93.062 BIOMONITORING PROGRAMS FOR STATE PUBLIC HEALTH LABORATORIES

NA

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Section 317 of the Public Health Service Act, (42 U.S.C. Section 247 b), as amended.

OBJECTIVES:

To support the development or expansion of state-based biomonitoring programs, including necessary infrastructure, that will increase the capability and capacity of state public health laboratories (1) to assess human exposure to environmental chemicals within their jurisdictions; (2) to determine which chemicals people are exposed to and the levels of those chemicals in peoples bodies; (3) to determine the prevalence of people with levels of chemicals that are above a known toxicity threshold; (4) to determine whether levels of selected chemicals are higher among minorities, children, women of childbearing age, or other potentially vulnerable groups; (5) to assess the effectiveness of state public health actions to reduce the exposure of their residents to specific chemicals of concern; (6) to compare state-generated biomonitoring data with CDC national biomonitoring data; and (7) to track trends in levels of chemicals in a states population or subgroups of that population over time.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Cooperative agreements may be made to eligible entities for the support of projects to develop or expand state-based biomonitoring programs. Funding may be used for personnel salaries (for full-time, part-time, or contractor positions), laboratory instruments and supplies, training, travel, and indirect costs. Funds may not be used for research, clinical care, furniture or office equipment, pre-award costs, or the construction of new laboratory space. In addition, the direct and primary recipient in the cooperative agreement program must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award to another party or provider who is ineligible.

Applicant Eligibility:

No additional information.

Beneficiary Eligibility:

No additional information.

Credentials/Documentation:

Applicants should review the individual CDC Guidance documents issued under this CFDA program for any required proof or certifications that must be submitted with the application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

93.064 LABORATORY TRAINING, EVALUATION, AND QUALITY ASSURANCE PROGRAMS

(Quality Assurance in Pathology and Laboratory Medicine)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Executive Order 13272, Section 317(k)(2), 42 U.S.C 247b(k)(2).

OBJECTIVES:

To improve the quality of laboratory testing practices relevant to clinical and public health settings and to determine standardized approaches to quality assurance in pathology and laboratory medicine that can be applied in multiple, diverse settings (e.g. community hospitals, academic medical centers, and independent laboratories) that demonstrate measurable and sustainable improvements over time.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funding opportunities are made available to evaluate quality assurance methods for addressing the pre-analytic, analytic, and post-analytic components of laboratory testing in clinical and public health laboratory settings; and to provide technical assistance and training to public health laboratory scientists and leaders on laboratory standards and quality improvement models applicable to laboratory management services.

Applicant Eligibility:

Applications may be submitted by public and private nonprofit organizations and by governments and their agencies, such as: Public nonprofit organizations, private nonprofit organizations, universities, colleges, research institutions, hospitals, community and faith based organizations, State and local governments or their Bona Fide Agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau).

Beneficiary Eligibility:

Applicants must have experience in the administration and evaluation of standardized quality assurance programs in multiple, diverse laboratory sites (including community hospitals and academic medical centers). This experience is required for an applicant to be able to assess the effectiveness of these quality assurance programs and to determine best practices.

Credentials/Documentation:

Title 2 of the United States Code section 1611 states that an organization

described in section 501(c)(4) of the Internal Revenue Code that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, or loan. For all other nonprofit grantees, costs will be determined in accordance with HHS Regulations 45 CFR 74, Subpart Q. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

93.066 STATE VITAL STATISTICS IMPROVEMENT PROGRAM

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Section 304 and 306, 42 U.S.C 242b, 242k.

OBJECTIVES:

To improve the timeliness, quality and sustainability of the de-centralized vital statistics system by adopting nationally-developed, consensus standards and guidelines; by actively working with states to re-engineer their state-owned and operated systems using these standards/guidelines; and by improving the efficiency of business operations of state vital statistics programs. Working collaboratively between State and Federal agencies, the goal is to facilitate the

development and implementation of re-engineered systems in all 57 registration areas. These will be systems that can: (1) provide quality and timely data for public health surveillance and medical research; (2) meet citizen needs for legal copies of their birth and death records, including providing paper copies of records to citizens for their immediate legal or personal use, and at citizens' request, transferring records electronically to local, State or Federal agencies to satisfy an agency's need for a record; meet Federal agencies' needs for record verification and authentication; (3) result in comparable vital registration/statistics systems in each state; (4) use national standards and guidelines, including the 2003 revision of the U.S. Standard Certificates of Birth and Death and the Report of Fetal Death, the ICD-10 classification system, the FIPS geographic coding scheme, and the standard HL-7 vital events messaging; (5) support national security and privacy requirements; (6) integrate or harmonize easily with other public health systems such as Public Health Information Network (PHIN), immunization registries, and newborn screening, and (7) use Internet technology.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Restrictions, which must be taken into account while writing your budget, are as follows: Approved project plan required prior to expenditure of funds; all travel will need to be identified in the approved project plan; and purchase of computer hardware and software will require prior approval before expenditure.

Applicant Eligibility:

An application may be submitted by public or private nonprofit organization whose primary mission is the support of state vital statistics and vital records programs.

Beneficiary Eligibility:

An application may be submitted by public or private nonprofit organization whose primary mission is the support of state vital statistics and vital records programs.

Credentials/Documentation:

Applicants are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the cooperative agreement. Measures must be objective and quantitative, and must measure the intended outcome. These measures of effectiveness must be submitted with the application and will be an element of evaluation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. To apply for this funding opportunity use application and instructions available on grants.gov.

Award Procedure:

Successful applicant will receive a Notice of Grant Award (NGA) from the CDC Procurement and Grants Office. The NGA shall be the only binding, authorizing document between the recipient and CDC. The NGA will be signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application.

Deadlines:

Jun 21, 2012: The program has been established for 5 years, with each option depending on the availability of funding and performance of the awardee. 5:00 p.m. Eastern Time on the deadline date.

Range of Approval/Disapproval Time:

From 90 to 120 days. About 120 days from receipt of application.

Appeals:

Not Applicable.

Renewals:

Throughout the project period, CDC's commitment to continuation of this

award will be conditioned on the availability of funds, evidence of satisfactory progress by the recipient as documented in required reports, and the determination that continued funding is in the best interest of the Federal Government.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is available for a 12-month budget period within project periods ranging from one to five years. Method of awarding/releasing assistance: by letter of credit.

Reports:

Reports about the objectives accomplished. Written reports are required at mid-term of the project year and at the end of the project year. At least quarterly meetings are required of the awardee. Financial status reports are required at the end of the project year. Updates on financial status is provided at mid-term of the project year. At mid-term of the project year, reports are required on the objectives achieved and the objectives to be achieved in the remainder of the project year. At the end of the project year, a progress report is required on the objectives achieved. Reports are provided on the amount spent within the approved budget categories. Performance monitoring is handled in four ways: 1) required quarterly meetings; 2) regular conference calls on specific issues; 3) joint projects with DVS staff; and 4) emails/telephone conversations with the staff.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

Financial records, support documents, statistical records, and all other records pertinent to the project must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for a minimum of three years after the end of a budget period. If questions still remain, such as those raised as a result of an audit, records must be retained until completion or resolution of any audit in process or pending resolution.

93.067 GLOBAL AIDS

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Sections 307 and 317(k)(2), Public Health Service Act, 42 U.S.C. 242I and 247b(k)(2) as amended; Public Law 108-25, the United States Leadership Against HIV/AIDS, Tuberculosis and Malaria Act of 2003 Public Law 110-293, the Tom Lantos and Henry J. Hyde United States Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008, 22 U.S.C 7601; and Public Law 113-56 PEPFAR Stewardship and Oversight Act of 2013 (P.L. 113-56), Public Law 108-25, 22 U.S.C 7601.

OBJECTIVES:

The U.S. President's Emergency Plan for AIDS Relief (PEPFAR) is the U.S. Government initiative to help save the lives of those suffering from HIV/AIDS around the world. This historic commitment is the largest by any nation to combat a single disease internationally, and PEPFAR investments also help alleviate suffering from other diseases across the global health spectrum. PEPFAR is the cornerstone and largest component of the U.S. Presidents Global Health Initiative. With a special focus on improving the health of women, newborns and children, the Global Health Initiatives goal is to save the greatest number of lives by increasing and building upon what works and, then, supporting countries as they work to improve the health of their own people.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Uses and Restrictions are specified in individual Funding Opportunity Announcements. Funds may be spent for reasonable program purposes, including personnel, travel, operating costs including supplies, fuel for transportation, utilities, staff training costs including registration fees and purchase and rental of training related equipment, renovation of clinical or lab facilities; and purchase of HIV testing reagents, test kits and laboratory equipment for HIV testing and services. Equipment may be purchased if deemed necessary to accomplish program objectives; however, prior approval by CDC officials must be requested in writing. All requests for funds contained in the budget shall be stated in U.S. dollars. Once an award is made, CDC will not compensate foreign grantees for currency exchange fluctuations through the issuance of supplemental awards. The costs that are generally allowable in grants to domestic organizations are allowable to foreign institutions and international organizations, with the following exception: With the exception of the American University, Beirut, and the World Health Organization (WHO), Indirect Costs will not be paid (either directly or through sub-award) to organizations located outside the territorial limits of the United States or to international organizations regardless of their location. The applicant may contract with other organizations under this program; however the applicant must perform a substantial portion of the activities (including program management and operations, and delivery of prevention services for which funds are required). You must obtain an annual audit of these CDC funds

(program-specific audit) by a U.S. - based audit firm with international branches and current licensure/authority in-country, and in accordance with International Accounting Standards or equivalent standard(s) approved in writing by CDC. A fiscal Recipient Capability Assessment may be required, prior to or post award, in order to review the applicant's business management and fiscal capabilities regarding the handling of U.S. Federal funds. Please see the specific Funding Opportunity Announcement.

Applicant Eligibility:

Competition is open, limited, or single eligibility by authorizing legislation.

93.069 PUBLIC HEALTH EMERGENCY PREPAREDNESS

PERLC: PREPAREDNESS AND EMERGENCY RESPONSE LEARNING CENTER (PERLC) (Supporting PHEP; awards other than PHEP Cooperative agreement not recorded under 93.074

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Section 319C-1, Public Law 112-10; Public Health Services Act, Section 317(a); Public Health Services Act, Section 317(d).

OBJECTIVES:

The PHEP program is a critical source of funding, guidance, and technical assistance for state, territorial, and local public health departments. Preparedness activities funded by the PHEP program are targeted specifically for the development of emergency-ready public health departments that are flexible and adaptable. These efforts support the National Response Framework (NRF), which guides how the nation responds to all types of hazards including infectious disease outbreaks; natural disasters; biological, chemical, and radiological incidents; and explosions.

To help public health departments with their strategic planning, CDC identified 15 public health preparedness capabilities to serve as national public health preparedness standards. State and local jurisdictions can use CDC's Public Health Preparedness Capabilities: National Standards for State and Local Planning to better organize their work and identify the capabilities they have the resources to build or sustain. These standards help ensure that federal preparedness funds are directed to priority areas within individual jurisdictions.

The 2012 PHEP program is currently funded via a joint cooperative agreement award and aligned with the Hospital Preparedness Program (HPP). PHEP program guidance assists the 62 PHEP awardees in demonstrating measurable and sustainable progress toward achieving the 15 public health preparedness capabilities and other activities that promote safer and more resilient

communities.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The purpose of the Public Health Emergency Preparedness (PHEP) program is to assist state, local, and territorial/freely associated state health departments in demonstrating measurable and sustainable progress toward achieving the 15 public health preparedness capabilities and other activities that promote safer and more resilient communities. Funds can only be used for non-research activities.

Applicant Eligibility:

State health departments of all 50 States, the District of Columbia, the nation's three largest municipalities (New York City, Chicago and Los Angeles County), the Commonwealths of Puerto Rico and the Northern Mariana Islands, the territories of American Samoa, Guam and the U.S. Virgin Islands, the Federated States of Micronesia, and the Republics of Palau and the Marshall Islands.

Beneficiary Eligibility:

All State, County, and Local Health Departments.

Credentials/Documentation:

Applicants should review the individual CDC Guidance documents issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. CDC provides an Internet-based system for submitting applications, including narrative and budget, electronically. This system will also enable applicants to complete most required forms electronically, which can then be signed and uploaded into the system. Applicants are required to use this system in lieu of paper-based applications. Under separate cover, CDC will provide detailed instructions on obtaining a digital certificate to access the CDC web portal <https://sdn.cdc.gov> and use the electronic application system. This program is subject to the provisions of 45 CFR Parts 74 and 92, as appropriate.

Award Procedure:

After review and approval of an application, a notice of award is made in writing and issued by the Grants Management Officer, Procurement and Grants Office, CDC. Also, appropriate notification is made to the public.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

Not Applicable.

Renewals:

Project periods are for 5 years with 12-month budget periods. Applications must be submitted in the same manner as a new application.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 10%. This program has a statutory formula. This program has MOE requirements, see funding agency for further details. Maintenance of Funding (MOF) PHEP awardees must maintain expenditures for healthcare preparedness and

public health security at a level that is not less than the average level of such expenditures maintained by the awardee for the preceding two-year period. This represents an awardee's historical level of contributions or expenditures (money spent) related to federal programmatic activities that have been made prior to the receipt of federal funds. The MOF is used as an indicator of nonfederal support for public health security and healthcare preparedness before the infusion of federal funds. These expenditures are calculated by the awardee without reference to any federal funding that also may have contributed to such programmatic activities in the past. The definition of eligible state expenditures for public health security and healthcare preparedness includes: Appropriations specifically designed to support healthcare or public health emergency preparedness as expended by the entity receiving the award; and

Funds not specifically appropriated for healthcare or public health emergency preparedness activities but which support healthcare or public health emergency preparedness activities, such as personnel assigned to healthcare or public health emergency preparedness responsibilities or supplies or equipment purchased for healthcare or public health emergency preparedness from general funds or other lines within the operating budget of the entity receiving the award.

Please see Agency Funding Opportunity Number CDC-RFA-TP12-1201 for further details on the maintenance of funding requirements.

Length and Time Phasing of Assistance:

Awards are made annually and assistance is available for a 12-month budget period. There are five separate budget periods within the 5-year project period. After awards are issued, funds are released in accordance with DHHS payment procedures, which may be through an Electronic Transfer System or a Monthly Cash Request System. Method of awarding/releasing assistance: lump sum.

Reports:

Semiannual and year end progress reports are required. No cash reports are required. Semiannual and year end progress reports are required. Financial status reports are required no later than 90 days after the end of each budget period. Final financial status and performance reports are required 90 days after the end of a project period. Performance monitoring is maintained by oversight of Project Officers.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

Grantees are required to maintain grant accounting records for a minimum of three years after the end of a grant period. If any litigation, claim, negotiation, audit or other action involving the record has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. 93.070 ENVIRONMENTAL PUBLIC HEALTH AND EMERGENCY RESPONSE

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act Sections 301, 307, 311, 317, and 319C (42 U.S.C. Sections 241, 2421, 243, 247b and 247d-3), as amended, Public Law 109-417, Public Law 109-147, U.S.C 241-2421-243.

OBJECTIVES:

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

CRITERIA FOR SELECTING PROPOSALS:

In general, applications are reviewed on the basis of scientific/technical merit, with attention given to such matters as: (1) The degree to which the applicant satisfies the essential requirements and possesses other desired characteristics, such as depth, breadth, and merit of the overall application relative to the types of projects proposed; (2) clarity of purpose and overall qualifications, adequacy and appropriateness of personnel to accomplish proposed prevention research projects and demonstration projects, and the nation's health priorities and needs; (3) ability to generalize, translate and disseminate to State or local health departments, and other appropriate national, regional, and local public health agencies and organizations; (4) reasonableness of the proposed budget in relation to the work proposed.

93.074 HOSPITAL PREPAREDNESS PROGRAM (HPP) AND PUBLIC HEALTH EMERGENCY PREPAREDNESS (PHEP) ALIGNED COOPERATIVE AGREEMENTS

HPP/PHEP

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

HPP: 319C-2 of the Public Health Service (PHS) Act, as amended by the Pandemic and All-Hazards Preparedness Act (PAHPA) (P.L. 109-417) (2006),

PHEP: 319C-1 of the Public Health Service (PHS) Act, as amended by the Pandemic and All-Hazards Preparedness Act (PAHPA) (P.L. 109-417) (2006), and 317(a) and 317(d) of the PHS Act, subject to available funding and other requirements and limitations.

OBJECTIVES:

The purpose of the 2012-2017 HPP-PHEP aligned programs cooperative agreement is to provide resources that support state, local, territorial, and tribal public health departments and healthcare systems/organizations in demonstrating measurable and sustainable progress toward achieving public health and healthcare emergency preparedness capabilities that promote prepared and resilient communities. [NOTE: For additional detailed information on the HPP program, please see CFDA 93.889. For additional detailed information on the PHEP program, please see CFDA 93.069].

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The distribution of funds will be to the health departments of all 50 States, the District of Columbia, the nation's three largest municipalities (New York City, Chicago and Los Angeles County), the Commonwealths of Puerto Rico and the Northern Mariana Islands, the territories of American Samoa, Guam and the United States Virgin Islands, the Federated States of Micronesia, and the Republics of Palau and the Marshall Islands. The statute specifies appropriate use of funds.

For HPP - Federal Register Notice of May 16, 2008 (Vol. 73, No 96) requires cost sharing (non-federal share) of not less than 10% of federal funds awarded For HPP and PHEP Matching Requirements: Percent: 10.%. These programs have an MOE requirement, see funding agencies for further details.

Matching Requirements: Percent: 10%. NA.

This program has MOE requirements, see funding agency for further details. This program has MOE requirements. Awardees must maintain expenditures for healthcare preparedness and public health security at a level that is not less than the average level of such expenditures maintained by the awardee for the preceding two-year period.

Length and Time Phasing of Assistance:

Project periods are limited up to 5 years. Budget periods are limited up to 12 months. See the following for information on how assistance is awarded/released: See the following for information on how assistance is awarded/released. See the following for information on how assistance is awarded/released: Awardee is issued a Notice of Award, a legal document that informs the awardee that a grant award has been made. Awardee may draw down funds in advance of the incurrence of an expenditure (up to three days) from the Payment Management System.

Reports:

No program reports are required. Recipients must report cash transaction data via the Payment Management System (PMS) using the cash transaction data elements captured on the Federal Financial Report (FFR), Standard Form (SF) 425. Recipients will utilize the Transactions section of SF425 in lieu of the SF272. The FFR SF425 cash Transaction Report is due 30 days after the end of each calendar quarter. Semiannual and year end progress reports are required. Recipients are required to submit the FFR SF425 Federal Financial Report (FFR) semi-annually within 30 days after the first 6 month period and within 90 days of the budget period end date. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Awardees are required to maintain grant accounting records for a minimum of 3 years after the end of a grant period. If any litigation, claim, negotiation, audit or other action involving the record has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. More detailed information regarding retention requirements are provided in Title 45, CFR Part 92.

93.077 FAMILY SMOKING PREVENTION AND TOBACCO CONTROL ACT REGULATORY RESEARCH

NIH-FDA Tobacco Control Regulatory Research

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

The Public Health Service Act and the Family Smoking Prevention and Tobacco Control Act, Public Law 111-31, 42 U.S.C 300u-3.

OBJECTIVES:

The Family Smoking Prevention and Tobacco Control Act (TCA) provides the authority to regulate tobacco product manufacturing, distribution and marketing. Regulatory research will provide the scientific evidence to guide the implementation of this authority. Research areas include: 1) approaches that test the toxicity of tobacco smoke, aerosol, or specific constituents, 2) the effect of tobacco product characteristics on addiction and abuse liability, 3) the short and long term health effects of tobacco products, 4) understanding the knowledge, attitudes and behaviors related to tobacco product use, 5) understanding how to effectively communicate the health effects of tobacco products, 6) the influences of tobacco marketing, and 7) understanding the impact of potential FDA regulatory actions. The strategic priorities for these research areas can be found at <http://www.fda.gov/TobaccoProducts/PublicHealthScienceResearch/Research/cm311860.htm>.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants; Project Grants (Contracts); Training

USES AND USE RESTRICTIONS:

(1) Research project grants provide support for clearly defined projects or a small group of related research activities, and when appropriate, support of research conferences; (2) program project and center grants support large-scale, broad-based programs of research, usually interdisciplinary, consisting of several projects with a common focus; (3) exploratory/development and clinical exploratory/developmental grants encourage the development of new research activities in categorical program areas; (4) cooperative agreements support single or a group of related research activities with significant involvement of federal staff; (5) small grants support newer, less experienced investigators; investigators at institutions without a well developed research tradition and resources; the testing of new methods or techniques; small-scale exploratory and pilot studies, or exploration of an unusual research opportunity; small grants provide research support of up to \$50,000 direct costs per year for a period of up to 2 years; (6) research training grants including fellowships and institutional training grants, career development grants and loan repayment contracts; and (7) SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of proposed research or research and development efforts to determine the quality of performance of the

small business grantees. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercially viable products or processes. Only Phase I awardees are eligible to apply for Phase II support; STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application and the quality of performance of the small business concerns. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of the Phase II application. Research must directly support the Family Smoking Prevention and Tobacco Control Act and the Center for Tobacco Products, Food and Drug Administration Research Priorities found at <https://www.fda.gov/tobaccoproducts/publichealthscienceresearch/research/cm311860.htm>.

Applicant Eligibility:

Applicants should review the eligibility information in the individual funding opportunity announcements issued under this CFDA.

Beneficiary Eligibility:

This Tobacco Control Regulatory Research Program will support research aimed at providing guidance and evidence to develop regulation for tobacco product manufacturing, distribution and marketing. The general public will ultimately benefit.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is generally not applicable, though applicants requesting direct costs of \$500,000 or more for any one year must contact the appropriate NIH Institute or Center no later than 6 weeks before the anticipated submission date. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Most applications must be prepared and submitted electronically. Most applicants use the SF 424 (Research & Related) for electronic submission. Information about the SF 424 form may be found on <http://grants.nih.gov/grants/funding/424/index.htm>, but application packages should be accessed through the appropriate funding opportunity announcement, found either on the NIH Guide to Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>) or through the Grants.gov website (<http://www.grants.gov/>). Some institutions may submit the grant data directly (using what is called a system-to-system transfer). For further details, see grants.gov or eRA Commons. Application forms for SBIR and STTR grants may be obtained through the SBIR/STTR funding announcements posted on the NIH Guide to Grants and Contracts and the Grants.gov sites (see URLs listed above). All SBIR and STTR applications must be submitted electronically. The timeline for transition to electronic applications and the new forms may be found at: <http://era.nih.gov/ElectronicReceipt/>. For further assistance contact GrantsInfo, Telephone (301) 435-0714, Email: GrantsInfo@nih.gov. Consultation on a proposed project may be obtained from the Office of Disease Prevention in the Division of Program Coordination, Planning, and Strategic Initiatives at NIH. Applications are reviewed by principally nonfederal consultants recruited nationwide. The amounts of the award and period of support are determined on the basis of merit of the project and the nature of the grant mechanism. Electronic applications are submitted through the Grants.gov website.

Award Procedure:

All applications for research grants, cooperative agreements, training, and SBIR and STTR grants are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by the National Advisory Council of the NIH Institute or Center that will manage the award. All competitive applications compete for available funds on the basis of scientific and technical merit, program relevance, and program balance. FDA Center for Tobacco Control will make final decisions on the relevance and program balance.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Review the individual Funding Opportunity Announcement under this CFDA for any application-specific deadlines.

Appeals:

A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH homepage
<http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Renewal grants may only be submitted in response to a specific funding opportunity announcement under this CFDA.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Award length may vary depending on the recommendation of the scientific review group, the national advisory council, successful annual performance, and availability of funds, with project periods ranging from 1 to 5 years. Funding commitments are made annually. See the following for information on how assistance is awarded/released: A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization.

Reports:

Annual progress and financial status reports for continuing projects and final reports on all projects upon conclusion are required. Cash are applicable and will be submitted on the SF425. Annual progress reports for continuing projects are required to assess progress. Interim reports may also be required or requested. Expenditure reports are applicable and will be submitted monthly on the SF425. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Expenditures and other financial records, and also administrative records, must be retained for 3 years from the day on which the grantee submits the last expenditure report for the grant period.

Scientific data must be maintained to comply with Circular A-110 Shelby Amendment.

93.079 COOPERATIVE AGREEMENTS TO PROMOTE ADOLESCENT HEALTH THROUGH SCHOOL-BASED HIV/STD PREVENTION AND SCHOOL-BASED SURVEILLANCE

NA

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title III, Part B, Section 317(b)(k)(2), 42 U.S.C 247(b)(k)(2).

OBJECTIVES:

Funding will build the capacity of state, territorial, and local (STL) agencies and support the efforts of national, non-governmental organizations (NGO) to help school districts and schools develop and implement sustainable program activities to: 1) Reduce HIV infection and other STD among adolescents; and 2) Reduce disparities in HIV infection and other STD experienced by specific adolescent sub-populations. It is also expected that applicants activities will reinforce efforts to reduce teen pregnancy rates.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Throughout the 5-year cooperative agreement, awardees will conduct the Youth Risk Behavior Survey (YRBS) and the School Health Profiles (Profiles) and will aim to improve the sexual health of high school students within their jurisdiction by delaying the onset of sexual activity; reducing the number of sexual partners; promoting the dual use of condoms and a highly effective contraceptive method among adolescents who are sexually active; increasing STD and HIV testing, counseling, and treatment; and addressing key social determinants of health to ensure we are reaching youth at most disproportionate risk for HIV infection and other STD. Separate funding pools are available for State and Territorial Education Agencies (SEA/TEA); Local Education Agencies (LEA); and National Non-Governmental Organizations. In addition, state, territorial, and local health agencies may be eligible for School-Based Surveillance funding if the education agency in their jurisdiction does not apply for it. Funding will be for agencies and organizations to implement four key strategies:

- Strategy 1: School-Based Surveillance
- Strategy 2: School-Based HIV/STD Prevention
- Strategy 3: Capacity Building Assistance for School-Based HIV/STD Prevention
- Strategy 4: School-Centered HIV/STD Prevention for Young Men Who Have Sex with Men.

Cooperative agreement funds may be used to support personnel, purchase equipment, supplies, services, and travel directly related to program activities and consistent with the scope of this program. Cooperative agreement funds are used to help schools prevent sexual risk behaviors that result in HIV and STD infection, especially among youth who are at highest risk. CDC believes that the specific scope and content of HIV education programs in schools should be locally determined and should be consistent with parental and community values. CDC supports local decision making by providing sound scientific information to grantees who work directly with schools, communities, and parents. Funds may be expended for written materials, pictorials, audiovisuals, questionnaires, or survey instruments, and educational group sessions related to HIV education youth, school, and college populations if approved in accordance with the document Content of AIDS-Related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions in Centers for Disease Control and Prevention (CDC) Assistance Programs. Cooperative agreement funds are also used to build state education and state health agency partnership and capacity to implement and coordinate school health programs across agencies and within schools. For example, cooperative agreement recipients implement and integrate effective policies, environmental changes, and educational strategies to reduce risky behaviors; leverage resources to avoid duplication at the state and local levels; and evaluate school health capacity-building efforts while implementing effective strategies to reduce priority health risks. Funds may not be used to conduct research projects, provide direct delivery of patient care or treatment services, or purchase or disseminate condoms. Although public health may have an assurance role in clinical testing and screening, funds are not to be used to provide clinical testing or screening services. Funds may not be used for purchasing computer equipment, office equipment, or furnishing, renting, or leasing office space, or to support constructions or renovation unless specifically approved.

Applicant Eligibility:

All 50 state education agencies, plus the District of Columbia, and the territorial education agencies in Puerto Rico, the U.S. Virgin Islands, American Samoa, Northern Mariana Islands, Federated States of Micronesia, Guam, Republic of the Marshall Islands, and Republic of Palau are eligible to apply for Strategies 1 and 2. SEA and TEA are not eligible for Strategy 3. If a state or territorial education agency declines to apply for Strategy 1, the health agency in the same jurisdiction or the health agency's Bona Fide Agent may apply on their behalf. Either the education agency or the health agency in a state or territory must be awarded for Strategy 1 and include at least four of the seven sexual behavior questions on the 2015 YRBS questionnaire in order for the education agency in that state or territory to be awarded for Strategy 2. SHA/THA are not eligible for Strategy 2, 3 or 4. Thirty-one local education agencies are eligible to compete for Strategies 1 and 2, and twelve of the 31 LEA are eligible to compete for Strategy 4. LEA are not eligible for Strategy 3. If a local education agency declines to apply for Strategy 1 funding, the health agency in the same jurisdiction or the health agency's Bona Fide Agent may apply on its behalf. Either the local education agency or the health agency in the same jurisdiction must be awarded for Strategy 1 and include at least four of the seven sexual behavior questions on the 2015 YRBS questionnaire in order for the education agency in that jurisdiction to be eligible for funding for Strategies 2 and 4. LHA are not eligible for Strategy 2, 3 or 4.

NGO eligibility to compete for Strategy 3 funding is limited to:

- Public and private non-profit organizations that serve education organizations;
- National non-profit organizations with 501 C (3) IRS status (other than institutions of higher education); and
- National non-profit organizations without 501 C (3) IRS status (other than institutions of higher education).

NGO includes those that represent constituencies (e.g., members, networks, affiliates and/or chapters within ten (10) or more states) with the greatest potential to affect national initiatives facilitated by CDC/DASH PS13-1308 awarded STL education agencies. An NGO must have a specific charge from its Articles of Incorporation, bylaws, or a resolution from its executive board or governing body to operate nationally within the United States or its territories. NGO are not eligible for Strategy 1 and 2.

Beneficiary Eligibility:

Official state education agencies in states and territories in the United States (including the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Commonwealth of the Northern Mariana Islands, Federated States of Micronesia, Guam, the Republic of the Marshall Islands, the Republic of Palau, and the U.S. Virgin Islands); local education agencies; public and private non-profit organizations that serve education organizations; school-aged youth; and school personnel including, but not limited to, teachers, school nurses, paraprofessionals, and school administrators.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Phase I Review: all eligible applications will be initially reviewed for completeness by the CDC's Office of Grants Services (OGS) staff. In addition, eligible applications will be jointly reviewed for responsiveness by the CDC and OGS. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance to Phase II review. Applicants will be notified that the application did not meet eligibility and/or published submission requirements. Phase II Review: An objective review panel will evaluate complete and responsive applications according to the criteria listed in the

criteria section of the notice of funding opportunity (NOFO) for all strategies. This review will consist of a programmatic and budget assessment to ensure that the proposed project is technically and scientifically sound and the awarded entity is capable of performing the project. Applicants will be provided a copy of the technical, scientific, and budget assessment of their application. Phase III Review: All applications deemed eligible and technically acceptable by the review panel will be awarded in order of score and rank within their funding tier. In addition, the following factors may affect the funding decision: availability of funds and geographic diversity. Strategy 2 will be awarded after awards have been determined for the LEA awarded in Strategy 1. Strategy 4 will be awarded after awards have been determined for Strategy 2. It is anticipated that a variety of NGO will be awarded in Strategy 3. CDC will provide justification for any decision to fund out-of-rank order; factors such as geographical distribution and organizational diversity will be taken into consideration when making final funding decisions. Successful awardees will receive an electronic copy of the Notice of Award (NoA) from OGS. The NoA shall be the only binding, authorizing document between the awardee and CDC. The NoA will be signed by an authorized grants management official (GMO) and emailed to the awardee program director. Any application awarded in response to the NOFO will be subject to the DUNS, SAM Registration and Federal Funding Accountability And Transparency Act Of 2006 (FFATA) requirements.

Unsuccessful applicants will receive notification of the results of the application review by email with delivery receipt or by mail.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Not Applicable.

Renewals:

From 60 to 90 days. Renewals will be based upon the conditions in the funding opportunity announcement and are subject to the availability of funds under Section 317 of the Public Health Service Act.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Project period can be up to 5 years. Budget periods are for 12 months.

Payment under this program is made available through HHS Payment Management System (PMS) Method of awarding/releasing assistance. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. The awardee must submit the Annual Performance Report (APR) via GrantSolutions 120 days before the end of the budget period.

Performance Measures (including outcomes) Awardees must report on performance measures for each budget period and update measures, if needed.

Evaluation Results Awardees must report evaluation results for the work completed to date (including any impact data).

Work Plan Awardees should update work plan each budget period.

Administrative Reporting

SF-424A Budget Information-Non-Construction Programs

Budget Narrative

Indirect Cost Rate Agreement. The annual Federal Financial Report (FFR)

SF 425 is required and must be submitted through GrantSolutions within 90 days after the end of each budget period. The FFR should only include those funds authorized and disbursed during the timeframe covered by the report. The final FFR must indicate the exact balance of unobligated funds and may not reflect any unliquidated obligations. There must be no discrepancies between the final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data. Failure to submit the required information in a timely manner may adversely affect the future funding of this project. If the information cannot be provided by the due date, you are required to submit a

letter explaining the reason and date by which the Grants Management Officer will receive the information. CDC programs require awardees to submit performance measures at least annually. CDC may require more frequent reporting of performance measures. Performance measure reporting should be limited to the collection of data. CDC/DASH will require reporting at least semi-annually, due 120 days before the end of the budget period as part of the Annual Performance Report and 90 days after the end of each budget period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and General Accounting Office (GAO). The grantee is to also ensure that the sub-recipients receiving CDC funds also meet these requirements (if total Federal grant or grants funds received exceed \$500,000). The grantee should include this requirement in all sub-recipient contracts.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the program shall be retained for a minimum of 3 years, or until completion and resolution of any audit in process or pending resolution. In all cases records must be retained until resolution of any audit questions.

CRITERIA FOR SELECTING PROPOSALS:

Applications will be reviewed for completeness by the Office of Grant Services (OGS) staff and for responsiveness jointly by the National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention and OGS. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified if the application did not meet submission requirements. CDC will conduct an objective review to evaluate complete and responsive applications according to the criteria listed in Part II, Section E. Application Review Information within the individual funding opportunity announcement. Applicants will be notified if their application did not meet program requirements.

93.080 BLOOD DISORDER PROGRAM: PREVENTION, SURVEILLANCE, AND RESEARCH

Division of Blood Disorders - Prevention, Surveillance and Research

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act Sections 301, 301(a), 311, and 317C (42 U.S.C. Sections 241, 241(a), 237b-4, 243, 247-4, and 247b-4, as amended.

OBJECTIVES:

To work with State health agencies and other public and private and nonprofit organizations in planning, development, implementation, coordination, or evaluation of programs or other activities related to improved blood disorders. To provide a national, State or local focus for the prevention of conditions in persons with blood disorders; to employ epidemiological methods to set priorities, build capacity and direct health promotion interventions for persons with blood disorders; to expand public health training opportunities through fellowships to introduce geneticists, epidemiologists, and clinicians to public

health practice through education, training and career-enhancing experiences.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used to strengthen, to expand, to build upon or to enhance surveillance, health promotion, education and training, prevention/intervention activities that contribute to the mission and activities of the Division of Blood Disorders. Funds may be used to improve and strengthen State and local public health infrastructure by providing technical assistance to other appropriate health agencies, organizations, special groups or coalitions. Funds may be used to support capacity building, program planning, development, implementation, evaluation, and surveillance for blood disorders outcomes, including related health promotion, education and training, and prevention/intervention. Funds may also be used to coordinate the dissemination of prevention information to the general public, target populations and among state and local agencies and public and private sector organizations in the United States. Funds may not be used for direct curative or rehabilitative services.

Applicant Eligibility:

N/A.

Beneficiary Eligibility:

N/A.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operation, describe evaluation procedures, and provide a budget with justification for funds requested. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

93.082 SODIUM REDUCTION IN COMMUNITIES

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

This program is authorized under Section 317(k)(2) of the Public Health Services Act (PHS Act), 42 U.S.C. 247b(k)(2) as amended.

OBJECTIVES:

The purpose of this program is to reduce Americans sodium intake to limits recommended by the Dietary Guidelines. Because the majority of sodium that people consume is already present in foods before purchase or preparation, reducing sodium intake may require increased availability and accessibility of lower sodium items. Efforts to reduce sodium in the food supply are occurring at a national level; however movement is also needed at the community level to affect change. Because community-wide efforts to reduce sodium intake are relatively new, more practice-based evidence would support identification and refinement of effective strategies. Therefore, this program will aim to implement and evaluate population-based strategies to increase access to lower sodium food in communities, and decrease sodium intake.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for costs associated with planning, organizing, conducting, and supporting sodium reduction strategies at the community and/or state level. Applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses. CDC will have substantial involvement with the award recipient during performance of the funded activity. Applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses and activities.

Applicant Eligibility:

a. 93.085 RESEARCH ON RESEARCH INTEGRITY

FEDERAL AGENCY:

Office of the Secretary, Department of Health and Human Services

AUTHORIZATION:

Public Health and Welfare Act, 42 CFR 93.

OBJECTIVES:

The primary purpose of this grant program is to foster innovative approaches to promoting integrity in research and preventing research misconduct. Integrity is defined as the use of honest and verifiable methods in proposing, performing, and evaluating research and reporting research results with particular attention to adherence to rules, regulations, guidelines, and commonly accepted professional codes or norms. The Office of Research Integrity (ORI) seeks to support research and conferences designed explicitly to: (a) identify risk factors that make misconduct more likely; (b) create an evidence base for proactive interventions; and (c) build on lessons learned through previous research and the experiences of those who have been involved in guiding research misconduct proceedings. Secondly, this grant program seeks to support research to develop and test methods to better identify falsification, fabrication, and plagiarism. The tools necessary for detecting misconduct need to be constantly upgraded, tested, verified, and made available to the research community.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Research project grants provide support for clearly defined projects by a named investigator in an area representing his/her specific interests and competencies. Applicants are asked either to perform basic or applied research on research integrity, or deliver a conference or workshop on a relevant aspect of research integrity or preventing research misconduct. Funds may also be used for the creation and testing of tools that can be used to identify research misconduct. Funds may not be used for construction or renovation of buildings. This program is subject to the provisions of 45 CFR 75 and 45 CFR 92 as well as OMB Circular No. A-102 (Administrative Guidelines for States and Local Governments), and OMB Circular A-110 (Administrative Guidelines for Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations).

Applicant Eligibility:

Public, private or nonprofit agencies (including State and local government agencies) eligible Federal agencies, universities, colleges, hospitals and academic or research institutions may apply for research grants.

Beneficiary Eligibility:

Individuals and public, private, profit or nonprofit organizations.

Credentials/Documentation:

Nonprofit organizations must provide evidence of tax-exempt status. When projects involve the collaborative efforts of more than one organization or require the use of services or facilities not under the direct control of the applicant, written assurances of specific support or agreements must be submitted by the affected parties. OMB Circular No. A-87 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Applications are submitted in response to specific announcements posted on Grants.gov. All applications must be submitted using the Department of Health and Human Services Standard Form 424. Each announcement provides specific additional instructions regarding the contents of the narrative description of the project, budget justification, and other required information.

Application packages should be accessed through the appropriate funding opportunity announcement, found on Grants.gov website (<http://www.grants.gov/>). Consultation on a proposed project may be obtained from the Division of Education and Integrity staff responsible for the research. Applications are reviewed by principally nonfederal consultants recruited nationwide from the research and research integrity fields. The amounts of the award and period of support are determined on the basis of merit of the project and the nature of the grant mechanism. Electronic applications are submitted through the Grants.gov website.

All applications are evaluated for scientific and technical merit by a panel of independent experts who make recommendations for action to the Office of Research Integrity. After considering the recommendations of the panel, the Director of the Office of Research Integrity makes the final decision on the funding of applications. All applicants are notified in writing of actions taken on their applications.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Contact the headquarters or regional office, as appropriate, for application deadlines.

Appeals:

Not Applicable.

Renewals:

Support is recommended for a specified project period, not in excess of five years. Prior to termination of a project period, the grantee may apply for renewal of support for a new project period. An application for renewal is processed as a new competing request.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are generally funded on a 12-month basis. Support beyond the first year is contingent upon acceptable evidence of satisfactory progress, continuing program relevance, and availability of funds. See the following for information on how assistance is awarded/released: Bank transfer. A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization.

Reports:

Program reports are required, quarterly and annual programmatic reports describing progress, delays and next steps. Performance monitoring is not applicable. Quarterly SF425 Federal Financial Reports must be submitted to Payment Management Services 30 days after the end of each calendar quarter. 1) Interim progress reports annually as part of a non-competing application for previously recommended support; (2) terminal progress report within 90 days after end of project support. Quarterly SF425 Federal Financial Reports must be submitted to the Office of Grants Management 30 days after the end of each calendar quarter. A final FFR must be submitted 90 days after the end of the project period. Reports are to be submitted electronically through GrantSolutions. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit

conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

HHS and the Comptroller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of a grantee, subgrantee, contractor, or subcontractor, which are pertinent to the HHS grant, in order to make audits, examinations, excerpts and transcripts. In accordance with 2 CFR 200.333, grantees are required to maintain grant accounting records 3 years after the end of a project period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.086 HEALTHY MARRIAGE PROMOTION AND RESPONSIBLE FATHERHOOD GRANTS

(HMRF)

FEDERAL AGENCY:

Administration for Children and Families, Department of Health and Human Services

AUTHORIZATION:

Social Security Act, Title IV, Part A, Section 403; The Claims Resolution Act of 2010 (CRA), Public Law 111-291.

OBJECTIVES:

Included three objectives: (1) To fund Healthy Marriage Promotion activities that will help couples, who have chosen marriage for themselves, gain greater access to marriage education services on a voluntary basis. These services will help couples acquire the skills and knowledge necessary to form and sustain a healthy marriage; (2) To fund Responsible Fatherhood promotion activities specifically designed to promote responsible fatherhood to reverse the rise in father absence and its subsequent impact on our nation's children. ACF will award these funds on a competitive basis to States, territories, Indian tribes and tribal organizations, and public and nonprofit community entities, including faith-based organizations; and (3) Award competitive based demonstration projects designed to test the effectiveness of tribal governments or tribal consortia in coordinating the provision to tribal families at risk of child abuse or neglect of child welfare services and services under tribal programs funded under this part.

TYPES OF ASSISTANCE:

DISSEMINATION OF TECHNICAL INFORMATION; Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The Secretary may not award funds on a noncompetitive basis, and may not provide any such funds to an entity for the purpose of carrying out healthy marriage promotion activities or for the purpose of carrying out activities promoting responsible fatherhood unless the entity has submitted to the Secretary an application which describes how the programs or activities proposed in the application will address, as appropriate, issues of domestic violence; and what the applicant will do, to the extent relevant, to ensure that participation in the programs or activities is voluntary, and to inform potential participants that their participation is voluntary; and contains a commitment by the entity to not use the funds for any other purpose; and to consult with experts in domestic violence or relevant community domestic violence coalitions in developing the programs and activities.

Applicant Eligibility:

The Healthy Marriage and Relationship Education Grant Program (HMRE) is part of the U.S. Department of Health and Human Services (HHS), Administration for Children and Families (ACF) efforts to promote HMRE at the community level. The Healthy Marriage program funds organizations that combine marriage and relationship education efforts with a robust effort to address participation barriers and the economic stability needs of their participants. The programs directly, or through the affiliates or partners with which they are collaborating, have a physical presence in a community, city, or county where services are provided.

The New Pathways for Fathers and Families Grant Program (New Pathways) is part of the U.S. Department of Health and Human Services (HHS), Administration for Children and Families (ACF) efforts to support responsible fatherhood. The New Pathways program funds projects that integrate robust economic stability services, healthy marriage activities, and activities designed to foster responsible parenting.

The Responsible Fatherhood Opportunities for Reentry and Mobility Project (ReFORM) is a part of the U.S. Department of Health and Human Services (HHS), Administration for Children and Families (ACF) efforts to support responsible fatherhood and ex-prisoner initiatives.

Beneficiary Eligibility:

Families, couples, individuals in need of assistance with Healthy Marriage services, including marriage enhancement and relationship education and

Responsible Fatherhood activities, including parenting education, economic stability services. In general these funds assist in the efforts to enhance and expand the ability of States, Native American governments, local governments, for-profit organizations, non-profit community organizations and other public entities to provide family formation and responsible fatherhood services to those in need.

Credentials/Documentation:

Any nonprofit agency was required to provide proof of its nonprofit status through one of the following: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS code. (b) A copy of a currently valid IRS tax exemption certificate (c) A statement from a State taxing body, State Attorney General, or other appropriate State official certifying that the applicant organization has a nonprofit status and that none of the net earnings accrue to any private shareholders or individuals. (d) A certified copy of the organization's certificate of incorporation or similar document that clearly establishes nonprofit status. (e) Any of the items in the subparagraphs immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization if it's local nonprofit affiliate. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants needed to complete all the standard forms required for making application for awards under this announcement. Applicants that requested financial assistance submitted Standard Forms 424, 424A, 424B and the associated certifications and assurances. Specific instructions were published in the official program announcement.

Award Procedure:

Applications received by the due date were reviewed and scored competitively. Peer reviewers, generally persons from outside the Federal government, used the evaluation criteria listed in Section V of the Funding Opportunity Announcement to review and score the applications. The results of the review were a primary factor in making funding decisions. ACF also had the option to solicit comments from other Federal agencies. ACF had the option to consider a variety of factors in addition to the review criteria identified above, including geographic diversity/coverage and types of applicant organizations, in order to ensure that the interests of the Federal Government are met in making the final selections. The successful applicants were notified through issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the budget period for which initial support will be given, and the total project period for which support is contemplated. In accordance with the authorizing legislation, preference was given to those applicants that were awarded any prior Responsible Fatherhood, Healthy Marriage, or Tribal Child Welfare funds between 2005 and 2010 and that have demonstrated the ability to have successfully carried out their program.

Administration for Children and Families, Department of Health and Human Services

AUTHORIZATION:

Social Security Act, as amended, Title IV, Part B, Section 437(f), 42 U.S.C 629g.

OBJECTIVES:

To provide, through interagency collaboration and integration of program activities and services that are designed to increase well-being, improve permanency outcomes, and enhance the safety of children who are in an out-of-home placement or are at risk of being placed in out-of-home care as a result of a parent's or caretaker's substance abuse.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants are provided for services or activities that are consistent with the purpose of section 437(f) of Title IV-B of the Social Security Act and may include the following: (1) family-based comprehensive long-term substance abuse treatment services; (2) early intervention and preventative services; (3) children and family counseling; (4) mental health services; (5) parenting skills training; and (6) replication of successful models for providing family-based comprehensive long-term substance abuse treatment services. Other suggested activities and services are listed in the program announcement. One hundred percent of funds are set-aside for discretionary activities.

Applicant Eligibility:

State governments, county governments, local governments, city or township governments, regional organizations, U.S. territory or possession, independent school districts, public and state-controlled institutions of higher education, Indian/Native American tribal governments (federally recognized), Indian/Native American tribal organizations (other than federally recognized), Indian/Native American tribally designated organizations, public/Indian housing authorities, non-profits with 501(c)(3) IRS status (other than institutions of higher education), non-profits without 501(c)(3) IRS status (other than institutions of higher education), private institutions of higher education, for-profit organizations (other than small businesses), small businesses, Hispanic-serving institutions, historically Black colleges and universities (HBCUs), tribally controlled colleges and universities (TCCUs), Alaska Native and Native Hawaiian serving institutions, and special district governments. Foreign entities are not eligible under this announcement. Applications must represent regional partnerships formed by a collaborative agreement. Applications must identify a primary applicant responsible for administering the grant. The primary applicant must be one of the regional partnership organizations listed above. The primary applicant cannot be an individual. The regional partnership must include either the state child welfare agency that is responsible for the administration of the state plan under title IV-B or title IV-E of the Social Security Act or an Indian tribe or tribal consortium but the regional partnership may not consist of only state entities.

Beneficiary Eligibility:

Agencies or organizations serving children and families who have experienced or are at risk of experiencing an out of home placement as a result of a parent's or caregiver's substance abuse.

Credentials/Documentation:

Non-profit agencies must submit proof of nonprofit status. Applicable costs and administrative procedures will be determined in accordance with 45 CFR Part 75. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Standard application forms as furnished by DHHS must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Announcement of availability of funds is posted to grants.gov. Eligible applicants submit applications by specified deadlines.

Award Procedure:

Grant applications are reviewed by a panel of non-federal professionals with expertise in the fields of child welfare and substance abuse treatment. Final decisions are made by the Commissioner, Administration on Children, Youth and Families (ACYF).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Three to six months.

Appeals:

Appeals are processed in accordance with HHS regulations in 45 CFR Part 16.

Renewals:

Projects are awarded with a provision for non-competitive renewal during the selected award period (5 years).

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: The required match must increase over the course of the grant period, such that grantees must contribute 15 percent of the costs of grant-funded services and activities in year 1 and year 2, 20 percent of such costs in year 3 and year 4, and 25 percent of such costs in year 5.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants were available for a 60-month period. Renewal funding for multiple-year grants is dependent upon grantee performance and availability of funds. See the following for information on how assistance is awarded/released:

Grant awards are managed by a payment management system that manages grant payment requests, drawdowns, and disbursements.

Reports:

Grantees must select and track performance indicators that measure the extent to which grant-funded activities and services enhance the safety, permanency, and well-being of children and their families. Financial reporting is conducted via the PSC 272. Program progress reports are required semiannually with a final report at completion of the project. Financial expenditure reports are required semiannually with a final report at completion of the project. Grantees must select, track and semi-annually report on performance indicators that measure the extent to which grant-funded activities and services enhance the safety, permanency, and well-being of children and their families. In addition, grantees are required to have a local evaluation that is of sufficient rigor to assess impacts on service delivery and outcomes, as well as participate in the national cross-site evaluation.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audits are conducted in accordance with requirements in 45 CFR 75 Subpart F.

93.088 ADVANCING SYSTEM IMPROVEMENTS FOR KEY ISSUES IN WOMEN'S HEALTH

Improving Health of Women and Girls

FEDERAL AGENCY:

Office of the Secretary, Department of Health and Human Services

AUTHORIZATION:

42 U.S.C. 300u-2(a), 42 U.S.C 300u-2(a).

OBJECTIVES:

To promote program and systems innovation, policy and performance management and strategic communications that will advance improvement for key issues in women's health. Programs will use evidence-based methodologies to support model programs, inform and advance policies and educate the public and professionals. Evaluation and outcomes reporting will be integral activities.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used to implement evidence-based strategies to achieve the HHS Office on Women's Health (OWH) program objectives. Applicants should identify, test, evaluate and promote effective, sustainable programs, policies and strategic communications for women and girls. Funds are to support reasonable program purposes including staffing, supplies, and services. Funds may not be used for construction, building alterations or renovations; fund-raising activities; job training; political education and lobbying; vocational rehabilitation; or to supplant ongoing project activities. Funds may not be used for equipment, printing, food, and/or medical treatment outside of the funding

announcement requirements.

Applicant Eligibility:

Nonprofit organizations must provide evidence of tax-exempt status. When projects involve the collaborative efforts of more than one organization or require the use of services or facilities not under the direct control of the applicant, written assurances of specific support or agreements must be submitted by the affected parties.

Beneficiary Eligibility:

All women and girls, adults and children, including those underserved and minority populations, usually residing in the U.S., including Bone Fide territories, cities and islands.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application kits may be obtained by accessing Grants.gov at <http://www.grants.gov>. Applications are submitted in response to specific announcements published on Grants.gov. All applications must be submitted using the Department of Health and Human Services forms as specified in the announcement. Each announcement provides specific additional instructions regarding the contents of the narrative description of the project, budget justification, evaluation criteria and other required information.

Award Procedure:

Applications will be screened upon receipt. Those that are judged to be incomplete or arrive after the deadline will be returned without comment. Applications that fail to meet the screening criteria will not be reviewed and will receive no further consideration. Accepted applications will be reviewed for technical merit in accordance with HHS policies. Applications will be evaluated by a technical review panel composed of experts. Funding decisions will be made by the OWH and will take into consideration the recommendations and ratings of the review panel; program objectives and needs; stated preferences in the announcement; geographic location; and recommendations based on a pre-award site visit, if conducted. Official notice of approved application is made through the issuance of a Notice of Grant Award or a Notice of Cooperative Agreement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Refer to FOA. Approximately 30 - 90 days from the application deadline due date.

Appeals:

Not Applicable.

Renewals:

> 180 Days. Project period ranges from 3 to 5 years. Extensions to the project period may be made if deemed appropriate by the Assistant Secretary for Planning and Evaluation and approved by the grants manager.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants and cooperative agreements are generally funded on a 12-month basis, with an overall period of performance generally 3-5 years. Support beyond the first year is contingent upon acceptable evidence of satisfactory progress, continuing program relevance, and the availability of funds. Method of awarding/releasing assistance: by letter of credit.

Reports:

Grantees are expected to report all data by sex, race and age. Routine Program Reports are required twice a year, although the Program Officer reserves the right to require a different schedule to align reporting periods or to request more/less frequent reporting based on performance or program scheduling issues. The final program report will be summative. An edited version will accompany the final Financial Status Report. Reports must be submitted electronically through GrantSolutions (or other system if required by extenuating circumstances). Federal Cash Transaction Reports SF425 are due quarterly and must be submitted electronically through the Payment Management Services system. Progress reports are required quarterly to meet requirements of the Government Performance and Results Act. The Program Officer reserves the right to require a different schedule to align reporting periods. Grantees are expected to report all data by sex, race and age. Quarterly SF425 Federal Financial Reports must be submitted to the Office of Grants Management 30 days after the end of each calendar quarter and an annual FFR 90 days after the end of the budget period/project period end date. Reports are to be submitted electronically through GrantSolutions. Quarterly Progress reports, yearly progress reports, and site visit reports are requirements of OWH grants and cooperative agreements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

HHS and the Comptroller General of the United States or any of their authorized representatives shall have the right of access to any books, documents, papers, or other records of a grantee, sub-grantee, contractor, or subcontractor, which are pertinent to the HHS grant, in order to make audits, examinations, excerpts and transcripts. In accordance with 45 CFR, Part 74.53 and 45 CFR, Part 92, grantees are required to maintain grant accounting records 3 years after the end of a project period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.089 EMERGENCY SYSTEM FOR ADVANCE REGISTRATION OF VOLUNTEER HEALTH PROFESSIONALS

(ESAR-VHP)

FEDERAL AGENCY:

Office of the Secretary, Department of Health and Human Services

AUTHORIZATION:

Title III, Section 319I, Public Health Service Act (42 U.S.C. 247d-7b), as amended by the Pandemic and All-Hazards Preparedness Reauthorization Act (PAHPRA) of 2013, Public Law 113-5.

OBJECTIVES:

To establish and maintain a national interoperable network of state systems. Each system is maintained by a State or group of States for the purpose of verifying the credentials, certifications, licenses, relevant training, and hospital privileges of health care professionals who volunteer to provide health services during a public health emergency.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Grant funds may be used for ESAR-VHP related activities only. Grants funds may not be used for construction and/or major rehabilitation of buildings. Grants funds may not be used for basic research (e.g. scientific or medical experiments.). When appropriated and apportioned; all funds available will be used for discretionary grant awards.

Applicant Eligibility:

State health departments of all 50 States, the District of Columbia, the nation's three largest municipalities (New York City, Chicago and Los Angeles County), the Commonwealths of Puerto Rico and the Northern Mariana Islands, the territories of American Samoa, Guam and the United States Virgin Islands, the Federated States of Micronesia, and the Republics of Palau and the Marshall Islands.

Beneficiary Eligibility:

All State health departments listed above, hospitals and supporting health care systems.

Credentials/Documentation:

Applicants should review the individual ASPR funding opportunity announcement issued under this CFDA program for any proof or certifications which must be submitted prior to or simultaneous with submission of an application package. OMB Circular A-122 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Grant applications and required forms for this program can be obtained through Grants.gov - FIND. Applicants should visit Grants.gov - FIND for the funding opportunity announcement and Grants.gov - APPLY to download application materials to complete and submit their applications in accordance with the funding opportunity announcement (FOA).

Award Procedure:

Applications that successfully proceed through initial screening (as outlined in the FOA) will be objectively reviewed based upon the review criteria specified in the FOA. Applications selected for funding will be processed and the applicant notified in writing through the issuance of a Notice of Award from the Office of the Assistant Secretary for Preparedness and Response.

Deadlines:

Sep 30, 2010: Applicable deadlines and due dates are specified in the funding opportunity announcement.

Range of Approval/Disapproval Time:

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Project periods are limited up to 36 months. Budget periods are limited up to 12 months. See the following for information on how assistance is awarded/released: Awardee is issued a Notice of Award, a legal document that informs the awardee that a grant award has been made. Awardee may draw down funds in advance of the incursion of an expenditure (up to three days) from the Payment Management System.

Reports:

Grantees are required to submit program reports, also known as Program Progress Reports. Recipients must report cash transaction data via the Payment Management System (PMS) using the cash transaction data elements captured on the Federal Financial Report (FFR), Standard Form (SF) 425. Recipients will utilize the Transactions section of SF425 in lieu of the SF272. The FFR SF425 cash Transaction Report is due 30 days after the end of each calendar quarter. Grantees are required to submit semi-annual Program Progress Reports as well as final Program Progress Reports. ASPR requires cumulative financial reporting through consecutive funding periods on the SF269 FSR long form. The FFR SF425 was designed to replace the Financial Status Report SF269 and the Federal Cash Transactions Report SF272 with one comprehensive financial reporting form. Until HHS fully migrates to the SF425 FFR, recipients are still required to submit the SF269 Financial Status Report (FSR) semi-annually within 30 days after the first 6 month period and within 90 days of the budget period end date. Grantees are required to submit final Financial Status Reports (SF-269). Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

93.090 GUARDIANSHIP ASSISTANCE**FEDERAL AGENCY:**

Administration for Children and Families, Department of Health and Human Services

AUTHORIZATION:

Social Security Act, Title IV, Part E, Section 473.

OBJECTIVES:

To provide Federal financial participation (FFP) to states, Indian tribes, tribal organizations and tribal consortia (tribes) who opt to provide guardianship assistance payments for the care of children by relatives who have assumed legal guardianship of eligible children for whom they previously cared as foster parents. This assistance is intended to prevent inappropriately long stays in foster care and to promote the healthy development of children through increased safety, permanency, and well-being.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Federal assistance may be used only in support of the care of children who meet the eligibility requirements and their siblings under certain situations as specified in the statute. All relatives assuming guardianship of such children are eligible for the nonrecurring expenses associated with obtaining legal guardianship up to \$2,000. A state or tribe may receive FFP only if its title IV-E plan has been approved by the Secretary.

Applicant Eligibility:

Funds are available to states (including the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam and American Samoa) and to tribes with approved title IV-E plans.

Beneficiary Eligibility:

Beneficiaries are children who meet the following requirements: (1) the child has been eligible for title IV-E foster care maintenance payments while residing for at least six consecutive months in the home of the prospective relative guardian; (2) the state or tribe has determined that the permanency options of being returned home or adoption are not appropriate for the child; (3) the child demonstrates a strong attachment to the prospective relative guardian and the prospective guardian is committed to caring permanently for the child; and (4) for children who have attained the age of 14, the child has been consulted regarding the kinship guardianship arrangement. Beneficiaries may also be siblings of eligible children placed in the same kinship guardianship arrangement. FFP is available to states and tribes for payments made to a relative guardian in accordance with a kinship guardianship agreement that is in writing, negotiated, and binding.

The program was amended (through Public Law 13-183) effective September 29, 2014 to allow continuation of title IV-E kinship guardianship assistance payments if the relative guardian dies or is incapacitated and a successor legal guardian is named in the agreement (or in any amendments to the agreement.).

Credentials/Documentation:

Costs are to be determined in accordance with 45 CFR Part 75. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 091-Consultation is available to states and tribes from ACF Regional Offices.

092-Applications are made in the form of a title IV-E Plan, prepared in the format provided by the ACF Children's Bureau. Title IV-E plans and amendments must be submitted to the ACF Regional Child Welfare Program Manager for approval.

Award Procedure:

Quarterly awards are made on the basis of estimated expenditures, which are later revised to include only actual allowable claimed expenditures. Next quarter estimates are due on July 30, October 30, January 30 and April 30 each year. Final decisions and awards are made by the Headquarters Office.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Health and Human Services (HHS) will approve/disapprove applications (title IV-E plans or amendments to them) within 45 days of receipt by HHS.

Appeals:

Appeals are processed in accordance with HHS regulations in 45 CFR Part 16.

Renewals:

Awards remain effective without plan renewal but title IV-E plans may be amended as necessary.

Formula and Matching Requirements:

Statutory Formula: Funding is provided on an open-ended basis in accordance with sec. 474(a) of the Social Security Act.

Formula Grant Funding Level: FFP is equal to the applicable Federal Medical Assistance Percentage (FMAP) rate (as defined by sec.1905(b) (sec. 479B(d) for tribes) of the Social Security Act (i.e. from 50% to 83%, depending on the state or tribe and the fiscal year) for the total expended for kinship guardianship assistance payments; 75% of staff training costs; and 50% of other administrative costs. Short term training provided to kinship guardians was subject to a special FFP rate that varied by fiscal year from FY 2009 through FY 2012, but which was set at 75% for FY 2013 and thereafter.

Matching Requirements: The non-Federal share of program costs (difference

between total cost and FFP) in each funding category constitutes the required match to be met by the title IV-E agency. Matching funds from state agencies must be appropriated monies raised from non-Federal revenue sources. Matching funds from tribal agencies must also be appropriated monies, but may at the option of the tribe include Federal funds specifically authorized by Federal statutes to be used as match for other Federal programs. Additionally, in accordance with 45 CFR 1356.68, for administration and training cost only, tribal matching funds may include in-kind expenditures (or contributions) from allowable third party sources.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

FFP is available to a state or tribe operating under an approved title IV-E plan. The title IV-E agency may implement and claim allowable guardianship assistance program costs beginning on the first day of the quarter in which an approvable title IV-E plan amendment is submitted to the Administration for Children and Families (ACF) to implement the guardianship assistance program. See the following for information on how assistance is awarded/released: Assistance is awarded/released quarterly, through a letter of credit.

Reports:

Title IV-E agencies must report on the children assisted, as required by the Secretary. No progress reports are required. A report of estimated expenditures, actual expenditures, and number of children assisted (Form CB-496) is required 30 days after the end of each quarter. Other reports may be necessary as required by the Secretary. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audits are conducted in accordance with the requirements in 45 CFR 75 Subpart F.

Records:

States and tribes must maintain all financial and programmatic records necessary for the proper and efficient operation of the program, including records of applications, determinations of eligibility, utilization of awarded grants and other funds for the provision of financial assistance and allocated indirect and direct administrative and training costs in accordance with requirements in Health and Human Services regulations at 45 CFR 75, and written guidance from ACF.

Account Identification:

Obligations:

(Formula Grants) FY 16 \$122,631,572; FY 17 est \$151,000,000; and FY 18 est \$181,000,000

Range and Average of Financial Assistance:

FY 2016: Grants to states and tribes ranged from \$17,178 to \$45,805,380 with an average of \$3,888,407.

The program became available as an option for states as of October 7, 2008, and for tribes as of October 1, 2009. Title IV-E agencies began separate financial reporting of program costs for quarters commencing in FY 2011. A number of states and tribes may still be in the process of submitting FY 2016 title IV-E claims for these costs. Therefore, complete data on the range and average of financial assistance is not yet available.

TAFS Codes:

75-1545.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: 31 states (including the District of Columbia) and 2 tribes received grant awards in FY 2016. Fiscal Year 2017: It is anticipated that 31 states (including the District of Columbia) and 6 tribes will receive grant awards in FY 2017. Fiscal Year 2018: It is anticipated that 31 states (including the District of Columbia) and 6 tribes will receive grant awards in FY 2018.

93.092 AFFORDABLE CARE ACT (ACA) PERSONAL RESPONSIBILITY EDUCATION PROGRAM (PREP)

FEDERAL AGENCY:

Administration for Children and Families, Department of Health and Human Services

AUTHORIZATION:

The Patient Protection and Affordable Care Act, Title II Role Of Public Programs, Subtitle L, Maternal and Child Health Services , Title V, Section 2953, Public Law 113-93, 42 U.S.C 713(c)(1); The Medicare Access and CHIP Reauthorization Act of 2015 , Section 215, Public Law 114-10.

OBJECTIVES:

The purpose of this program is to educate adolescents and young adults on both abstinence and contraception for the prevention of pregnancy and sexually transmitted infections, including HIV/AIDS. The Affordable Care Act was established and provided funding for this program through FY 2014. The program was extended through September 30, 2017 in P.L. 114-110.

TYPES OF ASSISTANCE:

Formula Grants; Project Grants

USES AND USE RESTRICTIONS:

To carry out personal responsibility education programs designed to educate adolescents on both abstinence and contraception for the prevention of pregnancy and sexually transmitted infections, including HIV/AIDS. The State program component must fund teen pregnancy prevention and personal responsibility education programs that have been proven on the basis of rigorous scientific research, to change behavior, which means delaying sexual activity, increasing condom or contraceptive use for sexually active youth, or reducing pregnancy among youth. State programs must teach adulthood preparation subjects including healthy relationships, adolescent development, financial literacy, parent-child communication, educational and career success, and healthy life skills. Applicants for innovative program funding should describe the research base for proposed projects, such as the rationale for substantial modifications to evidence-based models and/or developmental research that suggests an innovative model is likely to be effective with a vulnerable or underserved population. Additionally, the innovative practices component must implement programs to target high-risk, vulnerable, and culturally under-represented youth populations. Such programs must be either

significant modifications of the above list of evidence-based models or are based upon other promising approaches with a strong research basis. All programs must agree to participate in a rigorous Federal evaluation of their project. Innovative programs must conduct their own rigorous, independent evaluations unless they are selected for the Federal evaluation. The list of evidence-based models was developed and is updated by the HHS Office of the Assistant Secretary for Planning and Evaluation (ASPE). From the \$75,000,000 appropriation, \$10,000,000 (13.3%) is designated for PREIS, which are demonstration grants for innovative teen pregnancy prevention and personal responsibility education programs (PREIS); \$3,250,000 (5% of the appropriation after the \$10,000,000 is removed) is set aside for Tribes and Tribal organizations; \$6,500,000 (10% of the appropriation after the \$10,000,000 is removed) is designated for program support and evaluation. The remaining \$55,250,000 (73.7% of the appropriation) is for States to implement evidence-based demonstration projects and is allotted by formula. With the appropriations available to continue the PREP funding in FY2016, a new cohort of PREP grants awards were funded. In FY2016 and FY2017, States applied for funding and unawarded funds allocated to States after this application period will be available for distribution on a discretionary basis to community-based organizations within those States. These Competitive PREP projects will have a three year project period.

Applicant Eligibility:

There is \$55,250,000 appropriated annually to fund 59 States and Territories to enable them to carry out Personal Responsibility Education Programs (PREP). Eligible applicants include the 50 United States, the District of Columbia, Puerto Rico, Virgin Islands, Guam, American Samoa, Northern Mariana Islands, Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

States or Territories that did not apply for funding in FY 2016 or 2017, are no longer eligible to apply for this program for the five year project period and their allotments will be made available as Competitive PREP grants to community-based organizations for the same State or territory. The annual award for the first cohort of Competitive PREP was \$18,856,405. The award for the second cohort of Competitive PREP grants awarded in FY2015 was \$11,049,699. The estimated funding for the third cohort of Competitive PREP awards in FY2018 is \$10,000,000.

Funds (\$10,000,000) shall be reserved to award PREP Innovative Strategies (PREIS) grants to entities to implement innovative youth pregnancy prevention strategies and target services to high-risk, vulnerable, and culturally under-represented youth populations.

Funds (\$3,250,000) shall be reserved for Tribal PREP grants to Indian tribes and tribal organizations.

Funds (\$6,500,000) shall be reserved for program support that may be provided directly or through a competitive award process. Program support includes research, training and technical assistance, providing consultation and resources on a broad array of teen pregnancy prevention strategies, and developing materials to support grant activities. Funds shall also be reserved to evaluate PREP programs and activities.

Beneficiary Eligibility:

PREP shall provide services to adolescents and young adults. Applicants are encouraged to serve youth populations that are the most high-risk or vulnerable for pregnancies or otherwise have special circumstances, including youth in and aging out of foster care, homeless youth, youth with HIV/AIDS, pregnant youth who are under 21 years of age, mothers who are under 21 years of age, and youth residing in areas with high birth rates for youth. Applicants must include the most recent pregnancy data for the State for youth ages 10 to 14 and youth ages 15-19, the most recent birth rates among the same age groups, and trends in those rates for the most recently preceding 5-year period for which data are available.

Credentials/Documentation:

A signed letter from the authorized representative must accompany each application; it should include documentation establishing the authorized representatives authority to apply for and administer the PREP grant program funds on behalf of the State or Territory.

For other funding available under this CFDA number, non-profit organizations applying for funding are required to submit proof of their non-profit status. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The PREP program includes formula and competitive grant awards to a range of entities. The OMB circulars that are relevant vary according to the funding opportunity and the kind of organization that will be implementing the grant award.

Award Procedure:

For FY 2016 and FY 2017 funds allotted to States and Territories (States), the Administration for Children and Families (ACF) advised States and Territories of the funding opportunity through a Federal Register notice and/or by a Funding Opportunity Announcement (FOA). States that submitted applications for FY2016 were reviewed by project officers and the approval to award all submitted applications was forwarded to the Office of Grants Management to make awards. States and territories that were awarded FY 2016 and/or FY 2017 funds are to submit a letter of intent in order to receive awards in FY 2018, FY 2019 and FY 2020. There are 51 State PREP grantees.

A FOA was published to award funds to community based organizations in the States and territories that did not receive FY 2010 and FY 2011 PREP funding. Applications were reviewed by an Objective Review Committee which applied the criteria given in the FOA in order to derive priority scores. The review panels consisted of expert peer reviewers who reviewed each application that met the responsiveness and screening criteria. Federal staff provided oversight to the review process. Thirty-seven applicants were awarded Competitive PREP funding in FY2012 for a three year project period that ended in September 2015 and a second cohort of 21 awards were funded in FY2015 with a three year project period and one supplement award to a first cohort grantee to support the completion of evaluation activities.

For funds reserved for PREIS grants in FY2010, applications were reviewed on a nationwide basis and in competition with other submitted applications. Eligible applications were reviewed by an Objective Review Committee which applied the criteria given in the Funding Opportunity Announcement (FOA) in order to derive priority scores. The applications were reviewed by expert peer reviewers who reviewed each application that met the responsiveness and screening criteria. Federal staff provided administrative oversight to the grant review process. The review results formed the basis for development of the programmatic terms and conditions of the cooperative agreement. Funding decision recommendations were provided to the Director of the Office of Adolescent Health and the Commissioner for the Administration on Children, Youth and Families (ACYF) in order by score and rank determined by the review panel. Final award decisions were made collaboratively by the Director of OAH and the Commissioner of ACYF. In making the award decision, the Director and the Commissioner took into account the score and rank order given by the Objective Review Committee, and other considerations given in the FOA. Thirteen applicants were awarded cooperative agreements in FY2010 and two grantees relinquished their funding. There are 11 funded PREIS projects. In FY2016, a FOA was published to award funds to a second cohort of PREIS grantees. Applications will be reviewed by an Objective Review Committee that will applied the criteria given in the FOA in order to derive priority scores. The review panels consisted of expert peer reviewers who reviewed each application for responsiveness to the screening criteria. Federal staff provided oversight to the review process. Twenty-one awards were made in FY2016 for the five year project period.

Funds reserved for grants to Indian tribes and tribal organizations were made available in a manner determined by the Secretary, in consultation with Indian tribes and tribal organizations, to be appropriate. In FY 2011, a FOA was issued for the award of the grants. Sixteen applicants were awarded Tribal PREP

funding through the discretionary grant review process. An FY2016 FOA was published and 8 awards were made with a five year project period.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 90 to 120 days. Consult the FOA or contact the headquarters office, as appropriate, for application deadlines.

Appeals:

Not Applicable.

Renewals:

From 90 to 120 days.

Formula and Matching Requirements:

Statutory Formula: Title V, Public Law 113-93.

This program has no matching requirements. Cost sharing or matching of non-Federal funds is not required. However, funded programs should build on but not duplicate or replace current Federal programs as well as state, local or community programs, and programs should coordinate with existing programs and resources in the community.

This program has MOE requirements, see funding agency for further details. This program has Maintenance of Effort (MOE) requirements, see funding agency for further details. This program has an MOE requirement for states and local entities to require that expenditure of non-federal funds for activities, programs or initiatives allowed in this program be no less than such expenditures in FY2015. The intent is to supplement and not supplant the funds expended in FY2015 or the year prior to new awards.

Length and Time Phasing of Assistance:

Funds allotted to States and Territories for a fiscal year shall remain available for expenditure by the State through the end of the second succeeding fiscal year. If a State or territory did not submit an application for FY2016 or FY2017, they are no longer be eligible to submit an application to receive funds from the amounts allotted to the State for each of fiscal years 2016 through 2020. State PREP grantees awarded in FY2016 and FY2017 will submit a letter of intent to receive FY2018 funding.

State PREP allocated funding that was not requested by States will continue to be used to award three year discretionary grants to local organizations and entities for the same purpose and in the same geographic regions in FY2018. The Competitive PREP grant funding is available over a 36 month project period from the date of award. Annual funding for this program is to be expended within 12 months of award. A FOA will be drafted and published to award FY2018 appropriated Competitive PREP funding for an estimated 20 awards.

The PREIS grantees were awarded funding through cooperative agreements over a five year project period. The annual funding is to be expended at the end of each 12 month budget period. A FY2016 funding opportunity for a second cohort of PREIS grants with a five year project period was published and 8 grants were awarded.

Tribal PREP grants are discretionary awards with a four year project period. Annual awards are to be expended at the end of each 12 month budget period. Funding available through the FY2015 extension of the program was awarded through non-competing continuations to 14 current Tribal PREP grantees. An FY2016 funding opportunity for a second cohort of Tribal PREP grants with a five year project period was published and 16 awards are anticipated. See the following for information on how assistance is awarded/released: Periodic draw downs are based upon need and project progress.

Reports:

Each award recipient will submit semi-annual performance progress, fiscal and performance measure data reports. Grantees must submit all required reports in a timely manner and in the recommended format provided. The grantees shall submit an annual Financial Status Report (FSR). An FSR is due no later than 90 days after the end of the applicable 12 month period and failure to submit these in a timely manner could affect future funding. The report is an accounting of expenditures for each budget year of the project. There is a

requirement for performance measurement data collection and performance progress reporting (e.g., monitoring requirements) for the State PREP, PREIS, Tribal PREP and Competitive PREP grantees. Tribal consults were conducted prior to the finalization of the Tribal PREP funding opportunity announcement, to include discussion on the reporting requirements. The recipient shall submit an annual Financial Status Report (SF-425) due no later than 90 days after the end of the applicable 12 month period. The report is an accounting of expenditures for each year of the project. More specific information on this reporting requirement was included in the Notice of Grant Award. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grantees must comply with the relevant sections of the Code of Federal Regulations and OMB circulars to perform required audits.

Records:

All financial records are to be maintained for three years after termination of the project or until the audit is completed, whichever occurs first.

Account Identification:

Obligations:

(Formula Grants) FY 16 \$43,398,751; FY 17 est \$40,793,510; and FY 18 est \$0 - Program expires on 9/30/2017, therefore, no obligations estimated for FY 2018. (Project Grants (Discretionary)) FY 16 \$25,404,896; FY 17 est \$23,200,127; and FY 18 est \$0 - Program expires on 9/30/2017, therefore, no obligations estimated for FY 2018.

Range and Average of Financial Assistance:

Each State or Territory shall be allotted at least \$250,000 or an amount determined by a formula, using the number of individuals who have attained age 10 but not attained age 19 in the State or Territory to the total number of such individuals in the entire U.S. based on the most recent Census data, whichever is greater. Applicants for which Census data are not available will be eligible for the minimum allocation of \$250,000. The range for State PREP awards to 51 states and territories is \$250,000 to \$5,860,140. The range for the awards to 13 PREP Innovative Strategies grantees is \$478,919 to \$852,022. The range for the awards to 8 Tribal PREP grantees is \$316,782 to \$598,227. The range for the awards to the 21 Competitive PREP grantees is \$250,000 to \$794,240.

RELATED PROGRAMS:

93.060 Competitive Abstinence Education (CAE); 93.235 Abstinence Education Program

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Funded State programs must replicate evidence-based, effective programs or strategies that substantially incorporate elements of effective programs that have been proven on the basis of rigorous scientific research to change behavior, which means delaying sexual activity, increasing condom or contraceptive use for sexually active youth, or reducing pregnancy among youth. The programs must include activities to educate youth who are sexually active regarding responsible sexual behavior with respect to both abstinence and the use of contraception. Such activities should teach adulthood preparation subjects including healthy relationships, adolescent development, financial literacy, parent-child communication, educational and career success, and healthy life skills. The programs must: be medically-accurate and complete; include activities to educate youth who are sexually active regarding responsible sexual behavior with respect to both abstinence and the use of contraception; place substantial emphasis on both abstinence and contraception for the prevention of pregnancy among youth and sexually transmitted infections; and must provide age-appropriate information and activities. The information and activities carried out under the program must be provided in the cultural context that is most appropriate for individuals in the particular population group to which they are directed.

REQUIREMENTS OF INNOVATIVE STRATEGIES PROJECTS: Proposals were funded based on how effectively they can develop, replicate, refine, and test innovative strategies for preventing teenage pregnancy. Programs must be medically accurate, age appropriate, and target services to identified vulnerable and at-risk populations. The programs must include activities to educate youth who are sexually active regarding responsible sexual behavior with respect to both abstinence and the use of contraception. Such activities should teach adulthood preparation subjects including healthy relationships, adolescent development, financial literacy, parent-child communication, educational and career success, and healthy life skills. Funded projects are expected to generate lessons learned so others can benefit from these strategies and innovative approaches and increase the capacity of communities to develop, implement, and evaluate interventions for dissemination and replication by others. Funded projects must show that the proposed intervention is: (a) based on some preliminary evidence of effectiveness; (b) a significant adaptation of an evidence-based program; or (c) is a new and innovative approach to teenage pregnancy prevention with a sound basis in research.

REQUIREMENTS OF TRIBAL PROJECTS: Criteria for Tribal projects were developed by the Secretary, in consultation with Indian Tribes and Tribal Organizations that were deemed appropriate. Tribal PREP funding is directed toward the development of culturally appropriate comprehensive teen pregnancy prevention programs that incorporate medically accurate approaches replicating effective programs or elements of programs that have been demonstrated to change behavior. Tribal PREP focuses on the same fundamental requirements as the State PREP projects—the education of youth on both abstinence and contraception and on other adulthood preparation subjects with the goal of preventing teen pregnancy and sexually transmitted infections (STIs) including HIV/AIDS. Funds support PREP efforts that are dedicated to the development of comprehensive, high quality interventions and services that rely on the best available research evidence to inform and guide practice. Since there are few studies of teen pregnancy prevention programs targeting youth in Tribal communities, adaptation and innovation are important. Further, programs that currently serve Native youth have not been rigorously evaluated and may not offer strong models for replication. Tribes and tribal organizations are encouraged, therefore, to adapt evidence-based (EB) models (or elements of EB models) that address the unique cultural needs of their communities. Adaptation must retain core elements of proven effective programs.

REQUIREMENTS OF COMPETITIVE PREP PROJECTS: Competitive PREP funds support projects that educate youth between the ages of 10 and 19, and pregnant and parenting youth, under age 21, on abstinence and contraception for teen prevention of pregnancy and sexually transmitted infections (STIs), including HIV/AIDS. Applicants must also provide programming on at least three of six adulthood preparation subjects that are

discussed in the published FOA. Further PREP funding is directed toward the development of comprehensive, teen pregnancy prevention programs that incorporate medically accurate approaches, while replicating evidence-based programs or elements of programs that have been demonstrated to change behavior. FYSB's Competitive PREP funding supports efforts that are dedicated to the development of comprehensive, culturally appropriate interventions and services that rely on the best available research to inform and guide practice.

93.093 AFFORDABLE CARE ACT (ACA) HEALTH PROFESSION OPPORTUNITY GRANTS

HPOG

FEDERAL AGENCY:

Administration for Children and Families, Department of Health and Human Services

AUTHORIZATION:

Social Security Act, Title XX, Section 2008, Public Law 111-148, 42 U.S.C 1397.

OBJECTIVES:

To provide education and training to Temporary Assistance for Needy Families (TANF) recipients and other low-income individuals for occupations in the health care field that pay well and are expected to either experience labor shortages or be in high demand.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

The funds may be used to provide education and training to TANF recipients and other low-income individuals for occupations in the health care field that pay well and are expected to either experience labor shortages or be in high demand. Funds may be used for participant supportive services, including financial aid, child care, and case management. Section 2005(a) (other than paragraph (6)) of the Social Security Act (42 U.S.C 1397d(a)) applies to grants awarded in this program to the same extent and in the same manner as such section applies to payments to States under this Title XX of the Social Security Act (the Social Services Block Grant). All funds are set aside for discretionary activities.

Applicant Eligibility:

An eligible applicant is a State, an Indian tribe or tribal organization, an institution of higher education, a local workforce investment board established under section 117 of the Workforce Investment Act of 1998, a sponsor of an apprenticeship program registered under the National Apprenticeship Act or a community-based organization.

Beneficiary Eligibility:

Eligible individual beneficiaries are individuals receiving assistance under the State TANF program; or other low-income individuals described by the eligible entity in its application for a grant under this section.

Credentials/Documentation:

Non-profit organizations applying for funding are required to submit proof of their non-profit status. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Applicants must demonstrate that they have consulted with the State agency responsible for administering the State TANF program, the local workforce investment board in the area in which the project is to be conducted (unless the applicant is such board), the State workforce investment board established under section 111 of the Workforce Investment Act of 1998, and the State Apprenticeship Agency recognized under the Act of August 16, 1937 (commonly known as the National Apprenticeship Act) (or if no agency has been recognized in the State, the Office of Apprenticeship of the Department of Labor) and that the project will be carried out in coordination with such entities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the

State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Complete application instructions were given in the Funding Opportunity Announcements (Nos. HHS-2015-ACF-OFA-FY-0952 and HHS-2015-ACF-OFA-FX-0951).

Award Procedure:

Grant applications are reviewed and evaluated by objective review panels using the criteria given in the Funding Opportunity Announcement. Each panel is made up of experts with knowledge and experience in the area under review.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Not Applicable.

Renewals:

From 60 to 90 days. Each year following the initial competitive funding, non-competitive continuation applications will be received and processed within 60-90 days.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The Health Profession Opportunity Grant (HPOG) program uses the project period system of funding. Projects are programmatically approved for support in their entirety, but are funded in annual increments called budget periods. Through a competitive process HPOG projects are approved for five year project periods. Each new budget period begins September 30. In general, funding for each budget period must be obligated within the budget period. Recipients are required to submit a non-competing continuation application and semi-annual performance progress reports as a prerequisite for approval and funding of each subsequent budget period within the approved project period. Funding for each budget period is contingent on satisfactory progress, the availability of funds, and the continued best interests of the Federal government. See the following for information on how assistance is awarded/released: Funds are drawn down by grantees on a periodic basis, typically each month.

Reports:

Grantees must submit semi-annual performance progress reports. Each semi-annual progress report is due no later than 30 days after the end of the reporting period. Grantees must submit an annual Financial Status Report (FSR). An FSR is due no later than 90 days after the end of the applicable 12 month period and failure to submit these timely could affect future funding. The SF 425 FFR will be used to report Financial Status and Cash Transactions. The report is an accounting of expenditures under the project that year. Grantees must submit semi-annual performance progress reports. Each semi-annual progress report is due no later than 30 days after the end of the reporting period. The grantees shall submit an annual Financial Status Report (FSR). An FSR is due no later than 90 days after the end of the applicable 12 month period and failure to submit these timely could affect future funding. The SF 425 FFR will be used to report Financial Status and Cash Transactions. The report is an accounting of expenditures under the project that year. Federal staff primarily use the semi-annual performance progress reports for the purpose of performance monitoring. Actual progress is compared to projected outcomes.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

All financial records are to be maintained for 3 years after termination of the project or until audit is completed, whichever comes first.

