential applicants are able to provide EDA with general project information, as detailed in the FFO, to allow EDA to make a Phase I Determination, i.e., whether the proposed project meets the most essential criteria to be considered responsive to this FFO. Proposal packages submitted for Phase I consideration may be presented at any time during the fiscal year. All complete Phase I proposal packages will be reviewed by the respective regional office Proposal Review Committee (PRC), and the applicant will be advised of EDAs Phase I Determination. If the regional office PRC determines that a proposal is responsive to this FFO (Phase I Responsive Determination), EDA will inform the applicant that it may submit a complete application to proceed to Phase II of the process. In Phase II, the Application Phase, an applicant must submit a complete application, as detailed in the FFO, to be considered for funding. If an applicant submits an application in lieu of or concurrent with a proposal package, the regional office PRC must first make a Phase I Determination regarding the applicants submission before moving to Phase II, the Application Phase. In either Phase I or II, EDA may seek information or documentation from the applicant to clarify information presented in the proposal/application. Please refer to the current FFO for more information on EDAs review and selection process. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Ten to twenty percent of Section 306 of the CZMA funds are available annually to develop new program requirements under Section 309 of the CZMA (16 U.S.C. 1456b) in the areas of coastal wetlands management and protection; natural hazards management (including potential sea and Great Lakes level rise); public access improvements; reduction of marine debris; assessment of cumulative and secondary impacts of coastal growth and development; special area management planning; impacts of coastal growth and development; special area management planning; ocean resource planning; and citing of coastal energy and Government facilities; and program development grants as authorized by section.

Applicant Eligibility:

Any coastal State, including those that border the Great Lakes, and including Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Freely Associated States of the Pacific whose Coastal Zone Management program has been approved by the Secretary of Commerce. The Governor shall designate the State agency or entity that is to be the applicant.

Institutions of higher educations, hospitals, other nonprofits, commercial organizations, foreign governments, organizations under the jurisdiction of foreign governments, international organizations, and state, local and Indian tribal governments.

Credentials/Documentation:

Letter from Governor designating the applicant. Proposal with statement of work and budget estimate. Costs will be determined in accordance with relevant OMB requirements. DOC has adopted the OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (OMB Uniform Guidance), which are codified at 2 C.F.R. Part 200 and incorporates relevant cost principles. Relevant OMB cost principles apply to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." Formula and Matching Requirements:

Statutory Formula: Title 15 - Commerce and Foreign Trade, Chapter IX - National Oceanic and Atmospheric Administration, Part 923 - Coastal Zone Management Program Regulations, Subpart B. As required by Section 306(a) of the CZMA (16 U.S.C. 1455(a)), matching funds requirements for CZMA administrative grants may be found at 15 C.F.R. 923.110. In general, match is required at a ratio of 1:1 for administrative grants. For enhancement grants under Section 309 of the CZMA (16 U.S.C. 1456b), non-federal match is not required.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is typically available to formula recipients for 12 to 18 months with a possible extension not to exceed a project period of 3 total years.

Extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extension requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests must be submitted to the NOAA at least 30 days prior to end date. Recipients should make every effort to submit one extension request for all projects needing an extension (when possible, multiple extension requests should be avoided). With sufficient justification, the federal program office will recommend approval of an extension up to 1 year for the first extension request. First time or cumulative extension requests for more than six months but less than 12 months, will need more compelling justification as to why the project was not completed on time or could not be completed within the first six-month extension. Although the federal program office discourages extensions of more than 12 months, the federal program office will recommend approval in cases where the funds are already obligated. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department. See the following for information on how assistance is awarded/released: Funds are released as agreed to in the Standard Terms and Conditions document required for each grant; and special award conditions as applicable.

Reports:

Not Applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of the OMB Uniform Guidance (see Subpart F to 2 C.F.R. Part 200).

Records:

All financial and programmatic records, supporting documents, statistical reports, and other records of grantees or sub-grantees are required to be maintained by the terms of the agreement. In accordance with 2 C.F.R. 200.333, the non-Federal entity must retain records for three years from the date when the final expenditure report is submitted, unless certain exceptions apply.

Range of Approval/Disapproval Time:

Funding recommendations from the NOAA program office to the NOAA Grants Management Division are generally made:

3 to 5 months after competitive applications are received

Within a month after formula and non-competitive applications are received

Processing of awards by the NOAA Grants Management Division generally takes place within two months after recommendations are received from the NOAA program office. Successful applicants typically receive federal financial assistance awards offers 2 to 4 months after the NOAA program office submits award recommendations to the NOAA Grants Management Division.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

This program has no matching requirements. This program has no statutory formula.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is typically available to formula recipients for 12 to 18 months with a possible extension not to exceed a project period of 3 total years.

Assistance is typically available to competitive recipients for 1 to 5 years.

The maximum time that may be granted for recipients to expend and drawdown funds is 5 years.

Extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extension requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests must be submitted to the NOAA at least 30 days prior to end date. Recipients should make every effort to submit one extension request for all projects needing an extension (when possible, multiple extension requests should be avoided). With sufficient justification, the federal program office will recommend approval of an extension up to 1 year for the first extension request. First time or cumulative extension requests for more than six months but less than 12 months, will need more compelling justification as to why the project was not completed on time or could not be completed within the first six-month extension. Although the federal program office discourages extensions of more than 12 months, the federal program office will recommend approval in cases where the funds are already obligated. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department. See the following for information on how assistance is awarded/released: Funds are released as agreed to in the Standard Terms and Conditions document required for each grant; and special award conditions as applicable.

Reports:

Program reports are not applicable. Cash reports are not applicable. Financial and Performance Progress Reports are required semi-annually. Final financial and progress reports are required within 90 days of the end of the period of performance unless noted in the award. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of the OMB Uniform Guidance (see Subpart F to 2 C.F.R. Part 200).

B-WET Hawaii projects focused on providing meaningful outdoor experiences for students and professional development opportunities for teachers that target understanding earth system sciences, hazards, community resilience, and climate change.

The Bay Watershed and Education Program, sponsored a 2015 grant with the University of Hawaii to support student investigations in marine science. The He'eia Ahupua'a project provided a framework for both developing Science, Technology, Engineering and Math, (STEM) education programs in a new way, and a model for cross-disciplinary work within the university culture. It also catalyzed partnerships between the university, local schools and communities, and provided valuable K-12 teaching experiences for young emerging scientists, fostered future interdisciplinary interests and improved abilities in communicating science to diverse audiences.

The Bay Watershed, Education, and Training program sponsored a 205 project with the University of Hawaii titled The Kaneohe Ahupuaa Ridge-to-Reef Project (KARRP): An Environmental Science Education, Stewardship and Research Program for High School Juniors and Seniors in Hawaii. The project offered college-level summer experience in environmental science education and research for high school juniors and seniors during the summer of 2015. Through an intensive six-week summer program, the investigators broadened students understanding of the Kaneohe Bay watershed and coral reef ecosystem, introduced them to new scientific research areas, added to their knowledge of current scientific methodology, research techniques, and scientific tools, and encouraged environmental stewardship.

The Office for Coastal Management Pacific Islands, is continuing to manage the competitive Bay Watershed Education and Training (B-WET) Hawaii program to foster the development of innovative science programs, partnerships and products throughout the State of Hawaii, as well as support environmental education efforts that align with national and state education standards (subject

to the availability of funding). Fiscal Year 2017: The NOAA Office for Coastal Management funded \$10,000,000 in NOAA Coastal Resilience Grants in FY 2016 and 2017 to ramp up the nations ability to address existing and emerging coastal challenges. Recipients include state and local government agencies and nonprofits. They will use these funds to improve their respective regions ability to prepare for and recover from a variety of coastal threats, including hurricanes, tsunamis, and sea level rise. Project focus areas include flood protection, infrastructure improvement, restoration of coastal habitat, and proactive community planning initiatives. The emphasis is on protecting life and property, safeguarding people and infrastructure, strengthening the economy, and conserving and restoring coastal and marine resources. The awards cover 17 states and Puerto Rico. Over 350 coastal communities will be impacted, and 1,100 acres of habitat will be restored and used to enhance flood protection. Fiscal Year 2018: In fiscal year 2017 the Office for Coastal Management, Pacific Islands, located in Honolulu, provided competitive grants through the Bay Watershed Education and Training (B-WET) Hawaii program to foster the development of innovative science programs, partnerships and products throughout the State of Hawaii, as well as support environmental education efforts that align with national and state education standards. B-WET Hawaii projects focused on providing meaningful outdoor experiences for students and professional development opportunities for teachers that target understanding earth system sciences, hazards, community resilience, and climate change.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Single for-profit company recipients can receive ATP funds for R&D activities for up to 3 years, with ATP funding not to exceed \$2 million. ATP funds may only be used to pay for direct costs for single company recipients. Single company recipients are responsible for funding all of their overhead/indirect costs. Small and medium sized companies applying as single company proposers are not required to provide cost-sharing of direct costs. Large companies applying as single company proposers, however, must cost-share at least 60 percent of the total project costs (direct plus indirect costs). A large company is defined as any business, including any parent company plus related subsidiaries, having annual revenues in excess of \$3.043 billion. (Note that this number will likely change for future competitions and, if so, will be noted in future annual announcements of availability of funds and ATP Proposal Preparation Kits.) Joint ventures can receive ATP funds for R&D activities for up to 5 years, with ATP funding a minority share of the total project costs. Joint ventures must cost-share (matching funds) more than 50 percent of the total project costs (direct plus indirect costs). Joint ventures must consist of at least two separately-owned for-profit companies, both of which are substantially involved in the R&D and both contributing towards the matching fund requirement. The joint venture may include additional for-profit companies, universities, governmental laboratories (excluding any NIST laboratory), independent research organizations, and/or nonprofit organizations, which may or may not contribute funds (other than Federal funds) to the project and perform R&D activities. The joint venture need not be a legally constituted entity but can consist of companies who simply agree to collaborate on the R&D and divide tasks. ATP funding may not be used to fund product development or be used to fund existing or planned research programs that would otherwise be conducted in the same period.