93.094 WELL-INTEGRATED SCREENING AND EVALUATION FOR WOMEN ACROSS THE NATION

WISEWOMAN

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

This program is authorized under sections 1501-1510 [42 U.S.C. 300k, 42 U.S.C. 300l, 42 U.S.C. 300m, 42 U.S.C. 300n, 42 U.S.C. 300 n-1, 42 U.S.C. 300 n-2, 42 U.S.C. 300 n-3, 42 U.S.C. 300 n-4, 42 U.S.C. 300 n-4a, 42 U.S.C. 300 n-5] of the Public Health Service Act, as amended. WISEWOMAN must follow the legislative requirements detailed in these sections.

OBJECTIVES:

WISEWOMAN is intended to improve the cardiovascular health of low-income, uninsured and under-insured women, ages 40-64, who are participants in the National Breast and Cervical Cancer Early Detection Program (NBCCEDP). Supplements to Public Law 101-354 expand the preventive health services provided through NBCCEDP to: (1) include screenings regarding blood pressure and cholesterol, and health education; (2) provide appropriate referrals for medical treatment of women receiving services pursuant to screenings; (3) ensure, to the extent practicable, the provision of appropriate followup services; and (4) evaluate activities conducted under

paragraphs (1) and (2) through appropriate surveillance or program monitoring activities.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds can be used for salaries for personnel to plan, implement, monitor and evaluate the program activities; for contracts or agreements with clinical entities to provide the cardiovascular screenings; risk reduction counseling; diagnostic office visits for abnormal screening values; contracts or agreements with community based organizations to provide health education and lifestyle support programs, or to improve the health of the physical environment (for example to improve access to healthy food, physical activity, or decrease tobacco exposure); or other activities that promote or support healthy behaviors and improved cardiovascular health in women. Funds can be used to pay for activities or expendable equipment necessary to provide the services outlined here, including self-blood pressure monitoring equipment and counseling to enhance medication adherence. Funds can be used to develop and maintain data collection systems to collect and report bio-measures and behavior information and for monitoring systems to augment control of hypertension. Funds cannot be used for research or construction or for ongoing medical treatment of participants. In accordance with Public Law 101-354 and its amendments, at least 60 percent of cooperative agreement funds awarded must be used to provide direct client services for eligible women. Direct client services include screening; health education/lifestyle intervention sessions; diagnostic tests; laboratory fees; tracking; follow-up; and support services to maximize participation in screening and lifestyle intervention sessions. No more than 40 percent of cooperative agreement funds can be used to support the following: program management and planning; data management, which includes using data to track due dates or attendance at appointments; quality assurance/quality improvement; public education initiatives; professional development; partnerships; community engagement; evaluation; and administration. Administrative costs are limited to no more than 10% of the total amount awarded.

Applicant Eligibility:

Applicants must be recipients of the National Breast and Cervical Cancer Early Detection Program (NBCCEDP).

Beneficiary Eligibility:

Low Income, uninsured or under-insured women.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must download supplemental application forms from www.Grants.gov. Supplemental applications must be submitted electronically at www.Grants.gov. If an applicant does not have access to the Internet, or if they have difficulty accessing the forms online, contact the CDC Procurement and Grants Office, Technical Information Management Section (PGO-TIMS) staff. For this, or further assistance, contact PGO-TIMS: Telephone: 770-488-2700, email: PGOTIM@cdc.gov. HHS/CDC Telecommunications for the hearing impaired: TTY 770-488-2783

Award Procedure:

All applications submitted by the deadline that are complete and responsive to competitive supplemental grant and cooperative agreement announcements will undergo an objective review process, receive a written critique and be scored according to published review criteria. Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The

NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized CDC Grants Management Officer.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Renewals will be based upon the conditions in the funding announcement, program performance including meeting program requirements and performance measures, submission of an acceptable request for continuation funding and are subject to the availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Percent: 40%. Recipient financial participation is required for this program in accordance with the authorizing legislation. Section 1502(a) and (b)(1), (2), and (3) of the PHS Act, as amended, requires matching funds from non-Federal sources in an amount not less than one dollar for every three dollars of Federal funds awarded under this program. However, Title 48 of the US Code 1469a (d) requires DHHS to waive matching fund requirements for Guam, U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands up to \$200,000.

The match requirement may include third-party in-kind contributions, as well as expenditures from the grantee. The matching funds may be cash, in-kind or donated services or equipment. Public Law 93-638 authorizes tribal organizations contracting under the authority of Title I to use funds received under the Indian Self-Determination Act as matching funds. Matching funds may not include: 1) payment for treatment services or the donation of treatment services; 2) services assisted or subsidized by the Federal government; or 3) the indirect or overhead costs of an organization. All costs designated as meeting the match requirement must be documented by the applicant and will be subject to audit. Documentation of appropriate matching is to be provided in the detailed budget and narrative justification.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Financial assistance is available for a 12-month budget period and 48-month project period. Method of awarding/releasing assistance: lump sum.

Reports:

The reporting schedule will be based on the requirements listed in the funding opportunity announcement. An Annual Progress Report is due 90 days after the end of the budget period. Federal Financial Reports (SF 425) and Final Progress Report are due 90 days after the end of the budget period. In addition, minimum data elements will be submitted not more than twice a year. Cash reports are not applicable. An Annual Progress Report is due 90 days after the end of the budget period. The Annual Progress Report will describe successes, challenges and progress toward meeting program goals and objectives and program measures. An annual Federal Financial Report is due 90 days after the end of the budget period. A final FFR is due 90 days following the end of the project period. Through the annual progress report, programs will describe progress in meeting program goals, objectives and performance measures.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the program shall be retained for a minimum of 3 years, or until completion and resolution of any audit in process or pending resolution.

In all cases records must be retained until resolution of any audit questions. Property records must be retained in accordance with 45 CFR 92.42.

Account Identification:

75-0094-3-1-550.

Obligations:

(Cooperative Agreements) FY 16 \$13,778,401; FY 17 est \$14,548,574; and FY 18 est \$0 - FY16 is the last year of the Project Period. FY17 provided an extension to the budget/project period for this program. this program will end 6/29/2018.

Range and Average of Financial Assistance:

Awards will range from approximately \$500,000 to \$2,000,000 with an average of approximately \$780,000.

In addition, eligible applications will be jointly reviewed for responsiveness by the CDC NCCDPHP and PGO. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance to Phase II review. Applicants will be notified that the application did not meet eligibility and/or published submission requirements. Phase II Review: An objective review panel will evaluate complete and responsive applications according to the criteria listed in the criteria section of the FOA. Applicants will be notified electronically if the application did not meet eligibility and/or published submission requirements thirty (30) days after the completion of Phase II review. Applications will be funded in order by score and rank determined by the review panel.

93.095 HHS PROGRAMS FOR DISASTER RELIEF APPROPRIATIONS ACT - NON CONSTRUCTION

FEDERAL AGENCY:

Department of Health and Human Services

AUTHORIZATION:

Relief Appropriations Act of 2013, Public Law 113-2.

OBJECTIVES:

As written in the Relief Appropriations Act of 2013, this program will fund disaster response and recovery, and other expenses directly related to Hurricane Sandy, which are in the FEMA-declared major disaster states, relevant to the following:

The Head Start program, but not including the base grant and not subject to allocation requirements of section 640(a) of the Head Start Act; Social Services Block Grant, in addition to the entitlement grants; Health services (including mental health services); Costs of renovating, repairing, or rebuilding health care facilities, child care

facilities, or other social services facilities;

Supporting the recovery of losses due to the hurricane at non-Federal biomedical or behavioral research facilities.

TYPES OF ASSISTANCE:

Cooperative Agreements; Formula Grants; Project Grants

USES AND USE RESTRICTIONS:

These funds can be used for research, renovation and repair, constructions, training, and counseling to address the objectives identified in section 050. Funds appropriated in this paragraph shall not be available for costs that are reimbursed by the Federal Emergency Management Agency, under a contract for insurance, or by self-insurance;

Amounts are designated by the Congress as being for an emergency requirement pursuant to section 251(b)(2)(A)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985; and

In accordance with OMB guidance and the disaster appropriation, benefits of this project must be restricted to all or part of the FEMA declared major disaster states, which are: Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia and the District of Columbia. All funds except those going to Social Services Block Grants or Head Start grantees, both through Administration for Children and Families.

Applicant Eligibility:

For Head Start and Social Services Block Grant, applicants must be current grantees. Applicants will be required to attest (at time of application) that funds requested will not be used for costs that are reimbursed by the Federal Emergency Management Agency, under a contract for insurance, or by self-insurance. Terms and Conditions of the award will stipulate that the grantee must reimburse HHS for any costs that are subsequently covered by the Federal Emergency Management Agency, under a contract for insurance, or by self-insurance. Definition: Self-Insurance is a formal plan, pursuant to law or regulation, in which amounts are set aside in a fund to cover losses of specified types and amounts, typically by a commercial insurance company. Appropriated funds are precluded from expenses that are or can be reimbursed by the formal self-insurance plan.

Beneficiary Eligibility:

Beneficiaries must be those impacted by Hurricane Sandy in 2012.

Credentials/Documentation:

Applicants will be required to attest (at time of application) that funds requested will not be used for costs that are reimbursed by the Federal Emergency Management Agency, under a contract for insurance, or by self-insurance. 93.097 STRENGTHENING THE NATION'S PUBLIC HEALTH SYSTEM THROUGH A NATIONAL VOLUNTARY ACCREDITATION PROGRAM FOR STATE, TRIBAL, LOCAL AND TERRITORIAL HEALTH DEPARTMENTS

A National Voluntary Accreditation Program for State, Tribal, Local and Territorial Health Departments

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

This program is authorized under section 317(k) (2) of the Public Health Service Act [42 U.S.C. 247(b)(k)(2)].

OBJECTIVES:

This project will support the operations and continuous improvement of a national accreditation program for state, tribal, local and territorial public health departments. This program will result in increased visibility for accreditation, a stronger public health accreditation program, increased demonstration of accountability of public health programs to decision makers and to the public, increased adoption of evidence based practices, increased use of quality improvement, improved capacity for state, tribal, local and territorial health departments to meet nationally established accreditation standards, and increased recognition of public health roles and value by leaders and the public.

Specific objectives may/will include but are not limited to:

1. Support communications and education regarding the accreditation program.
2. Establish a process of continuous improvement of the accreditation standards, tools, and processes to ensure a relevant, current and smoothly functioning program (all elements of the current program can be found at www.phaboard.org).
3. Strengthen strategic partnerships to support accreditation.
4. Strengthen the evidence base for accreditation.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for costs associated with planning, organizing, conducting, and supporting the National Voluntary Accreditation Program for State, Tribal, Local and Territorial Health Departments, and for the implementation of the Public Health Accreditation Board (PHAB) program elements as described in Section 050 above and through CDC allowable and unallowable expenses. Per CDC-RFA-OT13-1301, Part II Section D.15 Funding Restrictions, page 27. Detailed budget restrictions will be specified in corresponding most recent Notice of Award. Public Health assigns these funds for this Budget Activity.

Applicant Eligibility:

1. Eligible Applicants: Public Health Accreditation Board (PHAB), a nonprofit with 501(c)3 IRS status.
2. Special Eligibility Requirements: The only eligible applicant for this award is the Public Health Accreditation Board (PHAB), a 501(c)3 independent accrediting body that administers the national voluntary public health department accreditation program.
3. Justification for Less than Maximum Competition: The nature of the activities under this award are best employed by focusing on the entity to which this cooperative agreement is limited, per memorandum for approval for single-eligibility competition, which was approved and dated December 20, 2012.

PHAB was found to be uniquely qualified, as it is the organization that has been established as the national accrediting body for state, tribal, local and territorial health departments. PHAB was determined to have the experience and program infrastructure, which includes field-driven and tested standards, measures and accreditation assessment process. PHAB is also widely accepted as the national accrediting body for state, local tribal and territorial health departments by the constituency organizations for these agencies and as evidenced by the visible mention of PHAB within national policy documents (e.g., Institute of Medicine reports, Healthy People 2020).

Beneficiary Eligibility:

State, Tribal, Local and Territorial Public Health Departments via a National Voluntary Accreditation Program administered by the Public Health Accreditation Board (PHAB), a 501(c)3 independent accrediting entity.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Award Procedure:

Phase I Review: Eligible application will be initially reviewed for completeness by the CDC's Procurement and Grants Office (PGO) staff. In addition, eligible application will be jointly reviewed for responsiveness by CDC OSTLTS and PGO. Incomplete and/or non-responsive application to the eligibility criteria will not advance to Phase II review. Applicant will be notified that the application did not meet eligibility and/or published submission requirements. Phase II Review: An objective review panel will evaluate complete and responsive application according to the criteria listed in the criteria section of the FOA. Applicant will be notified electronically if the application did not meet eligibility and/or published submission requirements thirty (30) days after the completion of Phase II review. Successful applicant will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized CDC Grants Management Officer.

Deadlines:

93.098 TRIBAL PUBLIC HEALTH CAPACITY BUILDING AND QUALITY IMPROVEMENT

Tribal Public Health Capacity Building and Quality Improvement (CBQI)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

This program is authorized under section 317(k)(2) of the Public Health Service Act [42 USC 247(b)(k)(2), as amended]. In addition, this program is authorized under Executive Order 13175 [http://www.gsa.gov/portal/content/101569].

AR-15: Proof of Non-profit Status applies. , Executive Order EO13175.

OBJECTIVES:

This program will provide funding to improve tribal health systems quality, effectiveness, and efficiency in the delivery of public health services to American Indians/Alaska Natives (AI/AN). The intent is to provide support to optimize the quality and performance of tribal public health systems, tribal public health practice and services, tribal public health partnerships, and tribal public health resources.

Specifically, assistance will be provided in the following two Priority Areas: (1) tribal public health capacity building, and (2) performance evaluation and monitoring of programs. Through this FOA, CDC seeks to fund eligible federally recognized tribes and/or tribally designated organizations, whose mission is to improve the health status of Native people to provide capacity building in strengthening tribal health systems, and evaluating and monitoring awarded tribal public health capacity building projects in the AI/AN communities.

Specific objectives and outcomes may/will include but are not limited to:

- 1) Decrease burden of disease over a five year period among AI/AN ;
- 2) Increase efficiencies and effectiveness of tribal public health systems;
- 3) Increase quantity and quality of tribal public health services and cost effectiveness;
- 4) Increase dissemination of proven interventions for tribal public health services to AI/AN persons;
- 5) Increase adoption of effective strategies among Tribal public health systems implementation, cultural adaption, and fidelity factors with evidence based models.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for allowable costs associated with planning, organizing, conducting, and supporting the implementation of The Tribal Public Health Capacity Building and Quality Improvement (CBQI) program elements described in Section (050) above in compliance with HHS/CDC allowable expenses. Per CDC-RFA-OT13-1303, Part II Section D.15 Funding Restrictions, page 30. Detailed budget restrictions will be detailed and specified in corresponding most recent Notice of Award. This award is funded from OSTLTS base appropriated funds.

Applicant Eligibility:

This program will provide funding to improve tribal health systems quality, effectiveness, and efficiency in the delivery of public health services to American Indians/Alaska Natives (AI/AN). The intent is to provide support to optimize the quality and performance of tribal public health systems, tribal public health practice and services, tribal public health partnerships, and tribal public health resources.

Credentials/Documentation:

All eligible applicants must be able to demonstrate the following:

- 1) Have experience effectively working with AI/AN populations, and
- 2) Have the ability to methodically and efficiently reach tribal members in AI/AN communities.

All eligible applicants must describe their experience in effectively delivering AI/AN culturally-specific programs and have a proven record of demonstrated success in monitoring and evaluation of the same AI/AN culturally-specific programs. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Award Procedure:

Phase I Review: Eligible applications will be initially reviewed for completeness by the CDC's Procurement and Grants Office (PGO) staff. In addition, eligible applications will be jointly reviewed for responsiveness by CDC OSTLTS and PGO. Incomplete and/or non-responsive applications to the eligibility criteria will not advance to Phase II review. Applicants will be notified that the application did not meet eligibility and/or published submission requirements. Phase II Review: An objective review panel will evaluate complete and responsive applications according to the criteria listed in the criteria section of the FOA. Applicants will be notified electronically if the application did not meet eligibility and/or published submission requirements thirty (30) days after the completion of Phase II review. Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office (PGO). The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized CDC Grants Management Officer.

93.099 COLLABORATION WITH THE WORLD HEALTH ORGANIZATION AND ITS REGIONAL OFFICES FOR GLOBAL HEALTH SECURITY AND THE INTERNATIONAL HEALTH REGULATIONS (IHR 2005)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Section 307 as amended [42 U.S.C. 241 and 2421].

OBJECTIVES:

On September 19, 2011, the Government of the United States of America and the World Health Organization (WHO) signed a memorandum of understanding (MOU) to help WHO Member States strengthen their capabilities to support the International Health Regulations (IHR), an international agreement that requires Member States to prevent and respond to acute public health risks that have the potential to cross borders. The MOU includes specific statements that authorize WHO and its regional offices to pursue activities that improve the ability of all nations to detect, report, and respond to infectious diseases quickly and accurately. The purpose is to assist WHO in implementing the MOU regarding the International Health Regulations, including the development and implementation of coordinated plans and networks that enable national governments and regional authorities globally to better address infectious diseases, particularly emerging infections. Specific activities will focus on improving infectious disease surveillance and response; enhancing knowledge generation, innovation, and tools for improved management that build public health infrastructure and strengthen regional health leadership and collaboration; sharing knowledge, tools and other resources in support of applied epidemiology; and developing improved infectious disease surveillance, prevention and control strategies.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Support implementation of the IHR by analyzing regional, national, and local resources devoted to infectious diseases and identifying areas for implementation of infectious disease activities consistent with the purpose of this cooperative agreement. Develop, implement, and conduct projects to enhance infectious disease surveillance, response, prevention, and control. Strengthen regional and national public health networks and inter-sectorial co-operation and collaborate with other health organizations, academic institutions, and community groups as appropriate to accomplish program activities. Strengthen regional and national public health leadership and collaboration. Monitor and evaluate overall program performance and the progress of individual projects or activities. Publish and disseminate findings, program evaluations, and lessons learned. Recipients may not use funds for research.

Recipients may not use funds for clinical care.

Recipients may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual.

Awardees may not generally use HHS/CDC/ATSDR funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget.

The direct and primary recipient in a cooperative agreement program must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award to another party or provider who is ineligible.

Reimbursement of pre-award costs is not allowed.

Applicant Eligibility:

Only the World Health Organization and its regional offices are eligible to apply. For purposes of this document, the term WHO includes its regional offices (e.g., PAHO, EMRO, AFRO, SEARO, etc). WHO is the only international and intergovernmental agency qualified to conduct activities under this cooperative agreement because:

WHO is an international public health agency that works to improve health and living standards globally. WHO is part of the United Nations system. As such, WHO has a unique position among the world's health agencies as the lead technical agency for health globally. For additional information, please see

<http://www.who.org>

WHO and its Regional Offices are at the apex of global public health organizations and thus have an exclusive status as the United States governments key partners for global public health.

On September 19, 2011, the Government of the United States of America and the World Health Organization signed a memorandum of understanding (MOU) to help developing nations strengthen their capabilities to support the International Health Regulations (IHR). The IHR (2005) is an international agreement that requires WHO Member States to prevent and respond to acute public health risks that have the potential to cross borders and threaten people worldwide. The U.S. Government and WHO share a commitment to strengthen cooperation in the area of global health security to ensure that the international community effectively manages public health risks. Improving the ability of all nations to detect, report, and respond to infectious diseases quickly and accurately lies at the heart of the global community's ability to address all infectious disease threats, as reflected in the IHR. The MOU establishes a framework for collaboration in line with the provisions set forth in the IHR, which provides a construct for coordinating the management of actions in the event of a public health emergency of international concern. The MOU was signed by Secretary Kathleen Sebelius, Department of Health and Human Services, and Director-General Margaret Chan, World Health Organization, and subsequently by Ambassador Betty E. King, United States Permanent Representative to the United Nations in Geneva. The full text of the MOU can be accessed at:

<http://www.globalhealth.gov/global-health-topics/health-diplomacy/agreements-and-regulations/20110922-mem.html>.

The MOU includes the following specific statements that support sole-source consideration of WHO and its regional offices (including PAHO) for funding activities that fall under the scope of the MOU: Section 8.a.: The United States Department of Health and Human Services (DHHS) continues to serve as the primary substantive interface with WHO on global health and health security. DHHS plans to ensure coordination with other U.S. Government departments, agencies, and entities that collaborate on health matters within the scope of this Memorandum to enhance the effectiveness of such activities. The U.S. Government agencies intend to develop programs and provide funds through mechanisms that may be determined jointly by the U.S. Government agency and WHO. Section 8.b.: Specific funding mechanisms are intended to be developed and U.S. Government agencies intend to collaborate with WHO to define specific work to be undertaken by the Participants and the division of responsibilities..

Beneficiary Eligibility:

The World Health Organization and its regional offices work will benefit individuals worldwide, including in the U.S., through collaboration with National Ministries of Health and other organizations/institutions.

The purpose is to support WHO to reduce the global disease burden through improved international capacity to detect and respond to emerging infectious diseases and other threats.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants must download and submit the SF424 application package associated with specific Funding Opportunity Announcements (FOAs) issued by CDC via Grants.gov. Specific application instructions will be included in the FOAs. Applications are not solicited nor will they be accepted outside of a published FOA process.

Award Procedure:

Eligible applications submitted in response to published FOAs will be initially reviewed for completeness by the Procurement and Grants Office (PGO) staff.

In addition, eligible applications will be jointly reviewed for responsiveness by CDC program staff and PGO. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified the application did not meet eligibility and/or published submission requirements. A review will be conducted to evaluate the eligible, complete, and responsive applications according to the criteria listed in the applicable FOA. As part of the review process, the applicant will receive a written Technical Review that summarizes the review findings regarding strengths, weaknesses, and recommendations. The eligible application will be selected and funded based on the findings of the review process. Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. Unsuccessful applicants will receive notification of the results of the application review by mail. here to enter text.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 30 to 60 days.

Appeals:

Not Applicable.

Renewals:

Awards under this Program are typically issued for 1- to 5-year project periods. Renewals at the end of each project period are expected to be made available via publishing of a new/continuation FOA with a complete application and review/award process as described above. Annual renewals within an awarded multi-year project period are made via a non-competitive process.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is available for a 12-month budget period within a 1- to 5- year project period. After awards are issued, funds are released in a manner and timeline in accordance with the payment procedure established by the grantee institution with DHHS (typically the Payment Management System). See the following for information on how assistance is awarded/released: Funding is awarded in accordance with established procedures for HHS/CDC-funded cooperative agreements.

Reports:

Federal Funding Accountability And Transparency Act Of 2006 (FFATA): Public Law 109-282, the Federal Funding Accountability and Transparency Act of 2006 as amended (FFATA), requires full disclosure of all entities and organizations receiving Federal funds including grants, contracts, loans and other assistance and payments through a single publicly accessible Web site, www.USASpending.gov. The Web site includes information on each Federal financial assistance award and contract over \$25,000, including such information as:

1. The name of the entity receiving the award
2. The amount of the award
3. Information on the award including transaction type, funding agency, etc.
4. The location of the entity receiving the award
5. A unique identifier of the entity receiving the award; and
6. Names and compensation of highly-compensated officers (as applicable)

Compliance with this law is primarily the responsibility of the Federal agency. However, two elements of the law require information to be collected and reported by recipients: 1) information on executive compensation when not already reported through the Central Contractor Registry; and 2) similar information on all sub-awards/subcontracts/consortiums over \$25,000.

For the full text of the requirements under the Federal Funding Accountability and Transparency Act of 2006, please review the following website: http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=109_cong_bills&d

ocid=f:s2590enr.txt.pdf .

Each funded applicant must provide CDC with an annual Interim Progress Report submitted via www.grants.gov:

1. The interim progress report is due no less than 90 days before the end of the budget period. The Interim Progress Report will serve as the non-competing continuation application, and must contain the following elements:
 - a. Standard Form (SF) 424S Form.
 - b. SF-424A Budget Information-Non-Construction Programs.
 - c. Budget Narrative.
 - d. Indirect Cost Rate Agreement.
 - e. Project Narrative.

Additionally, funded applicants must provide CDC with an original, plus two hard copies of the following reports:

2. Financial Status Report* (SF 269) no more than 90 days after the end of the budget period.
3. Final performance and Financial Status Reports*, no more than 90 days after the end of the project period.

*Disclaimer: As of February 1, 2011, current Financial Status Report (FSR) requirements will be obsolete. Existing practices will be updated to reflect changes for implementation of the new Federal Financial Reporting (FFR) requirements.

These reports must be submitted to the attention of the Grants Management Specialist listed in the Section VII below entitled Agency Contacts. Cash reports are not applicable. Described above. Described above. Described above.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. A-122 and/or international grant language should be cited... not A-133

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the project must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for a minimum of 3 years after the end of a budget period. If questions still remain, such as those raised as a result of an audit, records must be retained until completion or resolution of any audit in process or pending resolution. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

Account Identification:

Obligations:

(Cooperative Agreements) FY 16 \$4,288,312; FY 17 est \$615,260; and FY 18 est \$615,260 - This program includes awards made under two cooperative agreements (PAHO & WHO). In 2013, awards made to WHO fell under CFDA 93.283, so the actual award for FY13 under this CFDA is substantially less than initially estimated because it only includes the award to PAHO. WHO was moved to CFDA 93.099 in 2014 and so the FY14 includes awards made for both coags.

Range and Average of Financial Assistance:

Awards ranged and averaged between \$600K (PAHO) and \$18M (WHO).

General Grant Funding

FEDERAL AGENCY:

Food and Drug Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act as amended, Title III, Section 301(c), Public Law 78-410, 42 U.S.C 241 and 263; 2012 Defense Authorization Act (P.L.112-81), Public Law 112-81; Radiation Control for Health Safety Act of 1968, Title XVII, Public Law 90-602, 42 U.S.C 300u; Pediatric Medical Device Safety and Improvement Act of 2007, Section 305.

OBJECTIVES:

To assist institutions and organizations, to establish, expand, and improve research, demonstration, education and information dissemination activities; acquired immunodeficiency syndrome (AIDS), biologics, blood and blood products, therapeutics, vaccines and allergenic projects; drug hazards, human and veterinary drugs, clinical trials on drugs and devices for orphan products development; nutrition, sanitation and microbiological hazards; medical devices and diagnostic products, radiation emitting devices and materials; food safety and food additives. These programs are supported directly or indirectly by the following Centers and Offices: Center for Biologics Evaluation and Research (CBER); Center for Drug Evaluation and Research (CDER); Center for Devices and Radiological Health (CDRH); Center for Veterinary Medicine (CVM), Center for Food Safety and Applied Nutrition (CFSAN), National Center for Toxicological Research (NCTR), the Office of Orphan Products Development (OPD), the Center for Tobacco Products (CTP), and Office of Regulatory Affairs (ORA), and the Office of the Commissioner (OC). Small Business Innovation Research (SBIR) Programs: to stimulate technological innovation; to encourage the role of small business to meet Federal research and development needs; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation by minority and disadvantaged persons in technological innovation. Funding support for scientific conferences that are relevant to the FDA scientific mission and public health are also available.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants); Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Research grants are awarded to eligible institutions in the name of a principal investigator for applications that are responsive to programmatic requirements as stated in the Funding Opportunity Announcement (FOA). Funds are to be used for costs as identified in the FOA and as directly allocable, necessary and reasonable to carry out the proposed research aims and objectives. Small Business Innovation Research (SBIR) Phase I grants are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. SBIR Phase II grants for this program are for the competitive continuation of the research initiated in Phase I, and are likely

to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. Conference grants provide partial support for domestic scientific conferences related to the FDA mission. Funding restrictions are noted in the Funding Opportunity Announcement and the Terms and Conditions of award.

Applicant Eligibility:

Applicants should review the individual funding opportunity announcement issued under this CFDA program to see which applicant organizations are eligible to apply.

Beneficiary Eligibility:

Applicants should review the individual funding opportunity announcement issued under this CFDA program to see which applicant organizations are eligible to apply.

Credentials/Documentation:

Applicants should review the individual funding opportunity announcement issued under this CFDA program for any required proof of certification which must be submitted prior to or simultaneous with submission of an application. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Accepted research and non-research grant applications are subject to an objective review for scientific and technical merit. SBIR applications to be funded are subject to a second level review by a National Advisory Council or Board. All approved applications compete for available funds on the basis of scientific merit and programmatic relevance. Applicants should review the individual funding opportunity announcement issued under this CFDA program to see the specific award procedures that apply.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. Research applications: Approximately 4 to 6 months. SBIR applications: Approximately 90 days. Conference applications: Approximately 6 to 9 months.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Renewals (competing continuation applications) are permitted as indicated in the published Funding Opportunity Announcements.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The length of support will depend on the nature of the projects, program relevance and the availability of funds. For those projects with an expected duration of more than 1 year, future recommended support will depend on (1) performance during the preceding year and (2) availability of Federal funds. Small Business Innovation Research Phase I awards are generally for 6 months; Phase II awards are generally for 2 years.

Additional program time frames are stated in the Funding Opportunity Announcements. See the following for information on how assistance is awarded/released: Domestic and foreign payments are made through the DHHS Payment Management System (PMS).

Reports:

93.104 COMPREHENSIVE COMMUNITY MENTAL HEALTH SERVICES FOR CHILDREN WITH SERIOUS EMOTIONAL DISTURBANCES (SED)

(CMHS Child Mental Health Service Initiative)

FEDERAL AGENCY:

Substance Abuse and Mental Health Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Services Act, Title V, Part E, Section 561, Public Law 102-321, 42 U.S.C.

OBJECTIVES:

To provide community-based systems of care for children and adolescents with a serious emotional disturbance and their families. The program will ensure that services are provided collaboratively across child-serving systems; that each child or adolescent served through the program receives an individualized service plan developed with the participation of the family (and, where appropriate, the child); that each individualized plan designates a case manager to assist the child and family; and that funding is provided for mental health services required to meet the needs of youngsters in these systems.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Grant funds may be used for salaries, wages and fringe benefits of professional and support staff; travel directly related to carrying out service activities; supplies, communications, and rental of equipment and space; training specifically aimed at one of the following: the development of individualized service plans; the provision of therapeutic foster care, group home care; intensive home-based services, or intensive day treatment services; administration of the system; and appropriate continuing education of two days or less; contracts for performance of activities under the approved project; and other such items necessary to support project activities. Grant funds and required matching funds may not be used for: other required services; to purchase or improve real estate property; provide residential care and/or services in residential treatment centers serving more than 10 children in inpatient hospital settings; any training activities with the exception of those mentioned above; and non-mental health services including mental health medical services, educational services, vocational counseling and rehabilitation, and protection and advocacy. 100% of funds are set aside for discretionary activities.

Applicant Eligibility:

States, political subdivisions of a State, such as county or local governments, and Federally Recognized Indian Tribal governments.

Beneficiary Eligibility:

Children under age 22 with a diagnosed serious emotional disturbance, serious behavioral disorder, or serious mental disorder.

Credentials/Documentation:

In order for an entity to be eligible it must provide the following credentials or documentation along with an application for assistance: (1) Documentation that the State mental health agency of the applicant receives funds from the Center for Mental Health Services Community Mental Health Services Block Grant; (2) documentation that the applicant entity is qualified to deliver services under the State Medicaid Plan and has an agreement to do so, either directly or through a service provider organization; (3) documentation that the State has an approved plan for the development of a system of care for community-based services for children with a serious emotional disturbance approved by the Secretary of the U.S. Department of Health and Human Services. For the purpose of this program, an approved State Mental Health Plan for children and adolescents with serious emotional disturbance submitted in accordance with the requirements of Section 1912 of the Public Health Service Act, will be accepted as such a plan; and (4) matching requirements. 2 CFR 200, Subpart E - Cost Principles applies to this program.

93.107 AREA HEALTH EDUCATION CENTERS

AHEC

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Title VII, Sec. 751 of the Public Health Service Act (42 U.S.C. 294a).

OBJECTIVES:

The Area Health Education Center (AHEC) Program enhances access to high quality, culturally competent health care through academic-community partnerships. The goal of the AHEC Program is three fold: (1) to prepare a diverse, culturally-competent primary care workforce representative of the communities served; (2) to improve health workforce distribution through the nation, particularly among rural and underserved areas and population; and (3) to develop and maintain a healthcare workforce that is prepared to deliver high quality care in a transforming health care delivery system with emphasis on rural and underserved areas and communities.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds shall be used to recruit individuals from underrepresented, disadvantaged, or rural backgrounds into the health professions; establish and maintain community-based placements or preceptorships with an emphasis on primary care; conduct interdisciplinary/interprofessional training involving an array of health professionals; deliver or facilitate continuing education; propose and implement outcomes measurement and evaluation strategies. Not less than 75 percent of the total amount provided to an Area Health Education Centers (AHEC) program under subsection 751(a) (2) shall be allocated to the AHEC centers participating in the program. The aggregate amount of awards to schools in the state for the fiscal year under Point of Service Maintenance and Enhancement AHEC authority shall be not less than \$103,000 annually per AHEC center, including program office funds. If amounts appropriated to carry out Section 751 are not sufficient to comply with the amount stated in the preceding sentence, the Secretary may reduce the per center amount as necessary. Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment. Student support through stipends, tuition, and fees is not eligible for support.

Applicant Eligibility:

Entities eligible to apply for AHEC Infrastructure Development awards under 751(a)(1) are public or nonprofit private accredited schools of allopathic medicine and osteopathic medicine and incorporated consortia made up of such schools, or the parent institutions of such schools. In states and territories in which no AHEC program is in operation, an accredited school of nursing is an eligible applicant.

An entity eligible to apply for AHEC Point of Service Maintenance and Enhancement awards under section 751 (a) (2) means an entity has received funds under this section (751), is operating an area health education center program, including an area health education center or centers, and has a center or centers that are no longer eligible to receive financial assistance under subsection (a)(1). Eligible entities are accredited public or nonprofit schools of allopathic medicine or osteopathic medicine, the parent institution on behalf of such schools, and accredited schools of nursing, which have received funds under section 751 to operate an AHEC program.

Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Beneficiaries include a full range of trainees: high school students from underrepresented minority populations or from disadvantaged or rural backgrounds, health professions students, faculty, and practitioners.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification is made in writing (electronic) by a Notice of Award.

When making final funding decisions regarding Section 751 awards, consideration will be given to the Sense of the Congress that there be an area health education center program in each state..

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Percent: 50%. Matching Requirements: Percent: 50%. With respect to the costs of operating a program through a grant under section 751, to be eligible for assistance under section 751, an entity shall make available (directly or through contributions from state, county, municipal governments or the private sector) recurring nonfederal contributions in cash or in kind toward such costs in an amount that is equal to not less than 50 percent of such costs. Thus, the matching ratio for AHEC awards is 1:1 (federal funds to non-federal contributions). At least 25 percent of the total required non-Federal contributions shall be in cash.

This program has MOE requirements, see funding agency for further details. The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a five year project period. See the following for information on how assistance is awarded/released: Recipients drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. Cash reports are not applicable. A Federal Financial Report (SF-425) is required according to the schedule in HRSAs Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed review criteria.

93.110 MATERNAL AND CHILD HEALTH FEDERAL CONSOLIDATED PROGRAMS

Special Projects of Regional and National Significance (SPRANS), including the Community Integrated Service Systems (CISS); and the Heritable Disorders Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Social Security Act, Title V, Section 502(a)(1) and (b)(1), as amended; 42 U.S.C. 702.; Section 1109, 1111 and 1112 of the Public Health Service Act and Section 399T of the Public Health Service Act.

OBJECTIVES:

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for the screening of newborns for sickle cell anemia, and other genetic disorders; and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the

Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) integrated state and community service systems for children and youth with special health care needs. First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nations infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Training grants are made to institutions of higher learning for training personnel for health care and related services for mothers and children. Research grants are for the purpose of research activities which show promise of a substantial contribution to the advancement of maternal and child health services. Genetic grants are for genetic disease testing, counseling and information development and dissemination. Hemophilia grants are for the support of centers which provide hemophilia diagnostic and treatment services. Sickle cell disease grants are made to support follow up for infants with sickle cell identified through newborn screening. Heritable Disorders grants are made to improve the ability of States to provide newborn and child screening for heritable disorders, coordinate services and long-term follow-up for newborns and children identified with a condition through newborn screening, and to provide newborn screening education resources to patients, parents, and families. Environmental health grants are made to decrease maternal and child morbidity and mortality associated with pre- and post-natal environmental exposures. Other special project grants are designed to support activities of a demonstration nature which are designed to improve services for mothers and children.

Restricted Uses: Indirect costs that are allowed for administrative costs incurred as a result of the training grants project, are limited to 8 percent of direct costs.

Applicant Eligibility:

Training grants may be made to public or private nonprofit institutions of higher learning. Research grants may be made to public or private nonprofit institutions of higher learning and public or private nonprofit private agencies and organizations engaged in research or in Maternal and Child Health (MCH) or Children with Special Health Care Needs (CSHCN) programs. Any public or private entity is eligible for hemophilia, genetics, and environmental health grants and other special project grants, including CISS. Eligible entities for the Heritable Disorders Program include a State or a political subdivision of a State; a consortium of 2 or more States of political subdivisions of States; a territory; a health facility or program operated by or pursuant to a contract with or grant from the Indian Health Service; or any other entity with appropriate expertise in newborn screening, as determined by the Secretary.

Beneficiary Eligibility:

For training grants: (1) Trainees in the health professions related to MCH; and (2) mothers and children who receive services through training programs. For research grants: public or private nonprofit agencies and organizations engaged in research in MCH or CSHCN programs. For hemophilia, sickle cell, thalassemia genetics, or environmental health, and other special projects: (1) Public or private agencies, organizations and institutions; and (2) mothers and children, and persons with genetic conditions including hemophilia (any age), who receive services through the programs.

Credentials/Documentation:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Sections 301, 401, 437, 463 and 487, Public Laws 78-410 and 99-158, as amended, 42 U.S.C. 241, and 42 U.S.C. 288, as amended, SBIR and STTR Reauthorization Act of 2011, Public Law 113-6.

OBJECTIVES:

To foster understanding of human health effects of exposure to environmental agents in the hope that these studies will lead to: the identification of agents that pose a hazard and threat of disease, disorders and defects in humans; the development of effective public health or disease prevention strategies; the overall improvement of human health effects due to environmental agents; the development of products and technologies designed to better study or ameliorate the effects of environmental agents; and the successful training of research scientists in all areas of environmental health research. Supported grant programs focus on the following areas: (1) Understanding biological responses to environmental agents by determining how chemical and physical agents cause pathological changes in molecules, cells, tissues, and organs, and become manifested as respiratory disease, neurological, behavioral and developmental abnormalities, cancer, and other disorders; (2) Determining the mechanisms of toxicity of ubiquitous agents like metals, natural and synthetic chemicals, pesticides, and materials such as nanoparticles, and natural toxic substances, and their effects of on various human organ systems, on metabolism, on the endocrine and immune systems, and on other biological functions; (3) Developing and integrating scientific knowledge about potentially toxic and hazardous chemicals by concentrating on toxicological research, testing, test development, validation and risk estimation; (4) Identifying interactions between environmental stressors and genetic susceptibility and understanding biologic mechanisms underlying these interactions, including the study of environmental influences on epigenomics and transcriptional regulation; (5) Conducting environmental public health research, including in areas of environmental justice and health disparities, that requires communities as active participants in all stages of research, dissemination, and evaluation to advance both the science and the development of practical materials for use in communities, with a focus on translating research findings into tools, materials, and resources that can be used to prevent, reduce, or eliminate adverse health outcomes caused by environmental exposures; (6) Expanding and improving the SBIR program; to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (7) Expanding and improving the STTR program to stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (8) Providing support for broadly based multi-disciplinary research and training programs in environmental health. These programs include the Environmental Health Sciences Core Centers, which serve as national focal points and resources for research and manpower development. The Centers for Neurodegenerative Science addresses the need for integrated research efforts involving basic and clinical scientists in a quest to discover the causes of and possible treatments for neurodegenerative diseases. The Breast Cancer and the Environment Research Program (co-funded with NCI) studies the impact of prenatal-to-adult environmental exposures that may predispose a woman to breast cancer. A special emphasis is on the impact of environmental factors on a girls pubertal development, a known risk factor for breast cancer. Through these programs, NIEHS expects to achieve the long range goal of developing new clinical and public health applications to improve disease prevention, diagnosis, and therapy. Additional Centers programs developed in recent years, include the Centers for Oceans and Human Health (co-funded with NSF), Children's Environmental Health Centers (co-funded with US EPA) and the Autism Centers of Excellence (co-funded with other NIH Institutes) and the ; (9) Supporting research training programs which serve to increase the pool of

trained research manpower with needed expertise in the Environmental Health Sciences through support of Individual and Institutional National Research Service Awards (NRSAs); (10) The Outstanding New Environmental Scientist Program which provides first time research grant funding to outstanding junior scientists in the formative stages of their career who are proposing to make a long term commitment to environmental health sciences research and to address the adverse effects on environmental exposures on human biology, human pathophysiology and human disease.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Research Grants and Cooperative Agreements are intended to support the direct costs of a project, in accordance with an approved budget, plus an appropriate amount for indirect costs. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I, scientific and technical merit, and commercial potential of the Phase II application. A number of Career Development awards are supported. The Independent Scientist Award provides up to five years of salary support for newly independent scientists who have recently obtained independent research funding, generally an R01 research grant from NIEHS. The award is intended to allow the candidate protected time to focus on the further development of the independent research career and does not include additional research support. The Mentored Clinical Research Career Development Award provides three to five years of salary support for investigators with clinical degrees (e.g., M.D., D.V.M.). The Transition to Independent Environmental Health Research (TIEHR) Career Development Award provides three years of support for candidates who are within three years of their first independent faculty appointment and who have not yet obtained significant research grant funding (an R01 or equivalent). The award includes salary support and pilot funding. The Mentored Patient-Oriented Research Career Development Award provides up to five years of support for clinically trained investigators who make a commitment to focus on patient-oriented research. The Mid Career Investigator Award in Patient-Oriented Research provides up to five years of support to outstanding clinical scientists who are actively engaged in patient-oriented research and who are within 15 years of their specialty training. The Mentored Quantitative Research Development Award provides up to five years of support for junior faculty with quantitative scientific and engineering backgrounds outside of biology or medicine that are transitioning to behavioral or biomedical research. The NIH Pathway to Independence Award is divided into two phases. The initial award (K99) provides up to two years of mentored, postdoctoral support. The second phase (R00) provides up to three years of independent research support, when the awardee accepts a full-time tenure track, or equivalent, faculty position. All these Career Development awards provide salary consistent with the level of effort devoted to the research career development activities, plus fringe benefits, an allowance for career development activities and 8 percent fiscal and administrative costs. All Career Development Awards, except for the NIH Pathway to Independence Award, have a US citizenship requirement. Details of specific restrictions for the Career Development Awards can be found at <http://www.niehs.nih.gov/careers/research/trainingfrom/career/index.cfm>. NIEHS Core Center grants (P30) are primarily intended to provide infrastructure support and the support of core research facilities. In addition, an appropriate facilities and administrative cost is provided as determined by negotiated agreement with the grantee's cognizant government organization. National Research Service Awards (NRSAs): Individual predoctoral and postdoctoral training awards are made for the support of fellows who engage in research training in environmental toxicology, environmental pathology, environmental mutagenesis, or environmental epidemiology/biostatistics. In addition to individual training awards, institutional training grants (T32) are made to institutions to enable institutions to make awards to individuals selected by them, for both predoctoral and postdoctoral research training in the

forementioned areas. Each individual who receives a postdoctoral NRSA, either through an institutional or individual training award mechanism, is obligated upon termination of the award to comply with certain service and payback provisions.

Applicant Eligibility:

Research Grants, Cooperative Agreements, Science Education Grants, SBIR Grants, Independent Scientist Awards, Mentored Research Scientist Development Award, Mentored Clinical Scientist Development Award, and the Academic Career Awards: A university, college, hospital, State, local or tribal governments, nonprofit research institution, or for-profit organization may submit an application and receive a grant for support of research by a named principal investigator. Candidates for Academic Career Awards and Midcareer Investigator Awards in Patient Oriented Research must have a doctoral degree and peer-reviewed, independent, research support at the time the award is made. Candidates for Mentored Clinical Scientist Development Awards and Mentored Patient Oriented Research Career Development Awards must have a clinical degree or its equivalent and must have initiated post graduate clinical training. Candidates holding a Ph.D. degree are ineligible. Candidates who have served as principal investigators on PHS-supported research projects are ineligible. A candidate for Academic Career Awards must have a clinical or research doctorate degree. Those eligible for the Development Award must be able to devote at least 75 percent effort. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. Centers: A university-based, nonprofit research institution, or for-profit organization proposing an integrated research program established to accomplish a stated mission, covering activities ranging from very basic research to the actual application of research results in the prevention and control of environmental health problems, may submit an application under the direction of a named Center Director. National Research Service Awards: (1) Nonprofit domestic organizations may apply for the Institutional NRSA; (2) Individual NRSA awardees must be nominated and sponsored by a public for-profit or nonprofit private institution having staff and facilities appropriate to the proposed research training program; (3) all awardees must be citizens or have been admitted to the United States for permanent residence; (4) to be eligible, predoctoral awardees must have completed the baccalaureate degree and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree).

Beneficiary Eligibility:

For Research Grants: Any nonprofit or for-profit organization, company, or institution engaged in biomedical research. For Centers and Training Grants: University-based nonprofit institutions; for-profit organizations conducting research; and individuals nominated by a private institution conducting research.

Credentials/Documentation:

Applications must be signed by appropriate officials of the submitting institution. The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement (NIH GPS) for further guidance on the applicability of cost principals (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH GPS (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). Application forms and instructions for their submission are available at <http://grants.nih.gov/grants/forms.htm>. Applicants are encouraged and in some cases required to consult with NIEHS Program Officials prior to submission of an application. Detailed information about NIEHS grant programs and staff contacts can be found at <http://www.niehs.nih.gov/research/supported/index.cfm>.

Award Procedure:

Made on the basis of dual review by peer groups of all applications. The first level of reviews is by a study section for scientific merit. In addition, a national advisory council provides a secondary level of review for all applications. As required by P.L. 109-482, the NIH Health Reform Act of 2006, all research grant and cooperative agreements must undergo Advisory Council/Board review and approval prior to funding. Review of Individual NRSA applications by an Advisory Council/Board is not required. Final approval of these recommendations and decisions concerning funding are made by the Director, NIEHS.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Receipt, review and approval processes range in length from six to nine months.

Appeals:

A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Research Grants, Cooperative Agreements, Center Grants, and Institutional Training Grants: Renewal applications are subject to same criteria as new applications. Independent Scientist Awards, Mentored Research Scientist Development Awards, Mentored Clinical Scientist Development Award, Academic Career Awards, and Individual Training grants are non-renewable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Research Grants, Cooperative Agreements, Center Grants, and NRSA Institutional grants may be awarded for up to 5 years, generally in 12-month budget periods and may be extended through a competitive renewal. Science Education Grants may be awarded for up to 5 years, in 12-month budget periods, and are not renewable. Independent Scientist Awards are awarded for 5 years in 12-month budget periods, and are non-renewable. Mentored Research Scientist Awards are for up to 5 years, 12-month budget periods, and are non-renewable. Mentored Clinical Scientist Development Awards and Academic Career Awards are for up to 5 years and are renewable. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. National Research Service Awards: Individual awards are non-renewable and may be for 1, 2, or 3 years, but no individual may receive NRSA support at the predoctoral level for more than 5 years and at the

postdoctoral level for more than 3 years. See the following for information on how assistance is awarded/released: Funds are released via an Electronic Transfer System.

Reports:

Annual and final progress reports are required for all Grant Awards. Annual financial reports are due for a subset of grant awards. Final financial reports are due for all grant awards. Additional reports are required after termination of National Research Service Awards to ascertain compliance with the service and payback provisions. Cash reports are not applicable. Annual and final progress reports are required for all Grant Awards. Annual financial reports are due for a subset of grant awards. Final financial reports are due for all grant awards. Additional reports are required after termination of National Research Service Awards to ascertain compliance with the service and payback provisions. Expenditure reports are not applicable. Review of annual performance reports is conducted by appropriate agency staff prior to issuance of additional funding.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Awards made under this program are subject to the audit requirements of OMB 2 CFR 200, as implemented by 45 CFR 75, Subpart F, and in the NIH GPS (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Records:

In accordance with the provisions of 45 CFR 75, Subpart D Post Federal Award Requirements, Record Retention and Access, 75.361, expenditures and other financial records must be retained for 3 years from the day on which the grantee submit the last expenditure report for the report period.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to stated program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the

Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.116 PROJECT GRANTS AND COOPERATIVE AGREEMENTS FOR TUBERCULOSIS CONTROL PROGRAMS

Tuberculosis Prevention and Control and Laboratory Program

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Section 317(a)317E, 42 U.S.C. 247b-b(a), as amended; Health Services and Centers Amendments of 1978, Public Law 95-626; Omnibus Budget Reconciliation Act of 1981, as amended, Public Law 97-35; Preventive Health Amendments of 1984, Public Law 98-555; Public Health Service Act of 1987, as amended, Public Law 100-177; TB Prevention Amendments Act of 1990, as amended, Public Law 101-368.

OBJECTIVES:

To assist State and local health agencies in carrying out tuberculosis (TB) control activities designed to prevent transmission of infection and disease. Financial assistance is provided to TB programs to ensure that the program needs for the core TB prevention and control activities are met: finding all cases of active tuberculosis and ensuring completion of therapy; finding and screening persons who have had contact with TB patients, evaluating them for TB infection and disease, and ensuring completion of appropriate treatment, and conducting TB surveillance and TB public health laboratory activities that are essential to addressing these priorities. Each of these core activities (completion of therapy, contact investigation, TB surveillance, and TB laboratory activities) is essential to effective TB prevention and control, and they are mutually reinforcing. Thus, they constitute a "package" of core activities. These are the highest priority TB prevention and control activities and should be carried out by all State and local TB prevention and control programs.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used to support both local personnel and individuals in direct assistance (i.e., "in lieu of cash") positions under Section 317 of the Public Health Service Act and to purchase equipment, supplies and services directly related to project activities, particularly directly observed therapy, patient outreach, morbidity surveillance, outreach and program assessment. Project funds may not be used to supplant State or local funds available for tuberculosis control, or to support construction costs or inpatient care.

Applicant Eligibility:

Under Section 317 of the Public Health Service Act, official public health agencies or their bona fide agents of State and local governments, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and American Samoa.

Beneficiary Eligibility:

Official public health agencies of State and local governments, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and American Samoa.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operations, describe the evaluation procedures, and provide a budget with justification of funds requested. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants must download application forms from www.Grants.gov. Applications must be submitted electronically at www.Grants.gov. If an applicant does not have access to the Internet, or if they have difficulty accessing the forms on-line, contact the CDC Office Grants Services Technical Information Management Section (OGSTIMS) staff. For this, or further assistance, contact OGSTIMS: Telephone (770) 488-2700. Email: OGSTIMS@cdc.gov. This program is subject to the requirements described in 45 CFR 92.

Award Procedure:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The standard application forms as furnished by PHS and required by 45 CFR, Parts 92, must be used for this program. Forms and instructions are available on www.grants.gov.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

From 120 to 180 days.

Renewals:

From 60 to 90 days. Information on the submission of applications may be obtained from the Grants Management Officer, Office of Grants Services, Centers for Disease Control and Prevention. The standard application forms, as furnished by PHS and required by 45 CFR 92 for State and local governments, must be used for this program. This program is subject to the requirements described in 45 CFR 92.

Formula and Matching Requirements:

This program has no statutory formula. This program has no matching requirements. Although there are no matching requirements, applicants must assume part of the project costs and fiscal information must be provided in the narrative portion of the application pursuant to provisions of Section 317(b)(2)317E. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Project Period: From one to five years. Budget Period: One year. Method of awarding/releasing assistance: lump sum.

Reports:

See notice of funding opportunity (NOFO) for details. CDC programs must require awardees to submit performance measure annually as a minimum, and may require reporting more frequently. Performance measure reporting must be limited to data collection. When funding is awarded initially, CDC programs must specify required frequency, data fields, and format. No cash reports are required. The Annual Performance Report is due no later than 120 days prior to the end of the budget period. The Annual Performance Report serves as the continuing application. This report should include the information specified in the notice of funding opportunity (NOFO). The Annual Federal Financial Report is required 90 days after the end of each budget period. Final Financial Reports are required 90 days after the end of a project period. Annual financial status reports are also required of the recipient no later than 90 days after the end of each budget period. Final financial status and are required 90 days after

the end of a project period. See NOFO for details. Awardees will meet the annual requirement to report on performance measures with the submission of an Annual Performance Report. However, CDC may request an additional report, the Performance Measure Report, in certain instances such as a jurisdiction's response to a large TB outbreak.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the project shall be retained for a minimum of 3 years, or until completion and resolution of any audit in process or pending resolution. In all cases, records must be retained until resolution of any audit questions. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

Account Identification:

75-0950-0-1-550.

Obligations:

(Cooperative Agreements) FY 16 \$80,863,811; FY 17 est \$79,830,700; and FY 18 est \$79,830,700 - It should be noted that for PS13-1304, RTMCCs, the funding in TAGGS is being reported under 93.116 when the NOFO itself shows 93.947. OGS corrected the NOAs by doing deobligation/reobligation for FY13 and FY14; however for FY15 funding is showing under 93.116.

Range and Average of Financial Assistance:

\$86,938 to \$9,931,764 with an average of \$1,454,714.

TAFS Codes:

75-0950.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: Fiscal Year 2016: objectives have been met. Support continued for the 61 tuberculosis (TB) and laboratory cooperative agreements with continued special emphasis on the completion of treatment, contact investigation, and targeted testing of high-risk populations. In addition, funding continued for six awards to support cross-cutting and disease-specific activities, including the prevention and control of HIV, viral hepatitis, STDs, and TB through prevention programs, capacity building for laboratory services, surveillance, human resources and organizational development, and monitoring and evaluation in the US Pacific Islands. Funding was also awarded to expand latent TB investigation testing and treatment to persons within a defined high-risk community in partnership with State and local health departments, community medical providers, and community leader and organizations. Fiscal Year 2017: It is estimated that support will continue as provided in fiscal year 2016. Fiscal Year 2018: It is estimated that support will continue as provided in fiscal year 2017.

93.117 PREVENTIVE MEDICINE AND PUBLIC HEALTH RESIDENCY TRAINING PROGRAM, INTEGRATIVE MEDICINE PROGRAM, AND NATIONAL CENTER FOR INTEGRATIVE PRIMARY HEALTHCARE

Preventive Medicine and Public Health Residency Training Program (PMR); Preventive Medicine Residency with Integrative Health Care Training Program; and the Center for Integrative Medicine in Primary Care (CIMPC) now named the National Center for Integrative Primary Healthcare.

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Sections 765 and 758 of the Public Health Service Act (42 U.S.C. 295 and 42 U.S.C. 295c).

OBJECTIVES:

Grants are intended to promote postgraduate medical education in the specialty of preventive medicine and to enhance preventive medicine education through incorporation of evidence-based integrative medicine curricula into such programs. A cooperative agreement established a National Center for Integrative Primary Healthcare (NCIPH) to incorporate evidence-based Integrative Medicine (IM) curricula into existing primary care residency and other health professions training programs; provide faculty development to improve clinical teaching in IM; deliver continuing education to current primary care and other health professionals to increase competency in IM; and provide technical assistance to primary care residency programs and other accredited and licensed health professions education programs on the integration of IM into the established primary care curricula and training.

The Preventive Medicine Residency with Integrative Health Care Training Program combined the purposes of the preventive medicine residency and integrative medicine programs into one to build on the previous achievements of the integrative medicine grantees. The broad goal of the program is to improve the health of communities by increasing the number and quality of preventive medicine physicians who can address public health needs, advance preventive medicine practices, increase access to integrative health care, and increase the integration of these two fields into preventive medicine training and practice.

Preventive Medicine is the specialty of medical practice which focuses on the health of individuals and defined populations in order to protect, promote, and maintain health and well-being and prevent disease, disability and premature death. It is one of the 145 medical sub-specialties recognized by the American Board of Medical Specialties. Preventive Medicine encompasses three areas of specialization: (1) General Preventive Medicine and Public Health, (2) Occupational Medicine, and (3) Aerospace Medicine. As articulated by the Institute of Medicine, integrative medicine can be described as orienting the health care process to create a seamless engagement by patients and caregivers of the full range of physical, psychological, social, preventive, and therapeutic factors known to be effective and necessary for the achievement of optimal health throughout the life span.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Awards are intended to assist in meeting the costs of planning and developing new preventive medicine programs; maintaining or improving existing

residency training programs in preventive medicine; incorporating competency-based integrative medicine curricula in graduate medical education including preventive medicine residency and primary care programs; and providing financial assistance to medical residents enrolled in such programs. The NCIPH cooperative agreement is expected to contribute to the evidence-base for IM, and identify and disseminate promising practices related to the integration of IM into primary care and interprofessional practice, including the activities listed under Objectives above. The Preventive Medicine Residency with Integrative Health Care requires recipients to increase the number of preventive medicine residents and/or improve training for these residents. The applicants are required to 1) propose a plan for evaluating any improvements in the educational program, such as the effect of the interventions on the knowledge, skills, and practices of the residents; 2) incorporate evidence-based integrative health care curricula into accredited preventive medicine residency programs; and 3) provide interprofessional training of their preventive medicine residents including training in preventive medicine and integrative health care for other primary care or community-based health care trainees or providers in addition to preventive medicine residents.

Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment. Grants may not be used for construction or for the provision of direct patient services.

Applicant Eligibility:

Eligible Preventive Medicine and Public Health Residency program grants, and those enhancing their programs with integrative health care applicants are: (1) an accredited school of public health or school of medicine or osteopathic medicine; (2) an accredited public or private nonprofit hospital; (3) a State, local, or tribal health department; or (4) a consortium of 2 or more entities described in (1) through (3).

Eligible applicants for the NCIPH are (1) a health professions school, including an accredited school or program of public health, health administration, preventive medicine, or dental public health or a school providing health management programs; (2) an academic health center; (3) a State or local government; (4) any other appropriate public or private nonprofit entity.

Refer to the relevant Notice of Funding Opportunity more specific information regarding eligibility and specialized experience. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

For Preventive Medicine and Public Health Residency program grants, and for those enhancing their programs with integrative health care, each trainee receiving stipend support must: (a) be a citizen of the United States, a non-citizen U.S. national, or a foreign national having in his or her possession a visa permitting permanent residence in the United States; (b) be a physician who has graduated from an accredited school of medicine or osteopathic medicine in the United States; or if a graduate from a foreign school, meet the criteria of the Educational Commission for Foreign Medical Graduates, for entry into the program supported by this grant; and (c) plan to complete the grant-supported program and engage in the practice and/or teaching of preventive medicine, especially in positions which meet the needs of medically underserved populations.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. The preventive medicine residency must provide documentation of current accreditation from ACGME or AOA or documentation from ACGME related to submission of an application for accreditation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

Notification is made in writing through a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching requirements are not applicable to this program.

This program has MOE requirements, see funding agency for further details. The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

The funding opportunity provides support for a 5-year project period. Receipts draw down funds, as necessary, from the Payment Management System (PMS), the centralized web based system for HHS awards. The National Center for Integrative Primary Healthcare was fully funded for a three-year project period in FY2014. The project period for the Preventive Medicine Residency with Integrative Health Care program is for 3 years. See the following for information on how assistance is awarded/released: Recipients drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. Cash reports are not applicable. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years from the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: In Academic Year 2015-2016, the Preventive Medicine Residency program supported 115 residents, most of whom were completing residencies in either Preventive Medicine/Occupational Medicine or Preventive Medicine/Public Health. Grantees partnered with 214 sites (e.g., local and state health departments, community-based organizations) to provide clinical training experiences for residents of which over 41.6% were in medically underserved communities. Of the 37 residents who completed their residency training programs in the past academic year, 91.9% received clinical training in a primary care setting, 70.3% received training in medically underserved communities and 10.8% received training in a rural setting. Sixty-nine percent of those who completed their residency intend to pursue employment or further training in primary care. Follow-up employment status collected from residents who completed training programs in AY 2014-15, of the 17 residents who graduated the prior year, 41.2% entered practice in either medically-underserved communities and/or in primary care settings. Funds supported a variety of infrastructure activities including curriculum development and faculty development. A total of 128 unique courses and training activities were developed, enhanced, and implemented during the academic year, providing training on emerging topics in preventive medicine for 1,426 students and advanced trainees; and supported 67 different faculty development programs and activities reaching 648 faculty members during the academic year. Fiscal Year 2017: Fiscal Year 2017: No Current Data Available. Fiscal Year 2018: Fiscal Year 2018: No Current Data Available.

REGULATIONS, GUIDELINES, AND LITERATURE:

All administrative and audit requirements and the cost principles that govern Federal monies associated with this activity will be subject to the Uniform Guidance 2 CFR 200 as codified by HHS at 45 CFR 75.

HRSA awards are also subject to the requirements of the HHS Grants Policy Statement (HHS GPS) that are applicable based on recipient type and purpose

of award. The HHS GPS is available at <http://www.hrsa.gov/grants/hhsgrantspolicy.pdf>.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.118 ACQUIRED IMMUNODEFICIENCY SYNDROME (AIDS) ACTIVITY

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Section 301(i).

OBJECTIVES:

To develop and implement HIV prevention programs of public information and education.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Support for cooperative agreements for HIV activities.

Applicant Eligibility:

Public and private organizations, both nonprofit and for-profit (universities, colleges, research institutions and other public and private organizations); State and local governments, U.S. Territories and possessions; including American Indian/Alaska Native tribal governments or tribal organizations located wholly or in part within their boundaries, small and minority businesses, and businesses owned by women.

Beneficiary Eligibility:

Official health and education agencies, as well as individuals subject to AIDS.

Credentials/Documentation:

Nonprofit institutions: Costs will be determined by HHS Regulations 45 CFR Part 74, for nonprofit organizations. For-profit institutions, costs will be determined by Federal Acquisition Regulations 48 CFR 31. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicant must download application forms from www.grants.gov. Applications must be submitted electronically at www.grants.gov. If an applicant does not have access to the Internet, or if they have difficulty accessing the forms on-line, contact the CDC Office of Grants Services Technical Information Management Section (OGSTIMS) staff. For this, or further assistance, contact OGSTIMS: Telephone (770) 488-2700, Email: OGSTIMS@cdc.gov. This program is subject to the provisions of 45 CFR, Parts 74 or 92, as appropriate.

Award Procedure:

After review and approval, a notice of award (NoA) is prepared and processed, along with appropriate notification to the public. Initial award provides funds for first budget period (12 months) and NoA indicates support provided in the initial award and the recommended funding amounts for the remainder of project period, allocation of Federal funds by budget categories, and special conditions, if any.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

See NOFO for details.

Appeals:

Applicants may resubmit application for next announcement or review.

Renewals:

As stated in the Terms and Conditions of NoA.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

From 1 to 5 years (renewable). Method of awarding/releasing assistance: by letter of credit.

Reports:

See notice of funding opportunity (NOFO) for details. No cash reports are required. See NOFO for details. No expenditure reports are required. See NOFO for details.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records:

Financial records and supporting documents must be maintained for 3 years after the end of each budget period. If questioned, records must be kept until matters are settled.

93.121 ORAL DISEASES AND DISORDERS RESEARCH

Dental and Craniofacial Research.

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title IV, Section 301.

OBJECTIVES:

To improve oral, dental and craniofacial health through research, research training, and the dissemination of health information. The research portfolio supports basic, clinical and translational research from basic biology to patient-oriented and community-based clinical investigations. 1. The Developmental Biology and Genetics Program supports basic and translational research to understand the development of tooth and bone and to identify the genetic and environmental contributions to craniofacial disorders. The objective of this scientific program is to elucidate the underlying causes of craniofacial disorders, thereby advancing the fields of diagnosis, treatment, and prevention. 2. The Translational Genetics and Genomics program supports research designed to identify the genetic and molecular mechanisms underlying oral health problems and craniofacial disorders including cleft lip and cleft palate, ectodermal dysplasias, craniosynostosis, and amelogenesis and dentinogenesis imperfecta. Oral health problems, such as dental caries, oral cancer, periodontal diseases, Sjrens syndrome, and temporomandibular joint disorder, often result from the complex interplay of genetic and environmental factors as well. Research focusing on genetics or on the interplay of genetic and environmental factors to improve understanding of genetic and molecular mechanisms underlying oral health problems and craniofacial disorders is supported by this program. 3. The Microbiology Program supports basic and translational research on the role of oral microbes in health and disease including the etiology, pathogenesis, diagnosis, treatment, and prevention of oral infectious diseases. Areas of interest include biofilms and microbial ecology, microbial genomics and metagenomics, microbial virulence and disease pathogenesis, prevention and treatment. 4. The AIDS and Immunosuppression Program supports basic, translational and clinical research on HIV infection and AIDS to advance understanding of the underlying molecular, cellular, and genetic mechanisms that enable or prevent HIV infection and development of oral complications associated with AIDS and AIDS malignancies. 5. The Salivary Biology and Immunology Program supports basic and translational research on saliva and salivary gland biology and immune aspects of oral diseases such as

caries and periodontal diseases. 6. The Oral and Salivary Cancer Program supports basic and translational research on the molecular mechanisms of oral epithelial cell regulation as they relate to the development and progression of diseases of the oral mucosa, including head and neck cancer. The program also supports and encourages the application of genomic, proteomic, and imaging technologies through research on the early diagnosis, prevention, and treatment of head and neck cancers. 7. The Mineralized Tissue Physiology Program supports basic and translational research on craniofacial skeletal biology and pathobiology, and pharmacogenetics. The goal of the program is to promote interdisciplinary and multidisciplinary approaches to advance the understanding of normal and abnormal processes underlying oral, dental and craniofacial diseases and disorders. 8. The Neuroscience of Orofacial Pain and Temporomandibular Disorders Program supports basic and translational research on orofacial pain and neuropathies, temporomandibular joint and muscle disorders, development of biomarkers for diagnostics and prognostics and development of therapeutics. 9. The Tissue Engineering and Regenerative Medicine Program supports basic and translational research on the reconstruction, remodeling and repair of the oral and craniofacial tissues damaged as a result of disease or injury. The goal is to promote interdisciplinary and multidisciplinary approaches to engineering of biocompatible oral and craniofacial tissue constructs and their functional integration into the host tissue microenvironment. The program also supports efforts that employ bioengineering approaches for restoration, remodeling and regeneration of diseased and injured native host tissues. 10. The Dental and Biomaterials Program supports basic and translational extramural research on dental materials and devices, dental implants, biocompatibility of dental restorative materials, and biomaterials for craniofacial reconstruction. 11. The Behavioral and Social Sciences Research Program supports basic and applied research to promote oral health, to prevent oral diseases and related disabilities, and to improve management of craniofacial conditions, disorders and injury. 12. The Center for Clinical Research supports patient-oriented and population-based research, data analysis, and related activities aimed at improving the dental, oral, and craniofacial health of the nation. The individual programs within the Center support many types of clinical research including clinical trials, research studies conducted in practice-based networks, epidemiology studies, research on clinical technologies, and health disparities research. 13. The Research Training and Career Development Program insures the future of dental and craniofacial research by developing an outstanding and diverse scientific work force through training, fellowship and career development programs designed primarily for graduate, and post-doctoral stages of education, including dual degree (DDS, PhD) programs, as well as for continued career development of scientists and retraining of mid-career scientists. Diversity fellowships and career development programs serve to expand the diversity of the scientific work force by supporting the training of students from underrepresented groups. 14. The Small Business Innovation Research (SBIR) program seeks to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The Small Business Technology Transfer (STTR) program seeks to stimulate and foster scientific and technological innovation and foster technology transfer through cooperative research and development carried out between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants; Project Grants (Contracts); Project Grants (Fellowships); Project Grants (Special)

USES AND USE RESTRICTIONS:

Research Grants: Research Grants and cooperative agreements provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation in the dental, oral and craniofacial health sciences. They are awarded to universities, colleges, medical and dental schools, hospitals, and other nonprofit and for-profit institutions. Awards include investigator-initiated project grants, exploratory and developmental grants, small grants, center

grants, conference grants, and career development awards. Individual and institutional dual degree (DDS or DMD/PhD) awards provide support for research career development in both clinical and basic science. National Research Service Awards (NRSAs) provide support for research training in specified biomedical areas, and can be made to institutions to enable them to accept individuals for research training. Individuals who receive NRSAs may be obligated upon termination of the award to comply with service and payback provisions. SBIR Phase I grants (duration of approximately 6 months) provide support to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants support the continuation of the research initiated in Phase I to further develop the commercial products or process initiated in Phase I. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (duration of typically 1 year) support cooperative efforts between small businesses and research institutes to determine the scientific and technical merit, and commercial feasibility of a product or process with potential for commercial application. Phase II funding is based on the results of the research initiated in Phase I and the scientific and technical merit, and commercial potential of the Phase II application.

Applicant Eligibility:

Grants: Scientists at universities, medical and dental schools, hospitals, laboratories, and other public or private nonprofit and for-profit institutions. NRSA and career development awards: (1) Nonprofit domestic organizations may apply for institutional awards. (2) Individual candidates or applicants must arrange sponsorship by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. (3) All awardees must be citizens, or non-citizen nationals, of the United States or have been admitted to the United States for permanent residence, except for K99/R00 and T90/R90 grants. (4) To be eligible, postdoctoral NRSA and career development awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). Institutional applicants must be able to provide the staff and facilities suitable for the proposed research training. SBIR and STTR grants: Can be awarded only to domestic small business concerns that meet the following criteria: 1) Is organized for profit, with a place of business located in the United States, which operates primarily within the United States or which makes a significant contribution to the United States economy through payment of taxes or use of American products, materials or labor; 2) Is in the legal form of an individual proprietorship, partnership, limited liability company, corporation, joint venture, association, trust or cooperative, except where the form is a joint venture, there must be less than 50 percent participation by foreign business entities in the joint venture; 3) Be a concern which is more than 50% directly owned and controlled by one or more individuals (who are citizens or permanent resident aliens of the United States), other business concerns (each of which is more than 50% directly owned and controlled by individuals who are citizens or permanent resident aliens of the United States), or any combination of these; no single venture capital operating company, hedge fund, or private equity firm may own more than 50% of the concern, 4) Has, including its affiliates, not more than 500 employees, and 5) meets the other regulatory requirements found in 13 C.F.R. Part 121. For STTR awards, the small business must "partner" with a research institution in a cooperative research and development project. In both Phase I and Phase II for both SBIR and STTR, the research must be performed in the U.S. and its possessions. To be eligible for funding, all grant applications must be evaluated for scientific merit and program relevance by a peer scientific review group and the National Advisory Dental and Craniofacial Research Council.

Beneficiary Eligibility:

Health professionals, graduate students, health professional students, scientists, researchers, and any nonprofit or for-profit organization, company or institution engaged in biomedical research.

Credentials/Documentation:

Grants: Applications for research grants must include the objectives (specific aims), research strategy, significance, innovation, approach/methodology, and resources for the specific project, and must present the relevant background and experience of the applicant. NRSA and career development awards: (1) Individual Candidates: the applicant's academic record, research experience, citizenship, institutional sponsorship, proposed research area, and plan for

training, must be included in the application. (2) Institutional Candidates: the application must include the objectives, methodology, and resources for the research training program, the research qualifications and experience of participating faculty in training students and fellows, and the criteria to be used in selecting individuals for support. Costs will be determined in accordance with OMB Circular No. A-87 for State and Local Governments. Costs for for-profit organizations are determined in accordance with the Federal Acquisition Regulations Subpart 31.2. For other than State and Local Government grantees, costs will be determined by Health and Human Services (HHS) Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, the applicant organization (small business) must present an idea in the research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications for Federal assistance must be submitted electronically through Grants.gov (<http://www.grants.gov>) using the SF424 Research and Related (R&R) forms and the SF424 (R&R) Application Guide (<http://grants.nih.gov/grants/forms.htm>). A registration process through Grants.gov is necessary before submission. Applicants are strongly encouraged to start the registration process at least four weeks prior to the applications submission date.

Award Procedure:

All accepted grant applications competing for research project grants, career development awards, and NSRA awards are reviewed by two advisory groups. Primary review is conducted by an initial review group composed of extramural peer scientists, and secondary review by the National Advisory Dental and Craniofacial Research Council (NADCRC). Secondary review of NRSA fellowship applications is conducted by NIDCR staff rather than by the NADCRC. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate initial review group and by the NADCRC. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Research Project Grants, SBIR/STTR, and NSRA: From 6 to 9 months.

Appeals:

From 90 to 120 days. A Principal Investigator (PI) may question the technical or procedural aspects of the review of his/her application by communicating with the program staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page: http://grants.nih.gov/grants/peer_review_process.htm#Appeals and in the Notice: <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

> 180 Days. Grants: Applications for approval beyond the approved project period must be submitted at least 6 to 9 months in advance of the termination date. NRSA: Institutional Awards may be made up to 5 years. No individual may receive NIH/NRSA support at the postdoctoral level for more than 3 years, and total support of more than 6 years, unless a specific waiver is requested and approved.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants: Approval of a project includes a determination of support for the authorized project period (generally not to exceed 5 years). Awards to support the project are made on an annual basis. At the time of initial award, the grant provides funds for the conduct of the project during the first budget period (usually 12 months) and the Notice of Grant Award (Form PHS-1533) indicates the support recommended and expected to be made available for the remainder of the project beyond the approved project period, an application for renewal must be submitted in accordance with the deadline dates and instructions attached to the form. SBIR Phase I awards are generally for 6 months; Phase II awards normally are for 2 years. STTR Phase I awards are generally for 1 year; Phase II awards are for 2 years. See the following for information on how assistance is awarded/released: Awards are made annually.

Reports:

No program reports are required. No cash reports are required. Annually. Annually. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records:

Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period.

CRITERIA FOR SELECTING PROPOSALS:

The primary criteria for evaluating grant applications include assessment of: (1) the scientific merit, significance and overall impact of the proposed study and its objectives; (2) the competency of the proposed investigator(s) to successfully pursue the project; (3) the innovation and novelty of the concepts, approaches, or methodologies; (4) the technical adequacy of the experimental design and approach; (5) the adequacy of the available proposed facilities and resources; (6) the necessity of the budget components requested in relation to the proposed project; and (7) the relevance and importance to the posted institute program objectives. Also evaluated, where applicable, but not scored are: (1) protections for human subjects; (2) inclusion of women, minorities, and children; (3) animal welfare; and (4) adequate protection of research personnel and/or the environment, biosafety, biocontainment and the security of select agents. In addition, the following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: the potential of the proposed research for commercial application. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the technological innovation, originality, or societal importance of the proposed research; and (4) the potential of the proposed research for commercial application.

NRSA individual fellowship applications will be evaluated for: (1) overall impact/merit; (2) suitability of the applicant; (3) qualifications of the sponsor(s)/collaborator(s); (4) scientific merit of the research training plan; (5) training potential; and (6) institutional environment and commitment to training. NRSA institutional training grants are assessed for: (1) overall impact; (2) merit of the training program and institutional environment; (3) the experience and success of the training program directors, PIs, and mentors; (4) the trainee recruitment plan and selection; and (5) the training record of the program and/or institution.

Career Development applications will be evaluated for: (1) overall impact; (2) qualifications of the candidate; (3) the career plan and career goals/objectives of the candidate; (4) scientific merit of the research plan. (5) qualifications of the mentor(s), consultant(s) and collaborator(s); and (5) institutional environment and commitment to career development.

93.124 NURSE ANESTHETIST TRAINEESHIP

(NAT)

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 811 of the Public Health Service (PHS) Act, (42 U.S.C. 296j).

OBJECTIVES:

Grants are awarded to accredited institutions that educate registered nurses to become nurse anesthetists; recipient institutions in turn disburse funds to students in the form of traineeship support.

As many Nurse Anesthesia programs transition from Masters to clinical Doctoral-level programs, increased demands on time and financial resources restrict the ability of students to work for the duration of the program. Thus, the goal of the Nurse Anesthetist Traineeship (NAT) Program is to provide traineeship support for licensed registered nurses enrolled as full-time students in accredited masters or doctoral nurse anesthesia programs to work towards increasing the number of nurse anesthetists, especially those serving rural and underserved populations, thereby addressing the distribution of providers to target communities in need.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds may be used for traineeship support to licensed registered nurses enrolled as full-time students in accredited graduate-level nurse anesthesia programs. Traineeships may include full or partial costs of the tuition, books/eBooks, fees, and reasonable living expenses (stipends) for the individual during the traineeship.

Restricted Uses: Funds may not be used for travel, daily commuting costs of trainees, non-trainee expenses, or indirect costs of the educational institution.

Applicant Eligibility:

Eligible applicants are collegiate schools of nursing, academic health centers, and other private or public nonprofit entities accredited by a recognized body or bodies or State agency, approved for the purpose of nursing education by the Secretary of Education, which provide registered nurses with full-time, graduate-level nurse anesthesia master's or doctoral education and have evidence of accreditation from the American Association of Nurse Anesthetists (AANA) Council on Accreditation of Nurse Anesthesia Educational Programs. The school must be located in the 50 states, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Faith-based and community-based organizations, Federally recognized Indian Tribal Government and Native American Organizations may apply for these funds if otherwise eligible.

Beneficiary Eligibility:

NAT funds are awarded to institutions, not individuals. Traineeship recipients are selected by the participating institutions. A candidate must be a citizen of the United States, non-citizen national, or foreign national who possesses a visa permitting permanent residence in the United States, and must be enrolled full-time in an accredited graduate-level nurse anesthesia program. Individuals on temporary student visas are not eligible.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through [Grants.gov](https://www.grants.gov). The NAT Program is a formula-based grant program that does not undergo a formal Objective Review Process. All eligible, qualified applications are reviewed and assessed internally.

Award Procedure:

The funds appropriated for the NAT Program are distributed among eligible institutions based on a formula.

Notification of award is made in writing (electronic) through a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately from 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Applications must be submitted annually.

Formula and Matching Requirements:

Statutory Formula: Formula-Based Program.

This program has no matching requirements.

This program has MOE requirements, see funding agency for further details.

The recipient must agree to maintain non-federal funding for award activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving this award.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a one-year project period. See the following for information on how assistance is awarded/released: Recipients draw down funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

Program reports are required. The recipient will be required to submit annual performance reports. No cash reports are required. NAT grantees are not required to submit the annual Federal Financial Report SF-425 to HRSA. For the purpose of this grant program, the quarterly Federal Cash Transaction Report submitted to the Payment Management System (PMS) will be used to fulfill the financial reporting requirement. Timely and accurate information provided to the PMS will be used in lieu of the Financial Status Report /Federal Financial Report. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report. If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3- year period, whichever is later.

Grant applications will be reviewed and evaluated by a panel of reviewers experienced in the planning, implementation, and monitoring of emergency medical services and pediatric care. The reviewers will recommend a score for applications; recommend any modifications or conditions to the grant if awarded; and recommend any changes to the proposed budget. Recommendations of the review panel are presented to the Associate Administrator for MCH. Panel recommendations are advisory only, and the Associate Administrator for MCH will be responsible for final decisions regarding awards. Reviewers will use the criteria and questions described in the section on Categories of Grants: Program Narrative and Review Criteria to evaluate proposals. Applicants are urged to address these criteria as directly as possible in the text of the program narrative.

93.129 TECHNICAL AND NON-FINANCIAL ASSISTANCE TO HEALTH CENTERS

State and Regional Primary Care Associations and National Cooperative Agreements

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Services Act, as amended, Title III, Section 330(l), (42 U.S.C 254b).

OBJECTIVES:

To provide necessary technical and non-financial assistance to potential and existing health centers, including training and assistance to: (1) increase access to care; (2) achieve operational excellence; and (3) enhance health outcomes and health equity for individuals and communities (performance improvement and special initiatives).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Recipients will be expected to provide certain technical and non-financial assistance to health centers and other qualified organizations at a state or national level.

Applicant Eligibility:

Eligible applicants include public, non-profit, and for-profit entities, including federally recognized Indian Tribal governments and Native American and faith-based organizations, that can provide training and technical assistance on a national or state/regional level to health centers and other community-based organizations with similar missions.

Applications may be submitted by current State and Regional Primary Care Associations, National Cooperative Agreements, or new organizations that care to provide training and technical assistance to potential and existing health centers.

Beneficiary Eligibility:

Population groups in medically underserved areas, medically underserved populations, and special populations such migratory and seasonal agricultural workers, people experiencing homelessness, and public housing residents.

Credentials/Documentation:

Applicants should review the applicable HRSA notice(s) of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to

assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.134 GRANTS TO INCREASE ORGAN DONATIONS

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Reimbursement of Travel and Subsistence Expenses toward Living Organ Donation: Section 377 of the Public Health Service (PHS) Act, as amended, 42 U.S.C. Section 274f. Increasing Organ Donation Awareness: Section 377A(b) of the Public Health Service (PHS) Act, as amended, 42 U.S.C. Section 274f-1(b).

OBJECTIVES:

To support grants for the purpose of increasing public commitment to organ donation and ultimately the number of organs recovered and transplanted. To that end, the Division of Transplantation has cooperative agreements and grant programs with the following objectives:

Reimbursement of Travel and Subsistence Expenses toward Living Organ Donation: The purpose of this program is to operate a national system to provide reimbursement of travel and subsistence expenses, and other non-medical expenses that may be authorized by the Secretary to individuals making living donations of their organs.

Increasing Organ Donation Awareness Grant Program: This program provides support for the implementation and rigorous evaluation of highly promising strategies and approaches for: increasing public attitudes, practices and commitment to deceased organ donation as evidenced by donor registry enrollment as well as family consent at a relative time of death; the option of living donation and its risks and benefits and methods to promote large scale adaptation of successful interventions.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Reimbursement of Travel and Subsistence Expenses toward Living Organ Donation: Funds made available through this program may not be made available to donating individuals when payment for qualified reimbursement expenses has been made, or can reasonably be expected to be made: (1) under any State compensation program, under an insurance policy, or under any Federal or State health benefits program; (2) by an entity that provides health services on a prepaid basis; or (3) by the recipient of the organ.

Increasing Organ Donation Awareness Grant Program: Funds under this notice may not be used for the following purposes: to purchase or improve land, or to purchase, construct, or make permanent improvements to any building except for minor remodeling; to make payments to recipients of services, except for reimbursement of reasonable and allowable out-of-pocket expenses associated with participation in project activities; nor to support: (a) biomedical and clinical research; (b) the development and/or assessment of the efficacy of new or improved clinical methods of donor management, organ recovery, or organ preservation; (c) fundamental research focused on new or improved evaluation tools and methodologies; (d) fundamental research focused on the development of new behavioral theories relevant to health attitudes, practices, and decision-making (e) interventions inconsistent with existing Federal law; (f) to implement efforts to promote living donation; (g) to conduct interventions to increase tissue donation alone; (h) to evaluate clinical outcomes of donation after cardiac death (DCD) organs; (i) to fund staff time devoted to project activities that is being supported by other sources. All Programs: Funds may not be used for activities that are reimbursable under Medicare. Funds must be used

in a manner consistent with program policies developed by DoT and with the HHS Grants Policy Statement, January 1, 2007, available at the HRSA grants web site at <http://www.hrsa.gov/grants>.

Applicant Eligibility:

Reimbursement of Travel and Subsistence Expenses toward Living Organ Donation: As specified in Section 377 of the Public Health Service Act, as amended, eligible applicants include States, transplant centers, qualified organ procurement organizations under section 371, or other public or private entities. Faith-based, community organizations and Federally Recognized Indian Tribal Government and Native American Organizations are eligible to apply.

Increasing Organ Donation Awareness Grant Program: As specified in Section 377A(b) of the Public Health Service Act, as amended, the Secretary may make peer-reviewed grants to public and nonprofit private entities for the purpose of carrying out studies and demonstration projects to increase organ donation and recovery rates, including living donation. If the applicant is an OPTN member, and if the applicant is working with a consortium that includes OPTN members, the applicant and all other OPTN members are expected to comply with the final rule governing the operation of the OPTN Section 121.11(b2). Faith-based, community organizations and Federally Recognized Indian Tribal Government and Native American Organizations are eligible to apply.

Beneficiary Eligibility:

Reimbursement of Travel and Subsistence Expenses toward Living Organ Donation: Primary beneficiaries are low/moderate income living organ donors and recipients. All other Programs: Beneficiaries of the grant efforts are ultimately organ donor registrants, organ donors, and organ transplant recipients.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

93.135 CENTERS FOR RESEARCH AND DEMONSTRATION FOR HEALTH PROMOTION AND DISEASE PREVENTION

(Prevention Research Centers)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title 42, Part 330u-5, Section 1706, Public Law 98-551.

OBJECTIVES:

The funded Prevention Research Centers aims are to: 1. Establish, maintain, and operate multi-disciplinary academic-based centers that conduct high-quality applied health promotion and disease prevention research; 2. Improve public health practice through applied prevention research; 3. Apply the knowledge and expertise of academic health centers to address practical public health problems; 4. Design, implement, evaluate, and disseminate cost-effective methods and strategies for health promotion and disease prevention at the tribal, territorial, state, or local level; 5. Shorten the time lag between the development of new and proven effective disease prevention and health promotion strategies and interventions and their widespread application; and 6. Involve health departments and other community partners in the development, implementation, evaluation, and dissemination of one applied public health prevention research project.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds are available for costs directly attributed to the performance of research and demonstration projects pertaining to health promotion and disease prevention plus certain indirect costs of the grantee in accordance with established policies of the Public Health Service. Grantees may not award subgrants but may enter into consortia agreements or contracts as necessary to achieve the aims of the program.

Applicant Eligibility:

Eligible applicants are accredited schools of medicine, schools of osteopathy, and schools of public health as defined in Section 701 (4) of Public Health Service Act.

Beneficiary Eligibility:

Academic health centers, scientist/researchers, operational public health programs, targeted high risk groups, selected demonstration areas, and the general public.

Credentials/Documentation:

Costs will be determined in accordance with HHS Regulations, 45 CFR 74. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

This program is subject to the provisions of 45 CFR Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations, as appropriate. Funding Opportunity Announcements for this program are posted on www.Grants.gov, the official federal agency wide e-grant Web site. Application forms and instructions specific to each announcement are posted at that site. Electronic Submission: CDC strongly encourages the applicant to submit applications electronically by utilizing the forms and instructions posted on www.Grants.gov. Registering your organization through www.Grants.gov is the first step in submitting applications online. Registration information is located in the "Get Started" screen of www.Grants.gov and the one-time registration process will take three to five days to complete. While application submission through www.Grants.gov may be optional for various announcements, we strongly encourage you to use this online tool. Please visit www.Grants.gov at least 30 days prior to filing your application to familiarize yourself with the registration and submission processes. We suggest submitting electronic applications prior to the closing date so if difficulties are encountered, you can resolve them prior to the deadline. For further assistance contact GrantsInfo, Telephone: (301) 435-0714, E-mail: GrantsInfo@nih.gov. For the hearing impaired: TTY (770) 488-2783. If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Procurement and Grants Office Technical Information Management Section (PGO-TIM) staff at: (770) 488-2700. DUNS Number: Applications must have a Dun and Bradstreet (D&B) Data Universal Numbering System number as the universal identifier when applying for Federal grants or cooperative agreements. The D&B number can be obtained by calling (866) 705-5711 or through the web site at <http://www.dnb.com/us/>.

Award Procedure:

Applications will be reviewed for completeness by the Procurement and Grants Office (PGO) staff, and for responsiveness by the National Center for Injury Prevention and Control and PGO. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review

process. Applicants will be notified the application did not meet submission requirements. Successful applicants will receive a Notice of Award (NOA) from the CDC Procurement and Grants Office. The NOA shall be the only binding, authorizing document between the recipient and CDC. The NOA will be signed by an authorized Grants Management Officer, and mailed to the recipient fiscal officer identified in the application. FOR RESEARCH GRANTS: Applications that are complete and responsive to the announcement will be evaluated for scientific and technical merit by an appropriate peer review group convened by NCIPC in accordance with the review criteria stated below. All applications will: undergo a selection process in which only those applications deemed to have the highest scientific merit, generally the top half of applications under review, will be discussed and assigned a priority score; receive a written critique; receive a second level of review by the Board of Scientific Counselors. FOR NON-RESEARCH GRANTS/COOPERATIVE AGREEMENTS: Applicants are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the grant or cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of the announcement. Measures must be objective and quantitative and must measure the intended outcome. The measures of effectiveness must be submitted with the application and will be an element of evaluation. An objective review panel will evaluate complete and responsive applications according to the criteria listed. The objective review process will follow the policy requirements as stated in the GPD 2.04, <http://198.102.218.46/doc/gpd204.doc>.

Applicant Eligibility:

State, local, and territory government agencies, public or private organizations designated by the Governor under Part C of the Developmental Disabilities Assistance and Bill of Rights Acts as systems to protect and advocate the rights of persons with developmental disabilities in that State.

Beneficiary Eligibility:

Individuals with significant mental illness or severe emotional impairment (children) who are at risk for abuse, neglect, or civil rights violations while residing in care or treatment facilities have service priority. Persons with significant mental illness and severe emotional impairment living in the community, including their own home, may be served as determined by their state protection and advocacy systems PAIMI program funded priorities and objectives and available resources includes persons who are in the process of being admitted to a facility rendering care or treatment, persons being transported to such a facility, or persons who are involuntarily confined in a municipal detention facility, jails, or prisons.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200/45 CFR Part 75, Subpart E - Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact

information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. An annual application is required in accordance with 42 CFR Part 51.

Award Procedure:

Grants are directly awarded by the Center for Mental Health Services to the system established in the State to protect and advocate the rights of persons with developmental disabilities, as outlined in the "Developmental Disabilities Assistance and Bill of Rights Act of 2000", as amended October 30, 2000 by Public Law 106-420 (45 USC 6041 et seq.).

Deadlines:

Oct 01, 2016

Range of Approval/Disapproval Time:

From 30 to 60 days.

Appeals:

93.140 INTRAMURAL RESEARCH TRAINING AWARD (IRTA)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Health Professionals Education Partnerships Act, Title IV, Section 409, 42 U.S.C 282(b)(13).

OBJECTIVES:

The National Institutes of Health (NIH) IRTA Traineeships are established for the principal benefit of the participants and to provide opportunities for developmental training and practical research experience in a variety of disciplines related to biomedical research, medical library research, and related fields. The IRTA components are: 1) Postdoctoral IRTA - designed to provide advanced practical research experience to physicians and other doctoral researchers who are at the beginning stages of their professional research careers; 2) Predoctoral IRTA - designed to provide practical research training and experience to students, by supplementing academic course work and/or encouraging pursuit of professional careers in biomedical research to students enrolled in doctoral degree programs in biomedical sciences; 3) postbaccalaureate IRTA - designed to provide recent college graduates, particularly minorities, women, and persons with disabilities, an opportunity to postpone application to graduate or medical school and to provide a means to introduce individuals early in their careers to research, encourage their pursuit of professional careers in biomedical research, and allow additional time to pursue successful application to either graduate or medical school programs; 4) technical IRTA - designed to produce a cadre of highly trained research support professionals capable of performing the latest advanced techniques in a laboratory by developing the trainees' skills in the conduct of basic and applied research (NOTE: this program is no longer accepting new applications; and 5) student IRTA - designed to provide a developmental training experience to promising high school, undergraduate, and graduate or professional students who have expressed a strong interest in or are studying disciplines related to biomedical sciences.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Participants in the IRTA Program will be provided access to NIH facilities and equipment and assistance in their training from senior NIH researchers. Trainees may not engage in primary patient care activities, be assigned official supervisory responsibilities, or sign documents on behalf of the Government. Funding support will come from the individual National Research Institutes, Centers and Divisions (ICD) that comprise the National Institutes of Health. All funding is discretionary and subject to the availability of appropriations and

apportionment. The IRTA Program does not include financial loans.

Applicant Eligibility:

Candidates for the IRTA Program must be U.S. Citizens or Permanent Resident Aliens: 1) Postdoctoral IRTA participants must possess a Ph.D., M.D., D.D.S., D.M.D., D.V.M. or equivalent degree in biomedical, behavioral, or related sciences; or certification by a university as meeting all the requirements leading to such a doctorate; and 5 or fewer years of relevant postdoctoral experience and up to 2 additional years of experience not oriented toward research (i.e., clinical training for physicians); 2) predoctoral IRTA participants must be: a) students enrolled in Ph.D., M.D., D.D.S., D.M.D., D.V.M., or equivalent degree programs at any accredited U.S. or foreign university, which frequently involves dissertation research. The research experience is undertaken as an integral part of the student's ongoing academic preparation and is credited toward completion of degree requirements; or b) students who have been accepted into graduate or medical degree programs and who have written permission from their school to interrupt their current schooling and to return within 1 year to their degree granting programs; 3) postbaccalaureate IRTA participants are individuals who have received a bachelor's degree no more than 3 years prior to the activation date of the traineeship or a master's degree no more than 6 months prior to the activation date of the traineeship, and intend to apply to graduate or medical school in biomedical research within the next year or students who have been accepted into graduate, other doctoral, or medical degree programs and who have written permission of their school to delay entrance for up to 1 year; and 4) student IRTA participants are at least 16 years of age and are enrolled at least half-time in high school or have been accepted for or are enrolled as an undergraduate or graduate in an accredited college or university and are in good academic standing. U.S. citizens may be enrolled anywhere in the world; permanent residents must be enrolled in the U.S.

Beneficiary Eligibility:

The IRTA Program benefits the participants by combining an opportunity for study with practical work experience and valuable research training experience at the NIH.

Credentials/Documentation:

These standards are contained in the Applicant Eligibility section. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Postdoctoral applicants submit their materials directly to NIH investigators; all other applicants submit materials to the NIH Office of Intramural Training & Education via online application systems : 1) Postdoctoral IRTA applicants must submit the documents requested by the investigator, generally a CV and letters of reference; 2) predoctoral IRTA applicants must submit CV, bibliography, 3 letters of reference emphasizing research potential, statement of research goals, an official copy of undergraduate, graduate, and/or medical school transcript, and verification from the university that the applicant is in good academic standing, is enrolled in a doctoral degree program, and that the school is agreeable to the student's participation. In addition, (if applicable), they must have written permission from their institutions to interrupt their educational program including a written agreement allowing students to return to their degree program within 1 year; 3) postbaccalaureate applicants must submit CV, 3 letters of reference emphasizing potential, statement of research goals, and official copy of undergraduate school transcript; and 4) student IRTA applicants must submit a resume or CV, 2 letters of reference, official copy of school transcript, and statement of interest in biomedical research.

Award Procedure:

Awards are made by the interested Institutes or Centers based on the information provided by the applicant, the availability of NIH researchers to provide training, and the availability of financial and other resources to support the research training.

Deadlines:

Nov 15, 2017 to Mar 01, 2018: Only the Student IRTA program has a deadline. The bulk of student IRTAs are summer interns. Applications are accepted from mid-November to March 1. Applications for other IRTA positions are accepted year round.

Range of Approval/Disapproval Time:

From 60 to 90 days. Individual NIH investigators select their own trainees. There is, thus, no firm timeline for notification.

Appeals:

Not Applicable.

Renewals:

1) Postdoctoral IRTA component: Initial traineeships are for 1 or 2 years with a maximum traineeship of 5 calendar years. 2) Predoctoral IRTA component: Initial traineeships are for 1 month to 2 years with a maximum traineeship of 5 calendar years. 3) Postbaccalaureate IRTA component: Initial traineeships are for 1 year with a maximum traineeship of 3 calendar years. 4) Technical IRTA component: Initial traineeships are for 2 years with a maximum traineeship of 3 calendar years. 5) Student IRTA component: Initial traineeship is for 1 month to 1 year. The maximum traineeship period is unlimited as long as the student meets eligibility criteria.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

93.142 NIEHS HAZARDOUS WASTE WORKER HEALTH AND SAFETY TRAINING

Superfund Worker Training Program (WTP)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Superfund Amendments and Reauthorization Act of 1986, as amended, Title I, Section 126, Public Law 99-499; Public Health Service Act, Section 405(b)(1)(C), as amended, Public Law 99-158.

OBJECTIVES:

To provide cooperative agreements and project grant support for the development and administration of model worker health and safety training programs consisting of classroom and practical health and safety training of workers and their supervisors, who are engaged in activities related to hazardous materials, hazardous waste generation, treatment, storage, disposal, removal, containment, transportation, or emergency response. To assist organizations in the development of institutional competency to provide appropriate training and education to hazardous waste workers.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Cooperative agreements and project grants are intended to support the direct costs of a project, in accordance with an approved budget, plus indirect costs at a pre-established rate. Both the award and use of funds are subject to applicable provisions of basic statutory authorities, appropriations acts, pertinent regulations, and operating policies of the National Institute of Environmental Health Sciences (NIEHS), the National Institutes of Health (NIH), and the Department of Health and Human Services (DHHS).

Applicant Eligibility:

A public or private nonprofit entity, including tribal governments, that provide worker health and safety education and training, may submit an application and receive a cooperative agreement or project grant for support of waste worker education and training by a named principal investigator. Recipients/grantees may use services, as appropriate, of other public or private organizations necessary to develop, administer, or evaluate proposed worker training programs, as long as the requirement for awards to nonprofit organizations is not violated. Nonprofit organizations which are incorporated under 501(c)(4) are prohibited from receiving grants.

Beneficiary Eligibility:

Any public or private entity providing worker safety and health education and training will benefit from this program.

Credentials/Documentation:

The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement (NIH GPS) for further guidance on the applicability of cost principles (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH GPS (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). Application forms and instructions for their submission are available at

<http://grants.nih.gov/grants/forms.htm>. Applicants are encouraged and in some cases required to consult with NIEHS Program Officials prior to submission of an application. Detailed information about NIEHS grant programs and staff contacts can be found at

<http://www.niehs.nih.gov/research/supported/index.cfm>.

Award Procedure:

As required in HHS Regulations, 42 CFR Part 65, applications will be reviewed administratively by NIEHS staff for completeness and responsiveness to the program announcement. Applications then will be reviewed on a competitive basis for technical merit by an ad hoc review committee composed primarily of non-government members with expertise in occupational safety and health training and hazardous waste operations convened by the NIEHS. A second level of review will be conducted by the National Advisory Environmental Health Sciences Council. This second level of review will be for program relevance. The final approval of these recommendations and decisions concerning funding is made by the Director, National Institute of Environmental Health Sciences (NIEHS) or, if in conflict, by appropriate NIH staff. Formal award notices are sent to successful applicants.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. From 8 to 9 months.

Appeals:

> 180 Days. A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page

<http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

> 180 Days. Renewal awards are subject to the same criteria as new applications.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Full program cooperative agreements may be awarded for up to 5 years, generally in 12-month budget periods. Funds are released primarily on the basis of an Electronic Transfer System. The Request for Application announcement is expected to be released in the summer of 2014. See the following for information on how assistance is awarded/released: Funds are released primarily on the basis of an Electronic Transfer System.

Reports:

A detailed annual cooperative agreement or project grant summary report is required with the renewal application for all program recipients/grantees. Annual and final progress reports, and financial status reports are required for all awardees. Cash reports are not applicable. A detailed annual cooperative agreement or project grant summary report is required with the renewal application for all program recipients/grantees. Annual and final progress reports, and financial status reports are required for all awardees. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 45 CFR 75, Subpart F Audit Requirements, a nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. CRITERIA FOR SELECTING PROPOSALS:

The following factors considered for applications for full program cooperative agreements include: (1) Methods and techniques to be used for identifying, describing, and accessing target worker populations and anticipated impact of the proposed program; (2) evidence of the organization's performance and effectiveness in planning, implementing and operating appropriate worker health and safety training and education programs; (3) adequacy of the detailed program plan for curricula development, training of instructors, distribution of course materials, and direct student training; (4) technical and professional expertise of the proposed program director, present or proposed staff, and consultants; (5) methods proposed for evaluating appropriateness, quality, and effectiveness of training; (6) availability of appropriate facilities and equipment to support the described educational and training activities including hands-on instruction and demonstration; (7) evidence of the organization's past performance and effectiveness in planning, implementing, and operating training and education programs for workers; (8) the likelihood that the program will continue beyond the grant period; and (9) reasonableness of the proposed program activities.

93.143 NIEHS SUPERFUND HAZARDOUS SUBSTANCES_BASIC RESEARCH AND EDUCATION

NIEHS Superfund Research Program

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Superfund Amendments and Reauthorization Act of 1986, Title I, Section III, and Title II, Section 209, Public Law 99- 499, as amended; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, Section 311(a), Public Law 96-510; Public Health Service Act, Section 301, Public Law 78-410, as amended; Public Law 99-500.

OBJECTIVES:

To establish a unique program linking biomedical research with engineering, geoscience and ecological research. The goals of the Program are to establish and support an innovative program of basic research and training consisting of multi-project, interdisciplinary efforts; individual investigator projects; research education program grants; and Small Business Innovative Research grants. Areas of research may include: (1) advanced techniques for the detection, assessment, and evaluation of the effect on human health of hazardous substances; (2) methods to assess the risks to human health presented by hazardous substances; (3) methods and technologies to detect hazardous substances in the environment; and (4) basic biological, chemical, and physical methods to reduce the amount and toxicity of hazardous substances. It is intended that advanced or graduate training be integrated into the multi-project research program to provide opportunities in biomedical and environmental health, environmental sciences, ecology, and geosciences. The Program encourages the integration of interdisciplinary training to ensure that its students are prepared to tackle the complex issues presented by hazardous waste sites.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Research grants are intended to support the direct costs of a project, in accordance with an approved budget, plus an appropriate amount for indirect costs. Grants made under this program are for university-based programs, and the objective is to establish and maintain coordinated research efforts that link basic biomedical research with related engineering, hydrogeological and ecological studies. In addition, the Superfund Research Program supports small business research through the Small Business Innovative Research (SBIR) program. The award and use of funds are subject to applicable provisions of basic statutory authorities, appropriations acts, pertinent regulations, and operating policies of the National Institute of Environmental Health Science (NIEHS), the National Institutes of Health (NIH), and the Department of Health and Human Services (DHHS).

Applicant Eligibility:

An accredited institution of higher education, as defined in the Higher Education Act, 20 U.S.C. (annotated) 3381, may submit an application and receive a grant for support of research by a named principal investigator.

Subcontracts may be made with public and private organizations, including: generators of hazardous wastes; persons involved in the detection, assessment, evaluation, and treatment of hazardous substances; owners and operators of facilities at which hazardous substances are located; and State, local and Tribal governments. Nonprofit organizations which are incorporated under 501(c)(4) are prohibited from receiving grants. Organizations applying for a grant under the SBIR/STTR programs must qualify as a U.S.-owned Small Business Concern (SBC).

Beneficiary Eligibility:

Any accredited institution of higher education engaged in biomedical research and/or engineering and ecological research. SBIR awards are restricted to small business that meet NIH's criteria for SBC. Tribal entities that meet these requirements are eligible to apply.

Credentials/Documentation:

The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement (NIH GPS) for further guidance on the applicability of cost principals (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program is subject to the provisions of 45 CFR 75. Prospective applicants are asked to submit a letter of intent. Although it is not required, is not binding, and does not enter into the review of a subsequent application, the information that it contains allows IC staff to estimate the potential review workload and plan the review. It is due one month prior to the receipt of the applications. Applications for the Superfund Research Program are accepted in response to funding opportunity announcements (FOA) which are posted on National Institute of Environmental Health Sciences website (<http://www.niehs.nih.gov/research/supported/srp/funding/index.cfm>). Applications submitted in response to the multi-project FOA must be submitted electronically. NIHs Application Submission System & Interface for Submission Tracking (ASSIST) is available for the electronic preparation and submission of multi-project applications through <https://public.era.nih.gov/assist>. Application instructions are available at <https://grants.nih.gov/grants/how-to-apply-application-guide.html> in an interactive format. Applications submitted in response to an individual investigator grant or research education program grant FOAs must be submitted electronically through Grants.gov (<http://www.grants.gov>) using the SF424 Research and Related (R&R) forms and the SF424 (R&R) Application Guide. SBIR grant applications are accepted in response to the NIH Omnibus solicitation using the SF424 electronic application process (<http://www.grants.gov>). The SBIR/STTR omnibus grant solicitation is released in early spring of each year and has 3 receipt dates: April 5, September 5 and January 5.

Award Procedure:

Grants are awarded on the basis of a dual review by peer groups of all applications. The first level of review is by a Special Emphasis Panel of peers for scientific merit. The National Advisory Environmental Health Sciences Council provides a secondary level of review for all applications.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. From 9 to 12 months.

Appeals:

> 180 Days. A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page

CRITERIA FOR SELECTING PROPOSALS:

Major factors considered in the evaluation of responsive applications include: (1) Scientific merit of each proposed project, including the novelty, originality, and feasibility of the approach and the adequacy of the experimental design; (2) technical merit and justification of each core unit; (3) competence of the investigators to accomplish the proposed research goals, their commitments, and the amount of time they will devote to the program; (4) scope of the overall effort in relation to the objective of the program to create unique interdisciplinary programs to eventually include, not only biomedical components, but also engineering, ecological and/or hydrogenological components; (5) adequacy of the facilities to perform the proposed research; (6) integration of the various projects and core units into an effective program and plans for interactions among investigators; (7) adequacy and commitment of institutional resources to administer an integrated, collaborative program; (8) appropriateness of the budget for the proposed program; (9) relevance of proposed research to problems associated with hazardous waste substances; and (10) progress of program to date for completing renewal applications.

**93.145 HIV-RELATED TRAINING AND TECHNICAL ASSISTANCE
FEDERAL AGENCY:**

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Title XXVI, Sections 2606, 2654, and 2692, of the Public Health Service Act (42 U.S.C. 300ff-16, 54, and 111), as amended by the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87) and Section 311(c) of the Public Health Service Act, 42 USC 243(c).

OBJECTIVES:

National Training and Technical Assistance Cooperative Agreements:
The purpose of this funding is to: (1) Assess Ryan White HIV/AIDS Program (RWHAP) recipients' technical assistance needs and/or provide technical assistance related to building capacity and increasing their ability to provide high quality HIV care and treatment services along the HIV care continuum; (2) Assess, develop materials, and disseminate strategies and tools related to the RWHAP recipients' technical assistance needs for program development and operations; (3) Provide technical assistance in the collection, storage and retrieval of data for program reporting, evaluation, and program improvement purposes; and (4) Work with HHS agencies and national organization partners to develop strategies, tools, and trainings for RWHAP recipients.

AIDS Education and Training Center:Program

The purpose of this funding is to: (1) Train health personnel, including practitioners in programs under this title and other community providers, in the diagnosis, treatment, and prevention of HIV disease, including the prevention of the perinatal transmission of the disease, including measures for the prevention and treatment of opportunistic infections, and including (as applicable to the type of health professional involved), prenatal and other gynecological care for women with HIV; (2) Train the faculty of schools of, and graduate departments or programs of, medicine, nursing, pharmacy, dentistry, public health, allied health, and mental health practice to teach health professions students to provide for the health care needs of individuals living with HIV; (3) Develop and disseminate curricula and resource materials relating to the care and treatment of individuals living with HIV and the prevention among individuals who are at risk of contracting HIV; and (4) Develop protocols for the medical care of women living with HIV, including prenatal and other gynecological care for such women.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

Cooperative Agreements or grants will be awarded for the provision of training and technical assistance to build the capacity of RWHAP recipients and related providers, as per the specific program notices of funding opportunity.

Applicant Eligibility:

Entities eligible to apply include public and nonprofit entities (including faith-based and community based organizations) and school and academic health science centers involved in addressing HIV related issues at a national level. Federally Recognized Indian Tribal Government and Native American Organizations are eligible to apply.

Beneficiary Eligibility:

Persons living with HIV.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

Award Procedure:

All qualified applications will be forwarded to an objective review committee. Based on the recommendations of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Notification is made in writing by a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately nine months.

Appeals:

Not Applicable.

Renewals:

Competitive awards are typically made for up to 3 to 5 years, subject to the availability of funds. After initial awards, annual noncompetitive awards may be made contingent upon the submission of noncompetitive applications/progress reports and availability of funds.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.
Matching requirements are not applicable to this program.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants and cooperative agreements are typically awarded for a 3 to 5 year project period with 12-month budget periods. See the following for information on how assistance is awarded/released: Recipients draw down funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

Please refer to the notice of funding opportunity and Notice of Award for any applicable program data and fiscal reports. Annual program progress reports are required. No cash reports are required. Recipients must submit a Federal Financial Report (FFR) or SF 425 within 90 days after the end of each budget period. A final FFR is required 90 days following the end of the project period. No expenditure reports are required. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain financial records for 3 years after the date they submit the final Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.150 PROJECTS FOR ASSISTANCE IN TRANSITION FROM HOMELESSNESS (PATH)

(PATH)

FEDERAL AGENCY:

Substance Abuse and Mental Health Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title V, Part C, Section 521, as amended, 42 U.S.C 290cc-21 et seq; Stewart B. McKinney Homeless Assistance Amendments Act of 1990, Public Law 101-645.

OBJECTIVES:

To provide financial assistance to States to support services for individuals who are suffering from serious mental illness or serious mental illness and substance abuse; and are homeless or at imminent risk of becoming homeless. Programs and activities include: (1) Outreach services; (2) screening and diagnostic treatment services; (3) habilitation and rehabilitation services; (4) community mental health services; (5) alcohol or drug treatment services; (6) staff training; (7) case management services; (8) supportive and supervisory services in residential settings; (9) referrals for primary health services, job training, educational services, and relevant housing services; and (10) prescribed set of housing services.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds may be used at the discretion of the State to achieve the described objectives except that funds cannot be used: (1) To support emergency shelters or construction of housing facilities; (2) for inpatient psychiatric or substance abuse treatment costs; or (3) to make cash payments to intended recipients of mental health or substance abuse services. Not more than 20 percent of the payment may be expended for housing services; not more than 4 percent of the total allocation may be expended for administrative expenses. The applicants must agree that the payments will be expended solely for making grants to political subdivisions of the State, and to nonprofit private entities (including community-based veterans organizations and other community organizations) for the purpose of providing the services.

Applicant Eligibility:

States, District of Columbia, Guam, American Samoa, the Commonwealths of Puerto Rico and the Northern Mariana Islands, and the Virgin Islands.

Beneficiary Eligibility:

Individuals who have a serious mental illness or serious mental illness and substance abuse; and are homeless or are at imminent risk of becoming homeless.

Credentials/Documentation:

This program is subject to 2 CFR 200/45 CFR Part 75 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

There is no preapplication requirement. This program is not subject to the intergovernmental review requirements of E.O. 12372, as implemented through DHHS regulations at 45 CFR 100. However, individual States may require, or an applicant State mental health agency may want to implement, coordination procedures similar to those specified in E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Chief Executive Officer of a State or Territory must apply annually for an allotment.

Applications include a completed application form and a set of assurances.

Award Procedure:

Applications are reviewed for completeness and for compliance with legislative requirements. Grant awards are issued directly by the Center for Mental Health Services, Substance Abuse and Mental Health Services Administration to the designated State agency.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 30 to 60 days. Approximately 8 weeks.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 45, Part 92, Public Law 101-645.

Matching Requirements: The formula is cited in Section 524 of the Public Health Service Act, as amended by Public Law 101-645. The formula allots funds on the basis of the population living in urbanized areas of the State, compared to the population living in urbanized areas of the entire United States except that no State receives less than \$300,000 (\$50,000 for Territories). States must agree to make available, directly or through donations from public or private entities, nonfederal contributions equal to not less than \$1 (in cash or in kind) for each \$3 of Federal funds provided in such grant. Territories have no matching requirements.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Each allotment is available for obligation for the award period (1-year); payments are made through an Electronic Transfer System. Method of awarding/releasing assistance: lump sum.

Reports:

The State involved agrees that by not later than January 31 of each fiscal year, the State will prepare and submit to the Secretary of Health and Human Services a report on its activities necessary for securing a record and a description of the purposes for which funds received under Section 521 were spent and the recipients of such funds, and for determining whether such amounts were expended in accordance with the provisions of the legislation. Federal Cash Transaction Report (FCTR) is due quarterly to the Division of Payment Management. Progress reports are not applicable. Federal Financial Report (SF-425) is due 90 days after the end of the project period. Performance

monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grantees are required to maintain grant accounting records 3 years after the end of a budget period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it.

93.153 COORDINATED SERVICES AND ACCESS TO RESEARCH FOR WOMEN, INFANTS, CHILDREN, AND YOUTH

Ryan White HIV/AIDS Program (RWHP) Part D Women, Infants, Children and Youth (WICY) Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Sections 2671 and 2693 of Title XXVI of the Public Health Service Act, (42 U.S.C. 300ff-71 and 300ff-111), as amended by the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87).

OBJECTIVES:

The purpose of this program is to provide family-centered care in the outpatient or ambulatory care setting to low income, uninsured, underinsured, and medically underserved women (25 years and older) living with HIV, infants (up to two years of age) exposed to or living with HIV, children (ages two to 12) living with HIV, and youth (ages 13 to 24) living with HIV.

The purpose of the Part D funding is to strengthen organizational infrastructure to respond to the changing health care landscape and to increase capacity to develop, enhance, or expand access to high quality family-centered care services for low income, uninsured, underinsured, and underserved women, infants, children, and youth (WICY) living with HIV.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

All funds must be expended solely for carrying out the approved project in accordance with the notice of funding opportunity, the terms and conditions of the award, and the applicable cost principles. No more than 10 percent of total grant funds may be used for administrative costs. All indirect costs count toward this 10 percent limit. Funds may not be used for purchase, construction, or major alterations or renovations on any building or other facility; purchase or improvement of land; payments for clinical research; payments for nursing home care; cash payments to intended recipients of RWHAP services; research; foreign travel; to directly provide housing or health care services (e.g., HIV care, counseling and testing) that duplicate existing services; or for any item or service to the extent that payment has been made, or reasonably can be expected to be made, with respect to that item or service under any State compensation program, insurance policy, Federal or State health benefits program or by an entity that provides health services on a prepaid basis (except for a program administered by or providing the services of the Indian Health Services). Funds may also not be used towards PrEP or nPEP medications or medical services. As outlined in the June 22, 2016 RWHAP and PrEP program letter, the RWHAP legislation provides grant funds to be used for the care and treatment of PLWH, thus prohibiting the use of RWHAP funds for PrEP medications or related medical services, such as physician visits and laboratory costs. However, RWHAP Part D funds can be used toward psychosocial support services, a component of family-centered care, which may include counseling and testing and information on PrEP to eligible clients partners and affected family members, within the context of a comprehensive PrEP program. Additionally, the purchase of sterile needles or syringes for the purposes of hypodermic injection of any illegal drug is not allowable. Some aspects of syringe services programs are allowable with HRSA's prior approval and in compliance with HHS and HRSA policy (see: <https://www.aids.gov/federal-resources/policies/syringe-services-programs/>).

Applicant Eligibility:

Public and nonprofit private entities (including a health facility operated by or pursuant to a contract with the Indian Health Service, and faith-based and Tribes/Tribal organizations) that provide family-centered care involving outpatient or ambulatory care (directly or through contracts or memoranda of understanding (MOUs)) for WICY living with HIV/AIDS.

Beneficiary Eligibility:

Women, infants, children, and youth living with HIV and their affected family members.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

Award Procedure:

All qualified applications will be forwarded to an objective review committee. Based on the recommendations of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Notification is made in writing by a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. Approximately 6 months.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants are typically awarded for up to a 3 year period of performance. Continued support, beyond the first year, is contingent upon satisfactory performance and the availability of Federal funds. Supplemental grants may be funded for up to 1 year. See the following for information on how assistance is awarded/released: Recipients draw down funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

93.155 RURAL HEALTH RESEARCH CENTERS

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 123 of P.L. 110-275, the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA); Section 711 (b) of the Social Security Act (42 U.S.C. 912(b)) as amended by section 432 of the Medicare Prescription Drug Improvement and Modernization Act of 2003.

Social Security Act, Title VII, 711 (42 U.S.C. 912), as amended.

OBJECTIVES:

The Rural Health Research Center and Telehealth Focused Rural Health Research Center programs are designed to increase the amount of publically available, high quality, impartial, policy-relevant research to assist decision makers at the federal, state and local levels to better understand the challenges faced by rural communities and providers. The research conducted by these research centers provides information that will improve access to health care and population health.

The Rapid Response Rural Data Analysis and Issue Specific Rural Research

Studies awardee assists rural communities with conducting rapid data analyses and short term research studies to understand the impact of current and proposed policies and regulations as well as to provide information that will improve access to health care and population health in rural America. Due to the nature of rural policy analysis and formulation, rural organizations and health care providers often require timely information that is available only through specialized analysis of databases of information compiled by the Centers for Medicare and Medicaid (CMS), and other federal and state agencies or provider organizations. Most rural groups and individuals do not have the capacity to store the data sets, the staff expertise to refine and analyze the data, nor the technology necessary to run statistical analyses. Findings from these analyses are used to help inform rural health care providers and stakeholders that set policies impacting rural communities.

The Rural Health Research Dissemination Program awardee disseminates and markets policy-oriented information for use by diverse audiences, such as rural stakeholders at national, state, and community levels and policy decision-makers, to inform and raise awareness of issues regarding policy implications, access, quality and status of health care delivery, services, and management on behalf of rural communities. The information includes the body of research funded by the Federal Office of Rural Health Policy and is designed to help decision-makers and policy analysts concerned with a variety of rural health issues at national, state, and community levels better understand the problems rural communities face in assuring access to health care and promoting good health for their members.

The Rural Policy Analysis Program, another research-related program within FORHP, supports research and analysis of key policy issues affecting rural communities to inform rural policy makers. Funded projects focus on the changing rural environment and (1) facilitate public dialogue on key rural policy issues by tracking emerging rural health and human services policy issues; (2) identify opportunities for integrating health and human services in rural policy, program, and evaluation in a local community context; (3) identify opportunities to demonstrate broad community impact of policies and programs in rural health and human services, consistent with policy goals related to rural revitalization and sustainability of rural regions; and (4) provide analysis of policies and regulations in the form of policy briefs, reports, webinars, and oral presentations.

The purpose of the Rural Health Value Program (formally called the Rural Health Systems Analysis and Technical Assistance Program) is to inform rural health care providers, and stakeholders (such as HHS, Congress, states, and for-profit and nonprofit entities that set policies impacting rural health care providers) about the impacts of changes in the health care delivery system, and to provide technical assistance to rural providers in identifying new approaches to health care delivery in their communities.

The Medicare Rural Hospital Flexibility Program Evaluation Cooperative Agreement and Information Services to Rural Hospital Flexibility Program Awardees provide technical assistance, support, monitoring and evaluation to the State Rural Hospital Flexibility Program awardees and Critical Access Hospitals.

The purpose of the National Rural Health Best Practices and Community Development Program is to develop and maintain projects that will help support rural communities through a broad range of programmatic and policy activities, including: identifying national policy issues and promising practices for rural health care providers; identifying and translating key points from emerging policy issues to rural health care providers, researchers and policymakers; providing a forum for rural medical educators and students to share lessons learned to address recruitment and retention challenges, and expanding public awareness of the importance of the economic impact of the health care sector.

The State Rural Health Coordination and Development Cooperative Agreement (SRHCD-CA) enhances the rural health infrastructure in each state by providing guidance and technical assistance to state Offices of Rural Health (SORHs) as well as their partners and to identify and promote best practices. The goals of the SRHCD-CA are 1) to assist in the coordination of health care delivery through the development of state level rural health leadership; and 2)

to facilitate partnerships and collaboration at the national and state levels to improve the exchange of information and engage in collaborative activities for supporting rural health.

The Rural Quality Improvement Technical Assistance Cooperative Agreement provides technical assistance to Federal Office of Rural Health Policy (FORHP) awardees, Critical Access Hospitals (CAHs), and other rural providers, to assist them in demonstrating improved quality improvement results. Assistance will be provided in the areas of: data collection and analysis, understanding measure specifications, benchmarking and target-setting, developing and implementing efficient and effective improvement strategies, and tracking the outcomes of quality improvement efforts.

The Frontier Community Health Integration Program (FCHIP) Technical Assistance, Tracking, and Analysis program provides technical assistance, site implementation assistance, and other tracking and analytic activities to support providers participating in the FCHIP Demonstration. Activities are in support of identifying potential new approaches to health care delivery, reimbursement, and coordination in sparsely populated areas.

The Rural Health Clinic Technical Assistance Cooperative Agreement provides technical assistance to rural health clinics (RHCs) and disseminates information regarding RHC issues such as Medicare survey and certification, billing and payment, quality improvement, best practices, disease management, and applicable regulatory issues. The program provides technical assistance calls or webinars, and an electronic mailing list (listserv) for RHC staff that serves as a resource for RHCs needing assistance to understand and comply with applicable regulations.

TYPES OF ASSISTANCE:

Cooperative Agreements

93.156 GERIATRIC TRAINING FOR PHYSICIANS, DENTISTS AND BEHAVIORAL/MENTAL HEALTH PROFESSIONALS

Geriatric Training for Physicians, Dentists and Behavioral/Mental Health Professionals (GTPD)

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Title VII, Sec. 753(b) of Public Health Service Act (42 U.S.C.294c), as amended by the Health Professions Education Partnerships Act of 1998 (P.L. 105-392) and the Affordable Care Act (P.L. 111-148).

OBJECTIVES:

Grants are awarded for faculty training projects in geriatric medicine, geriatric dentistry, and geriatric behavioral or mental health. The purpose of this grant program is to provide support, including fellowships, for geriatric training projects to train physicians, dentists and behavioral or mental health professionals who plan to teach geriatric medicine, geriatric dentistry or geriatric behavioral or mental health.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Awards will provide funds for: (1) a one year retraining program in geriatrics for: (a) physicians who are faculty in departments of internal medicine, family medicine (including osteopathic general practice), gynecology, geriatrics, and behavioral or mental health at schools of medicine and osteopathic medicine; (b) dentists who are faculty members at schools of dentistry or at hospital departments of dentistry; and (c) behavioral or mental health professionals who are faculty members in departments of behavioral or mental health; and/or (2) a two year internal medicine or family medicine fellowship program providing emphasis in geriatrics which shall be designed to provide training in clinical geriatrics and geriatrics research for: (a) physicians who have completed

graduate medical education programs in internal medicine, family medicine (including osteopathic general practice), behavioral or mental health, neurology, gynecology, or rehabilitation medicine; (b) dentists who have demonstrated a commitment to an academic career and who have completed postdoctoral dental training, including postdoctoral dental education programs or who have relevant advanced training or experience; and (c) behavioral or mental health professionals who have completed graduate medical education programs in behavioral or mental health. Each project for which a grant is made must: (1) be staffed by full-time teaching physicians who have experience or training in geriatric medicine or geriatric behavioral or mental health; (2) be staffed, or enter into an agreement with an institution staffed by full-time or part-time teaching dentists who have experience or training in geriatric dentistry; (3) be staffed, or enter into an agreement with an institution staffed by full-time or part-time teaching behavioral or mental health professionals who have experience or training in geriatric behavioral or mental health; (4) be based in a graduate medical education program in internal medicine or family medicine or in a department of geriatrics or behavioral or mental health; (5) provide training in geriatrics and expose fellows to the physical and mental disabilities of elderly individuals through a variety of service rotations, such as geriatric consultation services, acute care services, dental services, geriatric behavioral or mental health units, day and home care programs, rehabilitation services, extended care facilities, geriatric ambulatory care and comprehensive evaluation units, and community care programs for elderly individuals with intellectual disabilities, and (6) provide training in geriatrics through one or both of the two training options. See above. The Affordable Care Act, Public Law 111-148 expanded the definition of behavioral and mental health professionals to include psychiatry, psychology, psychiatric nursing, social work, substance abuse disorder prevention and treatment, marriage and family counseling, or professional counseling. The expanded definition applies to the 1-year retraining option ONLY.

Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment. Student support through stipends, tuition, and fees is not eligible for support.

Applicant Eligibility:

Grants may be made to accredited public or private nonprofit schools of medicine, schools of osteopathic medicine, teaching hospitals, or graduate medical education programs. Applicants must be located in the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, the Republic of the Marshall Islands, or the Federated States of Micronesia. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Grants may be made to accredited public or private nonprofit schools of medicine, schools of osteopathic medicine, teaching hospitals, or graduate medical education programs.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA

program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification is made in writing (electronic) through a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. This program has MOE requirements, see funding agency for further details. The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 5-year project period. See the following for information on how assistance is awarded/released: Recipients draw down funds, as necessary, from the Payment Management System (PMS), the centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSAs Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this Notice of Funding Opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years from the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.157 CENTERS OF EXCELLENCE

Centers of Excellence (COE)

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title VII, Section 736, 42 U.S.C. 293.

OBJECTIVES:

The goal of this program is to assist eligible schools in supporting programs of excellence in health professions education for underrepresented minority (URM) individuals. The Centers of Excellence (COE) program is a catalyst for institutionalizing a commitment to under-represented minority (URM) students/faculty and to serve as a national resource and educational center for

diversity and minority health issues. Additionally, the COE program will help to strengthen the national capacity to produce a culturally competent healthcare workforce whose diversity is representative of the United States population.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Health professions schools awarded a COE grant are required to use funds to offer programming that will meet the following seven legislative purposes of the program: (1) Increase the competitive applicant pool for health professions schools; (2) Expand programs to enhance underrepresented minority student academic performance; (3) Improve recruitment, training and retention of underrepresented minority faculty; (4) Improve information resources curriculum, clinical education and cultural competency of graduates as it relates to minority health issues; (5) Facilitate faculty and student research on health issues affecting underrepresented minority groups; (6) Engage students in practice-based training in community-based settings serving significant numbers of underrepresented minority individuals; and (7) Provide stipends, as appropriate.

In addition, the four designated HBCU institutions must also propose activities to carry out the following purposes: (1) Develop a plan to achieve institutional improvements, including financial independence, to enable the school to support programs of excellence in health professions education for underrepresented minority individuals; and (2) Provide improved access to the library and informational resources of the school.

Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

Eligible applicants include designated Historically Black Colleges and Universities (HBCUs) and health professions schools that are accredited schools of allopathic medicine; osteopathic medicine; dentistry; pharmacy; or a graduate program in behavioral or mental health; or other public and nonprofit health or educational entities that meet the required conditions regarding: underrepresented minorities as described in Section 736 of the Public Health Service Act. Native American Centers of Excellence are eligible, as specified in statute.

Eligible applicants must also have:

- (1) a significant number of under represented minority individuals enrolled in the schools;
- (2) been effective in assisting under-represented minority students of the schools to complete the program of education and receive the degree involved;
- (3) been effective in recruiting under represented minority individuals to enroll in and graduate from the school, including providing scholarships and other financial assistance to such individuals and encouraging under represented minority students from all levels of the educational pipeline to pursue health professions careers; and
- (4) made significant recruitment efforts to increase the number of under represented minority individuals serving in faculty or administrative positions at the school.

Beneficiary Eligibility:

Designated HBCUs and eligible health professions schools must recruit and train a significant number of underrepresented minority students in medicine, dentistry, and pharmacy; recruit, train, and retain underrepresented minority faculty recruitment; and facilitate faculty and student research activities.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The minimum period of participation is 2 years. Maximum payment to a program participant is \$20,000 per year and an additional 20 percent of the award amount for tax liability. Recipients must apply payments only to outstanding eligible health professions educational loans.

Applicant Eligibility:

Eligible individuals must be enrolled: (1) In a course of study or program in an accredited institution, as determined by the Secretary, within any State and be scheduled to complete such course of study in the same year such as individual applies to participate in such program; (2) in an approved graduate training program in a health profession; (3) have a degree in health profession and a license to practice a health profession; (4) be eligible for, or hold, an appointment as a commissioned officer in the Regular or Reserve Corps of the Public Health Service (PHS); (5) be eligible for selection for civilian service in the Regular or Reserve Corps of the PHS; (6) meet the professional standards for civil service employment in the IHS; (7) be employed with an Indian health program funded under Public Law 93-638, Indian Self-Determination, Title V of Public Law 94-437 and its amendments or the Buy Indian Act (25 U.S.C. 47); (8) submit an application to participate in the IHS Loan Repayment Program. The term "State" is defined in Section 331 (i)(4) of the PHS Act.

Beneficiary Eligibility:

Health professionals who have Government (Federal, State, local) and commercial unpaid educational loans will benefit from this program.

Credentials/Documentation:

Applicants must submit documentation of the following, as appropriate: (1) A transcript showing final year of study and full-time status; (2) a copy of a health professions degree; (3) a copy of health professions license; (4) a copy of transcript showing completion of graduate education; and (5) a copy of all loan documentation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants should apply online. Once an application is submitted it will be reviewed and the determination of awards will be made based upon merit. Awards will be made on award dates published in the Federal Register.

Award Procedure:

Upon determination of who will receive an award, that individual will be notified in writing by the program. The individual will in turn notify the program in writing of his/her acceptance. Awards will be contingent upon the score that an eligible Loan Repayment Program site receives and score is applied to the individual matched to that site. Upon arriving at his/her duty station, participant must submit proof of employment to the IHS Loan Repayment Program Office. Individuals can be matched to an IHS tribal, urban, or buy Indian site by an IHS area recruiter or the equivalent. Applicants needing to match to an IHS priority site should work with an IHS recruiter in the service area of their choice. When an award occurs, the Secretary will sign the contract and the individual will receive final notification of their award and a copy of their signed contract.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Contracts are approved or disapproved within 90 days of receipt of applications by the Indian Health Service Loan Repayment Program.

Appeals:

Not Applicable.

Renewals:

If a program recipient satisfactorily completes his/her initial service and continues to have remaining eligible debt, he/she may extend his/her contract on a single-year basis, provided that funds are available and the participant continues to meet the eligibility requirements of the program. A recipient wishing to extend his/her contract must submit a formal request for extension and sign a new 1-year contract.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Payments will be made to the individuals of the program on an annual basis. See the following for information on how assistance is awarded/released: Payments will be made to the individuals of the program on an annual basis.

Reports:

Before participants receive their 2nd payments they must submit employment verification, a payment history showing that they applied their first year's payment to their eligible student loans, and a leave record. No cash reports are required. No progress reports are required. Participants must submit a payment history from their lenders showing that they applied their funds to their eligible student loans. No performance monitoring is required.

Audits:

No audits are required for this program.

Records:

The IHS will maintain records of unsuccessful applicants for 3 years after they applied. The IHS will maintain records of participants for 3 years after they complete their service obligation.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

The IHS defined "Health Profession" to mean family medicine, internal medicine, pediatrics, geriatric medicine, obstetrics and gynecology, podiatric medicine, nursing, public health nursing, dentistry, psychiatry, osteopathy, optometry, pharmacy, psychology, public health, social work, marriage and family therapy, chiropractic medicine, environmental health and engineering, and allied professions. Other factors that will be employed to determine which applicant is selected for awards include: (a) An applicant's length of current employment in the IHS, tribal or urban program; (b) availability for service earlier than other applicants (first come, first served); and (c) date the completed application was received.

Not all health professions receive funding. Please contact the program for more information.

93.165 GRANTS TO STATES FOR LOAN REPAYMENT PROGRAM

State Loan Repayment Program (SLRP)

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title III, Section 338I, 42 U.S.C. 254 q-1(h), as amended; Medicare Access and CHIP Reauthorization Act of 2015 (P.L. 114-10).

OBJECTIVES:

To increase the availability of primary health care in health professional shortage areas (HPSAs) by assisting States in operating programs for the repayment of educational loans of health professionals in return for their practice in HPSAs.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use; PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds under this grant must only be used to repay the qualifying educational loans of health professionals who have entered into State Loan Repayment Program (SLRP) contract with the States. Funds cannot be used for the following purposes: costs of administering the program, State matching funds, or any other purpose.

Applicant Eligibility:

Eligible entities include the 50 States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, American Samoa, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Applicants for State programs must have completed a course of study required to practice independently without supervision as one of the following health care professionals: Doctor of Allopathic Medicine or Osteopathic Medicine, General Practice Dentist (D.D.S. or D.M.D.), Pediatric Dentist, Primary Care Certified Nurse Practitioner, Certified Nurse-Midwife, Primary Care Registered Nurse, Pharmacist, Primary Care Physician Assistant, Registered Clinical Dental Hygienist, Health Service Psychologist (formerly Clinical or Counseling Psychologist (Ph.D. or equivalent), Licensed Clinical Social Worker (masters or doctoral degree in social work), Psychiatric Nurse Specialist, Mental Health Counselor, Licensed Professional Counselor (masters or doctoral degree with a major study in counseling), Marriage and Family Therapist (masters or doctoral degree with a major study in marriage and family therapy), Registered Nurse and Pharmacist. The primary care specialties approvable for physicians are: family medicine (and osteopathic general practice), internal medicine, including geriatricians, pediatrics, obstetrics/gynecology, and geriatrics and general psychiatry. General practitioners (physicians who have not completed residency training programs) are not eligible for funding under the SLRP. The primary care specialties approval for registered nurses, nurse practitioners and physician assistants are: adult, family, pediatrics, psychiatry/mental health, geriatrics, or womens health.

Participants must provide full-time clinical service for a minimum of two years in a public or non-profit entity located in a federally designated Health Professional Shortage Area (HPSA).

Refer to the NHSC State Loan Repayment Program Guidance for specific requirements.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

Award Procedure:

Notification is made in writing by Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days after receipt of application.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: States must agree to make available (directly or through donations from public or private entities) non-Federal contributions in cash toward SLRP contracts in an amount not less than \$1 for each \$1 of Federal funds provided in the grant. A State may not use any Federal funds or in-kind contributions to satisfy the non-Federal match requirement. A State must verify that contributions from sources other than State appropriated funds are non-Federal. States may use non-Federal funds in excess of the \$1 for \$1 minimum match to supplement the repayment of qualifying loans of health professionals.

The Federal share must be used to repay the government and commercial loans of health professionals for tuition, educational expenses and living expenses described in Section 338B(g)(1) of the Public Health Service Act. States must assume administrative costs.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 4-year project period. States are asked to commit the full amount of funding for their loan repayment awards to practitioners in the current fiscal year to avoid out-year commitments for additional Federal funds. See the following for information on how assistance is awarded/released: Recipients drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report

(SF-425) is required according to the schedule in HRSAs Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award. Progress reports are not applicable. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

Account Identification:

75-0350-0-1-550.

Obligations:

(Project Grants) FY 16 \$13,070,603; FY 17 est \$15,000,000; and FY 18 est \$15,000,000

Range and Average of Financial Assistance:

FY 16 awards ranged from \$80,000 to \$1,000,000, with an average award of \$353,259.
FY 17 awards TBD.

TAFS Codes:

75-0350.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

All administrative and audit requirements and the cost principles that govern Federal monies associated with this activity will be subject to the Uniform Guidance 2 CFR 200 as codified by HHS at 45 CFR 75.. HRSA awards are also subject to the requirements of the HHS Grants Policy Statement (HHS GPS) that are applicable based on recipient type and purpose of award. The HHS GPS is available at <http://www.hrsa.gov/grants/hhsgrantspolicy.pdf>.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.172 HUMAN GENOME RESEARCH

Human Genome Project

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Sections 301, 461 and 487, as amended; Public Laws 78-410 and 99-158, 42 U.S.C. 241, as amended; 42 U.S.C. 285k; 42 U.S.C. 288; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564.

OBJECTIVES:

NHGRI supports the development of resources and technologies that will accelerate genome research and its application to human health. A critical part of the NHGRI mission continues to be the study of the ethical, legal and social implications (ELSI) of genome research. NHGRI also supports the training and career development of investigators and the dissemination of genome information to the public and to health professionals. The Small Business Innovation Research (SBIR) program is used to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The Small Business Technology Transfer (STTR) program is used to foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The research project grant is awarded to an eligible institution in the name of a principal investigator for a discrete project or group of related projects representing the investigator's interest and competence. Funds may be used for salaries and wages, equipment, supplies, travel and other costs required to carry out the research project. National Research Service Awards are made directly to individuals for research training in disciplines supporting the research areas. In addition, grants may be made to institutions to enable them to select individuals for National Research Service Awards. Each individual who receives a National Research Service Award is responsible for certain service and payback provisions. Small Business Innovation Research (SBIR) Program: SBIR Phase I grants (of approximately 6 months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of

research initiated in Phase I and scientific and technical merit and commercial potential of Phase II application. Responsibilities of grantees and restrictions on use of funds are set forth in the Public Health Service policy statement on grants for research projects, which is available on request from the Division of Extramural Outreach and Information Resources, Office of Extramural Research, National Institutes of Health (NIH), 6701 Rockledge Drive, Room 6207, MSC 7910, Bethesda, MD 20892-7910. Telephone: (301) 435-0714. Fax (301) 480-0525. E-mail: asknih.od.nih.gov.

Applicant Eligibility:

Research Projects: Awards can be made to any public or private, for-profit or nonprofit university, college, hospital, laboratory, or other institution, including State and local units of government, qualifying small businesses (through the Small Business Innovation Research/STTR Programs, and to individuals. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its territories. To be eligible for funding, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. Applicants to the Small Business Innovation Research/STTR Programs must meet special requirements for small businesses, as defined by the Small Business Administration. Non-federal public and private domestic organizations may apply for an Institutional National Research Service Award. Individual National Research Service awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All awardees must be citizens or have been admitted to the United States for permanent residence. Predoctoral awardees must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.O., D.V.M., Sc.D., E.Eng., or equivalent domestic or foreign degree). To be eligible for funding for any award, an application must be reviewed for scientific merit by a scientific review group and for program relevance by a national advisory council.

Beneficiary Eligibility:

Any nonprofit or for-profit organization, company, or institution engaged in biomedical research can apply for research support.

Credentials/Documentation:

Each applicant for a research project must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. Applications must submit an electronic grant application form SF424 which can be accessed from the funding opportunity announcement. For applicants for National Research Service Awards, the academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. The applicant institution must show the objectives, methodology, and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for the award, and a detailed budget and justification for the grant funds requested. For-profit organizations, costs are determined in accordance with 48 CFR. For other grantees, costs will be determined in accordance with HHS Regulation 45 CFR 75. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SF424 applications are used for SBIR and STTR programs. SBIR and STTR applicant organizations must comply with the SBA's definition of a small business. In order to be eligible for a NRSA award, the individual must be a US citizen or

permanent resident of the US. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Only application submitted in response to a funding opportunity announcement will be accepted. The standard application forms, as furnished in the Funding Opportunity Announcements at www.grants.gov, must be used for this program. This program is subject to the provisions of 45 CFR 75. The SBIR and STTR Solicitations may be obtained electronically through the NIH "Small business Funding Opportunities" homepage at www.nih.gov/grants/funding/sbir.htm on the World Wide Web.

Award Procedure:

All applications must respond to a funding opportunity announcement, must be reviewed for scientific merit by an appropriate initial review group, and must be considered by the National Advisory Council for Human Genome Research (NACHGR) for program relevance. Individual NRSA applications are not reviewed by council. All scored applications compete for available funds on the basis of scientific merit and program emphasis, and availability of funds. Applications in response to a Request for Applications have council approved set aside funds, but awards are based primarily on the quality of the applications. Awards are issued throughout the year. All applications receiving a impact score ranging from the best (10) to worst (90) compete for the available funds on the basis of scientific and technical merit (SBIR/STTR applications must also demonstrate the potential for commercial application for SBIR/STTR applications), program relevance, and program balance among the areas of research. However, in reality, applications with impact scores of 30 or greater are rarely considered for funding.

Deadlines:

Oct 05, 2017: This is the first of three deadlines that occur annually for new research projects. The other two dates are February 5, and June 5. New Research Projects (R01) and Renewals: February 5, June 5, and October 5. Program Project, Center and Institutional Training Grants and R25 grants: January 25, May 25, and September 25. Other Research Grants (R03, R21, R33, R21/R33, R34, R36): February 16, June 16, and October 16. Individual NRSA: April 5, August 5, and December 10. SBIR/STTR Applications: April 8, August 8, and December 8.

Range of Approval/Disapproval Time:

From submission to award of funds: Individual, project and institutional grants about 9 months; SBIR/STTR and AIDS projects about 6 months.

Appeals:

A description of the NIH Peer Review Appeal procedures is available on the NIH home page www.nih.gov/grants/guide/1997/97.11.21/n2.html. RFA applications are not subject to appeals.

Renewals:

Renewal grants are competitively awarded.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Research and program projects are awarded for 3-5 years. Institutional training grants are awarded for 5 years. Individual fellowships and career development awards are from 2-5 years. For SBIR and STTR applications, normally Phase I awards are for 6 months and Phase II awards are for 2 years. Method of awarding/releasing assistance: by letter of credit.

Reports:

Annual progress and financial status reports for continuing projects and final reports on all projects upon conclusion are required. For more complex grants, more frequent written reports and/or onsite program reviews may be required.

Cash reports are not applicable. Annual progress and financial status reports for continuing projects and final reports on all projects upon conclusion are required. For annual progress reports, information about past progress, publications and proposed research for the next year are reported. Depending on the complexity of the grant, a budget may also be required. The expenditure reports consists of whether there is 25% or more unspent funds on the grant. If so, the principal investigator is asked to explain why there is a large unobligated balance. The explanation is subject to staff review and action. Program Directors review the reports and contact the PIs for a verbal discussion that expands upon the written report. If problems are noted, the program director will note this in the report and talk with the PI about what can be done to ensure progress is satisfactory. For more complex grants, the Program Director may request the PI to provide more frequent accounting of progress and/or teleconferences. The Grants Management Specialist/Officer reviews applications for the appropriateness of the budget requested.

Audits:

No audits are required for this program.

Records:

Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period.

Account Identification:

Obligations:

(Project Grants) FY 16 \$377,186,406; FY 17 est \$389,196,000; and FY 18 est \$287,953,000 - RPGs: FY16 actual \$244,685,229; FY 17 est. \$254,965,000; FY18 est. \$196,855,000

Centers: FY16 actual \$84,713,418; FY17 est. \$74,459,000; FY18 est. \$45,284,000

NRSAs: FY16 actual \$ 7,751,441; FY17 est. \$8,575,000; FY18 est. \$7,271,000
SBIR/STTR Grants: FY 16 actual \$13,009,935; FY 17 est. \$14,168,000; FY18 est. \$10,679,000

Other Grants: FY16 actual \$11,334,338; FY17 est. \$18,083,000; FY18 est. \$13,964,000

R&D FY16 actual \$15,692,045; FY17 est. \$18,946,000; FY18 est. \$13,900,000.

Range and Average of Financial Assistance:

For RPGs the range is from \$1,192 - \$19,996,553. However, the smallest RPG (5R21HG008495-02) seems to only include funding for 2 months of support. If we exclude this grant, then the range would be \$26,000 - \$19,996,553.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: \$30,000,000. Fiscal Year 2017: ClinGen aims to build an authoritative central resource that defines the clinical relevance of genes and variants for use in precision medicine and research. To do so, ClinGen investigators are developing standard approaches for sharing genomic and phenotypic data provided by clinicians, researchers, and patients through centralized databases, such as ClinVar, and are working to standardize the clinical annotation and interpretation of genomic variants. Working groups are implementing evidence-based expert consensus methods to curate the clinical validity and medical actionability of genes and variants. Experts in the areas of cardiovascular disease, pharmacogenomics, hereditary (germline) cancer, somatic cancer, and inborn errors of metabolism have been brought together to assist in these curation efforts. ClinGen also aims to develop machine-learning algorithms to improve the throughput of variant interpretation and to improve understanding of variation in diverse populations as it relates to interpreting genetic test results. Lastly, ClinGen will disseminate the collective knowledge and resources for unrestricted use in the community and for use in EHR ecosystems. Fiscal Year 2018: The ELSI Research Program funds research studies, training opportunities and workshops, and develops and supports research consortia and conferences in the following broad areas.

Genomic Research - Projects in this area examine and address the issues that arise in the design and conduct of genomic research, particularly as it involves

the production, analysis and broad sharing of individual genomic data that is frequently coupled with detailed health information.

Genomic Health Care - Projects in this area explore how rapid advances in genomic technologies and the availability of increasing amounts of genomic information influence how health care is provided and how it affects the health of individuals, families and communities.

Broader Societal Issues - Projects in this area examine the normative underpinnings of beliefs, practices and policies regarding genomic information and technologies, as well as the implications of genomics for how we conceptualize and understand such concepts as health, disease, and individual responsibility.

Legal, Regulatory and Public Policy Issues - Projects in this area explore the effects of existing genomic research, health and public policies and regulations and provide data to inform the development of new policies and regulatory approaches.

A more detailed description of these areas and a list of examples of possible research questions related to each are available on the ELSI Research Priorities website: <http://www.genome.gov/27543732>.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2016: No Current Data Available Fiscal Year 2017: The Genomics of Gene Regulation (GGR) projects will use genomic data and technologies to understand how genetic regulatory systems are assembled and how genetic regulatory systems function to determine biological processes at a mechanistic level. GGR projects are designed to advance genomic science towards the long-term goal of NHGRI research in this area, which is to be able to predict, from reading DNA sequence, when and at what level a gene is expressed, in the context of a particular cell fate/state. Understanding gene regulatory networks could facilitate interpreting the phenotypic consequences (e.g. disease) of genetic variation, particularly in non-coding regions of the genome. This is a highly significant problem, as the vast majority of disease-associated variants found using GWAS lie outside of protein-coding sequences. Many of these disease associations map to ENCODE-annotated regions, thus highlighting the importance of these ENCODE annotations. While genomic annotations are important, they are not sufficient to understand dynamic biological processes. GGR is one path to bring together modeling methods with catalogs of genomic data to understand what elements are controlling what genes, in what cell types. The ability to make accurate predictions from gene regulatory networks could support genomic medicine and precision medicine, by providing us one more tool to understand the consequences of genetic variation.

As set out in the RFA, individual projects collect genomic data on gene expression, as well as surrogate markers of regulatory elements, in different cell fates or cell states. They use the gene expression and functional element data to construct gene regulatory network models, taking advantage of the dynamics of the system as the cells transition from one physiologic fate or state to another. These models will describe the biological role of the identified functional

elements and how they interact to form a genetic regulatory circuit. The predictions of the initial model would then be tested experimentally by appropriate assays, for instance by perturbing (by genetic or environmental means) identified key regulators and comparing the measured biological response to the predicted response. Analysis of the outcomes of these experiments would be used to refine and further develop the model in an iterative process of modeling, prediction, and experimentation. It is hoped that this approach will lead to a detailed understanding of the individual genetic regulatory circuits under study.

It is further hoped that by investigating several genetic regulatory circuits this way and organizing the projects in a collaborative research network, the GGR investigators will form an interactive group, accelerating discovery through the sharing of technical and biological insights gained during the course of the project. These interactions will be important in learning the features that are generalizable and the features that are unique, because the individual projects will be using different approaches and biological systems. Fiscal Year 2018: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed project; and (5) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget request for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.173 RESEARCH RELATED TO DEAFNESS AND COMMUNICATION DISORDERS

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Sections 301, 464 A-F, and 487, as amended; 42 U.S.C. 241, 285m, 285m-3, and 288; Public Law 100-553; 102 Stat. 2769; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564.

OBJECTIVES:

To investigate solutions to problems directly relevant to individuals with deafness or disorders of human communication in the areas of hearing, balance, smell, taste, voice, speech, and language. The National Institute on Deafness and Other Communication Disorders (NIDCD) supports research and research training, including investigation into the etiology, pathology, detection, treatment, and prevention of disorders of hearing and other communication processes, primarily through the support of basic and applied research in anatomy, audiology, biochemistry, bioengineering, epidemiology, genetics, immunology, microbiology, molecular biology, the neurosciences, otolaryngology, psychology, pharmacology, physiology, psychophysics,

speech-language pathology, and other scientific disciplines. The NIDCD supports: (1) Research into the evaluation of techniques and devices used in diagnosis, treatment, rehabilitation, and prevention of disorders of hearing and other communication processes; (2) research into prevention and early detection and diagnosis of hearing loss and speech, voice, and language disorders and research into preventing the effects of such disorders by means of appropriate referral and rehabilitation; (3) research into the detection, treatment, and prevention of disorders of hearing and other communication processes in the elderly population and its rehabilitation to ensure continued effective communication skills; and (4) research to expand knowledge of the effects of environmental agents that influence hearing or other communication processes. Small Business Innovation Research (SBIR) program: To increase private sector commercialization of innovations derived from Federal research and development; to encourage small business participation in Federal research and development; and to foster participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Small Business Technology Transfer (STTR) program: To stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Project Grants and Centers Grants may be used to provide salaries, equipment, supplies, travel, and other expenses for research. The grantee institution is obliged to expend grant funds prudently for the purposes as stated in the application and award document. Some National Research Service Awards (NRSAs) are issued on behalf of an individual for research training in specified biomedical and behavioral research areas. Other training grants are made to institutions to enable them to make NRSAs to individuals selected by them. Each postdoctoral individual who receives an NRSA may be obligated, upon termination of the award, to comply with certain service and payback provisions. Mentored and unmentored career development awards are made to enhance the independent research capability of highly promising individuals during the formative stages of their careers. Small Business Innovation Research (SBIR) Program: Phase I grants, typically 6 months in duration, are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. SBIR Phase II grants are for the continuation of the research efforts initiated in Phase I and that are likely to result in commercial products or processes. STTR Phase I grant, normally of 1-year duration, are to determine the scientific, technical, and feasibility of the proposed cooperative effort. Phase II funding is based on scientific and technical merit and commercial potential of the application. Grant funds may be expended only for the purpose stated in the application and award document.

Applicant Eligibility:

Project Grants and Centers Grants: Any public, private, nonprofit, or for-profit institution is eligible to apply. For-profit institutions are not eligible for institutional National Research Service Awards. All proposals are reviewed for scientific merit, for evaluation of the qualifications of the investigators, for adequacy of the research and/or research training environment and for significance of the problem. Approved proposals compete for available funds. Awardees of almost all Research Career Development Programs must be citizens or have been admitted to the United States for permanent residence. Candidates must be nominated for the program by a nonfederal public or private nonprofit institution located in the United States, its possessions or Territories. To be eligible, postdoctoral NRSA trainees and fellows must have a professional or scientific doctoral degree (PhD, MD, DO, DC, DDS, DVM, OD, DPM, ScD, EngD, Dr PHPhD, MD, DO, DC, DDS, DVM, OD, DPM, ScD, EngD, Dr PH, DNSc, ND {Doctor of Naturopathy}, PharmD, DSW, PsyD, AUD or equivalent doctoral degree from an accredited domestic or foreign institution). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, and

have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the United States or its possessions. To be eligible for funding, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Health professionals; student/trainee; scientists/researchers; consumer.

Credentials/Documentation:

Project Grants are awarded to an institution in the name of an individual investigator. Centers Grants are also awarded to an institution in the name of an investigator designated as the Program Director. Persons qualified to carry out research related to the NIDCD grant programs described above may apply for funds through their institution to support their investigations. Mentored career development must be conducted under the direction of a competent sponsor. A candidate for a Career Award must have an earned M.D., Ph.D. or equivalent degree and have had prior research experience. National Research Service Awards: (1) Individual NRSA Fellowship Awards for predoctoral and postdoctoral training: The candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. (2) Institutional Training Grants for predoctoral and postdoctoral training: The applicant institution must show the objectives, design and resources for the research training program; the qualifications and experience of directing staff and training preceptors; the criteria to be used in selecting individuals for stipend support; and a detailed, justified budget for the numbers and type of trainee positions requested. The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix 1X (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement for further guidance on the applicability of cost principles (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). For SBIR and STTR grants, the applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 "Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards." The policies and procedures generally applicable to NIH grants are set forth in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Award Procedure:

Research grant, career development, and research training program applications are reviewed initially by technical panels composed of scientific authorities, and by the National Deafness and Other Communication Disorders Advisory Council composed of 18 leaders in medicine, science, education, and public affairs. Approved applications will compete on a merit basis for available funds. Formal award notices are transmitted to the grantee or awardee. All accepted SBIR/STTR applications are evaluated for scientific and technical

merit by an appropriate scientific peer review panel and by a national advisory council. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Research Grants and Centers Grants: Approximately 6 to 9 months. Career Program: From 6 to 9 months. SBIR/STTR applications: About 6 to 9 months. Institutional Training Grants: From 10 to 12 months. Individual Fellowships: From 4 to 6 months.

Appeals:

A principal investigator (PI) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedure is available at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>. Final decisions on unresolved appeals are made with the advice of the National Deafness and Other Communication Disorders Advisory Council.

Renewals:

> 180 Days. By application and review in the same manner as new applications. Research career awards are not renewable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Research Grant awards are made for a 12-month period with recommendation of up to 4 years of additional support. Center Grant awards support may be for a period not to exceed 5 years. Career development awards provide support for up to 5 years. NRSA fellowship and traineeship awards are usually for a 12-month period, with recommendation of additional support of no more than 5 years for predoctoral training and no more than 3 years for postdoctoral training. SBIR Phase I awards are generally for 6 months; STTR Phase I awards are generally for 1 year; Phase II awards normally may not exceed 2 years. See the following for information on how assistance is awarded/released: After the progress report is evaluated and deemed satisfactory, a notice of grant award for each grant is issued annually.

Reports:

No program reports are required. The grantee organization submits quarterly Federal Financial Reports (SF-425). A progress report is required yearly for each grant. A financial status report is due either annually or at the end of the project period, depending upon the type of grant. Performance monitoring is covered in the annual progress report.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last financial status report for the report period.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: ---

. A total of 1,040 awards were made.

Of these, 316 competitive awards were made from 1,091 applications, a ratio of 29%.

Of these, 724 noncompetitive continuation awards were made.

Fiscal Year 2017: ---

. It is estimated that a total of 1,039 awards will be made.

Of these, 303 competitive awards will be made from 1,115 applications, a ratio of 27%.

Of these, 736 noncompetitive continuation awards will be made.

Fiscal Year 2018: ---

. It is estimated that a total of 812 awards will be made.

Of these, 62 competitive awards will be made from 1,140 applications, a ratio of 5%.

Of these, 750 noncompetitive continuation awards will be made.

The following additional criteria will be used in considering the scientific and technical merit of SBIR/STTR grant applications: (1) The technological innovation of the proposed research; (2) the potential of the proposed research for commercial application.

93.178 NURSING WORKFORCE DIVERSITY

NWD

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 821 of the Public Health Service Act (42 U.S.C. 296m).

OBJECTIVES:

To support projects that assist underrepresented students throughout the educational pipeline to become registered nurses, facilitate diploma or associate degree registered nurses becoming baccalaureate-prepared registered nurses, and prepare practicing registered nurses for advanced nursing education. The NWD program increases nursing education opportunities for individuals who are from disadvantaged backgrounds (including racial and ethnic minorities under-represented among registered nurses) by providing (1) student scholarships or stipends for diploma or associate degree nurses to enter a bridge or degree completion program, and (2) student scholarships or stipends for accelerated nursing degree programs, pre-entry preparation, advanced education preparation, and retention activities.

Achieving a diverse, culturally-aligned, and competent workforce that is reflective of the population served will require development of new workforce strategies. New workforce strategies must extend beyond individual-level interventions to address social and structural forces that impede efforts towards workforce diversity and health equity NWD program encourages applications that offer innovative projects that address the social determinants of health and how the social determinants impact a School of Nursing's ability to recruit, retain, and graduate underrepresented students.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds may be used for salaries of personnel specifically employed for the project; consultant fees; supplies and equipment necessary to conduct the project; essential travel expenses and student stipends or scholarships; and other expenses related to the project. Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

Eligible applicants are collegiate schools of nursing, nursing centers, academic health centers, State or local governments, and other private or public entities accredited by a recognized body or bodies or state agency, approved for the purpose of nursing education by the Secretary of Education. In addition to schools in the 50 states, only those in the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau are eligible to apply. Federally Recognized Indian Tribal Government and Native American organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Accredited public and nonprofit private schools of nursing and other public or nonprofit private entities. Project participants must be in an accredited program, a citizen of the United States, a non-citizen national of the United States or a foreign national who possesses a visa permitting permanent residence in the United States. Individuals on temporary or student visas are not eligible participants and may not receive NWD grant support.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification of award is made in writing (electronic) through a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching requirements are not applicable to this program.

This program has MOE requirements, see funding agency for further details. The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 4-year project period. See the following for information on how assistance is awarded/released: Recipients draw down funds, as necessary, from the Payment Management System (PMS); the centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. No cash reports are required. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.184 DISABILITIES PREVENTION

(Disability and Health)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Executive Order This program is authorized under Section 317C [42 U.S.C. 247b-4] of the Public Health Service Act., Title 42, Part 241(a), Section 301(a), Public Law USC-42 U.S.C. 247(b).

OBJECTIVES:

(1) Support National Centers on Disability to develop, implement, evaluate, and disseminate non-research activities aimed at reducing health disparities and improving the health of people with mobility limitations and/or intellectual disabilities (ID) across their lifespans, and (2) Develop and strengthen the capacity of state-based disability and health programs to improve the health and quality of life among people with disabilities through adaptation and

implementation of evidence-based strategies in states, U.S. territories, and tribal governments.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CDC issued continuation awards in fiscal year 2015 to three Resource Centers and 18 State-based disability and health cooperative agreements. These awards ended in 2016. In April, 2016 CDC issued new competitive awards to two National Centers on Health Promotion for People with Disabilities. New competitive awards were also issued to 19 State-based Disability and Health programs in July 2016. In fiscal year 2017, CDC issues continuation awards to the two National Centers on Health Promotion for People with Disabilities and the 19 State-based Disability and Health cooperative agreements. In addition, supplemental funds were given to one National Center (Special Olympics) and six Disability and Health States (Arkansas, Massachusetts, New Hampshire, New York, Oregon and South Carolina) to supplement existing programmatic activities.

National Centers on Disability: These cooperative agreements are providing financial assistance to: (1) improve knowledge and awareness about the usefulness and effectiveness of health promotion programs and policy, systems and environmental improvements for people with mobility limitations and/or intellectual disabilities, (2) develop, implement, evaluate, and disseminate multi-level strategies (e.g., programmatic, policy, systems and environmental changes) that improve the health and quality of life of people with mobility limitations and/or intellectual disabilities, (3) implement the Healthy Athletes Program for people with ID, and (4) collaborate with and support states and academic centers to improve the health of people with mobility limitations and/or intellectual disabilities.

State-based Disability and Health Programs: These cooperative agreements are providing financial assistance to develop and strengthen internal capacity and health-related disability programs to (1) improve knowledge and awareness about the usefulness and effectiveness of programmatic, policy, systems and environmental changes for people with select functional disability types (i.e., mobility limitations and/or Intellectual Disabilities, and (2) support states to plan, implement, evaluate, and disseminate non-research activities aimed at promoting inclusion and accessibility and reducing health disparities between people with and without disabilities.

In these cases, project funds may not be used to supplant State, local, or institutional funds available for these activities, or for construction costs, or to purchase facilities or space. Grantees may enter into contracts as necessary to help achieve the objectives of their respective programs.

Applicant Eligibility:

Based on available funding for fiscal year 2016, CDC issued competitive awards to two National Centers on Disability and 19 State-based Disability and Health Programs. Eligibility for the National Centers on Disability included: Public and State controlled institutions of higher education; Native American tribal organizations (other than Federally recognized tribal governments); Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education; Nonprofits without 501(c)(3) status with the IRS, other than institutions of higher education; and Private colleges and universities. Eligibility for the State-based Disability and Health Programs included: State governments; Native American tribal governments (Federally recognized); and Government Organizations (States, including the District of Columbia, Territorial governments or their bona fide agents in the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Beneficiary Eligibility:

In addition to the eligible applicants, other groups who will receive benefits from the program include persons with disabilities and their family members of persons with disabilities, persons with limb loss, minority populations, refugees, infants, children, youth, adults, senior citizens, women, all educational levels, all income levels, urban, suburban, and rural populations, health/rehabilitation professionals, scientists, educators, and researchers.

Credentials/Documentation:

State disability and health and resource center grantees documented in their

fiscal year 2015 continuing applications the need for assistance, indicated the objectives of their projects, presented their approaches to meet set objectives, and outlined the method of operation. Grantees funded in fiscal year 2016 followed the criteria set forth in the respective Funding Opportunity Announcements. In fiscal year 2017, these National Centers and State disability and health grantees documented in their continuing applications the need for assistance, indicated the objectives of their projects, and presented their approaches to meet set objectives. For nonprofit recipients, costs will be determined in accordance with HHS Regulation 45 CFR 74. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The guidelines will indicate whether or not an application is subject to Executive Order 12372. If the application is subject for review per State Executive Order 12372, please follow these instructions:

1. The SPOC should be contacted as early as possible to receive any necessary instructions on the State process. If the project serves more than one State, the department should contact the SPOC of each affected State.
2. The necessary information should be mailed to the SPOC.
3. Please provide a copy of the cover letter sent to the SPOC to Grants & Contracts along with the hard copy application. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. 93.185 IMMUNIZATION RESEARCH, DEMONSTRATION, PUBLIC INFORMATION AND EDUCATION TRAINING AND CLINICAL SKILLS IMPROVEMENT PROJECTS

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

This program is authorized under Sections 317, 317(k)(2), 318 and 318B of the Public Health Service Act (42 U.S.C. Sections 247b, 247b(k)(2) and 247c), as amended.

OBJECTIVES:

To assist states, political subdivisions of states, and other public and private nonprofit entities to conduct research, demonstration projects, and provide public information on vaccine-preventable diseases and conditions.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for costs associated with organizing and conducting these projects, and in certain circumstances, for purchasing vaccine. Requests for direct assistance (i.e., "in lieu of cash") for personnel, vaccines, and other forms of direct assistance will be considered. Funds may not be used to supplant existing immunization program activities.

Applicant Eligibility:

Under Section 317(k) of the Public Health Service Act: States, political subdivision of states, and other public and private nonprofit entities.

Beneficiary Eligibility:

Under Section 317(k) of the Public Health Service Act: States, political subdivisions of states, and other public and private nonprofit entities.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operation, describe the evaluation procedures, and provide a budget with justification of funds requested. For nonprofit recipients, costs will be determined in accordance with HHS Regulations 45 CFR 74, Subpart Q. 93.186 NATIONAL RESEARCH SERVICE AWARD IN PRIMARY CARE MEDICINE

Ruth L. Kirschstein National Research Service Award Institutional Research Training Grant (NRSA)

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 487 of the Public Health Service Act, as amended (42 USC 288) and under Federal Regulations 42 CFR 66.

OBJECTIVES:

The purpose of the Ruth L. Kirschstein National Research Service Award program is to prepare qualified individuals for careers that will have significant impact on the nations primary care research agenda and ensure that a diverse and highly trained workforce is available to assume leadership roles in the area of primary health care research. The HRSA NRSA program supports institutional training grants awarded to eligible institutions to develop or enhance postdoctoral research training opportunities for individuals who are planning to pursue careers in primary care research.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

NRSA grants are made to approved institutions to enable them to provide up to five years of fellowship support to qualified postdoctoral individuals undertaking primary care research training. Each NRSA trainee is obligated to comply with federal service and payback provisions. Trainees in the first 12 months of postdoctoral support incur one month of service payback obligation for each month of support. Postdoctoral trainees in the 13th and subsequent months of NRSA support do not incur any further service obligation. In

addition, the 13th and subsequent months of postdoctoral training serve to discharge the NRSA payback obligation. Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Stipends may only be used for cost of living expenses during the period of training.

Applicant Eligibility:

Eligible applicants are those entities that have received a grant under Title VII, sections 736, 739, or 747 of the Public Health Service (PHS) Act designed to prepare the primary health care workforce. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Individuals and public or private nonprofit organizations or institutions, including state or local governments and U.S. Territories. Participants must be U.S. Citizens, non-citizen nationals, or foreign nationals who possess visas permitting permanent residence in the United States. Individuals on temporary or student visas are not eligible. Postdoctoral trainees must have received, as of the beginning date of the NRSA appointment, a Ph.D., M.D., D.O., D.D.S., D.M.D., or comparable doctoral degree from an accredited domestic or foreign institution.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications that must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov. All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

Notification of award is made in writing (electronic) by a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 5-year project period. No individual trainee may receive more than three years of aggregate National Research Service Award support at the post-doctoral level, including any combination of support from institutional and individual awards. See the following for information on how assistance is awarded/released: recipients

draw down funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. Cash reports are not applicable. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this funding opportunity announcement are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award.

Awardee institution project directors are required to complete quarterly conference calls with their project officer. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years from the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3- year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.187 UNDERGRADUATE SCHOLARSHIP PROGRAM FOR INDIVIDUALS FROM DISADVANTAGED BACKGROUNDS

NIH Undergraduate Scholarship Program (UGSP)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title IV, Part G, Section 487D.

OBJECTIVES:

To provide service-conditioned scholarships to individuals from disadvantaged backgrounds who agree to pursue undergraduate education at accredited institutions. Individuals must pursue a course of academic study which prepares them for professions needed by the National Institutes of Health (NIH). NIH expects to facilitate interest of these individuals in pursuing careers in the biomedical/biobehavioral sciences at the NIH.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

This program will provide scholarships to individuals who have completed their first year of studies and are enrolled or accepted for enrollment as full-time students at an accredited 4-year undergraduate institution of higher education and who are from disadvantaged backgrounds. Each recipient must agree by written contract to serve as an NIH employee full-time for not less than 10 consecutive weeks of each year during which the individual is attending the undergraduate institution and receiving a scholarship; and, not later than 60 days after obtaining the educational degree, each recipient must begin serving as a full-time NIH employee for one year for each year of NIH scholarship support (a deferment of the service obligation may be obtained if the Director, NIH, determines that such is appropriate). Applicants must submit a proposed academic program for each academic year and agree that this program will not be altered without prior approval. The applicant must be in good academic (maintain a minimum GPA of 3.3) standing with their educational institution for continuation under the scholarship program. Maximum scholarship per academic year is \$20,000. Scholarship funds may only be used for tuition

expenses and qualified educational and living expenses incurred while attending school.

Applicant Eligibility:

An eligible applicant must be (1) A U.S. citizen, national, or permanent resident; (2) enrolled or accepted for enrollment as a full-time student at an accredited undergraduate institution (4 year school) of higher education; (3) from a disadvantaged background as determined by the Secretary of Health and Human Services; (4) in good academic standing (minimum GPA of 3.3 or be in the top 5 percent) with his/her educational institution; and (5) submit an application to participate in the Undergraduate Scholarship (UGS) Program; (6) agree to serve as a full-time NIH employee for not less than 10 consecutive weeks of each year during which the individual is attending the educational institution and receiving a scholarship; (7) agree to serve as a full-time NIH employee for 12 months for each academic year during which the scholarship was provided, not later than 60 days after obtaining his or her academic degree, unless a service deferment is granted.

Beneficiary Eligibility:

Undergraduate students from disadvantaged backgrounds pursuing academic programs supporting professions needed by the NIH.

Credentials/Documentation:

Applicants must submit documentation of the following, as appropriate: (1) Verification of enrollment or acceptance to a 4-year accredited institution of higher education (4 year school); (2) a proposed academic program for the school year; (3) certification from the academic institution that the applicant is in good academic standing (minimum GPA of 3.3, or be in the top 5 percent); (4) certification from the academic institution that the applicant qualifies for participation in an educational assistance program for individuals from disadvantaged backgrounds as defined by the Secretary of Health and Human Services; and (5) other documentation as may be required by law, statute, or regulation. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Application, a signed contract, and other required information (as listed in the application packet) are submitted to the Program office. Once an application package is received by the administering Program Office, preliminary eligibility will be determined and highly qualified applicants will be interviewed. Final determination of awards will be made upon review by the Undergraduate Scholarship Program Committee at a regularly scheduled meeting.

Award Procedure:

Priority will be given to applicants who are prior recipients. The NIH Undergraduate Scholarship Program Committee will review, rank, and approve or disapprove applications submitted for program participation. Criteria which determine competitive ranking for awards may include: (1) career goal in biomedical/biobehavioral research; (2) academic performance; and (3) letters of recommendation. A student's financial need alone does not affect selection. Applicants approved for award will be notified by the Program Director. The Secretary, and his/her designee will sign the service contract of approved applicants, provide a copy to the participant and undergraduate institution notice of approved award amount. Scholarship payments, including room and board, books, fees and transportation are made to the college or university for dispersal.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The approximate time for approval/disapproval is 3 months.