Applicant Eligibility:

U.S. businesses and U.S. joint research and development ventures. Foreign-owned businesses are eligible for funding, provided they meet the requirements of Public Law 102-245, Sec. 201(c)(6-7). Credentials/Documentation:

Recipient eligibility is contingent upon submission of certifications and representations required by Federal statutes and executive orders. Applicants must have a current registration in the System for Award Management (www.sam.gov) and furnish evidence of financial stability and managerial capability. Specific notices of funding opportunity require additional research-related and administrative documentation, and may also require safety,

environmental, and other regulatory documentation prior to the award of any grant or cooperative agreement. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Each notice of funding opportunity specifies applicable pre-application requirements. Notices of funding opportunity typically require the applicants Principal Investigator to submit a pre-application through the Electronic Biomedical Research Application Portal (eBRAP, available at <https://eBRAP.org/>). Pre-applications are screened for military relevance and technical merit against criteria stated in each notice of funding opportunity. Following pre-application screening, the applicants Principal Investigator will be notified regarding whether the applicant is invited to submit a full application. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All applications for assistance under this program must be submitted through the Grants.gov website (available at www.grants.gov). Applicants can find specific application procedures, including necessary forms and instructions for application submission, in each notice of funding opportunity. Notices of funding opportunity are available at Grants.gov by searching CFDA Number 12.420 on the Search Grants tab.

Award Procedure:

All invited applications are evaluated by USAMRMC scientists, other Federal agency representatives, outside scientists with diverse expertise, clinicians, consumers, or combinations thereof, using a two-tier review process. The first tier is a peer review of applications against criteria stated in each notice of funding opportunity to determine technical merit. The second tier is a programmatic review that makes recommendations for funding based on technical merit, military relevance, the specific intent of the funding opportunity, and any other criteria specified in the notice of funding opportunity. The best-scoring applications from the first tier of review are not automatically recommended for funding. Award amount will be negotiated for those applications recommended for funding. Awards depend upon the availability of funding and priorities which USAMRMC determines to exist at the time of award. Only the Grants Officer has the authority to issue awards and obligate funds on behalf of the Federal government.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Pre-applications are normally reviewed within 30 to 60 days from submission deadline or, if no deadline, within 120 days from date of receipt. Full applications are usually reviewed and notifications whether or not applications have been recommended for funding issued within 180 days from submission deadline or, if no deadline, from date of receipt. Awards are normally made within 9-12 months from funding notification.

Appeals:

If an application is not recommended for funding and the Principal Investigator feels that a factual or procedural error was made by the reviewers, (s)he can submit an inquiry. Each notice of funding opportunity will include instructions for submitting an inquiry and the timeframe for submission.

Renewals:

An award may be extended one time up to 12 months with no additional funds. Additional extensions may be considered. Follow on awards are treated as new awards. Once an award ends, if continued funding is desired, a new application must be submitted under an applicable funding opportunity announcement and competitively reviewed. If selected for funding, a new award will be issued.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The maximum period acceptable for a research project is specified in each notice of funding opportunity. However, the maximum initial period of performance for any award is five years. The length of time for which support is requested should be consistent with the nature and complexity of the proposed research. Depending on the source of funding, some awards will be fully funded at the time of award, while others will be incrementally funded. See the following for information on how assistance is awarded/released: Payments will be made by advance and reimbursement methods.

Reports:

Program reports are not applicable. Quarterly and final or annual and final SF425 Federal Financial Reports are required, as specified in the award. Grants and cooperative agreements require annual and final programmatic reports. At times, quarterly programmatic reports and additional charts may be required. Some grants and cooperative agreements also require regulatory reports related to research with human subjects and research involving animals. Each award will include the applicable reporting requirements. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. For-profit entities are required to comply with 32 CFR part 34.

Records:

Generally, a recipient is required to retain records relating to a particular award for three years from the date of submission of the final financial report. In cases where litigation, claim or an audit is initiated prior to expiration of the three-year period, records must be retained until the action and resolution of any issues associated with it are complete or until the end of the three-year retention period, whichever is latest. Records for real property and equipment acquired with Federal funds must be retained for three years after final disposition.

12.582 OFFICE FOR REINTEGRATION PROGRAMS

Yellow Ribbon Reintegration Program

FEDERAL AGENCY:

Office of the Secretary of Defense, Department of Defense

AUTHORIZATION:

2008 National Defense Authorization Act , Public Law 110-181, Sec. 582, as amended by 2016 National Defense Authorization Act , Public Law 114-92, Sec. 551.

OBJECTIVES:

To conduct data collection, trend analysis, and curriculum development and to prepare reports in support of activities under Section 582 of Public Law 110-181, Sec. 582 (2008), as amended by Public Law 114-92 (2016).

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

Statutory authority for issuing grants is provided to the Office for Reintegration Programs (ORP), Yellow Ribbon Reintegration Program (YRRP), through Public Law 110-181, Sec. 582 (2008), as amended by Public Law 114-92 (2016) stating that the Office for Reintegration Programs may make grants to conduct data collection, trend analysis, and curriculum development and to prepare reports in support of activities under this section.

The National Defense Authorization Act of 2008 established the Yellow Ribbon Reintegration Program (YRRP) to assist National Guard and Reserve members as they transition between their military and civilian roles. By providing deployment cycle information, resources, and programs, YRRP addresses the unique challenges facing the Guard and Reserve community, including geographic dispersion away from military support networks and fewer deployment resources than the Active Component.

YRRP events provide National Guard and Reserve Service members and those who support them with dynamic and engaging delivery of information before, during, and after deployments. Events connect attendees with local information on health care, education/training opportunities, and financial and legal benefits. These resources help to prepare and guide attendees through the hardships of deployment, then enable Service members to successfully reintegrate back into their families, communities and careers.

Applicant Eligibility:

The Yellow Ribbon Reintegration Program is a DoD-wide effort to promote the well-being of National Guard and Reserve members, their families and communities, by connecting them with resources throughout the deployment cycle. Through Yellow Ribbon events, Service members and loved ones connect with local resources before, during, and after deployments. Reintegration during post-deployment is a critical time for members of the

National Guard and Reserve, as they often live far from military installations and other members of their units. Commanders and leaders play a critical role in assuring that Reserve Service members and their families attend Yellow Ribbon events where they can access information on health care, education and training opportunities, financial, and legal benefits. We work in government and non-government partners, including the Small Business Administration and Departments of Labor and Veterans Affairs, to provide up-to-date and relevant information to the members of the All-Volunteer force and their families.

Eligible applicants must be able to satisfy the needs of the Office for Reintegration Programs as outline in Public Law 110-181, Sec. 582 (2008), as amended by Public Law 114-92 (2016) stating that the Office for Reintegration Programs may make grants to conduct data collection, trend analysis, and curriculum development and to prepare reports in support of activities under this section..

Beneficiary Eligibility:

Beneficiaries must be able to conduct data collection, trend analysis, and curriculum development and to prepare reports in support of activities of the Yellow Ribbon Reintegration Program as established by Public Law 110-181, Sec. 582 (2008), as amended by Public Law 114-92 (2016).

It will also enable the university, faculty and student researchers the benefit of learning by using OPA

data. Under the OPA RFP, candidates are sought to conduct collaborative research, applying their knowledge and talent to research areas that are of interest to them and potentially to OPA. Fellows will perform scholarly research at OPA, which should embody research ideas of the individual and which are of interest to OPA. To facilitate the Fellow selection, the Applicant should propose a competitive application process that incorporates OPA evaluation of the research and capability provided. It is important that a research application be consistent and complimentary with OPA facilities and interests, supporting or stimulating OPA basic and applied research programs. The term Fellows refers to faculty, students, or post-doctoral researchers who will perform scholarly research under the OPA Research Fellowship Program cooperative agreement. NOTE: No Fellow under this program will be considered an employee of OPA or the Department of Defense under any circumstance.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

14.008 TRANSFORMATION INITIATIVE: CHOICE NEIGHBORHOODS DEMONSTRATION SMALL RESEARCH GRANT PROGRAM

FEDERAL AGENCY:

Office of Policy Development and Research, Department of Housing and Urban Development

AUTHORIZATION:

Consolidated and Further Continuing Appropriations Act, 2012. This program is approved by HUDs authority and administered under the Transformation Initiative (TI) account. , Public Law 112-55.

OBJECTIVES:

The purpose of this effort is to develop and implement small scale research projects that build upon the larger Choice Neighborhood Demonstration research project. The goal of this research program is to fund research related to Choice Neighborhoods that complements the work already being funded by HUD through the Choice baseline research project (C-CHI-01127/TO001). Since the Choice baseline research project will focus on implementation grants in Boston, Chicago, and New Orleans, applicants are encouraged to identify research projects in other Choice Neighborhood implementation or planning

grant sites. Research projects in Boston, Chicago, and New Orleans will be eligible but the applicant must demonstrate how the proposed research would complement research already planned through the Choice baseline research project.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Eligible costs include, but are not limited to, the researchers salary; assistants to work on the project; protected release time for researchers who demonstrate the need for a period of intensive research; computer software; purchase of data; transcription services, and compensation for interviews. 1. Funding will only be provided to applicants who meet the standards for eligible applicants. 2. Grant funds awarded under this program may not be used to pay for computer hardware and/or meals. 3. Funds will not be used to pay for activities outside of the scope of the NOFA.