Appeals:

Not Applicable.

Renewals:

Annual renewal applications are required to extend the award. Extensions of the scholarship awards are subject to availability of funds, acceptable academic and laboratory performance.

Formula and Matching Requirements:

This program has no statutory formula.
Matching requirements are not applicable to this program.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Each award covers 1 calendar year, and may be extended for a maximum of 4 years. No awardee may receive more than 4 years of support. See the following for information on how assistance is awarded/released: Scholarships are disbursed to the student's university at the beginning of each academic term.

Reports:

Not Applicable.

Audits:

Not Applicable.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation.

Account Identification:

CRITERIA FOR SELECTING PROPOSALS:

The NIH Undergraduate Scholarship Program Committee will review, rank, and approve or disapprove applications based on career goals and academic performance. Priority will be given to applicants who have demonstrated good academic performance, demonstrated a career goal to pursue biomedical/biobehavioral research, and have characteristics which support the likelihood they will complete their service obligations.

93.191 GRADUATE PSYCHOLOGY EDUCATION

Graduate Psychology Education (GPE) Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Sections 750 and 756 (a)(2) of the Public Health Service Act (USC 42 USC 294; 294e-1).

OBJECTIVES:

The Graduate Psychology Education Program supports training of doctoral-level psychologists to provide behavioral health care, including substance abuse prevention and treatment services, in a setting that provides integrated primary and behavioral health services to underserved and/or rural populations. Applicants must emphasize the integration of behavioral and primary healthcare into clinical practice.

The program is designed to foster an integrated and interprofessional approach to addressing access to behavioral healthcare for underserved and/or rural populations.

Grants will be awarded to assist eligible entities in meeting the costs to develop, operate, and maintain graduate psychology doctoral programs, internships, and post-doctoral residency programs in health psychology.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Eligible entities are required to provide a budget, with narrative, that includes no less than sixty (60) percent of a recipients overall requested budget (direct and indirect costs) dedicated and distributed as stipends to trainees in practice, internships, and residencies.

Up to forty (40) percent of funding may be dedicated to (1) development or enhancement of didactic and experiential training activities in integrated and team-based care; (2) financial support for the supervision of students, interns, residents and other allowable trainee-related expenses; (3) program administration and management; and (4) data collection.

Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

Public or private nonprofit schools, universities, or other educational entities which provide for graduate psychology education and training or other public or private nonprofit entities capable, as determined by the Secretary, of carrying out the objectives of the project. Eligible entities are American Psychological Association (APA)-accredited doctoral-level schools and programs of health service psychology, APA-accredited doctoral internships in professional psychology, and APA-accredited post-doctoral residency programs in practice psychology.

Federally Recognized Indian Tribal Government and Native American Organizations may apply if otherwise eligible. The eligible entity must demonstrate that the training within an APA accredited psychology training school or program, internship, and post-doctoral residency program will occur in collaboration with two or more health disciplines other than psychology.

Beneficiary Eligibility:

Doctoral students, doctoral interns, and post-doctoral residents receiving a stipend in the GPE Program must be in an APA-accredited program, a citizen of the United States, a non-citizen national of the United States, or a foreign national who possesses a visa permitting permanent residence in the United States. Individuals on temporary or student visas are not eligible participants.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity

issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification of award is made in writing (electronic) through a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120-180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. This program has MOE requirements, see funding agency for further details. The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 3-year project period. See the following for information on how assistance is awarded/released: Recipients draw down funds, as necessary, from the Payment Management System (PMS), the centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. Cash reports are not applicable. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources, and Capabilities, and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.193 URBAN INDIAN HEALTH SERVICES

The Indian Health Service (IHS)

FEDERAL AGENCY:

Indian Health Service, Department of Health and Human Services

AUTHORIZATION:

Indian Health Care Improvement Act, Title V, Public Law 102-572; Indian Health Care Improvement Act, Executive Order Section 503, Title V, Section 511, Public Law 94-437.

OBJECTIVES:

Grants provide health-related services to Urban Indians including: (1) Alcohol and substance abuse prevention, treatment, rehabilitation, and education; (2) Mental health needs assessment and services; (3) Health promotion and disease prevention services; (4) Immunization services; and (5) HIV/AIDS prevention and care. Cooperative Agreement provides services and advocacy for Urban Indian Organizations including: (1) Public policy; (2) Research and data; (3) training and technical assistance; (4) Education, public relations and marketing.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

These grants are limited to established urban Indian health services. The recipient organization must be an urban Indian organization with whom the Secretary has entered into a contract or grant under Title V of the Indian Health Care Improvement Act (25 U.S.C. 1651 et seq). 100% funds under the Urban Indian Health Program are discretionary activities.

Applicant Eligibility:

Urban Indian organizations, as defined by 25 U.S.C. 1603(29), operating a Title V Urban Indian Health Program that currently has a grant or contract with the IHS under Title V of the Indian Health Care Improvement Act, (Pub. L. 93-437).

Beneficiary Eligibility:

Urban Indians residing in the urban centers in which the organization is located.

Credentials/Documentation:

The applicant must provide documentation of: (1) Nonprofit status; and (2) that it has a current contract or grant with the Indian Health Service under Title V of the Indian Health Care Improvement Act. Costs will be determined in accordance with 45 C.F.R. Part 75, Subpart E, 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 45 C.F.R. Part 75, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards (Uniform Guidance) apply to this program

Award Procedure:

Grants are awarded to all eligible organizations based on a competitive grant process. Applications are processed and grants are awarded by Indian Health Service Headquarters. Funding level available to an organization is based on specific criteria in the Indian Health Care Improvement Act to include size of urban Indian population, accessibility to, and utilization of, other health resources available to that population and identification of need for services.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Grants are approved or disapproved within 90 days of receipt of grant applications by the Indian Health Service, Division of Grants Management.

Appeals:

Not Applicable.

Renewals:

Renewal of multi-year cooperative agreements is on a year-to-year basis and requires the submission of continuation applications.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants will be awarded for project periods of up to 3 years. Method of awarding/releasing assistance: quarterly.

Reports:

No program reports are required. Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Division of Payment Management Branch. Depending on services provided, progress and financial reports will be required either quarterly or semi-annually with final performance and financial status reports due 90 after the end of the project period. Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Division of Payment Management Branch. IHS grants are monitored by the Division of Grants Management for financial compliance and by the IHS Program Staff for programmatic compliance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grantees are subject to site visits and audits by the Department of Health and Human Services (DHHS) and other Federal officials.

93.197 CHILDHOOD LEAD POISONING PREVENTION PROJECTS, STATE AND LOCAL CHILDHOOD LEAD POISONING PREVENTION AND SURVEILLANCE OF BLOOD LEAD LEVELS IN CHILDREN

(Childhood Lead Poisoning Prevention Program (CLPPP))

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Executive Order Section 317 (k)(2) and 3171 of the Public Health Service Act, 42 U.S.C. Sections 247b and 247b-10, as amended, Title 42, Part 247b, Section 247b-10.

OBJECTIVES:

To (1) Develop and/or enhance a surveillance system that monitors all blood lead levels; (2) assure that children who are potentially exposed to lead receive follow up care; (3) assure awareness and action among the general public and affected professionals in relation to preventing childhood lead poisoning in high risk areas in collaboration with other government and community based organizations.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Awards are to be used by State and local government agencies to develop, improve, and expand their capacity to address the problem of childhood lead poisoning in communities with demonstrated high-risk populations. Recipients of awards are expected to: (a) write, implement and evaluate a jurisdiction-wide childhood lead poisoning elimination plan; (b) write, implement and evaluate screening plans to target resources to children at the highest risk for lead poisoning; (c) maintain a jurisdiction-wide childhood lead surveillance program, with an analysis plan for collected data, (d) conduct primary prevention activities for pregnant women and/or families with children at high risk for lead poisoning, (e) develop an assurance plan for timely and appropriate case management of children with elevated blood lead levels, (f) demonstrate strategic partnering with community organizations and with other state/local agencies involved in environmental and child health activities, (g) coordinate with organizations and agencies involved in lead-based paint hazard reduction activities and development of protective policy; and (h) evaluate programmatic impact on childhood lead poisoning within the applicant's jurisdiction. Awards cannot supplant existing funding for childhood lead poisoning prevention programs or activities. Grant awards may not be expended for medical care and treatment, or for environmental remediation of lead sources, however, there must be an acceptable plan to ensure that these program activities are appropriately carried out. The surveillance component of this grant is intended to assist State health departments in implementing or enhancing a complete surveillance system to track all PbB levels in children. This is essential for grant recipients to target interventions to high-risk populations and to track progress toward eliminating childhood lead poisoning.

Applicant Eligibility:

Assistance will be provided to State health departments or their bonafide agents and the health departments of the following five local jurisdictions (or their bonafide agents) that have the highest estimated number of children with elevated blood lead levels : New York, NY; Chicago, IL; Detroit, MI; Los Angeles County, CA, and Philadelphia, PA, or their bona fide agents. Also eligible are health departments or other official organizational authorities of the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and federally recognized Indian tribal governments. Competition is limited by authorizing legislation.

Beneficiary Eligibility:

In addition to the eligible applicants, others who receive benefits from the program include infants and children from six months to six years of age who are screened for lead poisoning and family members who care for lead-poisoned children. Lead poisoning potentially affects all children, but disproportionately affects minority children and children of low-income families. Since the effects of lead poisoning can be long lasting, benefits of the program can also affect youth and adults, persons at all educational and income levels, and urban, suburban, and rural populations.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, present their approach to meeting the objectives, and outline the methods of operation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Application forms are both available from and submitted to the Grants Management Branch, Centers for Disease Control and Prevention, 2920 Brandywine Road, Room 3000, Atlanta, GA 30341. Standard application forms, as furnished by CDC and required by 45 CFR 92 must be used for this program. This program is subject to the provisions set forth in 45 CFR 92 for State and local governments.

Award Procedure:

Approved grants are funded based on a priority score ranking from an objective review process coordinated by the Centers for Disease Control and Prevention. CDC will give funding preference to state programs with significant estimated numbers of children with elevated blood lead levels that direct federal funds to localities with high concentrations of children at risk for childhood lead poisoning. CDC will also give funding preference to the five local jurisdictions with the highest estimated number of children with elevated blood lead levels. Awards are made based on availability of funds and other significant factors as deemed necessary and appropriate by the agency. Funds are awarded for a one-year (12 month period). A Notice of Grant Award (Form PHS 5161-1) is provided which indicates the current award as well as support recommendations for the remainder of the project period (up to three years). The Notice of Grant Award indicates allocations for Federal funds by budget categories and any special conditions, if applicable.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 60 to 90 days. From two to three months.

Appeals:

From 60 to 90 days.

Renewals:

From 90 to 120 days. Renewal requests cannot exceed a five year project period. Priority consideration will be given to noncompeting continuation applications.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Financial assistance is provided for a 12-month budget period (July 1 - June 30) with project periods of up to five years subject to the availability of funds and satisfactory progress of the grantee. Method of awarding/releasing assistance: lump sum.

Reports:

Progress reports. Cash reports are not applicable. Refer to the funding opportunity announcement for details. Refer to the funding opportunity announcement for details.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, these grants are subject to inspection and audits by DHHS and other Federal officials.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the project must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for a minimum of 3 years after the end of a budget period. If questions still remain, such as those raised as a result of an audit, records must be retained until completion or resolution of any audit in process or pending resolution. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

CRITERIA FOR SELECTING PROPOSALS:

Applications will be evaluated based upon the applicant's ability to identify populations and communities at high risk and the overall balance of the program's design to address the childhood lead poisoning problem. This requires the development of specific and measurable objectives and a sound operational plan that includes screening of high risk populations, medical and environmental management, lead hazard remediation, and health education and risk reduction activities to appropriately address the problem. Applications also will be evaluated on the ability of the program to carry out childhood lead poisoning prevention program activities utilizing the core public health functions as well as establishing working relations or partnerships with other agencies, organizations or groups that have interest in the prevention of childhood lead poisoning.

93.209 CONTRACEPTION AND INFERTILITY RESEARCH LOAN REPAYMENT PROGRAM

(CIR LRP)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, 42 U.S.C. 288-2, Title IV (National Research Institutes), Part G (Awards and Training), Section 487B (Loan Repayment Program for Research with Respect to Contraception and Infertility), as amended by Public Law 113-235.

OBJECTIVES:

The CIR-LRP is designed to provide an incentive for health professionals to work in areas of reproductive extramural contraception and/or infertility research, which are defined, respectively, as research that has the ultimate goal to provide new or improved methods of preventing pregnancy and research that has long-range objective to evaluate, treat, or ameliorate conditions which result in the failure of couples to either conceive or bear young by providing assistance in repaying educational loans for individuals. The CIR-LRP will pay up to \$35,000 of the principal and interest of a participant's educational loans for each year of commitment not to exceed one-half of the remaining loan balance. In addition to the loan repayments, the CIR-LRP will pay participants 39 percent of the amount paid to lenders as partial payments on the increased income tax liability caused by the Program's loan repayments. In return for these loan repayments, applicants must agree to commit to a period of obligated service of not less than one year for each year of support awarded conducting research with respect to contraception and/or infertility. The long-range objective of the CIR-LRP is to stimulate the commitment of researchers to sustaining a career focus on contraception and/or infertility research, as defined above.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The assistance provided by the CIR-LRP is entirely of a financial nature in the form of loan repayments. The monies provided by this program are restricted to the repayment of pre-existing, qualified loans procured by the participant for educational expenses incurred in the pursuit of undergraduate or graduate degrees.

Applicant Eligibility:

Applicants must be a U.S. citizen (or U.S. national or permanent resident) and a physician, Ph.D.-level scientist, nurse, physician's assistant, graduate student, or postgraduate research fellow training in the health professions. You must commit to conduct contraception and infertility research for 50% of your time (at least 20 hours weekly based on a 40 hour week) for two years and it must be funded by a domestic nonprofit or U.S. Government (Federal, state or local) entity. Also, the research must not be prohibited by Federal law or NIH policy. Complete eligibility information is available at <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-17-079.html>.

Beneficiary Eligibility:

Assistance in the form of loan repayments will be made to qualified health professionals (including graduate students) who are participants in the

CIR-LRP.

Credentials/Documentation:

In order to be considered for selection into the CIR-LRP, eligible applicants must complete and submit the electronic application materials located at www.lrp.nih.gov, which include: (1) a Loan Verification Form for each loan to be considered for repayment; (2) an institutional statement providing assurance that the applicant will be engaged in employment/training at a qualified domestic nonprofit institution (tax-exempt under 26 USC 501) or U.S federal, state or local government entity, for not less than two years from the anticipated effective date of the NIH Loan Repayment Program Contract between the individual and NICHD (this assurance is conducted electronically); and (3) a signed NIH Loan Repayment Program Contract by which the applicant agrees to serve the obligated minimum period, one year for each year of support awarded, conducting contraception and/or infertility research at a qualified domestic nonprofit institution (tax-exempt under 26 USC 501). Renewal applicants may request one-year awards. For these applicants, a one-year institutional statement providing assurance and NIH Loan Repayment Program Contract is sufficient. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Information regarding the CIR-LRP and the preparation of forms for application to the CIR-LRP can be obtained at <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-17-079.html> and by contacting the LRP Info Center at www.lrp.nih.gov, (866) 849-4047 (Mon-Fri 9AM - 5PM Eastern Time) and lrp@nih.gov. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Qualified individuals interested in participating in the CIR-LRP should visit the NIH Loan Repayment Program Website at www.lrp.nih.gov for all application forms and requirements. The application will be evaluated by a Review Committee, convened for this purpose by the Scientific Review Branch, NICHD, NIH, HHS. In selecting applicants for participation in the CIR-LRP, the panel will consider the review criteria listed under Application Review Process at <https://www.lrp.nih.gov/faqs>. All selections are subject to final approval by the Director, NICHD. The NICHD will notify the sponsoring grantee institution and the applicant of the outcome of the review.

Award Procedure:

Once the applicant is selected to participate in the CIR-LRP, the applicant and the Director, NICHD, as a designee of the Secretary of Health and Human Services, will sign a written binding contract stating the terms and conditions for participating in the CIR-LRP. The effective date of the contract will be the date it is signed by the Director, NICHD, or the date employment/training begins at an NICHD-funded Specialized Contraception or Infertility Research Center, whichever is later.

Deadlines:

Sep 01, 2017 to Nov 15, 2017: Dates that the earliest applications will be accepted can be found at <http://www.lrp.nih.gov/index.aspx>. Applications can be received at the deadlines established and announced each year at <http://www.lrp.nih.gov/>.

Range of Approval/Disapproval Time:

Approximately 330 Days. The selection process takes approximately 11 months following the application deadline.

Appeals:

Not Applicable.

Renewals:

A CIR-LRP participant completing the initial 2-year period of obligated service conducting research with respect to contraception and/or infertility has an option to apply annually for a renewal of their contract to extend the obligatory period of service for either one or two years. NOTE: this request will go through the same competitive, peer-reviewed process initial applicants experience.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The CIR-LRP will pay equal quarterly payments to the lenders. Each payment will be made shortly after the end of each full quarter of satisfactory service. Method of awarding/releasing assistance: quarterly.

Reports:

No reports are required.

Audits:

No audits are required for this program.

following criteria: (1) Assessment of the renewal applicants research accomplishments during the previous LRP award period and (2) Assessment of the renewal applicants development as an independent investigator.

93.210 TRIBAL SELF-GOVERNANCE PROGRAM: IHS COMPACTS/FUNDING AGREEMENTS

(OTSG Compacts)

FEDERAL AGENCY:

Indian Health Service, Department of Health and Human Services

AUTHORIZATION:

Indian Self-Determination and Education Assistance Act (ISDEAA), 25 U.S.C. 458aaa; Tribal Self-Governance Amendments of 2000, 42 U.S.C 137.1-450.

OBJECTIVES:

To allow Federally recognized Indian Tribes to enter into an agreement with the Indian Health Service (IHS) to assume full funding and control over programs, services, functions and activities (PSFA) (or portions thereof) that the IHS would otherwise provide for Indians because of their status as Indians. Such assumptions shall be through compact and funding agreement or construction project agreement under Title V of the ISDEAA.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Funds must be spent in accordance with the ISDEAA, applicable regulations and terms of the negotiated compact, funding agreement, or construction project agreement. Per 42 C.F.R. 137.167-168, a Tribe participating in the IHS Self-Governance Program (Self-Governance Tribe) must apply the cost principles of the applicable OMB Circular, except as modified by: (a) 25 U.S.C. 450j-1, (b) other provisions of law, or (c) any exemptions to applicable, subsequent OMB circulars. No other audit or accounting standards shall be required by the Secretary. Per 25 U.S.C 458aaa-7(h) and 42 C.F.R. 137.100, a Self-Governance Tribe may retain and spend interest earned on any funds paid under a compact or funding agreement. Per 42 C.F.R. 137.101, a Self-Governance Tribe must invest and manage the funds as a prudent investor would, in light of the purpose, terms, distribution requirements, and provisions in the compact or funding agreement and ISDEAA Title V. This duty requires the exercise of reasonable care, skill, and caution, and is to be applied to investments not in isolation, but in the context of the investment portfolio and as a part of an overall investment strategy that should incorporate risk and return objectives reasonably suitable to the Self-Governance Tribe. In making and implementing investment decisions, the Self-Governance Tribe must diversify the investments, unless it is imprudent under the circumstances. In addition, the Self-Governance Tribe must: (a) conform to fundamental fiduciary duties of loyalty and impartiality; (b) act with prudence in deciding whether and how to delegate authority and in the selection and supervision of agents; and (c) incur only costs that are reasonable in amount and appropriate to the investment responsibilities of the Self-Governance Tribe.

Applicant Eligibility:

Per 42 C.F.R. 137.18, to be eligible to participate in the IHS Tribal Self-Governance Program (Program), any Federally recognized Indian tribe must: (a) successfully complete the planning phase described in 42 C.F.R. 137.20; (b) request participation in the Program by resolution or other official action by the governing body of each Indian tribe to be served; and (c) demonstrate financial stability and financial management capability for three fiscal years. Per 42 C.F.R. 137.21, the Indian tribe provides evidence that, for the three years prior to participation in the Program, the Indian tribe has had no uncorrected significant and material audit exceptions in the required annual audit of the Indian tribe's self-determination contracts or self-governance funding agreements with any federal agency. Per 42 C.F.R. 137.22, if the Indian Tribe chooses to centralize its self-determination or self-governance financial and administrative functions with non-self-determination or non-self-governance financial and administrative functions, such as personnel, payroll, property management, etc., the Secretary may consider uncorrected significant and material audit exceptions related to the integrity of a cross-cutting centralized function in determining the Indian Tribe's eligibility for participation in the self-governance program. Per 42 C.F.R. 137.26, an Indian tribe does not need to receive a planning or negotiation cooperative

agreement to be eligible to participate in the IHS Tribal Self-Governance Program. An Indian tribe may use other resources to meet the planning requirement and to negotiate. Under 25 U.S.C. 458aaa-2(b)(1), each year, an additional 50 Indian tribes that meet the eligibility criteria are entitled to participate in the IHS Tribal Self-Governance Program.

Beneficiary Eligibility:

Federally-recognized Indian tribes and tribal organizations (as defined in 25 U.S.C. 458aaa-(b)) may benefit.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Per 42 C.F.R. 137.18, to be eligible to participate in the IHS Tribal Self-Governance Program, any Federally recognized Indian tribe must: (a) successfully complete the planning phase described in 42 C.F.R. 137.20; (b) request participation in the IHS Tribal Self-Governance Program by resolution or other official action by the governing body of each Indian tribe to be served; and (c) demonstrate financial stability and financial management capability for three fiscal years. Per 42 C.F.R. 137.21, the Indian tribe provides evidence that, for the three years prior to participation in the IHS Tribal Self-Governance Program, the Indian tribe has had no uncorrected significant and material audit exceptions in the required annual audit of the Indian tribe's self-determination contracts or self-governance funding agreements with any federal agency. Per 42 C.F.R. 137.22, if the Indian Tribe chooses to centralize its self-determination or self-governance financial and administrative functions with non-self-determination or non-self-governance financial and administrative functions, such as personnel, payroll, property management, etc., the Secretary may consider uncorrected significant and material audit exceptions related to the integrity of a cross-cutting centralized function in determining the Indian Tribe's eligibility for participation in the self-governance program.

Per 42 C.F.R. 137.26, an Indian tribe does not need to receive a planning or negotiation cooperative agreement to be eligible to participate in the IHS Tribal Self-Governance Program. An Indian tribe may use other resources to meet the planning requirement and to negotiate. Under 25 U.S.C. 458aaa-2(b)(1), each year, an additional 50 Indian tribes that meet the eligibility criteria shall be entitled to participate in the IHS Tribal Self-Governance Program.

Award Procedure:

Funds are transferred to Indian tribes who have successfully negotiated (1) a compact and funding agreement or (2) a compact, funding agreement, and construction project agreement entered into under ISDEAA Title V.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not applicable.

Appeals:

See 42 C.F.R. 137.410-445 for regulations governing compacts, funding agreements, and construction project agreements entered into under ISDEAA Title V.

Renewals:

Per 42 C.F.R. 137.35, upon approval and execution of an ISDEAA Title V compact, the compact remains in effect for so long as permitted by Federal law or until terminated by mutual written agreement or retrocession or reassignment of all PSFAs. Per 42 C.F.R. 137.55, a funding agreement shall have the term mutually agreed to by the parties. Under 25 U.S.C. 458aaa-4(e), absent

notification from an Indian tribe that it is withdrawing or retroceding the operation of one or more PSFA identified in the funding agreement, the funding agreement shall remain in full force and effect until a subsequent funding agreement is executed.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.
Matching requirements are not applicable to this program.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Not applicable. Method of awarding/releasing assistance: lump sum.

Reports:

See 42 C.F.R. 137.200-207 for reporting requirements for Self-Governance Tribes under ISDEAA Title V. Per 25 U.S.C. 458aaa-6(a)(1) and 42 C.F.R. 137.200, compacts or funding agreements negotiated between the Secretary and a Self-Governance Tribe must include a provision that requires the Self-Governance Tribe to report on health status and services delivery. These reports may only impose minimal burdens on the Self-Governance Tribes; cash reports, progress reports, expenditure reports, and performance monitoring are not applicable; see 42 C.F.R. 137.351 for reporting requirements for construction project agreements. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Per 25 U.S.C. 458aaa-5(c) and 42 C.F.R. 137.165, Self-Governance Tribes must undertake annual audits pursuant to the Single Audit Act, 31 U.S.C. 7501 et seq. Per 42 C.F.R. 137.166, exceptions are described in 31 U.S.C. 7502 of the Single Audit Act.

93.211 TELEHEALTH PROGRAMS

There are eight telehealth programs as follows:

- Telehealth Network Grant Program (TNGP)
- National Telehealth Resource Center Program (NTRC)
- Regional Telehealth Resource Center Program (RTRC)
- Licensure Portability Grant Program (LPGP)
- Evidence-Based Tele-Emergency Network Grant Program (EB-TNGP)
- Rural Child Poverty Telehealth Network Grant Program (RCP-TNGP)
- Substance Abuse Treatment Telehealth Network Grant Program (SAT-TNGP)
- Telehealth Center of Excellence (COE)

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

The Telehealth Network Grant Program (TNGP) is authorized by Sec. 330I(d)(1) of Public Health Service Act (42 U.S.C. 254c-14(d)(1)), as amended. The National Telehealth Resource Center Program (NTRC) is authorized by Sec. 330I(d)(2) of Public Health Service Act (42 U.S.C. 254c-14(d)(2)), as amended and P.L. 114-254. The Regional Telehealth Resource Center Program is authorized by Sec. 330I(d)(2) of Public Health Service Act (42 U.S.C. 254c-14(d)(2)), as amended and P.L. 114-254. The Licensure Portability Grant Program (LPGP) is authorized by Section 330L of Public Health Service Act as amended, (42 USC 254c-18) and the Consolidated and Further Continuing Appropriations Act, 2015 Division G, 203, (P.L. 113-235). The Evidence-Based Tele-Emergency Network Grant Program (EB-TNGP) is authorized by: Section 711(b) of the Social Security Act (42 U.S.C.912), as amended. The Rural Child Poverty Telehealth Network Grant Program (RCP-TNGP), is authorized by Section 330I(d)(1) of the Public Health Service Act (42 USC 254c-14(d)(1)), as amended. The Substance Abuse Treatment Telehealth Network Grant Program (SAT-TNGP) is authorized by Sec. 330I(d)(1) of Public Health Service Act (42 U.S.C. 254c-14(d)(1), as amended and Public Law No. 115-31. The Telehealth Center of Excellence is authorized by Sec. 711(b)(5) of the Social Security Act (42 U.S.C. 912(b)(5)), as amended and Public Law No. 115-31.

OBJECTIVES:

The purpose of the Telehealth Network Grant Program (TNGP) is to fund grants to demonstrate how telehealth networks improve healthcare services in rural communities. The current cohort is focused on telehealth services delivered through school-based health centers/clinics (SBHC), particularly those serving high-poverty populations.

The National Telehealth Resource Center Program (NTRC) and the Regional Telehealth Resource Center Program (RTRC) are designed to expand the availability of technical assistance in the development of telehealth services, leveraging the experience of mature programs with expertise in providing and implementing telehealth services.

The Licensure Portability Grant Program (LPGP) supports state professional licensing boards to carry out programs under which licensing boards of various states cooperate to develop and implement state policies that will reduce statutory and regulatory barriers to the provision of health care services through telemedicine technology.

The Evidence-Based Tele-Emergency Network Grant Program (EB-TNGP)

supports implementation and evaluation of broad telehealth networks to deliver Emergency Department consultation services via telehealth to rural and community providers without emergency care specialists.

The Rural Child Poverty Telehealth Network Grant Program (RCP-TNGP) demonstrates how telehealth networks can improve access to quality health care and social services for children living in high poverty rural and underserved areas.

The Substance Abuse Treatment Telehealth Network Grant Program (SAT-TNGP) will demonstrate how telehealth programs and networks can improve access to health care services, particularly substance abuse treatment, in rural, frontier, and underserved communities.

The Telehealth Center of Excellence (COE) will test the efficacy of telehealth services in rural areas.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Telehealth Network Grant Program (TNGP)

-Funds support the use of telehealth networks (electronic information and telecommunications technologies to support and promote long-distance health care and ancillary services) for improving access to health care services; provide a baseline of information for a systematic evaluation of telehealth systems; purchase or lease and install equipment; and to operate and evaluate the telehealth system.

Overall, not more than 40 percent of grant funds may be expended for equipment. Not more than 15 percent of grant funds may be expended for indirect costs. Grant funds may not be used for purchasing and installing telecommunications transmission equipment (e.g., microwave towers, satellite dishes, amplifiers, digital switching equipment or laying cable or telephone lines) or to acquire real property. Construction costs are allowable only for minor renovations related to the installation of equipment.

National Telehealth Resource Center Program (NTRC) and Regional Telehealth Resource Center Program (RTRC)

- Funds support the establishment and development of Telehealth Resource Centers, which serve as a focus for the provision of telehealth technical assistance across the country. One National TRC will focus on providing specialized technical assistance in telehealth technology. The other National TRC will focus on policy issues such as state and national policies and initiatives regarding telehealth. Twelve Regional Telehealth Resource Centers are located across the United States.

Grant funds are used for salaries, equipment, operating, travel expenses, or other costs for: providing technical assistance, training and support; disseminating information and research findings related to telehealth services; promoting effective collaboration among telehealth resource centers and HRSA; promoting the integration of the technologies used in clinical information systems with other telehealth technologies; fostering the use of telehealth technologies to effectively provide healthcare information and education for health care providers and consumers; and, implementing special projects that involve collaboration among TRCs to advance the field of telehealth.

Grant funds are not used for: acquiring real property; equipment costs of more than 40 percent of total grant funds; for equipment or transmission costs not directly related to the grant purposes; to purchase or install general purpose voice telephone systems; construction costs; and indirect costs exceeding 15 percent of total grant funds.

The Licensure Portability Grant Program (LPGP)

- Grant funds are used for salaries, equipment, software development, operating, or other costs associated with developing legislative, administrative, and technical projects to address licensure barriers that hinder the practice of telemedicine across state lines. Grant funds may also be used for activities involving significant expansion of existing state agreements for cross-state recognition of professional licenses to other states.

Evidence-Based Tele-Emergency Network Grant Program (EB-TNGP)

- Grant funds may be used for salaries, equipment, and operating or other costs, including the cost of:

- 1) Developing and delivering clinical Tele-Emergency services, including telestroke, that enhance access to health care services for residents in rural areas that lack specialized emergency services.
- 2) Developing and acquiring, through lease or purchase, computer hardware and software, audio and video equipment, computer network equipment, interactive equipment, data terminal equipment, and other equipment that furthers the objectives of the Tele-Emergency network grant program;
- 3) Transmitting medical data and maintenance of equipment;
- 4) Compensating emergency clinicians who provide consultative services via telehealth to the rural telehealth sites; and
- 5) Collecting and analyzing statistics and data to document the cost-effectiveness of Tele-Emergency and to participate in the broader evaluation and analysis for this program,

The Rural Child Poverty Telehealth Network Grant Program (RCP-TNGP)

- Grant funds may be used for: salaries, equipment, and operating or other costs, including the cost of:

- 1) Developing and delivering clinical and social services via telehealth to improve the health and well-being of children living in high poverty rural areas;
- 2) Developing and acquiring, through lease or purchase, computer hardware and software, audio and video equipment, computer network equipment, interactive equipment, data terminal equipment, and other equipment that furthers the objectives of the telehealth network grant program;
- 3) Transmitting medical data, and maintenance of equipment;
- 4) Compensating clinicians (including travel expenses), referring health care providers, and social service providers who are providing services to children living in high poverty rural areas through the project, if no third party payment is available; and
- 5) Developing projects that use telehealth technology to facilitate collaboration between health care and social service providers.

Overall, not more than 40 percent of grant funds may be expended for equipment. Not more than 15 percent of grant funds may be expended for indirect costs. Grant funds may not be used for purchasing and installing telecommunications transmission equipment (e.g., microwave towers, satellite dishes, amplifiers, digital switching equipment or laying cable or telephone lines) or to acquire real property. Construction costs are allowable only for minor renovations related to the installation of equipment.

Substance Abuse Treatment Telehealth Network Grant Program (SAT-TNGP)

- The primary purpose of the SAT-TNGP is to support tele-substance abuse treatment and other behavioral health care services with a secondary focus on providing services to address common chronic disease conditions (e.g. congestive heart failure, cancer, stroke, chronic respiratory disease, and/or diabetes).

Overall, not more than 40 percent of grant funds may be expended for equipment. Not more than 15 percent of grant funds may be expended for indirect costs. Grant funds may not be used for purchasing and installing telecommunications transmission equipment (e.g., microwave towers, satellite dishes, amplifiers, digital switching equipment or laying cable or telephone lines) or to acquire real property. Construction costs are allowable only for minor renovations related to the installation of equipment.

Telehealth Center of Excellence (COE)

- The primary purpose of this program is to test the efficacy of telehealth services in rural and urban areas.

Funds under this notice may not be used for the following purposes:

- 1) to acquire real property;
- 2) for expenditures to purchase or lease equipment, to the extent that the expenditures would constitute the majority of the total grant funds;
- 3) to purchase or install transmission equipment (such as laying cable or telephone lines, or purchasing or installing microwave towers, satellite dishes,

amplifiers, or digital switching equipment);

- 4) to pay for any equipment or transmission costs not directly related to the purposes for which the grant is awarded;
- 5) to purchase or install general purpose voice telephone systems;
- 6) for construction, or
- 7) for expenditures for indirect costs (as determined by the Secretary), to the extent that the expenditures would exceed 15 percent of the total grant funds.

Applicant Eligibility:

Telehealth Network Grant Program (TNGP) - Eligible applicants include public and private non-profit entities, including faith-based and community organizations, as well as federally-recognized tribal governments and organizations.

National Telehealth Resource Center Program (TNRC) and Regional Telehealth Resource Center Program (RTRC) - Eligible applicants include public and private non-profit entities. Faith-based and community-based organizations, Tribes, and tribal organizations are eligible to apply.

Licensure Portability Grant Program (LPGP) - Eligible applicants are limited by statute to state professional licensing boards. Note: American Indian and/or Alaska Native Tribal Organizations are eligible provided those organizations meet the eligibility requirements above.

Evidence-Based Tele-Emergency Network Grant Program (EB TNGP) - Eligible applicants include public, private, and non-profit organizations, including faith-based and community organizations, as well as federally-recognized tribal governments and organizations.

The Rural Child Poverty Telehealth Network Grant Program (RCP-TNGP) - Eligible applicants include public and private non-profit entities, including faith-based and community organizations, as well as federally-recognized Indian tribal governments and organizations.

The Substance Abuse Treatment Telehealth Network Grant Program (SAT-TNGP) - Eligible applicants include public and private non-profit entities, including faith-based and community organizations, as well as federally-recognized tribes and tribal governments and organizations.

The Telehealth Center of Excellence Program - Eligible applicants must be public academic medical centers located in states with high chronic disease prevalence, high poverty rates, and a larger percentage of medically underserved rural areas.

Beneficiary Eligibility:

Telehealth Network Grant Program (TNGP)

- Health care providers in rural areas, in medically underserved areas, in frontier communities, and for medically underserved populations. TNGP grantees include in the network at least two (2) of the following entities (at least one (1) of which shall be a community-based health care provider: (a) community or migrant health centers or other federally qualified health centers; (b) health care providers, including pharmacists, in private practice; (c) entities operating clinics, including rural health clinics; (d) local health departments; (e) nonprofit hospitals, including community (critical) access hospitals; (f) other publicly funded health or social service agencies; (g) long-term care providers; (h) providers of health care services in the home; (i) providers of outpatient mental health services and entities operating outpatient mental health facilities; (j) local or regional emergency health care providers; (k) institutions of higher education; or (l) entities operating dental clinics; and (m) school based health centers/clinics.

National Telehealth Resource Center Program (NTRC) and Regional Telehealth Resource Center Program (RTRC)

- Health care providers in rural areas, in medically underserved areas, in frontier communities, and medically underserved populations. The TRCs must support the activities of existing or developing telehealth networks to meet the health care needs of rural or other populations to be served, including the improvement of access to services and the quality of the services received by those populations. American Indian and/or Alaska Native Tribal Organizations are eligible beneficiaries provided those organizations meet the beneficiary

requirements above.

Licensure Portability Grant Program (LPGP)

- State professional licensing boards carry out programs under which licensing boards of various states cooperate to develop and implement state policies that will reduce statutory and regulatory barriers to telemedicine. State licensing boards, their members, and the general public are beneficiaries of the services conducted under this grant.

Evidence-Based Tele-Emergency Network Grant Program (EB TNGP)

- The Tele-Emergency Network shall include at least five members. Network members may include representation from the following categories: Hospitals, including community (critical) access hospitals; Local or regional emergency health care providers; Institutions of higher education with experience in data collection and analysis including but not limited to claims-level data; Medical research institutions; Tertiary providers with specialized experience in emergency medicine, stroke and the use of telehealth services in those clinical areas.

The Rural Child Poverty Telehealth Network Grant Program (RCP-TNGP)

- Health care providers serving rural areas and frontier communities. The RCP-TNGP Network shall include at least two (2) of the following entities (at least one of which shall be a community-based health care provider): Community or migrant health centers or other federally-qualified health centers; Health care providers, including pharmacists, in private practice; Entities operating clinics, including rural health clinics; Local health departments; Nonprofit hospitals, including community access hospitals; Other publicly funded health or human/social service agencies; Long-term care providers; Providers of health care services in the home; Providers of outpatient mental health services and entities operating outpatient mental health facilities; Local or regional emergency health care providers; Institutions of higher education; and Entities operating dental clinics. If available in their area, applicants should consider partnering or collaborating with other federally-funded programs that target or have demonstrable effects on the health of impoverished children living in rural areas, including: USDA Cooperative Extension System Offices; Healthy Start; Healthy Tomorrows Partnership for Children; WIC; Maternal, Infant and Early Childhood Home Visitation programs; Head Start and Early Head Start; Temporary Assistance to Needy Families; Community Action Agencies; and other human/social service-focused providers.

The Substance Abuse Treatment Telehealth Network Grant Program (SAT-TNGP)

- The network must include at least two (2) of the following entities (at least one of which shall be a community-based health care provider): (a) Small hospital (defined as less than 50 available beds, as reported on the hospitals most recently filed Medicare Cost Report); (b) Community or migrant health centers or other federally-qualified health centers; (c) Health care providers, including pharmacists, in private practice; (d) entities operating clinics, including rural health clinics; (e) local health departments; (f) nonprofit hospitals, including community (critical) access hospitals; (g) other publicly funded health or social service agencies; (h) long-term care providers; (i) providers of health care services in the home; (j) providers of outpatient mental health services and entities operating outpatient mental health facilities; (k) local or regional emergency health care providers; (l) institutions of higher education; or (m) entities operating dental clinics. As noted in the Consolidated Appropriations Act 2017 (Public Law No. 115-31), preference will be given to networks that include small hospitals serving communities with high rates of poverty, unemployment, and substance abuse.

The Telehealth Center of Excellence Program (COE)

- Health care providers in rural areas, in medically underserved areas, in frontier communities, and medically underserved populations. The TRCs must support the activities of existing or developing telehealth networks to meet the health care needs of rural or other populations to be served, including the improvement of access to services and the quality of the services received by those populations.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

An applicant should consult the office or official designated as the single point of contact in his or her state for more information on the process the state requires to be followed in applying for assistance, if the state has selected the program for review. There are two FORHP programs that require the respective State Offices of Rural Health to be notified that they are applying, which are the Regional Telehealth Resource Center Program (RTRC) and the National Telehealth Resource Center Grant Program (NTRC). Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications are generally solicited by a notice of funding opportunity in the HRSA Preview.

HRSA requires applicants (for new competitions) or awardees (for continuation applications) to submit applications electronically through Grants.gov.

The program guidance contains detailed application and submission instructions, including information on the non-competitive continuation application and submission process. Awardees must submit proposals according to the program guidance which specifies required forms, and contains additional general information and instructions for grant applications, including proposal narratives, and budgets. The program guidance, when available, may be obtained by: Downloading from <http://www.grants.gov>; or, Contacting the HRSA Grants Application Center: The Legin Group, Inc., 910 Clopper Road, Suite 155 South Gaithersburg, MD 20878, Telephone: 877-477-2123, HRSAAGAC@hrsa.gov. Application information may also be found by visiting <http://www.hrsa.gov/grants/default.htm>.

All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

For FY 2017, new competitions for the NTRC, RTRC, SUD-TNGP and COE will be conducted. All final funding decisions are made by the Associate Administrator, Federal Office of Rural Health Policy, Health Resources and Services Administration, based on recommendations made by the Director, Office for the Advancement of Telehealth. No new competitions are currently planned for FY2018.

Notification is made in writing by a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

2 months.

Appeals:

Not Applicable.

Renewals:

Renewals have not been determined.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Programs are competed every three to four years. Projects awarded under a competition must complete a non-competing continuation application every year to release funds for the following budget period. See the following for information on how assistance is awarded/released: N/A.

Reports:

No program reports are required. No cash reports are required. Six-month Progress Reports are required. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule: <http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrschedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this funding opportunity announcement are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. No expenditure reports are required. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in federal awards are exempt from federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Awardees are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Review (FFR). If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

Account Identification:

75-0350-0-1-550.

Obligations:

(Project Grants) FY 16 \$6,286,264; FY 17 est \$6,240,582; and FY 18 Estimate Not Available - TNGP program. (Project Grants) FY 16 \$1,299,571; FY 17 est \$1,299,552; and FY 18 Estimate Not Available - RCP-TNGP. (Project Grants) FY 16 \$500,000; FY 17 est \$500,000; and FY 18 Estimate Not Available - LPGP program. (Project Grants) FY 16 \$676,850; FY 17 est \$650,000; and FY 18 Estimate Not Available - NTRC program. (Project Grants) FY 16 \$0; FY 17 est \$850,000; and FY 18 est \$850,000 - Telehealth Center of Excellence.

Range and Average of Financial Assistance:

TNGP Awards range from approximately \$283,815,000 to \$300,000, with an

average award of approximately \$295,000.

EB TNGP- FY17 awards range from \$100,000 to \$400,000 with an average award of \$348,714.

LPGP FY17 awards are estimated at \$250,000 per grantee.

NTRC and RTRC FY17 awards are estimated at \$325,000 per grantee.

RCP-TNGP - FY17 awards ranged from \$324,552 to \$325,000 with an average award of \$324,888.

SAT-TNGP FY17 awards are estimated at \$250,000 per grantee.

Telehealth Center of Excellence FY17 award is estimated at \$850,000.

93.213 RESEARCH AND TRAINING IN COMPLEMENTARY AND INTEGRATIVE HEALTH

National Center for Complementary and Integrative Health

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Section 485D , Title VI, Section 601, Public Law 105-277, 112 Stat. 2681-387, 42 U.S.C 281.

OBJECTIVES:

To evaluate complementary health approaches. The following objectives support this goal: (1) coordinate and facilitate the investigation of complementary health approaches through peer-reviewed grant solicitations; (2) interface with the Center's National Advisory Council; (3) conduct technology assessment conferences for the purpose of establishing areas of Clinical and Pre-clinical research that need to be further developed within complementary health approaches; and (4) maintain a comprehensive bibliographic data base in conjunction with the National Library of Medicine.

The National Center for Complementary and Integrative Health (NCCIH) regularly examines and redefines its research priorities. In setting research priorities, NCCIH considers its existing research portfolio, its 5-year strategic plan, the recommendations of the National Advisory Council for Complementary and Integrative Health, current scientific advances, the plans of other NIH institutes and centers, and input from expert panels and stakeholders. Research constituting a rigorous evidence base for complementary health approaches will be developed through a range of research strategies including basic and translational research, and clinical investigation. Priority setting also takes into account: 1) scientific promise, 2) amenability to rigorous scientific inquiry, 3) potential to change health practices, and 4) relationship to use and practice.

Research Approaches

Basic, translational, efficacy and effectiveness research
Complementary health approaches need to be studied across the continuum of basic, translational, efficacy, and effectiveness research. NCCIH continues to emphasize basic research that defines biological effects and mechanisms of action; NCCIH's basic research is aimed at understanding the nature of complementary health approaches such as their biology, physiology, and physical, chemical and behavioral properties. NCCIH also supports the development of tools, models, and methodologies for studying these approaches. NCCIH continues to encourage efficacy studies to determine specific clinical effects of complementary health approaches under carefully controlled conditions that minimize nonspecific and contextual effects. There is also the need to strengthen translational and preliminary clinical research required to design and implement definitive clinical research and "real world" outcomes and effectiveness research that capitalizes on the reality that many complementary health approaches are in widespread public use.

NCCIH's support of translational research addresses the need for valid, reliable and relevant research tools, outcome measures, and innovative methodology to enhance the rigor of complementary health approaches within clinical studies and to ensure that they are maximally informative. NCCIH emphasizes studies that inform the design of future trials such as those that will: develop and validate outcome measures; standardize treatment protocols or algorithms; validate treatment algorithms and/or; develop measures of quality control or treatment fidelity; assess effects of various doses or intervention durations; develop preliminary clinical evidence regarding efficacy and safety to support estimates of sample size; or establish feasibility of interventions or study designs in specific populations for future studies.

NCCIH's clinical research portfolio utilizes clinical trial, case-control, observational, cohort, qualitative, and other experimental methodologies to determine safety and estimate the efficacy of complementary health approaches. The clinical research portfolio includes effectiveness studies of the contribution to improved health and wellness made by complementary health approaches as they are practiced in "real-world" settings.

In general phase III clinical trials will be supported under the cooperative agreement mechanism after careful consideration by NCCIH Staff. Investigators interested in proposing phase III studies are strongly encouraged to contact a relevant NCCIH Program Officer (<https://nccih.nih.gov/tools/emailprogramofficers>)

Areas of Special Interest

Fundamental scientific inquiry is essential to the progress of biomedicine by enhancing the understanding of how living systems work. This understanding serves as a foundation for translational and clinical studies that can lead to improved approaches to the management, treatment, and prevention of diseases and symptoms. One key goal is to advance our understanding of basic biological mechanisms of action of natural products including prebiotics and probiotics. NCCIH will continue to sponsor research on compounds isolated

from natural products as well as complex mixtures from which they originate. Additionally, NCCIH will continue to support research to elucidate the effects of prebiotics and probiotics on the microbiota naturally present in the human body. Another key goal is to advance our understanding of the mechanisms through which mind and body approaches such as meditation, spinal manipulation, massage, yoga, tai chi, hypnosis and acupuncture affect health, resiliency, and well-being. A third key goal is to develop new and improved research methods and tools for conducting rigorous studies of complementary health approaches and their integration into health care. These new methods could catalyze advances in natural product methodology and support development of novel technology and instruments to carry out rigorous research on symptom management and functional changes primarily for mind and body approaches. To improve care for hard-to-manage symptoms such as pain, anxiety, and depression, both mind and body practices and natural products will be rigorously studied using well-established methodology. NCCIH will also support studies in "real world" clinical settings to test the safety and efficacy of complementary health approaches, including their integration into health care. Individual behavior plays a key role in health promotion and disease prevention. It is well established that adopting and maintaining healthy behaviors (diet and exercise) and modifying unhealthy behaviors reduces risks of major chronic diseases. NCCIH will investigate mechanisms of action of complementary and integrative health approaches in health resilience and practices that improve health and prevent disease. These approaches will be studied across the lifespan and in diverse populations. NCCIH will also explore research opportunities to study and access the safety and efficacy of complementary health approaches in nonclinical settings such as community- and employer-based wellness programs.

Top Scientific Priorities

The top scientific priorities include the nonpharmacologic management of pain, neurobiological effects and mechanisms, innovative approaches for establishing biological signatures of natural products, disease prevention and health promotion across the lifespan, and clinical trials utilizing innovative study designs to access complementary health approaches and their integration into health care. Pain is the condition for which adults in the United States most often use complementary and integrative health approaches. Growing evidence indicates that some complementary health approaches may help in its treatment and management. Discovering the mechanisms by which a complementary approach exerts its effects could help in the design of better treatments and predict which people are most likely to respond. Whether and how complementary health approaches directly modulate or modify the structure and/or the function of the entire or part of the nervous system remains understudied. Advances in genomics, neuroscience, stem cells, systems biology, and neuroimaging offer excellent conceptual resources and opportunities for innovative and impactful mechanistic studies of complementary health approaches. The purpose of innovative approaches for establishing biological signatures of natural products is to advance the characterization of the biologic activity of complex natural products broadly with an emphasis on determining metabolic profiles. There has been a growing interest in the use of complementary health approaches for the prevention of mental, emotional, and behavioral disorders and for the promotion of psychological and physical health, well-being, and resilience. However, the evidence for the use of complementary modalities in the context of prevention and health promotion is modest. Rigorously designed, developmentally appropriate studies are needed to determine the efficacy and effectiveness of complementary health approaches for health promotion and disease prevention across the lifespan.

Early Stage and New Investigators

NCCIH is strongly committed to assisting new and early stage investigators in establishing a research career. Early stage investigators are those within 10 years of completing their terminal research degree, or their medical residency, or its equivalent. New investigators are those who have yet to compete successfully for a substantial (e.g., R01) NIH research grant. Each Advisory Council round, based on available funds, NCCIH: 1) will consider early stage or new investigator status as one of the criteria for designating grant applications as being of high program priority and 2) may make additional R01 grant awards to new and early stage investigators with percentiles or scores out of payline order.

NCCIH continues to accept applications in areas not listed as a specific priority

area via the investigator initiated funding opportunities. All investigators are urged to discuss potential applications with the relevant NCCIH Program Officer (<https://nccih.nih.gov/tools/emailprogramofficers>).

TYPES OF ASSISTANCE:

PROJECT GRANTS; TRAINING

USES AND USE RESTRICTIONS:

Research Grants provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation relevant to program objectives. Individual National Research Service Awards (NRSA) are made to individuals for research training in specified biomedical shortage areas. In addition, grants may be made to institutions to enable them to make NRSA to individuals selected by them. Each individual who receives a NRSA is obligated upon termination of the award to comply with certain service and payback provisions. Small Business Innovation Research (SBIR) Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. Small Business Technology Transfer (STTR) Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application.

Applicant Eligibility:

Universities, colleges, hospitals, laboratories, and other public or private nonprofit domestic institutions, including State and local units of government, and individuals are eligible to make application for grant support of research by a named principal investigator or a research career development candidate. For-profit organizations are also eligible, with the exception of NRSA. Individual NRSA awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All NRSA awardees must be citizens or have been admitted to the United States for permanent residence. To be eligible, predoctoral candidates must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., ND, DC, D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is being proposed and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which researches proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

Credentials/Documentation:

Each applicant for research projects must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. For SBIR and STTR grants, the applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Individual NRSA applications for postdoctoral training must include the candidate's academic record, research

experience, citizenship, institutional sponsorship, and the proposed area and plan of training. Institutional Training grant applications for predoctoral and postdoctoral training must show the objectives, methodology and resources for the research training program; the qualifications and experience of directing staff; the criteria to be used in selecting individuals for stipend support; and a detailed budget and justification for the amount of grant funds requested. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, Part 74, Subpart Q. Grant form PHS 398 is used to apply for SBIR and STTR Phase I Phase II and Phase I/Phase II Fast Track. OMB Circular No. A-87 applies to this program. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Research grants: Single project grant applications must be prepared electronically through grants.gov (<http://www.grants.gov>) using the SF 424 (Research and Research-Related) and PHS 398 instructions. Multi-project grant applications must be submitted through the A.S.S.I.S.T (Application Submission System & Interface for Submission Tracking) system. Individual funding opportunity announcements will indicate the appropriate application format to be used. A listing of NCCIH and other funding opportunities can be found through the NCCIH web site (<http://www.nccih.nih.gov/grants/funding>), through the Grants.gov web site (<http://www.grants.gov/>), or on the NIH Guide to Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>). For applications that require the PHS 398, the most recent version of the form and instructions are available at <http://grants.nih.gov/grants/funding/phs398/phs398.html> in an interactive format. Electronic applications are submitted through the Grants.gov website. Completed PHS 398 applications should be submitted to the National Institutes of Health, Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710 or Bethesda, MD 20817 (for express/courier service). For assistance contact GrantsInfo, Telephone: (301) 435-0714, Email: GrantsInfo@nih.gov. National Research Services Awards: Completed application forms should be submitted to the Office of Research Manpower, Center for Scientific Review, Grants, National Institutes of Health, Bethesda, MD 20892. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Research Funding Opportunities" web page at <http://grants1.nih.gov/grants/funding/sbir.htm>. A limited number of hard copies of these publications are produced. Subject to availability, they may be obtained by contacting the NIH support services contractor: Telephone: (301) 206-9385; Fax: (301) 206-9722; E-mail: a2y@cu.nih.gov. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms. SBIR and STTR grant applications should be submitted to the Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710. Application forms for SBIR and STTR grants may be obtained through the SBIR/STTR funding announcements posted on the Grants.gov sites and the NIH Guide to Grants and Contracts (see URLs listed above). All SBIR and STTR applications must be submitted electronically. Electronic applications are submitted through the Grants.gov website. This program is subject to the provisions of 45 CFR Part 92 for State and local governments, OMB Circular No. A-110 for nonprofit organizations, cost principles of A-21 for educational institutions, and 42 CFR Part 42.

Award Procedure:

Award Procedure: All accepted applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score ranging from the best (10) to worst (90) compete for available funds based on scientific merit, program relevance, and program balance and are made annually. Initial award provides funds for the first budget period (usually 12 months) and Notice

of Grant Award (Form PHS 1533) indicates support recommended for remainder of project period, allocation of Federal funds by budget categories, and special conditions, if any. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Overall from 120 to 300 days. Research Grants and Cooperative Agreements: Approximately 6-10 months; National Service Research Awards: 6-9 months; SBIR/STTR awards 6-7 months.

Appeals:

A Program Director/Principal Investigator (PD/PI) may question the substantive or procedural aspects of the review of his/her application by submitting an appeal. An appeal is a written communication from a PD/PI and/or applicant institution that meets the following four criteria: 1) is received after issuance of the summary statement and up to 30 calendar days after the second level of peer review, 2) describes a flaw or perceived flaw in the review process for a particular application, 3) is based on one or more of four allowable issues (described below), and 4) displays concurrence from the Authorized Organization Representative (AOR). The four allowable issues are (1) evidence of bias on the part of one or more peer reviewers; (2) conflict of interest, as specified in regulation at 42 CFR 52h.5. Scientific Peer Review of Research Grant Applications and Research and Development Contract Projects, on the part of one or more peer reviewers; (3) lack of appropriate expertise within the SRG; and (4) factual error(s) made by one or more reviewers that could have altered the outcome of review substantially. A description of the NIH Peer Review Policy and Procedures is available at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Research grants: renewals by competitive application and review. Extension by request and administrative action. National Research Service Awards: individual awards may be made for 1, 2, or 3 years. No individual may receive NIH fellowship support at the postdoctoral level for more than 3 years.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Project Grants: Awards are usually made for a 12-month period with recommendation of up to 4 years of additional support. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. See the following for information on how assistance is awarded/released: The Notice of Award (NoA) is the legal document issued to notify the grantee that an award has been made and that funds may be requested from the designated HHS payment system or office. An NoA is issued for the initial budget period. If subsequent budget periods are also approved, the NoA will include a reference to those budgetary commitments. Funding for subsequent budget periods are generally provided in annual increments following the annual assessment of progress. This funding is also contingent on the availability of funds. The NoA includes all applicable terms of award either by reference or specific statements. It provides contact information for the assigned program officer and grants management specialist. The grantee accepts an NIH award and its associated terms and conditions by drawing or requesting funds from the Payment Management System, or upon the endorsement of a check from the US Treasury for foreign awardees. Method of awarding/releasing assistance: lump sum.

Reports:

Final progress reports must be submitted within 90 days after the expiration of

the award. The progress reported in a competitive renewal application may be accepted in lieu of a final progress report. The final progress report should include (at a minimum): summary of progress toward the achievement of the originally stated aims; list of results (positive or negative) considered significant; list of publications resulting from the project as well as plans for further publications' and copies of manuscripts that have been accepted for publication, but not yet published. No cash reports are required. Project Grants: Expenditures and other financial records, including documents supporting accounting records and substantive charges to each grant, must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period. The Federal Financial Report (FFR) is due 120 days after the final day of the project period. NRSAs: Documentation of expenditures and other fiscal records must be kept readily available for examination by authorized Government personnel and must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period. Reports are required after termination of NRSAs to ascertain compliance with service and payback provisions. Expenditure reports on a quarterly basis are sent to the data warehouse. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. For specific audit requirements, please see 45 CFR 75.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual financial status reports (FSR) is submitted. For awards under the Streamlined Non-competing Award Process (SNAP) (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 for record retention and access requirements for contracts under grants. In accordance with 45 CFR 75 the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) the scientific merit innovation and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; (6) the relevance and importance to the announced program objectives and when applicable, and (7) the adequacy of assurances detailing the proposed means for safeguarding human or animal subjects. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.217 FAMILY PLANNING SERVICES

Title X Family Planning Services

FEDERAL AGENCY:

Office of Population Affairs, Department of Health and Human Services

AUTHORIZATION:

Title X Statute and Regulations: Requirements regarding the provision of family

planning services under Title X can be found in the statute (Title X of the Public Health Service Act, 42 U.S.C. 300 et seq.) and in the implementing regulations which govern project grants for family planning services (42 CFR part 59, subpart A.), 42 U.S.C. 300 et seq.

OBJECTIVES:

To provide educational, counseling, comprehensive medical and social services necessary to enable individuals to freely determine the number and spacing of their children, and by so doing helping to reduce maternal and infant mortality, promote the health of mothers, families and children.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants must be used for family planning services including contraceptive services, infertility services and special services to adolescents. Family planning services include information on all medically approved methods of contraception including natural family planning methods; counseling services, physical examinations including cancer detection and laboratory tests; STD and HIV prevention education, screening and referral; contraceptive supplies, and periodic follow-up examinations. Infertility services include assessment, information, education, and arrangements for referral if necessary. Special services to adolescents include in-depth information, education including abstinence education counseling, and referral to and from other social and medical service agencies, and such ancillary services as are necessary to facilitate clinic attendance for adolescents who need contraceptive services. These family planning services must be available without coercion and with respect for the privacy, dignity, social and religious beliefs of the individuals being served. To the extent possible, entities which receive grants under this subsection shall encourage family participation in projects assisted under this subsection. Priority in the provision of services will be given to persons from low-income families. Funds may not be used in programs where abortion is a method of family planning. Funds may not be used for purchase or construction of buildings; salaries of personnel paid from other Federal grant funds; and certain other miscellaneous items as specified in the regulations.

Applicant Eligibility:

Any public (including city, county, local, regional, or State government) entity or nonprofit private entity located in a State (including the District of Columbia, Puerto Rico, Guam, the Commonwealth of the Northern Mariana Islands, American Samoa, the Virgin Islands, the Federated States of Micronesia, the Republic of Marshall Islands and the Republic of Palau) is eligible to apply for a grant. Faith based organizations are eligible to apply.

Beneficiary Eligibility:

Persons who desire family planning services and who would not otherwise have access to them. Priority to be given to persons from low-income families. Individuals from other than low-income families will be charged a fee in accordance with an established fee schedule although inability to pay must not be a deterrent to services.

Credentials/Documentation:

A nonprofit private entity must provide evidence of its nonprofit status. Allowability of costs charged to the grant will be determined in accordance with the following cost principles: OMB Circular No. A-21 for educational institutions, OMB Circular No. A-87 for state and local governments, and OMB Circular No. A-122 for non-profit organizations. OMB Circular No. A-87 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this

program. Applications must be submitted through grants.gov. The standard application forms, as furnished by PHS and required by 45 CFR 74 (for institutions of higher education, hospitals, and other non-profit organizations), and 45 CFR 92 (for state and local governments) must be used for this program. This program is subject to the provisions of 45 CFR 74, 45 CFR 92, as well as OMB Circular No. A-102 (Administrative Guidelines for state and local governments) and OMB Circular No. A-110 (Administrative Guidelines for Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations).

Award Procedure:

Final award decisions will be made by the Regional Health Administrator (RHA) for the applicable Public Health Service Region, in consultation with the Deputy Assistant Secretary for Population Affairs (DASPA) and the Assistant Secretary for Health (ASH) or their designees. In making final award decisions, the RHA, DAASPA and ASH will take into considerations the following additional criteria:

- The geographic distribution of services within the identified service area as described in the application, including consideration of whether the area is best served by a single or multiple grantees and the focus on providing services to areas in need of Title X and subsidized family planning services.
- The extent to which funds requested for a project maximize access for the population in need within the entire services area as announced in Table 1 (of the FOA);
- The extent to which projects that rely on subrecipients to provide services can provide the required services and best serve the individuals in need throughout the anticipated service area; and
- The extent to which projects best promote the purposes of Section 1001 of the Public Health Service Act, within the limits of funds available for such projects.

Following approval by the Regional Health Administrator, the Office of Grants Management, OASH prepares a Notice of Award, secures necessary clearances and approval signatures, issues the Notice of Award, and provides notification of grant approval to the public.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. From 90 to 270 days.

Appeals:

Not Applicable.

Renewals:

> 180 Days. Projects are generally given commitments of funding for 3 years. Projects must submit a continuation application each non-competitive year which includes, at a minimum, a progress report and evidence of plan compliance.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants are generally approved for a project period of 3 years. Grants may be approved for a budget period not to exceed 12 months. Method of awarding/releasing assistance: by letter of credit.

Reports:

Annual Program reports are required. Quarterly SF425 Federal Financial Reports must be submitted to Payment Management Services 30 days after the end of each calendar quarter. Progress reports are required for each budget period. Quarterly SF425 Federal Financial Reports must be submitted to the Office of Grants Management 30 days after the end of each calendar quarter and an annual FFR 90 days after the end of the budget period/project period end date. Reports are to be submitted electronically through GrantSolutions. A final performance report is due 90 days following the end of the project period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

HHS and the Controller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers or other records of a grantee, subgrantee, contractor, or subcontractor, which are pertinent to the HHS grant, in order to make audits, examinations, excerpts and transcripts. In accordance with 45 CFR 75, grantees are required to maintain grant accounting records 3 years after the end of a budget period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.220 CLINICAL RESEARCH LOAN REPAYMENT PROGRAM FOR INDIVIDUALS FROM DISADVANTAGED BACKGROUNDS

(NIH Clinical Research Loan Repayment Program; CR LRP)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title IV, Part G, Section 41631, Public Law 100-43, 288-5 U.S.C.

OBJECTIVES:

To recruit and retain health professionals from disadvantaged backgrounds to conduct clinical research at the National Institutes of Health (NIH) by providing for the repayment of educational loans for participants with substantial amounts of educational debt relative to income, who agree by written contract to engage in clinical research as employees of the NIH for a minimum two-year period.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged, as employees of the NIH, in clinical research. Recipients must agree by written contract to engage in such research, initially, for a minimum of 2 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. One-year continuation contracts are available, dependent upon the level of debt and continued involvement in clinical research. Maximum program benefit is \$35,000 per year in loan repayments and \$13,650 per year in Federal tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold." An amount equal to half of this "debt threshold" will not be repaid by NIH and must be paid by the Program participants.

Applicant Eligibility:

Eligible applicants must: (1) Be a citizen, national, or permanent resident of the United States; (2) possess a M.D., Ph.D., D.O., D.D.S., D.M.D., D.V.M., D.P.M., A.D.N., B.S.N., or equivalent degree; or hold the position of Physician Assistant; (3) come from a disadvantaged background as determined by the Secretary of Health and Human Services; (4) have qualified educational debt, which results from governmental or commercial loans obtained to support their undergraduate and/or graduate education, in excess of 20 percent of their annual NIH salary on the program eligibility date; (5) be appointed under any temporary or permanent employment mechanism in the Intramural Research Program of the NIH, so long as their employment has the potential to last a minimum of 2 years; (6) are not eligible to participate in the CR-LRP if they have an existing service obligation to Federal, State, or other entities, until such obligation is discharged or unless it is deferred during the period of program service; (7) submit an application to participate in the CR-LRP; and (8) sign and submit to the Secretary of Health and Human Services, at the time of agreeing to accept repayment of educational loans, a contract agreeing to engage in clinical research as an employee of the NIH for a minimum of 2 years.

Beneficiary Eligibility:

Clinical researchers from disadvantaged backgrounds who have unpaid educational loans will benefit from this program.

Credentials/Documentation:

Applicants must submit documentation of the following, as appropriate: (1) Copies of loan applications and agreements from governmental or commercial educational loans which are being submitted for repayment; (2) copies of the standard student budget from each school attended during period when debt was incurred; (3) copies of recommendations, special skills, certifications, or other copies of loan documentation; (4) certification from the school(s) attended that the applicant qualified for participation in an educational assistance program for individuals from disadvantaged backgrounds which are sponsored by the Secretary of Health and Human Services or self-certification describing circumstances which qualify him/her under the Secretary's definition of an individual from a disadvantaged background; and (5) other documentation as may be required by law. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from

coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants must access and submit the Loan Repayment Program application electronically via the website www.lrp.nih.gov; seek qualified employment with a sponsoring Institute or Center (IC) of the NIH. Once an application has been submitted, the Loan Repayment Committee reviews it at a regularly scheduled review meeting and a determination of loan repayment recipients is made.

Award Procedure:

The NIH Loan Repayment Committee (LRC) will review, rank, and approve or disapprove applications recommended for program participation by each Institute or Center (IC). Applications approved for program participation by the LRC will be notified by the Program Director. The Secretary, or his designee, will sign the service contract of program participants, provide a copy to the participant, and notice of the amount of approved loan repayment.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. The approximate time for approval/disapproval is 3 months.

Appeals:

From 90 to 120 days. Employees of the NIH who are not approved as a result of this process may ask for reconsideration through the standard appeal procedures available to employees.

Renewals:

From 90 to 120 days. At the conclusion of the initial 2-year contract, participants may apply and be recommended for subsequent 1-year continuation contracts under the application and approval procedures specified above.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 2-year period. One-year, continuation contracts are available for individuals whose educational debt exceeds the maximum repayable amount for 2 years and whose renewal ranking scores within the funding range. Payments are made directly to lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and Secretary of Health and Human Services. Method of awarding/releasing assistance: quarterly.

Reports:

Program participants must be certified quarterly as to having satisfactorily performed their research assignments. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

No audits are required for this program.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation. Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See

45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

Fiscal Year 2017: In 2017, there no funded Clinical Research Loan Repayment Program projects submitted from Individuals from Disadvantaged Backgrounds that focused on qualified approved research within the clinical and translational areas that contribute to the NIH Mission. Fiscal Year 2018: In 2018, the funded

projects will focus on qualified approved research within the clinical and translational areas that contribute to the NIH Mission.

CRITERIA FOR SELECTING PROPOSALS:

Applicants are approved for participation in the NIH Clinical Research Loan Repayment Program after the LRC determines that the applicant will conduct qualified clinical research and qualifies as being from a disadvantaged background. LRC approval, in part, is based upon the scientific merit of the research and the credentials of the applicant as they relate to performing qualified clinical research.

93.223 DEVELOPMENT AND COORDINATION OF RURAL HEALTH SERVICES

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Social Security Act, Section 711, as amended, (42 U.S.C. 912).

OBJECTIVES:

For the development and coordination of rural health services. To establish and maintain an information center for collecting and disseminating information on rural health care issues, research findings relating to rural health care and innovative approaches to the delivery of health care in rural areas.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

All funds awarded are to be expended solely for carrying out the approved activities in accordance with the intent of the cooperative agreement as stipulated in the notice of award.

Applicant Eligibility:

Public or private entities with a service commitment to and experience with rural issues at a national level. Applicant must directly employ a project director with a professional record in national rural health and/or social services policy issues, and directly employ staff for the Information Center, with exceptions only through written agreement with ORHP.

Beneficiary Eligibility:

The rural health information clearinghouse is a gateway to information on rural health and social services for residents in rural areas of the United States and for all others interested in these issues.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

Notification is made in writing by a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Up to 6 months.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Awards are made annually for a project period of up to 5 years. See the following for information on how assistance is awarded/released: Awardees drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule:

<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrschedule.pdf>. A final report is due within 90 days after the project period ends.

If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. No cash reports are required. Progress reports are not applicable. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Awardees are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.224 HEALTH CENTER PROGRAM (COMMUNITY HEALTH CENTERS, MIGRANT HEALTH CENTERS, HEALTH CARE FOR THE HOMELESS, AND PUBLIC HOUSING PRIMARY CARE)

Health Center Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, (42 U.S.C. 254b), Section 330(e), (g), (h), and (i), as amended by sec. 5601 of P.L. 111-148.

OBJECTIVES:

To improve the health of the Nation's underserved communities and vulnerable populations by assuring access to accessible, affordable, quality primary health care services. To continue comprehensive, primary health care services in areas already supported by the Health Center Program. Individual health center grant mechanisms include: (1) Community Health Centers; (2) Migrant Health Centers; (3) Health Care for the Homeless; and (4) Public Housing Primary Care Program.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Applications should be designed to improve the availability, accessibility, and provision of primary health care services. Refer to the applicable notice of opportunity under this CFDA number for additional information.

Applicant Eligibility:

Eligible applicants are public and non-profit private entities, including federally recognized Indian tribal governments and Native American, faith-based, and community-based organizations that have the capacity to effectively administer the grant.

Beneficiary Eligibility:

Population groups in medically underserved areas, medically underserved populations, and special populations such migratory and seasonal agricultural workers, people experiencing homelessness, and public housing residents.

Credentials/Documentation:

Applicants should review the applicable HRSA notice of funding opportunity (NOFO) issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Notification is made in writing by a Notice of Award (NoA).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 days to up to 6 months.

Appeals:

Not Applicable.

Renewals:

Awards to support projects beyond the first budget year of the project period will be contingent upon Congressional appropriation, compliance with applicable statutory and regulatory requirements, demonstrated organizational capacity to accomplish the project's goals, satisfactory performance, and a determination that continued funding would be in the best interest of the federal government.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Awards are made annually. After awards are issued, funds are released in accordance with HHS payment procedures, which may be through an Electronic Transfer System or a Monthly Cash Request System. See the following for information on how assistance is awarded/released: Awardees

draw down funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

Annual progress reports and Uniform Data System reports are required. The awardee will be required to submit federal financial reports (see the NOFO and Notice of Award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) is due according to the following schedule:

<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrschedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. Expenditure reports are not applicable. Performance Monitoring includes review of annual progress and data reports and routine site visits.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Awardees are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.225 NATIONAL RESEARCH SERVICE AWARDS HEALTH SERVICES RESEARCH TRAINING

FEDERAL AGENCY:

Agency for Healthcare Research and Quality, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Public Law 115-31.

OBJECTIVES:

To provide predoctoral and postdoctoral training opportunities in health services research. Individual fellowships will be awarded directly to applicants for postdoctoral research training. Domestic institutions will also be awarded grants to enhance predoctoral and postdoctoral training programs and provide support to trainees selected by them. The purpose of these awards is to provide fellows and trainees with both academic training and actual experience in the application of research methods to the systematic analysis and evaluation of the organization, financing, utilization, and delivery of health care services.

TYPES OF ASSISTANCE:

Training

USES AND USE RESTRICTIONS:

Fellowship support is available for full-time health services research training. An institutional allowance is provided to the sponsoring institution for each fellow. Also, research training grants are awarded to institutions to provide support to trainees selected by the training program director at the grantee institution. This support is available for predoctoral and postdoctoral trainees. Offsets for tuition and fees are allowable for trainees, and an amount for training related expenses will be provided. For fellowship and training grants issued under this program, the indirect costs will be capped at 8% MTDC. Postdoctoral fellows and trainees in the first 12 months of postdoctoral NRSA support incur one month of payback obligation for each month of support. The thirteenth and subsequent months of postdoctoral NRSA support are considered payback service for prior postdoctoral support. Predoctoral fellows and trainees do not incur a service payback obligation.

Applicant Eligibility:

Domestic public or private nonprofit organizations or institutions may apply for training grants. The applicant institutions must have or expand training programs designed to develop competent investigators in the methods and techniques of conducting health services research. State or local governments and U.S. Territories are eligible. Profit-making organizations are not eligible. Individual applicants for postdoctoral fellowships must have received a clinical or research doctoral degree. All persons supported as fellows or trainees must be citizens or noncitizen nationals of the United States, or have been lawfully admitted for permanent residence.

Beneficiary Eligibility:

Individuals and public or private nonprofit organizations or institutions.

including State or local governments and U.S. Territories, are the beneficiaries of this program.

Credentials/Documentation:

An individual applicant for a postdoctoral fellowship must document receipt of a doctoral degree and acceptance by an appropriate institutional sponsor. Institutional applicants for training grants must document their research and training experiences, staff, curriculum, facilities, and other resources available. Costs will be determined in accordance with HHS Regulations 45 CFR Part 75. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Information about health services research areas being supported is available from AHRQ. Individual fellowship applicants and institutions should submit Form SF 424 R&R. For State agencies, no State Plan is required. For State and local governments, the standard forms, as furnished by PHS and required by 45 CFR Part 75, may be used.

Award Procedure:

Applications are reviewed for scientific merit by a committee including nonfederal consultants who are selected from appropriate scientific fields. AHRQ considers the recommendations of the review committee, program interest, and the availability of funds in the final selection of grantees. When such decisions are made, applicants are notified and a Notice of Award is issued. Before receiving support, all individual fellows and institutional postdoctoral trainees must submit required forms, including a payback agreement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days.

Appeals:

Not Applicable.

Renewals:

If additional support is desired to continue a grant beyond the approved project period, an application for competing continuation must be submitted for review in the same manner as a new application. Generally, no individual may receive more than 3 years of aggregate National Research Service Award support at the postdoctoral level, or 5 years at the predoctoral level, including any combination of support from institutional and individual awards.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally, no individual may receive more than 3 years of aggregate National Research Service Award support at the postdoctoral level, or 5 years at the predoctoral level, including any combination of support from institutional and individual awards. Institutional training grants may be awarded for project periods up to 5 years. Awards are made on an annual basis and it is expected that obligations will be made within the budget period awarded. After awards are issued, funds are released in accordance with the payment procedure established by the grantee with DHHS, which may be an Electronic Transfer System or a Monthly Cash Request system. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Grantees must submit quarterly SF425 reports to PSC. Annual and final progress reports are required. For Institutional Training Grants, a final progress report is due at the close of the project period.

Annual reports of activities for tracking payback provisions are required of all fellows and trainees upon termination of support. Annual and final Federal Financial Reports (FFR; SF425) are required for Institutional National Research Service Awards. Annual FFRs must be submitted within 90 days after the end of the calendar quarter in which the budget period ends. The final FFR must be submitted within 90 days after the end date of the project period. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants records are subject to audit and inspection by Federal auditors.

Records:

Records must be retained for at least three years; records shall be retained beyond the three year period if audit findings have not been resolved. Records relating to individual payback obligations are retained for one year after the individual has fulfilled or has been excused from fulfilling the payback obligation.

Account Identification:

For Individual fellowship applications, the following review criteria will be used: (1) The applicant's past academic and research accomplishments; (2) research goals; (3) research training proposed; (4) qualifications of the sponsor; (5) appropriateness of training environment; and (6) reference reports. For Institutional training grant applications, the following review criteria will be used: (1) goals of the proposed training and probability of achievement; (2) substantive content, including courses offered; (3) qualifications and responsibilities of program director and faculty; (4) ability to recruit trainees; (5) extent of institutional participation through provision of necessary space, curriculum time, financial support, and appropriate facilities; (6) documented

cooperation of related agencies in providing research experience; (7) proposed number of students; (8) methods for monitoring and evaluating trainees; and (9) reasonableness of budget. In all cases, AHRQ will consider the recommendations of the review committee, the Council program interests, and availability of funds in making the final selection of grantees.

93.226 RESEARCH ON HEALTHCARE COSTS, QUALITY AND OUTCOMES

FEDERAL AGENCY:

Agency for Healthcare Research and Quality, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title IX, Public Law 106-129, 42 U.S.C 299 ff; Affordable Care Act, Public Law 111-148.

OBJECTIVES:

To support research and evaluations, demonstration projects, research networks, and multidisciplinary centers and to disseminate information on health care and on systems for the delivery of such care involving: (1) The quality, effectiveness, efficiency, appropriateness and value of health care services; (2) quality measurement and improvement; (3) the outcomes, cost, cost-effectiveness, and use of health care services and access to such services; (4) clinical practice, including primary care and practice-oriented research; (5) health care technologies, facilities and equipment; (6) health care costs, productivity, organization, and market forces; (7) health promotion and disease prevention, including clinical preventive services; (8) health statistics, surveys, database development, and epidemiology; and (9) patient safety research, including healthcare-associated infections. In support of this research, the Agency has a special interest in health care and its delivery in the inner city, in rural areas, and for priority populations (low-income groups, minority groups, women, children, the elderly, and individuals with special health care needs).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The research should contribute to the health services knowledge base from which empirically based information can be derived by policymakers, both immediately and over the coming decades. Grants include funds for direct costs (such as personnel, travel, equipment, or supplies) necessary to carry out an approved project as well as funds for the reimbursement of applicable indirect costs (also referred to as facilities and administrative costs). Unallowable costs are indicated in the HHS Grants Policy Statement.

Applicant Eligibility:

Federal, State or local government agencies, federally-recognized Indian Tribal Governments, U.S. Territories, non-government organizations, public or private institutions of higher education, and other public or nonprofit private agencies, institutions, or organizations. For-profit organizations are eligible to apply for these grants only if "cooperative agreement" is the designated funding mechanism. Organizations described in section 501(c)4 of the Internal Revenue Code that engage in lobbying are not eligible.

Beneficiary Eligibility:

Federal, State or local government agencies, federally-recognized Indian Tribal Governments, public or private nonprofit institutions, U.S. territories, Native American organizations, consumers, students, minority groups, specialized groups, health or education professionals, individuals, scientist/researchers, and the general public.

Credentials/Documentation:

Nonprofit organizations must submit proof of their nonprofit status when applying for grants. Costs will be determined in accordance with DHHS Regulations 45 CFR 75. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications must be submitted in response to a Funding Opportunity Announcement (FOA). All FOAs are posted on www.Grants.gov. Refer to the FOA of interest for specific requirements regarding the application procedure. For State agencies, no State Plan is required. Applications are reviewed and evaluated by a group composed primarily of nonfederal scientists. The review is conducted by a panel of experts in the specific study area proposed.

Award Procedure:

Applications are reviewed for scientific merit by a committee including nonfederal consultants who are selected from appropriate scientific fields. AHRQ considers the recommendations of the review committee, program interest, and the availability of funds in the final selection of grant applications for funding. When such decisions are made, applicants are notified and a Notice of Award is issued.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days.

Appeals:

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants may be approved for project periods of up to 5 years, depending on the grant program and based on the availability of funding. Refer to the FOA of interest for information regarding the maximum duration of the project period. Awards are made on an annual basis and it is expected that obligations will be made within the budget period awarded. After awards are issued, funds are released in accordance with the payment procedure established by the grantee institution with DHHS, which may be an Electronic Transfer System or a Monthly Cash Request System. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Grantees must submit quarterly SF425 reports to PSC. Progress reports are required on an annual basis. Some programs also require quarterly progress reports. A final progress report must be submitted within 90 days after the end of a project period. Inventions are to be reported immediately. A Final Invention Statement must be submitted within 90 days after the end of a project period. An annual Federal Financial Report (FFR; SF425) must be submitted within 90 days after the end of the calendar quarter in which the budget period ends. A final FFR must be submitted within 90 days after the end of the project period. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2016: AHRQ-supported grants focus on health information technology research, patient safety research, prevention and care management, and quality, effectiveness, and efficiency research. Fiscal Year 2017: Based on availability of funding, it is anticipated that AHRQ-supported grants will continue to focus on health information technology research, patient safety research, prevention and care management, and quality, effectiveness, and efficiency research. Fiscal Year 2018: No current data available.

CRITERIA FOR SELECTING PROPOSALS:

The proposals must first be reviewed by review groups of peers and recommended for approval on the basis of scientific and technical merit. This includes consideration of the qualifications of the principal investigator and staff to conduct the research using appropriate methodology and budget. Those approved proposals which are most relevant to the identified program priority issues of the AHRQ are funded to the extent that funds are available.

93.228 INDIAN HEALTH SERVICE, HEALTH MANAGEMENT DEVELOPMENT PROGRAM

(Indian Health)

FEDERAL AGENCY:

Indian Health Service, Department of Health and Human Services

AUTHORIZATION:

25 U.S.C. ss 450h (b)(1) and 25 U.S.C. ss 450h(e) of the Indian Self Determination and Education Assistance Act, Public Law 93-638, as amended.

OBJECTIVES:

To develop and enhance management infrastructure of Federally-recognized Tribes and Tribal organizations to assume all or part of existing Indian Health Service programs, functions, services and activities.

TYPES OF ASSISTANCE:**PROJECT GRANTS****USES AND USE RESTRICTIONS:**

The assistance is used for four types of management related projects: (1) Feasibility Studies; (2) Planning; (3) Tribal Health Management Structure Development; and (4) Evaluation. This assistance is available to

Federally-recognized Indian Tribes and Tribal-sanctioned Tribal organizations. Tribal Management grants may not be used to support operational programs, or to supplant existing public and private resources. Discretionary funding is available for statutorily mandated grant program.

Applicant Eligibility:

Federally-recognized Tribes and Tribally-sanctioned Tribal organizations.

Beneficiary Eligibility:

Individuals who are members of an eligible applicant Tribe, band, or group or village and who may be regarded as within the scope of the Indian health and medical service program and who are regarded as an Indian by the community in which he lives as evidenced by such factors as Tribal membership, enrollment, residence on tax exempt land, ownership of restricted property, active participation in Tribal affairs or other relevant factors.

Credentials/Documentation:

Certification of Native Indian or Alaskan descent is required for direct services. Provisions of grants under Public Law 93-638 and its amendments require Tribal endorsement in the form of a Resolution to sanction Tribal participation. Costs will be determined in accordance with OMB Circular No. A-122 for Nonprofit Organizations as implemented through program regulations 42 CFR 36 and applicable grant administration regulations 45 CFR, Part 92, (45 CFR 74 for nonprofit organizations). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The applicant package may be found in Grants.gov. or at https://www.ihs.gov/dgm/index.cfm?module=dsp_dgm_funding. Questions regarding the electronic application process may be directed to Tammy Bagley, Acting Director, Division of Grants Management at (301) 443-5204. This program is subject to the provisions of 45 CFR 92 for Indian Tribes and OMB Circular No. A-110, if applicant is a nonprofit Tribal organization.

Award Procedure:

Grants are awarded on a competitive basis with processing and final approval by the IHS Headquarters.

Deadlines:

Sep 01, 2014: For FY 2014 Awards. For Public Law 93-638 grants applications must be submitted 90 days prior to the proposed project start date. Contact Headquarters Office for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Grants are approved/disapproved within ninety (90) days from receipt of application/proposal.

Appeals:

From 30 to 60 days. Grant appeals will follow PHS appeals procedures: 42 CFR, Part 50, Subpart D and DHHS appeals procedures: 45 CFR 16.

Renewals:

Renewal of grants is on a year-to-year basis and requires the submission of non-competing continuation applications.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. This program has no matching requirements. However, in accordance with Pub. L. 93-638 section 103(c), the TMG funds may be used as matching shares for any other Federal grant programs that develop tribal capabilities to contract for the administration and operation of health programs. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Individual projects are awarded annually for 12 months based on receipt of appropriations. See the following for information on how assistance is awarded/released: Annually.

Reports:

No program reports are required. Grantees are required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Payment Management Service, with copies semi-annually to the assigned Program Officer and Grants Management Specialist. Final reports are due 90 days after the end of the project period. Grantees are required to submit semi-annual progress reports to the assigned Grants Management Specialist and Program Official. Final reports are due 90 days after the end of the project period. All IHS grant awards are monitored for financial and grant compliance by the Division of Grants Management and for programmatic compliance by the IHS Program Staff.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

HHS and the Comptroller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of a grantee, subgrantee, contractor, or subcontractor, which are pertinent to the HHS grant, in order to make audits, examinations, excerpts and transcripts. In accordance with 45 CFR 92.42, grantees are required to maintain grant records 3 years after they submit their final expenditure report. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.231 EPIDEMIOLOGY COOPERATIVE AGREEMENTS

FEDERAL AGENCY:

Indian Health Service, Department of Health and Human Services

AUTHORIZATION:

Indian Health Care Improvement Act, Public Law 94-437, 25 U.S.C 1621m.