4. Fee or profit will not be paid for work done under this program.
5. Applicants must comply with the Delinquent Federal Debt Requirement.
6. Honorariums cannot be charged against awards under this program.
7. Entities or individuals already involved in HUD-funded Choice Neighborhoods research under Tasks Order C-CH-01127/T001 cannot directly be funded.
8. Travel expenses are not an eligible cost, in order to encourage applications from researchers located in the vicinity of the Choice Neighborhoods sites. Applicants may fund travel from other sources of funding.

Applicant Eligibility:

Since one purpose of this NOFA is to broaden the community of researchers working on Choice Neighborhoods, HUD will not directly fund entities or individuals already involved in HUD-funded Choice Neighborhoods research under Task Order C-CHI-01127/T0001.

Beneficiary Eligibility:

The goal of this research program is to fund research related to Choice Neighborhoods that complements the work already being funded by HUD through the Choice baseline research project (C-CHI-01127/T0001). Since the Choice baseline research project will focus on implementation grants in Boston, Chicago, and New Orleans, applicants are encouraged to identify research projects in other Choice Neighborhood implementation or planning grant sites. Research projects in Boston, Chicago, and New Orleans will be eligible but the applicant must demonstrate how the proposed research would complement research already planned through the Choice baseline research project. 4 There are some substantial challenges in evaluating a program like Choice Neighborhoods. First, it is difficult to establish a convincing counterfactual of what would have happened to the neighborhood and its residents in the absence of the Choice Neighborhoods intervention. Second, because Choice Neighborhoods combines a variety of services and investments related to housing, education, public safety, job training, etc. it is difficult to explain why a particular approach does or doesn't work. Third, neighborhoods are dynamic, the people and businesses that participate in, or rely upon, a neighborhood are constantly changing. The Choice Neighborhoods investment may have benefits that accrue to individuals, businesses, or other entities not captured in the Choice baseline research project, which focuses on the neighborhood and the individuals living there at baseline. Applicants are encouraged to identify research that will overcome these challenges and provide clear evidence of the impact of Choice Neighborhoods.

HUD is using this NOFA rather than a contract (or task order under the existing BPA) for two reasons:

1. To solicit research ideas that are related to Choice Neighborhoods, but that are not already apparent to HUD, and
2. To broaden the community of researchers working on Choice Neighborhoods. Proposals should identify research questions that will help to demonstrate the impacts of Choice Neighborhoods or to help improve the program.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. None

Award Procedure:

Applications will be rated, ranked and awards will be made to the highest rated applications. HUD reserves the right to reduce the amount of funding requested in order to fund as many highly ranked applications as possible. Additionally, if funds remain after funding the highest ranked applications, HUD may fund part of the next highest-ranking application. If an applicant turns down the award offer, HUD will make an offer to the next highest-ranking application.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

HUD does not intend to fund research that would be duplicative of work being funded through the Choice baseline research project, so applicants are advised to review HUDs RFQ R-CHI-01091, published on February 22, 2011. Specifically, see Section G Attachment 1 Initial Task Order. This is available by email from Paul.A.Joice@hud.gov.

Appeals:

Renewals:

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Cash reports are not applicable. All applicants that receive grant funds under this program are required to submit quarterly progress reports which describe the progress of the effort and the likelihood that it will be completed on time. Financial reports must be included that reflects the cost incurred by budget line, as well as a cumulative summary of costs incurred during the reporting period. Each grant's performance will be monitored.

Not Applicable.

Records:

Records must be kept in accordance with the program's terms and conditions.

Recipients may provide assistance to microenterprises or other for-profit entities when the recipient determines that such assistance is appropriate to carry out an economic development project. Community-based development organizations may carry out neighborhood revitalization, community economic development, or energy conservation activities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit a 5-year Consolidated Plan, an annual action plan, SF Form 424, and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD Community development programs, including CDBG. The annual action plan must include the local community development objectives and show the proposed use of the funds. If the grantee makes a complete submission within the established deadlines, the Department will make a grant award unless a determination is made by HUD that the grantee's performance is unsatisfactory. HUD will approve the submission generally within 45 days of receipt of the annual action plan and required certifications unless a determination has been made that the grantee has failed to carry out its CDBG program in a timely manner or has failed to conform to the requirements of the statute or other applicable laws. Under such circumstances, HUD may take appropriate actions, including a reduction in the amount of the original formula-allocated grant.

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

State CDBG

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Section 101-122, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5322.