OBJECTIVES:

The purpose of this cooperative agreement program is to fund Tribes, Tribal and urban Indian organizations, and intertribal consortia to provide epidemiological support for the AI/AN population served by IHS. Tribal Epidemiological Center (TEC) activities should include, but are not limited to, enhancement of surveillance for disease conditions; research, prevention and control of disease, injury, or disability; assessment of the effectiveness of AI/AN public health programs; epidemiologic analysis, interpretation, and dissemination of surveillance data; investigation of disease outbreaks; development and implementation of epidemiologic studies; development and implementation of disease control and prevention programs; and coordination of activities with other public health authorities in the region. It is the intent of IHS to fund several TECs that will serve Tribes and urban Indian communities in all 12 IHS Administrative Areas.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Grant funds may be used to develop and conduct activities to achieve at least one epidemiology programs in each of the 12 Areas of Indian country. The recipient activities will coordinate and participate in projects, investigations, or studies of national scope; and share surveillance and other data collected. IHS activities will convene workshops/meetings; provide technical assistance and consultation; provide training; conduct site visits; and coordinate all epidemiological activities on a national basis. Funds will be used to support activities that are directly related to the grant project. All indirect costs will be issued based on the indirect cost rate agreement that is negotiated by the recipient, as appropriate. 100% are discretionary funds.

Applicant Eligibility:

AI/AN Tribes, Tribal organizations, and eligible intertribal consortia or urban Indian organizations as defined by 25 U.S.C. 1603(e) may be eligible for a TEC cooperative agreement. Such entities must represent or serve a population of at least 60,000 AI/AN to be eligible as demonstrated by Tribal resolutions or the equivalent documentation from urban Indian clinic directors/Chief Executive Officers (CEOs). Applicants must describe the population of AI/ANs and Tribes that will be represented. The number of AI/ANs served must be substantiated by documentation describing IHS user populations, United States Census Bureau data, clinical catchment data, or any method that is scientifically and epidemiologically valid. An intertribal consortium or urban Indian organization is eligible to receive a cooperative agreement if it is incorporated for the primary purpose of improving AI/AN health, and represents the Tribes, AN villages, or urban Indian communities in which it is located. Resolutions from each Tribe, AN village and equivalent documentation from each urban Indian community represented must be included in the application package. Collaborations with IHS Areas, Federal agencies such as the Centers for Disease Control and Prevention (CDC), State, academic institutions or other organizations are encouraged (letters of support and collaboration should be included in the application).

Beneficiary Eligibility:

Federally-recognized Indian Tribe will benefit from the Tribal Epidemiology Centers. Federally-recognized Indian Tribe means any Indian Tribe, band, nation, or other organized group or community, including any Alaska Native village or group or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) [43 U.S.C. 1601, et seq.], which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as

Indians. 25 U.S.C. 1603 (d).

Tribal organization means the elected governing body of any Indian Tribe or any legally established organization of Indians which is controlled by one or more such bodies or by a board of directors elected or selected by one or more such bodies or elected by the Indian population to be served by such organization and which includes the maximum participation of Indians in all phases of its activities. 25 U.S.C. 1603(e).

Urban Indian organization means a non-profit corporate body situated in an urban center governed by an urban Indian controlled board of directors, and providing for the maximum participation of all interested Indian groups and individuals, which body is capable of legally cooperating with other public and private entities for the purpose of performing the activities. 25 U.S.C. 1603(h).

Credentials/Documentation:

The applicant must provide documentation of: (1) Nonprofit status; (2) tribal resolution(s); and (3) letters of support and collaboration with regional IHS, State, or university organizations. Costs will be determined in accordance with OMB Circular No. A-122 (nonprofit organizations), and applicable grant administration regulations 45 CFR 74 and 45 CFR 92. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The preferred method for receipt of applications is electronic submission through Grants.gov. However, should any technical problems arise regarding the submission, please contact Grants.gov Customer Support at 1-800-518-4726 or support@grants.gov. The Contact Center is open 24 hours a day, 7 days a week (except for Federal holidays). Waivers from the electronic process must be made at least fifteen days prior to the application deadline. To submit an application electronically, please use the <http://www.Grants.gov> apply site. Download a copy of the application package from the Grants.gov website, complete it offline and then upload and submit the application via the Grants.gov site. You may not e-mail an electronic copy of a grant application to IHS.

Award Procedure:

These awards are issued under a competitive grant process.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 30 to 60 days.

Appeals:

Not Applicable.

Renewals:

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Cooperative agreements will be awarded for project periods of up to 5 years. Within the project period, a continuation application must be submitted via GrantSolutions.gov annually on a non-competitive basis for each year of support. Additional support is subject to availability of funds. See the following for information on how assistance is awarded/released: annually.

Reports:

Program reports are not applicable. Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Division of Payment

Management Branch. Progress reports are required annually, semi-annually or quarterly depending on the time lines set by the IHS program. A final progress report is due 90 days after the end of each budget period and at the end of the final project period. Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Division of Payment Management Branch. IHS grants are monitored by the Division of Grants Management for financial compliance and by the IHS Program Staff for programmatic compliance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. .

Records:

DHHS and the Comptroller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of a grantee, subgrantee, contractor, or subcontractor, which are pertinent to the grant in order to make audits, examinations, excerpts, and transcripts. Grantees are required to maintain grant accounting records for 3 years after the end of a budget period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3 year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3 year period, whichever is later.

93.232 LOAN REPAYMENT PROGRAM FOR GENERAL RESEARCH
(NIH General Research Loan Repayment Program; GR-LRP)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title IV, Part VI, Section 487C, Public Law 100-43, 42 U.S.C 288-3.

OBJECTIVES:

To recruit and retain health professionals performing research in fields required by the NIH to carry out its mission by providing educational loan repayment for participants with substantial amounts of educational debt relative to income, who agree by written contract to engage in laboratory or clinical research as employees of the NIH for a minimum 3-year period.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use (Cooperative Agreements)

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged, as employees of the NIH, in laboratory or clinical research. Recipients must agree by written contract to engage in such research, initially, for a minimum of 3 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service.

Continuation contracts for 1-year terms are available, dependent upon the level of debt and continued involvement in research that supports the research and institutional needs and the mission of the NIH. Maximum program benefit is \$35,000 per year in loan repayments and \$16,275 per year in Federal tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold."

Applicant Eligibility:

Eligible applicants must: (1) Be a citizen, national, or permanent resident of the United States; (2) possess a M.D., Ph.D., D.O., D.D.S., D.M.D., D.V.M., D.P.M., A.D.N., B.S.N., or equivalent degree, or hold the position of Physician Assistant; (3) have qualified educational debt, which results from governmental or commercial loans obtained to support their undergraduate and/or graduate education, in excess of 20 percent of their annual NIH salary on the program eligibility date; (4) be appointed to the NIH Intramural Research Program under any temporary or permanent employment mechanism, so long as the employment has the potential to last a minimum of three years; (5) not be under any existing service obligation to Federal, State, or other entities, until such obligation is discharged or unless it is deferred during the period of program service; (6) submit an application to participate in the Loan Repayment Program for General Research; and (7) sign and submit to the Secretary of Health and Human Services, at the time of application submission, a contract agreeing to engage in research as an employee of the NIH for a minimum of 3 years.

Beneficiary Eligibility:

NIH researchers who possess substantial unpaid educational debt relative to income will benefit from this program.

Credentials/Documentation:

Applicants must submit documentation of the following, as appropriate: (1) Copies of loan applications and agreements from government or commercial educational loans which are being submitted for repayment; (2) copies of the standard student budget from each school attended during the period in which the debt was incurred; and (3) other documentation as may be required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants must access and submit the Loan Repayment Program application electronically via the website www.lrp.nih.gov; seek qualified employment with a sponsoring Institute or Center (IC) of the NIH. Once an application has been submitted, the Loan Repayment Committee reviews it at a regularly scheduled review meeting and a determination of loan repayment recipients is made.

Award Procedure:

The NIH Loan Repayment Committee (LRC) will review, rank, and approve or disapprove applications recommended for program participation by each Institute or Center (IC). Applications approved for participation by the LRC will be notified by the Program Director. The Secretary, or his designee, will sign the service contract of program participants, provide a copy to the participant, and notice of the amount of approved loan repayment.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. The approximate time for approval/disapproval is 3 months.

Appeals:

From 90 to 120 days. Employees of the NIH who are not approved as a result of this process may ask for reconsideration through the standard appeal procedures available to NIH employees.

Renewals:

From 90 to 120 days. At the conclusion of the initial 3-year contract, participants may apply and be considered for subsequent 1-year continuation contracts under the application and approval procedures specified above.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 3-year period. One-year continuation contracts are available for individuals whose educational debt exceeds the maximum repayable amount for 3 years. Payments will be made directly to lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and Secretary of Health and Human Services. Method of awarding/releasing assistance: quarterly.

Reports:

Program reports are not applicable. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation. Grantees generally must retain financial and programmatic records, supporting

documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2016: No Current Data Available Fiscal Year 2017: In 2017, the funded projects will focus on qualified approved research within the basic clinical and translational areas that contribute to the NIH Mission. Fiscal Year 2018: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Applicants are approved for participation in the NIH General Research Loan Repayment Program after the LRC determines that the applicant will conduct qualified research and has qualifying educational debt. LRC approval, in part, is based upon the scientific merit of the research, its priority to the research institutes, and the credentials of the applicant.

**93.233 NATIONAL CENTER ON SLEEP DISORDERS RESEARCH
FEDERAL AGENCY:**

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

NIH Reauthorization Act of 1993, Public Health Service Act, Section 503: Subpart 2, Part C, Title IV, Section 424, 42 U.S.C. 285b et seq.

OBJECTIVES:

The National Center on Sleep Disorders Research (NCSDR) supports research and research training related to sleep disordered breathing, and the fundamental functions of sleep and circadian rhythms. The center also stewards several forums that facilitate the coordination of sleep research across NIH, other federal agencies and outside organizations, including the Sleep Disorders Research Advisory Board and a Trans-NIH Sleep Research Coordinating Committee. The center also participates in the translation of new sleep research findings for dissemination to health care professionals and the public. Small Business Innovation Research (SBIR) program: To stimulate technological innovation; use small business to meet Federal research and development needs; foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons; and increase private-sector commercialization of innovations derived from Federal research and development funding. Small Business Technology Transfer (STTR) program: To stimulate technological innovation; foster technology transfer through cooperative R&D between small businesses and research institutions, and increase private sector commercialization of innovations derived from federal R&D.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants may support stipends, research expenses, supplies, travel, and research training tuition as required to perform the research effort. Restrictions or limitations are imposed against the use of funds for entertainment, foreign travel, general-purpose equipment, alterations and renovations, and other items not regularly required for the performance of research. Individual Predoctoral and Postdoctoral National Research Service Awards (NRSAs) are made directly to individuals for research training in specified biomedical shortage areas. Institutional NRSA awards may be made to eligible institutions to enable them to appoint individuals selected by the institution for research training. Certain service and payback provisions may apply to postdoctoral individuals upon termination of the award or termination of the appointment. SBIR Phase I awards (of approximately 6-months' duration) are to establish the scientific and technical merit of the proposed research effort, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. STTR Phase I awards (normally of 1-year duration) are to establish the scientific and technical merit of the proposed cooperative research effort between a small business and non-profit research institution, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. Fast-Track is an option whereby Phase I and Phase II SBIR or STTR projects are submitted and reviewed concurrently with the aim of reducing or eliminating the funding gap between Phase I and Phase II. While

the intent of the SBIR/STTR programs is commercialization (Phase III). SBIR/STTR funds are generally not allowed for commercialization activities such as patents; market and sales; market research; business development/product development/market plans; legal fees, travel and other costs including labor relating to license agreements and partnerships.

Applicant Eligibility:

Any nonprofit organization engaged in biomedical research and institutions or companies organized for profit may apply for almost any kind of grant. Only domestic, non-profit, private or public institutions may apply for NRSA Institutional Research Training Grants. An individual may apply for an NRSA or, in some cases, for a research grant if adequate facilities to perform the research are available. SBIR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit, or owned by another small business that itself is independently owned and operated for profit and have no more than 500 employees including affiliates). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. SBIR projects are generally performed at least 67% by the applicant small business in Phase I and at least 50% of the Project in Phase II. STTR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit and have no more than 500 employees) that formally collaborate with a university or other non-profit research institution in cooperative research and development. The principal investigator of an STTR award may be employed with either the small business concern or collaborating non-profit research institution as long as s/he has a formal appointment with or commitment to the applicant small business concern. At least 40% of the project is to be performed by the small business concern and at least 30% by the non-profit research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

Beneficiary Eligibility:

Any nonprofit or for-profit organization, company or institution engaged in biomedical research. Only domestic for-profit small business firms may apply for SBIR and STTR programs.

Credentials/Documentation:

Individual NRSA awardees and Institutional NRSA trainees must be citizens or noncitizen nationals of the United States, or have been admitted for permanent residency. Two levels of training are available: graduate level predoctoral training and postdoctoral training. All potential trainees must possess a desire for training in one of the health or health-related areas specified by the National Institutes of Health. Each applicant must be sponsored by an accredited public or private nonprofit institution engaged in such training. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organization costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with DHHS Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, the applicant organization (small business concern) must present a research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SBIR and STTR applicants must use the SF424 Research and Related (R&R) application for electronic submission through grants.gov. Electronic submission of NIH Research Performance Progress Reports (RPPR) apply for non-competing continuations (e.g., second year of Phase II). OMB Circular No. A-87 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for

Federal Awards. Grant applications are submitted electronically. Visit the following link to obtain application information and instructions (<http://grants1.nih.gov/grants/funding/424/index.htm>)

Award Procedure:

All accepted applications are evaluated by an appropriate initial review group (study section). All grant applications receive a final secondary review by the National Heart, Lung, and Blood Advisory Council. Staff informs applicants of the results of the review. If support is contemplated, staff initiates preparation of awards for grants. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Regular Grants: From 7 to 9 months. SBIR/STTR Grants: About 7-1/2 to 9 months.

Appeals:

A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. Length and Time Phasing of Assistance:

The Advisory Council may recommend funding for periods typically ranging from 1 to 5 years. Funding commitments are made annually. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. See the following for information on how assistance is awarded/released: The National Heart, Lung, and Blood Advisory Council may recommend funding for periods ranging from 1 to 5 years. Funding commitments are made annually. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. Award length may vary depending on the recommendation of the scientific review group, the national advisory council, successful annual performance, and availability of funds. A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization.

Reports:

No program reports are required. No cash reports are required. Annual reports on progress and expenditures. Final reports are required within 120 days of termination. Reports are required after termination of National Research Service Awards to ascertain compliance with the service and payback provisions. Annual reports on progress and expenditures. Final reports are required within 120 days of termination. Reports are required after termination of National Research Service Awards to ascertain compliance with the service and payback provisions. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) Significance: Does this study address an important problem? If the aims of the application are achieved, how will scientific knowledge or clinical practice be advanced? What will be the effect of these studies on the concepts, methods, technologies, treatments, services, or preventative interventions that drive this field? (2) Approach: Are the conceptual or clinical framework, design, methods, and analyses adequately developed, well integrated, well reasoned, and appropriate to the aims of the project? Does the applicant acknowledge potential problem areas and consider alternative tactics? (3) Innovation: Is the project original and innovative? For example: Does the project challenge existing paradigms or clinical practice; address an innovative hypothesis or critical barrier to progress in the field? Does the project develop or employ novel concepts, approaches, methodologies, tools, or technologies for this area? (4) Investigators: Are the investigators appropriately trained and well suited to carry out this work? Is the work proposed appropriate to the experience level of the principal investigator and other researchers? Does the investigative team bring complementary and integrated expertise to the project (if applicable)? (5) Environment: Does the scientific environment in which the work will be done contribute to the probability of success? Do the proposed studies benefit from unique features of the scientific environment, or subject populations, or employ useful collaborative arrangements? Is there evidence of institutional support? Complete review criteria can be found at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-05-002.html>. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the importance of the problem the proposed research will address; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation of the proposed research; (5) the potential of the proposed research for commercial application; (6) the appropriateness of the budget requested; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. 93.234 TRAUMATIC BRAIN INJURY STATE DEMONSTRATION GRANT PROGRAM

TBI State Implementation grants

FEDERAL AGENCY:

Administration for Community Living, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title XII, Section 1252 (42 USC 300d-52) as amended by the Childrens Health Act of 2000, sec.1304, PL 106-310, as further amended by the Traumatic Brain Injury Act of 2008, sec. 6(a), PL 110-206.

OBJECTIVES:

To improve access to rehabilitation and other services for individuals with Traumatic Brain Injury (TBI) and their families with an emphasis on early diagnosis and intervention, and access to medical home and system of care.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Project grants to States are to improve access to health and other Traumatic Brain Injury (TBI)-related services for people of all ages across the United States. Any State seeking TBI grant funds is required to agree to establish or have an advisory board within the appropriate health department of the State or within another department as designated by the Chief Executive Officer of the State. The Board's composition as specified must include representatives of the involved State agencies; public and nonprofit private health related organizations; disability advisory or planning groups; members of an organization or foundation representing individuals with TBI; State and local injury control programs if they exist, and a substantial number of individuals with TBI and/or their family members. These grants are to be used in building a statewide system to assure access to comprehensive and coordinated TBI services. Grants can address a wide range of activities and should reflect gaps or needed system change identified through the statewide TBI needs assessment. Funds under this announcement may not be used for the following purposes: construction projects or for pre-award costs (reimbursement is not given for costs incurred prior to receiving the award) or to support primary injury prevention initiatives, research initiatives, or the provision of direct services. For any available grant funds in excess of \$10,000,000, distribution of grants will be at the discretion of the Administration for Community Living (ACL), and will be made according to the criteria communicated to the States via a grant solicitation.

Applicant Eligibility:

State, Territorial governments, and Federally recognized Indian Tribal government and Native American organizations are eligible to apply for funding under the TBI grant program. The application for Implementation Partnership funds may only come from the State agency designated as the lead for TBI services. The State maternal and child health program is expected to be involved in the program. Only one application from each State may enter the review process and be considered for an award under this program.

Beneficiary Eligibility:

Individuals with TBI and their families, including those in high risk groups, such as children and youth, the elderly, Native Americans and Alaska Natives, military service members and veterans.

Credentials/Documentation:

Applicants should review the individual ACL funding opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E-Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. ACL requires all applicants to apply electronically through Grants.gov.

All qualified applications will be forwarded to an objective review committee.

Based on the advice of the objective review committee, the ACL program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

Application forms are submitted through a centralized depository and received by the awarding agency, Administration for Community Living. Applicants generally apply under a program announcement indicating all the necessary application procedures to be followed.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

Not Applicable.

Renewals:

No renewals; grants are approved for three to five years for TBI State Implementation Grants.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Cost Sharing/Matching is required for this program per 1252(c) of the Public Health Service Act. The State or Territory must agree to make available non-Federal contributions in an amount that is not less than \$1 for each \$2 of Federal funds provided under the grant. Non-Federal funds may be cash or in-kind and fairly evaluated, including plant, equipment, or services. State, Territorial or Indian Tribal government contributions may not include any amounts provided by the Federal government. The match, as required by the TBI legislation, must come from State or local sources and may be governmental or non-governmental resources. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Awards are made annually in accordance with the project period method of awarding grants. Payments are made through a Letter of Credit or Cash Demand System. Project periods are for 1, 2, 3, 4 or 5 years. See the following for information on how assistance is awarded/released: Grantees drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards. See the following for information on how assistance is awarded/released: Grantees drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

Program Progress Reports are due semi-annually (within 30 days following each six month period), effective with the start date of the award. This report must be submitted as a note using an authorized GrantSolutions account. Grantees are required to submit annual financial status reports (SF 425), which are due 30 days following each twelve month reporting period. You must reconcile your cash accounts with your expenditures for the reporting period and submit a cumulative report each year. A final report is due 90 days after the expiration date of the project period and must reconcile with the final cash portion reported on line 10c. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule: http://www.acl.gov/Funding_Opportunities/Grantee_Info/Reporting.aspx. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this funding opportunity announcement are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative

agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at http://www.acl.gov/Funding_Opportunities/Grantee_Info/FFATA.aspx). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. Grantees are required to submit annual financial status reports (SF 425), which are due 30 days following each twelve month reporting period. You must reconcile your cash accounts with your expenditures for the reporting period and submit a cumulative report each year. A final report is due 90 days after the expiration date of the project period and must reconcile with the final cash portion reported on line 10c. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grantees are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Applications are reviewed by nonfederal consultants who make recommendations to the Administrator of Community Living. The Administrator will approve projects which best promote the purposes of TBI grants. Review criteria: The following review criteria apply to State Grants: (1) The extent to which the State demonstrates a comprehensive understanding of

the problem inadequate access to rehabilitation and other services - and associated contributing factors to the problem; (2) The extent to which the State proposes a plan to address barriers to accessing rehabilitation and other services by engaging in the four identified program activities: information and referral services, professional training, screening, and resource facilitation; (3) The strength and effectiveness of the method proposed to monitor and evaluate progress towards goals and the project results as well as how data on persons served will be gathered; (4) The extent to which the State proposes a plan to continually assess the impact of grant activities on individuals with TBI and their families; (5) The extent to which project personnel are qualified by training and/or experience to implement and carry out the statewide plan objectives. (6) Reasonableness of the proposed budget, and effectiveness of the proposed plan to accomplish the goals and objectives the State has for its TBI program.

93.235 AFFORDABLE CARE ACT (ACA) ABSTINENCE EDUCATION PROGRAM

Abstinence Education Program

FEDERAL AGENCY:

Administration for Children and Families, Department of Health and Human Services

AUTHORIZATION:

Patient Protection and Affordable Care Act of 2010, Title II Role Of Public Programs, Subtitle L Maternal and Child Services

The Patient Protection and Affordable Care Act, Title II Role of Public Programs, Subtitle L, Maternal and Child Health Service, Title V, Section 2954, Public Law 111-148, 42 U.S.C. 713(c)(1)., Title V, Section 2954, Public Law 113-93, 42 U.S.C 710; The Consolidated and Further Continuing Appropriation Act of 2015, Section 229, Public Law 113-235; The Medicare Access and CHIP Reauthorization Act of 2015 , Section 214, Public Law 114-10.

OBJECTIVES:

To enable States to provide abstinence education, and at the option of the State, where appropriate, mentoring, counseling, and adult supervision to promote abstinence from sexual activity, with a focus on those groups which are most likely to bear children out-of-wedlock. The Affordable Health Care Act (ACA) appropriated funding for this program through FY 2014. This program can redistribute unclaimed funds to states currently receiving funding with the provision that the funding is used for abstinence-only education in P.L. 113-235. The program has been extended through September 30, 2017 in P.L. 114-10.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

The purpose of an allotment under subsection (a) to a State is to enable the State to provide abstinence education, and at the option of the State, where appropriate, mentoring, counseling, and adult supervision to promote abstinence from sexual activity, with a focus on those groups which are most likely to bear children out-of-wedlock.

Pursuant to Section 510(b)(2) of Title V of the Social Security Act, the term "abstinence education," for purposes of this program means an educational or motivational program that:

- (A) Has as its exclusive purpose, teaching the social, psychological, and health gains to be realized by abstaining from sexual activity;
- (B) Teaches abstinence from sexual activity outside marriage as the expected standard for all school age children;
- (C) Teaches that abstinence from sexual activity is the only certain way to avoid out-of-wedlock pregnancy, sexually transmitted diseases, and other associated health problems;
- (D) Teaches that a mutually faithful monogamous relationship in the context of marriage is the expected standard of human sexual activity;
- (E) Teaches that sexual activity outside of the context of marriage is likely to have harmful psychological and physical effects;
- (F) Teaches that bearing children out-of-wedlock is likely to have harmful consequences for the child, the child's parents, and society;

- (G) Teaches young people how to reject sexual advances and how alcohol and drug use increases vulnerability to sexual advances; and
(H) Teaches the importance of attaining self-sufficiency before engaging in sexual activity.

Applicant Eligibility:

Funds are allotted to 59 States and Territories to enable them to carry out abstinence education programs. Eligible applicants include the 50 United States, the District of Columbia, Puerto Rico, Virgin Islands, Guam, American Samoa, Northern Mariana Islands, Micronesia, the republic of the Marshall Islands, and the Republic of Palau.

Beneficiary Eligibility:

School-age girls and boys, adolescents, at-risk populations subject to out-of-wedlock births, parents, youth serving professionals and families.

Credentials/Documentation:

A signed letter from the authorized representative must accompany each application; it should include documentation establishing the authorized representative's authority to apply for and administer the Abstinence Education grant program funds on behalf of the State or Territory. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application procedures will be given in the Funding Opportunity Announcement (FOA).

Award Procedure:

ACF recruits and trains Federal staff and contractors to review applications. Program administrators review, observe, and edit comments of reviewers to ensure they are in compliance with guidelines and Federal law. Applications are rated Approved, Approved with Conditions, or Approval Pending. States that submit applications that are Approved receive grant awards and do not need to send further information. States that submit applications that are Approved with Conditions" receive grant awards with descriptions of weaknesses and subsequent conditions that must be met in order to receive Approved status. The applicants are given a set time period to send to ACF a response that addresses the conditions. States that submit applications that are rated Approval Pending receive a list of weaknesses cited by the reviewer and directions for submitting an amended application that addresses the weaknesses. The State will not receive a grant award until the State submits a satisfactory application. The applicants are notified of a final due date for submission of a satisfactory application. The remaining unobligated balance is reallocated as supplemental funding to such States that submit a valid application consistent with the original formula for this funding.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 30 to 60 days.

Appeals:

Not Applicable.

Renewals:

From 90 to 120 days.

Formula and Matching Requirements:

Statutory Formula: Title V.

Matching Requirements: The statutory formula for this program is based upon census data. Grants awarded to each State are determined by a formula using the State's proportion of low-income children compared to the total number of low-income children in the U.S. based on the most recent Census data for children in poverty. For each fiscal year, the estimated allotment for each State or Territory will be updated based on the most current available census data and will be communicated to States by August 15 of the preceding fiscal year.

Census data are unavailable for the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. Thus, the allocations for these three entities are based on the amounts allocated to them by HHS in prior fiscal years. There is a required match of 43 nonfederal dollars for every 100 federal dollars. For example, if a states federal award is \$100,000, the State must provide a match of \$75,250, which would represent 43% of the total project cost of \$175,000 (counting both federal grant and state match). The match can be reached by use of state dollars, local government dollars, and private dollars including foundation dollars, in-kind support, or any combination thereof.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

In accordance with Section 503 of the Social Security Act, Any amount payable to a State under this title from allotments for a fiscal year which remains unobligated at the end of such year shall remain available to such State for obligation during the next fiscal year. For example, funds appropriated and allocated to the States in FY 2010 (starting October 1, 2009) are available for obligation and expenditures through September 30, 2011. The program was extended through FY2017 and legislation was enacted to redistribute unclaimed funds to states currently receiving funding with the provision that they use the funding for abstinence-only education. See the following for information on how assistance is awarded/released: Draw downs are based upon need and project progress.

Reports:

Progress reports and financial expenditure reports are required. The Financial Status Report is required annually. The Performance Progress Report is required semi-annually. Program guidelines allow States to expend abstinence education funds over a two-year period. An interim Financial Status Report (SF-425) is due annually, and a final fiscal report is due 90 days after the end of the project period. Performance monitoring occurs by reviewing program progress reports and conducting monitoring phone calls.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. As described in Title V, Section 506(b)(1) of the Social Security Act, each state shall, not less often than once every 2 years, audit its expenditures from amounts received under this title.

Records:

Records of the recipient shall be made available to the Secretary to secure an accurate description of the activities for which funds were spent in achieving the purposes of this section. States shall make available copies of reports and audits for public inspection within the State. Within 30 days following the completion of each audit report, the State shall submit a copy of that audit report to the Secretary.

Account Identification:

Range and Average of Financial Assistance:

Range: \$47,559 - \$7,854,345 Average: \$1,127,186,237 (\$75,000,000 divided by 59 eligible States, Territories and the District of Columbia).

Funds must be used to develop and implement a workforce program(s) designed to support innovative oral health service delivery models that will increase access to high quality oral health services for underserved populations located in Dental Health Professional Shortage Areas (HPSAs) or in other areas specifically designated as having a dental health professional shortage by the State. Programs must propose innovative oral health care delivery models to address a States oral health workforce needs. State governments must define the States investment of resources to the project and any planned coordination of activities at the State level. States must demonstrate commitment to their projects by providing a legislatively-mandated, 40 percent or greater, non-Federal match.

Allowable activities include:

1. Dental recruitment and retention efforts;
2. Grants and low/no-interest loans to help dentists who participate in the Medicaid program to enhance capacity;
3. Establish or expand dental residency programs (in States without dental schools);
4. Programs to establish or expand oral health services and facilities in Dental HPSAs;
5. Placement and support of dental students/residents, and advanced dentistry trainees;
6. Continuing dental education, including distance-based education;
7. Practice support through tele-dentistry to improve access for underserved communities;
8. Community-based prevention service programs for underserved populations;
9. Coordination with local educational agencies to promote children going into oral health or science professions;
10. Establishment of faculty recruitment programs at accredited dental training institutions;
11. Development of a State dental officer position or augmentation of a State

dental office to coordinate oral health and access issues in the State;

12. Other activities as deemed appropriate by the Secretary: Programs designed to address opioid abuse or the co-morbidities of dental caries and childhood obesity.

Applicant Eligibility:

Eligible applicants include Governor appointed, state government entities. In addition to U.S. states, eligible applicants include: District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, American Samoa, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. Each state is limited to only one application. Applicants must have significant experience with addressing oral health workforce issues in underserved populations. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Beneficiaries include Governor appointed, State government entities.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity (FOA) issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All eligible, qualified applications are forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Award notifications are made in writing (electronic) by a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Percent: 40%. An entity that receives a grant under this program must contribute non-federal funds to activities carried out under this grant to an amount equal to at least 40 percent of the federal funding in support of the project. Matching funds may be a combination of in-kind contributions, fairly valued, including plant, equipment, and services and may provide the contributions from state, local, or private sources. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

This program provides support for project periods from three to four years with annual budget periods. Recipients draw down funds, as necessary, from the Payment Management System (PMS), the centralized web based payment system for HHS awards. See the following for information on how assistance is awarded/released: Recipients draw down funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based

payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. Cash reports are not applicable. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this Notice of Funding Opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grantees are required to maintain grant accounting records 3 years after the date they submit the FFR. If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3 year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3 year period, whichever is later.

Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Detailed and accurate records of travel expenditures, personnel hours and all other costs will be retained for at least 10 years in accordance with EPS's "Superfund Financial Management and Recordkeeping Guidance for Federal Agencies". Such documents may be required to provide the basis of cost recovery actions or other litigation. Additionally, this documentation must be available for audit or verification upon request of the office of Inspector General.

CRITERIA FOR SELECTING PROPOSALS:

Applications for core activities only were reviewed and evaluated based on the following criteria: (1) Proposed Program: (a) Merit scientific and technical merit of the proposed project to perform public health assessments, consultations, exposure investigations, health education and public health studies consistent with ATSDR guidance and in a timely manner. Applicant's ability to evaluate the public health impact of hazardous waste sites using health, environmental, and demographic data, and health-related concerns from the local community. (b) Requirements Applicant's understanding of the requirements, objectives, and complexities of the interactions required for a successful program. c) Collaboration Applicant's plan to collaborate with political and private subdivisions of Federal, State, and local health and environmental agencies and community groups to obtain information needed for evaluating the public health impact of hazardous waste sites, disseminate results of findings, and prevent exposure if identified. (2) Program Personnel: The principal investigator or project director and his/her ability to devote time and effort to provide effective leadership, and the qualifications of the support staff. (3) Applicant Capability: Adequacy and commitment of institutional resources, facilities, space, and equipment necessary for conducting the project are available and sufficient. (4) Program Budget: Extent to which the budget is reasonable, clearly justified, and consistent with intended use of funds. The

priority order for funding cooperative agreements was as follows: (a) Number of proposed and/or listed National Priority List (NPL) sites (Federal and nonfederal) based on the most current EPA list, (b) number of Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) sites (Federal and nonfederal) based on the most current EPA list; (c) applicants who applied for both Core Activities and optional Activities; and (d) geographic distribution across the United States. (5) Human Subjects: Applicant's plan for adequate protection of human subjects. Applications for conducting Core Plus Optional Activities were reviewed and evaluated based on the following criteria: Proposed Program: In addition to the criteria outlined above for Core Activities, the applicant had to indicate an understanding of and capability for conducting human health studies as contained in the proposed site-specific protocol which had to include: (a) The approach, feasibility, adequacy, and rationale for the proposed study design, (b) the technical merit of the proposed study, (c) the proposed timeline, including measurable objectives, (d) proposed method for disseminating the results of the study.

**93.241 STATE RURAL HOSPITAL FLEXIBILITY PROGRAM
FEDERAL AGENCY:**

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Title XVIII, 1820(g)(1) and (2) of the Social Security Act (42 U.S.C. 1395i-4), as amended; Consolidated Appropriations Act, 2016 (P.L. 114-113).

OBJECTIVES:

The Rural Hospital Flexibility Program (Flex) engages state designated entities in activities relating to planning and implementing rural health care plans and networks; designating facilities as Critical Access Hospitals (CAHs); providing support for CAHs for quality improvement, quality reporting, performance improvements, and benchmarking; and integrating rural emergency medical services (EMS). Specifically, the Flex program provides funding for states to support technical assistance activities to improve the quality of health care provided by CAHs, the financial stability and sustainability of CAHs, the integration of emergency medical services (EMS), and the health of rural communities. State Flex programs also assist in the conversion of qualified small rural hospitals to CAH status and support the integration of value based payment and innovative health care models in rural communities. State designated Flex Programs will act as a resource and focal point for these activities, ensuring people in rural communities have access to high quality health care services.

The Rural Veterans Health Access Program provides funding to states to coordinate activities to provide rural veterans access to services for needed mental health care via the use of networks, electronic communication and telehealth networks. The program targets states with high percentages of veterans to the total population.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

All funds awarded are to be expended solely for the purposes outlined in the approved projects. Administrative (indirect) expenses are limited to the lesser of 15 percent of the award or the states federally negotiated indirect rate for administering the award.

Applicant Eligibility:

Flex and Rural Veterans Grants: Only states with certified Critical Access Hospitals are eligible for this Grant Program. The Governor designates the eligible applicant from each state. All other states need to submit an application to the Regional Administrator of their CMS Regional Office that expresses the state's interest in developing a Medicare Rural Hospital Flexibility Program before they can apply for grant funds.

Beneficiary Eligibility:

States with at least one hospital located in a non-metropolitan statistical area or county and provides CMS with necessary assurances.

Credentials/Documentation:

Applicants should review the individual HRSA funding opportunity

announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Award Procedure:

All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

6 months.

Appeals:

Not Applicable.

Renewals:

The Medicare Rural Hospital Flexibility Grant Program awards may be made for up to 4-year project periods. Subject to availability of funds, after initial awards, projects may be renewed non-competitively contingent upon submission and approval of an application, availability of appropriated funds, and awardees satisfactory performance.

The Rural Veterans Health Access Program awards may be made for up to 3-year project periods. Subject to availability of funds, after initial awards, projects may be renewed non-competitively contingent upon submission and approval of an application, availability of appropriated funds, and awardees satisfactory performance.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Awards are made annually. Funds are available to awardees on an as needed basis throughout the budget period and payments are made through the DHHS Payment Management System. See the following for information on how assistance is awarded/released: See the following for information on how assistance is awarded/released: Awardee drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

The awardee will be required to submit performance and progress reports as well as federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule:
<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffschedule.pdf>. A final report is due within 90 days after the project period ends.

If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. For the Rural Veterans Health Access Program and the Medicare Rural Hospital Flexibility Grant Program, an annual Performance Information Management System data report is due within 60 days of the end of the budget period. A final program report is to be submitted within 90 days after the close of the project period. Awardees in the Medicare Rural Hospital Flexibility Grant Program are required to participate in activities related to the Flex Program Evaluation Cooperative Agreement. No cash reports are required. Refer to notice of funding opportunity . No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend financial assistance of \$750,000 or more in federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in federal awards are exempt from federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Awardees are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.242 MENTAL HEALTH RESEARCH GRANTS

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

SBIR/STTR Reauthorization Act of 2011; Public Health Service Act, Title IV, Section 401(a), 42 U.S.C 281; Public Health Service Act, Title III, Section 301, 42 U.S.C 241.

OBJECTIVES:

The mission of the National Institute of Mental Health (NIMH) is to transform the understanding and treatment of mental illnesses through basic and clinical research, paving the way for prevention, recovery, and cure. In fiscal year (FY) 2008, NIMH released its first Strategic Plan, which guided the Institutes work toward this mission. In March 2015, NIMH released its new Strategic Plan for Research. Moving forward, the NIMH will be guided by both this new Plan and by the Strategic Research Priorities based on the Plan.

The Strategic Plan for Research comprises four high-level Strategic Objectives:

(1) Define the mechanisms of complex behaviors; (2) Chart mental illness trajectories to determine when, where, and how to intervene; (3) Strive for prevention and cure; and (4) Strengthen the public health impact of NIMH-supported research. The four Objectives of the Plan describe the continuum of mental health research, ranging from understanding basic pathophysiology, to defining the trajectories of mental illnesses, to developing innovative treatment and prevention strategies, to ensuring public health impact. The Institutes overall funding strategy is to support a broad spectrum of investigator-initiated research in fundamental science, with increasing use of Institute-solicited initiatives for applied research where public health impact is a short-term measure of success.

Cross-cutting themes relevant to all research supported by NIMH include the Research Domain Criteria Initiative; the Institutes new experimental medicine approach, which focuses on studies with defined targets and milestones; the role of the environment in the pathogenesis of mental illnesses; the new culture of open science with broad and rapid data sharing; preemptive medicine; research designed to reduce and eliminate mental health disparities both within and outside the United States specifically, research on sex, gender, age, racial, and ethnic differences related to mental illnesses; partnerships with external stakeholders; and, supporting and training future generations of mental health researchers.

Specific program objectives include:

To determine the molecular, cellular, and systems components underlying brain connectivity and dynamic patterns of brain activity using model systems, and human studies; to identify the mechanisms responsible for establishing and maintaining circuits; to identify and validate novel assays to quantify changes in the activity of molecules, cells, and circuits; and, to elucidate the basic biology linking changes in molecular-, cellular-, and circuit-based targets to alterations in complex behaviors.

To define genomic variations associated with mental illnesses and determine the biological consequences of these variations; to define the molecular mechanisms that determine how experience has enduring effects on gene expression, brain function, and behavior; to delineate environmental and biological factors altering genomic risk for mental illnesses; and, to develop analytical tools for multi-scale data integration.

To identify cells and brain networks that contribute to various aspects of mental function and dysfunction, such as cognition, emotion, and social behavior; to determine how changes in the physiological properties of molecules, cells, and circuits contribute to mental illnesses; to develop biomarkers of impaired neural function in humans at the level of molecules, cells, and circuits; and, to develop innovative technologies, as well as new pharmacological and genetic tools, to interrogate and modulate the signaling pathways and circuits altered by mental illnesses.

To characterize developmental processes across biological and behavioral domains of analysis that give rise to mental illnesses throughout the lifespan; to identify sensitive periods for typical and atypical mental health trajectories; and, to determine modifiers of maturational and illness trajectories, emphasizing periods of sensitivity to perturbation and/or potential for intervention.

To identify early biological and environmental risk and protective factors and their underlying mechanisms to serve as novel intervention targets; and, to develop biomarkers and assessment tools to predict illness onset, course, and intervention response across diverse populations.

To identify and validate new targets for treatment development that underlie disease mechanisms; to develop and validate new metrics for target engagement that are feasible for use in clinical trials; and, to develop objective surrogate measures of outcome and clinical change that extend beyond symptoms, to assess if target mechanisms underlying general health and quality of life have been modified by treatments.

To develop valid and innovative biomarkers to detect subgroups of individuals sharing common etiologies whether within or across traditional diagnostic categories as well as aspects of emotion, cognition, and social behavior that predict clinical response; to foster personalized interventions and strategies for sequencing or combining existing and novel interventions that are optimal for specific phases of disease progression (e.g., prodromal, initial-onset, chronic), different stages of development (e.g., early childhood, adolescence, adulthood, late life), and other individual characteristics; and, to develop and refine alternative research designs and analytic approaches that can be used to test precise interventions.

To develop and test bundled intervention components (each validated individually in prior research) that have the greatest impact on patients lives and functioning; together with key stakeholders, including patient, provider, payer, and other research funding groups, to conduct efficient pragmatic trials that employ new tools to rapidly identify, engage, assess, and follow participants in the context of routine care; and, to enhance the practical relevance of effectiveness research, taking into account how patient-, provider-, and organizational-level factors impact the outcomes of interventions in practice settings.

To employ existing real-world data collection systems to identify strategies for improving access, quality, and equity of mental health services in diverse

populations; to identify, validate, and scale-up innovative programs currently in use that improve mental health services for underserved populations; to optimize financing models for adults and children with serious mental illnesses to provide efficient and effective care in public and private health care systems.

In partnership with key stakeholders, to develop and validate strategies for implementing, sustaining, and continuously improving evidence-based practices; to build models to scale-up effective interventions for use in public and private primary care, specialty care, and other systems; and, to develop decision support tools that increase the effectiveness and continuous improvement of mental health interventions in public and private primary care, specialty care, and other systems.

To develop systems-level strategies in non-traditional mental health settings, using technology and other approaches, to identify, support, and monitor the effectiveness of care for individuals with mental illnesses; to develop and validate service delivery models that provide responsive and pre-emptive evidence-based supports for individuals throughout the course of illness; and, to develop and validate coordinated medical decision-making models that bridge multiple social and medical care settings to integrate the appropriate care for people with serious mental illnesses and multiple chronic conditions.

To develop assessment platforms within service systems that allow ongoing monitoring of mental illness prevalence, service access, quality, efficiency of care, and outcomes for people with mental illnesses; and, develop valid and reliable measures of treatment quality and outcomes that can be feasibly applied at the person, clinic, system, and population levels.

To expand approaches to integrate behavioral science with effective biomedical strategies for HIV prevention; to advance the development and testing of interventions delivered beyond the individual level, by incorporating appropriate context into intervention development and testing; to increase intervention potency and long-term maintenance of effects, with an emphasis on targeting high-risk vulnerable populations; to develop strategies to increase HIV-testing and improve linkage to care and timely treatment initiation; to develop and test interventions to improve HIV treatment outcomes through optimal treatment adherence and sustained engagement in care; and, to support implementation science and operations research to enhance dissemination strategies and public health impact of effective interventions.

To examine evolving pathophysiologic mechanisms of HIV-associated neurocognitive disorders (HAND) in the setting of long-term antiretroviral therapy, and development of novel therapeutic approaches to mitigate CNS complications of HIV infection; to support the use of state-of-the-art genetic approaches to identify and validate viral and host genetic factors that influence the pathophysiology of HAND; and, to define and characterize HIV persistence in the CNS in the context of suppressive highly active antiretroviral therapy, and foster translational research to enable therapeutic eradication of HIV-1 from the brain.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants; Training

USES AND USE RESTRICTIONS:

Research project grants provide support for clearly defined projects by a named investigator in an area representing his/her specific interests and competencies. Exploratory/Development and Clinical Exploratory/Developmental Grants encourage the development of new research activities in categorical program areas. Small Research Grants provide research support specifically limited in time and amount for studies in categorical program areas. Collaborative Clinical Research Grants support evaluations of various methods of therapy and/or prevention. Program Project and Center grants support large-scale, broad-based programs of research, usually interdisciplinary, consisting of several projects with a common focus. Cooperative Agreements support single or a group of related research activities with greater involvement of federal staff.

SBIR and STTR grants are awarded in two stages: Phase I grants are awarded to establish the technical merit and feasibility of a proposed research and development effort; only Phase I awardees are eligible to receive Phase II

support.

Mentored Research Scientist Development Award (K01, MRSDA), Mentored Clinical Scientist Development Award (K08, MCSDA), and Mentored Quantitative Research Career Development Award (K25) provide support for individuals with research potential who need additional mentored development and/or experience in a productive research environment. Mentored Patient-Oriented Research Career Development Award (K23) supports the career development of individuals who have made commitment to focus their research endeavors on patient-oriented research. The NIH Pathway to Independence (PI) Award (K99/R00) provides up to 2 years of mentored support (K99) for a postdoctoral individual followed by up to 3 years of support after the awardee transitions to research independence (R00). K99/R00 awards are awards for up to 5 years of support. Salary support for all mentored awards may be supplemented by the sponsoring institution from nonfederal funds. The Independent Scientist Award (K02, ISA) is for independent scientists whose careers are developing rapidly; the Mid-career Investigator Award in Patient-Oriented Research (K24) is for outstanding clinical scientists engaged in patient-oriented research. No specialized training costs are available; limited research costs for K24s and K02s in theoretical areas are available.

NRSA awards: Individual fellowships are made to students seeking predoctoral or postdoctoral support for full-time research training or who are enrolled in an formal Ph.D. or M.D./Ph.D. program. An institutional allowance will be provided to the sponsoring institution for each awardee. In addition, any domestic public or nonprofit institution may apply for an institutional research training grant in a specified area of research from which a number of stipend awards will be made to individuals selected by the training program director at the institution. Support is available for both predoctoral and postdoctoral trainees and will include an amount for institutional expenses. Indirect costs may be requested at 8 percent of total direct costs, exclusive of tuition and related fees and expenditures for equipment, or actual indirect costs, whichever is less. Postdoctoral students receiving fellowships or stipend support under either individual or institutional grants for 12 months or less are obligated to pay back this support through an equivalent period of continued postdoctoral training or a period of health related research and/or teaching activities after the completion of their training. Postdoctoral individuals in their thirteenth and subsequent months of support will incur no further obligation, and such support will be considered acceptable postdoctoral payback service. Research training support may not be used for internships or other clinical training.

Applicant Eligibility:

Public, private, -profit, or nonprofit agencies (including State and local government agencies), eligible Federal agencies, universities, colleges, hospitals, and academic or research institutions may apply for research grants. SBIR grants can be awarded only to domestic small businesses, and STTR grants can be awarded only to domestic small businesses which "partner" with a research institution in cooperative research and development.

An applicant for individual predoctoral fellowship support must be enrolled in a research doctoral degree program by the proposed activation date of the fellowship. A postdoctoral applicant must have received a Ph.D., Psy.D., M.D., D.D.S., Sc.D., D.N.S., D.O., D.S.W., or equivalent degree from an accredited institution to be eligible for an individual postdoctoral fellowship.

All research training awards are made to appropriate domestic research centers, medical schools, departments of psychiatry, non-medical academic departments, psychiatric hospitals or hospitals with psychiatric services, community mental health centers, and biomedical research institutes on behalf of individuals who need the opportunity to realize research potential. Except for the NIH Pathway to Independence (PI) Award (K99/R00), the individuals must be citizens or nationals of the United States or have been lawfully admitted for permanent residence. The NIH Pathway to Independence (PI) Award (K99/R00) is open to both U.S. citizens and non-U.S. citizens. Individuals must qualify by scholastic degree and previous training and/or experience.

Beneficiary Eligibility:

Individuals and public, private, profit, or nonprofit organizations.

Credentials/Documentation:

For-profit organizations' costs will be determined in accordance with 48 CFR, Subpart 31.2 of the Federal Acquisition Regulations. For all other grantees, costs will be determined in accordance with HHS Regulations 45 CFR 75. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Instructions for electronic submission may be found with the federal SF424 (R&R) form packages that are found in the SBIR/STTR funding opportunity announcements. Instructions are provided for SBIR Phase I and Phase II awards, respectively; as well as for STTR Phase I and Phase II awards, respectively.

The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement for further guidance on the applicability of cost principals (<http://grants.nih.gov/grants/policy/nihgps/index.htm>). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Most applications must be prepared and submitted electronically. Most applicants use the SF 424 (Research & Related) for electronic submission. Information about the SF 424 form may be found on <http://grants.nih.gov/grants/funding/424/index.htm>, but application packages should be accessed through the appropriate funding opportunity announcement, found either on the NIH Guide for Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>) or through the Grants.gov website (<http://www.grants.gov/>). Some institutions may submit the grant data directly (using what is called a system-to-system transfer). For further details, see grants.gov or eRA Commons. Application forms for SBIR and STTR grants may be obtained through the SBIR/STTR funding announcements posted on the NIH Guide for Grants and Contracts and the Grants.gov sites (see URLs listed above). All SBIR and STTR applications must be submitted electronically. The timeline for transition to electronic applications and the new forms may be found at: <http://era.nih.gov/ElectronicReceipt/>. For further assistance contact GrantsInfo, Telephone (301) 435-0714, Email: GrantsInfo@nih.gov.

Consultation on a proposed project may be obtained from the NIMH branch or office responsible for the research area of interest. Applications are reviewed by principally nonfederal consultants recruited nationwide from the mental health field. The amounts of the award and period of support are determined on the basis of merit of the project and the nature of the grant mechanism. Electronic applications are submitted through the Grants.gov website.

Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Award Procedure:

All applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel. Applications other than fellowships must also be reviewed by the National Advisory Mental Health Council. All competitive applications compete for available funds on the basis of scientific and technical merit, program relevance, and program balance. All SBIR and STTR applications receiving a priority score compete for set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Applications: From 180 to 270 days from submission of application.

SBIR/STTR applications: About 7- 1/2 months;

AIDS-related research is expedited and a determination is made within 180 days.

Appeals:

A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH homepage <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Support is recommended for a specified project period, not in excess of 5 years. Prior to termination of a project period, the grantee may apply for renewal of support for a new project period. An application for renewal is processed as a new competing request. Small grants, exploratory, and dissertation grants are for 1-3 years (depending on program) and are not renewable. By law an individual may receive no more than 6 years of support in the aggregate at the predoctoral level and no more than 3 years of support in the aggregate at the postdoctoral level under the NRSA program (through an individual and/or institutional award). Any exception to these limitations requires a waiver from the Director of the awarding Institute based on review of justification from the awardee and the program director for the institutional grant. K01, K08, K23, K25 awards are made for up to 5-year periods with no renewal. K02 and K24 awards are made for a 5-year period, renewable once (unless holder has held a previous K02 or K24 award). K99 awards are made for up to 2-year periods with no renewal.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Varies, with a project periods ranging from 1 to 5 years. Funding commitments are made annually. See the following for information on how assistance is awarded/released: A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization. SBIR: Generally, Phase I awards are for 6 months, and Phase II awards are for 2 years. STTR: Generally, Phase I awards are for 1 year and Phase II awards are for 2 years. Information on how assistance is awarded/released: A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization. By law an individual may receive no more than 6 years of support in the aggregate at the predoctoral level and no more than 3 years of support in the aggregate at the postdoctoral level under the NRSA program (through an individual and/or institutional award). For an M.D./Ph.D. fellowship, 6 years may be requested. In practice, recommendations of review committees are generally for 2 or 3 years. See the following for information on how assistance is awarded/released: A formal notification in the form of a Notice of Award (NoA) will be provided to the applicant organization.

Reports:

No program reports are required. No cash reports are required. Reports must be submitted as follows: (1) Interim progress reports annually as part of a non-competing application for previously recommended support; (2) terminal progress report within 90 days after end of project support. Annual financial status report within 90 days after termination of annual grant for some programs. In addition, immediate and full reporting of any inventions is required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit

conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials. Per the regulations, a for-profit (commercial) organization is subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant. For-profit organizations have two options regarding the type of audit that will satisfy the audit requirements either: (1) a financial related audit (as defined in the Government Auditing Standards, GPO Stock #020-000-00-265-4, <http://www.gao.gov/govaud/ybk01.htm>) of the HHS awards in accordance with Government Auditing Standards, or (2) an audit that meets the requirements contained in OMB Circular No. A-133(<http://www.whitehouse.gov/OMB/circulars/a133/a133.html>).

Awards made under this program are subject to the audit requirements of OMB 2 CFR 200, as implemented by 45 CFR 75, Subpart F, and in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

93.243 SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES PROJECTS OF REGIONAL AND NATIONAL SIGNIFICANCE (PRNS)

FEDERAL AGENCY:

Substance Abuse and Mental Health Services Administration, Department of Health and Human Services

AUTHORIZATION:

Children's Health Act of 2000, Section 520 A-J-581,582, Public Law 106-310; Public Health Service Act, Title V, Section 509; 516, 42 U.S.C 290bb.

OBJECTIVES:

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds (including direct costs and indirect costs) may be used only for expenses clearly related and necessary to carry out approved activities that will provide immediately useful, practical knowledge that service providers need as they wrestle with the rapidly changing health care environment. Refer FY2010 SAMHSA Grants Funding Opportunities at www.samhsa.gov. 100% of grants funds under this CFDA.

ANEW

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 811 of the Public Health Service Act, (42 U.S.C. 296j).

OBJECTIVES:

The ANEW Program supports innovative academic-practice partnerships to prepare advanced practice registered nursing students to practice in rural and underserved settings through academic and clinical training. The partnerships support enhanced didactic and clinical training opportunities in primary care for nursing students (including longitudinal clinical training experiences), training for clinical preceptors, traineeships, and support for post-graduate employment in primary care, with a particular focus on rural and underserved populations.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds may be used to cover salaries of personnel specifically employed for the project; consultant fees; supplies and equipment necessary to conduct the project; essential travel expenses and other expenses related to the project.

Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Student support through stipends, tuition, and fees is not eligible for support.

Applicant Eligibility:

Eligible applicants are collegiate schools of nursing, nursing centers, academic health centers, State or local governments, and other public or private nonprofit entities accredited by a national nurse education accrediting agency recognized by the Secretary of the U.S. Department of Education. In addition to the 50 states, only the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau are eligible to apply. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Accredited schools of nursing, nursing centers, academic health centers, state or local governments, and other public or private nonprofit entities determined appropriate by the Secretary.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification of award is made in writing (electronic) through a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching requirements are not applicable to this program.

This program has MOE requirements, see funding agency for further details. The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 2-year project period (starting FY17). See the following for information on how assistance is awarded/released: Recipients draw down funds, as necessary, from the Payment Management System (PMS), the centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient will be required to annual performance and progress reports. Cash reports are not applicable. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this Notice of Funding Opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients, may be subject to this requirement and will be so notified in the Notice of Award. Expenditure reports are not applicable. Performance monitoring is not

applicable.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; (5) Support Requested; and (6) Diversity and Cultural Competence. In making grant awards under this Section, preference will be given to any qualified applicant with a project that will substantially benefit rural or underserved

populations or help meet public health nursing needs in State or local health departments. This preference will only be applied to applications that rank above the 80th percentile of applications recommended for approval. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.251 UNIVERSAL NEWBORN HEARING SCREENING

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 399M of the PHS Act, (42 U.S.C. 280g-1), as amended by the Early Hearing Detection and Intervention Act of 2010.

OBJECTIVES:

This program supports state and territory programs in developing a comprehensive and coordinated system of care targeted toward ensuring that newborns and infants receive appropriate timely services including continuous screening, evaluation, diagnosis and early intervention services. Additionally, family engagement and leadership is also a focus of this program, as families have a unique perspective on how the system currently affects them personally and can provide invaluable insight on the strategies that can be implemented to improve the system. The Universal Newborn Hearing Screening (UNHS) program also provides support to two organizations that assist the grantees/territories with technical assistance.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

This program supports state and territory programs in developing a comprehensive and coordinated system of care targeted toward ensuring that newborns and infants receive appropriate timely services including continuous screening, evaluation, diagnosis and early intervention services. Additionally, family engagement and leadership is also a focus of this program, as families have a unique perspective on how the system currently affects them personally and can provide invaluable insight on the strategies that can be implemented to improve the system. Program initiatives include health care professional engagement; partnering and coordinating with early interventions services; and active family engagement within the Early Hearing Detection and Intervention (EHDI) system. States/territories should have relationships with pertinent partners including Title V programs, early intervention programs, home visiting programs, and family organizations.

Applicant Eligibility:

Grants to states/territories and cooperative agreements to two organizations that will provide technical assistance.

Beneficiary Eligibility:

Infants and newborns who are deaf or hard of hearing and their families/caretakers.

Credentials/Documentation:

93.255 CHILDREN'S HOSPITALS GRADUATE MEDICAL EDUCATION PAYMENT PROGRAM

CHGME Payment Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 340E of the Public Health Service Act (42 U.S.C. 256e), Public Law 109-307 as amended by the Children's Hospital GME Support Reauthorization Act of 2013.

OBJECTIVES:

The Children's Hospitals Graduate Medical Education (CHGME) Payment Program provides funds to freestanding children's teaching hospitals to support

the training of pediatric and other residents in graduate medical education (GME) programs. Federal funding for graduate medical education (GME) is extensively provided by the Centers for Medicare and Medicaid Services (CMS). Prior to the enactment of the CHGME Payment Program, children's teaching hospitals received a disproportionately low amount of this federal funding when compared to teaching hospitals that serve adult patients. The purpose of the CHGME Payment Program is to compensate for the disparity in the level of federal funding for pediatric teaching hospitals versus other types of teaching hospitals. The CHGME Payment Program is administered by the Bureau of Health Workforce (BHW), Health Resources and Services Administration (HRSA), Department of Health and Human Services (DHHS).

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Funds are restricted to eligible children's hospitals for direct expenses and the other indirect expenses associated with operating approved graduate medical residency programs.

Applicant Eligibility:

Applicants (children's teaching hospitals) must meet the following eligibility requirements in accordance with the Federal Register Notice, Vol. 66, No. 41 published on March 1, 2001: (1) Participate in an approved graduate medical education residency training program; (2) have a Medicare provider payment agreement as defined by section 340E(g)(2) of the PHS Act; (3) be excluded from the Medicare Inpatient Prospective Payment System (PPS) under Section 1886(d)(1)(B)(iii), of the Social Security Act and its accompanying regulations; and (4) be a "freestanding" children's hospital. The Children's Hospital GME Support Reauthorization Act of 2013 has expanded the eligibility to include freestanding hospitals 1) with a Medicare payment agreement and that is excluded from the Medicare inpatient hospital prospective payment system pursuant to section 1886(d)(1)(B) of the Social Security Act and its accompanying regulations; 2) whose inpatients are predominantly individuals under 18 years of age; 3) that has an approved medical residency training program as defined in section 1886(h)(5)(A) of the Social Security Act; and 4) that is not otherwise qualified to receive payments under this section or section 1886(h) of the Social Security Act. The reauthorization permits the Secretary, to make available up to 25% of the total amounts in excess of \$245,000,000, but not to exceed \$7,000,000, for the purpose of making CHGME payments to these Newly Qualified Hospitals. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Any public or private nonprofit and profit freestanding children's teaching hospital with an accredited residency training program which meets all eligibility requirements may apply.

Credentials/Documentation:

Applicants should review the individual HRSA funding opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted with an application package. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. HRSA requires all applicants to apply electronically through Grants.gov.

All eligible, qualified applications are reviewed by HRSA Staff. Notification is made in writing by a Notice of Award.

The CHGME Payment Program statute requires a yearly assessment of the full-time (FTE) resident counts reported by children hospitals. Fiscal

intermediaries working under contract to HRSA assess those reported FTE resident counts. Final grant payment determinations are based on the final audited numbers.

Award Procedure:

Notification is made in writing (electronic) by a Notice of Award (NOA).

Section 340E(a) requires the Secretary of DHHS to make payments for direct and indirect expenses associated with operating approved graduate medical residency training programs for each fiscal year. The two statutory formulas (direct medical education and indirect medical education) outline payments to eligible children's teaching hospitals.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days after receipt of applications.

Appeals:

Hospitals can appeal the determination of FTE resident counts by CHGME fiscal intermediaries to the Provider Reimbursement Review Board (PRRB) under section 1878 of the Social Security Act.

Renewals:

Eligible children's hospitals must complete a CHGME Payment Program application for inclusion in the program for each fiscal year that they are applying for funds. They must also submit a reconciliation application that will reflect the Secretary determination of the Final FTE resident counts carried out by CHGME fiscal intermediaries led by a contractor. The contractor is under contract to the Bureau of Health Workforce (BHW) to conduct the assessments of residents counts reported by children's hospitals on their initial applications for funds.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

In accordance with the Healthcare Research and Quality Act, 1999, Public Law 106-129, the Secretary of DHHS shall determine the number of resident FTE counts before the beginning of each fiscal year that payments are made for a hospital. The amounts of the payments for direct and indirect medical education are made to each hospital in 12 equal interim installments during the Federal fiscal year. See the following for information on how assistance is awarded/released: Both interim payments (prior to audits) and final payments are computed using a zero sum gain payment model. The calculations of both direct and indirect graduate medical education payments are formula based. Once payments are determined, recipients drawdown funds, as necessary, from the Payment Management System (PMS), the centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. Public Law 109-307 requires children's hospitals receiving CHGME payments to submit an annual report that focuses on their GME training programs. The children's hospitals comply with the Government Performance Result Act (GPRA) and submit performance data each fiscal year as part of their reconciliation applications for funds. The awardee will also be required to submit an annual performance report.

A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. Cash reports are not applicable. No progress reports are required. No expenditure reports are required. Performance monitoring is not applicable.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. DHHS, or any other authorized federal agency, may conduct an audit to determine whether the applicant has complied with all governing laws and regulations in its application for funding. Any and all information submitted to DHHS by an applicant or participating hospital during or after the

award of funds is subject to review in an audit. Eligible hospitals are subjected to the terms of the Full-Time Equivalent Assessment Process Guidance and Assessments which is available electronically via CHGME Payment Program web site noted in Application Procedure above.

Records:

Recipients are required to maintain grant accounting records for 3 years after the date they submit the Federal Financial Report (FFR). If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the 3 year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3 year period, whichever is later.

Obligations:

(Direct Payments for Specified Use) FY 16 \$279,033,446; FY 17 est \$294,439,000; and FY 18 est \$295,000,000

Range and Average of Financial Assistance:

Range: \$39,000-\$17,786,000; average \$4,798,000 in combined DME and IME payments.

TAFS Codes:

75-0350.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: In Academic Year 2015-2016, the CHGME program supported the training of 5,017 pediatric residents that included general pediatrics residents, as well as residents from five types of combined pediatrics programs (e.g., internal medicine/ pediatrics). Additionally, 2,713 pediatric medical subspecialists, 285 pediatric surgical subspecialists, and 365 pediatric dentistry residents were trained. The CHGME also supported training of 3,120 non-pediatric residents and fellows in the care of children. CHGME-funded medical residents and fellows provided a total of 2,075,887 patient encounters in primary care settings and a total of 4,799,074 patient contact hours in medically underserved communities. 93.257 GRANTS FOR EDUCATION, PREVENTION, AND EARLY DETECTION OF RADIOGENIC CANCERS AND DISEASES

Radiation Exposure Screening and Education Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 417C of the Public Health Service Act, 42 U.S.C. 285a-9, as amended by the Radiation Exposure Compensation Act Amendments of 2000 (P. L. 106-245).

OBJECTIVES:

To award grants for the purpose of enabling awardees to carry out programs for: (1) screening individuals described under section 4 (a)(1)(A)(i) or 5(a)(1)(A) of the Radiation Exposure Compensation Act (42 U.S.C. 2210 note) for cancer as a preventative health measure; (2) providing appropriate referrals for medical treatment of individuals screened under paragraph (1) and to ensure, to the extent practicable, the provision of appropriate follow-up services; (3) developing and disseminating public information and education programs for the detection, prevention, and treatment of radiogenic cancers and diseases; and facilitating applicants in the documentation of claims as described in section 5(a) of the Radiation Exposure Compensation Act (41 U.S.C. 2210 note).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants are awarded to organizations that develop new or expand existing capacity to provide screening, referrals for medical treatment, education, and eligibility assistance for eligible individuals. Restrictions on the Use of Grant Funds: (1) grant funds may not be used to pay for inpatient services; (2) grant funds may not be used to make cash payments to intended recipients of primary health care services or specialty care; (3) grant funds may not be used to supplant other provider/third party coverage payments available to the patient; and (4) grant funds may not be used to purchase or improve real property (other than minor remodeling of existing improvements to real property) or to purchase major medical equipment without the approval of the HRSA Grants Management Office.

Applicant Eligibility:

The following entities, (located within the approved states of Arizona, Colorado, Idaho, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Texas, Utah, Washington or Wyoming) are eligible to apply for the funds:

Notification is made in writing by a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Not Applicable.

Renewals:

RESEP awards may be made for up to 3-year project periods. Subject to availability of funds, after initial awards, projects may be renewed non-competitively contingent upon submission and approval of an application, availability of appropriated funds, and awardee's satisfactory performance.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Awards are made annually. After funds are issued, funds are released in accordance with payment procedures of DHHS, which may be an Electronic Transfer System or monthly cash request system. See the following for information on how assistance is awarded/released: Awardees drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

Grantees are required to submit an annual report that describes the utilization costs of services provided under the grant, and provide such other information as the Secretary determines appropriate. No cash reports are required. Awardees are required to submit an annual report that describes the utilization costs of services provided under the grant, and provide such other information as the Secretary determines appropriate. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule:

<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrschedule.pdf>. A final report is due within 90 days after the project period ends.

If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. No expenditure reports are required. Awardees will be required to submit a Performance Improvement Measurement System (PIMS) report through the EHB once a year throughout their project period. A Non-competing Continuation report is required once a year throughout their project period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. 93.259 RURAL ACCESS TO EMERGENCY DEVICES GRANT AND PUBLIC ACCESS TO DEFIBRILLATION DEMONSTRATION GRANT RAED & PADDP**FEDERAL AGENCY:**

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Improvement Act Title IV Cardiac Arrest Survival, Subtitle B Rural Access to Emergency Devices, Section 413, Public Law 106-505 (42 U.S.C. 254c); Section 313 of the Public Health Service Act, (42 U.S.C. 245); P.L. 107-188 and P.L. 111-8, Section 4.

OBJECTIVES:

The purpose of the Rural Access to Emergency Devices (RAED) Grant Program is to (1) purchase automated external defibrillators (AEDs) that have been approved, or cleared for marketing, by the Food and Drug Administration; (2) provide defibrillator and basic life support training in automated external defibrillator usage through the American Heart Association, the American Red Cross, or other nationally recognized training courses, and (3) place the AEDs in rural communities with local organizations.

The Public Access Defibrillation Demonstration Project (PADDP) grant program supports innovative, comprehensive, community-based public access

defibrillation demonstration projects that: (1) provide cardiopulmonary resuscitation and automated external defibrillation to cardiac arrest victims in unique settings; (2) provide training to community members in cardiopulmonary resuscitation and automated external defibrillation; and (3) maximize community access to automated external defibrillators (AED).

The purpose of the Rural Opioid Overdose Reversal (ROOR) Grant Program is to reduce the incidences of morbidity and mortality related to opioid overdoses in rural communities through the purchase and placement of emergency devices used to rapidly reverse the effects of opioid overdoses and training of licensed healthcare professionals and emergency responders on their use.

TYPES OF ASSISTANCE:**PROJECT GRANTS****USES AND USE RESTRICTIONS:**

All funds awarded are to be expended solely for the purposes outlined in the approved projects.

Applicant Eligibility:

RAED program: Awards will be made to community partnerships for purchase, placement and training for AEDs in eligible rural areas. These partnerships are defined as a consortium of first responders (e.g., EMS, law enforcement and fire departments) and local for-profit and nonprofit entities that may include but are not limited to, long-term care facilities, rural health clinics, community health centers, post offices, libraries and other civic centers, athletic facilities, senior citizen and day care facilities, faith-based organizations and schools without AEDs. An applicant must be part of a statewide, regional or multi-county consortium or rural community organization applying as a community partnership. In addition to eligible rural areas in the 50 States, applicants or members of the partnership can be located in the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Territories of the Virgin Islands, Guam, American Samoa, and the Compact Free Association Jurisdictions of the Republic of the Marshall Islands, the Republic of Palau and the Federated States of Micronesia. Federally-Recognized Indian Tribal Government and Native American Organizations are eligible to apply as long as they meet the eligibility requirements.

PADDP program: Awards will be made to applicants for the purchase and placement of AEDs and for training on the use of the AEDs and cardiopulmonary resuscitation. An applicant must be a political subdivision of a State, a Federally Recognized Native American Organization, or a Federally Recognized Indian Tribal Government.

Rural Opioid Overdose Reversal (ROOR) program: Awards will be made to community partnerships comprised of local emergency responders, and other local non-profit and for profit entities involved in the prevention and treatment of opioid overdoses. In addition to eligible rural areas in the 50 States, applicants or members of the partnership can be located in the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Territories of the Virgin Islands, Guam, American Samoa, and the Compact Free Association Jurisdictions of the Republic of the Marshall Islands, the Republic of Palau and the Federated States of Micronesia. Federally-Recognized Indian Tribal Government and Native American Organizations are eligible to apply as long as they meet the eligibility requirements.

Beneficiary Eligibility:

See above.

Credentials/Documentation:

Applicants should review the individual HRSA funding opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

93.261 SCALING THE NATIONAL DIABETES PREVENTION PROGRAM TO PRIORITY POPULATIONS

National Diabetes Prevention Program

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Section 317(k)(2) of the Public Health Service Act (PHS Act), 42 U.S.C. 247b (k)(2); Section 301(a) of the PHS Act, 42 U.S.C. 241(a).

OBJECTIVES:

The purpose of this funding announcement is to scale (expand) and sustain the National Diabetes Prevention Program (National DPP). Scaling and sustaining the National DPP includes: Establish an evidence-based lifestyle change program in multiple states for populations at high risk for type 2 diabetes that meet the standards outlined in the CDC Diabetes Prevention Recognition

Program Standards and Operating Procedures (DPRP Standards) available at www.cdc.gov/diabetes/prevention/recognition; Recruit and facilitate training of lifestyle coaches to deliver the evidence-based lifestyle change program; Educate employers in multiple states about the benefits and cost-savings of offering the evidence-based lifestyle change program as a covered health benefit for employees; Educate public and private health insurance companies about the benefits and cost-savings of reimbursing organizations delivering the evidence-based lifestyle change program using a pay-for-performance model; Develop and implement strategic marketing and promotional activities to increase awareness and referrals to the evidence-based lifestyle change program; Sustain the evidence-based lifestyle change program without government grant funds when this cooperative agreement ends, through securing voluntary reimbursement from public and private health insurance companies for organizations delivering the evidence-based lifestyle change program using a pay-for-performance model; Ensure that each intervention site offering the evidence-based lifestyle change program under this FOA will obtain recognition from the CDC DPRP. CDC Diabetes Prevention Recognition Program Standards and Operating Procedures (DPRP Standards) available at www.cdc.gov/diabetes/prevention/recognition; Ensure that each intervention site offering the evidence-based lifestyle change program has the capacity to collect participant information and maintain a data collection system as outlined in the CDC Diabetes Prevention Recognition Program Standards and Operating Procedures (DPRP Standards) available at www.cdc.gov/diabetes/prevention/recognition.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The award recipients will be expected to develop, implement, market, and evaluate a comprehensive plan for scaling the National DPP lifestyle change program in select communities. The awardees will identify and engage organizations and/or employers that have capacity to offer the National DPP lifestyle change program and facilitate the establishment of the National DPP lifestyle change program, in collaboration with these organizations and/or employers. Awardees will also work with insurance companies to reimburse organizations offering the National DPP lifestyle change program through this cooperative agreement and work with employers and insurers to offer the National DPP lifestyle change program using pay for performance model. Also, they may work with employers to offer the National DPP lifestyle change program as a covered benefit for employees. The awardees will be expected to develop, implement and evaluate marketing and communications strategies to promote the National DPP lifestyle change program, educate health care providers about the program and encourage provider referrals to National DPP lifestyle change programs. Funds may be used to support scaling the National DPP lifestyle change programs in select communities described in Section 050 above. The use of and use restrictions are as follows: Recipients may not use funds for research. Recipients may not use funds for the provision of health care services. Recipients may not generally use funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget. The recipient must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award to another party or provider who is ineligible. Recipients may not use funds for construction.

Applicant Eligibility:

Nonprofit Organizations
For-Profit Organizations
Indian/Native American Tribal Governments
Faith-based Organizations.

Beneficiary Eligibility:

Any U.S. state, political subdivision and U.S. territories (as described above), and other public entities will benefit.

93.262 OCCUPATIONAL SAFETY AND HEALTH PROGRAM

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Federal Mine Safety and Health Act, Section 501(a), 30 U.S.C 1(NOTE) & 951(a); Occupational Safety and Health Act of 1970, Section 20(a) and 21(a), 29 U.S.C 669(a) & 670(a); Public Health Service Act, Section 301(a) and 405, 42

U.S.C 241 and 284; Executive Order Federal Regulations 42 CFR 52 and 45, Part 74 and 92.

OBJECTIVES:

To (1) recognize new hazards; (2) define the magnitude of the problem; (3) follow trends in incidence; (4) target exceptional hazardous workplaces for intervention; and (5) evaluate the effectiveness of prevention efforts. The goal of this program is to increase worker safety and health. To develop specialized professional and paraprofessional personnel in the occupational safety and health field with training in occupational medicine, occupational health nursing, industrial hygiene, occupational safety, and other priority training areas. To perform medical monitoring and treatment for World Trade Center Responders and non-Responders and to create a Registry of affected workers.

TYPES OF ASSISTANCE:

Project Grants; Training

USES AND USE RESTRICTIONS:

Research grants and cooperative agreements are intended to support the direct costs of a project, in accordance with an approved budget, plus an appropriate amount for indirect costs. Training grants: Funds may be used for long term training programs and/or education and research centers. Support is provided for the direct costs of the program, plus certain indirect costs determined by Public Health Service policy on training programs. Amounts of stipends and other details are in accordance with Public Health Service policy. SBIR Phase I grants (of approximately 6-months duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support.

Applicant Eligibility:

Eligible applicants include for-profit or non-profit organizations, public or private institutions, such as universities, colleges, hospitals, and laboratories, units of State and local governments, eligible agencies of the Federal government, domestic or foreign institutions/organizations, faith-based organizations, Indian Tribes, Tribal Government, College and/or Organizations. Racial/ethnic minority individuals, women, and persons with disabilities are encouraged to apply as Principal Investigators. Training Grants: Any public or private educational institution or agency that has demonstrated competency in occupational safety and health training at the technical, professional, or graduate level may apply. Trainees must be admissible to the grantee institution and must be enrolled in occupational safety and health training programs. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees). For SBIR grants primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

Beneficiary Eligibility:

Research institutions and agencies as well as workers affected by occupational hazards.

Credentials/Documentation:

Applications must be signed by appropriate officials of the submitting institution. For-profit organizations' costs are determined in accordance with 48 CFR Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined by HHS Regulations 45 CFR Part 74, Subpart Q. For SBIR grants applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform

Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications are prepared and submitted following instructions provided in Funding Opportunity Announcements (FOAs). NIOSH publishes FOAs at <http://www.Grants.gov>, and in the NIH Guide for Grants and Contracts at <http://grants1.nih.gov/grants/guide/index.html>. Grants.gov is the portal for applications. Appropriate forms are specified in each FOA. Research and training programs utilize either the SF-424 R&R for electronic submission or the PHS 398 application form and instructions which are available on the Internet at: <http://grants1.nih.gov/grants/forms.htm>.

Award Procedure:

Awards are made on the basis of a two-step review of an investigator-prepared application. Applications are initially reviewed for scientific and technical merit by a scientific peer review group. The second level of review is performed by the NIOSH Secondary Review Committee for program relevance. Final approval of funding recommendations is made by the Director, NIOSH.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Research Grants and Awards: 7-9 months. Training Grants: 9-10 months. SBIR: 7-8 months.

Appeals:

From 120 to 180 days. A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff in the NIOSH Office of Extramural Programs.

Renewals:

> 180 Days. Support is recommended for a specified project period, usually not in excess of 5 years. Prior to the end of a project period, the grantee may apply for renewal of support for a new project period. Applications for renewal (competing continuation, Type 2) will be reviewed in the same manner as a new application and will compete for available funds with other applications.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Research and Training Grants and Cooperative Agreements may be awarded for project periods ranging from one to five years depending on the recommendations of the scientific review group and the Secondary Review Committee, and on demonstration of successful performance and the availability of funds. SBIR Grants: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. See the following for information on how assistance is awarded/released: Notice of Grant Award.

Reports:

Terminal progress report (including citations of all resulting publications) within 90 days after end of project support. Cash reports are not applicable. Interim progress reports (including citations of all resulting publications) annually as part of a non-competing continuation application for previously recommended support. Annual financial status report within 90 days after the conclusion of each budget period. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

Financial records, including documents to support entries on accounting records and to substantiate charges to each grant, must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for three years after the end of each budget period. If questions

still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

The major elements in evaluating proposals include assessments of: (1) the scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to stated program objectives. Training Grants: Criteria used in evaluating training proposals include: (1) Overall potential contribution of the project toward meeting program objectives; (2) the need for training in the areas outlined in the application; (3) curriculum content and design; (4) previous record of training; (5) evaluation methods; (6) experience and training of the project director and staff; (7) institutional commitment; (8) academic and physical environment; (9) past performance; and (10) appropriateness of budget. The following criteria will be used in considering the scientific and technical merit of SBIR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the

proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.264 NURSE FACULTY LOAN PROGRAM (NFLP)

NFLP

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Sections 846A (42 U.S.C. 297n-1) and Section 847(f) (42 U.S.C. 297o(f)) of the Public Health Service Act.

OBJECTIVES:

The Nurse Faculty Loan Program (NFLP) is a loan forgiveness program which aims to increase the number of qualified nursing faculty. Schools of Nursing that receive NFLP funding must provide loans to students enrolled in eligible advanced degree nursing programs (masters or doctoral) with coursework that uniquely prepares students to serve as full-time nurse faculty at accredited schools of nursing. NFLP student borrowers who complete these programs and secure post-graduate employment as nurse faculty receive forgiveness of up to 85% of the NFLP loan while serving as full-time nurse faculty at an accredited school of nursing.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

NFLP grantees must establish a distinct NFLP loan fund for the purpose of making NFLP loans to eligible students enrolled in advanced degree nursing programs who are committed to become qualified nurse faculty and for the costs associated with collection of these loans. Institutions may award a maximum loan amount of \$35,500 per student for an academic year to support the cost of tuition, fees, books, and other reasonable education expenses, not to exceed five years of NFLP loan support to a single student. Upon completion of the program and following graduation, an amount up to 85 percent of the loan (principal and interest on) may be cancelled by the institution as follows: 20 percent upon completion of the first, second, and third years of full-time faculty employment in an accredited school of nursing; and 25 percent upon completion of the fourth year of full-time employment as faculty in an accredited school of nursing.

Applicant Eligibility:

Eligible applicants are accredited public or private collegiate schools of nursing or departments within an academic institution, that offer graduate degree nursing education programs (master's or doctoral) that include educator-focused coursework within the program of study that will prepare the graduate student to serve as nurse faculty. The school must be located in the 50 States, the Commonwealth of Puerto Rico, the District of Columbia, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau. Funding priority is given to applicants with doctoral-level advanced degree nursing programs.

Beneficiary Eligibility:

Eligible nursing students must: (1) be a citizen or national of the United States,

or a lawful permanent resident of the United States, the Commonwealth of Puerto Rico, the District of Columbia, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau; (2) be enrolled in an advanced degree program in nursing to become qualified nursing faculty; (3) not be in default on a Federal debt; and (4) maintain good academic standing.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.266 HEALTH SYSTEMS STRENGTHENING AND HIV/AIDS PREVENTION, CARE AND TREATMENT UNDER THE PRESIDENT'S EMERGENCY PLAN FOR AIDS RELIEF

Global HIV/AIDS Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Law 108-25 (the United States Leadership Against HIV/AIDS, Tuberculosis and Malaria Act of 2003) [22 U.S.C. 7601, et seq.]; and Public Law 110-293 (the Tom Lantos and Henry J. Hyde United States Global Leadership Against HIV/AIDS, Tuberculosis, and Malaria Reauthorization Act of 2008), as reauthorized and amended by Public Law 113-56 (the PEPFAR Stewardship and Oversight Act of 2013).

OBJECTIVES:

Fund human resources for health, quality improvement and other health system strengthening activities in countries hit hardest by HIV/AIDS through the President's Emergency Plan for AIDS Relief (PEPFAR). Objectives include:

- (1) Training and technical assistance to build and strengthen care programs and health systems, so that affected countries can maintain programs over time and deliver quality HIV/AIDS care; build infrastructures such as clinic monitoring, health information systems, and medical and nursing education.
- (2) Enhance models of medical, nursing and midwifery education.
- (3) Develop partnerships between experts in the U.S. and people and institutions overseas to build skills and prepare host countries so that they may better manage their own programs over the long term.

Health Systems Strengthening Programs:

- (1) International Twinning Center (CoAg)
- (2) Quality Improvement Capacity for Impact Project (CoAg)
- (3) International AIDS Education and Training Center (CoAg)
- (4) Resilient and Responsive Health Systems Initiative (CoAg)
- (5) Resilient and Responsive Health Organizations Initiative: Sustainability Communities of Practice Initiative (CoAg)

93.267 STATE GRANTS FOR PROTECTION AND ADVOCACY SERVICES

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title XII, Section 1253, as amended by the Childrens Health Act of 2000, sec.1304, PL 106-310, as further amended by the Traumatic Brain Injury Act of 2008, sec. 6(b), PL 110-206.

OBJECTIVES:

To make grants to Protection and Advocacy systems as established in each State for the purpose of enabling such systems to provide services to individuals with traumatic brain injury which may include: (1) information, referrals, and advice, (2) individual and family advocacy, (3) legal representation, and (4) specific assistance in self-advocacy.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

This program was transferred from HRSA to ACL on October 1, 2015. The transfer was made in order to be responsive to Congressional intent in the most recent reauthorization of the Traumatic Brain Injury (TBI) Act in 2014 and to the needs of individuals with TBI. The transfer was a part of a consolidation of several TBI programs in ACL to promote coordination and efficiency for both the federal government and grantees.

Funds may be used to plan for, develop outreach strategies for, and carry out services for individuals with traumatic brain injury as authorized in the Section 1253 of the PHS Act. Grant funds must supplement, not supplant, nonfederal funds available in the State in which the protection and advocacy system is established.

Applicant Eligibility:

State and Territory-designated Protection and Advocacy Systems, Federally Recognized Indian Tribal Government, and Native American Organizations are eligible applicants for State PATBI funding.

Beneficiary Eligibility:

Individuals with traumatic brain injury.

Credentials/Documentation:

Applicants should review the individual notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Statutory Formula: Title Public Health Service Act, Chapter 1253.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The project period for these grants is up to 48 months. Each allotment is available for obligation over a 24-month period; payments are made through an Electronic Transfer System. See the following for information on how assistance is awarded/released: Grantees drawdown funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards.

Reports:

The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule:

<http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrschedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under the notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. Cash reports are not applicable. Progress reports are not applicable. No expenditure reports are required. No performance monitoring is required.

93.270 VIRAL HEPATITIS PREVENTION AND CONTROL

Viral Hepatitis Prevention, Screening, Linkage to Care, and Education

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Sections 301 and 317K(k)(2) of the Public Health Service Act (42 U.S.C. section 241 and 274b-15), as amended.