OBJECTIVES:

The primary objective of this program is the development of viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low- and moderate-income. Each activity funded must meet one of the program's National Objectives by: Benefiting low- and moderate-income families; aiding in the prevention or elimination of slums or blight; or meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Thirty percent of funds available for distribution under each annual appropriation for the Community Development Block Grant (CDBG) program is allocated among the States and Puerto Rico (which is considered to be a state for the State CDBG program) for use in areas which are not a metropolitan city or part of an urban county (nonentitlement areas). All States except Hawaii have elected to administer these CDBG funds for areas that do not receive CDBG entitlement grants (14.218). HUD awards the formula grants to these States under the CDBG/State Program. In Hawaii, HUD awards the state's share of these funds to the three non-entitlement counties by formula. States must distribute CDBG funds to units of general local government (counties, towns, etc.) in nonentitlement areas. States develop their own programs and funding priorities. Units of general local government then carry out community development activities funded by the State. Eligible activities are directed toward neighborhood revitalization, economic development, or provision of improved community facilities and services. Specific activities that can be carried out with block grant funds include: Acquisition, rehabilitation or construction of certain public works facilities and improvements, such as streets, water and sewer facilities, neighborhood centers, recreation facilities, and other public works; demolition and clearance; rehabilitation of public and private buildings including housing; code enforcement; relocation payments and assistance; economic development; planning activities; certain public services with some restrictions; and administrative expenses. The projected use of funds must be developed to ensure that all activities will meet one of the three national objectives described under "OBJECTIVES". Communities receiving CDBG funds from a state may select subgrantees to carry out approved projects. Such subgrantees may include: Neighborhood-based nonprofit organizations; local development corporations; Small Business Investment Companies; or other nonprofit organizations serving the development needs of nonentitlement areas. Grant recipients may provide assistance to for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out an economic development project. Communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and from making housing allowances or other income maintenance-type payments. Each State may use a limited portion of its grant, subject to a matching requirement, to administer the program. Each State may also use a limited portion of its grant, with no matching requirement, to provide technical assistance to local governments and nonprofit program recipients. At least seventy percent of the funds received must benefit low and moderate income persons.

Applicant Eligibility:

Forty-nine State governments and the Commonwealth of Puerto Rico receive funds from HUD under this program. The state of Hawaii does not participate and HUD allocates the state's share of funds to the three Hawaii non-entitled counties. Funds are allocated to each state based on a statutory formula. States

must distribute the funds to units of general local government in nonentitlement areas.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate- income persons. For non-metropolitan areas, low- and moderate- income is generally defined as 80 percent of the median income for non-metropolitan areas of the State or of the county, whichever is higher, adjusted for family size. For eligible localities in metropolitan areas, low- and moderate-income is generally defined as 80 percent of the median income for the metropolitan area, adjusted for family size.

Credentials/Documentation:

Grantees must certify that they will comply with program requirements specified in 24 CFR Part 91. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR Part 200 applies as implemented to the non-entitled grants in Hawaii. The State program is excluded from coverage of some subparts of 2 CFR Part 200, however, the provisions set-forth in the fiscal requirements contained in 24 CFR 570.489 does apply some of the elements of 2 CFR Part 200. Each state and non-entitled Hawaii county must submit a Consolidated Plan, an annual action plan and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD community development programs, including CDBG. The annual action plan must contain the method by which the State will distribute its CDBG funds.

Award Procedure:

HUD will provide funds after the State or non-entitled Hawaii county submits its Consolidated Plan, annual action plan and Certifications.

Deadlines:

Nov 16, 2015 to Aug 17, 2016 Consolidated Plans may be submitted between November 15 and August 16 of each fiscal year in which the grantee will administer funds.

Range of Approval/Disapproval Time:

HUD will review plan submissions for completeness and consistency with the purposes of the Act, within 45 days of receipt from a grantee.

Appeals:

The procedure is described in regulations (24 CFR Part 570 Subpart I for states and 24 CFR Part 570 Subpart O for non-entitlement counties in Hawaii).

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter V, Part 570, Subpart A, Public Law 93-383.

Matching Requirements: For state administration of the program, after an initial allowance of \$100,000 with no match, states may take an additional allowance of up to 3% of the grant amount but must match such expenditures on a dollar for dollar basis. There is no matching requirement for the non-entitlement counties in Hawaii.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is provided to States and non-entitlement counties in Hawaii on an annual basis. Individual States may impose time limitations on the implementation of grants to recipients. See the following for information on how assistance is awarded/released: Grant agreement.

details the state's performance in completing activities undertaken with each allocation of funds. Disbursement reports are a standard feature of the Integrated Disbursement and Information System used to access the grantee's line of credit. Program performance monitoring is conducted by field office staff.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. 2 CFR Part 200, Subpart F

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

ESG funds may be used for five program components: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and HMIS; as well as administrative activities (up to 7.5% of a recipient's allocation can be used for administrative activities). For specific uses and use restrictions, see 24 CFR part 576, subpart B.

Applicant Eligibility:

Eligible recipients generally consist of metropolitan cities, urban counties, territories, and states, as defined in 24 CFR 576.2. Metropolitan cities, urban counties and territories may subgrant ESG funds to private nonprofit organizations. Local governments may also subgrant ESG funds to public housing agencies or local redevelopment authorities. States must subgrant all of their ESG funds (except for funds for administrative costs and, under certain conditions, HMIS costs) to units of general purpose local government and/or private nonprofit organizations. Each recipient must consult with the Continuum(s) of Care operating within the jurisdiction in determining how to allocate ESG funds.