OBJECTIVES:

Program activities under this funding will allow for CDC to partner with multiple organizations to benefit individuals by substantially reducing viral hepatitis transmission, identifying those that are acutely and chronically infected, and linking infected individuals with treatment if appropriate. Specifically, the program activities may include but are not limited to:

1. Increasing the proportion of persons living with HCV and HBV who are aware of their infection and referred for prevention and clinical care services.
2. Expanding and improving efforts to develop and disseminate viral hepatitis training and educational materials targeting the public and private sector health care professionals to build capacity to assess, test and medically manage populations at risk for chronic HCV and HBV infection.
3. Supporting state and local health departments and other organizations in linking HCV infected persons to community health centers, clinics serving injection drug users, and other health organizations seeing individuals potentially infected with chronic viral hepatitis.
4. Increase the number of reported incidence cases being reported in state and local health departments.
5. Additional support will be provided for program monitoring, evaluation, capacity building, and technical assistance, along with support for acute and chronic viral hepatitis surveillance.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used for costs associated with establishing and maintaining a prevention and control program directed towards prevention of viral hepatitis infections and their manifestations. Recipients may only expend funds for reasonable policies, systems and program purposes including personnel, travel, supplies and services, such as reducing transmission of HAV, HBV and HCV, preventing and delaying the progress of chronic infection, as well as educating and training of the general public and health care providers. Recipients may not use funds for clinical care. Recipients may not generally use funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget. The recipient must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award in another party or provider who is eligible.

Applicant Eligibility:

Applicants include State or local governments or their Bona Fide Agents, public and private nonprofit organizations, for profit organizations, small, minority, women-owned businesses, universities, colleges, research institutions, hospitals, community-based organizations, faith based organizations, Federally recognized Indian tribal governments, Indian tribes, and Indian tribal organizations. Additional guidance may be provided in individual program announcements.

Beneficiary Eligibility:

The individual will benefit from the objectives of this program as well as the community at large, and society from the savings realized from treating those who are infected with viral hepatitis.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants must download application forms from www.Grants.gov. Applications must be submitted electronically at www.Grants.gov. If an applicant does not have access to the Internet, or if they have difficulty accessing the forms on-line, contact the CDC Office of Grant Services Technical Information Management Section (OGS-TIMS) staff. For this, or further assistance, contact OGS-TIMS: Telephone (770) 488-2700, Email: ogstims@cdc.gov.

Award Procedure:

Successful applicants will receive a Notice of Award (NoA) from the CDC Office of Grants Services. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized Grants Management Officer and emailed to the program director, and a hard copy mailed to the recipient fiscal officer identified in the application.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. Deadline for submission of applications will be between 30-60 days from date of publication.

Awards will range from approximately \$30,000 to \$500,000, with an average award of \$150,000.

TAFS Codes:

75-15-0950.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: Funds were provided for hepatitis B and C testing and linkage to care activities, and to characterize the hepatitis C increase among injection drug users as well as continued support for viral hepatitis surveillance, prevention and education. Fiscal Year 2017: CDC's Division of Viral Hepatitis anticipates funding will continue to be provided for hepatitis B and C testing and linkage to care activities, and to characterize the hepatitis C increase among injection drug users as well as continued support for viral hepatitis surveillance, prevention and education. Fiscal Year 2018: Funding will continue to be provided for hepatitis B and C testing and linkage to care activities, and to characterize the hepatitis C increase among injection drug users as well as continued support for viral hepatitis surveillance, prevention and education.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2016: CDC's Division of Viral Hepatitis supported funding 54 grantees to conduct hepatitis prevention and surveillance activities as well as a several educational projects and projects that identify and screen chronically infected hepatitis B and C patients and link them to care. Fiscal Year 2017: CDC's Division of Viral Hepatitis supports funding 50 grantees to conduct hepatitis prevention and surveillance activities as well as a several educational projects and projects that identify and screen chronically infected hepatitis B and C patients and link them to care. Fiscal Year 2018: CDC's Division of Viral Hepatitis is anticipating funding 50 grantees to conduct hepatitis prevention and surveillance activities as well as a several educational projects and projects that identify and screen chronically infected hepatitis B and C patients and link them to care.

CRITERIA FOR SELECTING PROPOSALS:

Applications will be reviewed for completeness by the Office of Grants Services (OGS) staff and for responsiveness jointly by Division of Viral Hepatitis (DVH), NCHHSTP. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicant will be notified that the application did not meet submission requirements.

CDC will conduct a review to evaluate complete and responsive applications

according to the criteria listed in Section V. Application and Submission information, subsection Evaluation Criteria within the individual funding opportunity announcement.

93.273 ALCOHOL RESEARCH PROGRAMS

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, as amended, Sections 301 and 464H, and 42 U.S.C. 290Gb; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564, Public Law 78-410, 42 U.S.C. 241.

OBJECTIVES:

To develop a sound fundamental knowledge base which can be applied to the development of improved methods of treatment and more effective strategies for preventing alcoholism and alcohol-related problems. The National Institute on Alcohol Abuse and Alcoholism (NIAAA) supports research in a broad range of disciplines and subject areas related to biomedical and genetic factors, psychological and environmental factors, alcohol-related problems and medical disorders, health services research, and prevention and treatment research. Small Business Innovation Research (SBIR) program: to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Small Business Technology Transfer (STTR) program: To stimulate and foster scientific and technological innovation and technology transfer through cooperative research and development carried out between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

(1) Research Project Grants provide support for clearly defined projects or a small group of related activities, and when appropriate, support of conferences; (2) Program Project Grants are for large-scale, broad-based programs of research, usually interdisciplinary, consisting of several projects with a common focus; (3) Small Grants are for small-scale exploratory and pilot studies or exploration of an unusual research opportunity; Small Grants are limited to \$50,000 for direct costs for a period of up to 2 years; (4) Exploratory/Developmental Grants are limited for a period of up to 2 years, and a maximum of \$275,000 for direct costs for the entire 2- year period. Funds may be used only for expenses directly related to the approved research project. SBIR Phase I grants (of approximately 6- months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or processes. Phase II grants are for the continuation of the research initiated in Phase I, and that are likely to result in commercial products or processes. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of Phase II application; (5). Alcohol Research Center Grants, and Alcohol Research Resource Centers provide long-term support for a concerted and multi-disciplinary research effort into the problems of alcohol use and alcoholism by coordinating the activities of investigators from biomedical, behavioral, and social science disciplines around a basic research theme. An alcohol research center is expected to realize its greater potential for contributing to the basic store of knowledge about alcohol and alcoholism and to become a significant regional and national resource; (6) Training and Research Career Development awards - Mentored Research Scientist Development Awards (K01), Mentored Clinical Scientist Development Awards (K08), and Independent Scientist Awards (K02) provide support for individuals with research potential who need additional

development and/or experience in a productive research environment. Mentored Patient-Oriented Research Career Development Award (K23) and Mid-career Investigator Award in Patient Oriented Research (K24) and Mentored Quantitative Research Career Development Award (K25) are also available. Senior Scientist Awards (K05) are also available to enable senior investigators to devote full-time to research. Academic Career Awards (K07) are also available for clinical faculty development; and (7) Alcohol National Research Service Awards for Research Training awards to assure the maintenance of an adequate supply of well-trained alcohol researchers through the award of both individual fellowships and grants to training institutions for support of training at both the pre-doctoral and postdoctoral levels and for Senior Fellowships and M.D./Ph.D. Fellowships. Special pre-doctoral fellowships are also available for students with disabilities and for minority students.

Applicant Eligibility:

Public or private profit and nonprofit agencies, including State, local, or regional government agencies, universities, colleges, hospitals, academic or research institutions may apply for research grants. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Public, profit and nonprofit private organizations.

Credentials/Documentation:

For-profit grantees' costs will be determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulation 45 CFR Part 74, Subpart C, Section 74.27. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Grant forms PHS 6246-1 and PHS 6246-2 are used to apply for SBIR Phase I and Phase II, respectively. Grant forms PHS 6246-3 and PHS 6246-4 are used to apply for STTR Phase I and Phase II, respectively. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The standard application forms, as furnished by PHS, must be used by grant applicants. Application kits, containing the necessary forms and instructions, if not available at the applicant institution, may be obtained from the NIAAA. Consultation on proposed projects is also available. Preapplication consultation with NIAAA staff is required before submission of a Program Project grant application or any unsolicited new grant application requesting \$500,000 or more direct costs in any one year. Applications are reviewed by nonfederal consultants recruited nationwide. The amount of the award and period of support are determined on the basis of the merit of the project. This program is subject to the provisions of 45 CFR Part 92 for State and local

governments and OMB Circular No. A-110 for nonprofit organizations. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Funding Opportunities" home page at www.nih.gov/grants/funding/sbir.htm on the World Wide Web. A limited number of hard copies of these publications are produced. Subject to availability, they may be obtained by contacting the NIH support services contractor: Telephone: (301) 206-9385; Fax: (301) 206-9722; E-mail: a2y@cu.nih.gov. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms. SBIR and STTR grant applications should be submitted to the Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710.

Award Procedure:

Research Grants in support of projects recommended for approval by the National Advisory Council on Alcohol Abuse and Alcoholism and approved for payment are awarded directly by the NIAAA to the applicant institution. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 240 to 270 days from submission of application for grant support. SBIR/STTR applications about 7-1/2 months. AIDS related research applications about 6 months.

Appeals:

A principal investigator may appeal the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeals procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Support is recommended for a specified project period, usually not in excess of 5 years. Prior to termination of a project period, the grantee may apply for renewal of support for a new project period. An application for renewal is processed as a competing request. Small Grants and Exploratory/Developmental Grants are not renewable, but grantees may apply for research project grants on the same topics.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Varies, but a project period is generally limited to 5 years or less. Grantee may apply for renewal of support on a competing basis. Within the project period, continuation applications must be submitted on a non-competing basis for each year of approved support. Small Grants are limited to 2 years or less and are not renewable. Exploratory/Developmental Grants are limited to 3 years or less and are not renewable. Payments will be made either on a Monthly Cash Request System or under an Electronic Transfer System. Necessary instructions for the appropriate type of payment will be issued shortly after an award is made. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. See the following for information on how assistance is awarded/released: Awards will be released electronically to applicant institution. Funds are released annually.

Reports:

Research Grants: Annual and final progress reports, including a description of results, positive and negative, and a list of any publications. Career Program: Awardee submits annual progress report. Termination notice, PHS 416-7, must be submitted upon completion of NRSA training. Reports are required after

termination of National Research Service Awards to ascertain compliance with the service and payback provisions. A Financial Status Report must be submitted within 90 days after the close of each budget period for which an award has been issued. No cash reports are required. No performance monitoring is required. No cash reports are required. Annual progress reports are required as a part of the continuation application. A final expenditure report is required at the conclusion of the project. The NIAAA Program officers will monitor performance by evaluating the annual progress report.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. "In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133."

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The following considerations will be used in determining projects to be funded: (1) Scientific and technical merit of the proposal; (2) program balance; and (3) relevance to NIAAA priorities and public health issues. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.275 SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES-ACCESS TO RECOVERY

ATR I, ATR II, ATRIII

FEDERAL AGENCY:

Substance Abuse and Mental Health Services Administration, Department of Health and Human Services

AUTHORIZATION:

The Public Health Act, Section 501(d)(5), 509, Public Law 106-310, 42 U.S.C 290aad5-290bb-2.

OBJECTIVES:

To implement voucher programs for substance abuse clinical treatment and recovery support services pursuant to sections 501 (d)(5) and 509 of Public Health Service Act (42 U.S.C. sections 290aa(d)(5) and 290bb-2). This program, called Access to Recovery (ATR), is to provide client choice among substance abuse clinical treatment and recovery support service providers, expand access to a comprehensive array of clinical treatment and recovery support options (including faith-based programmatic options), and increase substance abuse treatment capacity. Monitoring outcomes, tracking costs, and preventing waste, fraud and abuse to ensure accountability and effectiveness in the use of Federal funds are also important elements of the ATR program. Through the ATR grants, States, Territories, the District of Columbia and Tribal Organizations (hereinafter collectively referred to as "States") will have flexibility in designing and implementing voucher programs to meet the needs of clients in the State. The key to successful implementation of the voucher programs supported by the ATR grants will be the relationship between the States and clients receiving services, to ensure that clients have a genuine, free, and independent choice among eligible providers. States are encouraged to support any mixture of clinical treatment and recovery support services that can be expected to achieve the program's goal of achieving cost-effective, successful outcomes for the largest number of people.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds (including direct costs and indirect costs) may be used only for expenses clearly related and necessary to carry out approved activities. Funds may be used for 15 percent administrative cost and 85 percent voucher. Also follow the policies and procedures that applies to the eligible entity. For ATRIII, No more than 20% of the grant award may be used for administrative purposes for all ATR grantees. The 20% administrative cap is based on a four year average. Funds may be used for 15 percent administrative costs and 85 percent voucher services.

Applicant Eligibility:

Eligibility for Access to Recovery (ATR) grants is limited to the immediate office of the Chief Executive (e.g., Governor) in the States, Territories, District of Columbia; or the head of a Tribal Organization. (A "Tribal Organization" means the recognized governing body of any Indian tribe or any legally established organization of Indians, including urban Indian health boards, inter-tribal councils, or regional Indian health boards, which is controlled, sanctioned, or chartered by such governing body or which is democratically elected by the adult members of the Indian community to be served by such an organization.) The Chief Executive of the State, Territory, or District of Columbia, or the head of the Tribal Organization must sign the application. Eligibility is limited to the immediate office of these Chief Executives because only they have the authority to leverage funding across the State, implement the necessary policy changes, manage the fiscal responsibilities, and coordinate the range of programs necessary for successful implementation of the voucher programs to be funded through these grants. No more than on application from any one Chief Executive or head of a Tribal Organization will be funded.

Beneficiary Eligibility:

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Applications will be accepted for a project period of 1 to 3 years with 12-month budget periods. Annual awards will be made subject to continued availability of funds and progress achieved. See the following for information on how assistance is awarded/released: SAMHSA, Grants Management Office notifies grantees through a Notice of Award (NoA).

Reports:

Monthly program reports are required by the program officials. No cash reports are required. Quarterly progress report are required by the program officials. The (SF-425) Federal Financial Report is required by SAMHSA, Division of Grants Management 90 days after the end of each 12 month period and 90 days after the final 12 month budget period. SAMHSA monitors the grant program through Government Performance and Result Act (GPRA Government Project Officer), conference calls, site visits, and monthly and quarterly reports.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

There is a 3-year records retention requirement; records shall be retained beyond the 3-year period if final audit has not been done or findings resolved.

93.276 DRUG-FREE COMMUNITIES SUPPORT PROGRAM GRANTS

Drug Free Community Grants (DFC)

FEDERAL AGENCY:

Substance Abuse and Mental Health Services Administration, Department of Health and Human Services

AUTHORIZATION:

Drug-Free Communities Act of 1997, Public Law 105-20; Reauthorized by Public Law 107-82.

OBJECTIVES:

To increase the capacity of community coalitions to reduce substance abuse, and over time, to reduce substance abuse among adults through strengthening collaboration among communities, public, and private entities. To disseminate state-of-the-art information on practices and initiatives that have proven to be effective in reducing substance abuse among youth.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds must be used by the programs that are intended to support established community-based coalitions to work with leaders within their communities to identify and address local youth substance use problems and create sustainable community-level change.

No more than 20% of funds may be used for data collection and evaluation.

Applicant Eligibility:

Community coalitions must demonstrate that the community coalition has worked together for a period of not less than 6 months on substance abuse reduction initiatives. The coalition must: meet the composition requirements; ensure that there is substantial community volunteer effort; ensure that the coalition is a nonprofit, charitable, educational organization, or unit of local government, or is affiliated with an eligible organization or entity; possess a strategy to be self-sustaining; provide a 100-150 percent cash or in-kind match; and agree to participate in an evaluation of the coalition's program.

Beneficiary Eligibility:

Community coalitions, children, youth, and adults, those at-risk of substance abuse, and private nonprofit, and public community agencies.

Credentials/Documentation:

2 CFR 200/45 CFR Part 75 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Drug Free Community (DFC) is a collaborative initiative sponsored by Office of National Drug Control Policy (ONDCP) and Substance Abuse and Mental Health Services Administration (SAMHSA). Applications will be screened initially by ONDCP and SAMHSA to determine whether the applicant meets all the eligibility requirements. Applications submitted by eligible coalitions that meet all requirements will then be evaluated, scored, and rated by a peer review panel.

Award Procedure:

Upon approval by the Office of National Drug Control Policy and Substance Abuse and Mental Health Services Administration, a Notice of Award (NoA) signed by SAMHSA's Grants Management Officer is sent to the applicant agency. The NoA is the sole obligating document that allows the grantee to receive Federal funding for work on the grant project.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. From 1 to 4 months.

Appeals:

None.

Renewals:

Other - Not Specified.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Drug-Free Communities Support Program grants awarded under the Drug-Free Communities Act of 1997 do require a 100-150 percent cash or in-kind match depending on funding.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Under the Drug-Free Communities Act, awards will be made for one year. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Federal Cash Transaction Report (FCTR) is due quarterly by the Division of Payment Management. Under the Drug-Free Communities Support Grants biannual progress. Annual federal financial reports (SF-425) are required. Classification tool survey is due each year.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency not later than 9 months after the end of the grantee's fiscal year.

Records:

Grantee must keep complete records on the disposition of funds, and records

related to the grant must be retained for 3 years.

93.279 DRUG ABUSE AND ADDICTION RESEARCH PROGRAMS

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Sections 301, 302 405, 464L, 464N, 464O and 464P, 42 U.S.C. 241, 42 U.S.C. 284, 42 U.S.C. 285o, 42 U.S.C. 288, 42 U.S.C. 295; Small Business Act 15 U.S.C 638.

OBJECTIVES:

To support basic and clinical neuroscience, biomedical, behavioral and social science, epidemiologic, health services and health disparity research. To develop new knowledge and approaches related to the prevention, diagnosis, treatment, etiology, and consequences of drug abuse and addiction, including HIV/AIDS. To support research training and research scientist development. To support dissemination of research findings. Small Business Innovation Research (SBIR) legislation is intended to expand and improve the SBIR programs to emphasize and increase private sector commercialization of technology developed through Federal SBIR research and development; increase small business participation in Federal research and development; and foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in the SBIR program. The legislation intends that the Small Business Technology Transfer (STTR) program stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and

development; and foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

PROJECT GRANTS; TRAINING

USES AND USE RESTRICTIONS:

(1) Research project grants provide support for clearly defined projects or a small group of related research activities, and when appropriate, support of research conferences; (2) program project and center grants support large-scale, broad-based programs of research, usually interdisciplinary, consisting of several projects with a common focus; (3) small grants support newer, less experienced investigators; investigators at institutions without a well-developed research tradition and resources; the testing of new methods or techniques; small-scale exploratory and pilot studies, or exploration of an unusual research opportunity; (4) research training grants including fellowships and institutional training grants, career development grants and loan repayment contracts; (5) SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of proposed research or research and development efforts to determine the quality of performance of the small business grantees. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercially viable products or processes. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application and the quality of performance of the small business concerns. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of the Phase II application.

Applicant Eligibility:

For research grants the following organizations/institutions are eligible to apply: Public/State Controlled Institutions of Higher Education; Private Institutions of Higher Education: Hispanic-serving Institutions, Historically Black Colleges and Universities (HBCUs), Tribally Controlled Colleges and Universities (TCCUs), and Alaska Native and Native Hawaiian Serving Institutions; Nonprofits with 501(c)(3) IRS Status (Other than Institutions of Higher Education); Nonprofits without 501(c)(3) IRS Status (Other than Institutions of Higher Education); Small Businesses; For-Profit Organizations (Other than Small Businesses); State Governments; Indian/Native American Tribal Governments (Federally Recognized); Indian/Native American Tribally Designated Organizations; County Governments; City or Township Governments; Special District Governments; Independent School Districts; Public Housing Authorities/Indian Housing Authorities; and Other(s): Eligible Agencies of the Federal Government, Faith-based or Community-based Organizations, U.S. Territory or Possession, Indian/Native American Tribal Governments (Other than Federally Recognized), Regional Organizations, and Non-domestic (non-U.S.) Entities (Foreign Organizations). Eligible Individuals: Any individual, or individuals (multiple PDs/Pis), with the skills, knowledge, and resources necessary to carry out the proposed research as the PD/PI is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research and/or development must be performed in the U.S. and its possessions. To be eligible, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and by a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific and

technical merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Public or private profit and nonprofit sponsored organizations and individuals, minority groups, small businesses, health professionals, students, trainees, scientists and general public.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The National Institutes of Health is using www.grants.gov to accept electronic submission of applications. Applications are also available from the NIH web site at www.nih.gov. Information concerning NIDA and the types of research supported may be found at www.drugabuse.gov or www.nida.nih.gov. Consultation on a proposed project may also be obtained from NIDA. Applications are reviewed by primarily nonfederal consultants recruited nationwide. The amount of the award and period of support are determined on the basis of scientific merit of the project as well as financial and programmatic consideration. SBIR and STTR Grant Solicitations and SBIR Contract Solicitations may be obtained electronically through the NIH's "Small Business Funding Opportunities" home page at <http://www.nih.gov/grants/funding/sbir.htm>. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms.

Award Procedure:

Grants with which the National Advisory Council on Drug Abuse has concurred with the recommendations of the Scientific Review Groups and approved by NIDA for payment are awarded directly by NIDA to the applicant institution. SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by the National Advisory Council. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 240 to 270 days from submission of grant application. For AIDS applications the range will not exceed 180 days from cited receipt dates. SBIR/STTR applications: About 225 days.

Appeals:

A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page

<https://grants.nih.gov/grants/guide/notice-files/not-od-11-064.html>,
<https://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-101.html> and
<https://grants.nih.gov/grants/guide/notice-files/NOT-OD-12-003.html>.

Renewals:

Support is recommended for a specified project period, usually not in excess of 5 years. Prior to termination of a project period, the grantee may apply for additional support via competing continuation application unless otherwise restricted.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Varies, but a project period is generally limited to 5 years or less. Grantee may apply for renewal of support on a competing basis unless otherwise restricted. Within the project period, continuation applications must be submitted on a non-competing basis for each year of approved support. Small grant support is limited to no more than 2 years. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. Method of awarding/releasing assistance: quarterly.

Reports:

No program reports are required. No cash reports are required. Interim progress reports annually as part of a non-competing application for previously recommended support. Annual financial status report within 90 days after termination of annual grant and immediate and full reporting of any inventions. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records:

Records must be retained for at least 3 years; records shall be retained beyond the 3-year period if audit findings have not been resolved.

CRITERIA FOR SELECTING PROPOSALS:

The following considerations will be used in determining projects to be funded: (1) Scientific and technical merit; (2) the feasibility of the research; (3) potential contribution to the national drug abuse problem; and (4) relevance to NIDA priorities. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technology.

93.280 NATIONAL INSTITUTES OF HEALTH LOAN REPAYMENT PROGRAM FOR CLINICAL RESEARCHERS

(NIH Clinical Research Loan Repayment Program; LRP-CR)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title IV, Part G, Section 487F, Public Law 106-505, 42 U.S.C. 288-5A.

OBJECTIVES:

To attract and retain health professionals to clinical research careers by offering educational loan repayment for participants who agree by written contract to engage in clinical research in a qualifying nonprofit institution for a minimum of 2 years.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged in clinical research. Your research must be supported by a domestic nonprofit foundation, university, professional association, or other nonprofit institution, or a U.S. government agency (federal, state, or local). A domestic foundation, professional association, or institution is considered to be nonprofit if exempt from federal tax under the provisions of Section 501 of the Internal Revenue Code (26 U.S.C. 501). NIH grants and university salaries are considered eligible funding. Your primary employment must be with a nonprofit institution. Any employment or income outside of the nonprofit institution must be separate from your research and cannot represent a significant amount of your total income.

Recipients must agree by written contract to engage in such research, initially, for a minimum of 2 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. Participants may apply for and the Secretary may grant extension contracts for one-year or two-year periods, as determined by the Secretary, if the individual continues to engage in qualifying research. Renewal applications are competitively reviewed and the submission of a renewal application does not assure the award of benefits. The maximum program benefit is \$35,000 per year in loan repayments and \$13,650 per year in Federal tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold."

Applicant Eligibility:

(1) A U.S. citizen, U.S. national, or permanent resident of the United States; (2) Have a Ph.D., M.D., D.O., D.D.S., D.M.D., D.P.M., Pharm.D., D.C., N.D., O.D. or equivalent doctoral degree from an accredited institution; (3) Have total qualifying educational loan debt equal to or in excess of 20 percent of their institutional base salary on the date of program eligibility (the effective date that a loan repayment contract has been executed by the Secretary of Health and

Human Services or designee); (4) Conduct qualifying research supported by a domestic nonprofit foundation, nonprofit professional association, or other nonprofit institution, or a U.S. or other government agency (State or local); (5) Engage in qualified clinical research. Clinical research is patient-oriented clinical research conducted with human subjects, or research on the causes and consequences of disease in human populations involving material of human origin (such as tissue specimens and cognitive phenomena) for which an investigator or colleague directly interacts with human subjects in an outpatient or inpatient setting to clarify a problem in human physiology, pathophysiology or disease, or epidemiologic or behavioral studies, outcomes research or health services research, or developing new technologies, therapeutic interventions, or clinical trials; (6) Engage in qualified clinical research for at least 50 percent of their time, i.e., not less than 20 hours per week based on a 40 hour week; (7) Agree to conduct research for which funding is not prohibited by Federal law, regulation, or HHS/NIH policy, and in accordance with applicable Federal, State and local law (e.g., applicable human subject protection regulations); and (8) Sign and submit to the Secretary of Health and Human Services, at the time of application submission, a contract agreeing to engage in clinical research in a qualifying institution for a minimum of 2 years. Full-time employees of Federal Government agencies are ineligible to apply for LRP benefits. Part-time Federal employees who engage in qualifying research as part of their nonfederal duties for at least 20 hours per week based on a 40 hour week, and who are not compensated as a Federal employee for their research, are eligible to apply for loan repayment if they meet all other eligibility requirements.

Beneficiary Eligibility:

Health professionals who are interested in pursuing clinical research careers and who have unpaid educational loans will benefit from this program.

Credentials/Documentation:

Applicants electronically transmit the following documents to the NIH: Applicant Information Statement, Biosketch, Personal Statement, Description of Research Activities, 3 Recommendations, Loan Information including current account statement(s) and promissory note(s) or disclosure statement(s), Assessment of Research Activities Statement (completed by the research supervisor), and Description of the Research Environment (completed by the research supervisor), Training or Mentoring Plan (completed by the research supervisor). Institutional Contacts electronically transmit a certification that: (a) assures the applicant will be provided the necessary time and resources to engage in the research project for two years from the date a Loan Repayment Program Contract is executed; (b) assures that the applicant is or will be engaged in qualifying research for 50 percent of their time (or not less than 20 hours per week based on a 40 hour week); (c) certifies that the institution is nonprofit (exempt from tax under 26 USC 501), and (d) provides the applicant's institutional base salary. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants must access and submit the Loan Repayment Program application via the website www.lrp.nih.gov. Applications submitted to the NIH Division of Loan Repayment are first examined to determine if the basic eligibility requirements are satisfied. If these requirements are met, the application is forwarded to the NIH Center for Scientific Review for a determination regarding which NIH Institute or Center the application will be assigned to for review, scoring, and ranking.

Award Procedure:

The NIH Institutes and Centers approve or disapprove applications for participation in the Loan Repayment Program for Clinical Researchers. When an Institute or Center approves an application, the NIH Division of Loan Repayment notifies individuals of their award amount, provides a repayment schedule that covers the period of participation, and a Loan Repayment Program Contract is executed by an authorized representative of the Secretary, DHHS. If the approved research assignment changes, or if the employing

research institution changes, the participant must have their continued eligibility re-certified by the Institute or Center which approved their application. Contact the NIH via e-mail at LRP@NIH.GOV for further guidance.

Deadlines:

Nov 15, 2017: At 8:00 p.m. EST. Review the Loan Repayment Program website www.lrp.nih.gov, or contact the Headquarters Office listed below for the application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. The approximate time for approval/disapproval is 6 months from the closing date of the annual application period.

Appeals:

Not Applicable.

Renewals:

> 180 Days. At the conclusion of the initial 2-year contract, participants may apply and be considered for subsequent 1 or 2-year continuation contracts under the application and approval procedures specified above. Eligible renewal applications that score within the funding range receive continuation contracts.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 2-year period. One or 2-year continuation contracts are available. Payments will be made directly to lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and Secretary of Health and Human Services. Method of awarding/releasing assistance: quarterly.

Reports:

Program participants must be periodically certified by their research supervisor to have been engaged in the qualifying research project for a minimum 50 percent effort (not less than 20 hours per week based on a 40 hour week) during each three-month service period. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

Not Applicable.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation.

Account Identification:

75-4554-0-1-552.

Obligations:

(Direct Payments for Specified Use) FY 16 \$44,254,056; FY 17 est \$44,000,000; and FY 18 est \$44,000,000

Range and Average of Financial Assistance:

For initial two-year contract periods, loan repayment of 50 percent of education debt up to \$70,000. For renewal contracts, loan repayment of 50 percent of education debt per year up to \$35,000 per year.

TAFS Codes:

CRITERIA FOR SELECTING PROPOSALS:

The NIH Institutes and Centers approve or disapprove applications for participation in the Clinical Research Loan Repayment Program. Applications that are on time, complete and eligible are referred to the appropriate NIH Institute or Center by the NIH Center for Scientific Review. The NIH Institutes and Centers convene panels comprised of non-NIH scientists to review, score and rank applications. In evaluating the application, reviewers are directed to consider the following components as they relate to the likelihood that the applicant will continue in a research career: (1) potential of the applicant to pursue a career in research, and (2) quality of the overall environment to prepare the applicant for a research career.

93.281 MENTAL HEALTH RESEARCH CAREER/SCIENTIST DEVELOPMENT AWARDS

(Research Career/Scientist Development)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title III, Section 301, 42 U.S.C 241.

OBJECTIVES:

Prior to FY2013, this programs objectives included to provide support for research career development relating to causes, risk, diagnosis, genetics, development, epidemiology, prevention, treatment, and services use for mental illness, behavioral disorders, and HIV/AIDS; and relating to basic neuroscience and basic behavioral science research addressing basic and clinical research pertinent to mental disorders; in order to increase the number of individuals who are competing to advance research supported by the National Institute of Mental Health support, including women, individuals from underrepresented racial and ethnic minority groups, individuals with disabilities and individuals from disadvantaged backgrounds.

Starting in FY2013, the 93.242 Mental Health Research Grants CFDA program reflects the consolidation of NIMHs former CFDA numbers, 93.282 Mental Health National Research Service Awards for Research Training and 93.281 Mental Health Research Career/Scientist Development Awards into 93.242 Mental Health Research Grants.

This program will not be used to fund new projects. Please refer to 93.242 for new funding opportunities.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Prior to FY2013, this programs aimed to provide Mentored Research Scientist Development Award (K01, MRSDA), Mentored Clinical Scientist Development Award (K08, MCSDA), and Mentored Quantitative Research Career Development Award (K25) support for individuals with research potential who need additional mentored development and/or experience in a

productive research environment. Awards are available for up to 5 years of salary support (up to \$90,000 per year) for the individual candidate, fringe benefits, and 8 percent F&A costs. Specialized training costs and limited research costs are allowable under justified circumstances. Mentored Patient-Oriented Research Career Development Award (K23) supports the career development of individuals who have made commitment to focus their research endeavors on patient-oriented research. Awards are available for three to five years up to \$90,000 per year to help offset the full time salary requirement of the candidate. The NIH Pathway to Independence (PI) Award (K99/R00) provides up to 2 years of mentored support (K99) for a postdoctoral individual followed by up to 3 years of support after the awardee transitions to research independence (R00). K99/R00 awards are awards for up to 5 years of support. During the K99 phase, awards typically provide up to \$50,000 per year for the salary of the individual candidate as well as fringe benefits, and 8 percent F&A costs. Specialized training costs and limited research costs are allowable under justified circumstances. Salary support for all mentored awards may be supplemented by the sponsoring institution from nonfederal funds. The Independent Scientist Award (K02, ISA) is for independent scientists whose careers are developing rapidly; the Mid-career Investigator Award in Patient-Oriented Research (K24) is for outstanding clinical scientists engaged in patient-oriented research. No specialized training costs are available; limited research costs for K24s and K02s in theoretical areas are available.

Starting in FY2013, the 93.242 Mental Health Research Grants CFDA program reflects the consolidation of NIMHs former CFDA numbers, 93.282 Mental Health National Research Service Awards for Research Training and 93.281 Mental Health Research Career/Scientist Development Awards into 93.242 Mental Health Research Grants.

This program will not be used to fund new projects. Please refer to 93.242 for new funding opportunities.

Applicant Eligibility:

Prior to FY2013, all awards in these series are made to appropriate domestic research centers, medical schools, departments of psychiatry, non-medical academic departments, psychiatric hospitals or hospitals with psychiatric services, community mental health centers, and biomedical research institutes on behalf of individuals who need the opportunity to realize research potential. Except for the NIH Pathway to Independence (PI) Award (K99/R00), the individuals must be citizens or nationals of the United States or have been lawfully admitted for permanent residence. The NIH Pathway to Independence (PI) Award (K99/R00) is open to both U.S. citizens and non-U.S. citizens. Individuals must qualify by scholastic degree and previous training and/or experience.

Starting in FY2013, the 93.242 Mental Health Research Grants CFDA program reflects the consolidation of NIMHs former CFDA numbers, 93.282 Mental Health National Research Service Awards for Research Training and 93.281 Mental Health Research Career/Scientist Development Awards into 93.242 Mental Health Research Grants.

This program will not be used to fund new projects. Please refer to 93.242 for new funding opportunities.

Beneficiary Eligibility:

Public and private profit or nonprofit organizations will benefit.

Credentials/Documentation:

For other grantees, costs will be determined in accordance with HHS Regulation 45 CFR Part 74, Subpart Q. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications must be prepared and submitted electronically

using the SF 424 (Research & Related). Information about the SF 424 form may be found on <http://grants.nih.gov/grants/funding/424/index.htm>, but application packages should be accessed through the appropriate funding opportunity announcement, found either on the NIH Guide to Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>) or through the Grants.gov website (<http://www.grants.gov/>). For further assistance, contact GrantsInfo, Telephone (301) 435-0714, Email: grantsInfo@nih.gov. Information and instructions may be obtained from the program officials at the National Institute of Mental Health. Applications are reviewed by nonfederal consultants and recommended for support on the basis of merit. This program is subject to the provisions of OMB Circular No. A-21 for educational organizations and 45 CFR, Part 52.

Award Procedure:

All "K" Series awards are recommended for approval by the National Advisory Mental Health Council and those approved are awarded directly by NIMH to the applicant institution.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 240 to 270 days from submission of the application. Review of AIDS-related applications is expedited.

Appeals:

A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeals procedure is available on the NIH home page at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

K01, K08, K23, K25 awards are made for up to 5-year periods with no renewal. K02 and K24 awards are made for a 5-year period, renewable once (unless holder has held a previous K02 or K24 award). K99 awards are made for up to 2-year periods with no renewal.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Varies, with a project periods ranging from 1 to 5 years. Funding commitments are made annually. See the following for information on how assistance is awarded/released: A formal notification in the form of a Notice of Award (NoA) will be provided to the application organization.

Reports:

No program reports are required. No cash reports are required. Reports must be submitted as follows: (1) Interim progress reports annually as part of a non-competing application for previously recommended support; (2) terminal progress report within 90 days after end of project support; (3) annual financial status report within 90 days after termination of annual grant for some programs. In addition, immediate and full reporting of any inventions is required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials. Per the regulations, a for-profit (commercial) organization is subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant. For-profit organizations have two options regarding the type of audit that will satisfy the audit requirements either: 1. a financial related audit (as defined in the Government Auditing Standards, GPO Stock

#020-000-00-265-4, <http://www.gao.gov/govaud/ybk01.htm>) of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements contained in OMB Circular No. A-133(<http://www.whitehouse.gov/OMB/circulars/a133/a133.html>).

Records:

Records must be retained at least 3 years; records shall be retained beyond the 3-year period if audit findings have not been resolved.

93.282 MENTAL HEALTH NATIONAL RESEARCH SERVICE AWARDS FOR RESEARCH TRAINING

(NRSA Program)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title IV, Section 487, 42 U.S.C 288.

OBJECTIVES:

Prior to FY2013, this programs objectives included to ensure a continuing and adequate supply of well-trained scientists who are able to conduct research on mental health problems. The program provides training grants to institutions and fellowships to individuals at both the predoctoral and postdoctoral levels. There are awards to medical students proposing to acquire doctoral research degrees in addition to their medical degrees. Awards are made for training in

the areas of basic and clinical neuroscience, genetics, developmental, behavioral, clinical, epidemiological, prevention, treatment and services research relevant to mental illnesses, behavioral disorders, and HIV/AIDS. These programs encourage training individuals in mental health research who are from underrepresented racial and ethnic groups, individuals with disabilities, or individuals disadvantaged because of educational or other circumstances that have inhibited their ability to pursue such a career.

Starting in FY2013, the 93.242 Mental Health Research Grants CFDA program reflects the consolidation of NIMHs former CFDA numbers, 93.282 Mental Health National Research Service Awards for Research Training and 93.281 Mental Health Research Career/Scientist Development Awards into 93.242 Mental Health Research Grants.

This program will not be used to fund new projects. Please refer to 93.242 for new funding opportunities.

TYPES OF ASSISTANCE:

Training

USES AND USE RESTRICTIONS:

Prior to FY2013, this programs aimed to provide Individual fellowships to students seeking predoctoral or postdoctoral support for full-time research training or who are enrolled in an formal M.D./Ph.D. program. An institutional allowance will be provided to the sponsoring institution for each awardee. In addition, any domestic public or nonprofit institution may apply for an institutional research training grant in a specified area of research from which a number of stipend awards will be made to individuals selected by the training program director at the institution. Support is available for both predoctoral and postdoctoral trainees and will include an amount for institutional expenses. Indirect costs may be requested at 8 percent of total direct costs, exclusive of tuition and related fees and expenditures for equipment, or actual indirect costs, whichever is less. Postdoctoral students receiving fellowships or stipend support under either individual or institutional grants for 12 months or less are obligated to pay back this support through an equivalent period of continued postdoctoral training or a period of health related research and/or teaching activities after the completion of their training. Postdoctoral individuals in their thirteenth and subsequent months of support will incur no further obligation, and such support will be considered acceptable postdoctoral payback service. Research training support may not be used for internships or other clinical training.

Starting in FY2013, the 93.242 Mental Health Research Grants CFDA program reflects the consolidation of NIMHs former CFDA numbers, 93.282 Mental Health National Research Service Awards for Research Training and 93.281 Mental Health Research Career/Scientist Development Awards into 93.242 Mental Health Research Grants.

This program will not be used to fund new projects. Please refer to 93.242 for new funding opportunities.

Applicant Eligibility:

Prior to FY2013, for a training grant, an institution must be a domestic public or nonprofit private organization. The applicant institution must have, or be able to develop, the staff and facilities to provide the proposed research training in an environment suitable for performing high-quality research. An applicant for individual predoctoral fellowship support must be enrolled in a research doctoral degree program by the proposed activation date of the fellowship. A postdoctoral applicant must have received a Ph.D., Psy.D., M.D., D.D.S., Sc.D., D.N.S., D.O., D.S.W., or equivalent degree from an accredited institution to be eligible for an individual postdoctoral fellowship. An applicant for an M.D./Ph.D. individual fellowship must be enrolled in an M.D./Ph.D. program at an approved medical school, accepted in a related scientific program, and supervised by a mentor in the related scientific field. All individuals to be supported under the NRSA program must be citizens or noncitizen nationals of the United States, or have been lawfully admitted to the United States for permanent residence.

Starting in FY2013, the 93.242 Mental Health Research Grants CFDA program reflects the consolidation of NIMHs former CFDA numbers, 93.282 Mental

Health National Research Service Awards for Research Training and 93.281 Mental Health Research Career/Scientist Development Awards into 93.242 Mental Health Research Grants.

This program will not be used to fund new projects. Please refer to 93.242 for new funding opportunities.

Beneficiary Eligibility:

Individuals and nonprofit organizations will benefit.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-21 for educational institutions. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR Part 74, Subpart Q, and 42 CFR Part 66. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications must be prepared and submitted electronically using the SF 424 (Research & Related). Information about the SF 424 form may be found on <http://grants.nih.gov/grants/funding/424/index.htm>, but application packages should be accessed through the appropriate funding opportunity announcement, found either on the NIH Guide to Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>) or through the Grants.gov website (<http://www.grants.gov/>). For further assistance contact GrantsInfo, Telephone (301) 435-0714, Email: GrantsInfo@nih.gov. Information concerning current areas of science being supported is available from the National Institute of Mental Health (NIMH). Completed paper forms should be submitted to the Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 1040, MSC 7710, Bethesda, MD 20892-7710 or Bethesda, MD 20817 (for express/courier service). This program is subject to the provisions of 45 CFR Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations.

Award Procedure:

Applications are reviewed for scientific merit by nonfederal consultants recruited nationwide from the mental health field. Applications other than fellowships must also be reviewed by the National Advisory Mental Health Council. If an institutional training grant is recommended for approval and a decision to make an award is made, a formal award notice will be sent to the applicant institution. If an individual fellowship is recommended for approval and a decision to make an award is made, a formal award notice will be sent to the designated sponsoring institution business official. Postdoctoral students to be supported must submit required appointment forms, including a payback agreement and a Statement of Non-Delinquency on Federal Debt Certification. Predoctoral trainees whose appointments began after June 10, 1993, no longer incur a payback obligation.

Starting in FY2013, the 93.242 Mental Health Research Grants CFDA program reflects the consolidation of NIMHs former CFDA numbers, 93.282 Mental Health National Research Service Awards for Research Training and 93.281 Mental Health Research Career/Scientist Development Awards into 93.242 Mental Health Research Grants.

93.283 CENTERS FOR DISEASE CONTROL AND PREVENTION INVESTIGATIONS AND TECHNICAL ASSISTANCE

CDC Investigations, Technical Assistance

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title 42, Section 243, 247b(k)(2).

OBJECTIVES:

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that

persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality. Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

To strengthen State and local disease prevention and control programs, such as tuberculosis, childhood immunization, and sexually-transmitted diseases. To support national and local programs to combat disability related to epilepsy through education, partnership development, and enhanced communication. Services and program support: Epidemic aid; technical assistance (field studies and investigations of ongoing disease problems; occupational safety and health); consultation; dissemination of technical information; and provision of specialized services and assistance, including responses to public health emergencies. Training: Training State and local health professionals in broad areas of epidemiology, disability, and research programs such as hospital infections, hepatitis, vector-borne diseases, food-borne diseases, epilepsy, and tuberculosis, at the State or other health related organization's request.) To support capacity building, program planning, development, implementation, evaluation, and surveillance for current and emerging chronic disease conditions related to tobacco use. To achieve four Program Goals through community interventions and mobilization; counter-marketing; policy development and implementation, and surveillance and evaluation. Goals include preventing initiation to tobacco use among young people; eliminate exposure to second hand smoke; promote cessation among adults and young people who use tobacco; and identify and eliminate tobacco-related disparities among specific population groups. Lead regional efforts to prevent and reduce the use of tobacco and exposure to secondhand smoke. Conduct evaluations and implementation of culturally relevant and community competent tobacco control and prevention strategies and continue regional capacity building efforts. To address goal four of the National Tobacco Control Program (Identify and Eliminate Tobacco-Related Disparities). To eliminate health disparities among segments of the population, including differences that occur by gender, race or ethnicity, education, income, disability, geographic location, or sexual orientation. Establish a National Network consortium among six priority populations to coordinate and evaluate tobacco control and prevention initiatives through a broad national strategy to prevent and reduce tobacco use and exposure to second hand smoke and to eliminate tobacco-related disparities among priority populations. To provide funding to establish and/or enhance state-based telephone quitlines to provide tobacco cessation telephone counseling to the public at large. To fund projects that address the promotion of cessation among adults and young people who use tobacco (quitlines.) Address at the National level the promotion of cessation among adults and young people who use tobacco (quitlines). To build state arthritis programs that exponentially expand access and use of evidence-based interventions by embedding intervention programs into existing systems, conducting surveillance and data analysis to inform decision making, and developing state-level intervention, policy, and communication focused partnerships that further program goals. To

strengthen state oral health programs and public health core capacity and to reduce inequalities in the oral health of targeted populations. To improve state public health programs, including support for program leadership and staff, to monitor oral health risk factors, and for developing and evaluating prevention programs. To support evidenced-based interventions to prevent oral disease, including community water fluoridation and school-based dental sealant programs. To identify and disseminate information on best practices for state and community oral health programs. To assess state programs and provide recommendations to address gaps and weaknesses. To collaborate in development of the National Oral Health Surveillance System and to cosponsor the annual National Oral Health Conference. To develop initiatives related to oral disease prevention and chronic disease and health promotion capacity. To improve and strengthen state oral health infrastructure by providing technical assistance to state health agencies and coalitions, developing and implementing a plan to advance the Surgeon General's National Call to Action to Promote Oral Health. To coordinate the dissemination of comprehensive oral disease prevention information and health promotion programmatic expertise among state and local agencies and public and private sector organizations in the United States. To develop and promote policies to address oral disease prevention for high-risk adults. To identify modifiable barriers to optimal care across diverse managed care settings. To promote public awareness and partnership, provide interstitial cystitis (IC) education for the general public and for health care providers, and develop and enhance communication channels to allow for improved interaction and information sharing among those with IC, advocates for persons with IC and their families, those who provide care and services for persons with IC, researchers and public health scientists. To promote public awareness and partnerships, assess the impact and burden of cognitive impairment within states and nationally, describe the characteristics of expanded data on caregivers and care from a public health perspective, provide Alzheimers disease and cognitive health education for the general public and health professionals, and develop and enhance communication channels to allow for improved interaction and information sharing about cognitive impairment and Alzheimers disease.

Applicant Eligibility:

States, political subdivisions of States, local health authorities, Federally recognized or state recognized American Indian/Alaska Native tribal governments and organizations with specialized health interests may apply. Colleges, universities, private nonprofit and public nonprofit domestic organizations, research institutions, faith-based organizations, and managed care organizations for some specific programs such as Diabetes.

Beneficiary Eligibility:

States, political subdivisions of States, local health authorities, and individuals or organizations with specialized health interests will benefit. Colleges, universities, private non-profit and public nonprofit domestic organizations, research institutions, faith-based organizations, and managed care organizations for some specific programs such as Diabetes.

Credentials/Documentation:

For other grantees, costs will be determined by HHS regulations 45 CFR 74, Subpart Q. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Forms and instructions are available in an interactive format on the CDC web site, at the following Internet address: www.cdc.gov/od/pgo/forminfo.htm. To apply for research funding opportunities, use application form PHS 398 (OMB number 0925-0001 rev. 5/2001). Submit the signed original and five copies of your application by mail or express delivery service to: Technical Information Management, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341.

State and local governments may use Form 5161. An original and two copies must be submitted. This program is subject to the provisions of 45 CFR Parts 74 or 92, as appropriate.

Award Procedure:

After review and approval, a notice of award is prepared and processed, along with appropriate notification to the public, initial award provides funds for first budget period (usually 12 months) and Notice of Award indicates support recommended for the remainder of project period, allocation of Federal funds by budget categories, and special conditions, if any. However, applicants are encouraged to call CDC for programmatic technical assistance prior to the development and submission of their assistance application.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. About 120 days from receipt of application.

Appeals:

Not Applicable.

Renewals:

If additional support is desired to continue a research project beyond the approved project period, an application for competing continuation must be submitted for review in the same manner as a new application. Projects are renewable for periods of 1 to 3 years.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is available for a 12-month budget period within project periods ranging from 1 to 5 years. After awards are issued, funds are released in accordance with the payment procedure established by the grantee institution with DHHS, which may be an Electronic Transfer System or a Monthly Cost Request System. Method of awarding/releasing assistance: lump sum.

Reports:

Financial status and progress reports are required annually. Upon completion of the project, final financial status and performance reports are required. Interim reporting requirements may be delineated in the FOA. Cash reports are not applicable. Progress reports are required annually. Interim reporting requirements may be delineated in the FOA. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the project must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for a minimum of 3 years after the end of a budget period. If questions still remain, such as those raised as a result of an audit, records must be retained until completion or resolution of any audit in process or pending resolution. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

CRITERIA FOR SELECTING PROPOSALS:

Applications are reviewed on the basis of scientific/technical merit, with attention given to such matters as: (1) The degree to which the applicant satisfies the essential requirements and possesses other desired characteristics, such as depth, breadth, and scientific merit of the overall application relative to the types of research and demonstration projects proposed; (2) clarity of purpose and overall qualifications, adequacy and appropriateness of personnel to accomplish proposed prevention research projects and demonstration projects, and the nation's health priorities and needs; (3) ability to generalize, translate and disseminate to State or local health departments, boards of education and other appropriate national regional, and local public health agencies and organizations; (4) reasonableness of the proposed budget in relation to the work proposed.

93.284 INJURY PREVENTION PROGRAM FOR AMERICAN INDIANS AND ALASKAN NATIVES COOPERATIVE AGREEMENTS**FEDERAL AGENCY:**

Indian Health Service, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Section 301a.

OBJECTIVES:

To improve the quality of the health of American Indians and Alaskan Natives by developing the capacity of tribes to address their injury problems.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The assistance is used for three types of injury prevention related projects: (1) Part I Basic: Build or enhance local injury prevention capacity; and (2) Part II Intervention: Implement a proven or promising injury prevention intervention. This assistance is available to federally-recognized Indian tribes, tribal organizations, and urban Indian organizations. All IHS funds are discretionary funds.

Applicant Eligibility:

Federally-recognized tribes, tribal organizations, non-profit organizations serving primarily American Indians and Alaska Natives, and urban Indian

organizations may apply.

Beneficiary Eligibility:

Individuals who are members of an eligible applicant tribe, band, or group or village and who may be regarded as within the scope of the Indian health and medical service program and who are regarded as an Indian by the community in which he lives as evidenced by such factors as tribal membership, enrollment, residence on tax exempt land, ownership or restricted property, active participation in tribal affairs or other relevant factors in keeping with general Bureau of Indian Affairs practices in the jurisdiction.

Credentials/Documentation:

Certification of American Indian or Alaska descent is required for direct services. Provisions of cooperative agreement require tribal endorsement in the form of Resolution to sanction tribal participation. Costs will be determined in accordance with OMB Circular No. A-87 for State, local, and Indian tribal governments (and Circular No. A-122 for Nonprofit Organizations) implemented through applicable grant administration regulations 45 CFR, 92 (45 CFR, 74 for nonprofit organizations). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Standard application forms, as furnished by IHS and required by 45 CFR, 92, for State and local governments and 45 CFR, 74, for nonprofit organizations, must be used for this program. Injury Prevention Programs are processed and administered by IHS Headquarters. This program is subject to the provisions of 45 CFR 92 for Indian tribes and Part 74 for Nonprofit organizations.

Award Procedure:

Cooperative agreements are awarded on a competitive basis with processing and final approved by Indian Health Service Headquarters.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Grants are approved or disapproved within 90 days of receipt of grant applications by the Indian Health Service, program office.

Appeals:

Cooperative agreement appeals will follow PHS appeals procedures: 42 CFR, Part 50 Subpart D and DHHS appeals procedures: 45 CFR, Part 16.

Renewals:

Renewal of multi-year cooperative agreements is on a year-to-year basis and requires the submission of continuation applications.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

IHS Grants are usually 3 to 5 years for a project period. Method of awarding/releasing assistance: quarterly.

Reports:

Program reports are not applicable. Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Division of Payment Management Branch. Progress reports are required annually, semi-annually or quarterly depending on the time lines set by the IHS program. A final progress report is due 90 days after the end of each budget period and at the end of the final project period. Grantees will be required to submit quarterly Federal Financial Report (SF-425 or FFR) to the Division of Payment Management Branch. IHS grants are monitored by the Division of Grants Management for financial compliance and by the IHS Program Staff for programmatic compliance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records:

HHS and the Comptroller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of a grantee, subgrantee, contractor, or subcontractor, that are pertinent to the HHS grant in order to make audits, examinations, excerpts and transcripts. In accordance with 45 CFR, 92.42, grantees are required to maintain grant records 3 years after they submit their final expenditures report. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues arising from it, or until the end of the regular 3-year period, whichever is later.

of the requirements as set forth in the application.

93.285 NATIONAL INSTITUTES OF HEALTH PEDIATRIC RESEARCH LOAN REPAYMENT PROGRAM

(NIH Pediatric Research Loan Repayment Program; PR-LRP)

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act

, Title IV, Part G, Section 487F, Public Law 106-310, 42 U.S.C 288-6.

OBJECTIVES:

To attract and retain health professionals to pediatric research careers by offering educational loan repayment for participants who agree by written contract to engage in pediatric research in a qualifying nonprofit institution for a minimum of 2 years.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

To provide repayment of extant educational loans incurred by health professionals engaged in pediatric research in a qualified nonprofit institution or Federal or other domestic government agency (State or local), and who are engaged in research that is supported by a nonprofit foundation, nonprofit professional association, or other nonprofit entity, or a Federal or other domestic government agency (State, local). Recipients must agree by written contract to engage in such research, initially, for a minimum of 2 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. Participants may apply for and the Secretary may grant extension contracts for one-year or two-year periods, as determined by the Secretary, if the individual continues to engage in qualifying research. Renewal applications are competitively reviewed and the submission of a renewal application does not assure the award of benefits. Maximum program benefit is \$35,000 per year in loan repayments and \$13,650 per year in Federal tax reimbursements, plus discretionary state and local tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold."

Applicant Eligibility:

Eligible applicants must: (1) be a U.S. citizen, U.S. national, or permanent resident of the United States; (2) have a Ph.D., M.D., D.O., D.D.S., D.M.D., D.P.M., Pharm.D., D.C., N.D., O.D. or equivalent doctoral degree from an accredited institution; (3) have total qualifying educational loan debt equal to or in excess of 20 percent of their institutional base salary on the date of program eligibility (the effective date that a loan repayment contract has been executed by the Secretary of Health and Human Services or designee); (4) conduct qualifying research supported by a domestic nonprofit foundation, nonprofit professional association, or other nonprofit institution, or a U.S. or other government agency (Federal, State, or local); (5) engage in qualified pediatric research (pediatric research is research that is directly related to diseases, disorders, and other conditions in children); (6) engage in qualified pediatric research for at least 50 percent of their time, i.e., not less than 20 hours per week based on a 40 hour week; (7) agree to conduct research for which funding is not prohibited by Federal law, regulation, or HHS/NIH policy, and in accordance with applicable Federal, State and local law (e.g., applicable human subject protection regulations); and (8) sign and submit to the Secretary of Health and Human Services, at the time of application submission, a contract agreeing to engage in pediatric research in a qualifying institution for a minimum of 2 years. Full-time employees of Federal Government agencies are ineligible to apply for LRP benefits. Part-time Federal employees who engage in qualifying research as part of their non-Federal duties for at least 20 hours per week based on a 40 hour week, and who are not compensated as Federal employees for their research, are eligible to apply for loan repayment if they meet all other eligibility requirements.

Beneficiary Eligibility:

Health professionals who are interested in pursuing pediatric research careers who have unpaid educational loans will benefit from this program.

Credentials/Documentation:

Applicants electronically transmit the following documents to the NIH: Applicant Information Statement, Biosketch, Personal Statement, Description of Research Activities, 3 Recommendations, Loan Information including current account statement(s) and promissory note(s) or disclosure statement(s), Assessment of Research Activities Statement (completed by the research supervisor), and Description of the Research Environment (completed by the research supervisor), Training or Mentoring Plan (completed by the research supervisor). Institutional Contacts electronically transmit a certification that: (a) assures the applicant will be provided the necessary time and resources to engage in the research project for two years from the date a Loan Repayment Program Contract is executed; (b) assures that the applicant is or will be engaged in qualifying research for 50 percent of their time (or not less than 20 hours per week based on a 40 hour week); (c) certifies that the institution is non-profit (exempt from tax under 26 USC 501), and (d) provides the applicant's institutional base salary. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants must access and submit the Loan Repayment Program application via the website www.lrp.nih.gov. Applications submitted to the NIH Division of Loan Repayment are first examined to determine if the basic eligibility requirements are satisfied. If these requirements are met, the application is forwarded to the NIH Center for Scientific Review for a determination regarding which NIH Institute or Center the application will be assigned to for review, scoring, and ranking.

Award Procedure:

The NIH Institutes and Centers approve or disapprove applications for participation in the Pediatric Research Loan Repayment Program. When an Institute or Center approves an application, the NIH Division of Loan Repayment notifies individuals of their award amount, provides a repayment schedule that covers the period of participation, and a Loan Repayment Program Contract is executed by an authorized representative of the Secretary, DHHS. If the approved research assignment changes, or if the employing research institution changes, the participant must have their continued eligibility re-certified by the Institute or Center which approved their application. Contact the NIH via e-mail at LRP@NIH.GOV for further guidance.

Deadlines:

Nov 15, 2017: At 8:00 p.m., EST. Review the Loan Repayment Program website www.lrp.nih.gov, or contact the Headquarters Office listed below for the application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. The approximate time for approval/disapproval is 6 months from the closing date of the annual application period.

Appeals:

Not Applicable.

Renewals:

> 180 Days. At the conclusion of the initial 2-year contract, participants may apply and be considered for subsequent 1 or 2-year continuation contracts under the application and approval procedures specified above. Eligible renewal applications that score within the funding range receive continuation contracts.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 2-year period. One or 2-year continuation contracts are available for eligible individuals whose renewal applications score within the funding range. Payments will be made directly to

lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and Secretary of Health and Human Services. Method of awarding/releasing assistance: quarterly.

Reports:

Program participants must be periodically certified by their research supervisor to have been engaged in the qualifying research project for a minimum 50 percent effort (not less than 20 hours per week based on a 40 hour week) during each three-month service period. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

Not Applicable.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation.

Account Identification:

75-4554-0-1-552.

Obligations:

(Direct Payments for Specified Use) FY 16 \$16,175,369; FY 17 est \$17,000,000; and FY 18 est \$17,000,000

Range and Average of Financial Assistance:

For initial 2-year contract periods, loan repayment of 50 percent of education debt up to \$70,000 plus tax payments. For renewal contracts, loan repayment of 50 percent of education debt per year up to \$35,000 per year.

TAFS Codes:

75-009.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: 320 awards. Fiscal Year 2017: 300 awards. Fiscal Year 2018: 300 awards.

REGULATIONS, GUIDELINES, AND LITERATURE:

Pertinent information is contained in the Public Health Service Act, Title IV, Part G, Section 487F, Public Law 106-310, 42 U.S.C. 288-6. The NIH PR-LRP was initially announced by publication of a Notice in the Federal Register (Vol. 66, No. 173), and updated in Federal Register (Vol. 68, No. 61).

CRITERIA FOR SELECTING PROPOSALS:

The NIH Institutes and Centers approve or disapprove applications for participation in the Pediatric Research Loan Repayment Program. Applications that are on time, complete and eligible are referred to the appropriate NIH Institute or Center by the NIH Center for Scientific Review. The NIH Institutes and Centers convene panels comprised of non-NIH scientists to review, score and rank applications. In evaluating the application, reviewers are directed to consider the following components as they relate to the likelihood that the

applicant will continue in a research career: (1) potential of the applicant to pursue a career in research, and (2) quality of the overall environment to prepare the applicant for a research career.

93.286 DISCOVERY AND APPLIED RESEARCH FOR TECHNOLOGICAL INNOVATIONS TO IMPROVE HUMAN HEALTH FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title IV, Section 401(b)(1) & 464z.

OBJECTIVES:

To support hypothesis-, design-, technology-, or device-driven research related to the discovery, design, development, validation, and application of technologies for biomedical imaging and bioengineering. The program includes biomaterials (biomimetics, bioprocessing, organogenesis, rehabilitation, tissue engineering, implant science, material science, interface science, physics and stress engineering, technology assessment of materials/devices), biosensors/biotransducers (technology development, technology assessment, development of algorithms, telemetry), nanotechnology (nanoscience, biomimetics, drug delivery systems, drug bioavailability, microarray/combinatorial technology, genetic engineering, computer science, technology assessment), bioinformatics (computer science, information science, mathematics, biomechanics, computational modeling and simulation, remote diagnosis and therapy), imaging device development, biomedical imaging technology development, image exploitation, contrast agents, informatics and computer sciences related to imaging, molecular and cellular imaging, bioelectrics/biomagnetics, organ and whole body imaging, screening for diseases and disorders, and imaging technology assessment and surgery (technique development and technology development).

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Research Grant funds may be used for salaries, consultation, equipment, travel and other usual costs, subject to Federal regulations applicable to the grant. Individual National Research Service Awards (NRSAs) are made directly to individuals for research training in specified areas related to the mission of NIBIB. Institutional NRSAs may be made to institutions to enable them to accept individuals for research training. Each individual who receives a NRSA postdoctoral fellowship or traineeship is obligated upon termination of the award to comply with certain service and payback provisions. Small Business Innovation Research (SBIR) Phase I grants are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Only Phase I awardees are eligible to apply for Phase II support. Small Business Technology Transfer (STTR) Phase I grants are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of the Phase II application. Indirect costs are paid at negotiated rates for most grant mechanisms. Exceptions are: conference grants (R13 and U13) receive no indirect costs; Training (T), Fellowship (F), and Career (K) awards receive an 8% indirect cost rate; R25 grants receive an 8% indirect cost rate; and SBIR/STTR grants are limited to a 40% indirect cost rate unless the grantee organization negotiates a higher rate.

Applicant Eligibility:

Any corporation, public or private institution or agency, or other legal entity, either nonprofit or for-profit, may apply for a research grant. An applicant for an individual NRSA must be a citizen of the United States or lawfully admitted for permanent residence. Those on temporary or student visas are not eligible. An eligible institution for an institutional NRSA must be capable of providing predoctoral and/or postdoctoral research training opportunities for engineers, bioengineers or other. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit; are not dominant in the field in which research is being proposed; and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II,

the research must be performed in the United States or its possessions. To be eligible for funding, a grant application must be reviewed for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

Credentials/Documentation:

Credentials/Documentation: Each applicant for research projects must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. For an individual NRSA, the applicant's academic record, research experience, citizenship, and institutional sponsorship should be documented in the application. For an institutional NRSA, the applicant organization must show the objectives, methodology and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for awards, and detailed budget justification for the amount of grant funds requested. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Use of SF424 (R&R) Adobe Version B series or PHS 398 (Rev. 11/2007), and associated forms are required for all applications submitted to the NIH. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application Forms SF424 and PHS 398 (Rev. 11/2007) are the standard forms. Application kits are available on-line at <http://grants1.nih.gov/grants/oe.htm>. Completed applications should be submitted via Grants.gov (<http://www.grants.gov>) or to the Center for Scientific Review, National Institutes of Health, Bethesda, MD 20892. The standard application forms, as furnished by PHS and required by 45 CFR Part 92 for State and local governments, must be used for this program. The same application form will be used for all types of applications including training (NRSA), both individual and institutional, and SBIR/STTR. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Funding Opportunities" home page at www.nih.gov/grants/funding/sbir.htm on the World Wide Web. SBIR and STTR grant applications should be submitted electronically through Grants.gov (<http://www.grants.gov>) using the SF424 Research and Related (R&R) forms and the SF424 (R&R) SBIR/STTR Application Guide.

Award Procedure:

All applications for research or training are reviewed for scientific merit by an appropriate initial review group and then by a national advisory council. All applications favorably recommended compete for available funds on the basis of scientific merit and program emphasis. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Research Grants: From 6 to 9 months. NRSA: From 6 to 9 months. SBIR/STTR: About 7.5 months.

Appeals:

From 30 to 60 days. A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page

<http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

> 180 Days. Research Grant applications submitted for renewal are reviewed and selected for funding on a competitive basis. NRSA awards may be made for 1 to 5 years. No individual may receive more than 5 years of aggregate NRSA support beyond the predoctoral level, and no individual may receive NRSA support for more than 3 years of support beyond the postdoctoral level. Institutional awards may be renewed.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Research Grant awards are usually made annually with no project periods to exceed 5 years in length. NRSA Institutional awards may be made for up to 5 years, and Individual awards may be made for up to 5 years at the predoctoral level, 3 years at postdoctoral level, and 2 years at senior level. Normally SBIR and STTR Phase I awards are for 6-12 months and Phase II awards are for up to 2 years. See the following for information on how assistance is awarded/released: Normally, awards are released each fiscal year.

Reports:

No program reports are required. Cash reports are not applicable. Annual Progress Reports are required. Instructions are found: <http://grants1.nih.gov/grants/guide/notice-files/NOT-OD-09-139.html>. Annual financial status reports are required. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions of 2 CFR 200. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records:

Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last financial status report for the report period.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) Significance: Does this study address an important problem? If the aims of the application are achieved, how will scientific knowledge be advanced? What will be the effect of these studies on the concepts or methods that drive this field? (2) Approach: Are the conceptual framework, design, methods, and analyses adequately developed, well-integrated, and appropriate to the aims of the project? Does the applicant acknowledge potential problem areas and consider alternative tactics? (3) Innovation: Does the project employ novel concepts, approaches or method? Are the aims original and innovative? Does the project challenge existing paradigms or develop new methodologies or technologies? (4) Investigator: Is the investigator appropriately trained and well suited to carry out this work? Is the work proposed appropriate to the experience level of the principal investigator and other researchers (if any)? (5) Environment: Does the scientific environment in which the work will be done contribute to the probability of success? Do the proposed experiments take advantage of unique features of the scientific environment or employ useful collaborative arrangements? Is there evidence of institutional support? (6) the appropriateness of the proposed budget and duration in relation to the proposed research; (7) the relevance and importance to announced program objectives; (8) the adequacy of plans to include both genders, minorities and their subgroups, and children as appropriate for the scientific goals of the research. Plans for the recruitment and retention of subjects will also be evaluated; (9) the

adequacy of the proposed protection for humans or the environment, to the extent they may be adversely affected by the project proposed in the application; and (10) the adequacy of the proposed plan to share data, if appropriate. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.288 NATIONAL HEALTH SERVICE CORPS SCHOLARSHIP PROGRAM

NHSC Scholarship Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 338A of the Public Health Service Act (42 USC 254I), as amended; Section 331(i) of the Public Health Service Act (42 USC 254d) as amended; and Sections 338C-H of the Public Health Service Act (42 USC 254m-q), as amended; Medicare Access and CHIP Reauthorization Act of 2015 (P.L. 114-10).

OBJECTIVES:

The National Health Service Corp (NHSC) Scholarship Programs objective is to increase the supply of primary care physicians, dentists, certified nurse midwives, primary care nurse practitioners, and physician assistants and, if needed by the National Health Service Corps, other health professionals in Health Professional Shortage Areas (HPSAs) within the United States by providing service-obligated scholarships to health professions students.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

Service-obligated scholarships for full-time students of allopathic (M.D.) and osteopathic (D.O.) medicine, dentistry, primary care nurse practitioner, nurse midwifery, and primary care physician assistants. Other health disciplines may be included if needed by the National Health Service Corps. Scholarships pay tuition and required fees to the school, a monthly stipend to students for living expenses and a single annual payment to the student to assist with other reasonable educational expenses. Reasonable expenses may include books, supplies, equipment, uniforms, travel for the provision of clinical services, etc. The program requires 1 year of service for each year of scholarship support, with a minimum 2-year service commitment after graduation, post graduate training and/or licensure. A maximum of 4 years of support may be awarded. Service sites are selected by the scholarship recipient from the list of high priority sites in HPSAs identified by the NHSC.

Refer to the NHSC Scholarship Program Guidance for specific requirements. (<http://nhsc.hrsa.gov/downloads/spapplicationguide.pdf>).

Applicant Eligibility:

At the time of application, the applicant must be a U.S. citizen or national. The

applicant must be enrolled or accepted for enrollment in an accredited school in a State, the District of Columbia, or a U.S. Territory as a full-time student in a course of study leading to a health professional degree. The applicant must be eligible for Federal employment, be free of any Federal judgment liens, not be excluded, debarred, suspended or disqualified by a Federal agency, and have no conflicting service obligation. The applicant must submit an application and a signed contract to the National Health Service Corps agreeing to accept payment of scholarship and provide full-time primary health services in a Health Professional Shortage Area.

Beneficiary Eligibility:

U.S. citizens or nationals enrolled or accepted for enrollment in an accredited school in a State, the District of Columbia, or a U.S. Territory in a course of study leading to an eligible health professional degree.

Credentials/Documentation:

Applicants should review the NHSC Scholarship Application and Program Guidance on the HRSA website issued under this CFDA program for additional information such as required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants may apply online at <https://programportal.hrsa.gov>.

Award Procedure:

All qualified applications are forwarded to an objective review committee and scored numerically. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Notification to successful and rejected applicants is made no later than September 30th of the application year.

Appeals:

Not Applicable.

Renewals:

Renewal applications are not necessary for students in compliance; contracts may be multi-year funded through graduation (1 to 4 years, if the applicant signs the contract through the graduation date).

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Each award covers from 1 to 4 years of support, as requested. No awardees may receive more than 4 years of support: Tuition and fees are paid directly to the recipients school. See the following for information on how assistance is awarded/released: <http://nhsc.hrsa.gov/scholarships/index.html>. Stipends and payments for other reasonable costs are released through Direct Deposit to recipients accounts through PSC.

Reports:

Annual reports by schools indicating average student educational expenses are required. The academic institution where the student is enrolled must complete and submit a Verification of Enrollment Form each semester.

The employing facility must complete and send a semi-annual In-Service Verification form verifying that the participating health professional is

providing service. The certification includes a signature by an appropriate official of the facility. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2016: In FY 2016, the Council proposed a partnership with the U.S. Department of Agriculture (USDA) to incorporate Presidential Active Lifestyle Award (PALA+) and Presidential Champions into the USDA SuperTracker interactive platform. Incorporation of the PALA+ and Presidential Champions programs into SuperTracker was completed in March 2017.

In FY 2016, the PCFSN exceeded its goal of implementing the I Can Do It, You Can Do It! (ICDI) program in 100 sites by 2018. ICDI also recruited and trained more than 200 stakeholders in schools and communities to help facilitate health promotion programs that serve people with disabilities.

The PCFSN continued to promote the Presidential Youth Fitness Program (PYFP), administered by the Council's congressionally-chartered foundation, the National Foundation on Fitness, Sports, and Nutrition (NFFSN). PYFP provides a model for fitness education that includes a health-related fitness assessment, educational tools and recognition items to support a quality physical education curriculum.

In FY 2016, the Council promoted the release of the Dietary Guidelines for Americans to encourage the adoption of nutritious eating habits to reduce obesity and prevent chronic diseases like Type 2 diabetes, hypertension, and heart disease

In honor of 60th Anniversary of the PCFSN, the Council launched the #0to60 initiative to inspire all Americans to lead a healthy, active lifestyle. Through the initiative, the Council engaged parents and caregivers, educators, partners and other audiences to celebrate and promote participation in physical activity programs, as well as setting and reaching their healthy eating goals. The Council worked with national and local partners to develop a strategy to cross-promote #0to60 messaging to diverse consumer audiences. Fiscal Year 2017: In FY 2017, the PCFSN continued to enhance and expand its physical activity and nutrition programs, including ICDI, PALA+, Presidential Champions, and Sports for All. In addition, the Council will focus on promoting its 60th Anniversary through the #0to60 public engagement campaign, to inspire Americans of all ages, backgrounds and abilities to be active and eat healthy every day. In addition, the Council will continue its promotion of the PYFP, administered by the NFFSN.

The Council continues to address health disparities and improve disability inclusion in physical activity and sports through the expansion and evaluation of its ICDI program. ICDI facilitates and encourages opportunities for all Americans, regardless of ability or age, to lead a healthy lifestyle that includes regular physical activity and good nutrition. The original goal of ICDI when it was established in 2013 was to facilitate access and opportunities for children and adults with disabilities in at least 100 sites across the nation by 2018, adding at least 20 sites each year.

In FY 2017, ICDI accomplishments included:

- 1) Establishing 131 ICDI sites in 36 states, impacting 400,000 individuals with disability and their families.
- 2) Securing a partnership with the HHS Office on Womens Health to leverage ICDI as a vehicle to engage more girls and women with disabilities in physical activity and sport opportunities, which will begin in FY 2018.

Also in FY 2017, PCFSN entered into a partnership with the U.S. Department of Agriculture Center for Nutrition Policy & Promotion to integrate the PALA+ and Presidential Champions programs into the SuperTracker physical activity and food tracking tool. SuperTracker impacts millions of registered users in all 50 U.S. states and territories, and provides the PCFSN with the opportunity to expand the tracking capabilities for both programs, provide a mobile-ready interface, and ensure compliance with Section 508, making each program more accessible and engaging to a greater number of Americans of all ages and abilities.

In collaboration with HHS Office of Disease Prevention and Health Promotion (ODPHP), the Centers for Disease Control and Prevention, and the National Institutes of Health, the PCFSN is co-leading the development of the second edition of the Physical Activity Guidelines for Americans (PAG), which is expected to be released at the end of CY 2018. The PAG is an essential resource for health professionals and policymakers. They serve as the primary, authoritative voice of the federal government for evidence-based strategies for the public, as well as healthcare providers, policymakers, communities, schools and other key stakeholders to promote physical activity and health lifestyles for Americans.

Additional information on the Councils programs and initiatives can be found on the PCFSN website: www.fitness.gov. Fiscal Year 2018: In FY 2018, the PCFSN will advance HHS childhood obesity prevention priority, in particular, through the enhancement and promotion of new and existing physical activity and nutrition programs, including ICDI, PALA+, and Presidential Champions. In FY 2018, PCFSN will ramp up its efforts to educate, engage, and empower all Americans, especially youth in the school and community settings, to lead an active, healthy lifestyle. In addition, PCFSN will deploy its Council members as leaders in the fields of sport, fitness and nutrition to encourage all Americans to prioritize their health and to support efforts in communities across America to improve fitness and healthy eating opportunities for all children and families.

The PCFSN will continue to work with the ODPHP to lead the development of the second edition of the PAG. In addition to the coordination of the PAG Advisory Committee, the PCFSN will also implement and expand key programs and initiatives that support the PAG, and promote the widespread adoption of the 2018 PAG when released. This effort will include a national outreach strategy to promote the recommendations of the 2018 PAG.

In FY2018, in partnership with the HHS Office on Womens Health, the PCFSN will expand opportunities for women and girls with disability through ICDI. Activities will include:

- 1) Identifying and coordinating with national organizations that serve girls and women with and without disabilities to increase opportunities for girls and women with disabilities to participate in the ICDI program
- 2) Supporting strategic outreach and engagement via a communications campaign to promote the importance of equal access of opportunities for women and girls with disabilities in physical activity, fitness, and sports; increase the visibility of girls and women athletes with disability; share resources with stakeholders to simplify program implementation; and encourage all women and girls, with an emphasis on those with disability, to lead healthy, active lives.

USES AND USE RESTRICTIONS:

Real property must be used for eligible health purposes including research. It may consist of land with or without buildings and other improvements or buildings only. A discount of up to 100 percent based on the proposed program use is granted. This discount applied against the fair value of the property, is earned by approved use over a prescribed period of 30 years for land with or without improvements, and a lesser time for leased facilities and improvements which are transferred without land. Allowance of less than 100 percent requires payment of the difference in cash at the time of conveyance. Property must be used for the purpose for which conveyed, and may not be sold, leased, mortgaged, or encumbered without consent of the Department. Property must be used for the approved purpose for a specific period of time (i.e., 30 years); property can not be sold, encumbered, mortgaged, etc. without prior approval office; grantee required to submit annual utilization reports; grantee must not discriminate in its use of the property; etc.

Applicant Eligibility:

States, their political subdivisions and instrumentalities; tax-supported public health institutions, and nonprofit institutions which (except for institutions which lease property to assist the homeless under Title V of Public Law 100-77) have been held exempt from taxation under Section 501 (c) (3) of the 1986 Internal Revenue Code.

Beneficiary Eligibility:

Anyone attending, working with or for, or served by the eligible applicants. Examples of potentially eligible use programs are hospitals, public health clinics, water and sewer systems, institutions for the rehabilitation of mentally or physically disabled, health research institutions, homeless assistance facilities, and other institutions with basic health programs.

Credentials/Documentation:

Applicants must demonstrate current need for properties they request and the ability to carry out the proposed program. Applicants must also provide documentation of its authority to hold title to real property and evidence of tax-exempt status. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Notice of availability of surplus real property is sent by the U.S. General Services Administration or the U.S. Department of Housing and Urban Development, to all known potentially interested institutions. When applying for real property, an informal pre-application conference either in person or by telephone is recommended. At that time, consultation and assistance are available to aid in the preparation of an application; but, only to address general application questions, not questions specific to a proposed program. Additionally, it is advisable that an applicant participate in a site tour of the property provided by the disposal agency. Applicants are required to submit factors for consideration of potential environmental impact, in accordance with the Environmental Questionnaire furnished with the application instructions. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform

Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants interested in acquiring Federal real properties must contact Real Property Management Services, REL, PSC, DHHS.

Award Procedure:

Real property is awarded to the applicant whose program(s) of use are determined to be in the highest public interest. Land (with or without improvements) is conveyed by quitclaim deed or lease; buildings for off-site removal are by agreement of sale.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Normally, approval or disapproval is made within 30 days after a completed application has been submitted for real property. For properties to assist homeless individuals under Title V of the McKinney Act, approval or disapproval of an initial application is made within 10 days after a complete, initial application is received; approval or disapproval of a final application is made within 15 days after a complete, final application is received.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Deed restrictions run for a period of 30 years and Agreements of Sale are normally for 5 years, after which the transferee has clear title to the property. Restrictions on leased property run for the period of the lease which will not extend beyond a total of a 20 year period. See the following for information on how assistance is awarded/released: Via deed or lease.

Reports:

Transferee is required to submit an annual utilization report on the operation and maintenance of the property. Cash reports are not applicable. Progress reports are only required on a case-by-case basis. Expenditure reports are not applicable. HHS program office conducts periodic site visits and requires the submittal of annual utilization report.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The Department's Audit agency makes periodic audits of the headquarters operation and may make spot checks of the utilization by real property transferees.

Records:

Transferees of real property, who expend funds to rebuild, refurbish, or to otherwise improve property under restrictions, should maintain records of these costs in the event they wish to dispose of the property prior to termination of the restriction period.

CRITERIA FOR SELECTING PROPOSALS:

All applications must establish eligibility of the institution, its programs, and the proposed use to meet the program needs. A public benefit allowance formula, uniformly applied, determines the respective benefits of each program. Basic allowance of 50 percent is allowed to institutions meeting the following: (1) Proof of current need; (2) ability to operate and maintain; (3) suitability of facilities or adaptability for conversion; (4) requirement for utilization through period of restrictions; and (5) nondiscrimination because of race, color, sex, age, handicap, or national origin. Additional allowances are made for tax support, accreditation, hardship, integrated research, outpatient services, public services, and training programs. For competing programs, the one showing the greatest public benefit is selected. Where property can be divided, as many compatible programs as possible are accommodated.

93.292 NATIONAL PUBLIC HEALTH IMPROVEMENT INITIATIVE

National Public Health Improvement Initiative (NPHII) - Capacity Building Assistance to Strengthen Public Health Infrastructure and Performance; CDC-RFA-CD10-1011

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Section 301(a) of the Public Health Service Act, 42 U.S.C. Sections 241, as amended.

OBJECTIVES:

The purpose of the program is to provide support for accelerating public health accreditation readiness activities; to provide additional support for performance management and improvement practices; and, for the development, identification and dissemination of evidence-based policies and practices (i.e., best and promising practices.).

This program supports the Healthy People 2020 focus area of addressing Public Health Infrastructure (<http://www.healthypeople.gov/hp2020/>).

Cross-jurisdictional (state, local, tribal, territorial, regional, community, and border) collaborations are encouraged to increase the impact of limited resources, improve efficiency, and to leverage other related health reform efforts/projects.

Measurable outcomes of the program align with the following performance goals:

- 1) Increased efficiencies (saving time/money) of program services and/or operations,
- 2) Increased effectiveness (use of evidence-based policies and practices) Improved health outcome is a example of increased effectiveness., and,
- 3) Increased readiness for applying to and achieving accreditation by the Public Health Accreditation Board PHAB. (More information on accreditation

activities can be found on the PHAB web site at <http://www.phaboard.org/>.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Grantees may use funds provided for allowable direct and indirect costs including personnel, supplies, etc. that advance the following activities:

1. Implementation of relevant and essential activities to accelerate the agencies accreditation readiness. This includes- but is not limited to- applying for and achieving national accreditation which is entirely voluntary.
2. In addition, grantees will complete one or more of the following activities that advance their ability to meet or conform with the national Public Health Accreditation Board (PHAB) standards*. Recipients may not use funds for research.

* Recipients may not use funds for clinical care.

* Recipients may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual.

* Awardees may not generally use HHS/CDC/ATSDR funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget.

* The direct and primary recipient in a cooperative agreement program must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award to another party or provider who is ineligible.

* Reimbursement of pre-award costs is not allowed.

* It is imperative for applicants to identify the relevant funding opportunity that most closely aligns to the nature of the proposed work in order for the application to be competitive and for post award activities to remain aligned to the original proposal. Applicants are reminded that CDC is prohibited from supporting the same project or activity from more than one funding opportunity announcement (FOA).

Applicant Eligibility:

This award will be a continuation of funds intended only for grantees previously awarded under CDC-RFA-CD10-101101PPHF12.

Beneficiary Eligibility:

CRITERIA FOR SELECTING PROPOSALS:

Detailed criteria for assessing applications received in response to Funding Opportunity Announcements for the Teenage Pregnancy Prevention program are included in Section V of the Funding Opportunity Announcement. The specific review criteria vary depending on the Funding Opportunity. An independent review panel will evaluate applications that pass the screening

and meet the responsiveness criteria if applicable. These reviewers are experts in their fields, and are drawn from academic institutions, non-profit organizations, state and local government, and Federal government agencies. Based on the Application Review Criteria as outlined under Section V.1, the reviewers will comment on and score the applications, focusing their comments and scoring decisions on the identified criteria. In addition to the independent review panel, Federal staff will review each application for programmatic, budgetary, and grants management compliance.

Final award decisions will be made by the Director of the HHS Office of Adolescent Health.

93.300 NATIONAL CENTER FOR HEALTH WORKFORCE ANALYSIS

Health Workforce Research Centers; NCHWA HWRC

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

Notification is made in writing by a Notice of Award.

Award Procedure:

Notification of award is made in writing (electronic) through a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 - 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Some cooperative agreements may require a matching requirement for State and local studies; refer to the Notice of Funding Opportunity for specific information.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is available for between 3 and 5 years. See the following for information on how assistance is awarded/released: Recipients draw down funds, as necessary, from the Payment Management System (PMS), centralized web based payment system for HHS awards.

Reports:

Both program and financial reports are required. The recipient is required to submit 4 or 5 reports each budget year, one for each research study or technical assistance initiative undertaken in that budget year. In addition, there are 4 rapid response projects for each center per budget year that are submitted as requested by the agency. Cash reports are not applicable. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients, etc. may be subject to this requirement and will be so notified in the Notice of Award. Expenditure reports are not applicable. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years from the date they submit the FFR. If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations using the following review criteria.

(1) The degree to which an applicant specializes in health workforce research. An applicant will be considered as specializing in health workforce research through identification of its mission, health workforce research accomplishments, and dedicated staff to health workforce research; (2) The degree to which the applicant demonstrates state and national experience and accomplishments in health workforce issues and research that align with BHW's mission to improve the health of underserved and vulnerable populations by strengthening the health workforce and connecting skilled professionals to communities in need. Experience, accomplishments, and the potential impact of previous work could be demonstrated through past or currently funded research; publication of articles in peer-reviewed journals; presentations at national and international conferences and meetings; and publication of policy briefs, fact sheets, articles, blogs, etc. that are available in the public domain; (3) The

degree to which the applicant has health workforce research experience relevant to the proposed research project. In terms of workforce discipline-specific studies, the applicant should demonstrate experience in conducting research on the given discipline. For example, for a proposed research project that focuses on a behavioral health workforce issue, the applicant should demonstrate experience in conducting research on behavioral health workforce; and (4) The degree to which the applicant's proposed research includes: a well-developed background statement, clearly stated research objectives, clearly stated project activities and methodology, and a well-developed, reasonable management plan that will enable the successful completion of the project.

93.301 SMALL RURAL HOSPITAL IMPROVEMENT GRANT PROGRAM

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 1820(g)(3)(F)(ii)(I) of Social Security Act (42 U.S.C. 1395i-4 (g) (3), as amended by Section 3129 of the Patient Protection and Affordable Care Act (PPACA), P.L. 111-148.