Beneficiary Eligibility:

The minimum eligibility criteria for ESG beneficiaries are as follows: For essential services related to street outreach, beneficiaries must meet the criteria under paragraph (1)(i) of the homeless definition under 576.2. For emergency shelter, beneficiaries must meet the homeless definition in 24 CFR 576.2. For essential services related to emergency shelter, beneficiaries must be homeless and staying in an emergency shelter (which could include a day shelter). For homelessness prevention assistance, beneficiaries must meet the requirements described in 24 CFR 576.103. Further eligibility criteria may be established at the local level in accordance with 24 CFR 576.400(e).

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. Government recipients and subrecipients must comply with 2 CFR Part 200. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. In addition to meeting the application submission requirements in 24 CFR part 5, subpart K, each State, urban county, or metropolitan city must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements in 24 CFR part 91, and each territory must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements that apply to local governments under 24 CFR part 91. The consolidated plan and annual action plan cover four major HUD formula programs, including ESG. The annual action plan must describe how the funds will be used. The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards at 2 CFR Part 200, apply.

Award Procedure:

The HUD field office reviews the grantee's Consolidated Plan and, upon plan approval, notifies the applicant of the award and prepares the grant agreement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Each jurisdiction should submit its consolidated plan to HUD at least 45 days before the start of its program year, unless affected by Notice CPD-16-01: Guidance on Submitting Consolidated Plans and Annual Action Plans for FY 2016. In no event will HUD accept a submission earlier than November 15 or later than August 16 of the federal fiscal year for which the grant funds are appropriated.

The plan will be deemed approved 45 days after HUD receives the plan, unless before that date HUD has notified the jurisdiction that the plan is disapproved. If the plan is disapproved, the jurisdiction may revise or resubmit a plan within 45 days after the first notification of disapproval. HUD must respond to approve or disapprove the plan within 30 days of receiving the revisions or resubmission.

Appeals:

Formula allocations may not be appealed. Disapproved plans may be resubmitted in accordance with 24 CFR 91.500.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: The formula for this program is part statutory and part regulatory (see section 414 of the McKinney-Vento Homeless Assistance Act and 24 CFR 576.3). HUD will set aside for allocation to the territories up to 0.2 percent, but not less than 0.1 percent, of the total amount of each appropriation in any fiscal year. The remainder will be allocated to States, metropolitan cities, and urban counties. The percentage allocated to each State, metropolitan city, and urban county will be equal to the percentage of the total amount available under section 106 of the Housing and Community Development Act of 1974 for the prior fiscal year that was allocated to the State, metropolitan city or urban county. If an allocation to a metropolitan city or urban county would be less than 0.05 percent of the total fiscal year appropriation for ESG, the amount is added to the allocation of the State in which the city or county is located. If the recipient or subrecipient is a unit of general purpose local government, its ESG funds cannot be used to replace funds the local government provided for street outreach and emergency shelter services during the immediately preceding 12-month period, unless HUD determines that the unit of general purpose local government is in a severe financial deficit in accordance with 24 CFR 576.101(c).

Matching Requirements: Metropolitan city and urban county recipients must match grant funds with an equal amount of funds from cash or the following in-kind sources: services contributed by volunteers, the donation of materials and buildings, or the value of any lease on a building. States must match all but \$100,000 of their awards, but must pass on the benefit of that \$100,000 exception to their sub-recipients that are least capable of providing matching amounts. Territories are exempt from the match requirement. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Metropolitan cities, urban counties and territories must obligate all funds, except for the amount for administrative costs, within 180 days after HUD signs the grant agreement. States must obligate all funds, except the amount for administrative costs, to subrecipients within 60 days after the date that HUD signs the grant agreement. Each subrecipient that is a unit of general purpose local government must obligate its grant funds within 120 days after the date the State obligates its funds. All grant funds must be expended within 24 months after HUD signs the grant agreement with the recipient. Method of awarding/releasing assistance: by letter of credit.

Reports:

Each recipient must report its program accomplishments for each program year in the Consolidated Annual Performance and Evaluation Report (CAPER). Each recipient's efficient expenditure of grant funds is evaluated through information provided in the program management's information system, known as the Integrated Disbursement and Information System (IDIS). Each recipient must also comply with the reporting requirements under the Federal Funding Accountability and Transparency Act of 2006, (31 U.S.C. 6101 note), which are set forth in appendix A to 2 CFR part 170. Monitoring is "risk-assessment based" with high-risked grantees receiving priority status for monitoring and review. The performance report shall be submitted to HUD within 90 days after

the close of the jurisdiction's program year. Recipients draw down ESG funds from the Integrated Disbursement and Information System (IDIS). This is HUD's primary method of capturing financial and expenditure data from the recipients. Progress reports are not applicable. Through the CAPER and IDIS draw down information, recipients provide reports on expenditures. In accordance with 2 CFR Part 200, recipients are required to monitor their subrecipients for compliance with the ESG requirements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Sufficient records must be established and maintained to enable the recipient and HUD to determine whether ESG requirements are being met. All records pertaining to each fiscal year of ESG funds must be retained for the greater of 5 years or the period specified under 24 CFR 576.500(y).