OBJECTIVES:

To support small rural hospitals in their quality improvement efforts and with adapting to changing payment systems through investments in hardware, software, and related trainings. This includes focusing on delivering value in care as well as activities related to improving Prospective Payment Systems (PPS).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

All funds awarded are to be expended solely for carrying out the approved projects.

Applicant Eligibility:

The State Office of Rural Health (SORH) in each state will be the official awardee of record, as they will act as a fiscal intermediary for all hospitals within their state. Each SORH will be charged with organizing the distribution of funds to eligible hospitals. Only SORHs are eligible to apply for this grant. Federally-recognized Tribal Government and Native American Organizations are selected if they are eligible to apply.

Beneficiary Eligibility:

Small rural hospitals must meet the following eligibility requirements in order to be eligible for SHIP funds:

Small is a facility with 49 or fewer available beds, as reported on the hospitals most recent Medicare Cost Report.

Rural area is either (a) being located outside of a Metropolitan Statistical Area (MSA); (b) being located within a rural census tract of a MSA, as determined under the Goldsmith Modification or the Rural Urban Commuting Areas; or (c) being treated as if it is located in a rural area pursuant to 42 U.S.C. 1395(d)(8)(E).

Hospital is a non-federal, short-term, general acute care facility. Hospitals may be for-profit or not-for-profit. All Critical Access Hospitals are eligible for the program. In addition, hospitals with fewer than 50 beds located in a designated rural area, designated by any state law or regulation, are eligible. Tribally operated hospitals under Titles I and V of P.L. 93-638 are eligible to the extent that such hospitals meet the above criteria.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

93.303 NURSE CORPS SCHOLARSHIP PROGRAM

Nurse Corps Scholarship Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Section 846, as amended, Nurse Reinvestment Act of 2002, Public Law 107-205.

OBJECTIVES:

The NURSE Corps Scholarship Program's objective is to increase the supply and maldistribution of registered nurses (RN) and nurse practitioners (NPs) in eligible health care facilities across the nation, with a critical shortage of nurses by providing service-obligated scholarships to nursing students.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

Service-obligated scholarships are awarded to full-time and part-time students of nursing. Scholarships pay tuition and required fees to the school, a monthly stipend to students and a single annual payment to the student to assist with other reasonable educational expenses that include books, supplies, instruments, and uniforms. The program requires 1 year of service for each year of scholarship support, with a minimum 2-year service commitment post-graduation. A maximum of four years of educational support may be awarded. Service obligation must be fulfilled at an eligible health care facility with a critical shortage of nurses.

Refer to the NURSE Corps Scholarship Program Guidance for specific requirements.

Applicant Eligibility:

The applicant must be a U.S. citizen or national, enrolled or accepted for enrollment in a fully accredited academic institution with a graduate, baccalaureate, associate degree or diploma nursing program located in a State, the District of Columbia, or a U.S. Territory. The applicant must be free of any Federal judgment liens, not have breached a prior service obligation, is not excluded, debarred, suspended, or disqualified by a Federal agency, and have no conflicting service obligations. Financial need is also reviewed as part of the eligibility determination. The applicant must submit an application and a signed contract, agreeing to accept payment of scholarship funds and provide health care services in a health care facility with a critical shortage of nurses for a minimum of two years.

Beneficiary Eligibility:

United States citizens or nationals enrolled or accepted for enrollment in a fully accredited graduate, baccalaureate, associate degree or diploma nursing program.

Credentials/Documentation:

Applicants should review the individual HRSA Application and Program Guidance issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants are required to apply electronically. Applicants submit their applications through <https://programportal.hrsa.gov>.

Please see application process at <http://www.hrsa.gov/loanscholarships/scholarships/Nursing/index.html>

Award Procedure:

All qualified applications are forwarded to an objective review committee and scored numerically. Preference is given to applicants with the greatest financial need. HRSA will make awards in rank order based on funding preference and scores from the objective review committee, until all funds are exhausted. Award notifications are sent by email before October 1 of each year.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application

deadlines.

Range of Approval/Disapproval Time:

Notification to all applicants is made no later than September 30th of the application year.

Appeals:

Not Applicable.

Renewals:

Renewal applications are not necessary for students in compliance. Contracts may be multi-year funded through graduation (up to one to four years) if the applicant signs the contract through the graduation date.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Each award covers up to one to four years of educational support, as requested. No awardees may receive more than four years of support. See the following for information on how assistance is awarded/released: Payments are made to individuals via electronic direct deposit.

Reports:

Annual reports by schools indicating annual tuition and fees. The academic institution where the student is enrolled must complete and submit a Verification of Enrollment Form and transcript each school term.

The employing critical shortage facility must complete and send a semi-annual Service Verification Form verifying that the participating nurse is providing full-time or part-time continuous service as a registered nurse (RN) or nurse practitioner (NP). The certification includes a signature by an appropriate official of the facility. No cash reports are required. No progress reports are required. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

No audits are required for this program.

93.304 RACIAL AND ETHNIC APPROACHES TO COMMUNITY HEALTH

REACH National Networks

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Sections 301(a) and 317(k)(2) of the Public Health Service Act (as amended) [42 U.S.C. Sections 241(a) and 247b(k)(2)].

OBJECTIVES:

The purpose of this program is to fund National Networks to fund, manage, support, and monitor sub-recipients to address health disparities and implement evidence- and practice-based strategies that reduce health disparities for intervention population(s) experiencing high burden of disease or risk factors. The intervention population is the population within the selected geographic area that applicants will reach with proposed program activities. They are to contribute to the development and implementation of a community health action plan to address chronic disease health disparities.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for costs associated with planning, organizing, conducting, implementing, managing, and coordinating all recipient requirements of the FOA. Applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses and activities. CDC will have substantial involvement with the award recipient during performance of the funded activity. * Recipients may not use funds for research.

- * Recipients may not use funds for clinical care.
- * Recipients may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual.
- * Recipients may not generally use HHS/CDC/ATSDR funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget.
- * The direct and primary recipient in a cooperative agreement program must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award to another party or provider who is ineligible.
- * Reimbursement of pre-award costs is not allowed.
- * If requesting indirect costs in the budget, a copy of the indirect cost rate agreement is required. If the indirect cost rate is a provisional rate, the agreement should be less than 12 months of age. The indirect cost rate agreement should be uploaded as a PDF file with Other Attachment Forms when submitting via Grants.gov.
- * The recommended guidance for completing a detailed justified budget can be found on the CDC Web site, at the following Internet address: <http://www.cdc.gov/od/pgo/funding/budgetguide.htm>.

FY 2012 Appropriations Provision: HHS recipients must comply with all terms

and conditions outlined in their grant award, including grant policy terms and conditions contained in applicable Department of Health and Human Services (HHS) Grant Policy Statements, and requirements imposed by program statutes and regulations and HHS grant administration regulations, as applicable, as well as any requirements or limitations in any applicable appropriations acts.

* Recipients may not use funds for abortions in accordance with Executive Order 13535.

2. Are there restrictions upon the use of the assistance? If you select yes you must describe the restrictions

Description:

* Applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses and activities.

* In accordance with U.S. law, no Federal funds provided by CDC are permitted to be used by community grantees for lobbying or to influence, directly or indirectly, specific pieces of pending or proposed legislation at the federal, state, or local levels. The awardee should work with project officer to ensure activities adhere to federal guidelines, and federal dollars are not used to engage in unauthorized activities. Throughout all objectives and activities, the awardee should clarify that the work plan language clearly describes the role, nature, and purpose of the funded activities. This includes providing clear language focusing on the message (e.g., addressing the health risks/effects, using evidence based strategies for increasing protections) when conducting public educational initiatives. In addition, language should be included for proper engagement of elected officials as documented in the federal guidelines. Additionally, awardees should consult appropriate legal counsel to ensure compliance with all rules, regulations, and restriction of any funding sources.

* Title 2 of the United States Code Section 1611 states that an organization described in Section 501(C)(4) of the Internal Revenue Code that engages in lobbying activities is no eligible to receive Federal funds constituting a grant, loan, or award.

Applicant Eligibility:

In continuation years, eligibility is limited to the six (6) existing original awardees:

- * Asian and Pacific Islander American Health Forum
- * Hidalgo Medical Services
- * National Council of Young Mens Christian Association of the USA
- * National REACH Coalition
- * Regents of the University of California, Los Angeles
- * University of Colorado Denver.

Beneficiary Eligibility:

The general public will benefit from the objectives of this program.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operation, describe the evaluation procedures, and provide a budget with justification of funds. OMB Circular No. A-87 applies to this program. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Award Procedure:

Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized Grants Management Officer and e-mailed to the program director. A hard copy of the NoA will be mailed to the recipient fiscal officer identified in the application. Any application awarded in response to this FOA will be subject to the DUNS, CCR Registration and Transparency Act requirements. Unsuccessful applicants will receive notification of the results of the application review by mail.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Project period is 5 years with 12-month budget periods. Applications must be obtained from www.Grants.Gov.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Project periods are for 1 to 5 years with 12 month budget periods. Method of awarding/releasing assistance: lump sum. Method of awarding/releasing assistance: lump sum.

Reports:

Each funded applicant must provide CDC with an annual Interim Progress Report submitted via www.grants.gov:

1. The interim progress report is due no less than 90 days before the end of the budget period. The Interim Progress Report will serve as the non-competing continuation application, and must contain the following elements:
 - a. Standard Form (SF) 424S Form.
 - b. SF-424A Budget Information-Non-Construction Programs.
 - c. Budget Narrative.
 - d. Indirect Cost Rate Agreement.
 - e. Project Narrative.

Additionally, funded applicants must provide CDC with an original, plus two hard copies of the following reports:

1. Annual progress report, due 90 days after the end of the budget period. Information needed in an annual report includes:
 - a. Progress towards objectives.
 - b. Successes.
 - c. Barriers encountered.
 - d. Technical Assistance and training requested. No cash reports are required.
2. Annual and Final performance and Federal Financial Reports (SF-425)*, no more than 90 days after the end of each budget year and project period. Unobligated funds should be broken down and reported. The annual progress report must contain the following elements:
 - a. Annual Performance Report
 - b. Success Story

These reports must be submitted to the attention of the Grants Management Specialist listed in the Section VII below entitled Agency Contacts. Federal Financial Reports are required 90 days after the end of the calendar quarter in which the budget period ends. Performance Monitoring and Evaluation:

- * Describe performance monitoring plans and how the applicant plans to monitor their own performance and that of sub-recipients on a regular basis. Describe plans to make mid-course corrections as needed.
- * Describe the applicants ability to input performance monitoring information in the CDC performance monitoring system (CD MIS) on a quarterly basis.
- * Describe process to collect cost data (total cost and number of people reached

for each separate intervention) to calculate and report cost per person reached.

* Describe process to collect reach of implementation activities, including demographic characteristics of people reached within the intervention population(s). Describe how the implementation activities will be tracked to capture the percentage of the intervention population(s) reached, including processes and measures.

* Indicate whether additional evaluation activities will be proposed or not. If they are proposed, describe plans for evaluation, including whether process and/or outcome evaluation data will be collected and potential data sources. If any new data will be collected for the purposes of evaluation, indicate willingness to share with CDC in an electronic format suitable for analysis.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

There is a 3-year record retention requirement; records shall be retained beyond the 3-year period if final audit has not been done or findings resolved. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

Account Identification:

93.305 NATIONAL STATE BASED TOBACCO CONTROL PROGRAMS

National Tobacco Control Program

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Section 301(a) of the Public Health Service Act [42] U.S.C. Section 241(a).

OBJECTIVES:

This cooperative agreement program addresses tobacco use and secondhand smoke exposure in the United States and supports four National Tobacco Control Program goals to (1) Prevent initiation of tobacco use among youth and young adults; (2) Eliminate exposure to secondhand smoke; (3) Promote quitting among adults and youth; and (4) Identify and eliminate tobacco related disparities. Achievement of these goals will reduce chronic disease morbidity, mortality, and disability related to tobacco use and secondhand smoke exposure. This cooperative agreement program relates to Healthy People 2020 objectives in the topic area of Tobacco Use. In addition, this cooperative agreement program supports the Government Performance Results Modernization Act Long-term Objective 4.6: Reduce Death and Disability Due to Tobacco and the following measures: Tobacco Measure: 4.6 - Reduce death and disability due to tobacco use; 4.6.2 - Reduce per capita cigarette consumption in the U.S. per adult age 18+; 4.6.3 - Reduce the proportion of adults (age 18 and over) who are current cigarette smokers; 4.6.4 - Increase the proportion of the U.S. population covered by comprehensive state and/or local laws making workplaces, restaurants, and bars 100% smoke free (no smoking allowed, no exceptions); 4.6.5 - Reduce the proportion of adolescents (grade 9-12) who are current cigarette smokers. Furthermore, this cooperative agreement program supports national public health priorities and strategic plans including: (1) Centers for Disease Controls Winnable Battles; (2) Department of Health and Human Services Ending the Tobacco Epidemic and Strategic Plan; (3) National Prevention Councils National Prevention Strategy; (4) Institute of Medicines, Ending the Tobacco Problem; and (5) numerous Surgeon General Reports.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Awardees may not use funds for research or clinical care, to provide direct cessation services or other direct services other than those through evidence-based quitline services; to purchase nicotine replacement therapy or other products used for cessation; to pay for inspection of tobacco retail establishments. Awardees may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual. Awardees may only use federal funds for evidence-based tobacco control interventions and strategies. No federal funds from this cooperative agreement may be used to purchase K-12 school curriculum. In most cases, awardees may not use HHS/CDC/ATSDR funding for the purchase of furniture or equipment. Any such proposed spending must be clearly identified in the budget. Reimbursement of pre-award costs is not allowed. Awardees may not use funds for any kind of impermissible lobbying activity designed to influence proposed or pending legislation, appropriations, regulations, administrative actions, or Executive Orders (legislation and other orders). These restrictions include grass roots lobbying efforts and direct lobbying. Certain activities within the normal and recognized executive-legislative relationships within the executive branch of that government are permissible. See Additional Requirement (AR) 12 for further guidance on this prohibition. The direct and primary recipient in a cooperative agreement program must perform a substantial role in carrying out project outcomes and not merely serve as a conduit for an award to another party or provider who is ineligible. Applicant Eligibility:

State departments of health are essential for coordinating the public health response to prevent tobacco use and protect the population from second hand smoke exposure. They have experience with implementing evidence-based interventions and strategies that use environment, policy, and system approaches that have the potential to reach large numbers of people in the state. State departments of health have experience working with an array of state and local governmental and non-governmental organizations to leverage resources that can support tobacco control efforts across a number of categorical programs and sectors. State departments of health are uniquely positioned to carry out the activities outlined in this funding opportunity announcement. State departments of health serve as the lead for tobacco control in every state. State departments of health have existing personnel who are able to provide technical assistance based on their area of expertise (e.g., environment, policy, and systems approaches, program planning, implementation, and evaluation, health communication, surveillance and epidemiology, partnership development) which conserves valuable resources. All this infrastructure and capacity can be integrated and employed by state departments of health to: Leverage partnerships to support the implementation of evidence-based interventions and strategies to prevent and control tobacco at the state and local levels; implement policy and programmatic strategies that cut across multiple chronic conditions and that leverage individual categorical efforts and create synergies and efficiencies across multiple state programmatic efforts also funded by CDC, given the high level of co-morbidities among people with chronic diseases and conditions (e.g., obesity, diabetes, hypertension, heart disease and stroke); utilize the public health resources and capacity unique to state departments of health to achieve a comprehensive state-based tobacco control program; develop models that integrate with other state departments of health chronic disease programs affecting similar populations; collect state-wide surveillance data on tobacco use, secondhand smoke exposure, and the populations most affected through data sources that are uniquely available to state departments of health.

Beneficiary Eligibility:

General Public would benefit.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must download application forms from www.Grants.gov.

Applications must be submitted electronically through www.Grants.gov.

If an applicant does not have access to the Internet, or if they have difficulty accessing the forms online, contact the CDC Procurement and Grants Office, Technical Information Management Section (PGO-TIMS) staff. For this, or further technical assistance, contact PGO-TIMS: Telephone: 770-488-2700, email: PGOTIM@cdc.gov.

Award Procedure:

All applications submitted by the deadline that are complete and responsive to competitive funding opportunity announcement will undergo an objective review process, receive a written critique and be scored according to published review criteria. Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized CDC Grants Management Officer.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Range of Approval/Disapproval is 60-90 days from receipt of application.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Throughout the project period, CDC's commitment to continuation of awards will be conditioned on the availability of funds, evidence of satisfactory progress by the recipient (as documented in required reports, in documented technical assistance, and in other relevant documented activities), and the determination that continued funding is in the best interest of the federal government.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Matching funds are required from non-federal sources in the amount of not less than \$1 for each \$4 federal funds awarded. The match must be from non-federal sources and can be all cash, in-kind, or a combination thereof. In-kind activities must support evidence-based interventions outlined in CDC's Best Practices for Comprehensive Tobacco Control Programs. The match must be for the total dollar amount requested. The amount and source of the match is required in the budget narrative and justification section of the application. Responsiveness to match requirements will be a criterion used in evaluating the application. Cost sharing is encouraged if it helps to leverage federal and state resources, is responsive to stated CDC recipient activities, is advantageous to chronic disease prevention and health programs, supports the four National Tobacco Control Program goals, focuses on evidence-based interventions outlined in Best Practices, and does not compromise the integrity or the ability of the programs to accomplish proposed activities. Examples of cost sharing may include, but are not limited to, sharing 1) the cost of an FTE that can support the work of several projects across program content areas, 2) costs associated with data collection and analysis, 3) costs associated with various communication campaigns that can benefit multiple program areas, and 4) costs associated with working with diverse populations to modify risk factors or eliminate chronic disease-related disparities.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Financial assistance is available for a 12-month budget period and 60 month project period. Method of awarding/releasing assistance: lump sum.

Reports:

The reporting schedule will be based on the requirements listed in the funding opportunity announcement. An Annual Progress Report and Federal Financial Report (SF425) are due 90 days after the end of the budget period. A final progress report and final Federal Financial Report are due 90 days after the end of the project period. Cash reports are not applicable. An Annual Progress Report is due 90 days after the end of the budget period. The Annual Progress Report will describe successes, challenges, and progress toward program goals, objectives and performance measures. A Federal Financial Report is due 90 days after the end of the quarter in which budget period ends. Awardee performance will be monitored through a technical review of the Annual Progress Report; ongoing communication between the awardee and project officer via email, conference calls, and meetings; and periodic site visits. Awardees will describe their activities and progress toward meeting goals, objectives, and performance measures in the progress reports submitted.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the program shall be retained for a minimum of 3 years, or until completion and resolution of any audit in process or pending resolution. In all cases, records must be retained until resolution of any audit questions. Property records must be retained in accordance with 45 CFR 92.42.

CRITERIA FOR SELECTING PROPOSALS:

Phase I Review: All eligible applications will be initially reviewed for completeness by CDC's Procurement and Grants Office (PGO) staff. In addition, eligible applications will be jointly reviewed for responsiveness by the CDC NCCDPHP and PGO. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance to Phase II review. Applicants will be notified that the application did not meet eligibility and/or published submission requirements.

Phase II Review: An objective review panel will evaluate complete and responsive applications according to the criteria listed in the criteria section of the funding opportunity announcement. Applicants will be notified electronically if the applications did not meet eligibility and/or published submission requirements thirty (30) days after the completion of Phase II review.

Applications will be funded in order by score and rank determined by the review panel.

OBJECTIVES:

To support basic, clinical, social, and behavioral research; promote research infrastructure and training; foster emerging programs; disseminate information; and reach out to minority and other health disparity communities. The National Institute on Minority Health and Health Disparities (NIMHD) has established programs to pursue these goals: (1) The Centers of Excellence Program promotes research to improve minority health and/or reduce and eliminate health disparities; builds research capacity for minority health and health disparities research in academic institutions; encourages participation of health disparity groups and communities in biomedical and behavioral research and prevention and intervention activities; and brings together investigators from relevant disciplines in a manner that will enhance and extend the effectiveness of their research; (2) NIMHD Research Endowment Program builds research capacity and infrastructure at eligible NIMHD Centers of Excellence or eligible Section 736 health professions schools (42 U.S.C. 293) to facilitate minority health and other health disparities research to close the disparity gap in the burden of illness and death experienced by racial and ethnic minority Americans and other health disparity populations; promotes a diverse and strong scientific, technological and engineering workforce; and emphasizes the recruitment and retention of underrepresented minorities and other socio-economically disadvantaged populations in the fields of biomedical and behavioral research and other areas of the scientific workforce; (3) The Centers of Excellence on Environmental Health Disparities Research to stimulate basic and applied research on environmental health disparities; (4) Minority Health and Health Disparities International Research Training Program (MHIRT) awards enable U.S. institutions to tailor short-term basic science, biomedical and behavioral mentored student international research training opportunities to address global issues related to understanding, reducing, and eliminating health disparities; (5) Small Business Innovation Research (SBIR) Program increases private sector commercialization of innovations derived from Federal research and development; encourages small business participation in Federal research and development; and fosters and encourages participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (6) Small Business Technology Transfer (STTR) Program stimulates and fosters scientific and technological innovation through cooperative research development carried out between small business concerns and research institutions; fosters technology transfer between small business concerns and research institutions; increases

private sector commercialization of innovations derived from Federal research and development; and fosters and encourages participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation; (7) Health Disparities Research Project Grants (RPG) support innovative projects to enhance our understanding of biological mechanisms, social, behavioral, and health services that can directly and demonstrably contribute to the improvement in minority health and the elimination of health disparities; (8) Health Disparities Research Cooperative Agreements that support Community-Based Participatory Research (CBPR) Initiatives for the development, implementation and evaluation of intervention research using CBPR principles and methods in targeting diseases of major public health importance in health disparity communities, and research to prevent HIV in diverse adolescent men who have sex with men; (9) Research Centers in Minority Institutions (RCMI) build capacity for basic biomedical and/or behavioral research by focusing on institutional resource development, such as supporting core research facilities and staff, purchasing advanced instrumentation, and laboratory renovations/alterations; (10) RCMI Infrastructure for Clinical and Translational Research (RCTR) supports the development of infrastructure required to conduct clinical and translational research by enhancement of, but is not limited to outpatient clinical resources, biostatistical support, core laboratories, and other capacity for patient-oriented research; (11) RCMI Translational Research Network (TRN) supports a consortium of clinical and translational investigators from RCMI Centers, other academic health centers, providers, and community-based organizations to encourage sharing of resources and expertise in minority health and health disparities; (12) Clinical Research Education and Career Development (CRECD) Awards provide didactic training and mentored clinical research experiences to develop independent researchers who can lead clinical research studies, especially those addressing health disparities; (13) Resource-Related Minority Health and Health Disparities Research supports minority health and health disparities resource-related research in the priority areas of Bioethics Research, Global Health Research, Data Infrastructure and Dissemination, and Healthcare for Rural Populations Research; (14) NIH Research Conference Grant and NIH Research Conference Cooperative Agreement Programs support high-quality conferences that are relevant to the minority health and health disparities; (15) Transdisciplinary Collaborative Centers for Health Disparities Research comprise regional coalitions of academic institutions, community organizations, service providers and systems, government agencies and other stakeholders conducting coordinated research, implementation and dissemination activities that transcend customary approaches and silo organizational structures to address critical questions at multiple levels in innovative ways focused on priority research areas in minority health and health disparities; (16) Disparities Research and Education Advancing our Mission (DREAM) Career Transition Award supports mentored research experience in the NIH Intramural Research Program for early stage investigators in health disparities from extramural institutions and then facilitate the transition of their research programs to the independent stage of career development; (17) Ruth L. Kirschstein NRSA Individual Predoctoral Fellowship to Promote Diversity in Health-Related Research; (18) NIH Pathway to Independence Award (K99/R00) which facilitates a timely transition from a mentored postdoctoral research position to a stable research position with independent NIH or other research support at an early career stage; and (19) NIH BD2K Enhancing Diversity in Biomedical Data Science Award (R25) which supports educational activities that enhance the diversity of the biomedical, behavioral and clinical research workforce.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants are intended to support the direct costs of a project in accordance with an approved budget, plus appropriate amount for indirect costs. Grantees must agree to administer the grant in accordance with the regulations and policies governing the research grants program of the Public Health Service. Endowment grants: Some qualifying institutions may use income earned from a research endowment corpus to support institutions in their effort to expand and add teaching programs in the biomedical and behavioral sciences and related areas, to improve facilities, to enhance student and faculty recruitment and retention, to develop instructional delivery systems and information technology in areas that will enhance minority health and other health disparities research

activities, and to establish endowed chairs and programs. Other qualifying institutions must use income earned from a research endowment corpus to increase the institutions investments in the recruitment and retention of underrepresented minority students and students from other health disparity populations that matriculate at such institutions. This includes activities such as increasing student recruitment and retention, creating merit-based and need-based scholarships, establishing or enhancing tutoring, providing counseling, and designing student service programs to improve academic success, and faculty recruitment and retention. SBIR grants: SBIR Phase I grants are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. SBIR Phase II grants are for the continuation of the research initiated in Phase I and are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. STTR grants: STTR Phase I grants are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. STTR Phase II grants are based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application. See Program Announcements: PA-15-269 and PA-15-270. As specified in each of the program announcements. As specified in each of the program announcements.

Applicant Eligibility:

Individuals and public and private institutions, both non-profit and for-profit, who propose to establish, expand, and conduct research, promote or engage in research training, and outreach activities that contribute to improving minority health and/or eliminating health disparities. Endowment grants: Only NIMHD Centers of Excellence or Section 736 health professional schools (see 42 U.S.C. 293) with net endowment assets less than or equal to 50 percent of the national median of endowment funds at institutions that conduct similar biomedical research or training of health professionals are eligible for the research endowment awards. All applicants must have an NIMHD Center of Excellence Award or HRSA Centers of Excellence Award at the time of award of an NIMHD Research Endowment Grant. SBIR grants: Domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which the research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. Small business concerns must be at least 51 percent US owned by individuals and independently operated and/or at least 51 percent owned and controlled by another (one) for-profit business concern that is at least 51 percent owned and controlled by one or more individuals. The research must be performed in the U.S. or its possessions. STTR grants: Domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which the research is proposed, and have no more than 500 employees) that "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution.

Beneficiary Eligibility:

Any non-profit or for-profit organization, company, or institution engaged in biomedical and behavioral research. Endowment grants: NIMHD Centers of Excellence or Section 736 institutions.

Credentials/Documentation:

Applicants must present a research plan and furnish evidence required for research grant applications, PHS 398, (Rev. 05/01) as specified in the application form. Costs will be determined in accordance with HHS Regulation 45 CFR 75, as applicable, and the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>), which is a term and condition of all NIH grant awards. For-profit organizations costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. Endowment grants: Requirements for the endowment application are specified in the application form (SF424 R&R). SBIR and STTR grants: Applicant organizations (small business concerns) must present a research plan that includes an idea that has the potential for commercialization, and furnish evidence that the scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. To apply for SBIR Phase I and Phase II Grants, applicants must complete SF424 (R&R)

Application for Electronic Submission. For general information on SF424 (R&R) Application and Electronic Submission, see these Web sites: SF424 (R&R) Application and Electronic Submission Information: <http://grants.nih.gov/grants/funding/424/index.htm>. General information on Electronic Submission of Grant Applications: <http://grants.nih.gov/grants/ElectronicReceipt/>. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications for the various programs should be submitted to the NIH office that is responsible for the receipt of applications, and in such form and manner as the application prescribes. (All information pertaining to grants hereinafter, also apply to Endowment Grants unless otherwise noted). Research Grants: Applications must be prepared either electronically through Grants.gov (<http://www.grants.gov>) using the SF 424 (Research and Research-Related) or on paper using the PHS 398 research grant application instructions and forms (Revised 9/2004, Interim Revision 4/2006). The PHS 398 is available at <http://grants.nih.gov/grants/funding/phs398/phs398.html>. The format is interactive. For NIH planned transition dates of mechanisms for electronic submission, see: http://grants.nih.gov/grants/ElectronicReceipt/files/timeline_NIH_transitions.pdf. For further assistance contact Grants Info, Telephone (301) 435-0714, Email: GrantsInfo@nih.gov. NRSAs (Individual): Individuals must submit the application form, PHS Individual National Research Service Award (PHS 416-1, rev. 10/05), and include at least three letters of reference. If the applicant has been lawfully admitted to the United States for permanent residence, the appropriate item should be checked on the Face Page of the application. Applicants who have applied for and have not yet been granted admission as a permanent resident should check the Permanent resident block on the Face Page of the PHS 416-1 application, and also write in the word "pending." A notarized statement documenting legal admission for permanent residence must be submitted prior to the issuance of an award. SBIR and STTR: The SF 424 (Research and Research-Related) application forms and the SF 424 SBIR/STTR Application Guide are used to apply for both SBIR and STTR grants, Phase I and Phase II. Application must be made electronically through grants.gov (<http://www.grants.gov>). For further assistance contact Grants Info, Telephone: (301) 435-0714, Email: GrantsInfo@nih.gov.

Award Procedure:

Each eligible application will be evaluated for scientific and technical merit by an appropriate Scientific Review Group in accordance with NIH policies and procedures. The National Advisory Council on Minority Health and Health Disparities (NACMHD) will conduct the second-level review of the applications.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Approximately 6 to 9 months. SBIR and STTR grants: Approximately 7 to 8 months.

Appeals:

A principal investigator or applicant may question the substantive or procedural aspects of the review of his/her application by communicating with NIMHD staff. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Renewal of grant awards beyond the initial project period of support is contingent upon successful competition by the applicant and upon the appropriation of funds for this purpose.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.
Matching requirements are not applicable to this program.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

All awards have a project period of one to five years. Non-competitive grant awards in successive years (year 2 up to year 5) are awarded based on the applicant's annual performance and the availability of funds.
SBIR grants: Generally, Phase I awards are for six months, and Phase II awards are for two years. STTR grants: Generally, Phase I awards are for one year, and Phase II awards are for two years.
All funds for any award must be obligated within five years from the date of the award. See the following for information on how assistance is awarded/released. See above for information about each program. See the following for information on how assistance is awarded/released: See above for information about each program.

Reports:

Annual progress and selected financial status reports for continuing projects and final reports on all projects upon conclusion are required. Endowment Grants: The NIMHD will exercise extended monitoring of a participant's annual progress towards meeting the objectives as outlined in the participants five-year strategic plan for prioritizing the use of endowment income. These reports will extend 20 years beyond the last year of a participants project period. Cash reports are not applicable. Cash reports are not applicable. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. For specific audit requirements, please see 45 CFR 75.

Records:

Expenditures and other financial records must be retained three years from the day on which the grantee submits the last financial status report for the report period.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating all new grant and renewal grant applications include assessments of the scientific merit and general significance of the proposed study and its objectives; the technical adequacy of the experimental design and approach; the competency of the proposed investigator or group to successfully pursue the project; the adequacy of the available and proposed facilities and resources; and the necessity of the budget components requested in relation to the proposed project and the relevance and importance to the announced program objectives. SBIR and STTR grants: For Phase I grant applications, the criteria used are the soundness and technical merit of the proposed approach; the qualifications of the proposed principal investigator, supporting staff, and consultants; the technological innovation of the proposed research; the potential of the proposed suitability of the facilities and research

environment; and where applicable, the adequacy of assurances detailing the proposed means for safeguarding human or animal subjects and/or protecting against or minimizing any adverse effect on the environment. For Phase II grant applications, the criteria used are the degree to which the Phase I objectives were met and feasibility demonstrated; the scientific and technical merit of the proposed approach for achieving the phase II objectives; the qualifications of the proposed principal investigator, supporting staff and consultants; the technological innovation, originality, or societal importance of the proposed research; the potential of the proposed research for commercial application; the reasonableness of the budget requested for the work proposed; the adequacy and suitability of the facilities and research environment; and, where applicable, the adequacy of assurances detailing the proposed means for safeguarding human or animal subjects and/or protecting against or minimizing any adverse effect on the environment. All persons interested in any of the DHHS/NIH/NIMHD grant and/or contract program initiatives are strongly encouraged to carefully read the Request for Applications as they are announced annually in order to understand what is required for each unique program as well as meet each deadline in a timely manner.

93.308 NATIONAL INSTITUTE ON MINORITY HEALTH AND HEALTH DISPARITIES (NIMHD) EXTRAMURAL LOAN REPAYMENT PROGRAMS

NIMHD Loan Repayment Programs

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act; Title IV, Subtitle D, Part G, Section 487E, as amended; Public Law 106-554; 42 U.S.C. 288-5., Title IV, Part G, Section 487E, Public Law 106-554, 42 U.S.C 288-5, Title IV, Part G, Section 487E, Public Law 106-554, 42 U.S.C 288-5.

OBJECTIVES:

The mission of the National Institute on Minority Health and Health Disparities (NIMHD) is to lead scientific research to improve minority health and eliminate health disparities. To accomplish this, NIMHD 1) Plans, reviews, coordinates, and evaluates all minority health and health disparities research and activities of the National Institutes of Health; 2) Conducts and supports research in minority health and health disparities; 3) Promotes and supports the training of a diverse research workforce; 4) Translates and disseminates research information; 5) Fosters innovative collaborations and partnerships.

There are two separate types of loan repayment within NIMHD's Loan Repayment Program: (1) Extramural Loan Repayment Program for Health Disparities Research (LRP-HDR): recruits and retains qualified health professionals to research careers that focus on minority health disparities research or other health disparities research and the (2) Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP IDB), recruits and retains qualified health professionals from disadvantaged backgrounds to conduct clinical research.

The objective of these extramural loan repayment programs are to recruit and retain qualified health professionals including those from health disparity populations and those from disadvantaged backgrounds to conduct minority health disparities research, other health disparities research, and clinical research.

(1) Health Disparities Research may pertain to basic, clinical, or behavioral research on health disparity populations (including individual members and communities of such populations), that relate to health disparities, including the causes of such disparities and methods to prevent, diagnose, and treat such disparities.

(2) Clinical research consists of patient-oriented clinical research conducted with human subjects, or research on the causes and consequences of disease in human populations involving material of human origin (such as tissue specimens and cognitive phenomena) for which the investigator or colleague directly interacts with human subjects in an outpatient or inpatient setting to clarify a problem in human physiology, pathophysiology or disease, or

epidemiologic or behavioral studies, outcomes research or health services research, or developing new technologies, therapeutic interventions, or clinical trials.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

To provide repayment of existing educational loan debt incurred by health professionals including those from health disparity populations and those from disadvantaged backgrounds to conduct minority health disparities or other health disparities research and clinical research. Recipients must execute a written contract agreeing to engage in such research for a minimum of two years. The Secretary of the Department of Health and Human Services, or the Secretary's designee, may grant extension contracts for a one-year or two-year period after the completion of the initial two year contract, provided that the participant applies for an extension, continues to engage in qualified research, and there is sufficient repayable debt remaining. The maximum program benefit is \$35,000 per year in loan repayment.

Program payments are made directly to the participants' lenders following each quarter and a verification of satisfactory research service, unless otherwise agreed upon by the participant and the Director, NIMHD.

Applicant Eligibility:

The following eligibility requirements apply to both: (1) Extramural Loan Repayment Program for Health Disparities Research (LRP-HDR); and (2) Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB)

An applicant must: (1) be a United States citizen, national, or permanent resident; (2) have an M.D., Ph.D., Pharm.D., D.D.S., D.M.D., D.C., N.D., or equivalent doctoral degree from an accredited institution; (3) conduct research that is supported by a non-profit institution, foundation, professional society or U.S. government entity; (4) commit 50 percent or more of his/her time to clinical research; (5) have total qualifying educational debt greater than or equal to 20 percent of his/her institutional base salary at the time of award; (6) conduct research in accordance with applicable Federal, state and local law; (7) not be under any existing service obligations to Federal, State, or other entities, unless and until the existing service obligation is discharged or deferred during the period of program service; (8) not have Federal judgment liens against their property arising from a Federal debt from receiving Federal funds until all judgments have been paid in full or otherwise satisfied; (9) not be a full time employee of a Federal government agency. Part-time Federal employees who engage in qualifying research as part of their non-Federal duties are eligible to apply for loan repayment if they meet all other eligibility requirements; and (10) have the institution provide an assurance that the applicant will be provided research support for two years, that the applicant will engage in qualified clinical research for 50 percent of his/her time, that the funding foundation, professional society, or institution is considered to be non-profit pursuant to Section 501 of the Internal Revenue Code or is a U.S. government entity, and certify the applicant's annual institutional base salary.

There are additional requirements for the Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB). Eligible applicants must come from a disadvantaged background and adhere to the following guidelines relating to the definition of a disadvantaged background:

An Individual from disadvantaged background means an individual who:
(1) Comes from an environment that inhibited the individual from obtaining the knowledge, skill and ability required to enroll in and graduate from a health professions school; or

(2) Comes from a family with an annual income below a level based on low-income thresholds according to family size published by the U.S. Bureau of the Census adjusted annually for changes in the Consumer Price Index, and adjusted by the Secretary for use in all health professions programs. The Secretary periodically publishes these income levels in the Federal Register.

Beneficiary Eligibility:

(1) Extramural Loan Repayment Program for Health Disparities Research (LRP-HDR), and (2) Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB) contracts: Qualified health professionals who conduct minority health or other health disparities research or highly qualified health professionals from disadvantaged backgrounds who will conduct clinical research and who possess substantial unpaid educational debt relative to income.

Credentials/Documentation:

An applicant to either NIMHD extramural LRP programs must submit the following documentation electronically: (1) Applicant Information Statement; (2) Biosketch; (3) Personal Statement, which includes a discussion of career goals and academic objectives; (4) Description of Research Activities; (5) Contact Information of Three Recommenders; (6) Contact Information of Institution Official able to serve as the Institutional Contact; (7) On-line Certification; (8) Loan Information; (9) Notice of Grant/Award (or PHS 2271 for T32 recipients), if applying based on NIH support; and in addition for those applying to the Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB) applicants must submit a Certification of Disadvantaged Background [see Federal Register: April 24, 2009 (Volume 74, Number 78)].

The Research supervisor or mentor of applicants to both NIMHD extramural LRP programs must electronically submit the following: (1) Recommendation; (2) Biosketch; (3) Assessment of the Research Activities Statement submitted by the applicant; (4) Description of the Research Environment; and (5) Training or Mentoring Plan. Recommenders must submit their recommendations electronically. Institutional Contacts must electronically submit a certification that: (1) assures the applicant will be provided the necessary time and resources to engage in the research project for two years from the date a Loan Repayment Program Contract is executed; (2) assures that the applicant is or will be engaged in qualifying research for 50 percent of his/her time, i.e., not less than 20 hours per week; (3) certifies that the funding foundation, professional society, or institution is considered to be non-profit as provided under Section 501 of the Internal Revenue Code (26 U.S.C. 501) or is a U.S. government entity (Federal, state or local); and (4) provides the applicant's institutional base salary. Requirements for the loan repayment application, OMB Approval No. 0925-0361, are specified in the electronic application form located at www.lrp.nih.gov. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. An application for participation in the program can be obtained from www.lrp.nih.gov and should be submitted to the NIH office, which is responsible for the receipt of applications, in such form and manner as the Secretary or the authorized designee may prescribe.

Award Procedure:

Each eligible application will be evaluated for scientific and technical merit by an appropriate Scientific Review Group in accordance with NIH policies and procedures. Awards will be made to meritorious applications, subject to the receipt of an appropriation and/or allocation of funds from the United States Congress, the NIH and/or NIMHD. All selections are subject to final approval by the Secretary or the authorized designee, the Director of NIMHD.

Renewals:

(1) Extramural Loan Repayment Program for Health Disparities Research (LRP-HDR) and (2) Extramural Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds (LRP-IDB) contracts: Prior to the expiration of a participant's current award, the participant may apply for a one- or two-year extension provided the participant continues to engage in qualified clinical research or minority health or other health disparities research and has outstanding repayable debt remaining. Health Disparities Loan Repayment and Disadvantaged Individuals Loan Repayment contracts renewal applications are reviewed and selected for funding on a competitive basis.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

An initial contract provides assistance for a two-year period, and an extension contract provides assistance for a one-year or two-year period. Program payments will be made directly to lenders following each quarter of the participants satisfactory service, unless otherwise agreed upon by the participant and Secretary or authorized designee. Method of awarding/releasing assistance: quarterly.

Reports:

Standard annual report from the NIH Division of Loan Repayment. Cash reports are not applicable. Participants must be periodically certified to have satisfactorily performed the duties of their positions. No expenditure reports are required. CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating applications/proposals include the assessment of the following: (1) personal statement; (2) proposed research project and its scientific merit (priority will be given to biomedical and behavioral researchers); (3) training plan and environment (which includes the research program, the facilities/environment, the mentor/advisor's training, the applicant's training); (4) loan debt ratio and any associated impediments that may affect the applicant's decision to pursue a research career; and (5) references.

93.310 TRANS-NIH RESEARCH SUPPORT

Common Fund Research Support

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title IV, Section 402A, Public Law 109-482, 42 U.S.C 282A.

OBJECTIVES:

To provide support for new initiatives designed to address major opportunities and gaps in biomedical research that no single NIH institute could address alone, but which the agency as a whole can pursue to stimulate the progress of biomedical research and to catalyze changes that will serve to transform new scientific knowledge into tangible benefits for public health. Information on recent and current initiatives is available at <http://commonfund.nih.gov/>.

TYPES OF ASSISTANCE:

PROJECT GRANTS; TRAINING

USES AND USE RESTRICTIONS:

To support research and other projects that will accelerate fundamental biomedical discovery and translation of that knowledge into effective prevention strategies and new treatments.

Applicant Eligibility:

Awards can be made to domestic, public or private, for-profit or nonprofit organization, university, college, hospital, laboratory, or other institution, including State and local units of government, and individuals. Some initiatives will accept applications from foreign organizations. Additional details on eligibility are specified in the Common Fund Grants and Funding Opportunities funding announcement, listed at <http://commonfund.nih.gov/>.

Beneficiary Eligibility:

Institutions as described above.

Credentials/Documentation:

Applications must be submitted in compliance with instructions provided with each initiative. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Prepare and submit applications according to instructions provided in the applicable Common Fund Grants and Funding Opportunities announcement, located at <http://commonfund.nih.gov/>.

Most awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Some awards made under this program use "Other Transaction Authority" which are not subject to the same regulations as grants, contracts, and cooperative agreements.

Award Procedure:

Applications are reviewed for scientific and technical merit by a scientific review group and for program relevance by a national advisory council/board.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The length of the review cycle is four to nine months.

Appeals:

A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the NIH Scientific/Research contact, as provided on an initiative. A description of the NIH Peer Review Appeal procedures is available on the NIH Web site at <http://grants.nih.gov/grants/guide/notice-files/not97-232.html>.

Renewals:

Renewal (competing continuation, type 2) applications to Common Fund programs are not accepted unless specifically accepted by NIH staff.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Almost all awards are made for at least one year, with additional support (up to four more years) depending on the recommendation of the scientific review group, the national advisory council, successful annual performance, and availability of funds. See the following for information on how assistance is awarded/released: drawn from established accounts.

Reports:

Annual progress reports and selected financial reports are required for continuing projects. Final progress reports, invention statements, and expenditure reports are required at the end of the projects. Cash reports are not applicable. Annual progress reports and selected financial reports are required for continuing projects. Final progress reports, invention statements, and expenditure reports are required at the end of the projects. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Most awards made under this program are subject to the audit requirements of OMB 2 CFR 200, as implemented by 45

CFR 75, Subpart F, and in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Some awards made under this program use "Other Transaction Authority" which are not subject to the same regulations as grants, contracts, and cooperative agreements.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 75 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 4 Code of Federal Regulations, Part 75, the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

Funding decisions are based on scientific merit (42 CFR 52h) and program relevance. Scientific merit review encompasses: the peer review criteria detailed in the specific funding announcement, as well as the significance, approach, and innovation of the proposed research; the competency of the principal investigator; the adequacy of the resources and environment; the proposed budget and requested period of support; and, where applicable, the adequacy of the measures for protecting against adverse effects upon humans, animals, or the environment.

93.311 MOBILIZATION FOR HEALTH: NATIONAL PREVENTION PARTNERSHIP AWARDS

(NPPA)

FEDERAL AGENCY:

Office of the Secretary, Department of Health and Human Services

AUTHORIZATION:

Department of Health and Human Services, Office of the Assistant Secretary for Health, National Vaccine Program Office, Executive Order Section 1702(a) [42 U.S.C. 300u-1(a)] and Section 1703(a) and (c) [42 U.S.C. 300u-2(a) and (c)] of the Public Health Service Act, as amended.

OBJECTIVES:

The National Vaccine Program Office (NVPO) collaborates with federal partners to provide strategic direction for the coordination of the vaccine and immunization enterprise for the National Vaccine Plan (NVP) implementation http://www.hhs.gov/nvpo/vacc_plan/2010%20Plan/nationalvaccineplan.pdf NVPO is looking to partner with an institution or organization to conduct research, monitoring or outcomes definition research related to vaccine safety. The areas of research are specifically, but not limited to, predicting the safety profile of new vaccines during the early development stage, developing or modifying existing vaccines to improve their safety, conducting applied research that will have a direct impact on the current vaccine safety monitoring system, conducting research that will improve the safety profile of currently marketed vaccines, conducting research that will achieve consensus definitions of vaccine safety outcomes that could be utilized to collect consensus data in clinical research conducted globally.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The assistance can be applied to improving vaccine safety knowledge, improving the monitoring of adverse events following immunization, or improving the way vaccine safety data are collected and analyzed in clinical trials. Examples of applicability are predicting the safety profile of new vaccines during the early development stage, developing or modifying existing vaccines to improve their safety, conducting applied research that will have a direct impact on the current vaccine safety monitoring system, conducting research that will improve the safety profile of currently marketed vaccines, conducting research that will achieve consensus definitions of vaccine safety outcomes that could be utilized to collect consensus data in clinical research conducted globally. 93.312 CHILD DEVELOPMENT AND, SURVEILLANCE, RESEARCH AND PREVENTION**FEDERAL AGENCY:**

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Sections 317 (k) (2) and 317 (c) of the Public Health Service Act [42 U.S.C. Sections 247b (k) (2) and 247b-4 as amended.

OBJECTIVES:

This funding supports State health agencies, universities, and public and private nonprofit organizations in planning, implementing, coordinating, or evaluating programs related to promoting optimal child health and development outcomes of all children by the detection, prevention, and management of factors that may lead to developmental delays or disorders, or increased morbidity, and by promoting optimal developmental practices within families and other systems that interact with youth. Programs may include the following activities:

(1)conducting epidemiologic research or surveillance in the area of child development, developmental disabilities, children mental health or neurobehavioral disorders such as Attention-Deficit/Hyperactivity Disorder (ADHD) and Tourette syndrome (TS) and related comorbidities; (2)support the improvement of infant and child health and developmental outcomes by establishing resources for both professionals and the public regarding what is known the impact, epidemiology, and interventions for child development, ADHD and TS and related comorbidities;(3) providing a national, State or local platform in the area of child development, developmental disabilities, childrens mental health and neurobehavioral disorders prevention that focuses on improving early identification of and intervention for children with ADHD, TS, and other co-occurring conditions, so children and families can receive the services and support they need;(4) conducting etiologic studies of child development, childrens mental health, and neurobehavioral disorders such as ADHD and TS using population based approaches to enhance existing research or surveillance programs to better address research questions, monitor changes in prevalence and contributing factors, and inform policy and program activities;(5) employing epidemiological methods to set priorities, build capacity and direct health promotion interventions for persons with or at risk for developmental delays, developmental disabilities, mental disorders or neurobehavioral disorders; (6) Conduct population based research that describes comorbidities and associated burden of ADHD and TS disseminating data and health information; (7)employing strategies to reduce racial/ethnic disparities in child development and in the identification of ADHD and TS and related comorbid conditions; (8) Fund and support a National Public Health Practice and Resource Center for Attention-Deficit/Hyperactivity Disorder; (9) Fund and Support a National Public Health Practice and Resource Center for Tourette Syndrome;(10) Fund and support projects that promote optimal child development and health for all children.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used to strengthen, expand, build upon or enhance epidemiologic research, surveillance, health promotion, education, and prevention/intervention activities that contribute to the mission and activities of the National Center on Birth Defects and Development and Disabilities, Division of Human Development and Disabilities. Funds may be used to improve and strengthen State and local public health infrastructure by providing technical assistance to other appropriate health agencies organizations, special groups or coalitions. Funds may be used to support capacity building, program planning, development, implementation, evaluation, and surveillance for optimal child health and development outcomes, developmental disabilities, childrens mental health, and neurobehavioral disorders including Attention-Deficit/Hyperactivity Disorder, Tourette syndrome, and other co-occurring conditions. Projects may include health promotion, education and training, prevention and intervention of Attention-Deficit/Hyperactivity Disorder and Tourette syndrome. Funds may also be used to coordinate and the dissemination of prevention information to the general public, target populations, state, and local agencies, and public and private sector organizations in the United States. Funds may not be used for advocacy initiatives.

Funds May not be used for construction.

Applicant Eligibility:

N/A.

Beneficiary Eligibility:

In addition to the eligible applicants, other groups who will receive benefits from the program include persons with or at-risk for developmental delays, developmental disabilities, mental disorders, or neurobehavioral disorders such as Attention-Deficit/Hyperactivity Disorder, Tourette syndrome and the

conditions that co-occur with them; family members of persons with or at-risk for developmental delays, developmental disabilities, mental disorders, or neurobehavioral disorders such as Attention-Deficit/Hyperactivity Disorder, Tourette syndrome and the conditions that co-occur with them; minority populations, including Spanish speaking populations, infants, children, youth, adults; Federally Recognized Indian Tribal Governments; individual and families; educators, health care professionals, Private nonprofit institution/organizations and others.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. OMB Circular A-102 applies to this program. OMB Circular No. A-110 applies to this program. To apply for this Notice of Funding Opportunity, use application form PHS389 (OMB number 0925-0001 rev. 5/2001). Forms and instructions are available in an interactive format on the Grants.gov website. This program is subject to the provisions set forth in 45 CFR 92, for State and Local governments and OMB Circular No. A-110 for nonprofit organizations.

Award Procedure:

After review and approval, a Notice of Award from the CDC Office of Grant Services (OGS) is prepared and signed by an authorized Grants Management Officer (GMO), and mailed to the recipient officer identified in the application, along with appropriate notification to the public. The initial award provides funds for the first budget period (usually 12 month) and Notice of Award indicates support recommended for the remainder of the project period, allocation of Federal funds by budget categories, and special conditions, if any.

Cooperative Agreement competitive and single eligibility awards are determined by an internal objective committee review process at CDC. Research project grant competitive awardees are determined by an external peer review. At such times, awards will be based on evaluation criteria set forth in the respective Program Announcement, the availability of funds, and such other significant factors as deemed necessary and appropriate by CDC. The notice of award will indicate financial support for the first budget year, allocations of Federal funds by budget category, and special conditions if any.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Not Applicable.

Renewals:

Project periods are from 1-5 years with 12-month budget periods. Applications must be obtained from Grants.gov. Throughout project periods, CDC's commitment to continuation of awards will be conditioned on the availability of funds and evidence of satisfactory progress by recipient as documented in the required reports. If additional support is desired to continue a project beyond the approved project period, an application for competing continuation must be submitted for review in the same manner as a new application. Projects are renewable for periods of 1 to 4 years.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is available for 12-month budget periods within project periods ranging from 1 to 5 years. After awards are issued, funds are released in

accordance with the payment procedures established by the grantee institution with DHHS, which may be an Electronic Transfer System or a Monthly Cost Request System. Method of awarding/releasing assistance: quarterly.

Reports:

Annual Progress Reports are submitted 90 days after the end of the budget period and covers budget period progress. Final Progress report which covers the project period is due 90 days after the end of the project period. Federal Financial Reports (FFR) is required 90 days after the end of each budget period. Semiannual or annual progress reports are required. Annual Progress reports and federal Financial Reports are required no later than 90 days after the end of each budget period. Final federal financial reports and performance reports are required 90 days after the end of a project period. The National Center on Birth Defects and Developmental Disabilities may propose on-site meetings, off-site or other processes for the exchange of information on progress toward objectives of collaborative activities. A plan of proposed activities is required annually. The reporting format and required report content details are specified in Notice of Funding Opportunity. CRITERIA FOR SELECTING PROPOSALS:

In general, applications are reviewed on the basis of scientific and technical merit, with attention given to such areas as (1) the degree to which the applicant satisfies the essential requirements and possesses other desired characteristics, such as depth, breadth, and merit of overall application relative to the types of projects proposed; (2) clarity of purpose and overall qualifications, adequacy and appropriateness of personnel to accomplish proposed prevention research projects and demonstration projects, and the nations health priorities and needs; (3) ability to generalize, translate and disseminate to State or local health departments, national regional, and local public health agencies and organizations; are reviewed based on evaluation criteria explicit in the respective Program Announcements. Applications must address demonstrated program need, the magnitude of the problem, the management work plan, collaborative associations, and the approach toward setting and meeting overall project objectives and time frames. These future competitive applications would also be evaluated on the capacity of the applicant to demonstrate effective collaborations with other agencies and data sources critical to preventing secondary conditions, identifying and addressing health promotion needs for persons with Attention-Deficit/Hyperactivity Disorder (ADHD) and Tourette Syndrome (TS), denoting the capacity of the project to address minority and low income populations, Spanish speaking populations, co-occurring conditions, and offering sound proposals that reflect the understanding of the epidemiologic and surveillance research.

Reports:

Program reports are not applicable. Cash reports are not applicable. Applicants must submit annual progress reports and selected financial reports. Final progress reports, invention statements and expenditure reports are required at the end of the project. Cash reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grantees must generally retain financial and programmatic records, supporting documents, statistical reports and all other records that are required by the terms of a grant or may reasonably be considered pertinent to a grant for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR is submitted. Those grantees must maintain the records pertinent to the entire competitive segment for 3 years from the date of submission of the annual FSR to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of the annual FSR to NIH. See 45 CFR 75.361 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken). Those

sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. In accordance with 45 CFR 75.364, the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipient's personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

93.314 EARLY HEARING DETECTION AND INTERVENTION INFORMATION SYSTEM (EHDI-IS) SURVEILLANCE PROGRAM

EHDI Information System

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Sections 311, 317(k)(2), 317(C), and 399M(b).

OBJECTIVES:

The objective of this program is to assist EHDI programs in developing and maintaining a sustainable, centralized newborn hearing screening tracking and surveillance system capable of accurately identifying, matching, collecting, and reporting data on all occurrent births that is unduplicated and individually identifiable. Additionally, for those programs with fully developed EHDI information systems, program will enhance the electronic system capacity to collect data, and exchange data accurately, effectively, securely, and consistently between the EHDI-IS and Electronic Health Record Systems (HER-S).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used to support to assist jurisdictional programs in developing

and maintaining a sustainable, centralized EHDI Information Systems and to enhance electronic system capacity to collect data, ensure children receive recommended screening and follow-up services, and exchange data accurately, effectively, securely, and consistently between the EHDI-IS and Electronic Health Record Systems. Funds may be used to conduct applied research related to newborn and infant hearing screening, evaluation and intervention programs and systems. Funds may be used to ensure quality monitoring of newborn and infant hearing loss screening, evaluation, diagnosis, and intervention programs and systems. Funds may be used to provide technical assistance on data collection and management. Funds may be used to study the costs and effectiveness of newborn and infant hearing screening, evaluation and intervention programs and systems conducted by State-based programs. Funds may be used to identify the causes and risk factors for congenital hearing loss. Funds may be used to study the effectiveness of newborn and infant hearing screening, audiologic and medical evaluations and intervention programs and systems by assessing the health, intellectual and social developmental, cognitive, and language status of these children at school age. Funds may be used to promote the sharing of data regarding early hearing loss with other monitoring programs. Funds may not be used for clinical care, purchase screening or diagnostic equipment, supplant funds available for screening, diagnosis, early intervention, or tracking for hearing lost or other disorders detected by newborn screening.

93.316 PUBLIC HEALTH PREPAREDNESS AND RESPONSE SCIENCE, RESEARCH, AND PRACTICE

Public Health Preparedness Science

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title 42, Part 247b, Section 317(k)(2).

OBJECTIVES:

The overall goal of this program is to conduct research and related public health preparedness and response (PHPR) program activities to build the scientific evidence base for public health preparedness, response, and recovery (PHPRR). Scientific research that addresses PHPR program priorities supports agency efforts to improve and enhance the nations health security. This program is intended to support this research, dissemination of research findings and products, translation of new science-based evidence to practice in the public health preparedness and response system, and the evaluation of effective application of science for improved practice as well as other programs, projects, or activities to advance preparedness science.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants (Contracts)

USES AND USE RESTRICTIONS:

Funds will be used to support public health preparedness and response science and research that may include: 1) conduct of applied interdisciplinary public health research designed to examine and strengthen the practices, functions, structure, capabilities, and/or performance of organizations involved in preparing for and responding to any and all potential public health threats and hazards; 2) develop, implement, and evaluate innovative strategies for disseminating and translating research findings, products, and knowledge for improving PHPRR systems, practices, and functions; 3) develop and execute proposals to implement evidence-based PHPRR practice interventions in conjunction with evaluation of the implementation and effectiveness of the intervention; 4) rapid response research that will inform ongoing response to and recovery from any disaster or public health emergency.

Recipients may only expend funds for reasonable public health preparedness, response, and recovery research, evaluation, dissemination, and translation activities, and program purposes, including personnel, travel, supplies, and services, such as contractual arrangements with practice partners, research partners, or consultants. Recipients may not use funds for clinical care. Recipients may not generally use funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget. Funds may not be used for construction or renovation of buildings. The recipient must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award to another party or provider who is ineligible.

Applicant Eligibility:

Eligible applicants may include public and private nonprofit and for profit organizations and governments and their agencies, such as: public nonprofit organizations private nonprofit organizations, for-profit organizations, small, minority, women-owned businesses, universities, colleges, research institutions, hospitals, community-based organizations, faith-based organizations, Federally Recognized Indian Tribal Governments, Indian tribes, Indian tribal organizations, state and local governments or their bona fide agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Marianna Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau), political subdivisions of states (in consultation with States).

CRITERIA FOR SELECTING PROPOSALS:

Applications are reviewed on the basis of scientific/technical merit, with attention being given to such matters as: (1) The degree to which the applicant satisfies the essential requirements and possesses other desired characteristics, such as the significance for and relevance to preparedness practice, innovation, generalizability, and scientific merit of the overall application relative to the types of research, evaluations, demonstrations, assessments, and special projects proposed; (2) clarity of purpose and overall qualifications, adequacy and appropriateness of personnel to accomplish proposed activities; (3) feasibility and likelihood of producing meaningful results from the activities proposed, analytic approach, and evaluation procedures; (4) overall match between the proposed programs and the nation's health security priorities and needs; and (5) reasonableness of the proposed budget in relation to the work proposed.

93.317 EMERGING INFECTIONS PROGRAMS

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act Sections 301(a)[42 U.S.C. 241(a)], 317(k)(1)[42 U.S.C. 247b(k)(1)], and 317(k)(2)[42 U.S.C. 247b(k)(2)], as amended.

OBJECTIVES:

The purpose of the Emerging Infections Programs (EIP) is to assist in local, state, and national efforts to prevent, control, and monitor the public health impact of infectious diseases. The EIP cooperative agreement was formed in 1995 as a key component of CDC's national strategy to address and reduce emerging infectious disease (EID) threats. The EIP is a population-based network of state health agencies and their collaborators, including (but not limited to) academic institutions, local health departments, public health and clinical laboratories, infection control professionals, and healthcare providers. The network plays a critical role in conducting surveillance and applied epidemiologic and laboratory research, implementing and evaluating prevention and intervention projects, and responding quickly to new infectious disease issues. The unique strength of the EIP lies in the network's ability to quickly translate surveillance and research activities into informed policy and public health practice.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Recipients may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual. Funding under this program will support activities that fall within the following general activities: (1) active surveillance; (2) applied public health epidemiologic and laboratory activities; (3) implementation and evaluation of pilot prevention/intervention projects; and (4) flexible response to public health emergencies. Activities: (1) address issues that the EIP network is particularly suited to investigate; (2) maintain sufficient flexibility for emergency response and new problems as they arise; (3) develop and evaluate public health interventions to inform public health policy and treatment guidelines; (4) incorporate training as a key function; and (5) prioritize projects that lead directly to the prevention of disease (<http://www.link.cdc.gov/nceid/dpei/eip>). The full list of restrictions for this program are included in the published Funding Opportunity Announcement for this program. General restrictions that apply are as follows:

Awardees may not generally use HHS/CDC/ATSDR funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget.

The direct and primary recipient in a cooperative agreement program must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award to another party or provider who is ineligible. Funds relating to the conduct of research will be restricted until the appropriate assurances and Institutional Review Board approvals are in place.

Applicant Eligibility:

Eligibility is limited to State governments (specifically, state health departments) or their Bona Fide Agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau).

The EIP infrastructure depends on a direct relationship with public health agencies that have sufficient legal authority and responsibility to perform public health surveillance and response activities. The network must also consist of definitive populations large enough to adequately determine disease burden, evaluate large scale interventions, and impact public health policy decisions.

Beneficiary Eligibility:

Beneficiaries of this program include State and local health departments, the District of Columbia, U.S. Territories, and the general public.

Credentials/Documentation:

Allowable costs will be determined in accordance with OMB Circular No. A-87

for State, Local, and Indian Tribal governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must download application forms from www.Grants.gov. Applications must be submitted electronically at www.Grants.gov. If access to the Internet is not available or if the applicant encounters difficulty in accessing the forms on-line, contact the HHS/CDC Procurement and Grant Office Technical Information Management Section (PGO TIMS) staff at (770) 488-2700 for further instruction. CDC Telecommunications for the hearing impaired or disabled is available at: TTY 1-888-232-6348.

Award Procedure:

Applications that are complete and responsive will be evaluated for scientific and technical merit by an appropriate Special Emphasis Panel (SEP) in accordance with CDC SEP review policies and procedures. CDC will not review incomplete and non-responsive applications. Complete and responsive applications will undergo a SEP review process, receive a written critique and be scored according to the published review criteria. Successful applicants will receive a Notice of Award (NOA) from the CDC Procurement and Grants Office. The NOA shall be the only binding, authorizing document between the recipient and CDC. The NOA will be signed by an authorized Grants Management Officer. Initial award provides funds for the first budget period (usually 12 months) and the NOA will indicate support recommended for the remainder of the project period, allocation of Federal funds by budget categories, and special conditions, if any.

Once competing applicants have been selected by the SEP review process for the first year of funding in the project period, those selected will be eligible to submit annual non-competitive continuation applications for each successive budget period of the project period.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. Approval/disapproval information is typically provided to applicants within 90 to 120 days of the application due date.

Appeals:

Not Applicable.

Renewals:

Awards under this Program are typically issued for 1- to 5-year project periods. Renewals at the end of each project period are expected to be made available via publishing of a new/continuation FOA with a complete application and review/award process as described above. Annual renewals within an awarded multi-year project period are made via a non-competitive process and are subject to the availability of funding.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Financial assistance is available for a 12-month budget period within a 1- to 5-year project period. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. No later than 10 days after the end of each calendar quarter, the recipients must submit a calendar quarter cash transaction report (SF-272 or top portion of the SF-425 Financial Report Form) to the

Payment Management System (PMS). The reporting schedule will be based on the requirements listed in the EIP funding opportunity announcement. Funded applicants must provide CDC with an annual Interim Progress Report. Additionally, funded applicants must provide CDC with a Federal Financial Report (SF 425) no more than 90 days after the end of each budget period, and a final Performance and Federal Financial Report no more than 90 days after the end of the project period. All reports must be submitted to the Grants Management Specialist indicated in the NoA. Additional details regarding the reporting requirements for this program are included in the published Funding Opportunity Announcements. Federal Financial Reports (SF 425) are due no more than 90 days after the end of the budget period. Federal Financial Reports and Progress Reports are required per the reporting schedule listed in the EIP funding opportunity announcement.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the grant program must be retained for a minimum of 3 years after the end of a budget period, or until completion and resolution of any audit in process or pending resolution. In all cases, records must be retained until resolution of any audit questions. Property records must be retained in accordance with 45 CFR 92.42.

Evaluation Criteria in the most recently published FOA include: (1) capacity to perform core functions of an EIP, (2) proposed operational plan for carrying out the specific objectives of the program, and (3) measures of effectiveness.

93.318 PROTECTING AND IMPROVING HEALTH GLOBALLY: BUILDING AND STRENGTHENING PUBLIC HEALTH IMPACT, SYSTEMS, CAPACITY AND SECURITY

Global Health

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act sections 301(a) and 307, as amended, 42 U.S.C. 241 and 2421.

OBJECTIVES:

CDCs global health efforts are to assist Ministries of Health and other international partners to plan, manage effectively, and evaluate public health programs; achieve U.S. Government program and international organization goals to improve health, including disease eradication and elimination targets; expand CDCs global health programs that focus on the leading causes of worldwide mortality, morbidity and disability, including chronic disease and injuries; generate and apply new knowledge to achieve health goals; and, strengthen health systems and their impact.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Support the implementation of programs and activities focusing on protecting and improving health globally through regional, national, and local partnerships to develop, implement and strengthen public health surveillance, health information systems (including monitoring and evaluation), public health laboratory capacity, workforce development, as well as systems and capacities for the prevention, detection, response, and control of infectious and non-communicable diseases, injury prevention efforts and public health emergencies. Support must also be aimed at building upon existing public health infrastructure focusing on country priorities that are of mutual interest to CDC in order to strengthen regional and national partnerships, public health capacity, leadership, strategic collaboration and integrated health programming through national ministries of health, national public health networks and inter-sectorial co-operation and collaborations with other health organizations, academic institutions and community groups as appropriate to accomplish program activities. In addition, projects must also consider monitoring and evaluation of overall program performance and the progress of projects or activities. Recipients may not use funds for clinical care. Recipients may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual. Awardees may not generally use HHS/CDC/ATSDR funding for the purchase of furniture or equipment. Any such proposed spending must be identified in

the budget.

The direct and primary recipient in a cooperative agreement program must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award to another party or provider who is ineligible. Reimbursement of pre-award costs is not allowed.

Applicant Eligibility:

Dependent on the FOA, eligibility may range from open, competitive, limited, or single eligibility in accordance with authorizing legislation.

Beneficiary Eligibility:

This will benefit individuals worldwide, including in the U.S., through collaborations with national Ministries of Health and other organizations/institutions. This is only for non-research activities supported by CDC/ATSDR. For the definition of research, please see <http://www.cdc.gov/od/science/quality/resources>.

Credentials/Documentation:

Applicants should document the need for assistance, state objectives of the project, address the background, approach strategies and evaluation methods of the project/program, and provide a budget with justification of funds. 2 CFR 200, Subpart E - Cost Principles applies to this program.

93.319 OUTREACH PROGRAMS TO REDUCE THE PREVALENCE OF OBESITY IN HIGH RISK RURAL AREAS

High Risk Obesity

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

This program is authorized under section 301(a) and 317(k) Public Health Service Act, 42 U.S. Code 241(a) and 247b (k).

OBJECTIVES:

The purpose of this project is to assist Land-Grant institutions to conduct pilot programs through existing extension and outreach services to enhance and expand efforts to combat the prevalence of obesity in areas where the problem

is worst, particularly rural areas.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Increase capacity of local outreach services to include new or enhanced services related to nutrition and physical activity that promote, support, facilitate and implement strategies to improve access and opportunities to achieve optimal physical, social, and emotional well-being to reduce the prevalence of obesity and affect long term changes in the rates of obesity in rural settings. Funds may be used to support approaches to chronic disease prevention and control described in section 050 above. Recipients may expend funds for reasonable policies, systems and environmental program purposes, including personnel, travel, supplies, and services, such as contractual to reduce risk factors, prevent and delay chronic disease.

Applicant Eligibility:

(1) Must conduct activities in eligible counties (defined as having an obesity prevalence of 40%+ (based on 20062008 data from BRFSS, CDC County-Level Map at <http://www.cdc.gov/diabetes/statistics/>), and (2) Must use existing local extensions and outreach services to accomplish project.

Beneficiary Eligibility:

Individual/Family (residents) in local counties/rural areas will benefit from this assistance through increased access and opportunities to healthy, affordable foods and beverages, safe and convenient places for physical activity and breastfeeding duration and support,.

Credentials/Documentation:

Documentation must be provided as follows: (1) List of counties applicant proposes to work in and % obesity prevalence, (2) List of extensions and outreach services and year established, (3) Letters of support from local extensions. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Submit Annual Progress Reports through www.Grants.gov. If you encounter any difficulties submitting your interim progress report through www.Grants.gov, please contact CDC's Technical Information Management Section at (770) 488-2700 prior to the submission deadline. If further information is needed regarding the application process, please contact the CDC Procurement and Grants Office at (770) 488-2710 located at 2920 Brandywine Road, Atlanta, GA 30341

Award Procedure:

After review and approval, a notice of award is prepared and processed, along with appropriate notification to the public, initial award provides funds for first budget period (usually 12 months) and Notice of Award indicates support recommended for the remainder of project period, allocation of Federal funds by budget categories, and special conditions, if any. However, applicants are encouraged to call CDC for programmatic technical assistance prior to the development and submission of their assistance application.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. September 30, 2014 September 29, 2017.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. 180 Days. Renewals will be based upon the availability of funding and satisfactory programmatic progress. Project period is for 3 years with 12 month budget periods.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Five Year Project Period. Method of awarding/releasing assistance: lump sum.

Reports:

Semi-annual reports from each entity awarded a grant, cooperative agreement, or contract, summarizing the activities undertaken and identifying any sub-grants or sub-contracts awarded (including the purpose of the award and the identity of the recipient), to be posted not later than 30 days after the end of each 6-month period. No cash reports are required. Reporting provides continuous program monitoring and identifies successes and challenges that awardees encounter throughout the project period. Also, reporting is a requirement for awardees who want to apply for yearly continuation of funding. Awardees must submit an Annual Performance Report via www.grants.gov 120 days before the end of each budget period. The report must not exceed 45 pages excluding administrative reporting; attachments are not allowed, but Web links are allowed. This report must include the following: performance measures, evaluation results, work plan, successes, challenges, CDC program support needs, and administrative reporting. The annual FFR form (SF-425) is required and must be submitted through eRA Commons within 90 days after each budget period ends. The report must include only those funds authorized and disbursed during the timeframe covered by the report. The final report must indicate the exact balance of unobligated funds, and may not reflect any unliquidated obligations. The final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data must correspond; no discrepancies between the data sets are permitted. Failure to submit the required information by the due date may affect adversely the future funding of the project. If the information cannot be provided by the due date, awardees are required to submit a letter of explanation and include the date by which the information will be provided. Awardees must provide a more detailed evaluation and performance measurement plan within the first six months of the project. This more detailed plan must be developed by awardees as part of first-year project activities, with support from CDC. This more detailed plan must build on the elements stated in the initial plan, and must be no more than 25 pages. Awardees are required to submit performance measures annually as a minimum, and may require reporting more frequently. Performance measure reporting is limited to data collection. When funding is awarded initially, CDC programs will specify required reporting frequency, data fields, and format.

Audits:

Not Applicable.

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the project must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for a minimum of 3 years after the end of a budget period. If questions still remain, such as those raised as a result of an audit, records must be retained until completion or resolution of any audit in process or pending resolution. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

Account Identification:

93.321 DIETARY SUPPLEMENT RESEARCH PROGRAM

FEDERAL AGENCY:

National Institutes of Health, Department of Health and Human Services

AUTHORIZATION:

NIH Revitalization Act of 1993, 22 Stat. , U.S.C 289(A)(1).

OBJECTIVES:

The NIH Office of Dietary Supplements will identify projects that should be conducted or supported by national research institutes; identify multi-disciplinary research related to dietary supplements that should be conducted or supported; and promote coordination and collaboration among entities conducting research.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

To support research and other projects that strengthen knowledge and understanding of dietary supplements and translation of that knowledge into effective prevention strategies. Awards are limited by availability of funds. Specific restrictions are outlined in each funding opportunity announcement.

Applicant Eligibility:

Awards can be made to domestic, public or private, non-profit or profit organization, institution of higher learning, university, hospital, laboratory, or other institution including state and local units of government and tribal entities. Some initiatives will accept applications from foreign organizations. Additional details on eligibility will be specified in the funding opportunity announcement.

Beneficiary Eligibility:

Institutions as described above.

Credentials/Documentation:

Applications must be submitted in compliance with instructions provided with each initiative. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Competitive peer reviewed applications are reviewed for scientific and technical merit by a scientific review group; and for program relevance by a national advisory council/board. Administrative supplements are reviewed for merit and relevance by NIH scientific staff.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 120 to 180 days.

Appeals:

A principal investigator may question the substantive or procedural aspects of his/her application by communication with the NIH scientific/research contact as provided in the initiative.

Renewals:

Administrative supplements are not renewable. Other programs may be renewable and applicants must review the funding opportunity announcement for further guidance.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Almost all awards are made for at least one year. Applicants should refer to the specific funding opportunity announcement for further detail. Method of awarding/releasing assistance: lump sum.

Reports:

Applicants must submit annual progress reports and a final closeout progress report. A final invention statement and Certification is also required at the end of the project. SF425 cash reports must be submitted on a quarterly basis. Applicants must submit annual progress reports and a final closeout progress report. A final SF425 expenditure report is required at the end of the project. Progress reports will be monitored annually.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grantees must generally retain financial and programmatic records, supporting documents, statistical reports and all other records that are required by the terms of a grant or may reasonably be considered pertinent to a grant for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR is submitted. Those grantees must maintain the records pertinent to the entire competitive segment for 3 years from the date of submission of the annual FSR to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of the annual FSR to NIH. Office of Dietary Supplements will adhere to the requirements specified in 45 CFR 75, specifically:

75.361 - Retention requirements for records.

75.362 - Requests for transfer or records.

75.363 - Methods for collection, transmission and storage of information.

75.364 - Access to records.

93.322 CSELS PARTNERSHIP: STRENGTHENING PUBLIC HEALTH LABORATORIES

Laboratory Leadership, Workforce Training and Management Development

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Section 317(k)(2), 42 U.S.C 247b(k)(2) as amended.

OBJECTIVES:

The activities under this cooperative agreement are aligned with the following Healthy People 2020 overarching objectives: Global Health, Environmental Health, Food Safety, Immunizations and Infectious Diseases, Sexually Transmitted Diseases, HIV, Health Communication and Health Information Technology, Preparedness, Public Health Infrastructure, and Occupational Safety and Health.

The major objective is to enhance and strengthen the work and functionality of public health laboratories both domestically and abroad. The overarching goal is to improve several aspects of public health laboratories. These areas include the following: improving public health laboratory infrastructure, increasing the capacity through workforce development, promoting quality laboratory practices, expanding and improving health security, promoting and supporting informatics, and enhancing communication linkages.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for costs associated with planning, organizing, conducting, and supporting public health laboratory infrastructure programs, and for the implementation of other program elements as described in Section 050 above.

The purpose of the program is to enhance the work of public health laboratories in the U.S. and abroad. The program aims to promote quality public health

laboratory practice, improve public health laboratory infrastructure, strengthen the public health laboratory system, and to develop a well-trained public health laboratory workforce in the U.S. and globally. It also aims to ensure laboratory preparedness for emerging infectious diseases or other biologic and chemical public health threats, promote technology transfer to ensure up-to-date technologies for the testing laboratory, and enhance communication linkages between state and local public health laboratories and the clinical laboratory testing community. Improvement of public health laboratory infrastructure, state-of-the-art training for the nation's laboratorians to be prepared in dealing with public health threats, improving laboratory leadership capabilities, enhancing inter-laboratory communications and provide programmatic and technical support to other focus areas including policy, emergency preparedness, global health, informatics and professional development. Project funds may be used for costs associated with planning, organizing, conducting, and supporting public health laboratory infrastructure programs, and for the implementation of other program elements as described in Section 050 above. There are restrictions to the use of funds on construction.

This award will be used for direct assistance funding.

Applicant Eligibility:

Applicants must have experience with enhancing and strengthening the work and functionality of public health laboratories both domestically and abroad. The overarching goal is to improve several aspects of public health laboratories.

Beneficiary Eligibility:

Applicants must have experience with enhancing and strengthening the work and functionality of public health laboratories both domestically and abroad. The overarching goal is to improve several aspects of public health laboratories. The nation's public is the ultimate recipient of benefits from this program.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For all other nonprofit grantees, cost will be determined in accordance with HHS Regulations 45 CFR 74 Subpart Q. For-profit organizations' costs are determined in accordance with the Federal Acquisition Regulations, 48 CFR 31. OMB Circular No. A-87 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A letter of intent is required for this funding opportunity agreement.

To apply for this funding opportunity use application form PHS 5161. Application forms and instructions are available on www.grants.gov and/or the CDC web site, at the following Internet address: www.cdc.gov/od/pgo/forminfo.htm. If you do not have access to the Internet, or if you have difficulty accessing the forms on-line, you may contact the CDC Procurement and Grants Office Technical Information Management Section (PGO-TIM) staff at: 770-488-2700. Application forms can be mailed to you.

Award Procedure:

Applications will be evaluated for completeness and responsiveness by the agency program and CDC Procurement and Grants Office (PGO). CDC will not review incomplete and non-responsive applications. After review and approval, a notice of grant award (NoA) will be prepared and processed, along with appropriate notification to the public. Initial award provides funds for the first budget period (usually 12 months) and the NoA will indicate support recommended for the remainder of the project period, allocation of Federal funds by budget categories, and special conditions, if any.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Not Applicable.

Renewals:

Cooperative agreement project periods are 1 to 5 years. Subject to availability of funds, after initial awards, projects may be renewed non-competitively contingent upon satisfactory progress by the recipient (as documented in required reports) and the determination that continued funding is in the best interest of the Federal government.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Financial assistance is provided for a 12-month budget period with project periods of up to five years subject to the availability of funds and satisfactory progress of the grantee. Method of awarding/releasing assistance: lump sum. See the following for information on how assistance is awarded/released: Automatic Drawdown from the Payment Management Service.

Reports:

Annual or semiannual progress reports are required. Financial status reports are required no later than 90 days after the end of each budget period. Final financial status and performance reports are required 90 days after the end of the project period. Cash reports are not applicable. Annual or semiannual progress reports are required. Performance monitoring is applicable with substantial involvement from CDC. Quarterly expenditure projections are required, no more than 30 days after the end of each quarter. 93.323 EPIDEMIOLOGY AND LABORATORY CAPACITY FOR INFECTIOUS DISEASES (ELC) (ELC)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act Sections 301(a)[42 U.S.C. 241(a)] and 317(k)(2)[42 U.S.C. 247b(k)(2)].

OBJECTIVES:

The purpose of this program is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Financial and technical resources are intended to be utilized for non-research activities that (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments. Activities may include those that enable a public health organization to establish and maintain a capable and qualified workforce, achieve modern and well-equipped public health laboratories, implement up-to-date health information systems, and institute systems that foster communication and appropriate integration across epidemiology, laboratory, and health information systems.

Federal Financial Assistance (FA) and Direct Assistance (DA) are authorized. Project funds may be used for costs associated with planning, organizing, and the implementation of other program elements to build public health epidemiology, laboratory, and health information systems capacity. Recipients may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services (e.g., contractual support). Funds may not be used for research or clinical care. Generally, awardees may not use funds to purchase furniture. Other than for normal and recognized executive-legislative relationships, no funds may be used for (1) publicity or propaganda purposes, for the preparation, distribution, or use of any material designed to support or defeat the enactment of legislation before any legislative body, or (2) the salary or expenses of any grant or contract recipient, or agent acting for such recipient, related to any activity designed to influence the enactment of legislation, appropriations, regulation, administrative action, or Executive order proposed or pending before any legislative body. (See Additional Requirement (AR) 12 for detailed guidance on this prohibition and additional guidance on lobbying for CDC awardees). Funds awarded to grantees are fully discretionary and funding levels are determined each fiscal year.

Applicant Eligibility:

Eligible applicants consist of state, local, and U.S. territory/possession governments currently funded under CDC-RFA-C110-1012 or CDC-RFA-CK12-1201. Specifically, these include: all 50 states, Washington, D.C., 5 largest local health departments (Chicago, Illinois; Houston, Texas; Los Angeles, California; New York City, New York; Philadelphia, Pennsylvania;), the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of

Micronesia, the Republic of the Marshall Islands, and the Republic of Palau or their bona fide agents.

Beneficiary Eligibility:

Direct beneficiaries include all 50 states, Washington, D.C., 5 largest local health departments (Chicago, Illinois; Houston, Texas; Los Angeles, California; New York City, New York; Philadelphia, Pennsylvania;), the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau or their bona fide agents.

Credentials/Documentation:

Allowable costs will be determined in accordance with OMB Circular No. A-87 for State, Local, and Indian Tribal governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Applications that are complete and responsive will be evaluated for scientific and technical merit and receive support. CDC will not review incomplete and non-responsive applications. Applications that are complete and responsive will undergo an objective review process, receive a written critique and be scored according to the published review criteria. Successful applicants will receive a Notice of Award (NOA) from the CDC Procurement and Grants Office. The NOA shall be the only binding, authorizing document between the recipient and CDC. The NOA will be signed by an authorized Grants Management Officer. Initial award provides funds for the first budget period (usually 12 months) and the NOA will indicate support recommended for the remainder of the project period, allocation of Federal funds by budget categories, and special conditions, if any.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Not Applicable.

93.324 STATE HEALTH INSURANCE ASSISTANCE PROGRAM SHIP

FEDERAL AGENCY:

Administration for Community Living, Department of Health and Human Services

AUTHORIZATION:

Consolidated Appropriations Act of 2014 (Public Law 113-76) Section 4360 of Public Law 101-508 (42 USC 1995b-4)
42 CFR Ch. IV Subpart E Beneficiary Counseling and Assistance Grants, Public Law 113-76.

, Public Law 113-76.

OBJECTIVES:

To provide information, counseling, and assistance relating to obtaining adequate and appropriate health insurance coverage to individuals eligible to receive benefits under the Medicare program.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

A State shall submit a plan for a State-wide SHIP program. Such program shall

- A) Establish or improve upon a health insurance information, counseling, and assistance program that provides counseling and assistance to eligible individuals in need of health insurance information, including:
 - i) Information that may assist individuals in obtaining benefits and filing claims under titles XVIII and XIX of the Social Security Act;
 - ii) Policy comparison information for Medicare supplemental policies (as described in section 1882(g)(1) of the Social Security Act) and information that may assist individuals in filing claims under Medicare supplemental policies;
 - iii) Information regarding long-term care insurance; and
 - iv) Information regarding other types of health insurance benefits that the Secretary determines to be appropriate;
- B) In conjunction with the health insurance information, counseling, and assistance program described in subparagraph (A), establish a system of referral to appropriate Federal or State departments or agencies for assistance with problems related to health insurance coverage (including legal problems), as determined by the Secretary;
- C) Provide for a sufficient number of staff positions (including volunteer positions) necessary to provide the services of the health insurance information, counseling, and assistance program;

D) Provide assurances that staff members (including volunteer staff members) of the health insurance information, counseling, and assistance program have no conflict of interest in providing the counseling described in subparagraph (A);

E) Provide for the collection and dissemination of timely and accurate health care information to staff members;

F) Provide for training programs for staff members (including volunteer staff members);

G) Provide for the coordination of the exchange of health insurance information between the staff of departments and agencies of the State government and the staff of the health insurance information, counseling, and assistance program;

H) Make recommendations concerning consumer issues and complaints related to the provision of health care to agencies and departments of the State government and the Federal Government responsible for providing or regulating health insurance;

I) Establish an outreach program to provide the health insurance information and counseling described in subparagraph (A) and the referrals described in subparagraph (B) to eligible individuals; and

J) Demonstrate to the satisfaction of the Secretary, an ability to provide the counseling and assistance required under this section. Funds may not be used for construction and/or renovation of buildings, basic research (e.g. scientific or medical experiments), continuation of existing projects without expansion of existing services, and pre-award costs. For any available grant funds in excess of \$10,000,000, distribution of grants will be at the discretion of ACL, and will be made according to the criteria communicated to the States via grant solicitation.