When funding is available for new competitive grants, there may be additional requirements for applicant eligibility established under the Notice of Funding Availability (NOFA).

Beneficiary Eligibility:

The Consolidated Plan and Annual Action Plan requirements are applicable for each of HUD's Community Planning and Development programs, including HOPWA.

(2) Competitive grants:

a. Expiring permanent supportive housing renewal grants are published through a HUD Notice that is issued annually (HUD's Appropriations Acts authorizes the Secretary to renew all expiring contracts for permanent supportive housing that initially were funded under section 854(c)(3) of AIDS Housing Act from funds made available in FY2010 and prior fiscal years that meet all program requirements before awarding funds for new competitive grant applications).
b. Funding announcements for new HOPWA competitive grants are published on grants.gov. Applications may be submitted electronically when new competitive HOPWA funding opportunities become available. Beginning in FY 2016, borrowers are required to pay a fee based on a percentage of the loan amount (2.59% in FY 2017). The fee is applied only at the time of loan disbursement and may be financed as part of the guaranteed loan.

14.259 COMMUNITY COMPASS TECHNICAL ASSISTANCE AND CAPACITY BUILDING

Community Compass TA

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

This program is authorized under: Consolidated Appropriations Act, 2017 (Public Law 115-31), approved May 5, 2017), the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4111 et seq.), Section 6(j)(3) of the United States Housing Act of 1937 (42 U.S.C. 1437d(j)(3)) and Section 17 and 18 of the Annual Contributions Contract (HUD 53012A 7/95), McKinney-Vento Homeless Assistance Act, 42 U.S.C. 11361b and 42 USC 11408.

OBJECTIVES:

Community Compass is HUD's integrated technical assistance and capacity building initiative. Community Compass is designed to help HUD's customers navigate complex housing and community development challenges by equipping them with the knowledge, skills, tools, capacity, and systems to implement HUD programs and policies successfully and be more effective stewards of HUD funding. The goal of Community Compass is to empower communities by providing effective technical assistance and capacity building so that successful program implementation is sustained over the long term. Recognizing that HUD's customers often interact with a variety of HUD programs as they deliver housing or community development services, Community Compass brings together technical assistance investments from across HUD program offices, including the offices of Community Planning and Development, Fair Housing and Equal Opportunity, Housing, and Public and Indian Housing. This cross-funding approach allows technical assistance to address the needs of grantees and subgrantees across multiple HUD programs, often within the same engagement, as well as address cross-agency issues.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

All successful applicants must operate within the structure of the demand-response system. Under the demand-response system, HUD identifies technical assistance and capacity building needs and prioritizes them based on Departmental, programmatic and jurisdictional priorities. HUD is solely responsible for determining the entities to be assisted, the location, and the nature of the assistance to be provided.

Successful applicants may be funded to conduct the following eligible activities: Needs Assessment; Direct TA and Capacity Building Engagements; Tools and Products; Self-Directed and Group Learning; Knowledge Management; Data Analysis, Reporting, and Performance Measurement; and NAHASDA Allocation Formula Administration and Negotiated Rulemaking and Consultation. These activities are further described in the Program Notice of Funding Availability. Funds may only be used to assist organizations to improve their ability to manage HUD funds. Funds may not be used to assist individuals or families.

Applicant Eligibility:

Awardees tasked to provide technical assistance to PHAs must have at least one staff, subcontractor, or consultant that has at least five years of demonstrated Public Housing programs experience, including agency operations, voucher programs, property management operations, and capital investment programs including capital improvements and various methods of housing development. In addition, awardees tasked to provide technical assistance to PHAs must have at least one staff, subcontractor, or consultant that has at least two years of demonstrated finance and underwriting experience related to RAD conversions.

Funds may only be used to assist organizations to improve their ability to manage HUD funds. Funds may not be used to assist individuals or families.

Beneficiary Eligibility:

Selected providers will be deployed as HUD deems most necessary across the country to assist organizations receiving HUD funds to improve performance and management of HUD funds.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All applicants are required to submit a one-page application summary cover page with the application. The requested funding amount should be based on the number of available staff, the range and quality of their skills and knowledge, and the ability of the applicant to manage these resources to successfully execute multiple TA or capacity building engagements involving several covered programs simultaneously over a three-year period and indicate if the organization is a small business.

Award Procedure:

In determining the amount awarded to a successful applicant, HUD will take into consideration the amount of funds available, the final score assigned to the application by HUD reviewers, and HUD's overall technical assistance needs, including establishing a range of subject matter expertise and geographic coverage, as well as an applicant's capacity to serve HUD's customers across multiple programs or topics. For prior awardees, HUD may consider information from a Contracting Officer, GTR, GTM, POTAC, and/or other HUD staff, as appropriate, on past performance, as well as award balances not committed to TA tasks or work plans. These considerations may reduce an applicant's award. There may be insufficient funds available to make an award to every application scoring within the fundable range.