Applicant Eligibility:

Grants or cooperative agreements may be made to States and U.S. Territories with approved State regulatory programs under section 1882 of the Social Security Act.

Beneficiary Eligibility:

Individuals eligible for Medicare benefits, including Part D drug benefits, and older persons eligible for benefits and services provided under Medicare, their families, and caregivers.

Credentials/Documentation:

Applicants must submit a signed commitment from the State to carry out the health insurance information, counseling, and assistance program as described in the funding announcement.

Applicants should present written evidence of other agencies willingness to cooperate when the project involves collaborative efforts of the utilization of non-ACL facilities or services. OMB Circular No. A-87 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Award Procedure:

Application forms are submitted through a centralized depository and received by the awarding agency Administration for Community Living. Applicants generally apply under a program announcement indicating all the necessary application procedures to be followed.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

No formal appeals procedures. If an application is disapproved, the reasons for the disapproval will be fully stated. In the case of solicited proposals, extensions may be allowed to prepare revisions which clarify various aspects of projects.

Renewals:

If a grant/cooperative agreement application is recommended for approval for 2 or more years, the awarded may be requested to annually submit a formal request for continuation accompanied by progress report which will be evaluated prior to a recommendation of continuation.

Formula and Matching Requirements:

Statutory Formula: Title 42 CFR, Chapter IV, Subpart E, Public Law 403.505.

This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants/cooperative agreements are generally funded on a 12 month basis, with support beyond the first year contingent upon acceptable evidence of satisfactory progress, continuing program relevance, and availability of funds.
Method of awarding/releasing funds: Payment Management System. Method of awarding/releasing assistance: by letter of credit.

Reports:

The reporting cycle will be reflected in the Notice of Award. The ACL program progress report is due semi-annually from the start date of the award and is due within 30 days of the reporting period end date. The suggested content and format for these reports will be available to the grantees during post award administration.

A State that receives a SHIP grant shall, not later than 180 days after receiving such grant, and annually thereafter during the period of the grant, issue a report to the Secretary that includes information concerning

- 1) The number of individuals served by the SHIP of such State;
- 2) An estimate of the amount of funds saved by the State, and by eligible individuals in the State, in the implementation of such program; and
- 3) The problems that eligible individuals in such State encounter in procuring adequate and appropriate health care coverage. Grantees are required to submit quarterly cash transaction reports (SF-425) to the Division of Payment Management. Semi-annual progress reports will be required. SF-425 Federal financial report will be required to report on expenditures. A final report will be due 90 days after the project period has ended. Interim reports for each budget period will be due as denoted in the award terms and conditions. Grantees will be expected to develop a quality assurance plan including performance indicators and a process for ongoing performance monitoring.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of Subpart F-Audit Requirements, under 45 CFR Part 75.500, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year. Except as noted in 45 CFR Part 75.500.

Records:

Proper accounting records, identifiable by project number and including all receipts and expenditures, must be maintained for 3 years from the submission date of the final FFR document. Subsequent to audit, they must be maintained until all questions are resolved.

The review process for grants/cooperative agreements consists of initially screening applications for completeness and relevancy to ACL priority areas. If the application is not relevant to ACL priority areas, it will be returned to the applicant. If accepted as submitted it will be reviewed and evaluated. The review will be conducted by a panel of not less than three experts. ACL Project officer or designee will coordinate the panels review, but will not vote. This individual or supervisor will also prepare the panels recommendation to the ACL Administrator. The panels recommendations will contain numerical ratings, rankings of applications, and a written assessment of each application. The recommendations will be based on published criteria as stated in the program announcement. The review process is also stated in the program announcement.

93.327 DEMONSTRATION GRANTS FOR DOMESTIC VICTIMS OF HUMAN TRAFFICKING

FEDERAL AGENCY:

Administration for Children and Families, Department of Health and Human Services

AUTHORIZATION:

Trafficking Victims Protection Act of 2000, as amended, Section 107(f), 22 U.S.C. 7105(f), Section 213(a)(1) of the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008, Pub. L. 110-457, 22 U.S.C. 7105(f).

OBJECTIVES:

The DVHT Program has the following objectives: 1) Conduct community assessments with the goal to build capacity, create partnerships, and deliver comprehensive, quality services to domestic victims; 2) Develop, strengthen, and expand comprehensive victim-centered services and case management at the community level for domestic victims; 3) Address the immediate and long-term housing and shelter needs of domestic victims through a continuum of flexible housing supports, including emergency and transitional housing; 4) Identify, provide, or refer victims to behavioral health and substance abuse treatments services; and 5) Integrate survivor engagement in their case management and service delivery strategies for victims.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

The Domestic Victims of Human Trafficking (DVHT) program funds time-limited comprehensive case management services to domestic victims of trafficking. Eligible recipients for DVHT program services include United States citizens and lawful permanent residents in select states by leveraging existing systems, filling in service gaps, and building capacity of direct service providers. Under the DVHT Program, OTIP requires a comprehensive case management approach that uses trauma-informed and victim-centered models. Comprehensive case management services for the program include, but are not limited to referrals, emergency assistance (such as food, clothing, and shelter), and support to gain access to housing, employability services, mental health screening and therapy, medical care, and some legal services. Health screening and medical care must include treatment for sexually transmitted infections, family planning services, and the full range of legally permissible gynecological and obstetric care, including, but not limited to, exams, tests, pre-natal services, and non-directive health-related counseling. Applicant Eligibility:

Eligible organizations includes: state governments, tribes, units of local government, and non-profit, non-governmental victim service organizations. Victim service organizations include those who by nature of their current operations serve victims of sexual assault, sexual violence, domestic violence, human trafficking, and youth homelessness. Victim services organizations may also include faith-based organizations that are addressing human trafficking in their services. Individuals (including sole proprietorships) and foreign entities are not eligible.

Beneficiary Eligibility:

Eligible recipients for DVHT program services include United States citizens

and lawful permanent residents.

Credentials/Documentation:

Funding available under this catalog number is subject to requirements of 2 CFR 200 of the Uniform Guidance (effective January 1, 2016). HHS is required to review and consider information about applicants that is in the Federal Awardee Performance and Integrity Information System (FAPIS). All applicants must have a DUNS number, registered in the SAM prior to submitting an application, and an active SAM registration. Documentation delineated in the Funding Opportunity Announcement must be submitted at the time of submission of an application for funding. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards apply to this program. Each application submitted under this program announcement will undergo a pre-review to determine if (1) the application was received by the closing date and submitted in accordance with the instructions in this announcement and (2) the applicant is eligible for funding.

Award Procedure:

Applications that pass the initial Administration for Children and Families (ACF) screening will be evaluated and rated by an independent review panel on the basis of specific criteria that are included Funding Opportunity Announcement. The evaluation criteria are designed to assess the quality of a proposed project and to determine likelihood of its success. Further, the Trafficking Victims Protection Act of 2000, the National Security Presidential Directive on Combating Trafficking in Persons (NSPD-22), and the March 2012 Statement by the President on the Meeting of the Interagency Task Force to Monitor and Combat Trafficking in Persons call for strengthened and effective coordination of U.S. government anti-trafficking efforts. To improve U.S. government coordination, the Trafficking Victims Protection Reauthorization Act of 2003 established the Senior Policy Operating Group (SPOG) and requires each department or agency represented on the SPOG to share all information with [the SPOG] regarding the department or agency's plans, before and after final agency decisions are made, on all matters relating to grants, grant policies, and other significant actions regarding the international trafficking in persons. 22 U.S.C. 7103(g)(4). Regulations implementing the Trafficking Victims Protection Act call on the SPOG to establish appropriate mechanisms to effect such information sharing. 22 C.F.R. 104.2. This program is exempt from E.O. 12372, which requires advance notification to Congress of awards.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. Contact the Administration for Children and Families, Office of Grants Management or review the Funding Opportunity Announcement, as appropriate, for application deadlines.

Appeals:

No appeals will be considered for applications classified as late. Further, the decision not award a grant, or award a grant at a particular funding level is discretionary and is not subject to appeal to any operating division or HHS official or board. (Section I-31 of the HHS Grants Policy Statement.

Renewals:

An applicant requesting additional funding for a period subsequent to that provided by a current award must compete with all other applications and must be developed as fully as though the applicant is applying for the first time.

93.328 NATIONAL IMPLEMENTATION AND DISSEMINATION FOR CHRONIC DISEASE PREVENTION

National Organizations

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

This program is authorized under sections 317(k)(2) of the Public Health Service Act, [42 U.S.C. Section 247b(k)(2)], as amended.

OBJECTIVES:

The purpose of this three-year cooperative agreement or Funding Opportunity Announcement (FOA) is to support national organizations and their chapters/affiliates (sub-recipients) coalitions in implementing Socio-Ecological Model informed multi-level approaches (i.e., individual, interpersonal, organizational, community, societal) to improve communities health. This project builds upon the Division of Community Health (DCH) history of working with national organizations to provide financial resources, guidance, training, tools, and other assistance to local organizations interested in creating communities where all people can achieve optimal health. This new FOA will allow awardees to implement multi-level strategies that address the greatest predictors of chronic disease (i.e. heart disease, stroke, diabetes, and obesity), namely tobacco use and exposure, poor nutrition, physical inactivity, and lack of access to prevention, risk reduction and chronic disease management opportunities. Additionally, awardees will work closely together to coordinate strategies and technical assistance to maximize their collective impact, increase national and local awareness of DCHs work, and ensure that identified communities.

Range of Approval/Disapproval Time:

From 120 to 180 days.

Appeals:

Not Applicable.

Renewals:

From 90 to 120 days. Project period is 3 years with 12-month budget periods. Applications must be obtained from www.Grants.Gov.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Category A must provide an evaluator at a 50% level of effort (LOE) with funds not provided by this FOA.

Category B awardees must assign one full-time (100% LOE) program manager to be paid from funds not provided by this FOA.

This program has MOE requirements, see funding agency for further details. All grantees will be responsible for developing sustainability plans by the end of Year 1 that help to ensure that programmatic efforts will be continued after FOA funding ends. This document should include a focus on the infrastructure (or planning/ operational structure) and process needed for sustaining efforts. For Category A, all sub-recipients will be required to develop plans by the end of the first year of their cohort.

Length and Time Phasing of Assistance:

September 30, 2014 September 29, 2017. Method of awarding/releasing assistance: lump sum.

Reports:

Reporting provides continuous program monitoring and identifies successes and challenges that awardees encounter throughout the project period. Also, reporting is a requirement for awardees who want to apply for yearly continuation of funding. Reporting helps CDC and awardees because it:
Helps target support to awardees, particularly for cooperative agreements;
Provides CDC with periodic data to monitor awardee progress towards meeting the FOA outcomes and overall performance;
Allows CDC to track performance measures and evaluation findings to validate continuous program improvement throughout the project period and to determine applicability of evidence-based approaches to different populations, settings, and contexts; and
Enables CDC to assess the overall effectiveness and influence of the FOA.

As described in the following text, awardees must submit an annual performance report, ongoing performance measures data, administrative reports, and a final performance and financial report. A detailed explanation of any additional reporting requirements will be provided in the Notice of Award to successful applicants.

a. Specific reporting requirements:

i. Awardee Evaluation and Performance Measurement Plan: Awardees must provide a more detailed evaluation and performance measurement plan within the first six months of the project. This more detailed plan must be developed by awardees as part of first-year project activities, with support from CDC. This more detailed plan must build on the elements stated in the initial plan, and must be no more than 25 pages. At a minimum, and in addition to the elements of the initial plan, this plan must:

Indicate the frequency that evaluation and performance data are to be collected.

Describe how data will be reported.

Describe how evaluation findings will be used to ensure continuous quality and program improvement.

Describe how evaluation and performance measurement will yield findings that will demonstrate the value of the FOA (e.g., effect on improving public health outcomes, effectiveness of FOA as it pertains to performance measurement, cost-effectiveness, or cost-benefit).

Describe dissemination channels and audiences (including public dissemination).

Describe other information requested and as determined by the CDC program.

When developing evaluation and performance measurement plans, applicants are encouraged to use the Introduction to Program Evaluation for Public Health Programs: A Self-Study Guide, available at:
<http://www.cdc.gov/eval/guide/index.htm>

ii. Annual Performance Report: This report must not exceed 30 pages excluding administrative reporting; attachments are not allowed, but Web links are

allowed.

The awardee must submit the Annual Performance Report via www.grants.gov 120 days before the end of the budget period. In addition, the awardee must submit an annual Federal Financial Report within 90 days after the end of the calendar quarter in which the budget year ends.

This report must include the following:

Performance Measures (including outcomes)Awardees must report on performance measures for each budget period and update measures, if needed.

Evaluation ResultsAwardees must report evaluation results for the work completed to date (including any data about the effects of the program).

Work Plan Awardees must update work plan each budget period.

Successes

Awardees must report progress on completing activities outlined in the work plan.

Awardees must describe any additional successes (e.g., identified through evaluation results or lessons learned) achieved in the past year.

Awardees must describe success stories.

Challenges

Awardees must describe any challenges that might affect their ability to achieve annual and project-period outcomes, conduct performance measures, or complete the activities in the work plan.

Awardees must describe any additional challenges (e.g., identified through evaluation results or lessons learned) encountered in the past year.

CDC Program Support to Awardees

Awardees must describe how CDC could help them overcome challenges to achieving annual and project-period outcomes and performance measures, and completing activities outlined in the work plan.

Administrative Reporting (No page limit)

SF-424A Budget Information-Non-Construction Programs.

Budget Narrative must use the format outlined in Content and Form of

Application Submission, Budget Narrative section.

Indirect Cost-Rate Agreement.

For Year 2 and beyond of the award, awardees may request that unobligated funds be carried over to the next budget year.

The carryover request must:

Express a bona fide need for permission to use an unobligated balance; Include a signed, dated, and accurate Federal Financial Report (FFR) for the budget period from which funds will be transferred (as much as 75% of unobligated balances); and

Include a list of proposed activities, an itemized budget, and a narrative justification for those activities.]

The awardee must submit the Annual Performance Report via www.grants.gov 120 days before the end of the budget period.

iii. **Performance Measure Reporting:** CDC programs must require awardees to submit performance measures annually as a minimum, and may require reporting more frequently. Performance measure reporting must be limited to data collection. When funding is awarded initially, CDC programs must specify required reporting frequency, data fields, and format.

iv. **Federal Financial Reporting (FFR):** The annual FFR form (SF-425) is required and must be submitted through eRA Commons within 90 days after each budget period ends. The report must include only those funds authorized and disbursed during the timeframe covered by the report. The final report must indicate the exact balance of unobligated funds, and may not reflect any unliquidated obligations. The final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data must correspond; no discrepancies between the data sets are permitted. Failure to submit the required information by the due date may affect adversely the future funding of the project. If the information cannot be provided by the due date, awardees are required to submit a letter of explanation and include the date by which the information will be provided.

v. **Final Performance and Financial Report:** At the end of the project period, awardees must submit a final report including a final financial and performance report. This report is due 90 days after the project period ends. (Maximum of 40 pages).

At a minimum, this report must include:

Performance Measures (including outcomes)Awardees must report final performance data for all performance measures for the project period.

Evaluation ResultsAwardees must report final evaluation results for the project period.

Impact/ ResultsAwardees must describe the effects or results of the work completed over the project period, including success stories.

Additional forms as described in the Notice of Award, including Equipment Inventory Report and Final Invention Statement.

In addition, grantees must include the following information in their Final Performance Report:

Summary of successes, challenges, and lessons learned that can be shared with other central registries interested in establishing ECC methodology.

Awardees must email the report to the CDC PO and the GMS listed in the Agency

Contacts section of the FOA. No cash reports are required. Reporting provides continuous program monitoring and identifies successes and challenges that awardees encounter throughout the project period. Also,

reporting is a requirement for awardees who want to apply for yearly continuation of funding. Reporting helps CDC and awardees because it:

Helps target support to awardees, particularly for cooperative agreements;

Provides CDC with periodic data to monitor awardee progress towards meeting the FOA outcomes and overall performance;

here to enter text. In addition to previously described reporting requirements the awardee will monitor performance as follows -

Performance Monitoring and Evaluation:

CDC may revise the existing requirements through an addendum to this notice, which could include additional recipient requirements for evaluation and performance measurement. The Awardee Evaluation and Performance Measurement Plan will be comprised of three components:

1. **Tracking progress and completion of strategies.** By using the CDC identified electronic performance monitoring and reporting system, Category A and B awardees will track overall progress on infrastructure and short-term outcome objectives, as well as, specific progress on activities on a quarterly basis. Category A awardees will also be required to track sub-recipients overall progress on infrastructure and short-term outcome objectives, as well as, specific progress on activities on a quarterly basis. This collection of this data is known as performance monitoring data. CDC will provide training and guidance on the use of the performance monitoring and reporting system.
 - a. Use ongoing performance monitoring data, along with any community health assessment data, for ongoing program improvement and midcourse corrections.
 - b. Track overall progress on outcome objectives as well as specific progress on activities designed for vulnerable populations. Use performance monitoring data and other available sources to document the steps taken to implement multi-level improvements by describing successes, barriers, and challenges.
2. **Measurement of Short-term Outcome.** Using detailed guidance from CDC (provided post-award), Category A awardees will assist sub-recipients in setting targets and then monitor their progress towards these targets on the number of people who have access to healthier environments as a result of the implementation of each awardee strategy. This is known as Awardee Reach for each strategy. These targets will be ultimately rolled up into the relevant Short-term Outcome. In addition, Category A sub-recipients will also be required to track sub-awardees Reach for each strategy and report this to CDC on a quarterly basis.
 - a. For example, a sub-awardee might be implementing two strategies that are targeting different populations in different sectors. One strategy is increasing physical activity in elementary age children by implementing recommended standards of physical activity in all 80 elementary schools in the community, which would increase physical activity for 55,000 children enrolled in these schools. The awardee will track the successful implementation of recommended standards in each school so that they will know how many children have access to an improved physical activity environment. The second strategy is increasing physical activity in 350 early care/child care centers by implementing recommended standards of physical activity in these settings, which would increase physical activity for 2000 children enrolled in these programs. The awardee will track the successful implementation of recommended standards in each early care/child care centers, so that they will know how many children have access to an improved physical activity environment. The target short-term outcome would combine the target sub-recipients Reach for these two strategies, and progress would be tracked over time. Thus, the target Short-term Outcome would be 57,000 people with increased access to physical activity opportunities.
 - b. Report sub-recipients Reach data for each strategy and update on a quarterly basis.

In addition, Awardees should adhere to the following guidance:

Sub-recipients of Category A are encouraged to use available data to measure intermediate-term outcomes, when possible. However, as mentioned above, due to lack of adequate, existing data in many communities, primary responsibility for measuring intermediate-term outcomes will rest in most cases with CDC.

o Communities with access to adequate data to measure intermediate-term outcomes might include: 1) counties with a large number of respondents to the Behavioral Risk Factor Surveillance System (BRFSS), 2) counties that conduct the Youth Risk Behavior Surveillance System (YRBSS), 3) school districts that routinely record the height and weight of students.

Category A awardees and sub-recipients should share their successes and lessons learned through the creation and dissemination of two (or more) success stories per year (one submitted every 6 months with the Interim and Annual Progress Report).

Category B awardees should prepare one (or more) unique dissemination documents created for stakeholders or the broader community based on the outcome evaluation of high impact strategies applied by Category A awardees and/or sub-recipients. Developed by the end of Year 3, this document may be briefing updates, reports, case studies, peer-reviewed manuscripts or use other formats.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

There is a 3-year record retention requirement; records shall be retained beyond the 3-year period if final audit has not been done or findings resolved. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

93.329 SKILLS TRAINING AND HEALTH WORKFORCE DEVELOPMENT OF PARAPROFESSIONALS GRANT PROGRAM

Paraprofessionals Training Grant Program

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Title VII, Section 739 of the Public Health Service Act (42 U.S.C. 293c), (Educational Assistance in the Health Professions Regarding Individuals from Disadvantaged Backgrounds).

OBJECTIVES:

The objectives of the Skills Training and Health Workforce Development of Paraprofessionals Grant Program are to: 1) recruit, train, retain and expand the paraprofessional workforce to meet the employment needs of the community with a particular focus on primary care and team-based care; and 2) promote employment and a career ladder for those trained through career coaching and placement partnership with the community.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds shall be used to recruit, train and retain individuals from underrepresented, disadvantaged, or rural backgrounds into health-related para-professions to work in primary care and other health care services settings.

Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

Eligible applicants include accredited schools of medicine, allopathic medicine, osteopathic medicine, public health, dentistry, veterinary medicine, optometry, pharmacy, allied health, chiropractic, podiatric medicine, public and nonprofit private schools that offer graduate programs in behavioral and mental health, programs for the training of physician assistants, two-year community colleges, technical colleges, tribal colleges, and other public or private nonprofit health or educational entities. Each applicant must specifically state its eligibility information in the project abstract. Applicants that are not community colleges must partner with community colleges.

Eligible entities must be located within the fifty (50) states, the District of Columbia, Commonwealth of Puerto Rico, Commonwealth of Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, Republic of the Marshall Islands, and the Federated States of Micronesia. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Applicants are required to recruit educationally or economically disadvantaged students who express an interest in a) pursuing a health related paraprofessional certificate in an existing program, or b) individuals who are already practicing but want additional credentials to advance their employability. Eligible paraprofessional training programs are those that exist, can be successfully completed in 12 months or less, and assist in job placement.

Beneficiary Eligibility:

Beneficiaries include individuals who a) meet the definition of either

educationally or economically disadvantaged, b) express an interest in pursuing a health degree program c) have completed at a minimum a high school diploma or GED, or d) individuals who are already practicing in a health-related paraprofessional field and who want additional credentials to advance their employability.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification of award is made in writing (electronic) through a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 - 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching requirements are not applicable to this program.

This program has MOE requirements, see funding agency for further details. The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 3-year project period. Recipients draw down funds, as necessary, from the Payment Management System (PMS). PMS is the centralized web based payment system for HHS awards. Method of awarding/releasing assistance: quarterly.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. Cash reports are not applicable. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L.

109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the FFR. If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.330 LEADERSHIP IN PUBLIC HEALTH SOCIAL WORK EDUCATION GRANT PROGRAM

Public Health Social Work Education Grant Program, LPHSWE

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Section 765 of the Public Health Service Act (42 U.S.C. 295a).

OBJECTIVES:

The Leadership in Public Health Social Work Education (LPHSWE) Grant Program provides training and education, faculty development, and curriculum enhancement to prepare students for leadership roles in public health social work through enrollment in a dual masters degree program in social work and public health. The objectives of the LPHSWE are to: 1) Provide stipend support to masters level dual-degree students who are enrolled in both (a) an accredited school of social work and (b) an accredited school of public health, and are participating; 2) Recruit dual-degree masters-level public health social work students; 3) Support and place the students in required field placements/ internships; 4) Develop curricula for public health social work programs to prepare students for roles in leadership and management in health care and social service organizations; and 5) Develop the skills and expertise of faculty for the curricula which includes leadership in health care, interprofessional training, social determinants of health, promising practices, and serving the underserved populations.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Eligible entities are required to provide a budget, with narrative, that describe how the funds shall be used to provide training and education, faculty development, and curriculum enhancement to prepare students for leadership roles in public health social work through enrollment in a dual masters degree program in social work and public health.

Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

Eligible applicants include accredited schools of social work/programs that 1) offer a dual masters degree in an accredited graduate program in social work with a macro-level concentration in management and administration and in an accredited graduate program in public health; and 2) previously received HRSA support for dual degree enrollment, education, and graduation in the Leadership in Public Health Social Work Education program.

Eligible applicants include accredited schools of social work/programs that 1) offer a dual masters degree in an accredited graduate program in social work with a macro-level concentration in management and administration and in an accredited graduate program in public health; and 2) previously received HRSA support for dual degree enrollment, education, and graduation in the Leadership in Public Health Social Work Education program.

Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

A student receiving a stipend in the LPHSWE Program must be a citizen of the

United States, a non-citizen national of the United States, or a foreign national who possesses a visa permitting permanent residence in the United States. Individuals on temporary or student visa are not eligible participants.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity announcement issued under this CFDA program for any required proof or certifications which must be submitted with an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. HRSA requires all applicants to apply electronically through Grants.gov.

All eligible, qualified applications will be forwarded to an objective review committee. Based on the advice of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Award Procedure:

Notification of award is made in writing (electronic) by a Notice of Award.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 - 180 days after receipt of applications.

Appeals:

Not Applicable.

Renewals:

Depending on Agency priorities and availability of funding, during the final budget year of the approved project period competing continuation applications may be solicited from interested applicants.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching requirements are not applicable to this program.

This program has MOE requirements, see funding agency for further details. The recipient must agree to maintain non-federal funding for grant activities at a level which is not less than expenditures for such activities during the fiscal year prior to receiving the award.

Length and Time Phasing of Assistance:

This funding opportunity provides support for a 3-year project period. Recipients draw down funds, as necessary, from the Payment Management System (PMS), the centralized web based payment system for HHS awards. Method of awarding/releasing assistance: lump sum.

Reports:

Both program and financial reports are required. The recipient will be required to submit annual performance and progress reports. A Federal Financial Report (SF-425) is required according to the schedule in HRSA's Application Guide. A final report is due within 90 days after the project period ends. If applicable, the recipient must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of

\$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (The FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation recipients may be subject to this requirement and will be so notified in the Notice of Award. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Recipients are required to maintain grant accounting records 3 years after the date they submit the FFR. If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of applications have been instituted to provide for an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by non-Federal expert consultant(s) for technical merit recommendations. Applications will be reviewed and evaluated against the

following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.331 PARTNERSHIPS TO IMPROVE COMMUNITY HEALTH

(PICH)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

This program is authorized under sections 317(k)(2) of the Public Health Service Act, [42 U.S.C. Section 247b(k)(2)], as amended.

OBJECTIVES:

The purpose of this funding is to support implementation of evidenced- and practice-based strategies that address previously-identified community gaps and needs within a defined jurisdiction in order to reduce the prevalence of chronic disease and related risk factors.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses. Restrictions that must be considered while planning the programs and writing the budget are:

- Awardees may not use funds for research.
- Awardees may not use funds for clinical care.
- Awardees may use funds only for reasonable program purposes, including personnel, travel, supplies, and services.
- Generally, awardees may not use funds to purchase furniture or equipment. Any such proposed spending must be clearly identified in the budget.
- Reimbursement of pre-award costs is not allowed.
- Other than for normal and recognized executive-legislative relationships, no funds may be used for:
 - publicity or propaganda purposes, for the preparation, distribution, or use of any material designed to support or defeat the enactment of legislation before any legislative body
 - the salary or expenses of any grant or contract recipient, or agent acting for such recipient, related to any activity designed to influence the enactment of legislation, appropriations, regulation, administrative action, or Executive order proposed or pending before any legislative body
 - See Additional Requirement (AR) 12 for detailed guidance on this prohibition and additional guidance on lobbying for CDC awardees.
 - The direct and primary recipient in a cooperative agreement program must perform a substantial role in carrying out project outcomes and not merely serve as a conduit for an award to another party or provider who is ineligible.

Applicant Eligibility:

Eligible applicants are considered responsive if providing:

1. Evidence of being a member of or working through a functioning multi-sector community coalition of organizations and agencies that are committed to improving the health of their community (of 2 or more years);
2. Documentation of how they have helped populations with high documented burdens of chronic diseases, conditions and risk factors (for example, a documented diabetes prevalence rate greater than 8.3% among the population);
3. Results of a community health needs assessment completed no earlier than May 1, 2011;
4. Description of how the organization has helped implement strategies to address chronic disease risk factors related to tobacco use or exposure; poor nutrition; physical inactivity; or limited access to opportunities for chronic disease prevention, risk reduction, or management through clinical and community linkages.

Beneficiary Eligibility:

Anyone/General Public.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operation, describe the evaluation procedures,

and provide a budget with justification of funds. OMB Circular No. A-87 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Award Procedure:

Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized Grants Management Officer and e-mailed to the program director. A hard copy of the NoA will be mailed to the recipient fiscal officer identified in the application.

Any application awarded in response to this FOA will be subject to the DUNS, CCR Registration and Transparency Act requirements. Unsuccessful applicants will receive notification of the results of the application review by mail.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Project period is 3 years with 12-month budget periods. Applications must be obtained from www.Grants.Gov.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Cost sharing funds are required for this project to motivate sustainability measures. Cost sharing funds are required from non-Federal sources in an amount not less than 15 percent of Federal funds awarded to Large City and Urban County and to Small City and County Coalition Awardees in Year 1, increasing by 5 percentage points every year, and ending at 25 percent by Year 3. Tribal organizations will not be required to meet cost sharing requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

12 month budget period within 3 year project period. Method of awarding/releasing assistance: lump sum.

Reports:

Annual Performance Report: This report must not exceed 30 pages excluding administrative reporting; attachments are not allowed, but Web links are allowed.

The awardee must submit the Annual Performance Report via www.grants.gov 120 days before the end of the budget period. In addition, the awardee must submit an annual Federal Financial Report within 90 days after the end of the calendar quarter in which the budget year ends.

Final Performance and Financial Report: At the end of the project period, awardees must submit a final report including a final financial and performance report. This report is due 90 days after the project period ends. (Maximum of 40 pages). No cash reports are required. Annual Performance Report: This report must not exceed 30 pages excluding administrative reporting; attachments are not allowed, but Web links are allowed.

The awardee must submit the Annual Performance Report via www.grants.gov 120 days before the end of the budget period. In addition, the awardee must submit an annual Federal Financial Report within 90 days after the end of the calendar quarter in which the budget year ends.

Final Performance and Financial Report: At the end of the project period, awardees must submit a final report including a final financial and performance report. This report is due 90 days after the project period ends. (Maximum of 40 pages). Federal Financial Reports are required 90 days after the end of the fiscal year. CDC may revise the existing requirements through an addendum to this notice, which could include additional recipient requirements for evaluation and performance measurement. The Awardee Evaluation and Performance Measurement Plan will be comprised of three components:

Tracking progress and completion of strategies. By using the CDC identified electronic performance monitoring and reporting system, each awardee will track overall progress on infrastructure and short-term outcome objectives, as well as, specific progress on activities on a quarterly basis. This collection of data is known as performance monitoring data. CDC will provide training and guidance on the use of the performance monitoring and reporting system.

o Use ongoing performance monitoring data, along with any community health assessment data, for ongoing program improvement and midcourse corrections.
o Track overall progress on outcome objectives as well as specific progress on activities designed for priority populations. Use performance monitoring data and other available sources to document the steps taken to implement PSE improvements by describing successes, barriers, and challenges.

Measurement of Short-term Outcomes. Using detailed guidance from CDC (provided post-award), awardees will set targets and then monitor progress towards these targets on the number of people who have access to healthier environments as a result of the implementation of each awardee strategies describe in the CAP objectives. This is known as Awardee Reach for each intervention. These targets will be ultimately rolled up into the relevant short-term outcomes.

o For example, an awardee might be implementing two strategies that are targeting different populations in different sectors. One strategy is increasing physical activity in elementary age children by implementing recommended standards of physical activity in all 80 elementary schools in the community, which would increase physical activity for 55,000 children enrolled in these schools. The awardee will track the successful implementation of recommended standards in each school so that they will know how many children have access to an improved physical activity environment. The second strategy is increasing physical activity in 350 early care/child care centers by implementing recommended standards of physical activity in these settings, which would increase physical activity for 2,000 children enrolled in these programs. The awardee will track the successful implementation of recommended standards in each early care/child care centers, so that they will know how many children have access to an improved physical activity environment. The target short-term outcome would combine the target Awardee Reach for these two strategies, and progress would be tracked over time. Thus, the target short-term outcome would be 57,000 people with increased access to physical activity opportunities.

o Report Awardee Reach data for each strategy and update on a quarterly basis.

Assessment of actual use of a healthier environment. With guidance from CDC, awardees will assess the actual use of at least one healthier environment they created by implementing an intervention. This is required for all awardees regardless of funding level and must be completed before the end of the 3-year project period. This assessment is complimentary to the estimated Awardee Reach for the selected healthier environment.

o For example, an awardee plans to implement strategies to increase access to healthier foods in corner stores. They decide, in collaboration with CDC Evaluation Technical Assistance, to assess whether healthier foods are purchased at these stores after the intervention is in place. Therefore, they develop an assessment plan. Using the same assessment method, they measure the purchases of healthier foods in a selected number of stores before the intervention, and after the intervention was completed.

o CDC Evaluation Technical Assistance will work closely with the awardee to design a simple, low cost assessment. Whenever possible, the assessment will

use methods and survey questions successfully used in other community health improvement programs.

o Report the results of this assessment to CDC.

Outcome evaluation for an innovative strategy (if applicable). In order to expand the evidence base for effective community strategies, innovative intervention(s) may be implemented, and include outcome evaluation to determine intervention effectiveness. No more than 15% of the annual award can be used for innovative strategies. The evaluation methodology should be designed with sufficient rigor to measure impact on chronic disease risk factors or other relevant outcomes. This methodology should be described in the Outcome Evaluation Plan Template (Appendix B). CDC evaluation technical assistance liaisons will provide assistance with the finalization of the Outcome Evaluation Plan and the selection of common measures and metrics.

o Within 30 days after finalizing the CAP with the Project Officer, submit to CDC an outcome evaluation plan for any innovative strategies that meets the criteria described above and is directly tied to appropriate components of the CAP (refer to Evaluation Guide on Developing an Evaluation Plan available at: http://www.cdc.gov/dhbsp/state_program/evaluation_guides/pdfs/evaluation_plan.pdf).

o The plan must include a logic model that illustrates the relationship between program activities and expected outcomes and reflects initiative priorities.

o The plan activities must be described on a timeline as they relate to proposed objectives in the CAP.

o The plan must include a methodological overview and a description of how the planned evaluation activities will:

 Target high impact goals,
 Assess impact on health disparities, and
 Ensure broad sharing of evaluation findings to the public, partners, and community leaders as appropriate. (See Communication and Dissemination with the Public, Partners, and Stakeholders, page 11).

o The plan may focus on particular geographic or physical settings, age groups, or priority populations experiencing a disproportionate burden of chronic disease and conditions.

o The plan must identify area- and program-specific data sources to assess strategies outcomes, including as appropriate changes in proper nutrition, physical activity, exposure to second hand smoke, and risk reduction or chronic disease management through clinical and community linkages.

In addition, Awardees should adhere to the following guidance:

Awardees are encouraged to use available data to measure intermediate-term outcomes, when possible. However, as mentioned above, due to lack of adequate, existing data in many communities, primary responsibility for measuring intermediate-term outcomes will rest in most cases with CDC.

o Communities with access to adequate data to measure intermediate-term outcomes might include: 1) counties with a large number of respondents to the Behavioral Risk Factor Surveillance System (BRFSS), 2) counties that conduct the Youth Risk Behavior Surveillance System (YRBSS), 3) school districts that routinely record the height and weight of students.

The awardee should share their successes and lessons learned through the creation and dissemination of two (or more) success stories per year (one submitted every 6 months with the Interim and Annual Progress Report). As stated previously, CDC recommends using its online success story application (<http://www.cdc.gov/nccdphp/dch/success-stories/>) to meet this requirement.

Use the outcome evaluation to develop a project summary for community leaders by the end of Year 3. Awardee will work with CDC to identify the best format for a given effort.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

There is a 3-year record retention requirement; records shall be retained beyond the 3-year period if final audit has not been done or findings resolved. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

93.332 COOPERATIVE AGREEMENT TO SUPPORT NAVIGATORS IN FEDERALLY-FACILITATED AND STATE PARTNERSHIP MARKETPLACES

Navigator Grants

FEDERAL AGENCY:

Centers for Medicare and Medicaid Services, Department of Health and Human Services

AUTHORIZATION:

Patient Protection and Affordable Care Act 1311(d)(4)(K), 1311(i), and 1321(c)(1); 45 C.F.R. 155.210 and 155.215.

OBJECTIVES:

Section 1311(i) of the Affordable Care Act authorizes Navigators in States with a Federally-facilitated Marketplace (FFM). The FFM is required to develop and implement a Navigator grant program. Navigators will serve consumers in States with a FFM, including State Partnership Marketplaces. As health reform implementation continues, consumers will benefit from understanding new programs, taking advantage of new protections, and navigating the system to find the most affordable coverage that meets their needs. Marketplace Navigators are intended to assist consumers in those areas in the following

ways:

Maintain expertise in eligibility, enrollment, and program specifications and conduct public education activities to raise awareness about the Marketplace; Provide information and services in a fair, accurate, and impartial manner, which includes providing information that assists consumers with submitting the eligibility application; clarifying the distinctions among health coverage options, including QHPs; and helping consumers make informed decisions during the health coverage selection process. Such information must acknowledge other health programs such as Medicaid and CHIP; Facilitate selection of a QHP; Provide referrals to any applicable office of health insurance consumer assistance or health insurance ombudsman established under Section 2793 of the PHS Act, or any other appropriate State agency or agencies, for any enrollee with a grievance, complaint, or question regarding their health plan, coverage, or a determination under such plan or coverage; Consistent with the requirements set forth in 45 C.F.R. 155.215, provide information in a manner that is culturally and linguistically appropriate to the needs of the population being served by the Marketplace, including individuals with limited English proficiency, and ensure accessibility and usability of Navigator tools and functions for individuals with disabilities in accordance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act; and Complying fully with the conflict-of-interest and training standards set forth in 45 C.F.R. 155.215.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Use of these funds should be to build a program that supports the following required duties:

Maintain expertise in eligibility, enrollment, and program specifications and conduct public education activities to raise awareness about the Marketplace; Provide information and services in a fair, accurate, and impartial manner, which includes providing information that assists consumers with submitting the eligibility application; clarifying the distinctions among health coverage options, including QHPs; and helping consumers make informed decisions during the health coverage selection process. Such information must acknowledge other health programs such as Medicaid and CHIP; Facilitate selection of a QHP; Provide referrals to any applicable office of health insurance consumer assistance or health insurance ombudsman established under Section 2793 of the PHS Act, or any other appropriate State agency or agencies, for any enrollee with a grievance, complaint, or question regarding their health plan, coverage, or a determination under such plan or coverage; Consistent with the requirements set forth in 45 C.F.R. 155.215, provide information in a manner that is culturally and linguistically appropriate to the needs of the population being served by the Marketplace, including individuals with limited English proficiency, and ensure accessibility and usability of Navigator tools and functions for individuals with disabilities in accordance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act; and Complying fully with the conflict-of-interest and training standards set forth in 45 C.F.R. 155.215. Funds are restricted from being used: To cover the costs to provide direct health care services to individuals. To match any other Federal funds. To provide services, equipment, or support that are the legal responsibility of another party under Federal or State law (such as vocational rehabilitation or education services) or under any civil rights laws. Such legal responsibilities include, but are not limited to, modifications of a workplace or other reasonable accommodations that are a specific obligation of the employer or other party.

To supplant funds provided under Funding Opportunity Announcement number CA-NAV-13-001, entitled PPHF 2013 Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Exchanges, under Funding Opportunity Announcement number CA-NAV-14-002, entitled Cooperative Agreement to Support Navigators in Federally-facilitated and State Partnership Marketplaces, or under Funding Opportunity Announcement (FOA) numbers CA-NAV-15-001 and CA-NAV-16-001, entitled Cooperative Agreement to Support Navigators

in Federally- facilitated and State Partnership Marketplaces. To cover any pre-award costs. To provide goods or services not allocable to the approved project. To be used by local entities to satisfy state matching requirements To pay for construction. To carry out services that are the responsibility of the Marketplace, such as eligibility determinations and transferring enrollment information for consumers to a QHP.⁷ To pay for capital expenditures for improvements to land, buildings, or equipment which materially increase their value or useful life as a direct cost, except with the prior written approval of the Federal awarding agency. To pay for the cost of independent research and development, including their proportionate share of indirect costs (unallowable in accordance with 45 CFR 75.476). To use as profit to any award recipient even if the award recipient is a commercial organization, (unallowable in accordance with 45 CFR 75.216(b)), except for grants awarded under the Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) programs (15 U.S.C. 638). Profit is any amount in excess of allowable direct and indirect costs.

To carry out any functions already funded by HHS, including through federal Marketplace Establishment grants under section 1311(a) of the Affordable Care Act or through federal Consumer Assistance Program grants under section 2793 of the Public Health Service Act, including to make payments to recipients of funds provided to states under those authorities for activities that are funded under those authorities.

To assist consumers residing in a state with a State-based Marketplace that the Navigator is not funded to serve. (See Section VIII. 2, State Reference List) or in a state the Navigator does not serve. FFM/State Partnership Marketplace Navigators may provide these consumers with basic information about Marketplace, but should refer them to Navigators, the Marketplace Call Center, and other resources within the state where the consumer resides for more in-depth assistance.

To expend funds related to any activity designed to influence the enactment of legislation, appropriations, regulation, administrative action, or Executive order proposed or pending before the Congress or any state government, state legislature or local legislature or legislative body.

To fund staff retreats or promotional giveaways.

To purchase gifts or gift cards, or promotional items that market or promote the products or services of a third party, that would be provided to any applicant or enrollee.

To provide any assistance to consumers or to provide consumer education and outreach, prior to November 1, 2016.

To provide certain types of assistance between November 1, 2016 and December 31, 2016 that are the responsibility of SBM assisters operating in Hawaii for the remainder of calendar year 2016. These assistance activities include, but are not limited to, assisting individual market consumers enrolled in coverage for plan years 2015 and/or 2016 through the SBM with questions about IRS Form 1095-A and providing outreach to these consumers about the Exchange-related components of the premium tax credit reconciliation process; assisting individual market consumers enrolled in plan year 2016 coverage through the SBM with data matching issues and helping them with submitting documentation to HealthCare.gov and assisting them with the appeals process; assisting individual market consumers enrolled in plan year 2016 coverage through the SBM with questions about changes in circumstances; assisting individual market consumers enrolled in plan year 2016 coverage through the SBM with enrolling in coverage during a special enrollment period for coverage that would take effect before January 1, 2017; and assisting individual market consumers enrolled in plan year 2016 coverage through the SBM with questions about QHP premiums or QHP coverage.

To assist consumers in Hawaii's State-based SHOP or in any replacement for Hawaii's State-based SHOP that might in the future be approved by HHS and administered by Hawaii pursuant to a waiver under Affordable Care Act section 1332. Funds are restricted from being used:

To cover the costs to provide direct health care services to individuals.

To match any other Federal funds.

To provide services, equipment, or support that are the legal responsibility of another party under Federal or State law (such as vocational rehabilitation or education services) or under any civil rights laws. individual market consumers enrolled in plan year 2016 coverage through the SBM with enrolling in coverage during a special enrollment period for coverage that would take effect before January 1, 2017; and assisting individual market consumers enrolled in plan year 2016 coverage through the SBM with questions about QHP premiums or QHP coverage.

To assist consumers in Hawaii's State-based SHOP or in any replacement for Hawaii's State-based SHOP that might in the future be approved by HHS and administered by Hawaii pursuant to a waiver under Affordable Care Act section 1332.

Applicant Eligibility:

Funding through the cooperative agreement is open to individuals and private and public entities including community and consumer-focused nonprofit groups; trade, industry and professional associations; commercial fishing industry organizations; ranching and farming organizations; chambers of commerce; unions; resource partners of the Small Business Administration; licensed insurance agents and brokers; and other public or private entities. Other entities may include but are not limited to Indian Tribes, tribal organizations, urban Indian organizations, and State or local human services.

Beneficiary Eligibility:

Beneficiaries must propose to serve consumers in the individual market FFM for Hawaii to be eligible to be served by applicants receiving funding through this cooperative agreement.

Credentials/Documentation:

Consistent with 45 C.F.R. 155.215(a)(1)(i), all applicants (individuals, entities and all members making up a consortium) should submit a brief statement (one or two short paragraphs) within the Project Narrative attesting that they are not ineligible entities, including an attestation that no staff members have any of the prohibited relationships with health insurance or stop loss insurance issuers that are outlined above. As is explained in 45 C.F.R. 155.215 and the preamble language discussing that provision, some conflicts of interest would not be absolute bars to service as a Navigator, provided that the conflict of interest would not ultimately prevent the entity or individual from providing information and services in a fair, accurate, and impartial manner. In addition, in accordance with 45 C.F.R. 155.215(a)(1)(ii), successful applicants will be required to provide a written plan to remain free of conflicts of interest and to disclose to CMS, as operator of the FFM or State Partnership Marketplace, certain non-disqualifying conflicts of interest as specified in 45 C.F.R. 155.215(a)(1)(iv). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 1. All applicants must submit a required Letter of Intent by the due date noted in the FOA. 2. All applicants under this announcement must have an Employer Identification Number/Taxpayer Identification Number (EIN/TIN) to apply. Individuals may choose to provide their personal Social Security Numbers (SSNs) to apply via Grants.gov. Please note, the time needed to complete the EIN/TIN registration process is substantial, and applicants should therefore begin the process of obtaining an EIN/TIN immediately upon posting of this FOA to ensure this information is received in advance of application deadlines. 3. All applicants must have a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number in order to apply. The DUNS number is a nine-digit identification number that uniquely identifies business entities. Please note that individuals will have to provide an EIN or other TIN to receive a DUNS number. This number should mirror the one used to submit an application in Grants.gov. To obtain a DUNS number, access the following website: www.dunandbradstreet.com or call 1-866-705-5711. 4. The applicant must also register in the System for Award Management (SAM) database in order to be able to submit the application. Applicants are encouraged to register early, and must have their DUNS and EIN/TIN numbers in order to do so. Information about SAM is available at <https://www.sam.gov/portal/public/SAM/>. The SAM registration process is a

separate process from submitting an application. You should allow a minimum of five business days to complete SAM registration; however, in some cases, the registration process can take approximately two weeks or longer to be completed. Therefore, applicants should begin the SAM registration process as soon as possible after the announcement is posted to ensure that it does not impair your ability to meet required submission deadlines.

5. **Authorized Organizational Representative:** The Authorized Organizational Representative (AOR) who will officially submit an application on behalf of the organization must register with grants.gov for a username and password. AORs must complete a profile with Grants.gov using their organizations DUNS Number to obtain their username and password at http://grants.gov/applicants/get_registered.jsp. AORs must wait one business day after successful registration in SAM before entering their profiles in Grants.gov. Applicants should complete this process as soon as possible after successful registration in SAM to ensure this step is completed in time to apply before application deadlines.

6. When an AOR registers with Grants.gov to submit applications on behalf of an organization, that organizations E-Biz POC will receive an email notification. The email address provided in the profile will be the email used to send the notification from Grants.gov to the E-Biz POC with the AOR copied on the correspondence.

7. The E-Biz POC must then login to Grants.gov (using the organizations DUNS number for the username and the special password called M-PIN) and approve the AOR, thereby providing permission to submit applications.

8. Any files uploaded or attached to the Grants.Gov application must be PDF file format and must contain a valid file format extension in the filename. Even though Grants.gov allows applicants to attach any file formats as part of their application, CMS restricts this practice and only accepts PDF file formats. Any file submitted as part of the Grants.gov application that is not in a PDF file format, or contains password protection, will not be accepted for processing and will be excluded from the application during the review process. In addition, the use of compressed file formats such as ZIP, RAR, or Adobe Portfolio will not be accepted. The application must be submitted in a file format that can easily be copied and read by reviewers. It is recommended that scanned copies not be submitted through Grants.gov unless the applicant confirms the clarity of the documents. Pages cannot be reduced in size, resulting in multiple pages on a single sheet, to avoid exceeding the page limitation. All documents that do not conform to the above specifications will be excluded from the application materials during the review process.

9. After you electronically submit your application, you will receive an acknowledgement from <http://www.grants.gov> that contains a Grants.gov tracking number. HHS will retrieve your application package from Grants.gov. Please note, applicants may incur a time delay before they receive acknowledgement that the application has been accepted by the Grants.gov system. Applicants should not wait until the application deadline to apply because notification by Grants.gov that the application is incomplete may not be received until close to or after the application deadline, eliminating the opportunity to correct errors and resubmit the application. Applications submitted after the deadline, as a result of errors on the part of the applicant, will not be accepted.

10. After HHS retrieves your application package from Grants.gov, a return receipt will be emailed to the applicant contact. This will be in addition to the validation number provided by Grants.gov.

11. All grant applications must be submitted electronically and be received through <http://www.grants.gov> by 1:00 pm Eastern Daylight Time on the applicable due date.

12. All applications will receive an automatic time stamp upon submission and applicants will receive an email reply acknowledging the applications receipt.

Award Procedure:

Applications will be screened to determine eligibility for further review using the criteria detailed in Section III, Eligibility Information, of this solicitation. An evaluation rubric will be developed by HHS, which will consist of critical elements identified in Section V, Application Review Information, of this solicitation. This evaluation rubric will be used by qualified, unbiased experts in their review of all applications. Applicants will receive a score of up to 200 points. The objective review panel may include federal reviewers and/or non-federal reviewers.

The results of the objective review of applications by qualified experts will be

used in conjunction with the other factors noted in the FOA (See Section II. 7. Factors Affecting Application Selection) to determine the technical merit of the applications and advise the approving HHS official. Final award decisions will be made by a HHS program official. In making these decisions, the HHS program official will take into consideration: the regulatory requirement that there be at least two types of Navigators in each Marketplace and that one of these Navigators be a community and consumer-focused nonprofit; populations the applicant expects to serve; ranking of the applicant based upon recommendations of the review panel; reviews for programmatic and grants management compliance, to include performance under a current Navigator award; pre-award business review; the reasonableness of the estimated cost to the government and anticipated results; and the likelihood the proposed cost will result in the benefits expected.

Successful applicants will receive one cooperative agreement award.

Unsuccessful applicants will be advised by letter or electronic mail (sent to the individual signing the application on behalf of the organization) that its application will not be held for further consideration or be funded. The decision not to award a grant, or to award a grant at a particular funding level, is discretionary and is not subject to appeal to any OPDIV or HHS official or board.

Length and Time Phasing of Assistance:

Project period is 12 months from date of award. Funding will be awarded in 12 month increments based on funding availability. See the following for information on how assistance is awarded/released: Once an award is made, the funds are posted in recipient accounts established in the Department of Health and Human Services, Division of Payment Management, Payment Management System (PMS). Grantees may then access their funds by using the PMS funds request process. Upon notification of award, recipients under this announcement will be able to drawdown funds for approved start-up costs. The remaining funds will be reimbursable upon meeting required milestones. See the following for information on how assistance is awarded/released: Once an award is made, the funds are posted in recipient accounts established in the Department of Health and Human Services, Division of Payment Management, Payment Management System (PMS). Grantees may then access their funds by using the PMS funds request process. Upon notification of award, recipients under this announcement will be able to drawdown funds for approved start-up costs. Reports:

Awardees must agree to cooperate with any Federal evaluation of the program and must provide required weekly, monthly, quarterly, and final (at the end of the cooperative agreement period) reports in a form prescribed by CMS, as well as any additional reports as required. Reports will be submitted electronically. These reports will outline how cooperative agreement funds were used, describe program progress, describe any barriers encountered including how any potential conflicts of interest were mitigated and process for handling non-compliant staff or volunteers, describe how the program ensured access to culturally and linguistically appropriate services, and detail measurable outcomes to include how many staff and volunteers completed required training and became certified as Navigators and how many consumers were served. CMS will provide the format for program reporting and the technical assistance necessary to complete program reporting requirements. At

each stage, CCHIO staff will evaluate reports and provide feedback to recipients. The awardee will not include Personally Identifiable Information (PII) in any weekly, monthly, quarterly, or final reports to HHS. In addition, the applicant must ensure compliance with the standards adopted by the FFM/State Partnership Marketplace pursuant to 45 C.F.R. 155.260 when providing Navigator services to consumers involving the use of PII. The data privacy and security standards for current Navigator awardees under opportunity CA-NAV-15-001 that also apply to opportunity CA-NAV-16-001 can be

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

The audit requirements in OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, will continue to apply where the current Recipient fiscal year began before December 26, 2014 [available at http://www.whitehouse.gov/sites/default/files/omb/assets/a133/a133_revised_2007.pdf]. Non-federal entities that expend \$500,000 or more in a year in Federal awards shall have a single or program specific audit conducted for that

year in accordance with OMB Circular A-133.

As explained under 75.501(h), For-profit subrecipient, since this part does not apply to for-profit subrecipients, the pass-through entity is responsible for establishing requirements, as necessary, to ensure compliance by for-profit subrecipients. The agreement with the for-profit subrecipient must describe applicable compliance requirements and the for-profit subrecipient's compliance responsibility. Methods to ensure compliance for Federal awards made to for-profit subrecipients may include preaward audits, monitoring during the agreement, and post-award audits. See also 75.352 Requirements for pass-through entities.

Commercial Organizations (including for-profit hospitals) have two options regarding audits, as outlined in 45 CFR 75.501 (see also 45 CFR 75.216)

Records:

Recipient must maintain expenditures and other financial records detailing the use of cooperative agreement funds for three years from the day on which the grantee submits the last financial status report for the grant period unless there is an open investigation in which case the records must be maintained during the duration of the investigation. Recipient should submit these reports to CMS on a quarterly basis along with their quarterly progress reports.

REGULATIONS, GUIDELINES, AND LITERATURE:

The following standard requirements apply to applications and awards under this FOA:

Specific grant administrative requirements as outlined in 2 CFR Part 200 and implemented by HHS regulation 45 CFR Part 75, apply to this cooperative agreement opportunity.

All awardees receiving awards under this cooperative agreement project must comply with all applicable Federal statutes relating to nondiscrimination, including, but not limited to:

- Title VI of the Civil Rights Act of 1964,
- Section 504 of the Rehabilitation Act of 1973,
- The Age Discrimination Act of 1975, and
- Title II, Subtitle A of the Americans with Disabilities Act of 1990.

All equipment, staff, and other budgeted resources and expenses must be used exclusively for the projects identified in the applicants original grant application or agreed upon subsequently with HHS, and may not be used for any prohibited uses.

Consumers and other stakeholders must have meaningful input into the planning, implementation, and evaluation of the project. All cooperative agreement budgets must include some funding to facilitate participation on the part of individuals who have a disability or long-term illness and their families. Cooperative Agreements are administered in accordance with the following program requirements, regulations, policies, and cost principles:

The criteria as outlined in this grant announcement and in Affordable Care Act Section 1311(i) and 45 C.F.R. 155.210 and 155.215.

155.210 and 155.215, of a Navigator for the entire length of the grant period, including: maintaining expertise in eligibility, enrollment, and program specifications; conducting public education activities to raise awareness about the Marketplace; providing information and services in a fair, accurate, and impartial manner; facilitating selection of a QHP; providing referrals to any applicable office of health insurance consumer assistance or ombudsman established under Section 2793 of the Public Health Service Act, or any other appropriate State agency or agencies, to address consumer grievances, questions, or complaints about their health plan, coverage, or a determination; providing information in a manner that is culturally and linguistically appropriate and accessible to individuals with disabilities consistent with the requirements set forth at 45 C.F.R. 155.215; and complying fully with the training and conflict of interest requirements set forth at 45 C.F.R. 155.215.

93.334 THE HEALTHY BRAIN INITIATIVE: TECHNICAL ASSISTANCE TO IMPLEMENT PUBLIC HEALTH ACTIONS RELATED TO COGNITIVE HEALTH, COGNITIVE IMPAIRMENT, AND CAREGIVING AT THE STATE AND LOCAL LEVELS

Healthy Brain Initiative

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Sections 317(k) (2) 42 U.S.C. 242 and 247b (k) (2).

OBJECTIVES:

The purpose of the FOA is to implement public health actions through engagement of national partners and public health networks at national, state and local levels to apply public health strategies to promote cognitive health; address cognitive impairment, including Alzheimers disease; and support the needs of care partners (paid and unpaid persons providing care or assistance to someone with Alzheimers disease or related dementia). This will be accomplished through the provision of technical assistance and support in the following areas: 1) Using data and information to develop, examine, and deploy effective strategies, identify and address gaps in implementation, create and assess technical assistance tools, and monitor progress in achieving program goals; 2) Engaging in environmental approaches that promote inclusion of cognitive health, cognitive impairment and caregiving into community and workplace policies and plans; 3) Supporting health system strategies to improve early detection of cognitive impairment, including Alzheimers disease, and

increasing awareness among health care providers about care partner health and role in care management; and 4) Facilitating the translation and dissemination of information and resources through public health networks.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses. Restrictions that must be considered while planning the programs and writing the budget are:

- Awardees may not use funds for research.
- Awardees may not use funds for clinical care.
- Awardees may use funds only for reasonable program purposes, including personnel, travel, supplies, and services.
- Generally, awardees may not use funds to purchase furniture or equipment.
- Any such proposed spending must be clearly identified in the budget.
- Reimbursement of pre-award costs is not allowed.
- Other than for normal and recognized executive-legislative relationships, no funds may be used for:
 - publicity or propaganda purposes, for the preparation, distribution, or use of any material designed to support or defeat the enactment of legislation before any legislative body
 - the salary or expenses of any grant or contract recipient, or agent acting for such recipient, related to any activity designed to influence the enactment of legislation, appropriations, regulation, administrative action, or Executive order proposed or pending before any legislative body
 - Additional Requirement (AR) 12 pertaining to prohibition of lobbying for CDC awardees also applies to this FOA.
 - The direct and primary recipient in a cooperative agreement program must perform a substantial role in carrying out project outcomes and not merely serve as a conduit for an award to another party or provider who is ineligible.

Applicant Eligibility:

Eligible applicants are limited to national, non-profit professional public health or cognitive health/cognitive impairment mission organizations with experience and expertise providing technical assistance and support to governmental and non-governmental components of the public health system.

Beneficiary Eligibility:

Anyone/General Public.

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operation, describe the evaluation procedures, and provide a budget justification of funds. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Award Procedure:

Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized Grants Management Officer and e-mailed to the program director. A hard copy of the NoA will be mailed to the recipient fiscal officer identified in the application.

Any application awarded in response to this FOA will be subject to the DUNS, CCR Registration and Transparency Act requirements.

Unsuccessful applicants will receive notification of the results of the application review by mail.

Federal Financial Reporting (FFR): The annual FFR form (SF-425) is required and must be submitted through eRA Commons within 90 days after each budget period ends. The report must include only those funds authorized and disbursed during the timeframe covered by the report. The final report must indicate the exact balance of unobligated funds, and may not reflect any unliquidated obligations. The final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data must correspond; no discrepancies between the data sets are permitted. Failure to submit the required information by the due date may affect adversely the future funding of the project. If the information cannot be provided by the due date, awardees are required to submit a letter of explanation and include the date by which the information will be provided.

Final Performance and Financial Report: At the end of the project period, awardees must submit a final report including a final financial and performance report. This report is due 90 days after the project period ends. The report should not exceed 40 pages.

At a minimum, this report must include:

Performance Measures (including outcomes) Awardees must report final performance data for all performance measures for the project period.

Evaluation Results Awardees must report final evaluation results for the project period.

Impact/ Results Awardees must describe the effects or results of the work completed over the project period, including success stories.

Additional forms as described in the Notice of Award, including Equipment Inventory Report and Final Invention Statement.

Awardees must email the report to the CDC PO and the GMS listed in the Agency Contacts section of the FOA. No cash reports are required. Awardee Evaluation and Performance Measurement Plan:

Commonwealth of the Northern Mariana Islands which serve Native American Pacific Islanders.

Beneficiary Eligibility:

American Indians, Alaska Natives, Native Hawaiians, and Native American Pacific Islanders will benefit.

Credentials/Documentation:

Non-profit organizations must submit proof of non-profit status. For applicants that are not Tribes or Native Alaska villages, organizations applying for funding must show that a majority of board members are representative of a Native American community to be served. Applicants must submit documentation that identifies each board member by name and indicates his/her affiliation or relationship to at least one of ANAs four categories of community representation, which include: (1) members of federally or state-recognized tribes; (2) persons eligible to be a participant in, or beneficiary of, the project to be funded; (3) persons who are recognized by members of the eligible Native American community to be served as having a cultural relationship with that community; or (4) persons considered to be Native American as defined in 45 CFR 1336.10 and Native American Pacific Islanders as defined in Section 815 of the Native American Programs Act. Applicants that do not include this documentation will be considered non-responsive, and the application will not be considered for competition. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. ACF requires electronic submission of applications at www.Grants.gov. Paper applications received from applicants that have not been approved for an exemption from required electronic submission will be disqualified from competitive review. Applicants that do not have an Internet connection or sufficient computer capacity to upload large documents to the Internet may contact ACF for an exemption that will allow the applicant to submit applications in paper format. See FOA for detailed information. For applicants that have received a waiver, Standard Forms, assurances, and certifications are available at the ACF Funding Opportunities Forms webpage at <http://www.acf.hhs.gov/grants-forms>.

Award Procedure:

All funds are awarded directly to the grantees.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 120 to 180 days. All funds are awarded directly to the grantees. Applicants will receive notice of approval or disapproval approximately 120 days after receipt of application.

Appeals:

From 30 to 60 days. Appeals are only available upon a finding of ineligibility for funding and are subject to ANA regulations at 45 CFR 1336.35 and HHS regulations in 45 CFR 16.

Renewals:

From 30 to 60 days. Other - Not Specified.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 20%. The 20% match is required unless waived in accordance with criteria published in 45 CFR 1336.50. This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Grantees may annually apply for non-competitive continuation support within a project period of 5 years. See the following for information on how assistance is awarded/released: Annually.

Reports:

No program reports are required. An SF-425 Cash Transaction Report is

required to be submitted quarterly. An annual SF-425 for each budget period is also required to be submitted annually, and a final SF-425 is required at the end of the project period. ANA grantees are required to report project progress using the Objective Progress Report (OPR) (OMB No. 0970-0452, expiration date 06/30/2018) and the SF-425 on a semi-annual basis which are submitted electronically. In addition, grantees will be required to submit an Annual Data Report (ADR) (OMB No. 0970-0475, expiration date 03/31/2019) to report project data once a year and at the end of the project period. The SF-425 is also required to be submitted annually and at the end of the project period. ANA reviews grantee semiannual and annual reports to determine whether the grantee is meeting its project goal and objectives and completing activities identified in the Objective Work Plan (OWP) as well as to evaluate project effectiveness. If progress concerns are identified, ANA may require quarterly reports. In addition, ANA is required to describe and measure the impact of funded projects, their effectiveness in achieving stated goals, their impact on related programs, and when feasible, to obtain the views of persons participating in and served by funded projects. ANA carries out this requirement through review of grantee submitted reports and through the use of structured on-site interviews using a data collection tool (OMB No. 0970-0379, expiration date 07/31/2019). No expenditure reports are required. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Fiscal Year 2018: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Specific criteria for selecting proposals for funding are stated in each funding opportunity announcement. In general, proposals are judged on the basis of relevance to program objectives as stated in the funding opportunity announcement, project strategy, community support in project design and implementation, reasonable cost estimates, and qualifications of applicant organization and personnel.

93.341 ANALYSES, RESEARCH AND STUDIES TO ADDRESS THE IMPACT OF CMS PROGRAMS ON AMERICAN INDIAN/ALASKA NATIVE (AI/AN) BENEFICIARIES AND THE HEALTH CARE SYSTEM SERVING THESE BENEFICIARIES

FEDERAL AGENCY:

Centers for Medicare and Medicaid Services, Department of Health and Human Services

AUTHORIZATION:

The Social Security Act, Section 1110, codified at 42 U.S.C., Section 1310. This authority permits the obligation of funding for CMS to enter into grants and cooperative arrangements with organizations and certain other entities in order to aid in improving the administration and effectiveness of programs carried out by the agency. For purposes of this award, CMS is accepting an application from the National Indian Health Board (NIHB) under a single-source cooperative agreement. Approval to award this cooperative agreement to NIHB under a single-source award was granted by the Chief Grants Management Officer, dated April 6, 2017.

OBJECTIVES:

To further CMS mission and goals related to providing high quality health care to the American Indian/Alaska Native (AI/AN) community by providing research and analysis to increase the understanding of, access to, and impact of CMS programs in Indian Country.

Congress authorized AI/ANs to have access to Medicare and Medicaid services when provided through Indian Health Service (IHS) facilities located in tribal communities and amended titles XVIII and XIX of the Social Security Act to permit IHS facilities to bill Medicare and Medicaid for services provided to eligible AI/ANs. This authority was later extended to tribal facilities. Congress has also provided authority for Indian health care programs and beneficiaries to participate in the Childrens Health Insurance program and the Health Insurance Marketplace.

These changes have created a direct relationship between CMS and the Indian Health Service. The research conducted under this cooperative agreement is needed to help improve administration of CMS programs given that CMS and IHS programs operate under different and sometimes competing authorities for CMS programs, the Social Security Act and for IHS programs, the Indian Health Care Improvement Act and the Indian Self Determination Education and Assistance Act, P.L. 93-638. To make CMS programs work with Indian health

program authorities, a crucial first step is for CMS to understand the impact of its policies on Indian health care providers and tribal members so that the agency can provide the AI/AN community greater access to CMS programs in an effective and efficient manner.

The authority at Section 1110 of the Social Security Act permits CMS to enter into grants and cooperative arrangements with organizations and certain other entities in order to aid in improving administration and effectiveness of programs administered by the agency. To this end, the work conducted under this cooperative agreement will address the potential and actual impacts of CMS programs on AI/ANs and the health care system serving these beneficiaries. CMS understanding of the impact of its policies is vital to improving greater AI/AN access to and participation in CMS programs; improving and ensuring that appropriate health care payments and resources are provided to IHS tribal, and urban Indian Health program providers; and contributing to overall improved health outcomes for Indian people. The information and activities produced or provided under the cooperative agreement will be used to develop culturally appropriate activities and strategies to improve how CMS program operate and are administered in Indian country.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

In recent years a number of statutory changes have been made to CMS programs and regulations have been developing to implement those changes. The assistance provided under this cooperative agreement will be used to:

- a) assess the ongoing impact of CMS programs through an analysis of CMS regulations and CMS initiatives that have a potential impact or effect on IHS, Tribal and Urban Indian providers and AI/AN beneficiaries and use this information to monitor AI/AN participation in the CMS regulatory process to assess whether such participation contributes to the understanding of how CMS-related provisions in the Patient Protection and Affordable Care Act (ACA) impact the financing and delivery of health care in the Indian health care system;
 - b) refine the inventory of AI/AN demographic, enrollment, and utilization data in order to develop strategies that make CMS data systems capable of reporting AI/AN enrollments, service utilization, health status and payment data from the Medicare, Medicaid and CHIP programs to facilitate program planning and evaluation, performance measurement, health status monitoring, and target enrollment efforts, identify gaps in data collection, propose and analyze approaches necessary to change and augment data collection systems and other information needed to support all reporting requirements under ACA, CHIPRA and ARRA, and propose reporting mechanisms and protocols for such reporting;
 - c) update and revise the CMS Tribal Technical Advisory Groups 2013-2018 Strategic Plan (which is used to guide the administration of CMS programs in Indian country) to incorporate legislative and regulatory changes resulting from the ACA; and
 - d) Provide research support on the use and effectiveness of the CMS tribal consultation policy so that the agency can be assured to get appropriate tribal input when developing policies that will have a substantial direct effect on tribes.
- (e) Evaluate the effectiveness of outreach and enrollment efforts to AI/AN beneficiaries in CMS programs by conducting training on the basics of CMS programs to enrollment assisters and Indian health provider third party resource staff, learning and sharing best practices to increase AI/AN enrollment, and developing AI/AN culturally appropriate outreach materials based on feedback from training and outreach efforts. Provide quarterly reports summarizing outreach trainings and enrollment events, compilation of best practices utilized and lessons learned, and analysis of and recommendations to improve outreach efforts in Indian Country.

Indirect Costs - If grantee requests indirect costs, an approved Indirect Cost Rate Agreement will be required to support those costs. The provisions of OMB Circular A-87 govern reimbursement of indirect costs under this funding

opportunity announcement. OMB Circulars are available on line at: <http://www.whitehouse.gov/omb/circulars>

Direct Services - funds may not be used to provide individuals with services that are already funded through Medicare, Medicaid and/or CHIP. These services do not include expenses budgeted for provider and/or consumer task force member participation in conferences, provision of technical assistance, or attendance at technical assistance conferences sponsored by CMS or its national technical assistance providers for the benefit of awardees.

The applicants budget may not exceed a maximum funding level or project period of five years.

Reimbursement of Pre-Award Costs No funds awarded under this funding opportunity announcement may be used to reimburse pre-award costs.

Other Prohibited Uses of Funds

To match any other Federal funds.

To provide services, equipment, or supports that are the legal responsibility of another party under Federal or State law (e.g., vocational rehabilitation or education services) or under any civil rights laws. Such legal responsibilities include, but are not limited to, modifications of a workplace or other reasonable accommodations that are a specific obligation of the employer or other party.

To supplant existing state, local, or private funding of infrastructure or services, such as staff salaries, etc.

To be used by local entities to satisfy state matching requirements.

To pay for the use of specific components, devices, equipment, or personnel that are not integrated into the application.

To pay for construction or alteration and renovation of real property (A&R).

To pay for information technology (IT) equipment exceeding 10 percent of the total award. Any equipment, which includes IT, over \$5,000 must be approved by CMS.

To pay states for the use of any of their data made available for this initiative.

Other limitations - A current recipient cannot be awarded a new, renewal, or competing continuation grant for any of the following reasons:

The current project is not progressing in a satisfactory manner;
The current project is not in compliance with program and financial reporting requirements;
The applicant has an outstanding delinquent Federal debt;
No award shall be made until the delinquent account is paid in full; or
A negotiated repayment schedule is established and at least one payment is received.
Indirect Costs - If grantee requests indirect costs, an approved Indirect Cost Rate Agreement will be required to support those costs. The provisions of OMB Circular A-87 govern reimbursement of indirect costs under this funding opportunity announcement. OMB Circulars are available on line at: <http://www.whitehouse.gov/omb/circulars>

Direct Services - funds may not be used to provide individuals with services that are already funded through Medicare, Medicaid and/or CHIP. These services do not include expenses budgeted for provider and/or consumer task force member participation in conferences, provision of technical assistance, or attendance at technical assistance conferences sponsored by CMS or its national technical assistance providers for the benefit of awardees.

The applicants budget may not exceed a maximum funding level or project period of five years.

Reimbursement of Pre-Award Costs No funds awarded under this funding opportunity announcement may be used to reimburse pre-award costs.

Other Prohibited Uses of Funds

To match any other Federal funds.

To provide services, equipment, or supports that are the legal responsibility of another party under Federal or State law (e.g., vocational rehabilitation or education services) or under any civil rights laws. Such legal responsibilities include, but are not limited to, modifications of a workplace or other reasonable accommodations that are a specific obligation of the employer or other party.

To supplant existing state, local, or private funding of infrastructure or services, such as staff salaries, etc.

To be used by local entities to satisfy state matching requirements.

To pay for the use of specific components, devices, equipment, or personnel that are not integrated into the application.

To pay for construction or alteration and renovation of real property (A&R).

To pay for information technology (IT) equipment exceeding 10 percent of the total award. Any equipment, which includes IT, over \$5,000 must be approved by CMS.

To pay states for the use of any of their data made available for this initiative.

Other limitations - A current recipient cannot be awarded a new, renewal, or competing continuation grant for any of the following reasons:

The current project is not progressing in a satisfactory manner;
The current project is not in compliance with program and financial reporting requirements;
The applicant has an outstanding delinquent Federal debt;
No award shall be made until the delinquent account is paid in full; or
A negotiated repayment schedule is established and at least one payment is received.

Applicant Eligibility:

Eligibility is limited to the National Indian Health Board, and this single source award was approved by the Chief Grants Management Officer. NIHB meets the definition of tribal organization under the Indian Health Care Improvement Act (IHCA) 25 USC Section 1603(26), with significant historical experience in providing outreach and education and the provision of health care information for Indian Tribes and Tribal Organizations. NIHB is a legally established organization controlled and governed by Indians and includes the maximum participation of Indians in all phases of its activities. NIHB has 100 percent appointed or elected officers that comprise the Board of Directors. NIHB acts in a supportive role to ensure the dissemination of health care education and information to tribes.

NIHB must submit a copy of the 501(c)(3) Non-profit Certification as proof of non-profit status.

Applicant must have an Employer Identification Number (EIN), otherwise known as a Taxpayer Identification Number (TIN), to apply.

Applicant must have a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number. The DUNS number is a nine-digit identification number that uniquely identifies business entities. To obtain a DUNS number, access the following website: <http://www.dnb.com/> or call -866-705-5711. This number should be entered in the block 8c (on the Form SF-424, Application for Federal Assistance). The organization name and address entered in block 8a and 8c should be exactly as given for the DUNS number. Applicant should obtain this DUNS number immediately to ensure all registration steps are completed in time.

Applicant must also register in the Central Contractor Registration (CCR) database in order to be able to submit the application. Applicant should begin

the CCR registration process immediately to ensure that it does not impair ability to meet required submission deadlines.

Beneficiary Eligibility:

The primary beneficiaries of this effort are American Indians and Alaska Natives who are eligible for CMS programs to get them educated about and enrolled in CMS programs, as appropriate, ensure that Indian health care providers can participate and are enrolled in CMS programs, and to reduce health disparities in tribal communities. By enrolling in CMS programs, AI/ANs benefit by having greater access to services that may not be provided by their local Indian health care providers, and tribal communities benefit through increased resources to their Indian health care programs.

The Federal government will benefit by obtaining information to help make more informed policies which will improve administration of CMS programs in tribal communities and thereby provide AI/ANs access to quality health care.

Federally Recognized Indian Tribal Governments and Native American Organizations would benefit because they can provide information and insight to help CMS understand the tribal provider and tribal beneficiary perspective so that CMS can make informed policy decisions that would permit CMS programs to be administered and operate effectively and efficiently in tribal communities and not conflict with legislative/regulatory authority under which the Indian Health Service programs operate.

Credentials/Documentation:

NIHB must submit its 501(c)(3) Nonprofit Certification as proof of nonprofit status. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. A complete application should consist of the following documents organized in the following sequence:

Cover letter
SF-424 Application for Federal Assistance
SF-424A Budget Information
A budget narrative not to exceed 15 single spaced pages
Abstract of project
A research project narrative that describes each of the five separate project objectives (the entire narrative not to exceed 40 single spaced pages)
SF-424B Assurances
Health Board resolution
501(c)(3) Non-profit Certification
Resumes for all key personnel
Position descriptions
Disclosure of lobbying activities (SFLLL) (if not applicable, then annotate the form)
Copy of approved indirect cost (IDC) rate agreement (if applicable)
Documentation of current OMB A-133 required financial audit (if applicable)
Acceptable forms of documentation include: e-mail confirmation form Federal Audit Clearinghouse (FC) that audits were submitted; or Face sheets from audit reports. These can be found at: <http://harvester.census.gov/sac/> or <http://harvester.census.gov/sac/dissem/entity.html?submit=Return+tp+Entity+Search>
Project Narrative:
Separate Project Narratives are required for each of the five projects: Each narrative should be a separate Word document that does not exceed 8 pages with consecutively numbered pages. If the individual project narrative exceeds the page limits noted above, only the first 8 pages will be reviewed. The total number of pages submitted should not exceed 40 pages for each of the five projects.

There are three parts to the narrative for each of the five projects:

Part A Program Information (1 page limitation)

Section 1: Needs

Part B Program Planning and Evaluation (6 page limitation); and

Section 1: Program Plans

Section 2: Program Evaluation

Part C Program report. (1 page limitation)

Section 1: Describe major accomplishments over the last 24 months

Section 2: Describe major activities over the last 24 months.

Budget Narrative

A separate budget narrative is required for each project. Each narrative must describe the budget amount(s) requested and match the corresponding scopes of work described in the project narrative. The total page limitation for the budget is three pages for each project for a total of 15 pages.

The applicant should provide a detailed breakdown of the aggregate number for the budget recorded on standard form 424 (SF 424) application for Federal Assistance, including allocations for each major set of activities or proposed tasks. The proposed budget justification must clearly describe each cost element in the related budget category. The budget must clearly identify what funds will be administered directly by the lead agency and what will be subcontracted to other partners. The designated lead agency is solely responsible for the fiscal management of the project.

NIHB must supplement Budget Form SF424A with a Budget Narrative. The narrative must include a yearly breakdown of costs for the five-year grant period of performance. Specifically, the Budget Narrative should provide a detailed cost breakdown for each line item outlined in the SF 424A by year including a breakdown of costs for each activity/cost with the line item. The proportion of grant funding designed for each activity should be clearly outlined and justify the institutions readiness to receive funding through 2021 including complete explanations and justifications for the proposed grant activities. The budget must separate out funding that is administered directly by the awardee from any funding that will be subcontracted.

The following budget categories should be addressed (as applicable):

Personnel

(Note: none of the funds shall be used to pay the salary of an individual, through a grant or other extramural mechanism, at a rate in excess of Executive Level II (\$179,700))

Fringe benefits

Contractual costs, including subcontracts

Equipment

Supplies

Travel

Indirect charges, Indirect costs shall be supported by an approved Indirect cost rate agreement.

Other costs, including those not otherwise associated with training and education.

The Budget Narrative must outline the strategies and activities of the program, and provide cost breakdowns for any subcontracts that will be implemented to achieve anticipated outcomes.

The Budget Narrative shall also clearly distinguish the funding source for any given activity/cost, as either Federal or Non-Federal. The applicant should pinpoint those costs funded through in kind contributions. Applicant must include detailed salary and fringe benefit costs for staff dedicated to the project through an in-kind contribution, to include yearly salary costs and the percentage of time dedicated to the project (for any given year).

The total budget should include both direct and indirect costs, if applicable.

Award Procedure:

The review process will include the following:

NIHBs application will be reviewed to determine eligibility using the criteria detailed in the funding opportunity announcement. An application that is received late or that fails to meet the eligibility requirements as detailed in the FOA or does not include the required forms will not be reviewed.

An independent, objective review of the application will be conducted. The review panel will assess the application based on the review criteria to determine the merits of the application and the extent to which it furthers the purposes of the research program. The review panel comments and recommendations will be condensed into a summary statement that will assist CMS in making the award decision. CMS will use the information to judge the likelihood that the project will be successfully implemented and will have tangible, beneficial outcomes.

The applicant will receive written notification of the award decision. An award will be made to the successful applicant on or before September 29, 2017.

The successful applicant will receive an official Notice of Award (NOA) signed by the CMS Grants Management Officer, OAGM, that will set forth the amount of the award and other pertinent information, including any specific terms conditions of the award required for the fulfillment of the grant. The NOA is a legal document issued to notify the grantee that the award has been approved and that funds are now available for draw down from the HHS Payment Management System (PMS). Any communication between CMS and an awardee prior to issuance of the NOA is not an authorization to begin implementation of a project.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Contact headquarters for approval information.

Appeals:

Not Applicable.

Renewals:

Renewals for FY 2017-2021 will be provided each of these fiscal years based on the availability of funding and grantees acceptable performance.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Section 1110 of the Social Security Act requires cost sharing by the applicant. To comply with this requirement, CMS requires that the applicant provide cost sharing equal to at least one percent (1%) of the amount of the award. This cost sharing requirement may be satisfied through in-kind contributions.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

N/A. Method of awarding/releasing assistance: quarterly.

Reports:

The grantee must submit the following required reports through the period of performance: 1) quarterly progress reports, 2) annual report, and 3) final report. CMS will provide the format for these reports in the terms and conditions.

Research and analysis of impact of CMS Regulations/Initiatives on the Indian health care system quarterly and annual reports to summarize the impacts of the CMS-related regulations and initiatives on provision of health care in the I/T/U system and AI/AN beneficiaries.

Data Research and Analysis Project-Prepare Medicare and Medicaid/CHIP annual reports that include: findings from the analysis of the Medicare, Medicaid, and CHIP data; identifies gaps in data collection; identifies shortcomings in system interactions; proposes CMS/IHS/SSA data interface protocols; and makes specific recommendations on additional data systems improvements. No cash reports are required. In order for CMS to monitor the grantees efforts toward reaching the goals of the grant program, the grantee must agree to provide CMS with information it may require to assess the functioning and effectiveness of the program and to ensure that the grant monies are expended for the purposes for which they were awarded.

The grantee must submit the following required reports through the period of performance: 1) quarterly progress reports, 2) annual report, and 3) final report.

CMS will provide the format for these reports in the terms and conditions. Federal financial reporting-- submit the SF-425 Federal Financial Report on an annual, semi-annual, or quarterly basis. More details are outlined in the Notice of award Terms and Conditions.

Transparency Act Reporting Requirements report information for each first-tier sub-award of \$25,000 or more in Federal funds and executive total compensation for the recipients and surecipients five most highly compensated executives as outlined in Appendix A and 2 CFR Part 170 (on line at www.frsr.gov). A performance report is required quarterly and annually.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Guidelines within OMB Circular No. A-133

Records:

The recipient must maintain expenditures and other financial records detailing the use of cooperative agreement funds and the progress reports for three years from the day on which the grantee submits the last financial status report for the grant period unless there is an open investigation in which case the records must be maintained during the duration of the investigation.

93.342 HEALTH PROFESSIONS STUDENT LOANS, INCLUDING PRIMARY CARE LOANS/LOANS FOR DISADVANTAGED STUDENTS

HPSL, PCL, LDS

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, Title VII, Part C, Section 721-735, 42 U.S.C. 292q-292y; Health Professions Education Partnerships Act of 1998, Public Law 105-392.

OBJECTIVES:

To increase educational opportunities by providing long-term, low-interest loans to students in need of financial assistance and in pursuit of a course of study in an approved health discipline.

TYPES OF ASSISTANCE:

Project Grants (to capitalize loan funds)

USES AND USE RESTRICTIONS:

Funds on deposit can only be used for loans to eligible students pursuing a full-time course of study. The maximum amount a student may borrow is the cost of attendance (including tuition, other reasonable educational expenses and reasonable living expenses). Third and fourth year medical and osteopathic medicine students may be eligible for additional funding to repay earlier higher-interest educational loans. The interest rate is five percent.

To be eligible for a Primary Care Loan (PCL), students of allopathic medicine and osteopathic medicine must meet financial need criteria and agree to enter and complete a residency training program in primary health care not later than four years after the date on which the student graduates from such school. The PCL borrower must also practice primary health care for 10 years (including the years spent in residency training) or through the date in which the loan is repaid in full, whichever occurs first.

To be eligible for Loans for Disadvantaged Students (LDS) students must meet the Health Professions Student Loans (HPSL) criteria and also be from a disadvantaged background as defined by the Secretary. A school must be carrying out a program for recruiting and retaining students from disadvantaged backgrounds, including racial and ethnic minorities and carrying out a program for recruiting and retaining minority faculty to be eligible for LDS funds. In addition, the school must agree to ensure that adequate instruction regarding minority health issues is in the curricula of the school. Health clinics must provide services to a significant number of individuals who are from disadvantaged backgrounds, including members of minority groups and enter into arrangements with one or more such clinics for the purpose of providing students of the school with experience in clinical services to such individuals. Secondary educational institutions and undergraduate institutions of higher

education must enter into arrangements with one or more such institutions for the purpose of carrying out programs regarding the educational preparation of disadvantaged students, including minority students, to enter the health professions and recruit such individuals into the health professions. These institutions should also establish a mentor program for assisting disadvantaged students, including minority students, toward completion of the educational requirements for degrees from the school. .

Applicant Eligibility:

Any accredited public or other nonprofit private school of medicine, dentistry, osteopathic medicine, optometry, podiatry, pharmacy, or veterinary medicine which provides a course of study leading to a degree of Doctor of Medicine or Doctor of Osteopathic Medicine for PCL and LDS borrowers, Doctor of Dentistry (or an equivalent degree), Doctor of Optometry (or an equivalent degree), Doctor of Podiatric Medicine (or an equivalent degree), Bachelor of Science in Pharmacy (or an equivalent degree), Doctor of Pharmacy (or an equivalent degree), or Doctor of Veterinary Medicine (or an equivalent degree) for HPSL and LDS borrowers. Additionally, the school must be located in the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, the Republic of the Marshall Islands, or the Federated States of Micronesia. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Student applicants must display financial need and be enrolled or accepted for enrollment in a health professions school to pursue a full-time course of study leading to a degree as specified above. Students must also be citizens, nationals or lawful permanent residents of the United States, the District of Columbia, the Commonwealths of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, the Republic of the Marshall Islands, or the Federated States of Micronesia.

Credentials/Documentation:

Annual operating reports serve as the renewal application for current loan recipient institutions. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:
